19 April 2004

Written Ministerial Statements

Monday 19 April 2004

INTERNATIONAL DEVELOPMENT

St. Helena (Air Access)

The Parliamentary Under-Secretary of State for International Development (Mr. Gareth Thomas): On 16 September 2003, *Official Report*, col. 43WS, I announced in a written statement to the House that four expressions of interest had been received to last April's international invitation for private sector participation and potential investment in possible development of access by air for St. Helena. Since then, as anticipated in my statement, a full assessment of the four proposals has been carried out with the help of expert advice from Atkins Management Consultants and in consultation with the St. Helena Government.

That assessment is complete. After very careful consideration, and taking account of the advice provided in December 2003 and February 2004 by Atkins Management Consultants, we have concluded that none of the four outline proposals offers a basis upon which we might negotiate air access for St. Helena with DFID financial assistance as described in the invitation. The four respondents to the invitation have been informed. We have further decided, in the light of detailed scrutiny of the four proposals and subsequent analysis, to discontinue attempts to develop air access as part of a cross-linked package of private sector investment in which air access would be part-funded by proceeds from other private development. These decisions were based on our carefully considered conclusion that this approach presents unacceptable levels of risk and uncertainty to the St. Helena and UK Governments.

Nevertheless, we understand that air access still remains the preferred option of the people of St. Helena for maintaining physical links with the island after the present ship is withdrawn from service during or soon after 2010. We will work with the St. Helena Government to explore ways of providing air access and the value for money of these against other options. The costs are likely to be substantial. We therefore will conduct full feasibility and other investigatory work, which will take account of all costs and long-term impacts, in order to inform future decisions. The St. Helena Government and DFID expect to be in a position to take these decisions later this year.

Meanwhile, St. Helena has appointed its own local coordinator to assist in the process. We shall continue to ensure that, with her help, the people of St. Helena and others are kept as fully informed as possible of progress.

DEFENCE

ECHR Judgments (Courts Martial)

The Parliamentary Under-Secretary of State for Defence (Mr. Ivor Caplin): On 6 January 2004, I set out the main findings of the judgment of 16 December 2003 of the Grand Chamber of the European Court of Human Rights in the cases of Cooper and Grieves and future conduct of courts martial. In particular, I stated the Government's intention to put a remedial order before both Houses under section 10 of the Human Rights Act 1998 for the purpose of making the necessary changes to naval court-martial arrangements that would ensure compliance with the ECHR.

The Naval Discipline Act 1957 (Remedial) Order 2004 came into force on 16 January 2004, pursuant to the procedure prescribed in paragraph 4 of schedule 2 to the Human Rights Act 1998. To date, I have received no representations concerning the order. I am grateful to the Joint Committee on Human Rights for recommending that the order be approved. The Government therefore do not intend to amend or replace the order currently before the House.

TREASURY

OGC Buying Solutions: Performance Targets 2004–05

The Chief Secretary to the Treasury (Mr. Paul Boateng):

Savings

The agency will facilitate at least £300 million value for money improvements for the public sector in 2004–05.

Customer satisfaction

The agency will continue to achieve levels of customer satisfaction above 90 per cent. as a headline figure and will demonstrate continuing improvements in customer satisfaction through other measures.

ROCE

The agency will make a return on capital employed of 6.5 per cent.

Efficiency

The agency will reduce by 5 per cent. the ratio of internal costs over value for money improvements with the outturn for the same ratio in 2003–04 (excluding any new business e.g. WDS)

A copy of the agency's Business Plan for 2004–05 can be found on their website www.ogcbuyingsolutions.gov.uk.

DEPUTY PRIME MINISTER

Agricultural Land

The Minister for Housing and Planning (Keith Hill): There has been a great deal of concern that agricultural land is being sub-divided into smaller plots and sold over the internet to purchasers who believe they may at some point in the future be able to build on the land. There are two issues of public concern surrounding the sub-division and sale of plots. Firstly, the erection of

fencing and the installation of caravans and access roads using permitted development rights granted under the Town and Country Planning (General Permitted Development) Order 1995. This can lead to an unwelcome change in the appearance of open countryside, the loss of agricultural land and concern about the neglect of land split into different ownership. The other issue is whether buyers of the plots are being misled into thinking they will eventually be able to build properties on the plot and the fear from neighbours that development will be inevitable.

When the matter was debated at the Commons Report stage of the Planning and Compulsory Purchase Bill, the Under-Secretary, my hon. Friend the Member for Pontefract and Castleford (Yvette Cooper), undertook to keep Members informed on progress made in considering what could be done to prevent the unwelcome development of sub-divided agricultural land. This statement provides an update on he measures that we have been considering.

As the issue arises from the sale of land in agricultural use in a way that implies the potential for development we have looked carefully at consumer protection measures. We do not think this offers a way forward at present. Cooling-off periods are usually a way of protecting people against high pressure selling techniques and they would probably not be effective here as there is no evidence that buyers have been subjected to these techniques. Moreover many of the purchasers of these sub-plots see themselves as making a long-term investment. They are not deterred by the knowledge that there is no likelihood of the land being granted planning permission for development.

We have also considered ways in which control over development on sub-plots could be tightened either by amending or removing permitted development rights, perhaps by requiring prior approval for development on sub-plots, or by classing the division of land into sub-plots or unused land as development. It became clear that real difficulties arose in trying to distinguish between the development we wanted to prevent and legitimate development we did not want to hinder. We need to balance the needs of legitimate users of permitted development rights against the desire to prevent unwelcome developments. Any benefits would be greatly outweighed by the negative impacts of any changes and open to further abuse.

A number of other issues have been raised during debates on this issue which fall within the remit of our review of the planning enforcement system in England and these points will be considered alongside that review.

However there are measures we can bring forward which will enable local planning authorities to take more immediate action as soon as evidence of abuse is suspected or emerges. We will consult in the summer on changes to enable local planning authorities to serve article 4 directions on site rather than in a newspaper to bring them into effect more quickly and on changes to allow an article 4 direction to come into effect without the Secretary of State's approval on a wider range of permitted development rights than is the case at present. We have already taken steps in the Planning and Compulsory Purchase Bill to introduce a measure to help speed up enforcement action following a breach of planning control that will enable local planning authorities to issue a temporary stop notice when a breach of planning control is first identified without first having had to serve an enforcement notice.

A large number of powers are already available to local authorities that some authorities use more effectively than others. We are also today issuing a letter to local planning authorities that sets out a summary of existing powers to deal with sub-plots. The letter encourages local planning authorities and amenity societies to advertise or use the Internet to give prospective plot purchasers a realistic idea of the likely development potential of their plots.

The Department of Trade and Industry and the Office of Fair Trading will investigate complaints about widespread misleading advertising or misselling of sub-plots. DTI's "Don't be A Mug!" website also provides a consumer's guide to scams and rip-offs and has recently been updated following a DTI campaign on investment scams. The address of the investment scams pages is http://www.dti.gov.uk/ccp/scams/page9.htm. Many of the points included on his section of the website are also applicable to sub-plots.

Unitary Development Plans (London)

The Minister for Housing and Planning (Keith Hill): The test is of "general conformity" and not conformity. This means that it is only where an inconsistency or omission in a UDP would cause significant harm to the implementation of the spatial development strategy (SDS) that the UDP should be considered not to be in general conformity.

The fact that a UDP is inconsistent with one or more policies in the SDS, either directly or through the omission of a policy or proposal, does not, by itself, mean that the UDP is not in general conformity. Rather the test is how significant the inconsistency is from the point of view of delivery of the SDS.

Where a borough considers that one or more of the UDP policies and proposals are not consistent with the SDS, it must give robust reasons for this.

An opinion by the mayor that a UDP is not in general conformity does not mean the document automatically falls. Rather, the mayor's opinion on the matter would go forward as a duly made objection to be considered by the Inspector at the inquiry. The inspector will determine whether he or she supports the opinion and recommend accordingly.

In addition to any concerns about a lack of general conformity, the mayor may wish to make other representations concerning changes to specific policies and proposals which he would wish to see.

Where a UDP review has passed the formal deposit stage there is no specific provision for the mayor to make formal objections on the grounds of general conformity, although the mayor, like any other party, may make representations to a borough any time before the adoption of the plan. However, the Secretary of State would wish the mayor and the boroughs to resolve issues of general conformity through discussion, having regard to the Secretary of State's policy. It will be for boroughs to satisfy themselves that a UDP is in general conformity with the SDS before proceeding to adoption.

CULTURE, MEDIA AND SPORT

BBC Chairman

The Secretary of State for Culture, Media and Sport (Tessa Jowell): I wish to announce formally the appointment of Michael Grade CBE as the new Chairman of the BBC. Her Majesty the Queen approved his appointment in Council on 31 March and it will take effect from 17 May for a period of four years.

Michael Grade was the best candidate for the post. He has a passion for broadcasting, especially public service broadcasting. He knows it inside out. He has the energy to lead the BBC from the front, defending its independence and integrity from all comers. I am confident that, in Michael Grade, the BBC will have a Chairman of whom it can be proud.

The appointments process by which Michael Grade was appointed followed the Commissioner for Public Appointments' Code of Conduct rules in full. The post was advertised in the national press and on the internet, shortlisted candidates were interviewed by a panel, including an independent assessor, who was involved throughout the process. Additionally, due to the exceptional public interest in this post, Dame Rennie Fritchie, the Commissioner for Public Appointments, chaired an independent scrutiny panel which acted as guarantor for the fairness of the process and to ensure its integrity.

Dame Rennie issued a press notice confirming that the Scrutiny Panel, consisting of Lord Steel of Aikwood, right hon. Dr Jack Cunningham and Lord Paul Condon, had examined the process thoroughly and rigorously and was entirely satisfied in the design, implementation and outcome.

HOME DEPARTMENT

Futurebuilders Fund

The Parliamentary Under-Secretary of State for the Home Department (Fiona Mactaggart): I am announcing the establishment of an advisory group for the futurebuilders fund.

Futurebuilders is a £125 million investment fund to assist voluntary and community organisations and social enterprises in their public service work. It will enable organisations to modernise their operations so that they can increase the scale and scope of their public service delivery.

The fund will provide finance to acquire capital assets, through a range of funding solutions, including grants and various forms of loans. Advice and support will also be available to organisations to help them in accessing the fund.

The fund will be managed by Futurebuilders England, a consortium of organisations with experience of funding voluntary and community organisations.

The advisory group will advise ministers on the continuing objectives, priorities and governance and on the implementation and effectiveness of the fund. The group will have an independent chair, who will be appointed following an open recruitment process. Advertisements will appear in the press shortly.

Written Ministerial Statements

Tuesday 20 April 2004

ENVIRONMENT, FOOD AND RURAL AFFAIRS

Flood Defence Finding Review

The Minister for the Environment (Mr. Elliot Morley): On 12 March 2003 my right hon. Friend the Secretary of State announced the conclusions of our review of the funding and administrative arrangements for delivering a more efficient, effective and accountable flood and coastal defence service. A year on I want to update the House on the progress we have made towards implementing these conclusions, and outline what remains to be done.

We have set in hand arrangements for the Environment Agency to receive a single stream of Defra grant in aid funding from 1 April 2004. This will replace the previous mix of Defra grant for individual capital projects and, in large part, the levies previously raised through local authorities. This should provide the agency with more certainty of funding, allowing them to plan more strategically, while streamlining the procedures associated with implementing flood defence schemes. In future Defra approval will no longer be required for agency projects or strategies which are below £5 million though we will have the opportunity to call in strategies, and projects undertaken outside strategies, which are between £2 million and £5 million. We will also continue to ensure that the distribution of capital funding between the agency and other operating authorities (local authorities and internal drainage boards) is based on our priority scoring system which takes account of the number of people affected in relation to the cost of the project, the environment and benefit cost ratio.

Payment of grant in aid will be linked to robust targets in the agency's corporate plan. The agency may continue to raise limited levies on local authorities, agreed through flood defence committees on which local authorities have a majority, to fund locally important flood defence works beyond those covered by Defra funding. These local levies are set to raise some £24.4 million in 2004–05.

Work has also started on the procedures for transferring to the Environment Agency responsibility for those watercourses representing the greatest flood risk—the so-called critical ordinary watercourses. This will significantly improve accountability for flood risk with over 2,000 separate lengths of river identified for transfer. The necessary statutory procedures will start shortly with transfers taking place in stages until April 2006. Day to day management of the watercourses can be contracted back to internal drainage boards and local authorities where this is appropriate and agreed. As part of this exercise we are fully digitising the existing main river maps.

The Government also announced the intention to move to a single tier of flood defence committee to remove the bureaucracy and second-guessing of decisions involved in having two tiers of committee in several Environment Agency regions. The Environment Agency has consulted on the proposed successor arrangements and I expect to receive their recommendations for future structures within the next month. I shall consider their proposals and bring forward orders as appropriate.

We have also made progress on a number of other important initiatives to help improve the accountability and delivery of the flood defence service. From 1 April 2004 internal drainage boards will fall under the jurisdiction of the local government ombudsman and we have developed a complaints procedure for individual boards to adopt.

We are also working with the Association of Drainage Authorities and the Environment Agency to develop new targets for the administration and membership of boards but in the meantime I am encouraged that arrangements are already being made for 16 existing boards to merge into three larger boards in the Anglia region, and discussions are taking place in other regions.

Jointly with the Environment Agency we have considered ways in which overheads associated with capital schemes can be reduced. We will be implementing agreed findings and targets for overhead reduction will appear in the agency's corporate plan.

We will be assessing the benefits realised through implementation of these conclusions as part of a three-year review which we will undertake in 2007.

Whilst the funding review conclusions are being taken forward, Defra is simultaneously leading work on a new Government wide strategy for flood and coastal erosion risk management to be underpinned by the principles of sustainable development. This is being taken forward in full consultation with stakeholders and will look across all Government policies. As part of the strategy we are undertaking further work on possible new funding streams to go alongside Exchequer funding which, as we announced last March, will continue primarily to fund the service. We intend that the new strategy will steer the direction of policy over the next 10–20 years and that it will be completed in the coming financial year.

Defra, the Environment Agency and others are putting great effort into implementing the funding review outcomes and developing a new long-term strategy. Implementing flood defence grant in aid from this April is a notable achievement and other substantial reforms to improve accountability and effectiveness will be in place in the next 12 to 24 months.

WORK AND PENSIONS

Benefit Fraud Inspectorate (Ealing Council)

The Parliamentary Under-Secretary of State for Work and Pensions (Mr. Chris Pond): On behalf of my right hon. Friend the Secretary of State for Work and Pensions, the Benefit Fraud Inspectorate (BFI) follow-up inspection report on London Borough of Ealing Council was published on 14 April 2004 and copies of the report have been placed in the Library.

Following the housing green paper "Quality and Choice: A Decent Home for All", published in April 2000, the Department for Work and Pensions developed a performance framework for housing benefits. The "performance standards for housing benefits" allow local authorities to make a comprehensive self-assessment of whether they deliver benefit effectively and securely. They are the Standards that the Department for Work and Pensions expects local authorities to aspire to and achieve in time.

The BFI inspected London Borough of Ealing Council against the Performance Standards for housing benefits. The report finds that the council is not at Standard for any of the seven functional areas of the Performance Standards—strategic management, customer services, processing of claims, working with landlords, internal security, counter-fraud, and overpayments.

However, the report finds that the council had made sustained improvements in a number of areas since the first BFI inspection report published in December 2000. The council:

> had significantly reduced its backlog of work from 46,000 items to 4,000; was processing housing benefits claims faster; had reduced the amount of time that customers wait when they make an enquiry by telephone or in person; had reduced the number of complaints and increased the level of satisfaction reported by customers; and had prosecuted more benefit fraudsters.

Weaknesses still remained in the controls for internal fraud and for recovering overpayments of benefit. The council still needs to do more to better manage its counter-fraud effort and, in particular, to deter fraud.

The council had improved its processing times for new claims to benefit and changes of circumstances, taking an average 51 days to process claims and 15 days to process changes of circumstances compared to the national standards of 36 and 9 days.

The council had carried out a number of good quality fraud investigations. During 2002–03, it had prosecuted 18 fraudsters compared to one during 1999–00 putting it in the top 25 per cent. of performers compared with the other London boroughs.

In 2002–03, London Borough of Ealing Council administered some £121.2 million in housing benefits, about 18 per cent. of its gross revenue expenditure.

The report makes recommendations to help the council address weaknesses and to further improve the administration of housing benefit and council tax benefit, as well as counter-fraud activities.

My right hon. Friend the Secretary of State is now considering the report and will be asking the council for its proposals in response to the BFI's findings and recommendations.

Benefit Fraud Inspectorate (Leicester City Council)

The Parliamentary Under-Secretary of State for Work and Pensions (Mr. Chris Pond): On behalf of my right hon. Friend the Secretary of State for Work and Pensions, the benefit fraud inspectorate (BFI) inspection report on Leicester city council was published on 15 April 2004 and copies of the report have been placed in the Library. Following the housing green paper "Quality and Choice: A Decent Home for All", published in April 2000, the Department for Work and Pensions developed a performance framework for housing benefits. The performance standards for housing benefits allow local authorities to make a comprehensive self-assessment of whether they deliver benefit effectively and securely. They are the standards that the Department for Work and Pensions expects local authorities to aspire to and achieve in time.

The BFI inspected Leicester city council against the performance standards for housing benefits. The report finds that the council is not at standard for any of the seven functional areas of the performance standards—strategic management, customer services, processing of claims, working with landlords, internal security, counter-fraud and overpayments.

However, the report notes the considerable efforts made by members, senior officers and staff over a sustained period of time.

The report finds that the council had a backlog of around 14,500 cases, poor IT reliability, insufficient management information which together with limited planning had hindered the council's ability to deliver an effective benefits service. This had resulted in new benefit claims and changes of circumstances taking 141 days and 49 days to process during 2002–03.

Although processing times were taking too long, the quality of processing and verification of claims was found to be of a good standard. However, the lack of effective management checks meant that the council had only limited assurance that benefits were being paid correctly and securely. Also, customers were experiencing problems trying to access the benefits service by telephone.

The quality of fraud investigation work was good and all investigation officers were trained to professional standards. However, limited resources and weaknesses in the planning of investigation work were undermining efforts to secure the benefits system.

In 2002–03, Leicester city council administered some £97 million in housing benefits, about 16 per cent. of its total gross revenue expenditure.

The report makes recommendations to help the council address weaknesses and to further improve the administration of housing benefit and council tax benefit, as well as counter-fraud activities.

My right hon. Friend the Secretary of State is now considering the report and will be asking the council for its proposals in response to the BFI's findings and recommendations.

NORTHERN IRELAND

New Targeting Social Need

The Secretary of State for Northern Ireland (Mr. Paul Murphy): I wish to advise the House that on 14 April 2004 I launched a public consultation exercise in respect of a proposed way forward for new targeting social need (New TSN), the Government's high level policy for tackling poverty and social exclusion in Northern Ireland.

By undertaking this consultation we are fulfilling a commitment given by the previous Northern Ireland Executive, in its programme for Government, to review the New TSN policy.

Copies of the consultation paper "New TSN—the Way Forward Towards an Anti-Poverty Strategy" have been placed in the Libraries of both Houses.

Water Resource Strategy

The Minister of State, Northern Ireland Office (Mr. John Spellar): Today I am publishing the Water Service's Water Resource Strategy 2002–30.

The Strategy provides a framework for meeting increasing water demand in Northern Ireland, through the efficient use of water including leakage reduction and by upgrading and rationalising the existing supply system.

An Executive Summary of the Strategy has been placed in the Libraries of both Houses and is available on the Water Service website at www.waterni.gov.uk.

DEFENCE

Joint Medal Office

The Parliamentary Under-Secretary of State for Defence (Mr. Ivor Caplin): As part of a wider modernisation of service personnel administration policies and the procedures and the introduction of the IT to support their delivery known as the joint personnel administration (JPA) programme, and following an investment appraisal and consultation with trade unions, the decision has been taken to concentrate the delivery of JPA from three sites: Innsworth, Gosport and Glasgow.

This will incorporate the creation, from March 2005, of a joint medal office at Innsworth the current location of the RAF medal office and will involve the phased closure of the army medal office at Droitwich and the Royal Navy and Royal Marines medal offices located at Gosport. In order to provide continuity of service and to build up the necessary expertise at Innsworth the transfer of responsibilities will be phased.

Consultation with MOD Trade Unions about the choice of the three sites from which JPA will be delivered has been undertaken and detailed local consultation about the implications for staff will start shortly. It is expected that some of the current staff will transfer to Innsworth with the work. It is anticipated that staff at Gosport and Innsworth who are unable to transfer to the JMO will be found other positions in the locality, but I cannot rule out a programme of early retirement and redundancy that may be required in particular at Droitwich.

DEPUTY PRIME MINISTER

Neighbourhood Wardens Scheme

The Parliamentary Under-Secretary of State, Office of the Deputy Prime Minister (Yvette Cooper): The Government is today publishing a research report and research summary entitled "Neighbourhood Wardens Scheme Evaluation". This evaluation of the neighbourhood wardens scheme, undertaken by Social Development Direct, concludes that, in successful schemes, wardens are laving a significant impact. Neighbourhood wardens schemes represent value for money in relation to crime reduction. There are also important, but uncosted, additional benefits—improved quality of life, reduced fear of crime, improvements in environmental problems and anti-social behaviour.

Copies of the research report and summary are available at www.neighbourhood.gov.uk and in the Library of the House.

Regional Planning Guidance (North-West)

The Parliamentary Under-Secretary of State, Office of the Deputy Prime Minister (Yvette Cooper): The North West Regional Assembly (NWRA) published, on 19 April, a consultative draft of the Partial Review of Regional Planning Guidance for the North West (RPG13) that was published by my right hon. Friend, the Deputy Prime Minister in March 2003.

RPG13 sets out the spatial development strategy that encompasses proposals for the development of the Region's economy, housing and transport infrastructure, and other land uses. It also sets out proposals for the conservation, management and enhancement of the Region's natural and cultural environment.

Regional Planning Guidance also provides the regional framework for the plans and strategies of a range of public, private and voluntary organisations, including the preparation of local authority Development Plans and Local Transport Plans.

The consultation will also allow consideration of the implications of the Northern Way growth work being led by the Regional Development Agencies.

The selective, partial, review covers a number of key matters of importance to the future of the region, including:

Transport—The Regional Transport Strategy is updated in the light of a number of major studies in the region and consultations on national aviation policy. The review also includes transport investment priorities, the management of the regional highway network, a regional freight strategy and criteria to ensure that new developments are accessible by public transport;

Sustainable energy—targets are put in place that should help to increase the amount of energy supplied from renewable resources;

Waste management—a new approach to handling waste is set out that will encourage recycling and composting, and reduce landfill;

Climate change—a new policy on climate change is introduced that will aim to meet greenhouse gas reduction targets and allow planning for the implications of climate change;

Strategic Regional Parks— three broad areas of search for Strategic Regional Parks are identified based on the North West Coast, the Mersey Belt and East Lancashire; and

Strategic Views along the River Mersey—a policy to protect and enhance selected views for different parts of the Mersey valley is put forward.

The draft Partial Review is published for consultation with all regional stakeholders over a period of 12 weeks. An independent Panel will take into account all responses to the consultation before it hole s a Public Examination in November, where it will consider the issues arising from the consultation. The Panel will

produce a report for the First Secretary of State, who will then publish the final version of the RPG following further consultation, in 2005.

Copies of the relevant documents are available in the Libraries of both Houses and have been provided for all of the Region's MPs, MEPs and local authorities.

INTERNATIONAL DEVELOPMENT

Afghanistan

The Secretary of State for International Development (Hilary Benn): The Foreign Secretary, the Minister for Trade and Investment and I attended the donor conference on Afghanistan held in Berlin on 31 March and 1 April, at which donors were invited to respond to the recent needs assessment compiled by the World Bank.

The conference was an opportunity for donors to: assess the political progress that has taken place in Afghanistan since the Bonn and Tokyo conferences of 2001 and 2002; discuss the challenges that now face the Afghan Government; and demonstrate continued commitment to Afghanistan's long-term future development.

The announcement by President Karzai of the plan to hold elections in September was warmly welcomed. At a side meeting donors pledged an additional $65 million to the election process, helping to keep it on track. The UK pledged an additional $5 million, taking our overall election funding to $24 million. Preparations for elections are on course although security for a free and fair election remains a major concern.

Donors demonstrated their commitment to Afghanistan, by pledging US$8.2 billion of assistance over the next three years. This represents two thirds of Afghanistan's requirements over this period, and it is hoped folly to meet Afghanistan's needs with increased money becoming available from donors that were only able to make one-year pledges in Berlin. Of this new pledge over half, US$4.5 billion, is for this financial year. This meets Afghanistan's request for the year and is more than double the amount disbursed in Afghanistan last year. This increase comes at an important time, as a number of Government programmes become effective and the Government's capacity to absorb funds and implement programmes increases.

As I outlined in my statement to Parliament prior to the conference, 1 March 2004, *Official Report*, column 74WS, I announced an increase of the UK's commitment to Afghanistan from £200 million over five years to at least £500 million over the same period. This funding is to support a range of reconstruction work, support for conflict prevention, and the counter narcotics effort. A booklet outlining DFID's programme in Afghanistan has been placed in the Library of the House.

Many donors acknowledged the particular challenges that both drugs and the security situation present to Afghanistan's successful development. I emphasised to the conference the UK's commitment as lead donor to tackling the opium industry in Afghanistan, and many other donors also acknowledged the importance of dealing with this. The UK's specific provision of £70 million over three years to tackle this problem is an important lead and we are working closely with other donors to increase their funding in this area and to ensure that all development assistance is delivered in a way which supports counter-narcotics objectives. In the light of the importance that the conference attached to this problem, it was also a real achievement for the Afghan Government that they signed the Berlin Declaration on Counter Narcotics with the six signatories to the Good Neighbourly Relations Declaration, agreeing a common stance on tackling drugs in the region.

TRANSPORT

Dibden Bay Port Terminal

The Parliamentary Under-Secretary of State for Transport (Mr. Tony McNulty): I am today issuing the decision on the proposals submitted by Associated British Ports to develop a new container port at Dibden Bay, near Southampton. The Inspector's report of the public inquiry held into the proposals between November 2001 and December 2002 is also being published today.

The decision and the reasons for it are set out in the decision letter.

After carefully considering the Inspector's report and taking into account all relevant considerations, I have decided to refuse permission for the port development, in line with the Inspector's recommendation.

The Government fully recognise the nation's and industry's needs for additional container port capacity in order to meet future economic demand. Every proposed port development must nevertheless be justified on its own merits.

One important factor in the making of this decision was the environmental impact of the proposals on internationally protected sites.

A copy of the decision letter has been placed in the House Library.

FOREIGN AND COMMONWEALTH AFFAIRS

Council of the European Union

The Minister for Europe (Mr. Denis MacShane): The forthcoming business in the Council of the European Union is as follows:

Date	*Location*	*Event*
April		
26–27	Brussels	General Affairs & External Relations (GAERC)
26–27	Brussels	Agriculture & Fisheries Council
27	Luxembourg	EU/Russia Permanent Partnership Council (Troika?)
29–30	Brussels	Meeting of the Economic and Financial Committee
29–30	Brussels	Justice & Home Affairs (Ministerial Informal)
May		
1	Dublin	Enlargement Event
4–6	Dublin	EuroMed Foreign Ministers
6–7	Botswana	EU-ACP Council of Ministers

Date	*Location*	*Event*
7	Limerick	Meeting of Ministers with responsibility for Equality
9–11	Killarney	Agriculture Informal Ministerial Meeting
10	Brussels	Meeting of Eurogroup
11	Brussels	ECOFIN
11–12	Cork	Health Ministers Consultative Meeting
14–16	Waterford	Informal Meeting of EU Environment Ministers
17–18	Brussels	General Affairs & External Relations (GAERC)
19–20	Offaly	Informal Budget Committee
21	Moscow	EU/Russia Summit (Troika)
23–25	Brussels	Agriculture & Fisheries Council
24–25	Brussels	Meeting of the Economic and Financial Committee
24–25	Brussels	Agriculture & Fisheries Council
25–27	Co. Galway	Conference on Islands and Territorial cohesion-Meeting New Challenges
27–28	Brussels	Education, Youth & Culture Council
27–31	Dublin	Ministers and Directors General of Public Administration
28	Guadalajara	EU-Latin America/Caribbean Summit
June		
1–2	Luxembourg	Health Council
1	Dublin	Development Ministers' Meeting
1	Luxembourg	Meeting of Eurogroup
2	Luxembourg	ECOFIN
8	Luxembourg	Justice & Home Affairs Council Meeting
10–11	Luxembourg	Transport, Telecom & Energy Council
14–15	Luxembourg	General Affairs & External Relations (GAERC)
17–18	Brussels	EUROPEAN COUNCIL
21–22	Luxembourg	Agriculture & Fisheries Council
21–22	Brussels	Meeting of the Economic and Financial Committee
25–26	tbc	EU-US Summit
28–29	Luxembourg	Council Meeting of EU Environment Ministers

Date	*Location*	*Event*
July		
1	Brussels	Coreper 2
2–3	Maastricht	Competitiveness (Informal)
7	Brussels	Coreper 1
7–8	Brussels	Coreper 2
8	tbc	EU-Ukraine Summit
8–10	Maastricht	Social Policy (Informal)
9–10	Amsterdam	Transport (Informal)
12–13	Brussels	General Affairs & External Relations (GAERC)
12–14	Rotterdam	Informal Ministerial Education Youth and Culture
14	Brussels	Coreper 1
15	Brussels	Coreper 2
16–18	Maastricht	Environment (Informal)
19	Brussels	JHA Council
19	Brussels	Agricultural & Fisheries Council
22	Brussels	Coreper 2
23	Brussels	Coreper 1
August		
No meetings planned		
September		
1	Brussels	Coreper 1
2	Brussels	Coreper 2

29	Brussels	Coreper 2
30	Den Haag	JHA (Informal)

Written Ministerial Statements

Wednesday 21 April 2004

DEFENCE

Tomahawk Land Attack Missiles

The Minister of State, Ministry of Defence (Mr. Adam Ingram): I am pleased to be able to announce that we will be buying 64 Tomahawk land attack missiles from the United States under the terms of a foreign military sales case. These are conventionally armed land attack missiles. These new missiles will be to higher—Block IV—specification than our existing Block III missiles. As such, they will provide the ability to retarget or abort a mission in flight and will also provide battle damage indication. They will be capable of being fired from our current Trafalgar Class submarines as well as from our new Astute Class submarines when they enter service.

This decision shows our continued commitment to enabling precision attack at long range against selected targets.

NORTHERN IRELAND

Discretionary Social Fund

The Minister of State, Northern Ireland Office (Mr. John Spellar): I am pleased to announce that the Northern Ireland discretionary social fund budget for 2004–05 will be £58.25 million; £12.64 million will be allocated to grants, £45.51 million to loans and £0.1 million will be held as a contingency reserve. The new allocations represent an increase of £1.65 million over the initial gross budget set at April 2004. This increase will be funded through higher loan recoveries, plus an increase in net treasury funding of £0.94 million for this year. This £0.94 million is the second of three annual increases from a £8.2 million boost for the discretionary social fund announced in the autumn 2002 pre-Budget report.

The community care grant budget has been increased by £0.94 million to £12.64 million. This will provide more help to customers, in particular families with children and the disabled.

The loans budget has been increased to £45.51 million, an increase of £0.71 million on the initial 2003–04 loans budget. To improve the fairness of the scheme, budgets will be allocated in a way that will over time achieve greater consistency of outcome for customers wherever they live.

Details of the budget allocations, together with a note explaining the basis on which they have been made, have been placed in the House of Commons Library today.

Youth Justice Agency

The Minister of State, Northern Ireland Office (Mr. John Spellar): I have placed copies of the Youth Justice Agency's Corporate Plan for 2004–07 and Business Plan for 2004–05 in the Libraries of both Houses.

Business Plan contains eight key performance targets I have set for the Service for 2004–05. These are:

Contribute towards the development and publication of an NIO Public Service Agreement target to reduce the reconviction rate for all offenders (compared to a predicted rate for Northern Ireland).

During term-time, 95 per cent. of children in the Juvenile Justice Centre will receive 20 hours a week of education and training.

No escapes from the Juvenile Justice Centre.

Over the year no more than 3 per cent. of the total new admissions to the Juvenile Justice Centre should be non-accidentally injured.

Over the year no more than 2 per cent. of the total members of staff should be non-accidentally injured while engaged in the work of the Agency.

No members of the public should be non-accidentally injured on Agency premises.

Deliver at least 70 per cent. of the planned training days specified in the Corporate Training Priorities Plan for 2004–05.

Expenditure is within budget allocated.

CABINET OFFICE

Election Guidance

The Minister for the Cabinet Office and Chancellor of the Duchy of Lancaster (Mr. Douglas Alexander): The Government have today issued guidance to civil servants on the principles which they should observe in relation to the conduct of Government business in the period before the forthcoming elections to the European Parliament, Greater London Authority and to local authorities in England and Wales.

The guidance stresses that civil servants should conduct themselves in accordance with the civil service code and is based on the need to maintain the political impartiality of the civil service and the need to ensure that public resources are not used for party political purposes.

The guidance will come into force on Thursday 20 May 2004, ahead of the elections on Thursday 10 June 2004.

Copies of the guidance have been placed in the Library.

ENVIRONMENT, FOOD AND RURAL AFFAIRS

Sustainable Development

The Secretary of State for Environment, Food and Rural Affairs (Margaret Beckett): I am delighted to announce that the consultation "Taking it on: Developing UK Sustainable Development Strategy" was launched today.

The UK Government, together with the Scottish Executive, the Welsh Assembly Government and Northern Ireland are consulting to develop new

sustainable strategy for the UK. The consultation will include local and regional events and an online consultation facility, and will provide a strong basis for renewed action to deliver sustainable development.

The consultation will close on 31 July. We aim to publish the new UK strategic framework, and the UK Government's strategy, in spring 2005.

The consultation document will be placed in the Libraries of both Houses, and is also available on the UK Government's sustainable development website.

WORK AND PENSIONS

Child Support

The Secretary of State for Work and Pensions (Mr. Andrew Smith): The new arrangements for child support came into operation for new cases and some linked old scheme cases from 3 March 2003. Progress has been slower than anticipated, chiefly due to problems with the new computer and telephony systems. However, over the course of the first year of operation of the new scheme, progress in performance has grown steadily. For example, more than a third of all maintenance calculations and over 45 per cent. of all first payments were made in the latest quarter. Further improvement is expected.

The number of cases cleared in the final quarter rose above 50,000 taking the total number of clearances (calculations and closures) to over 150,000. The ratio of cases reaching calculation compared to those that closed continued to be 6:4 to the year's end, comparing favourably with the ratio of 4:6 under the old scheme.

Technical issues continue to preclude reliable figures on compliance and throughput for the latest quarter. The Department continues to retain around 15–20 per cent. of each monthly payment due to EDS, the service provider, due to the continuing problems with the computer and telephony systems. A special exercise is being undertaken to test accuracy to the year-end.

Average weekly child support maintenance payments to parents with care are shown below. Figures are for March 2004 only and are calculated as the total amount received and allocated divided by the number of cases.

	1 Qualifying Child	*2 Qualifying Children*	*3 Qualifying Children*
Average Weekly Payment	£34.25	£48.84	£53.91

Summary of Agency Performance to March 2004

Agency Performance	*Quarter 1 Mar–Jun 2003*	*Quarter 2 Jul–Sep 2003*	*Quarter 3 Oct–Dec 2003*	*Quarter 4 Jan–Mar 2004*	*Scheme to Mar 2004*
Applications received	73,582	78,982	85,306	83,652	321,522
Applications cleared	12,648	38,583	49,453	[1]51,876	[1]152,560
of which:					
Maintenance Calculations	6,671	23,857	29,672	[1]31,229	[1]91,429
Closures[2]	5,977	14,726	19,781	[1]20,647	[1]61,131
First payments made through the Agency	461	5,164	11,473	14,017	31,115
First Child Maintenance Premium payments made	77	3,314	6,173	7,484	17,048

Agency Performance (March 2003 to June 2003)	*March 2003*	*April 2003*	*May 2003*	*June 2003*	*Total in Quarter*
Applications Received	3,444	25,228	19,951	24,959	73,582
Applications Cleared	43	1,616	3,441	7,548	12,648
of which:					
Maintenance Calculations	10	721	1,810	4,130	6,671
Closures[2]	33	895	1,631	3,418	5,977
First payments made through the Agency	136 for 1st 3 months[3]			325	461
First Child Maintenance Premium payments made	17 for 1st 3 months[3]			60	77

Agency Performance (July 2003 to September 2003)	*July 2003*	*August 2003*	*September 2003*	*Total in Quarter*	*Scheme to September 2003*
Applications Received	28,897	23,761	26,324	78,982	152,564
Applications Cleared	10,526	11,923	16,134	38,583	51,231
of which:					
Maintenance Calculations	6,922	7,199	9,736	23,857	30,528
Closures[2]	3,604	4,724	6,398	14,726	20,703
First Payment made through the Agency	1,032	1,752	2,380	5,164	5,625
First Child Maintenance Premium payments made	267	1,596	1,451	3,314	3,391

Agency Performance (October 2003 to December 2003)	*October 2003*	*November 2003*	*December 2003*	*Total in Quarter*	*Scheme to December 2003*
Applications Received	35,724	28,841	20,741	85,306	237,870
Applications Cleared	19,832	16,011	13,610	49,453	100,684
of which:					
Maintenance Calculations	11,807	9,975	7,890	29,672	60,200
Closures[2]	8,025	6,036	5,720	19,781	40,484
First Payments made through the Agency	3,978	3,503	3,992	11,473	17,098
First Child Maintenance Premium payments made	2,108	1,915	2,150	6,173	9,564

Agency Performance (January 2004 to March 2004)	*January 2004*	*February 2004*	*March 2004*	*Total in Quarter*	*Scheme to March 2004*
Applications Received	27,950	24,680	31,022	83,652	321,522
Applications Cleared	16,418	16,316	18,318	[1]51,876	[1]152,560
of which:					
Maintenance Calculations	9,803	9,780	10,931	[1]31,229	[1]91,429
Closures[2]	6,615	6,536	7,387	[1]20,647	[1]61,131
First Payments made through the Agency	4,193	4,284	5,540	14,017	31,115
First Child Maintenance Premium payments made	2,283	2,220	2,981	7,484	17,048

Notes:

[1] Quarter 4 totals and Scheme to March 2004 figures include clerical cases (new scheme cases unable to be progressed on the new system) which are not included in the month-by-month figures. Figures for these are as follows:

Applications cleared	824
Maintenance Calculations	715
Closures	109

[2] Closures: Applications close for a variety of reasons. The main reasons are that the parent with care withdraws the application, perhaps due to reconciliation, or having agreed private arrangements with the non-resident parent.

[3] Figures marked with * are not available on a monthly basis for this period.

A proportion of cases that have a maintenance calculation in place may already be receiving payment directly, but will not be reflected in the figures shown above.

Figures for child maintenance premium payments include an estimate of the number of parents who receive the premium by way of a disregard to their income support/income-based jobseekers allowance. The disregard has been added from August as data were not available prior to this, and has also been included in the scheme to date figure.

Pension Credit

The Secretary of State for Work and Pensions (Mr. Andrew Smith): I can now provide latest monthly progress report on the take-up of pension credit, which became payable on 6 October 2003.

There are now 2.40 million pensioner households (2.91 million individuals) being paid pension credit, including 138,000 pension credit households (176,000 individuals) added in March. This is the greatest monthly increase in the number of pension credit households (so far to date) and means that we have met our published target for the end of March. As at 31 March, there are 1.74 million households (2.09 million individuals) now receiving more money as a result of the introduction of pension credit. The pension credit application line, at our four sites across the country, has received millions of calls since it became operational on 7 April 2003 and 95 per cent. of calls have been answered within 30 seconds. The average pension credit award is £41.34 per week.

Our direct mail campaign is continuing, supported by a major advertising campaign on TV and in the press. By the end of this month we will have written to every pensioner household in the country to tell them about pension credit. We are continuing to work with organisations such as Help The Aged, Age Concern and Citizens Advice, among others, both at national and local level, to encourage eligible people to take up their entitlement. In particular, the pension service is focusing on those customers who are less likely to take up their entitlement.

There is plenty of time for pensioners to apply for pension credit. To ensure that pensioners do not lose out there is a twelve-month backdating provision, as announced in the Budget statement. This will allow applications to be backdated for a year, or to the date entitlement begins if this is later.

I am placing in the Library a report showing progress so far, including regional breakdowns of the number of pension credit households and numbers of pension credit cards in parliamentary constituencies in Great Britain. Copies of the report are also available for hon. Members in the Vote Office.

Written Ministerial Statements

Thursday 22 April 2004

HOME DEPARTMENT

Chairman of the Service Authorities (NCIS/NCS)

The Secretary of State for the Home Department (Mr. David Blunkett): I have appointed Paul Lever as the Chairman of the Service Authorities for the National Criminal Intelligence Service and the National Crime Squad from 1 April 2004.

I have also reappointed Caroline Burton and Jennie Harvey as independent members for a further two years from the same date.

These appointments will continue until such time as the arrangements for the Serious Organised Crime Agency are established.

Managed Migration

The Secretary of State for the Home Department (Mr. David Blunkett): I am today announcing a series of measures to prevent abuse of immigration routes open to those wishing to come to the United Kingdom to study, work and marry here. These measures build on work which IND has been taking forward over several months, together with other departments, and which I indicated to the House on 30 March when I set out the next stage of policy in this area. They have been finalised by a series of managed migration taskforces, which we have set up to bring together policy, operational and intelligence personnel, enabling better co-ordination and focus. I am confident that the resulting package of measures achieves the necessary balance, in these areas, between facilitating the vast majority of genuine applicants from whom this country derives enormous benefits and protecting the system against actual and potential abuse. Other areas remain under review.

Students

The Government will establish a list of accredited private colleges. Discussions are already well advanced with the British Council and others on accreditation of English language schools. We will establish a scheme to broaden this to other colleges.

By the end of the year we will be in a position of only issuing visas to students attending accredited colleges. In the meantime, where there are doubts about whether a college not on the list is bona fide, applications will be put on hold while the Home Office investigates them. An urgent programme of such investigations will begin next week.

We will be consulting on introducing a requirement for all educational institutions to notify the Home Office where a foreign student does not enrol, or enrols and then disappears.

We will also step up enforcement. This will include targeted multi-agency enforcement operations to disrupt proprietors of sham institutions and remove illegal staff and/or students. We will create more Risk Assessment Units in Embassies abroad to work alongside entry clearance staff and improve the flow of intelligence on fraud and abuse.

We will consult on a requirement on foreign students to demonstrate self-sufficiency, and ability to meet the financial requirements of the course before granting entry clearance.

Marriage

I am announcing today that we will legislate to restrict the capacity to authorise marriages involving foreign nationals from outside the EEA to a number of designated register offices. We are consulting with registrars about the most effective means of doing so. This will enable expertise to be built up on abuse and mean that we can focus our enforcement efforts. Clearly not all marriages involving foreign nationals present the same level of risk in terms of immigration abuse: for example, foreign nationals who have been resident here for many years. We will be working with registrars to refine our proposals to achieve the necessary balance between facilitating the vast majority of genuine applicants and protecting the system from abuse.

We will also consult on making further changes to the marriage laws to reinforce these proposals, including empowering registrars to refuse to conduct a marriage they suspect is being carried out for the purposes of illegal immigration, until it has been properly investigated by the immigration authorities.

The Government will underpin these changes through a better co-ordinated intelligence-led focus on marriage abuse supported by an effective enforcement response where cases of abuse are detected.

In the coming months there will be a major new enforcement effort targeting sham marriages and those who organise them with the aim of arresting those engaged in such marriages and, where appropriate, prosecuting the organised criminality behind them.

We are strengthening current arrangements for joint working between caseworkers and immigration officers to ensure a better focus on analysing intelligence, and more effective following up reports, for example from Registrars about suspicious marriages.

We will set up a joint working group between the Home Office and Registrars to share intelligence and enable the enforcement effort and other counter-measures to be better targeted.

Quota-Based Schemes

The temporary quota based schemes for the hospitality and food processing industries are due to be reviewed at the end of May in the light of EU enlargement. I have also ordered a review of the quota based scheme for agricultural workers, for the same reason—around a third of these places were filled last year by nationals of the new EU accession states.

I have decided that in consultation with industry, we will at the end of May be setting reduced quotas for these schemes to reflect the fact that from 1 May accession nationals will be able to come and work

through the planned workers registration scheme. We will be able to take account of early information from the registration scheme in revising the quotas.

We will at the same time review control of both schemes.

ECAA

We will also be looking at the rules and practices for ECAA applications, from the remaining countries who will be covered by that scheme after 1 May, taking account of the outcome of the investigation, which Ken Sutton is undertaking, of procedures for dealing with ECAA applications in Bulgaria and Romania. In the meantime, ECAA applications from Romania and Bulgaria continue to be suspended.

NORTHERN IRELAND

Food Safety Promotion Board

The Parliamentary Under-Secretary of State for Northern Ireland (Angela Smith): Copies of the Food Safety Promotion Board annual report 2002 incorporating financial statements to December 2001 have been placed in the Libraries of both Houses.

This document provides details of the Food Safety Promotion Board's activities, its performance to the end of 2002 and its expenditure to December 2001.

Waterways Ireland

The Parliamentary Under-Secretary of State for Northern Ireland (Angela Smith): Copies of the Waterways Ireland Annual Report and Accounts for the year ended 31 December 2002 have been placed in the Libraries of both Houses.

This document provides details of Waterways Ireland's activities, its performance, and its expenditure for that year.

DEFENCE

Defence Science and Technology Laboratory

The Minister of State, Ministry of Defence (Mr. Adam Ingram): The following key targets have been agreed for the Defence Science and Technology Laboratory (Dstl) for Financial Year 2004–05.

At least maintain overall customer satisfaction and understanding of Dstl; by 31 March 2005 implement new methodology and set the baseline against which Dstl will monitor and improve its customer relationships in the future.

Maintain and by the end of a three-year period show an increase in score for scientific and engineering capability in the technical benchmarking exercise from 67 per cent. in 2002–03 to 72 per cent. in 2005–06.

By 31 July 2004 publish an update of Dstl's technical strategy that identifies the key technical issues and Dstl's role in addressing them, and by 31 March 2005 agree with MOD a future process that ensures that Dstl aligns itself with MOD's S and T outputs.

Achieve planned progress to meet the completion date of 2008 for the transfer of Dstl onto three core sites at Porton Down, Portsdown West and Fort Halstead. Key milestones in 2004–05 are: issue the invitation to tender for the site rationalisation and facilities management contract (December 2004); pilot office layout options (March 2005); produce a plan for site remediation at Porton Down (October 2004).

Pilot at least three areas of category management—procurement of manpower technical support, travel and laboratory equipment—to achieve cost and efficiency savings of £5.5 million by 31 March 2005.

Maintain the average charge rate for manpower for 2004–05 and beyond below that for 2001–02 uplifted by GDP deflator.

Achieve a ROCE of at least 3.5 per cent. and a MOD dividend of £3 million[1].

[1] In addition to the 2004–05 ROCE target of at least 3.5 per cent. Dstl will aim to achieve a ROCE of at least 3.5 per cent. averaged across the period 2004–05 to 2008–09, as agreed with HM Treasury.

CONSTITUTIONAL AFFAIRS

House of Lords Reform

The Secretary of State, Department for Constitutional Affairs and Lord Chancellor (Lord Falconer of Thoroton): I have today published the responses to the consultation paper *"Next steps for the House of Lords"*, and a Government summary of these. Copies of the summary have been placed in the Libraries of both Houses. The individual responses are available on the Department for Constitutional Affairs' website, www.dca.gov.uk.

TREASURY

Community Budget 2004

The Financial Secretary to the Treasury (Ruth Kelly): The Statement on the 2004 Budget of the European Communities (EC Budget), entitled "European Community Finances" (Cm 6134), has today been laid before Parliament. This White Paper is the twenty-fourth in the series. As in the past, it covers annual budgetary matters and includes details of recent developments in European Community financial management and in countering fraud against the EC Budget. It also describes the EC Budget for 2004 as adopted by the European Parliament, and details the United Kingdom's gross and net contributions to the EC Budget for calendar years 1998 to 2004 and financial years 1998–99 to 2005–06.

ENVIRONMENT, FOOD AND RURAL AFFAIRS

Single Payment Scheme (English Regions)

The Secretary of State for Environment, Food and Rural Affairs (Margaret Beckett): On 12 February I announced the basis upon which the new single payment will be calculated in England once the scheme comes into operation next year. As part of those arrangements, I said that England would be divided into two regions, namely the severely disadvantaged areas of the less favoured areas (SDA) and land outside the SDA.

Since that announcement, I have been approached by a number of key representative interests who have argued that the original proposal did not adequately reflect the extent of the different land types in England. They have requested a further division of land in England that would identify moorland within the SDA as a separate region. They argued that this would more closely reflect land conditions and productive capacity and, therefore, current subsidy payments.

I have given careful consideration to those representations and to others which have argued for alternative solutions. However the further refinement of a moorland line within the SDA was ultimately the proposal of all the main representative bodies.

One of the purposes of setting the regional boundaries as proposed was to provide some limitation on the redistributive effects of the move to the new flat rate single payment. I accept that the boundaries as announced might have resulted in redistribution of subsidy away from more productive SDA land to less productive moorland. I have therefore decided to amend the regional boundaries as announced on 12 February.

The regions in England will now comprise the moorland within the upland SDA; the rest of the upland SDA; and all land outside the upland SDA. The upland SDA comprises all the areas classified in accordance with Article 3(4) of Directive 75/268/EEC. It does not include the Isles of Scilly which were classified as a less favoured area in accordance with Article 3(5) of that Directive.

In selecting moorland in the SDA as one of the regions, I am aware that it is possible that there may be some minor inaccuracies in the location of the boundary at certain points. I am therefore considering whether and what practical arrangements can be made for consideration of representations on this issue as part of the arrangements for the introduction of the new scheme. I will make a further statement on this at an early date.

I recognise that this decision to amend the regional boundaries may come as a disappointment to some. Although there will be farmers in the SDA who will gain from this decision, some others, particularly those within the moorland line, will see payments at a lower level than would have been the case under the original announcement, and in some cases less than their coupled historic receipts.

We will need to see that hill farming communities receive appropriate support from other sources, including the England rural development programme. The hill farm allowance scheme will continue to operate for the remainder of the current England rural development programme (up to the end of 2006). In addition, I want to ensure that farms in the uplands have a full opportunity to be rewarded for improved environmental management of their land, including through agri-environment schemes. I have therefore asked my officials to consider how the next round of rural development programming (from 2007 onwards), can better reflect the needs of upland communities, and the public interest in good management of some of our best-loved landscapes.

Written Ministerial Statements

Friday 23 April 2004

ENVIRONMENT, FOOD AND RURAL AFFAIRS

British Waterways

The Minister for Rural Affairs and Local Environmental Quality (Alun Michael): I am pleased to advise that DEFRA and the Scottish Executive have begun a joint policy review of British Waterways. It will be a strategic review and its terms of reference are to:

assess how well British Waterways is operating within the framework of the policy documents "Waterways for Tomorrow and Scotland's Canals: An Asset for the Future"; and to

advise what changes are needed to enable British Waterways to improve its ability to deliver Government policies and customer satisfaction.

In particular, the Review will consider:

British Waterways' performance over the past five years;

whether the current governance, financial and legislative arrangements are conducive for getting the right performance from British Waterways;

whether the future direction of British Waterways as set out in its Our Plan for the Future 2003–07 is right, and whether it is consistent with "Waterways for Tomorrow and Scotland's Canals: An Asset for the Future"; and

whether DEFRA and the Scottish Executive's working relationships with BW could be improved to deliver better strategic Departmental objectives as sponsor.

On 19 April 2004, in conjunction with the Scottish Executive, I launched a public consultation exercise that will form a key part of the review. The consultation document invites views on the performance of British Waterways over the last five years and the way in which it should carry out its business in the future. In particular it asks for comments on the extent to which British Waterways has met its objectives as set out in its Framework Document "Waterways for Tomorrow", and "Scotland's Canals: An Asset for the Future" and the extent to which the Government's objectives for British Waterways as set out in these documents meet current needs. The consultation period will last for 12 weeks and close on 14 July.

A Steering Group, including representatives from DEFRA, The Scottish Executive, British Waterways, Treasury, ODPM and the Shareholder Executive, will oversee the review. Their terms of reference are:

"Having regard to British Waterways' Terms of Reference, to:

Commission Papers to examine particular aspects in detail.

Carry out public consultations.

Seek direction and approval from Ministers at key stages and oversee publication of the Review."

It will publish its recommendations in late autumn.

Copies of the consultation document can be viewed on DEFRA's website at http://www.defra.gov.uk/

DEFENCE

United Kingdom Hydrographic Office

The Parliamentary Under-Secretary of State for Defence (Mr. Ivor Caplin): Key Targets have been set for the Chief Executive of the UK Hydrographic office for the financial year 2004–05. The targets are designed to drive further improvements to the Agency's performance and are as follows:

Key Target 1. Safety

While aiming for 100 per cent., to achieve a safety index exceeding 95 per cent. of all radio navigational warnings issued to timescale.

Key Target 2. Defence

To achieve an index rating of more than 95 for the defence programme as set out in the tasking authorisation forms.

Key Target 3. Customer Satisfaction

Customer and end user satisfaction to exceed a scale rating of 87 by the end of the financial year 2004–05.

Key Target 4. Wider Markets

To earn revenue of £2.4 million from markets other than SOLAS navigational products and services.

Key Target 5. Finance

To break even taking one year with another, and to achieve a return on capital employed of 9 per cent. averaged over the period 2004–05—2008–09.

Key Target 6. Finance

Mark-up to be reduced to 200 per cent. by the end of 2004–05.

Air Combat Service Support Units

The Minister of State, Ministry of Defence (Mr. Adam Ingram): The Ministry of Defence is continually examining ways of improving military capability and value for money for the taxpayer, including by keeping the size and location of our bases under review.

On 14 August 2003, I announced a review of the future basing requirement for the RAF's Air Combat Service Support Units (ACSSUs), elements of the Air Surveillance and Control System (ASACS) and some other minor units and the potential impact on the future requirement for RAF Boulmer, RAF Neatishead, RAF Sealand and RAF Stafford, should relocation of units currently based there be recommended.

The primary objective of this particular review was to meet the Department's basing needs in the light of the move towards expeditionary operations. A number of options were identified on which my officials have consulted widely. A number of hon. Members have made representations. The Review has now concluded.

I am now able to inform the House that I am inclined, subject to formal consultation with the trade unions, to accept the option which creates an ACSSU communications hub and a base for ASACS units at RAF Scampton and an ACSSU logistics hub at RAF Wittering. Implementation of this option as a whole would be over an extended period, beginning later this year and not complete until about 2012.

This option offers the greatest operational flexibility to our Armed Forces by collocating support units on main operating bases. It is also the most cost-effective solution. It would mean that communications personnel would relocate to Scampton from RAF Sealand (from 2005) and RAF Brize Norton (from 2005), together with AS ACS units currently based at RAF Neatishead (from 2004–05) and RAF Boulmer (from 2009), bringing the total number of people at the station up to around 2,400 by 2012. In the case of RAF Wittering, logistics personnel would relocate from RAF Stafford (from 2005). This would increase the number of personnel at the Station to around 2,130 personnel by 2006.

The Ministry of Defence has written to the trade unions to ask for their formal response to this option by 7 June 2004.

I will make my decision when I have received trade unions documents and will inform the House at that time.

DEPUTY PRIME MINISTER

Commercial Property Leases

The Parliamentary Under-Secretary of State, Office of the Deputy Prime Minister (Yvette Cooper): The Government are today announcing a forthcoming consultation about whether to legislate to regulate terms in commercial property leases and if so what form that regulation should take.

April 2002, the commercial property industry introduced a new voluntary Code of Practice for commercial property leases. This sought to address Government concern about the lack of choice and flexibility in commercial leasing; in particular, the lack of alternatives to upward only rent reviews in longer leases and the poor information available to small business tenants. The Government announced that they would review the impact of the Code, and the Office of the Deputy Prime Minister commissioned the University of Reading to undertake research. The Office asked the University to prepare an interim report on the first year of the Code, by the end of 2003, and a final report on the whole of the first two years of the Code, by the end of this year. The Government announced they would consider whether it would be sufficient to continue relying on a voluntary Code of Practice or whether to move to regulate lease terms, in the light of the research, feedback from stakeholders and an analysis of complaints received.

Informal feedback during the first year of the Code was that despite major efforts to disseminate it widely, it was having little effect on leasing practices. In view of this, the Chancellor of the Exchequer announced in the 2003 Budget report that if the interim report suggested that little progress had been made, we would consult during 2004 on legislative options. This would enable the Government to introduce legislation at an early stage if the final report then confirmed that progress had been disappointing and the Government concluded that it should proceed with legislation.

Earlier this year the Office of the Deputy Prime Minister received Reading University's interim report, which we are publishing on our website today. This paints a disappointing picture of the impact of the Code in its first year. It has found that although there has been no reversal of previous trends towards shorter leases and that more leases contain operable "break" clauses, rent review provisions are almost universally upwards only. It is particularly disappointing that there are few signs yet of landlords offering alternative leasing packages at different prices, although the report finds that a degree of negotiation does take place. The Government are also concerned about the evidence that small business occupiers have too little information to be able to negotiate the best deals.

The Office of the Deputy Prime Minister will therefore shortly issue a consultation paper in conjunction with the Welsh Assembly Government about the regulation of commercial lease terms in England and Wales. This will seek views on the whole principle of legislation in this field as well as the various options for regulating lease terms. The Government will not make a decision about whether or not to legislate until we have studied the final report from Reading University, due at the end of this year, taking account of the outcome of the consultation exercise.

Written Ministerial Statements

Monday 26 April 2004

DEPUTY PRIME MINISTER

Planning Permission (Duration)

The Minister for Housing and Planning (Keith Hill): The Planning and Compulsory Purchase Bill contains provisions to reduce the default period for the commencement of development under a planning permission, listed building consent or conservation area consent from five to three years. This provision is a crucial part of our agenda for speeding up the operation of the planning system.

Local planning authorities have flexibility under existing legislation to vary the length of a permission or consent. This flexibility will remain. The time limit for the commencement of development will normally be three years from the date of permission or consent, but a local planning authority may direct a longer or shorter period as it considers appropriate. Local arming authorities should look favourably upon requests for longer periods of duration where there are valid planning grounds for such a request. There will be cases where three years is unlikely to be long enough to allow developers to complete all the preparation needed before starting work. Longer periods are likely to be appropriate, for example, for complex generation projects.

After the Planning and Compulsory Purchase Bill has completed its Parliamentary passage, the Government will issue guidance to local planning authorities on the new provisions. In this guidance we will make clear the need for flexibility on the part of local authorities in their dealings with applicants on the duration of permissions and consents.

Antisocial Behaviour

The Parliamentary Under-Secretary of State, Office of the Deputy Prime Minister (Yvette Cooper): The Government is today publishing draft guidance for social landlords on how they should prepare and publish their statements of policies and procedures for tackling antisocial behaviour on the Office of the Deputy Prime Minister's website for consultation.

Section 12 of the Anti-social Behaviour Act 2003 places a new requirement on all social landlords (local housing authorities, registered social landlords and housing action trusts) to prepare and publish statements.

The consultation is aimed at all social landlords in England and those with an interest in housing and antisocial behaviour issues, including tenants groups. I would therefore urge the sector and others with an interest in these issues to consider the draft and supply their views.

A key part of tackling antisocial behaviour is to ensure that tenants know exactly what their landlord will do about it when it occurs. Tenants often feel left in the dark when they are experiencing problems with antisocial behaviour. They may not know what options are available to them or the landlord. Sometimes the problem may be because front-line housing management staff are unclear about what procedures they should be following either.

Guidance is intended to support landlords in preparing and publishing their statements, helping them further define and develop their approaches to tackling antisocial behaviour and ensuring they work in partnership with other agencies to meet the needs of their tenants and the wider community when deploying interventions.

Following consultation, statutory guidance issued by the Office of the Deputy Prime Minister will apply to local housing authorities and housing action trusts in England. The housing corporation will issue statutory housing management guidance in the form of a circular for registered social landlords, under the requirements of the Anti-social Behaviour Act. The National Assembly for Wales (NAW) will be issuing similar guidance in Wales.

HOME DEPARTMENT

Draft Identity Cards Bill

The Secretary of State for the Home Department (Mr. David Blunkett): I am today publishing a draft Identity Cards Bill for consultation as part of a document explaining the need for legislation entitled "Legislation on Identity Cards: A Consultation" (CM 6178).

The draft Bill establishes the legislative framework that would be necessary for the incremental introduction of the national identity cards scheme as set out in "Identity Cards: The Next Steps" (CM 6020) published in November 2003.

The draft Bill includes provisions that would:

set up a National Identity Register that would include identity information on individuals who have been registered and issued with an identity card;

establish a family of ID cards based on new and existing documents;

create powers to ensure that the details provided by an applicant can be checked against information already held on other databases to guard against fraud. Each use of these powers will require Parliamentary approval;

provide reassurance that disclosure of information from the National Identity Register without the individual's consent will not be allowed, apart from for prescribed purposes such as on grounds of national security or for the prevention or investigation of crime, and to ensure there is independent oversight of these arrangements;

establish new criminal offences for the possession of false identity documents. These will cover offences relating to the new identity card as well as existing identity documents that are false or have been improperly obtained;

allow a date to be set when it would become compulsory to register and be issued with a card (but not compulsory to carry a card which is specifically prohibited in the draft Bill). This provision, together with the mandatory requirement to make ID cards the required proof of identity could be

brought in only following a vote in both Houses of Parliament, on a detailed report which sets out all the reasons for the proposed move to compulsion and how the Government propose to implement compulsion. Both Houses would be able to amend the proposition before being asked to take a final decision;

enable regulations to be made, once it was compulsory to register and be issued with an identity card, to make it a requirement to provide proof of identity by the production of an identity card to access public services.

We welcome the House of Commons Home Affairs Committee's announcement of its intention to examine the draft Bill.

Copies of the consultation document "Legislation on Identity Cards: A Consultation" are available in the Vote Office and the Printed Paper Office and have been placed in the Libraries of both Houses, and can also be viewed on the Identity Cards website www.identitycards.gov.uk. Interested parties are invited to submit their comments and views on the content of the draft Bill by 20 July 2004.

Terrorism Act 2002–03

The Secretary of State for the Home Department (Mr. David Blunkett): I am pleased to announce that Lord Carlile of Berriew QC has completed the report on the operation of the Act, which will be laid before the House today.

WORK AND PENSIONS

Benefits (Third Party Deductions for Fines)

The Parliamentary Under-Secretary of State for Work and Pensions (Mr. Chris Pond): One of the Government's priorities is to improve performance in the collection of fines and reinvigorate fines as an effective penalty for those who commit crime, thereby increasing public confidence in the criminal justice system.

Currently, offenders who default on payment of fines and are receiving income support, jobseeker's allowance or pension credit, may have the sum of £2.80 deducted weekly from their benefit, by way of a third party deduction, until the fine or fines are recovered in full.

However, this cash repayment is frequently too low for effective enforcement of financial penalties. It is often below the minimum repayment rate that magistrates can accept from offenders unable to pay immediately and in full, and it results in a repayment period that is too drawn-out.

We are therefore increasing the amount of this weekly deduction from £2.80 to £5. This increase will be subject to the normal rules governing implementation of the various third party deductions from benefit that may be made, including the maximum amount for such deductions. If those rules preclude a £5 deduction but would allow one of £2.80, that rate will apply instead. This change is also consistent with the £5 now required from some non-resident parents on benefit towards child support maintenance.

This will support the Government's efforts to restore confidence in fines as an effective penalty and therefore a credible alternative to prison. The increase is aimed at those offenders who simply refuse to repay their fines or those who opt to pay by deduction from benefit. It supports the wide-ranging work that the Department for Constitutional Affairs is carrying out in this area.

We propose to amend regulations so that the increase will come into force from April 2005.

Written Ministerial Statements

Tuesday 27 April 2004

ENVIRONMENT, FOOD AND RURAL AFFAIRS

Energy Efficiency Implementation Plan

The Secretary of State for Environment, Food and Rural Affairs (Margaret Beckett): The Government published yesterday "Energy Efficiency—The Government's Plan for Action". This fulfils our commitment in the February 2003 energy White Paper to set out our delivery plan for the energy efficiency strategy contained in the White Paper. Copies of the plan were placed in the House Libraries yesterday.

In the document "Energy Efficiency—The Government's Plan for Action", I have designated an energy efficiency aim in accordance with the duty set out in section 2(1) of the Sustainable Energy Act 2003; such aim relates to the energy efficiency of residential accommodation in England and is compatible with Community obligations and any other international obligations of the United Kingdom.

The Government yesterday also published the first annual report on the energy White Paper, the Strategy for Combined Heat and Power to 2010, and the second fuel poverty annual report. Copies of these documents were also placed in the House Libraries yesterday.

In her written statement to the House of Commons on 3 February 2004, the Secretary of State for Trade and Industry said that the Government envisaged publication of the fuel poverty implementation plan with the above documents. The Government now envisage publication of the fuel poverty implementation plan in the summer.

NORTHERN IRELAND

Oversight Commissioner's Report

The Parliamentary Under-Secretary of State for Northern Ireland (Mr. Ian Pearson): I have today laid before this House a copy of the oversight commissioner's first statutory report for the year 2004, which is being published today, in accordance with section 68(4)(a) of the Police (Northern Ireland) Act 2000.

This is the first report compiled by Al Hutchinson as oversight commissioner and the 10th in the series of oversight reports published since 2001.

I would like to take this opportunity to welcome the new oversight commissioner to this very important post.

DEFENCE

Defence Medical Education and Training Agency

The Parliamentary Under-Secretary of State for Defence (Mr. Ivor Caplin): The following key targets have been set for the Chief Executive of the Defence Medical Education and Training Agency (DMETA) for the Financial Year 2004–05:

Key Target 1—Deployable Personnel

To meet 100 per cent. of the Commander in Chief's requirements for secondary care personnel under DMETA command for operational deployments.

Key Target 2—Military Training

To ensure that 80 per cent. of all DMETA personnel, whose medical category permits, achieve their service's annual mandatory individual military training.

Key Targets 3—Training Success

(a) Initial Training (Phase 2)

To provide Initial Training (Phase 2) that meets the requirements, professional standards and timescales defined by the single services.

(b) Career, Professional and Continuation Training (Phase 3)

To provide career, professional and continuation training (Phase 3) that meets the requirements, professional standards and timescales defined by the single services.

Key Targets 4—Efficiency and Cost Management

(a) DMETA Estate

Ensure the rationalisation and efficient usage of the current DMETA estate, reducing the balance sheet value of the estate as at 1 April 2003 by at least 50 per cent. by 2010, thereby reducing the cost of training.

(b) Cost Measurement

To develop an output cost based methodology for efficiency and unit cost performance measurement for implementation by April 2005.

Key Target 5—Customer Focus

To develop and implement by 1 April 2005 a measure of the extent to which customers value the quality of DMETA outputs.

Defence Dental Agency

The Parliamentary Under-Secretary of State for Defence (Mr. Ivor Caplin): The following key targets have been set for the chief executive of the Defence Dental Agency for the financial year 2004–05:

Key Target 1—Meeting Operational Manpower Requirements

To meet 100 per cent. of the Commander in Chief's requirements for DDA manpower to support operations.

Key Target 2—Dental Risk

To achieve 90 per cent. of all Service personnel in dental risk categories A and B by 31 March 2005.

Key Targets 3—Treatment Needs

To reduce the Treatment Needs Index for each Service to the following: RN at or below 375;

Army at or below 600; RAF at or below 375 by 31 March 2005.

Key Targets 4—Military Training

To ensure that 80 per cent. of all DDA personnel, whose medical category permits, achieve their Service's annual mandatory individual military training.

DEPUTY PRIME MINISTER

Ashford Growth Area

The Minister for Housing and Planning (Keith Hill): My right hon. Friend the Deputy Prime Minister has published for public consultation proposed changes to the Ashford growth area section of chapter XII of regional planning guidance for the South East (RPG9). They follow the public examination into the draft in December 2003 and the panel report in February 2004.

Growth areas are an integral part of regional planning guidance (RPG) and the draft chapter represents a revision to RPG9, as published in March 2001.

Other partial reviews of RPG9 are at various stages in the process. In particular, a public examination into the Milton Keynes and South Midlands sub-regional strategy is under way, and the Secretary of State's proposed changes for the regional transport strategy are out for consultation.

Ashford is both a centre for regional economic development and a gateway to Europe. Growth must bring real benefits to the whole community, which is why our proposed policies promote the right development in the right place at the right time.

The regional planning guidance needs to define new policies that will not only support the projected growth of housing and jobs in Ashford but will guide the growth in a sustainable way.

The Office of the Deputy Prime Minister proposes accepting all the recommendations of the independent panel that held the public examination into the proposed alterations, with minor modifications.

I have written to the regional assembly with the proposed changes. There will now be a public consultation period on the proposed changes, which will end on 17 June.

Copies of the relevant documents are available in the Libraries of both Houses and have been provided for all of the region's MPs, MEPs and local authorities.

Written Ministerial Statements

Wednesday 28 April 2004

WORK AND PENSIONS

"Ambition: Health" Pilots

The Secretary of State for Work and Pensions (Mr. Andrew Smith): From September this year, Jobcentre Plus, in partnership with the National Health Service and the Learning and Skills Council, will begin a pilot on Merseyside of "Ambition: Health". This new initiative will provide local workless people with the skills for good jobs in the NHS. Those who gain employment as a result will receive further support and training to gain qualifications and a sound basis for career progression.

"Ambition: Health" will be the fifth of the Ambition programmes to be developed by the National Employment Panel and delivered by Jobcentre Plus. It joins programmes in the energy, construction, retail and IT sectors, which have directly involved employers in the design of high quality training, preparing participants specifically for their vacancies.

Preparations are under way for a second pilot in South Yorkshire, to follow early in the New Year. Jobcentre Plus is examining the feasibility of further local pilots to be launched during 2005.

HEALTH

Learning Disability Services

The Parliamentary Under-Secretary of State for Health (Dr. Stephen Ladyman): I am today publishing "Valuing People: Moving Forward Together", the Government's second annual report on learning disability services. The report describes progress made in implementing the programme of action set out in the White Paper "Valuing People: A New Strategy for Learning Disability for the 21st Century" (Cm 5086) and responds to "Rights, Independence, Choice and Inclusion", the second annual report of the learning disability taskforce, which was published in February this year.

"Valuing People" is a cross-Government strategy. In last year's annual report, "Making Change Happen" (HC 5114), we acknowledged the learning disability taskforce's concern that Government as a whole was not giving enough priority to people with learning disabilities and undertook to talk to Government Departments about learning disability and the impact of their work on people with learning disabilities. "Valuing People: Moving Forward Together" reports on that work and describes areas where departments have worked with, or will be working with, learning disabled people to ensure that they can be more fully included in society. It records a wide range of activity covering many aspects of daily life:

> The Department of Trade and Industry plans to work with people with learning disabilities to make sure that Consumer Direct provides information in a way that they can understand.
>
> The Department of Health and the Department for Education and Skills are jointly supporting a conference later this year on parenting and people with learning disabilities.
>
> Under the Office of the Deputy Prime Minister's Supporting People initiative, more than £400 million has been allocated to services for people with learning disabilities.
>
> The Department of Health has awarded the Home Farm Trust £194,000 over three years to set up a self sustaining national network of organisations supporting family carers who have adult relatives with learning disabilities.
>
> The Department for Transport has funded a project with Transport for London and a self-advocacy group to make buses and tubes in London easier for people with learning disabilities to use.
>
> The Department for Constitutional Affairs has been consulting people with learning disabilities over the Mental Incapacity Bill.

Today's report, like last year's, is written in an accessible form, using pictures and straightforward, jargon-free language. We commissioned people with learning disabilities from the London Consultative Group to advise us on making the report accessible and I should like to acknowledge the help we received from them. It is important that people with learning disabilities can see for themselves what is being done to improve the services they use and to increase the opportunities available to them to lead the type of life the rest of us take for granted.

"Valuing People" said that it would take a minimum of five years for its programme to be implemented. We are now over half way through that period and continue to make good progress.

Copies of "Valuing People: Moving Forward Together" have been placed in the Library.

CABINET OFFICE

Departmental Report 2004

The Minister for the Cabinet Office and Chancellor of the Duchy of Lancaster (Mr. Douglas Alexander): I have today, with my right hon. Friend, the Chief Secretary to the Treasury, laid before Parliament the "Cabinet Office Departmental Report 2004" (Cm 6226).

The report describes the work of the Cabinet Office, and includes a performance report for each of our public service agreement targets. It explains how significant changes to the Cabinet Office's leadership and internal structure over the past year have enhanced our ability to deliver our objectives. The report also includes a set of tables showing past outturn and future expenditure plans.

Copies are available in the Vote Office and in the Library.

INTERNATIONAL DEVELOPMENT

Middle-Income Countries

The Secretary of State for International Development (Hilary Benn): Although DFID's primary focus is, and will remain, the poorest countries of the world, DFID is producing a middle-income countries' strategy to ensure that our resources are used effectively to deliver the millennium development goals. We are publishing a consultation paper for discussion with our partners, and a copy has been placed in the Library. Our aim is to secure an improved international consensus around support to middle-income countries.

We will publish the final version of the strategy later in 2004.

TRADE AND INDUSTRY

Small Business Service

The Secretary of State for Trade and Industry (Ms Patricia Hewitt): The Small Business Service (SBS) is today publishing its business plan for 2004–05. I have deposited copies of the plan in the House of Commons Library. Electronic versions are available on the SBS website www.sbs.gov.uk.

The Government published a cross-departmental action plan "A Government action plan for small business" in January. The action plan defines Government's programme of work going forward and is the foundation for the 2004–05 SBS business plan. The SBS has a leadership role as a centre of expertise, an innovator and an engine for change within government based on its experience of delivering services to small businesses and its extensive research base and network of contacts.

The business plan sets out what the SBS will do to drive forward implementation of the Government action plan over the next 12 months. It also sets out the changes being made within the SBS to make a reality of its leadership role within Government on small business issues.

The plan identifies eight key agency targets for 2004–05 grouped—where relevant—under the strategy to which they relate.

Building an enterprise culture

Deliver a national enterprise awareness event involving public and private sector partners in November 2004.

Encouraging a dynamic start-up market

Complete the establishment of the council for graduate entrepreneurship by May 2004.

Building the capability for small business growth

Ensure by March 2005 that Business Link (both the website and the face to face service) is effectively promoting and delivering the DTI's new portfolio of business support products—particularly those relating to innovation, knowledge transfer and best practice.

Improving access to finance for small businesses

Complete an action plan for carrying forward the recommendations of the review of the small firms loan guarantee by December 2004, and launch a pathfinder round of enterprise capital funds within one month of state aid approval being received.

Encouraging more enterprise in disadvantaged communities and under-represented groups

Launch the second round of the City Growth Strategies and Phoenix Fund Building on the best projects from April 2004, monitor their progress and begin a programme of events to share best practice by February 2005.

Improving small businesses' experience of Government services

Plan the transfer of responsibility for the management of Business Link Operator contracts to the regional development agencies within a national framework that maintains core service standards with effect from April 2005.

Developing better regulation and policy

Complete a public consultation so that government can consider whether to extend the concept of common commencement dates for regulations to new areas of domestic law, and publish the responses.

Delivering the Government Action Plan for Small Business

Monitor, evaluate and drive forward implementation of the Government-wide "Action Plan for Small Business" published in January 2004, updating the web-based implementation programme available at www.sbs.gov.uk on a regular basis to record the progress being made.

FOREIGN AND COMMONWEALTH AFFAIRS

Cyprus

The Secretary of State for Foreign and Commonwealth Affairs (Mr. Jack Straw): I would like to inform the House of developments in relation to Cyprus since my written statement of 1 April. In that statement I described how, after talks in Cyprus and in Switzerland between the parties, and also with the leaders of Greece and Turkey, the UN Secretary-General produced a final version of his comprehensive settlement proposals. I looked forward to the referendums scheduled for 24 April.

The House will know that the referendum in the Turkish Cypriot community was carried by a large majority, but that in the Greek Cypriot community the settlement proposals were opposed by a large majority. Accordingly the Annan plan—which was designed to be self-executing in time for a reunited island to enter the EU on 1 May—is null and void. The United Kingdom's offer of territory from the sovereign base areas, which as an integral part of the plan is also null and void.

It follows that, on 1 May. Cyprus will join the EU, but in the absence of a settlement the EU acquis will be suspended in the north of the island.

On the evening of 24 April I made the following statement, which I should like to raw to the attention of the House:

"For thirty years, the international community has supported the efforts of Cypriots on both sides to resolve their differences and put an end to the tragic division of the island.

Over the last few years, Kofi Annan and his team have built on earlier efforts and worked tirelessly to bring about a comprehensive settlement package that meets the key interests of the two sides, and provides a solid foundation for a durable bi-communal, bi-zonal federal solution.

Britain has always given its strong support to the efforts of the UN and of those on both sides who have shown the courage to seek a realistic compromise solution.

We will respect the choice that the Greek Cypriots have expressed today. But I hope that they will continue to reflect on whether this choice is the right one for them. By this decision a majority of Greek Cypriot voters has rejected the settlement, despite the prospect it offered of reuniting the island, providing long-sought relief for the refugees of 1974 and progressively lifting the weight of militarisation—all this within the framework of political stability and economic security which European Union membership provides.

I am glad that the Turkish Cypriot community has voted so clearly for the settlement. The result shows what a fundamental change of attitude has taken place within the Turkish Cypriot community in recent years.

I understand very well their wish to end their isolation in the world, to join with Greek Cypriots in a reunified island, and to move together into the European Union that is the best guarantee for the future of their collective security and prosperity. I want them to know that this remains our goal too, and that we will continue to work for its ultimate realisation.

Meanwhile, I would like to assure all Cypriots that, if at any point in the future both communities decide in favour of a comprehensive settlement which would reunify the island in the European Union, the United Kingdom, as a guarantor power, a permanent member of the UN Security Council, and a leading EU member state, not to mention a long-standing friend and supporter of Cyprus, will be exerting all its efforts to ensure that the settlement is the practical and political success which Cypriots have for so long deserved".

These were the policies which I advocated at the 26 April meeting of the General Affairs and External Relations Council in Luxembourg. They met with wide agreement from our European partners. There was regret that the union's strong preference for accession by a reunited Cyprus had not proved possible. But there was also determination to build upon the positive aspects of the situation, including the contribution of the Governments of Greece and Turkey, and—in particular—the pro-EU, pro-settlement vote of the Turkish Cypriot community. The conclusions in respect of Cyprus issued by the council on Monday were as follows:

"The council noted the results of the referenda in Cyprus on 24 April and expressed its strong regret that the accession to the EU of a united Cyprus will not now be possible on 1 May. The council expressed its deep appreciation for the determined and sustained efforts of the UN Secretary General Kofi Annan and his colleagues in the search for a comprehensive solution of the Cyprus problem. The council also welcomed the contribution made by Greece and Turkey. It expressed its determination to ensure that the people of Cyprus will soon achieve their shared destiny as citizens of a united Cyprus in the European Union.

The Turkish Cypriot community have expressed their clear desire for a future within the European Union. The council is determined to put an end to the isolation of the Turkish Cypriot community. The council invited the Commission to bring forward comprehensive proposals to this end, with particular emphasis on the economic integration of the island and on improving contact between the two communities and with the EU. The council recommended that the 259 million euros already earmarked for the northern part of Cyprus in the event of a settlement now e used for this purpose.

The council asked COREPER to expedite discussion of the Regulation on a regime under Article 2 of Protocol 10 of the Act of Accession with a view to its adoption before 1 May, taking due account of the council's desire to send a signal of encouragement to the Turkish Cypriot community that its future rests in a united Cyprus within the European Union".

By these and other means we intend to demonstrate Europe's concern for the well-being of Turkish Cypriots. In the same spirit, I have noted the announced intention of the Cyprus Government to support the economic strengthening of the Turkish Cypriot community and to facilitate trade.

As these conclusions indicate, neither the UK nor the EU as a whole is proposing any change in our long-standing and consistent policy of non-recognition of "TRNC".

We look forward to a report from the Secretary-General during the course of May about he future of his good offices mission.

We continue to believe that the Annan plan represented the best available blueprint for settlement. I share the UN Secretary-General's hope, expressed after the "no" vote on 24 April, that the Greek Cypriot electorate may arrive at a different view in the fullness of time, after a profound and sober assessment of their decision.

DEPUTY PRIME MINISTER

English Indices of Deprivation 2004

The Parliamentary Under-Secretary of State, Office of the Deputy Prime Minister (Yvette Cooper): Today I am announcing the publication of the revised "Indices of Deprivation—Indices of Deprivation 2004".

The Indices of Deprivation 2004 (ID 2004) combine statistical indicators on economic and social issues into a single score and rank for each small area in England. This enables us to rank small areas according to their level of deprivation. The indices are used by Government and other agencies to identify where there are concentrations of disadvantaged people, so that resources can be targeted where there is greatest need.

The new index is a significant improvement on previous indices. It uses a new base geography, which is more consistent over time and in terms of size. This allows us to overcome some of the problems with electoral wards, which were of varying sizes and which were regularly changed. The new super output areas allow us better to identify where very small pockets of deprivation exist and to track changes over time.

We have also been able to include new indicators that give a more precise measurement of particular aspects of deprivation. For example, with the new pupil level annual school census, we are able to attribute educational deprivation to the area where the child lives rather than attributing it to the school, as was the case in the past. We have also overcome previous problems with crime data and have now included a crime domain

for the first time. There is also a new living environment domain, which aims to identify deprivation in the indoors and outdoors living environment. Both of these new domains were strongly supported in the two periods of public consultation held to determine the best process for updating the 2000 index.

The index also allows us to rank local authority districts. Districts are complex to describe as a whole and as a result, six different measures have been designed which focus on different aspects of multiple deprivation in the district. No single measure is favoured over another, as there is no single best way of describing or comparing districts. The six measures are:

The **Concentration** is an important way of identifying districts' hot spots of deprivation.

The **Extent** portrays how widespread high levels of deprivation are in a district.

The **Income Scale** measure gives the number of people in the district who are income deprived.

The **Employment Scale** measure gives the number of people in the district who are employment deprived.

The **Average of SOA Ranks** summarises the district as a whole, taking into account the ranks of both the deprived and least deprived SOAs.

The **Average of SOA Scores** also describes the district as a whole, taking into account the full range of SOA scores across a district.

The table below summarises the districts that are amongst the 50 most deprived on each of the six district measures.

Rank	*Rank of Average Score*	*Rank of Average Rank*	*Rank of Extent*	*Rank of Concentration*	*Rank of Income Scale*	*Rank of Employment Scale*

Written Ministerial Statements

Thursday 29 April 2004

ENVIRONMENT, FOOD AND RURAL AFFAIRS

Departmental Annual Report

The Minister for Rural Affairs and Local Environmental Quality (Alun Michael): The Defra 2004 Departmental Report, which contains information on progress against the Department's objectives, the challenges ahead and summary expenditure plans for 2003–04 to 2005–06, has been published today. Copies have been placed in the House Libraries.

CONSTITUTIONAL AFFAIRS

Scottish Devolution Guidance Note

The Parliamentary Under-Secretary of State for Constitutional Affairs (Mr. Christopher Leslie): My noble Friend the Parliamentary Under-Secretary of State has made the following written ministerial statement in the other place today.

"I am today publishing a protocol on Scottish legislative proposals giving devolved powers and functions to UK bodies. This has been agreed by the UK Government and the Scottish Executive. It will be published as one of our series of Devolution Guidance Notes and copies will be deposited in the libraries of both Houses and on the following website http://www.dca.gov.uk/."

HEALTH

Departmental Annual Report

The Minister of State, Department of Health (Ms Rosie Winterton): The Department's annual report for 2004, (Cm 6204), was laid before Parliament today.

Copies have been placed in the Library.

Food Standards Agency

The Parliamentary Under-Secretary of State for Health (Miss Melanie Johnson): The Food Standards Agency's departmental report Spring 2004, Cm 6205 was laid before Parliament today.

Copies will be placed in the Library.

WORK AND PENSIONS

Departmental Annual Report

The Secretary of State for Work and Pensions (Mr. Andrew Smith): I am today able to announce the publication of the Department for Work and Pensions Departmental report. The report provides details of the Department's performance in 2003–04 against its public service agreement targets and sets out the Department's expenditure plans for 2004–05 and 2005–06. Copies have been placed in the Library.

INTERNATIONAL DEVELOPMENT

International Development Association

The Secretary of State for International Development (Hilary Benn): In 2002, the UK agreed to contribute £900 million to the thirteenth replenishment of the International Development Association (IDA), the World Bank's concessional lending arm which is designed to meet the needs of the world's poorest countries. In addition to this contribution, the UK set aside another £100 million to be provided on condition that a satisfactory framework was agreed to compensate IDA for the costs of introducing grants under its thirteenth replenishment (IDA 13). Both the initial £900 million contribution and the additional provisional contribution of £100 million were approved by Parliament on 3 December 2002.

I am pleased to announce that a satisfactory framework for compensating IDA 13 for the introduction of grants has now been agreed. Under this framework, donors will compensate IDA upfront for the administrative costs associated with providing grants, through making additional contributions to the next replenishment (IDA 14). (These are costs which arise early in the project cycle and, in the case of loans, would be covered by recipient countries.) Meanwhile, donors will compensate for the lost re-flows from recipient countries as and when these would have fallen due. Given the 10-year grace period provided under IDA on repayment of loans, this would not have happened until 2013 at the earliest. Compensation payments will not therefore be required until this time, and the exact means of compensation will be discussed as part of future IDA replenishments.

An essential and fundamental principle of the agreed grants compensation framework is that donors should contribute to the cost of compensation in line with their share of IDA 13 (their 'burden share'). If the UK were to contribute the full £100 million set aside to cover the costs of upfront compensation, we would effectively displace the contributions of other donors. We have therefore decided to cover both our burden share under IDA 13, and the structural financing gap inherent in this replenishment (equivalent to 9.37 per cent. of total resource needs from donors), making a total UK contribution for upfront IDA 13 grants compensation of £64.8 million.

Departmental Annual Report

The Secretary of State for International Development (Hilary Benn): I am today laying before Parliament copies of the Department for International Development's departmental report 2004.

SOLICITOR GENERAL

Crown Prosecution Service

The Solicitor-General (Ms Harriet Harman): My right hon. Friend the Attorney-General has made the following Ministerial Statement:

> The Director of Public Prosecutions has, in accordance with section 7A Prosecution of Offences Act 1985 as amended by section 53 Crime and Disorder Act 1998, extended the remit of work that may be undertaken by Crown Prosecution Service designated caseworkers.

Designated caseworkers are now permitted to undertake all work in the magistrates' court other than:

- Trials
- Proofs in absence in either-way cases
- Committals and sendings
- Pre-trial reviews
- Newton hearings
- Contested bail hearings

The extended remit of designated caseworkers will enhance the role of the designated caseworker and enable more effective court listing. It will also support the effective delivery by the Crown Prosecution Service of pre-charge advice.

A designated caseworker will not be permitted to undertake the extended remit until successfully completing a training programme and receiving a personal letter of appointment from the Director of Public Prosecutions.

The following documents will be lodged in the Libraries of Parliament:

- The extended remit of Crown Prosecution Service designated caseworkers.
- The Governance scheme for Crown Prosecution Service designated caseworkers, which sets out the supervision arrangements.
- The statement of ethical principles for Crown Prosecution Service designated caseworkers.

DEFENCE

Individual Training and Education (Armed Forces)

The Parliamentary Under-Secretary of State for Defence (Mr. Ivor Caplin): Our armed forces have an enviable reputation throughout the world for their professional delivery of operational military capability in a vast spectrum of roles. These range from war fighting to the complex and often subtle requirements of peace support operations and counter-terrorism; besides turning their hand, as they have done in recent years, to providing support to the civil community assisting with fire-fighting, flood-relief and the foot and mouth outbreak. Most who come across Service personnel acknowledge that they have sound essential military skills and operate within an ethos that differs from that generally found within the sphere of civilian employment. Yet those who join the services are not fundamentally different from the rest of society. What turns a young man or woman into a service person, capable of taking on successfully the variety of challenging roles which our country demands of them, is the training and education undertaken by servicemen and women throughout their careers.

The Ministry of Defence is one of the largest providers of training and education to the 16 plus age group in the UK. The initial training delivered to new recruits is geared to provide them with the essential skills and knowledge to be capable of operating effectively in often unpredictable, violent, dangerous and stressful environments from the outset of their careers. MOD seeks to develop each individual to his or her maximum potential. Service personnel are given training and education to improve upon their latent ability; some who join may lack basic skills whilst others have graduate qualifications. The scope and scale of the training and education provision is considerable, and spans the whole length of a career in the forces. Not only does this help to recruit and retain people, but, equally importantly, when service personnel return to civilian employment, they take with them skills of value to society.

I am therefore pleased to announce that today I have placed in the Library of the House a Policy Paper, entitled "Individual Training and Education in the Armed Forces". The paper provides information on MOD's wide spectrum of training and education and explains the skills agenda to which this operates. At its core lies the fundamental requirement to prepare servicemen and women to deliver operational capability. It includes insights into the key stages of initial training and the training environment, and highlights the MOD's determination to remain at the forefront of developing skills for the 21st Century.

CULTURE, MEDIA AND SPORT

Departmental Annual Report

The Secretary of State for Culture, Media and Sport (Tessa Jowell): I am today arranging for my Department's annual report (Cm 6220) to be laid before Parliament in advance of publication on 30 April.

Copies will be deposited in the Libraries of both Houses and the text made available on the Department's website at http://www.culture.gov.uk.

HOME DEPARTMENT

Immigration Rules

The Minister for Citizenship and Immigration (Mr. Desmond Browne): I have today laid before the House a statement of changes to the immigration rules. From 1 May 2004, as a result of the accession of 10 new states to the European Union, nationals of those EU accession states will not require immigration leave to enter or stay in the UK. Consequently it is necessary to remove all references to the individual EU accession states in the immigration rules with effect from the date of accession.

We have also decided to amend the European economic area (EEA) national settlement requirements to enable those currently in immigration categories leading to settlement to aggregate time spent here under the immigration rules with that as an EEA national in the UK when making an application to settle. This ensures that new EU nationals will not have to spend a

longer time in the UK to qualify for settlement than they would if accession had not occurred. This mirrors the practice followed in previous accessions.

Zahid Mubarek

The Secretary of State for the Home Department (Mr. David Blunkett): I am today announcing that, in line with the House of Lords judgment on 16 October 2003, I have established a public inquiry into the murder of Zahid Mubarek at Feltham Young Offender Institution in March 2000. The hon. Mr. Justice Keith will chair the inquiry; he will be assisted by three expert advisers who will provide advice and support to the inquiry on matters relating to race, prison operations and issues affecting prisoners. The inquiry will start immediately with the following terms of reference:

> "In the light of the House of Lords judgment in the case of Regina v. Secretary of State for the Home Department ex parte Amin, to investigate and report to the Home Secretary on the death of Zahid Mubarek, and the events leading up to the attack on him, and make recommendations about the prevention of such attacks in the future, taking into account the investigations that have already taken place—in particular, those by the Prison Service and the Commission for Racial Equality."

A report of the inquiry, subject to matters of confidentiality, will be published.

FOREIGN AND COMMONWEALTH AFFAIRS

Iran

The Parliamentary Under-Secretary of State for Foreign and Commonwealth Affairs (Mr. Bill Rammell): The Government have issued an open licence for the export to Iran of goods that will be listed in the United Kingdom strategic export controls annual report as "Components for Military Aero Engines". The goods will be used by the oil and gas industry overhaul turbines that power pumps for oil and gas pipelines. The goods are military listed because they were originally designed and used for military aircraft engines. In this instance, the Government are satisfied that there is a minimal risk of diversion to a military end use, and are prepared to make an exception to the UK national arms embargo. Other aspects of the application were considered against the consolidated EU and national arms export licensing criteria.

TRANSPORT

Driver, Vehicle and Operator Group

The Parliamentary Under-Secretary of State for Transport (Mr. David Jamieson): I am pleased to announce the Secretary of State's targets for 2004–05 in respect of the Driver, Vehicle And Operator Group.

The Secretary of State for Transport has set a range of high-level targets for the 2004–05 year on behalf of the Agencies within the Driver, Vehicle and Operator Group; the Driving Standards Agency, the Driver and Vehicle Licensing Agency, the Vehicle Certification Agency and the Vehicle and Operator Services Agency. They are included in the Agencies' Business Plans. The plans also include a range of management targets, performance indicators and key tasks which are appropriate to the Agencies' businesses and which reflect the wider DVO change agenda. Copies of the Business Plans will be placed in the Library shortly.

The key targets for the Driving Standards Agency are:

DVO Corporate Objective	*Secretary of State Target*
Deliver core services effectively	Deliver 6 week national average car practical test waiting time from January 2005.
	Maintain or improve levels of candidate satisfaction against the baseline of 90 per cent.
E-enable core customer-facing services	Introduce Advanced Speech Recognition for customers booking by telephone in August 2004.
Deliver a One Stop Service	Use Automatic Driving Licence Issue system to send pass results to DVLA to enable drivers to receive automatically updated licences from June 2004.
Help improve road safety	Deliver a national programme of 6,000 Arrive Alive presentations to 16–19 year olds.
	Deliver an interactive DVD to support learners to learn to drive safely by the end of March 2005.
	Improve the quality of trainers by effectively implementing the Approved Driving Instructors assessment programme.
Deliver more efficient services	Deliver Return on Capital Employed target of 3.5 per cent. over a five year period after offsetting the surplus in respect of 2003–04 and earlier years.

The key targets for the Driver and Vehicle Licensing Agency are:

DVO Corporate Objective	*Secretary of State Target*
Deliver core services effectively	Maintain or improve levels of customer satisfaction to 94 per cent. (2003 baseline 92 per cent.)
	Issue 98 per cent. of first driving licences within 8 working days
	Make 95 per cent. of vehicle registration (V5) changes within 12 working days.
	Maintain records that enable vehicle keepers to be successfully traced—target 75 per cent. of Harmonised Registration Certificates to be issued by March 2005.
E-enable core customer-facing services	Completion of Post Office barcoding (BART Phase 3) by August 2004 to enable automatic immediate update of DVLA licensing records.
	Commence national roll out of Electronic Vehicle Licensing phase 2 by March 2005.
Deliver a One Stop Service	First driver to receive replacement licence after passing their driving test, using the Automatic Driving Licensing Issue system by June 2004.

DVO Corporate Objective	*Secretary of State Target*
Improve data accuracy	First full Harmonised Registration Certificate issued on 1 July 2004.
Help reduce driver and vehicle related crime and anti-social behaviour	Reduce revenue loss arising from Vehicle Excise Duty evasion from 4.5 per cent. to 4 per cent. by end of March 2005.
	Successfully reduce the vehicle "inactive register" arising from Continuous Registration by 10 per cent. by end of March 2005.
Deliver more efficient services	Deliver Return on Capital Employed target of 3.5 per cent.
	Deliver 2.5 per cent. efficiency gain.

The key targets for the Vehicle Certification Agency are:

DVO Corporate Objective	*Secretary of State Target*
Deliver core services effectively	Have at least 98 per cent. of approved certificates issued error-free.
Help improve road safety	Have plans in place and on track to implement new approval procedures for buses by 2007 (working with VOSA).
Deliver more efficient services	Achieve at least break even for 2004–05.
	Complete the roll out of the integrated expense management system across the Agency and provide data to support better business development for 2005–06 Business Plan.

The key targets for the Vehicle and Operator Services Agency are:

DVO Corporate Objective	*Secretary of State Target*
Deliver core services effectively	Improve licence application turnaround times by determining 85 per cent. of unopposed applications within 10 weeks from date of receipt of the application.
	Improve HGV and PSV test availability by offering a test appointment on or within 18 days of the requested date 95 per cent. of the time
	Maintain or improve levels of customer satisfaction against 2003 baselines (operators licensing 78 per cent., testing 73 per cent.; fitters and presenters—roadside checks 89 per cent., testing 92 per cent.; and MOT customers 93 per cent.)
E-enable core customer-facing services	Have a robust MOT computerisation system being rolled out nationally by March 2005.
Deliver a One Stop Service	Develop a commercial customer portal delivering access to operator self-service by May 2004, an e-payment facility by 31 March 2005 and development of self service test bookings for implementation by April 2006.
Help improve road safety	Contribute to the improved compliance of the lorry, bus and coach industries (operators and drivers) through effectively targeted compliance inspections, penalties and advice; as measured by Performance Gain points (2003 baseline of 8,295,459).
Deliver more efficient services	Contribute to the DVO Group 5 per cent. Value for Money target by delivering against an agreed VOSA Value for Money plan, achieving 2.5 per cent. efficiency and 2.5 per cent. effectiveness measures.
Develop joined-up support services	Agree design templates for our estate modernisation programme and have completed 30 per cent. of phase one by 31 March 2005.

Road Transport (Working Time) Directive

The Parliamentary Under-Secretary of State for Transport (Mr. David Jamieson): On 21 October 2003, the Department for Transport launched a consultation exercise to consider the options for implementing the road transport (working time) directive—2002/15/EC (RTD) into UK legislation. This directive provides extra protection for drivers and crew of heavy goods and public service vehicles, who carry out road transport activities covered by the EU drivers' hours rules—regulation (EEC) 3820/85.

This exercise has now finished. In the light of responses received the Government has decided that the UK regulations should:

Implement the two derogations available under the RTD. This means that:

The four month reference period for calculating the average 48-hour week can be extended to six months.

night workers will be allowed to work more than 10 hours work for every 24-hour period.

To take advantage of the derogations, there will need to be either a collective agreement, or a workforce agreement at company level between the employer and employees. In addition, drivers will still be subject to the limits under EU drivers' hours rules (regulation 3820/85/EEC)

define "night time" as a period between 00.00–04.00 for drivers and crew of goods vehicles, but as 01.00–05.00 for drivers and crew of passenger vehicles.

VOSA (DVTA—NI) will enforce the new regulations; primarily in response to complaints they receive. This approach will be reviewed before March 2009.

Self-employed drivers will not be covered by UK regulations until March 2009.

Workers who are only occasionally subject to the RTD will be covered by the requirements of the directive—in particular the 60 hour weekly limit, 10 hour limit (when doing night work) as well as the daily/weekly rest requirement and break requirements.

The definitions under the RTD will be copied in to domestic law.

Detailed guidance on the new legislation, including the definitions (notably, working time and periods of availability) and occasional drivers or mobile workers will be published in due course.

In early June, the Department will consult on the draft text of the new regulations. The RTD will be implemented by 23 March 2005.

NORTHERN IRELAND

Parliamentary Boundaries

The Secretary of State for Northern Ireland (Mr. Paul Murphy): The Parliamentary Constituencies Act 1986, as amended by the Boundary Commissions Act 1992, requires that the Parliamentary Boundary Commission for Northern Ireland undertake periodical reviews of constituencies in Northern Ireland. The commission are required to submit a report to the Secretary of State for Northern Ireland not less than eight or more than twelve years from their last report. The present review commenced on 16 May 2003.

The commission are announcing their provisional recommendations for constituencies in Northern Ireland today. The proposals are to be made available for public inspection at district council headquarters and electoral offices, public libraries and at the offices of the Electoral Commission and the Boundary Commission to coincide with the formal publication of the provisional recommendations on 6 May. The commission are required to take into consideration any representations made within one month of publication of the proposals.

I will, of course, report back to Parliament once the commission has made its final recommendations.

Written Ministerial Statements

Friday 30 April 2004

NORTHERN IRELAND

Prison Service

The Parliamentary Under-Secretary of State for Northern Ireland (Mr. Ian Pearson): I have placed copies of the "Northern Ireland Prison Service's Corporate and Business Plan for 2004–2007" in the Libraries of both Houses.

The Corporate and Business Plan contains key performance targets I have set for the service for 2004–05. These are:

No escape for top and high-risk prisoners.

No more than three escapes per 1,000 medium and low risk prisoners.

The number of staff assaulted by prisoners is less than a ratio of five per 100 prisoners.

The number of prisoners assaulted by prisoners is less than a ratio of six per 100 prisoners.

An average of at least 18 hours constructive activity per week for each sentenced prisoner.

An average of at least nine hours constructive activity per week for each remand prisoner.

To ensure 82.5 per cent. of prisoners serving six months or more are working to a resettlement plan and that 95 per cent. of lifers work to a resettlement plan, including preparation of the plan, in the first six months from sentence.

Deliver at least 85 per cent. of the planned training days associated with the agreed corporate training priorities.

Reduce the rate of absenteeism to an annual average of no more than 19 days per head.

Lay the annual report and audited accounts before Parliament prior to the summer recess.

Ensure the average cost per prisoner place does not exceed the target to be agreed with HM Treasury.

The Government have committed substantial resources to implementing the Steele report, so that staff remains in full control. This does not mean any reduction in the need to tackle the other costs that make for an excessively high cost per prisoner place.

Also, in light of developments following the Steele report, and to support the development of partnerships with a wider range of statutory and voluntary agencies beyond the criminal justice system, I have agreed some adjustments to the service's statement of purpose, which now reads as follows:

"The Northern Ireland Prison Service, through our staff, serves the community by keeping in secure, safe and humane custody those committed by the courts; by working with prisoners and with other organisations seeks to reduce the risk of re-offending; and in so doing aims to protect the public and to contribute to peace and stability in Northern Ireland."

TRANSPORT

Departmental Annual Report

The Secretary of State for Transport (Mr. Alistair Darling): I have today published my Department's Annual Report for 2004. Copies have been laid before Parliament and placed in the Libraries of both Houses.

The report sets out the Department's work over the last year and it shows that progress has been made. It also describes the Department's future expenditure plans for the period of the spending review 2002.

ENVIRONMENT, FOOD AND RURAL AFFAIRS

Veterinary Medicines Directorate

The Parliamentary Under-Secretary of State for Environment, Food and Rural Affairs (Mr. Ben Bradshaw): I have set the veterinary medicines directorate the following performance objectives for 2004–05.

Objective 1: Authorise veterinary medicines efficiently, using good science, thus ensuring their safety, quality and efficacy.

Objective 2: Ensure the field-use of veterinary medicines is safe and effective, principally through the use of best practice in pharmacovigilance.

Objective3: Ensure the safe use of veterinary medicines authorised in the UK through surveillance of residues and follow-up action where misuse is detected.

Objective 4: Develop policy to ensure that veterinary medicines can be used effectively and safely, offering protection to human health, animal health and welfare and the environment.

Objective 5: Seek to encourage the proper use of veterinary medicines and actively discourage improper use.

Objective 6: Develop the VMD to ensure it is fit for purpose and its vision, aim and objectives are contributing to DEFRA's PSA VI as well as the Department's overall vision and values.

TREASURY

Valuation Office Agency

The Paymaster General (Dawn Primarolo): I have today set the following key performance indicators for the Valuation Office Agency for 2004–05:

Valuation Accuracy

Contain reductions in 2,000 local rating lists to less than 7.5 per cent. in respect of compiled list appeals settled in 2004–05, and to a maximum of 4.7 per cent. of the total compiled list rateable value over the entire life of the 2,000 rating lists.

Rating Revaluation

Prepare for the forthcoming revaluation of non-domestic properties in England and Wales by producing draft rating lists by 30 September 2004 and compiled rating lists by 31 March 2005.

Council Tax Revaluations

Prepare for the forthcoming revaluation of domestic properties in Wales by producing draft valuation lists by 1 September 2004 and compiled valuation lists by 31 March 2005.

Prepare for the forthcoming revaluation of domestic properties in England by digitising data for 97.5 per cent. of properties by 31 March 2005 and, by 31 July 2004, evaluating

whether the automated valuation model can be utilised effectively for the banding of a minimum of 60 per cent. of dwellings.

Customer satisfaction

Maintain customer satisfaction, based on annual surveys, at 86 per cent.

Value for money

Improve productivity by 2.5 per cent. in 2004–05 and achieve improvements of at least 15 per cent. by 2007–08.

Land Services

Achieve an increased fee income of £19.2 million ensuring that its share of VOA costs is covered.

People satisfaction

Improve staff satisfaction in working for the VOA in comparison with other places of work, based on annual surveys, by 1 per cent.

Financial "break even"

Recover full resource costs within Parliamentary approved estimates, including a return on capital of 3.5 per cent., from fees and charges.

HOME DEPARTMENT

Annual Report and Corporate Plan

The Secretary of State for the Home Department (Mr. David Blunkett): We have today published the Home Office's 2004 Annual Report and 2004–05 Corporate Plan. Copies are available in the House Library and on the Home Office website. Both describe how the Home Office builds trust and security, by promoting cohesive communities and active citizenship; and through the effective enforcement of law, order and our borders. Both the report and the plan describe how these themes provide the context for all that we do, and contribute towards civil renewal. The report is primarily focused on 2003–04, setting out our performance against key targets and describing how our activities contributed towards them. The plan is focused on the present financial year, explaining how we will deliver better public services and how the Department is organising itself to deliver these.

Yarl's Wood Immigration Removal Centre

The Minister for Citizenship and Immigration (Mr. Desmond Browne): The Government have today published the report of Stephen Shaw, the prisons and probation ombudsman, into the allegations of racism and abuse at Yarl's Wood immigration removal centre, which were reported by the Daily Mirror in December. The report is available on the immigration and nationality directorate (IND) website at http://www.ind.homeoffice.gov.uk/default.asp?pageid=4903. Copies of the report have been placed in the House Library.

We are very grateful to Stephen Shaw for the speed and thoroughness of his investigation and for the comprehensive nature of his report.

The investigation of this matter has revealed a number of disconcerting incidents at Yarl's Wood and confirmed that the principal allegations published by the Daily Mirror were correct. However, Stephen Shaw was able to establish that the remarks reported by the Daily Mirror were made by a small number of people at Yarl's Wood and that there was no evidence to indicate a general culture of racism or the improper use of force at the centre.

Stephen Shaw's investigation was preceded by an internal investigation by Global Solutions Ltd. (GSL), the company contracted by IND to operate Yarl's Wood. This investigation resulted in the dismissal of one member of staff and the suspension of another, followed by his resignation. Stephen Shaw satisfied himself as to the thoroughness of the GSL investigation and the appropriateness of the action taken by the company thereafter.

Stephen Shaw's report, which also covers the security implications of the journalist's undercover activity, contains 19 recommendations directed at GSL and ten recommendations directed at IND and the independent monitoring board (IMB) at Yarl's Wood. GSL have responded positively to the recommendations made to them. We have accepted all the recommendations, including that relating to the need to investigate an historical allegation of assault on a detainee, and IND officials will be working closely with GSL and the IMB to implement them.

DEFENCE

Service Children's Education

The Parliamentary Under-Secretary of State for Defence (Mr. Ivor Caplin): The Chief Executive of Service Children's Education has been set the following Key Targets for 2004–05.

KEY TARGET 1

Sustain threshold level performance at each of the Key Stages 1, 2 and 3 by remaining at least 3 per cent. ahead of national (England) achievement.

Sustain the percentage of pupils obtaining A*-C at GCSE as a three-year rolling average.

Sustain the percentage of students obtaining A-E at "A" Level as a three-year rolling average.

KEY TARGET 2

Sustain SCE's notional position in the English Local Education Authority league tables, within the leading 25 (of 150) LEAs at each of Key Stages 1, 2 and 3.

KEY TARGET 3

At the higher levels of attainment (i.e. level 3+ at Key Stage 1, level 5+ at Key Stage 2, level 6+ at Key Stage 3) match national level of performance in 50 per cent. of the 12 subject elements in 2004, rising in equal steps to 66 per cent. in 2006.

KEY TARGET 4

For GCSE, show improvement in Average Points' scores by achieving at least the England "capped" upper quartile figure (38.8).

KEY TARGET 5

To achieve Grade 4 or above (on the OfSTED seven point scale) in at least 85 per cent. of schools inspected, in each of the following areas:

Overall effectiveness of the School

Overall standards achieved

Pupils' attitudes, values and personal qualities

The quality of education provided by the school

The leadership and management of the school

KEY TARGET 6

To demonstrate customer satisfaction with a survey result of 69 per cent. satisfaction or more from Army Continuous Attitude Surveys.

Armed Forces Pension Scheme

The Parliamentary Under-Secretary of State for Defence (Mr. Ivor Caplin): During Standing Committee consideration of the Armed Forces (Pensions and Compensation) Bill in February, concern was expressed that the Government should provide more independent oversight of the arrangements provided for the armed forces in this area. I made clear to Committee members that I recognised the intent behind these concerns and we have considered how we might respond. We have now decided that we will give the independent Armed Forces Pay Review Body (AFPRB) a role in externally validating the provisions of the Armed Forces Pension Scheme (AFPS); we plan that this will be done in the context of their quinquennial valuation of the AFPS, though more frequent examinations of the scheme provisions could be undertaken if wider developments justified this.

The broad intent is that the AFPRB would compare the scheme provisions with practice elsewhere in the economy and consider the extent to which they meet the recruitment and retention needs of the armed forces. The Review Body's observations would then be made public in a supplement to the following annual report and the Government would also make public their response to these observations. I am pleased to say that the Chairman of the Review Body and his colleagues have agreed to take on this additional responsibility and we are now in discussion on the detail to determine the timing of the first such review. I am confident that this change will provide for more independence in reviewing the terms of the AFPS while equally helping us to ensure coherence across the broader remuneration package, comprising both pay and pensions. It should also provide additional reassurance for service personnel by ensuring effective independent validation of the appropriateness of the pension provisions for our armed forces.

Freedom of Information

The Parliamentary Under-Secretary of State for Defence (Mr. Ivor Caplin): The first duty under the Freedom of Information Act to be implemented by Government Departments was the requirement to prepare publication schemes. MOD's publication scheme is accessible via the internet at www.foi.mod.uk . Since the scheme was published in November 2002, we have continued to look for opportunities to extend the commitment to make information available proactively. To date, a further five classes of information have been added to the original publication scheme and a process for identifying and adding more is in place. The new classes cover information provided by the Army Historical Branch, the Naval Historical Branch, Defence Analytical Services Agency (DASA) Corporate Documents, Defence Data Definitions, and Defence Statistics.

As a further step in this process, I am announcing today that a new class of information will be included to require publication of the consolidated results of corporate level quantitative opinion surveys carried out to gauge the attitude of members of the public to the Ministry of Defence and the armed forces. The results of similar surveys undertaken internally with a random cross-section of the Department's own staff will also be published. The results of the external corporate level surveys undertaken since 1999 are also being placed in the Library of the House.

From October 2004, we also plan to release the results of the continuous attitude surveys that are undertaken by each of the three services to measure the morale and understand the concerns of their personnel across a spectrum of issues. These surveys are sent out annually to a random sample of around 8,000 military personnel at all ranks. This commitment to publish the results of these surveys will also be reflected through a class of information in MOD's publication scheme.

CULTURE, MEDIA AND SPORT

BBC New Services Review

The Secretary of State for Culture, Media and Sport (Tessa Jowell): I have today announced the start of the independent reviews of the BBC's new digital radio and television services along with the names of the two individuals who will conduct these studies.

The services concerned are: BBC Three; BBC Four; Cbeebies; CBBC; 1Xtra; BBC Asian Network; BBC Five Live Sports Extra; BBC 6 Music; and BBC 7. I have also published today the BBC's submission on these services, an electronic copy of which is available in the Libraries of both Houses.

I have announced previously my intention to appoint one reviewer for the digital television channels and one for the digital radio channels. I am pleased to be able to confirm the appointment of Patrick Barwise to the former position and Tim Gardam to the latter.

The reviews will begin immediately and will run concurrently. In accordance with the conditions that I laid down when giving my approval for the BBC to develop these new digital services, both reviews will include both a period of public consultation and a market impact study. I have asked both reviewers to submit their reports to me by the end of August 2004.

DEPUTY PRIME MINISTER

Annual Report

The Deputy Prime Minister (Mr. John Prescott): The Chief Secretary to the Treasury and I are pleased to present the Annual Report of the Office of the Deputy Prime Minister for 2004 to Parliament. It sets out the achievements of the Office of the Deputy Prime Minister.

The aim of the Office of the Deputy Prime Minister is to create sustainable communities—places where people want to live. It is about revitalising communities,

delivering sustainable economic growth, revitalising areas of neglect, improving the quality of local environment and protecting the countryside.

This, our second annual report, details an impressive array of achievements in every area of our work. We are driving up the quality and supply of housing, speeding up the planning system, reducing the incidence of rough sleeping and the number of homeless families in B&B accommodation, improving our public spaces and giving people a bigger say in what happens in their regions. We are delivering strong, effective local government services and devolving power to local neighbourhoods. We are also renewing and regenerating neighbourhoods particularly in our most deprived areas and reducing social exclusion.

But we must not be complacent and we know more remains to be done. We will therefore continue to work hard to deliver our aim of creating sustainable communities that provide a better quality of life, now and in future generations.

SOLICITOR-GENERAL

Annual Report

The Solicitor-General (Ms Harriet Harman): My right hon. Friend the Attorney-General has made the following Ministerial Statement: "The learned Law Officer's Departments Departmental Report 2004" has today been published and laid before Parliament. Copies have been placed in the Libraries of both Houses.

Written Ministerial Statements

Tuesday 4 May 2004

HOME DEPARTMENT

Hamer Report

The Minister for Crime Reduction, Policing and Community Safety (Ms Hazel Blears): I have today placed in the Library of the House copies of the final report of the "Independent Review of the Selection and Appointments Process of Independent Members of Police Authorities", undertaken on behalf of the Home Secretary by Mr. Kenneth Hamer.

This report makes a range of recommendations to improve the selection and appointments process to key posts in police authorities, highlighting the need to engage local people and the importance of police authorities continuing to develop effective links with other community groups.

DEPUTY PRIME MINISTER

Temporary Accommodation (Homeless Households)

The Parliamentary Under-Secretary of State, Office of the Deputy Prime Minister (Yvette Cooper): I am pleased to announce today the significant achievement against the Government's bed-and-breakfast reduction target that, by March 2004, local authorities should ensure that no homeless family with children should have to live in a bed-and-breakfast hotel except in an emergency, and even then for no longer than six weeks.

Figures collected by the Office of the Deputy Prime Minister show a 99.3 per cent. reduction in the number of homeless families with children living in bed-and-breakfast hotels for longer than six weeks, and who were placed there by a local housing authority as a discharge of a homelessness duty, over the two years since March 2002 when the target was set. Local authorities reported a total of only 26 families with children in bed-and-breakfast in excess of six weeks as of 31 March compared with an estimated 3,500–4,000 homeless families with children placed long-term in bed-and-breakfast hotels in March 2002. This reduction reflects the excellent achievement of local authorities working with the Office of the Deputy Prime Minister. A total of 328, or 95 per cent., of local authorities met the bed-and-breakfast target.

In London, where the highest concentrations of homelessness exist and where the highest number of families had been accommodated in bed-and-breakfast hotels, there were no homeless families who have been in bed-and-breakfast for longer than six weeks on 31 March.

Figures collected also show that the total number of homeless families with children in bed-and-breakfast was reduced by 88 per cent. from an estimated 6,730 in March 2002 to 780 in March 2004. This is the first sustained reduction in total use of bed-and-breakfast to house homeless families for over a decade.

Tabled below shows the breakdown of bed-and-breakfast figures for March 2004 for the 16 local authorities that failed to meet the target. A table showing the breakdown for all local authorities is available in the Libraries of both Houses. Further information is also available on the Office of the Deputy Prime Minister's web site www.odpm.gov.uk.

The Office of the Deputy Prime Minister will continue to work with local authorities, voluntary sector organisations and other stakeholders to sustain this target and our successful reductions in rough sleeping. We will also continue to work with stakeholders on tackling and preventing wider homelessness problems more effectively.

Numbers of families with children in B&B accommodation on 31 March 2004

	Local Authority	*Region*	*No. of FWC in B&B*	*No. in B&B>6 weeks*	*Comments*
1.	Waveney	Eastern	17	7	It is disappointing that Waveney predicted a lower number of FWC in B&B for longer than six weeks but was then unable to match the success of other authorities facing similar conditions. 5 FWC moved out of B&B by 19 April 1 FWC moved out of B&B on 29 April 1 FWC due to move out of B&B on 5 May
2.	Gloucester	South West	10	2	1 FWC moved out of B&B on 5 April 1 FWC housed pending review outcome then moved out of B&B on 26 April
3.	Arun	South East	5	2	1 FWC moved out of B&B on 7 April 1 FWC housed pending review outcome then moved out of B&B on 28 April
4.	South Somerset	South West	6	2	Both FWC moved out of B&B on 1 April
5.	Erewash	East Midlands	10	2	1 FWC moved out of B&B on 1 April 1 FWC moved out of B&B on 2 April
6.	Crawley	South East	11	1	FWC moved out of B&B on 1 April
7.	Swale	South East	7	1	FWC moved out of B&B on 22 April
8.	North Dorset	South West	1	1	FWC moved out of B&B on 16 April
9.	North Wiltshire	South West	3	1	FWC housed pending review outcome then moved out of B&B on 22 April

	Local Authority	Region	No. of FWC in B&B	No. in B&B>6 weeks	Comments
10.	Purbeck	South West	1	1	Large FWC, identifying suitable large property has delayed re-housing. Provisional date of 7 May for move out of B&B
11.	Rushcliffe	East Midlands	2	1	FWC moved out of B&B on 8 April
12.	Harrogate	Yorkshire & Humber	1	1	FWC moved out of B&B on 2 April
13.	North Shropshire	West Midlands	3	1	FWC housed pending review outcome then moved out of B&B on 5 April
14.	Surrey Heath	South East	2	1	FWC moved out of B&B on 8 April
15.	Torridge	South West	1	1	FWC housed pending review outcome, re-housing plan depends on review decision. FWC still in B&B
16.	Vale Royal	North West	3	1	FWC moved out of B&B on 12 April

The table shows the 31 March 2004 monthly monitoring figures for homeless families with children (FWC) in B and B accommodation for the 16 authorities that failed to meet the target.

All local authorities that failed to meet the target provided details of the families concerned. A number of families are described as "housed pending review outcome". In these cases the families have submitted an appeal against the authority's decision on their homelessness application. In such instances the local authority can choose to continue to house the family under discretionary powers.

TRADE AND INDUSTRY

Businesslink.gov Website

The Secretary of State for Trade and Industry (Ms Patricia Hewitt): The Department of Trade and Industry has transformed its services to businesses by listening to the needs and priorities of business people.

I am today launching a one-stop website for business. Businesslink.gov.uk will act as a gateway for information and support from across Government.

The new DTI-sponsored site removes the confusing array of advice about Government services that up to now has confronted businesses—particularly small businesses. Businesslink.gov is the result of a successful collaboration involving a wide range of Government Departments and Agencies: DTI, HM Treasury, Office of the e-Envoy, Small Business Service, Inland Revenue, HM Customs and Excise, Health and Safety Executive, the Department for Education and Skills, Environment Agency, ACAS and Companies House.

For the first time ever one site provides quick and easy on-line access for firms needing information about funding and services provided by Departments and Agencies, including advice on starting up a business, taxation, employing people and health and safety.

Services include opportunities for businesses to register for e-filing with Customs and Excise, Inland Revenue and Companies House in one go as well as a filter to help users identify which licences they need to trade.

Advice is provided in clear language on issues which businesses have identified as important and relevant to their needs. It is supported by practical tools to achieve results and therefore reduce the time that businesses have to spend on regulations and other matters.

Work has now largely been completed on the radical restructuring of the DTIs business support to create products that promote enterprise innovation and best practice to meet customer need for a streamlined range of products that are easy to access.

Four of these new products were released in 2003: Grant for Research and Development, Knowledge Transfer Partnerships, Grant for Investigating an Innovative Idea and the Small Firms Loan Guarantee.

Five new support products became available to businesses during April this year. These are: Collaborative Research and Development, Knowledge Transfer Networks, Access to Best Business Practice, Support to Implement Best Business Practice and Selective Finance for Investment in England.

Small and medium sized businesses will be able to access these products through Business Link. Larger corporates and business organisations can access them through the DTI while the Regional Development Agencies will deliver products which deal with specific regional issues. Detailed information about all these products are available to businesses through the Business Support Directory available on Businesslink.gov.

In the development of these products I have been advised by an expert Investment Committee that includes and is chaired by independent business members. The Committee will ensure that the impact of DTI products is thoroughly evaluated and that there is a clear economic rationale for the support we provide.

The closure of business support schemes the DTI has funded in the past is progressing as quickly as possible but at a pace which meets outstanding commitments.

Written Ministerial Statements

Wednesday 5 May 2004

HOME DEPARTMENT

Her Majesty's Chief Inspector of Probation

The Secretary of State for the Home Department (Mr. David Blunkett): Today I am delighted to announce that Her Majesty the Queen has approved the appointment of Andrew Bridges as HM Chief Inspector of Probation. Mr. Bridges' appointment will be for an initial period of 12 months. Through their expertise and rigour of approach the probation inspectorate have provided a major contribution to the national probation service. I am confident that Andrew Bridges will continue that tradition and that he will play a key role in monitoring the National Offender Management Service.

NORTHERN IRELAND

Northern Ireland Human Rights Commission

The Minister of State, Northern Ireland Office (Mr. John Spellar): The Northern Ireland Human Rights Commission is a key institution of the Belfast agreement. We in Government want it to succeed and are committed to helping it to do so. It is in all our interests that we have a strong, independent and self-confident Commission, which draws support from all parts of the community. It is from this position that we are approaching the coming year.

We have listened to the criticism of the Human Rights Commission. We have also listened to the other side, those who see the Commission doing the best job it can in difficult circumstances. We have thought carefully about the issues and how to address them.

We will shortly begin a process to recruit a new chief commissioner and a full set of commissioners to the Northern Ireland Human Rights Commission. We expect the process to take some months, with the new chief commissioner and commissioners being announced in the autumn. We propose to invite a number of those commissioners to take office soon after appointment. We will do this after discussion with the chief commissioner-designate, who will also be invited to join early. He or she will not become chief commissioner until the end of Brice Dickson's appointment. The remainder of the incoming commissioners will take office on 28 February 2005, at which point those who have served two terms will leave.

We will begin this process shortly. In the meantime we will be working on the details of the process. We will use search consultants. An independent assessor will be involved throughout and there will be a human rights expert, alongside the independent assessor, on the panel that interviews candidates.

This does not mean that the current Commission is winding down. Far from it. They have a great deal still to achieve.

From the outset, each commissioner has played an important role in promoting a culture of rights in Northern Ireland. They will leave behind an impressive body of work which I believe history will judge kindly. They have served in the best interests of all the people of Northern Ireland, at times under great pressure. For this, they deserve our gratitude and our support in their ongoing work.

For our part, the Government remain committed to establishing a broadly-based forum on the Bill of Rights. We will engage the political parties in a renewed effort to build consensus to this end.

We understand there is much detail behind these proposals which people will want to discuss. I will be inviting the parties to put forward their views. I am clear that these discussions must respect the terms of the Belfast agreement and the independence of the Commission. In this context, we will also conclude the review of the Commission's powers.

I would urge all parts of the community to work with us over the coming year. There are significant opportunities ahead to build on the great progress we have seen since in the field of rights since the Belfast agreement was reached in 1998. It is imperative that all parts of the community take those opportunities and everyone receives the same benefits.

INTERNATIONAL DEVELOPMENT

Humanitarian Response in Darfur

The Secretary of State for International Development (Hilary Benn): The Government are gravely concerned about the situation in Darfur, Western Sudan. The UN estimates that the fighting has led to the internal displacement of over 750,000 people, with about 130,000 refugees sheltering in Chad. The civilian population is in a precarious state. Humanitarian requirements for food, water and shelter are enormous, but access remains limited. Civilian protection is a major concern with reports of systematic attacks on civilians, including killings, rape, pillage and destruction of livelihoods. The approaching rainy season, due to start in mid-May, will add to the problems, increasing the risk of epidemics and hindering the movement of relief supplies.

The humanitarian ceasefire agreement, signed on 8 April, is a welcome step forward in resolving the crisis in Darfur. The parties must now live up to those commitments and allow international monitoring with full access to the areas and people affected.

James Morris, Head of the World Food Programme, has just returned from a mission to Sudan. I met him on 4 May and discussed the grave humanitarian situation and the need for the international community to do more.

I have therefore today agreed an additional £10 million from our contingency reserve for the continuing and severe humanitarian needs in Darfur. This will bring total UK commitments for Darfur to £19.5 million. The UK is the second biggest donor to the Darfur crisis, after the US. Additional information on the UK response to date is set out as follows:

OCTOBER–DECEMBER 2003

Early assistance for organisations with some access (albeit very limited and variable) to Darfur:

Save the Children UK (for North Darfur) £0.5 million

World Food Programme £2 million

International Committee of the Red Cross £1 million

Assistance to refugees in Eastern Chad:

UN High Commission for Refugees £1 million

Total financial assistance October to December 2003: £4.5 million

Continuing pressure on the Sudanese Government to allow humanitarian agencies unimpeded access to affected populations and security to operate, and to stop the fighting.

JANUARY–MARCH 2004

Following partial opening up of Darfur for humanitarian agencies, support to meet basic needs of affected population:

UN Children's Fund £1 million

Medecins Sans Frontieres (for South Darfur) £1.15 million

GOAL (for North Darfur) £0.58 million

Action Contre la Faim (for North Darfur) £0.25 million

Additional assistance to refugees in Eastern Chad:

World Food Programme £1million

UN High Commission for Refugees £1 million

Total financial assistance October 2003 to March 2004: £9.5 million

Support to UN Office for the Co-ordination of Humanitarian Affairs to improve its co-ordination and assessment capacity in response to the crisis:

Senior humanitarian adviser based in Khartoum for three months (extended to six months)

Three humanitarian affairs officers based in Geneina, El Fasher and Nyala for three months

One support staff for one month through International Humanitarian Partnership

One focal point for UN co-ordination and logistics for one month through UN Disaster Assessment and Co-ordination team

Continuing pressure on the Sudanese Government to allow humanitarian agencies unimpeded access, protect civilians from attack and agree a ceasefire with international monitoring

Involvement in ceasefire talks between SLM/JEM and the Government of Sudan in N'Djamena.

APRIL 2004 ONWARDS

Oxfam (for North and South Darfur) £2.2 million

Planned further contributions to UN and other international organisations

Total financial assistance to date: £11.7 million

ENVIRONMENT, FOOD AND RURAL AFFAIRS

Water Pollution

The Minister for the Environment (Mr. Elliot Morley): The Chancellor confirmed in his pre-Budget report that we would be launching a consultation on developing measures to address diffuse water pollution from agriculture in the early part of this year.

The synergies between agriculture and environment are key to sustainable development. Given our desire to gain maximum value from a wide-ranging consultation on how best to both increase the sustainability of English agriculture and ensure it plays its part in making water in England as clean and as healthy as practicable, we will now be publishing this consultation on 17 June.

TREASURY

Debt Management Office

The Financial Secretary to the Treasury (Ruth Kelly): The Debt Management Office (DMO) is today publishing its business plan for 2004–05. The DMO's targets for 2004–05 are set out in the business plan. A brief commentary on last year's outturn in relation to the comparable targets will be included in the DMO's report and accounts for 2003–04. A copy of the business plan has been placed in the Library of the House.

TRADE AND INDUSTRY

Operating and Financial Review

The Secretary of State for Trade and Industry (Ms Patricia Hewitt): I am launching today a consultation on draft regulations for a statutory operating and financial review (OFR), following a recommendation of the company law review and proposals set out in the Government's White Paper "Modernising Company Law" of July 2002. Copies have been placed in the Libraries of both Houses and the Vote Office.

The OFR regulations will require quoted companies to provide a narrative report setting out the company's business objectives, its strategy for achieving them and the risks and uncertainties that might affect their achievement. It will require companies to report on other matters where these are necessary for an understanding of the business. These matters include employees, the environment and social and community issues. It is proposed that where directors believe that they have nothing to report on those matters, they will have to state that fact. The OFR will represent a move from reporting on past performance to an assessment of the future prospects of the company in both the short and the long term. It will enable shareholders to judge whether the directors' view of the business meets their own long-term investment needs and their own expectations of the way good companies should perform—companies that understand the importance of human capital, open dealings with customers and suppliers, and their impact on the environment and on the wider community.

The OFR will apply to all quoted companies. These are companies registered in Great Britain that are either listed in the UK or in any other European economic area (EEA) state or whose shares are traded on the New York stock exchange or NASDAQ. The regulations also implement related changes to the directors' report of other companies required by the Accounts Modernisation Directive.

A number of quoted companies already prepare OFRs or adopt the broad approach set out in a guidance statement originally introduced by the Accounting Standards Board in 1993 and revised in 2003. The directors of those companies recognise that such reporting can contribute to the profile of the company and offer the market confidence about its management and prospects. The OFR regulations will provide directors with the opportunity to provide key information to shareholders within a statutory regime that will give reassurance on the quality of the information provided. It will enable the best companies to maintain and promote their high standards while allowing other companies to raise their standards. It will contribute to market stability, shareholder engagement, investment, company performance and corporate social responsibility. It will facilitate informed dialogue between directors and shareholders, encouraging responsible institutional investors to adopt an understanding of the particular businesses their investments rely upon.

The Accounting Standards Board will be preparing a new reporting standard for the OFR. In addition, alongside the consultation, a working group chaired by Rosemary Radcliffe and representing a range of business, investor and wider interests, is publishing practical guidance for directors on the preparation of the OFR. I am extremely grateful to the working group for the hard work it has undertaken on this essential element of the OFR.

The consultation period will end on 6 August. After taking into account responses to the consultation, I intend to lay the regulations before the end of the year, so that they can apply to accounting periods beginning on or after 1 January 2005. I hope that all those interested in this issue will respond to our consultation and help us ensure that the OFR is an effective tool.

Special Shares (Energy Companies)

The Secretary of State for Trade and Industry (Ms Patricia Hewitt): I wish to inform the House about the Government's decision on the future of special shares held in the British Energy Group, Nuclear Generation Decommissioning Fund Limited, National Grid Transco plc, Viridian, Phoenix Natural Gas, Scottish Power, and Scottish and Southern Energy.

The Secretary of State for Scotland and I jointly hold a special share in British Energy plc. I hold a special share in British Energy's English operating subsidiary, British Energy Generation Limited, and the Secretary of State for Scotland holds a special share in the Scottish operating subsidiary, British Energy Generation (UK) Limited. I also hold a special share in the Nuclear Generation Decommissioning Fund Limited (NGDF) that would be subsumed into the new Nuclear Liabilities Fund (NLF) being created as part of the proposed restructuring of British Energy. In addition, I also hold a special share in National Grid Transco plc. The Secretary of State for Northern Ireland holds special shares in Viridian and in Phoenix Natural Gas. The Secretary of State for Scotland holds special shares in Scottish Power, and Scottish and Southern Energy.

Special shares in these companies require the consent of the relevant Minister for certain significant decisions affecting shareholdings, the structure of the company or disposal of certain assets. In particular, Government consent is required for any move that would allow a single person to own more than 15 per cent. in any of the companies.

We have been considering carefully the future of these shares that date back to the original privatisation of the companies in the light of the European Court of Justice (ECJ) judgments on special shares (including BAA) on 13 May 2003, and, in the case of British Energy, the proposed restructuring of the company. The Government have concluded that the current legal and regulatory framework now provides adequate protection of the public policy objectives, which the special shares were initially set up to cover. We will maintain only those that can be justified and are necessary in the public interest.

Taking account of the ECJ judgments, the Government have decided to redeem the special shares held in National Grid Transco plc, Viridian, Phoenix Natural Gas, Scottish Power, and Scottish and Southern Energy.

The Government have decided, however, that it would be justifiable to retain two key provisions of the British Energy special share: first, to require anyone who has purchased more than 15 per cent. of the issued shares of British Energy to obtain the Government's consent; and, secondly, to require the consent of the appropriate Secretary of State for any disposal of a nuclear-station by British Energy. It is proposed that both provisions will be amended to provide that Government consent may be refused only on national security grounds. The nuclear security regime operated by the Department's Office for Civil Nuclear Security is robust and comprehensive, and is designed to prevent unauthorised access to nuclear stations or nuclear material falling into inappropriate hands. But in the context of nuclear energy we believe it is justified and proportionate to the risks involved to retain these two particular special share provisions in the companies of the British Energy Group.

Other provisions of the special shares in the British Energy Group would be given up on the same basis as for the conventional electricity companies. In the light of the ECJ judgment in would not be justified to retain general powers over the commercial operations of the company. These rights have not protected, and will not protect, the Government's economic interest in British Energy. This interest arises from the Government's ultimate responsibility to ensure safe management and funding of BE's nuclear liabilities, which would always fall to the Government in the last resort given their duty to safeguard nuclear safety, security and environmental protection. For the future, it is the contractual arrangements we are putting in place as part of the restructuring that would compel British Energy to

contribute to its liabilities and help minimise demands on the taxpayer, and enable us to monitor the performance of the company.

The special share in the NGDF will be retained and carried forward into the NLF if British Energy's restructuring is successful. The special share contributes to the protection of the Government's significant interest in ensuring that the NGDF/NLF Company achieves its purpose of receiving, investing and ultimately paying out moneys for the decommissioning of British Energy's nuclear power stations.

DEFENCE

Future Rapid Effect System (FRES)

The Minister of State, Ministry of Defence (Mr. Adam Ingram): The Ministry of Defence has approved the launch of a two-year assessment phase for the future rapid effect system (FRES). FRES is the most significant armoured vehicle project for the next decade. It is central to the Army's future force structure, providing a family of network-capable armoured vehicles as part of a coherent and highly deployable medium-weight force. It will deliver a step-change in the capability of our forces to meet the challenges of future expeditionary operations. FRES is also intended to meet the need to replace a number of in-service vehicles, such as SAXON, with modern, battle-winning equipment.

The assessment phase will be led by a systems house, independent of product or manufacturing capability, selected for their programme management, risk management and systems engineering capabilities. The successful candidate will be selected via competition and a contract should be placed in late 2004. The systems house will provide an objective view of ideas and technologies, which may be applicable to FRES, and of the risks inherent in complex "system of systems" integration. It will exploit and build on previous work wherever possible. In addition, as part of an incremental acquisition approach, the assessment phase will include a range of risk reduction and technology demonstration work to examine the risks of relevant technologies and to determine if they are suitable for FRES, allowing the insertion of new technologies as they mature.

The FRES project also provides excellent opportunities for UK defence industry to engage in the programme in line with defence industrial policy. The assessment phase will reach as wide and deep as possible to harness the broadest range of industrial capability, creativity and innovation. The systems house will therefore need to work closely with companies in the armoured fighting vehicle and other related sectors to draw on their expertise. There will also be opportunities for such companies to participate in the technology demonstration work during the assessment phase.

Options for future phases of the programme have deliberately been kept open, but the way forward for FRES announced today provides the right foundations for the project and for the successful delivery of this important capability.

DEPUTY PRIME MINISTER

Housing

The Deputy Prime Minister (Mr. John Prescott): I am today announcing my approval to 58 new schemes that could release up to £3 billion more investment to tackle another 170,000 homes and further reduce the number of non-decent social homes. This adds to the considerable achievement of there already being 1 million fewer social homes below the decency standard than seven years ago.

I am also announcing a new scheme which would enable proposed stock transfers with a funding gap to go ahead. This will ensure that the option of a stock transfer is available to those cases where the stock has a negative value.

The new schemes draw on funding using our three designated routes for councils that need extra resources to make their stock decent:

I have awarded 12 local authorities places on the fourth round of the Arm's-Length Management Programme. These are Bassetlaw, Brent, Ealing, Eastbourne, Hammersmith and Fulham, Newark and Sherwood, Nottingham, Rotherham, Sandwell, Sheffield (partial), Slough, and Wolverhampton. Together, the bids from these authorities are for over £1.8 billion and cover just under 114,000 non-decent homes.

I have agreed nine new schemes under the private finance initiative. These are in Cheshire, Derby, Kent, Kirklees, the London Boroughs of Croydon, Islington and Lambeth, Manchester and West Wiltshire. We are making PFI credits of around £370 million available to tackle 5,300 non-decent homes as well as providing new and refurbished affordable housing and building new sheltered and supported housing.

Thirty stock transfer schemes in 14 local authorities have been awarded places on the 2004 transfer programme: Broxbourne, Ellesmere Port and Neston, Halton, Hyndburn, Kings Lynn and West Norfolk, Lambeth, Tower Hamlets, Macclesfield, Mid-Devon, North Somerset, Sedgefield, Stafford, West Lancashire and Sheffield. Seven more in four local authorities have had places held open: Manchester, North Norfolk, Preston, Teesdale. Together they generate £1 billion of private sector investment to tackle 56,000 non-decent homes and keep the stock in good condition for 30 years.

These announcements are a tremendous achievement which show that we are making great strides toward our aim, which I confirmed in the sustainable communities plan in March 2003, of making all social housing decent by 2010.

Written Ministerial Statements

Thursday 6 May 2004

HOME DEPARTMENT

Royal Household (Security)

The Secretary of State for the Home Department (Mr. David Blunkett): I am today publishing the Security Commission's report on the implications for security of the activities of the *Daily Mirror* reporter, Ryan Parry, at Buckingham Palace. I assured the House on 19 November 2003, *Official Report*, column 775, that I expected the review to cover all aspects of the process of checking those who form part of the royal household. I also said that one of the strengths of our democracy is that such breaches are open to scrutiny, that we can learn quickly from them, and that nothing is swept under the carpet.

I therefore welcome the Security Commission's report on this incident and applaud the thoroughness with which it has approached its task.

The recommendations are clear and pragmatic and include the creation of a post of Director of Security for the royal households, the development of a wide range of checks that can be carried out on employees of the royal households and the creation of an annual plan to be agreed and implemented by the households, together with the police and the Home Office.

I am happy to note the progress that has already been made in the intervening period to improve security within the royal households and I look forward to the implementation of the report's recommendations. The appointment this week by Buckingham Palace of a director of security is particularly welcome, as this new post will oversee the security vetting process across the royal households reporting to the Queen's Private Secretary.

It is clearly welcome to note the Commission's finding that the existing framework for dealing with the security of the royal family is considered sound and provides an appropriate strategic structure for the oversight of security vetting and related work. Responsibility for delivery will accordingly continue to be shared: policy and funding responsibility to rest with the Home Secretary; operational responsibility to lie with the police; and the royal households having overall responsibility for personnel security and for procedures within royal residences. The Commission recommended a tightening of the arrangements for day to day delivery of these procedures within the royal household through the creation of the director of security post, a new annual security plan and a regular process of review. Overall responsibility, as the House would expect, will continue to rest with me as Home Secretary with the constituent parts of the system being responsible for delivery in their areas.

The Commission also met the authorities of the Palace of Westminster, in order to discover whether similar issues might arise in relation to Parliament. On reflection, the Commission felt that the differences require a separate review, but none the less made a number of suggestions. The report will therefore be copied to those undertaking the existing security view of the Palace of Westminster announced by the Leader of the House of Commons last month. None the less, the Commission endorsed recent changes to security at the Palace of Westminster, including the decision of the House of Commons Commission to construct a security screen around the public gallery on the recommendation of the Director General of the Security Service.

ENVIRONMENT, FOOD AND RURAL AFFAIRS

Waste Management

The Minister for the Environment (Mr. Elliot Morley): I am pleased to announce today the publication of the "Review of Environmental and Health Effects of Waste Management: Municipal Solid Waste and Similar Wastes."

The Prime Minister's Strategy Unit, in its report "Waste not, Want not" recommended that an independent body should bring together the literature and evidence on the relative health and environmental effects of all the different waste management options, relative both to each other and to other activities affecting health and the environment. Defra commissioned this report in response to that recommendation.

The review was commissioned in early 2003, and has been carried out by a team led by Enviros, environmental consultants, and Roy Harrison, Professor of Environmental Health at the Institute of Public and Environmental Health, University of Birmingham. The team should be congratulated on bringing together and considering a wide range of evidence, both from the UK and abroad.

The report examines the waste management options for treating municipal solid and similar waste. It focuses on the principal types of facilities that are currently used for dealing with such waste in the UK and in Europe and on what the currently available scientific evidence can tell us about their environmental and health effects.

It is very comprehensive, bringing together, for the first time, a wealth of evidence from existing studies of the health and environmental impacts of waste management. It provides a convenient and authoritative compendium of current knowledge in this area.

The report has been peer reviewed by the Royal Society and Professor Howard Dalton, Defra's chief scientific advisor, has provided me with advice on the scientific analyses.

The report's authors conclude that, on the evidence from studies so far, present day municipal waste management has at most a minor effect on human health and the environment. For example:

> dealing with municipal solid waste by incineration accounts for less than 1 per cent. of UK emissions of dioxins, while domestic sources such as cooking and burning coal for heating account for 18 per cent. of emissions;

less than 1 per cent. of UK emissions of oxides of nitrogen, which reduce air quality, come from municipal solid waste management, while 42 per cent. come from road traffic.

The report rightly recognises that there is more that we can and should still learn and we will be addressing the need and priorities for further research through our waste research strategy this summer. The search for knowledge is never complete, and this report usefully identifies areas of research that we will be taking forward as part of our continual efforts to refine the evidence base for policy making.

We must manage the growing amount of waste we produce. We will do this by basing our policies on the best available scientific evidence and on an assessment of the comparative risks. We will continue to develop our scientific knowledge to support our policies. This report is a helpful contribution to that process.

Emissions Trading Scheme

The Secretary of State for Environment, Food and Rural Affairs (Margaret Beckett): The Secretary of State for Trade and Industry and I are today publishing the UK national allocation plan for the EU emissions trading scheme. Copies of the plan will be available in the Libraries of the House from 11 am today.

The EU emissions trading scheme is the most significant measure in the EU climate change programme, and begins on 1 January 2005. The objective of the scheme is to reduce, in the most cost effective way, EU emissions of CO_2 that contribute to the problems associated with global warming and to encourage investments by business to help EU member states and accession countries achieve the reductions necessary for meeting their Kyoto targets for 2008–12.

The plan was submitted to the European Commission on 30 April to meet a commitment given by Ministers at the end of March. It is being published today as part of a package including a consultation document that explains decisions taken following earlier consultation on a draft of the plan and further issues on which comments are being sought.

The overall number of allowances to be allocated in the first phase of the scheme is consistent with an initial reduction in UK carbon dioxide emissions of 15.2 per cent. on 1990 levels by 2010. The Government are firmly committed to its national goal of moving towards a 20 per cent. reduction in emissions of carbon dioxide by 2010. The overall level of allowances to be allocated in the UK in phase 2 of the scheme (which runs from 2008–12) will be consistent with the trading sector's contribution to achieving the 20 per cent. goal.

I have emphasised to the European Commission the UK's commitment to the scheme and the importance that the UK attaches to the Commission's scrutiny of all national allocation plans to ensure that they deliver on the EU's Kyoto goals—not least because widely varying and inconsistent approaches could be said to have competitive implications. Given the approach that the UK has taken in its plan, it is politically important that the Commission plays this role effectively.

NORTHERN IRELAND

Political Parties, Elections and Referendums Act

The Minister of State, Northern Ireland Office (Mr. John Spellar): Last year the Government announced a review of the Political Parties, Elections and Referendums Act 2000 (Disapplication of Part IV for Northern Ireland Parties, etc) Order 2001.

The Order, made under section 70 of the Act, exempts the Northern Ireland political parties from the requirement to comply with Part IV of the Act for four years. Part IV regulates donations to parties so that foreign and anonymous donations are prohibited.

After consulting the Northern Ireland political parties, political parties in Ireland, the Northern Ireland Affairs Committee and the Electoral Commission, and taking into consideration the changed political landscape since the Order was first made, the Government are now minded to let the current Order expire in February 2005.

The Government recognise that the current funding arrangements lack transparency and that they are open to abuse. Moreover, the current regime creates clear differences between political parties in Northern Ireland, on the one hand, and those in the rest of the United Kingdom and in Ireland in terms of their access to funds.

However, the Government are fully aware of the special circumstances that exist in Northern Ireland both as regards the continuing fear of intimidation of donors and Ireland's special role in Northern Ireland's political life, as set out in the Belfast agreement. Any new arrangements, therefore, will have to take these important issues into account.

Equally, however, there is a reasonable demand in many quarters for greater transparency and accountability. The Government are, therefore, inviting views on what new arrangements might be made within those objectives, and will aim to announce its decisions by the end of the year. Parties or individuals willing to comment should, therefore, do so by 30 June 2004.

I will, of course, report back to the House in due course.

CULTURE, MEDIA AND SPORT

Lottery Young People's Fund

The Minister for the Arts (Estelle Morris): I am pleased to inform the House that on 5 May I formally issued the New Opportunities Fund (NOF) with policy directions in connection with the new lottery young people's fund. We announced our intention to establish such a fund, initially funded with £200 million from NOF's balances, in the national lottery funding decision document published last July. It was specified as a new NOF initiative in the New Opportunities Fund (Specification of Initiative) Order 2004, which came into force on 23 January 2004, following a resolution of each House of Parliament.

The policy directions I have issued to NOF will allow it to take forward development of the fund, within a framework that supports key priorities for the Government and the devolved administrations. The

focus of the young people's fund will be on projects promoting youth inclusion, specifically by providing facilities and activities, both after school and in holiday periods. In England, the development of the fund will be closely aligned with the aims and principles of the Green Paper "Every Child Matters", published last September.

The fund will address the particular problems faced by young people at risk of social exclusion and provide a welcome new focus for lottery funding for this age group. Plans for the fund will be developed in consultation with representative groups of young people. Young people will also be involved in the design and development of project proposals, decisions on which projects are supported, and the implementation, management and evaluation of projects.

I have placed a copy of the policy directions in the Libraries of both Houses.

DEFENCE

Queen Victoria School

The Parliamentary Under-Secretary of State for Defence (Mr. Ivor Caplin): The Chief Executive of the Queen Victoria School has been set the following key targets for 2004–05:

Pupil Population

To maintain the staying on rate at school for S4 to S5 at a minimum of 6 per cent. above the Scottish National average for the current year.*

Educational

To maintain a percentage of pupils of the S4 roll gaining 5 + awards at level 5 or better (post-appeal) by the end of S4, at 5 per cent. above the Scottish National average.*

To maintain a percentage of the S4 roll gaining 3 + awards at Level 6 or better (post-appeal) by the end of S5, at 4 per cent. above the Scottish National average.*

Financial

To achieve a pupil per capita cost of not more than £15,750 by 31 March 2005. The 2003–04 target was £15,250.

To generate gross income to the School of at least £330,000 by 31 March 2005. The 2003–04 target was £300,000.

*All Queen Victoria school statistics to be based on the school's results over the last three years, compared with the Scottish National average for the current year, those statistics being as published in the Scottish Executive Statistical Bulletin. All educational key targets for 2003–04 are shown pre-appeal and will be updated with post-appeal figures when the latter are published by the Scottish Executive. However, the reported performances of all educational key targets for 2003–04 are shown post-appeal.

Analytical Services Agency

The Minister of State, Ministry of Defence (Mr. Adam Ingram): Key targets have been set for the Chief Executive of the Defence Analytical Services Agency (DASA) for financial year 2004–05, and are as follows:

Delivering Services to Meet Customer Needs

To meet at least 95 per cent. of the timeliness and quality targets in the 36 Service Level Agreements with customers for on-going work, and Project Agreements for surveys, modelling and other one-off projects.

To publish the five key defence National Statistics on time, with no major errors and with no breaches of the pre-release access arrangements, and to meet 95 per cent. of the timeliness and quality targets for other defence National Statistics publications.

To have at least 90 per cent. of customers saying, in the annual Customer Satisfaction Survey, that they are satisfied with the overall service they receive from DASA.

Investing in Quality

To conduct a National Statistics quality review of DASA's service pensioners statistics, and recommend improvements in their quality and scope.

To implement 75 per cent. of the 2004–05 targets in the implementation plan for the defence finance and economic statistics National Statistics quality review conducted in 2002–03.

Developing People

To have at least 85 per cent. of staff saying, in the annual Staff Opinion Survey, that they are satisfied with working in DASA.

Efficiency

To make sufficient efficiency gains to provide the necessary resources for (a) Key Target 5 to be addressed, (b) a scoping study to be conducted into DASA's taking on responsibility for the collection and presentation of deployment statistics, and (c) an expanded investment appraisal advice service established.

Anti-Structures Munition (ASM)

The Minister of State, Ministry of Defence (Mr. Adam Ingram): The Ministry of Defence has selected two systems offered by Dynamit Nobel and Saab Bofors Dynamics to proceed into a competitive assessment phase for the anti-structures munition programme. This follows a successful and comprehensive evaluation as part of the concept phase. The cost of the assessment phase is likely to be approximately £7 million.

The ASM programme is intended to produce a man portable, shoulder launched, precision weapon for use against fixed structures and other emplacements at a range of around 200m, utilising enhanced blast warhead technology. A decision on whether to commit to demonstration and manufacture of the system will occur at Main Gate.

The strategic defence review new chapter placed increased emphasis on the need for precision in the face of force and ASM has the potential to provide the armed forces with a significant advancement in capability in this area, particularly for expeditionary operations in urban and mountainous terrain. It is designed to minimise casualties and will be fully in accordance with our obligations under international humanitarian law.

Defence, Transport and Movement Agency (DTMA)

The Minister of State, Ministry of Defence (Mr. Adam Ingram): Key targets have been set for the Chief Executive of DTMA for Financial Year 2004–05. The targets are as follows:

Key Target 1

To achieve at least a "SATISFACTORY" rating in the provision of planning and delivery of transport and movements support to emerging operations, an increase in the tempo of existing operations or other requirements.

Key Target 2

To achieve at least a "SATISFACTORY" rating in the planning and delivery of transport and movements support to enduring operations.

Key Target 3

To provide Roll-on Roll-off (Ro-Ro) vessel capability at the Readiness States required.

Key Target 4

To meet customers' requirements as negotiated and agreed in Customer Supplier Agreements (CSAs) to deliver:

97 per cent. or more of Agency transactions and services, however provided, to be within agreed Time, Quantity, Quality and Cost (TQQC) criteria.

At least 92 per cent. of transactions against each service to be within agreed TQQC criteria.

Key Target 5

To reduce the average unit cost of output by 2 per cent. in real terms.

FOREIGN AND COMMONWEALTH AFFAIRS

Armenia and Azerbaijan

The Parliamentary Under-Secretary of State for Foreign and Commonwealth Affairs (Mr. Bill Rammell): Her Majesty's Government remain committed to the OSCE arms embargo against both Azerbaijan and Armenia, which we interpret as covering all goods and technology controlled under entries in Part III of Schedule 1 to the Export of Goods (Control) Order 1994 commonly known as the military list).

In April 2004, the Government approved an export licence application for de-mining equipment for the HALO Trust for de-mining operations in Armenia and Azerbaijan.

The decision was made in accordance with our practice occasionally to make an exemption to our interpretation of the embargo by approving exports of non-lethal military goods to humanitarian, media or peacekeeping organisations where it is clear that the embargo was not intended to prevent those exports and there is a strong humanitarian case for them.

INTERNATIONAL DEVELOPMENT

Jamaica

The Secretary of State for International Development (Hilary Benn): Debt repayments totalling £9.45 million owed by the Government of Jamaica on past loans from the UK have been cancelled by the Department for International Development (DFID). This sum comprises the following:

Relief under the Commonwealth Debt Initiative (CDI) for all repayments due in 2004–05, £3.53 million;

Relief of loan repayments due to the Commonwealth Development Corporation (CDC) in 2004–05, £2.91 million;

Reimbursement of loan repayments made to the CDC during 2003–04, £3.01 million.

Part of the debt held by the Commonwealth Development Corporation was transferred to DFID in 1999, when the CDC was transformed into a public limited company. This debt is now managed within the CDI process.

The Commonwealth Debt Initiative, launched in October 1997 by my right hon. Friend the Chancellor of the Exchequer, aims to provide additional relief in respect of Government to Government loans to low and middle-income countries in the Commonwealth that are committed to achieving the millennium development goals, promote transparent and accountable Government, and pursue economic policies that encourage sustainable development.

Approval of debt relief for Jamaica follows a detailed assessment by the Governments of Jamaica and the UK against these criteria. The assessment considered the effects of Jamaica's high level of debt and its impact on pro-poor expenditure, and the high levels of crime and violence. It also considered the steps taken by the Government of Jamaica to modernise the public sector, which is central to economic recovery and growth; to develop a comprehensive strategy to reduce crime and violence and promote security; and to develop a medium term socio-economic policy framework, which will provide a coherent framework for policy decisions which promote growth, security and the reduction of poverty.

CONSTITUTIONAL AFFAIRS

Government Inquiries

The Parliamentary Under-Secretary of State for Constitutional Affairs (Mr. Christopher Leslie): My noble Friend the Secretary of State for Constitutional Affairs and Lord Chancellor has today, with the agreement of the Public Administration Select Committee, published a consultation paper which sets out the Government's response to the "Issues and Questions" paper published by the Public Administration Select Committee on 24 February 2004 as part of its inquiry into "Government by Inquiry".

The consultation period will run until 29 July 2004.

The Government believe that there is a strong case for considering what steps could be taken to improve the arrangements for inquiries called by Ministers to ensure that the benefits of their recommendations can be obtained more quickly, and economically. On 25 May, my noble Friend the Secretary of State for Constitutional Affairs and Lord Chancellor will give oral evidence to the Committee. As well as consideration by the Committee, the Government feel that matters discussed in the memorandum merit wider comment.

I have placed copies of the consultation paper in the Libraries of both Houses and it has been published on the Department for Constitutional Affairs website at: www.dca.gsi.gov.uk/consult/confr.htm

Hutton Inquiry

The Parliamentary Under-Secretary of State for Constitutional Affairs (Mr. David Lammy): My noble Friend Lord Filkin has today made a statement concerning the cost of the Hutton inquiry.

The estimated cost to the Government is £2.54 million, of which £1.68 million was incurred by the inquiry itself.

TREASURY

International Monetary Fund/World Bank

The Chancellor of the Exchequer (Mr. Gordon Brown): I travelled to Washington last week for the spring meetings of the International Monetary Fund (IMF) and the World Bank, and for a meeting of G7 Finance Ministers and Central Bank Governors. I chaired a meeting of the International Monetary and Financial Committee (IMFC), the main policy-making committee of the Board of Governors representing the 183 members of the IMF. I then attended the Development Committee of the IMF and the World Bank in his role as Chairman of the IMFC.

In addition, I addressed a G7 dinner with Middle East and North African Finance Ministers; attended a G7 outreach meeting on combating the financing of terrorism; and attended a conference on the private sector in developing countries with representatives from the private sector.

I also had bilateral discussions with Jim Wolfensohn (President of the World Bank), Anne Krueger (Acting Managing Director of the IMF), US Treasury Secretary John Snow, Nicholas Sarkozy (Finance Minister, France), Ali Babacan (Minister of State, Republic of Turkey), Ralph Goodale (Finance Minister, Canada), Hilde Johnson (Minister of Development, Norway), Rodrigo Rato (candidate for the post of Managing Director of the IMF) and attended a meeting of African Finance Ministers.

DEPUTY PRIME MINISTER

Overcrowded Housing

The Minister for Housing and Planning (Keith Hill): I am publishing today a review by De Montfort University of the evidence and literature relating to the impact of overcrowded housing on health and education. Copies of the report will be made available in the Libraries of both Houses and on the Office of the Deputy Prime Minister's website www.odpm.gov.uk and will also be available from the ODPM Publication Sales Centre.

I am also making available two in-house statistical papers describing overcrowding at national and regional level and at sub-regional level. These papers bring together the available data from household surveys: "The Office of the Deputy Prime Minister's Survey of English Housing", "The Office of the Deputy Prime Minister's Housing Condition Survey" and "The Department for Work and Pensions Family Resources Survey". Copies of these papers will also be placed in the Libraries of both Houses and on the Office of the Deputy Prime Minister's website.

SOLICITOR GENERAL

Infant Death Convictions

The Solicitor-General (Ms Harriet Harman): My noble Friend the Attorney-General has made the following ministerial statement:

"My statements of 19 January and 5 February gave details of a review process established following the judgment of the Court of Appeal in the case of Angela Cannings. I wish to inform the House of progress.

The review process is now well advanced. A thorough search to identify all potentially relevant cases has been undertaken, and the process has been extended to include cases involving carers. These measures have resulted in an increase in the total number of cases subject to review from 258 to 298.

To ensure thorough and independent scrutiny of all cases, a three-stage review process has been established. Every case file is subject to a preliminary review by a Crown Prosecution Service area to ascertain its key characteristics. Cases are then passed to a central review team comprising prosecutors who are highly experienced in complex criminal casework. A smaller number of cases are then referred to an interdepartmental group, for a final decision on whether the legal representatives of the convicted persons should be notified that there may be features in a case that warrant further consideration by the Court of Appeal or the Criminal Cases Review Commission. The interdepartmental group works under my direction, and includes representatives from the police, Crown Prosecution Service and Criminal Cases Review Commission.

Reviews have been completed in 97 cases. In 38 of these the person convicted is still serving a custodial sentence.

A significant further number of cases are at an advanced stage of review.

Letters have been sent to the legal representatives of five convicted persons, notifying them that it may be appropriate for the safety of their clients' convictions to be considered further by the Court of Appeal or, if appropriate, the Criminal Cases Review Commission. Two of those convicted are sentenced to life imprisonment and remain in custody. Two have already unsuccessfully sought to appeal their convictions.

I have made the Court of Appeal aware of the action I am taking and have liaised closely with the Chairman of the Criminal Cases Review Commission to ensure that any cases referred to these bodies will be treated expeditiously. My office stands ready to refer appropriate case files to the CCRC.

The fact that a case has been referred to legal representatives of the convicted person does not amount to a positive determination that their conviction is unsafe. Should any appeals result from this review, it will be for the Crown Prosecution Service to independently decide whether to contest the appeal.

Sixteen live cases were identified by the CPS as potentially affected by the Cannings judgment. Fifteen have been reviewed. Two cases have been discontinued: a Hampshire case discontinued before trial and a Coventry case discontinued before retrial.

It would not be appropriate to place in the public domain the names of defendants or convicted persons in these cases. This will be a decision for them, following advice from their legal representatives.

CPS Areas, the central review team and the interdepartmental group continue to accord this work the highest priority. I am determined that the review should be completed as soon as possible, to bring to an end this period of uncertainty for all those involved. I shall keep the House informed of further progress".

Written Answers to Questions

The following answers were received between Friday 2 April and Friday 16 April 2004

SOLICITOR-GENERAL

Bail Appeals

Vera Baird: To ask the Solicitor-General how many appeals against grants of bail were made in *(a)* 2001–02 and *(b)* 2002–03 by Cleveland Crown Prosecution Service; and how many were successful in each year. [164443]

The Solicitor-General: The Bail (Amendment) Act 1993 gives the prosecution a right of appeal where a magistrates court grants bail to a person who is charged with or convicted of:

an offence punishable by a term of imprisonment of five years or more; or

an offence under section 12 (taking a conveyance without authority) or 12A (aggravated vehicle taking) of the Theft Act 1968.

Over the period 2001–03, the Crown Prosecution Service in Cleveland made applications under the Bail (Amendment) Act as follows:

In 2001, there were three appeals of this nature and all of them succeeded.

In 2002, there were four appeals, three of which were successful.

In 2003, there were seven appeals, four of which were successful.

CONSTITUTIONAL AFFAIRS

Criminal Defence Service

Mrs. Curtis-Thomas: To ask the Parliamentary Secretary, Department for Constitutional Affairs when the Criminal Defence Service will announce the result of its consultation into the provision of funding to suspects before charge. [164335]

Mr. Lammy: The Government announced on 2 February that it intends to make a number of changes to the Criminal Defence Service. The changes follow a full consultation and are designed to improve value for money by targeting criminal legal aid more efficiently on more serious offences. Funding is currently available for legal advice and assistance to suspects before charge, and there are no plans to remove this.

European Parliamentary Elections

Mr. Austin Mitchell: To ask the Parliamentary Secretary, Department for Constitutional Affairs what the electorate is for each *(a)* constituency and *(b)* area for the forthcoming European parliamentary elections; how many members are to be elected for each (i) constituency and (ii) area; and what percentage of the electorate voted in the previous European parliamentary elections in each (A) constituency and (B) area, and how many people. [165780]

Mr. Leslie: The precise electorate for the 10 June elections will not be known until the register closes on the publication of notice of election. Each European parliamentary electoral region is a single multi-member constituency. The following table shows the UK European parliamentary electoral regions, the number of MEPs to be elected for each region in June, and the local government electorates as at December 2003. The administrative unit for counting the votes in the European parliamentary elections in June is the local authority area. Electorate figures for these are available from the recent Office for National Statistics table "UK Electoral register 1 December 2003: Local government electors", which can be accessed on the ONS website at www.statistics.gov.uk. Statistics relating to the 1999 European parliamentary elections can be found in the Home Office Statistical Bulletin for 29 September 2000 (Issue 16/00, ISSN 1358–510X).

UK European parliamentary electoral region	*Local government electors at December 2003*	*Seats to be elected, June 2004*
East Midlands	3,241,566	6
Eastern	4,170,840	7
London	5,143,392	9
North East	1,922,446	3
North West	5,188,717	9
South East	6,087,103	10
South West	3,845,253	7
West Midlands	4,016,007	7
Yorkshire and the Humber	3,730,275	6
Wales	2,228,030	4
Scotland	3,877,194	7
Northern Ireland	1,069,136	3
Total	44,519,959	78

High Court Judges

Mr. Rosindell: To ask the Parliamentary Secretary, Department for Constitutional Affairs if he will make a statement on the process by which High Court judges are *(a)* selected and *(b)* appointed. [165612]

Mr. Leslie: My noble and learned Friend the Secretary of State and Lord Chancellor recommends to Her Majesty those candidates who best meet the published criteria for appointment to the High Court Bench.

Recommendations are based on the results of the recent selection round. Advertisements in the national and legal press in July 2003 invited applications for appointment to the High Court. In addition, the senior judiciary were invited to nominate candidates. A wide consultation exercise sought evidence from senior judges and others to the extent to which all candidates met the criteria. This evidence was assessed by independent sifters and moderated by senior civil servants who then submitted advice to the Lord Chancellor and senior judiciary on the degree to which candidates met the criteria for appointment. After discussing that advice with the senior judiciary, the Lord Chancellor decided on a list of candidates considered to be appointable to the High Court.

Individual recommendations about appointment to the High Court are made by the Lord Chancellor, after consulting the senior judiciary, from those classified as appointable and having regard to the specific needs of the High Court at the relevant time.

Mr. Rosindell: To ask the Parliamentary Secretary, Department for Constitutional Affairs if he will make a statement on the Department's proposals for the selection and appointment of High Court judges. [165615]

Mr. Leslie: The Constitutional Reform Bill, currently before Parliament, will establish a Judicial Appointments Commission. The Commission will be responsible for selecting candidates for appointment as High Court judges, as well as other judicial appointments. The manner in which the Commission does so will be for it to determine, subject to the overriding criterion that selection must be on merit, and subject to any guidance which the Secretary of State for Constitutional Affairs may issue, for example, in requiring the Commission to seek to expand the pool of candidates from which a selection may be made.

Having made its selection, the Commission will put forward one name for each post to the Secretary of State. He will normally be expected to recommend that candidate for appointment to the Queen, but he will have limited powers to ask the Commission to reconsider, once, or to reject a particular candidate, once, or to require the selection process to be rerun. The Secretary of State for Constitutional Affairs will have no power to recommend to Her Majesty the appointment of a candidate of his own, who has not been selected by the Commission.

Queen's Counsel

Mr. Dismore: To ask the Parliamentary Secretary, Department for Constitutional Affairs if he will list the QCs who received the highest overall payments *(a)* from the Community Legal Service budget and *(b)* from the Criminal Defence Service budget in 2002–03. [141417]

Mr. Lammy *[pursuant to his reply, 26 January 2004]:* I said in my previous answer that James Sturman was the QC who received the highest total payments from the Criminal Defence Service in 2002–03. This answer failed to take into account payments made under Very High Cost Case Contracts administered separately by the Legal Services Commission. The highest total payments were in fact made to John Rees who received in the region of £664,000. I apologise for this error.

Care should be taken not to misinterpret these payments as an indication of annual earnings for work carried out in the year for the following reasons:

1. Payments made during any financial year will include payments or work carried out before the start of the year, and will include payments for cases, which started and concluded over several years.

2. Payments received during any financial year do not necessarily mean that they were paid for work carried out at the rank of QC

3. Barristers may be paid directly by an instructing solicitor as part a solicitors disbursement.

4. The figures quoted above are gross payments and are inclusive of VAT, and may include payments on account where applicable as well as travel and hotel expenses incurred.

House of Lords Reform

Mr. Rosindell: To ask the Parliamentary Under-Secretary of State, Department for Constitutional Affairs what plans he has to propose changes to the voting rights of peers on secondary legislation. [165545]

Mr. Leslie: The Government decided not to proceed with its proposals for reforming the House of Lords this Session, in view of the determined opposition to the proposals in the House of Lords, and the consequent threat to the legislative programme. Instead, the Government is seeking further discussion of the ways in which the role, powers, procedures and composition of the Lords should be reformed.

Supreme Court

Mr. Rosindell: To ask the Parliamentary Under-Secretary of State, Department for Constitutional Affairs whom the Government consulted about the proposed establishment of a Supreme Court. [165610]

Mr. Leslie: The Government issued a consultation paper, "Constitutional Reform: a Supreme Court for the United Kingdom" on 11 July 2003. The consultation period closed on 7 November 2003 and 174 replies were received from a wide range of interested organisations and individuals. The responses can be viewed on the Department's website.

Mr. Rosindell: To ask the Parliamentary Secretary, Department for Constitutional Affairs how much money has been spent on planning the Supreme Court. [165611]

Mr. Leslie: The spend to date on planning the Supreme Court is approximately £113,000. This consists of fees of £19,000 on the search for potential sites for the Supreme Court. A further £94,000 has been committed on the analysis and evaluation of the building options, completion of the Treasury 'Green Book' style economic appraisals and, more recently, detailed work on feasibility and outline design.

Mr. Rosindell: To ask the Parliamentary Secretary, Department for Constitutional Affairs what the implications of the proposed Supreme Court are for the judicial appeals process. [165616]

Mr. Leslie: The UK Supreme Court will assume the current jurisdiction of the Appellate Committee of the House of Lords and the devolution jurisdiction of the Judicial Committee of the Privy Council. Combining these jurisdictions in a new court will not affect the appeals process, but will offer improvement in the efficient management of work load through enhanced facilities and services within the court and greater flexibility for hearing cases.

Unpaid Fines (Cleveland)

Vera Baird: To ask the Parliamentary Under-Secretary of State, Department for Constitutional Affairs what the total number of overdue unpaid fines in the Cleveland Petty Sessional Division was on 1 April. [165338]

Mr. Leslie: Information regarding fines is produced on a monthly basis as at the end of each month.

The data we have on the Cleveland Magistrates Courts Committee show that the total number of overdue unpaid fines at the end of March 2004 was 33,013.

CULTURE, MEDIA AND SPORT

Departmental Expenditure

Mr. Doug Henderson: To ask the Secretary of State for Culture, Media and Sport what her Department's priorities are for the forthcoming spending review. [164686]

Tessa Jowell: My Department's strategic aim is to improve the quality of life for all through cultural and sporting activities, support the pursuit of excellence and champion the tourism, creative and leisure industries. Decisions taken in the spending round will reflect that.

Mr. Doug Henderson: To ask the Secretary of State for Culture, Media and Sport what her Department's priorities are for sport and physical activity funding in the forthcoming spending review. [164688]

Tessa Jowell: My Department's priorities are to build on progress made since the last spending review through continued significant investment in sport and physical activity in schools and at grass roots level as a means of improving the health and well-being of people in this country, and in giving our most talented athletes the very best chance of fulfilling their potential.

Information Technology Projects

Mr. Don Foster: To ask the Secretary of State for Culture, Media and Sport if she will list each information technology project being undertaken by her Department and its agencies including the *(a)* start date, *(b)* planned completion date, *(c)* current expected completion date, *(d)* planned cost and *(e)* current estimated cost; and if she will make a statement. [165010]

Mr. Caborn: The Department is currently undertaking the following IT projects:

1. Development of an information management programme to support Freedom of Information and other key business objectives, including pilot implementation of an Electronic Document and Records Management System—started September 2003—planned completion January 2005—expected completion January 2005—planned cost £1.3 million—cost to date £491,000.

2. Development of an extranet to link DCMS and its sponsored bodies—started March 2004—planned completion July 2004—expected completion July 2004—planned cost £20,000—cost to date none.

TV Licensing

Mr. Boswell: To ask the Secretary of State for Culture, Media and Sport what arrangements are in place for *(a)* monitoring and *(b)* providing civil redress for unjustified actions by TV Licensing. [165593]

Estelle Morris: The BBC, as licensing authority, monitors the handling of complaints received by TV Licensing. Complaints are dealt with in the first instance by TV Licensing's customer relations team; there is an avenue of appeal first to the Head of Customer Relations and then to the Customer Services Director. If a complaint remains unresolved, the case is referred to the BBC for review. These procedures are additional to any right to seek legal redress through the courts in respect of any alleged unlawful action. The BBC considers that it adheres to all relevant UK legislation and codes of practice and requires its agent TV Licensing to do likewise.

WORK AND PENSIONS

Pension Credit

Chris Ruane: To ask the Secretary of State for Work and Pensions how many pensioners he estimates have failed to claim their Pension Credit in each constituency in North Wales. [164854]

Malcolm Wicks: The information is not available in the form requested. However, as at 29 February, there were approximately 133,000 households (approximately 162,000 individuals) in Wales receiving Pension Credit. As my right hon. Friend the Secretary of State announced on 15 March 2004, *Official Report*, columns 4–5, we have published the latest monthly Pension Credit progress report with information up to the end of February.

The report, copies of which are available in the Library, is accompanied by tables showing the number of Pension Credit households and corresponding individuals in each constituency in Great Britain.

Pensioners (Somerset)

Brian Cotter: To ask the Secretary of State for Work and Pensions if he will estimate the number of pensioners in Somerset who will receive the £100 payment towards council tax, broken down by *(a)* parliamentary constituency and *(b)* local authority area. [165599]

Malcolm Wicks: We are looking at the most effective and cost-efficient way to make the payments of £100 to eligible households. It is intended that a single one-off payment is made in 2004–05.

The latest available data showing households in Somerset with at least one occupant aged 70 or over broken down by *(a)* parliamentary constituency and *(b)* local authority area are in the tables. We expect the 2004–05 figures to be similar.

Households in Somerset with at least one occupant aged 70 or over by parliamentary constituency.

Parliamentary Constituency	*Households*
Bath	9,185
Bridgwater	10,030
Somerton and Frome	9,280
Taunton	11,095
Wansdyke	8,185
Wells	10,430
Weston-Super-Mare	10,155
Woodspring	8,570
Yeovil	10,190
Total	87,120

Households in Somerset with at least one occupant aged 70 or over by local authority

Local Authority	*Households*
Mendip district council	9,530
Sedgemoor district council	10,745
South Somerset district council	15,685
Taunton Deane borough council	10,525
West Somerset district council	4,540
Total	51,025

Notes:

1. Numbers are rounded to the nearest 5.
2. Any residence found to have four or more occupants is not included in these figures as it is assumed to be a Residential Care Nursing Home.
3. Local authorities and parliamentary constituencies have been allocated using the relevant ONS postcode directory.
4. Parliamentary constituency boundaries might not match exactly with local authority boundaries.

IAD Information Centre, Winter Fuel Payments data Winter 2002–03 100 per cent. sample.

Winter Fuel Payment

Brian Cotter: To ask the Secretary of State for Work and Pensions how many pensioners *(a)* were eligible for, *(b)* applied for and *(c)* received the Winter Fuel Payment in the constituency of Weston-super-Mare in each year since its inception. [165601]

Malcolm Wicks: The number of people in the Weston-super-Mare constituency who received Winter Fuel Payments each year since 1999–2000 (including provisional figures for 2003–04) is in the table. I regret that information relating to the 1997–98 and 1998–99 schemes is not available. Nor is it possible to say how many have applied each year but were not eligible. Without establishing their circumstances it is not possible to say how many others would have been entitled to payments but did not apply.

	Number of payments made
1999–2000	20,770
2000–01	22,605
2001–02	22,830
2002–03	23,230
2003–04	23,345

Notes:

1. Figures are rounded to the nearest 5.
2. The majority of pensioners do not need to apply because they receive their Winter Fuel Payment automatically.

IAD Information Centre, 100 per cent. sample.

DEFENCE

Afghanistan

Mr. Soames: To ask the Secretary of State for Defence what plans he has to send more troops to Afghanistan to bolster NATO-led operations in the coming months; and if he will make a statement. [165598]

Mr. Ingram: I refer the hon. Member to my written statement of 31 March 2004, *Official Report*, column 96WS.

Aircraft Carriers

Mr. Hoyle: To ask the Secretary of State for Defence with which countries talks have taken place on the sale of UK aircraft carriers. [165392]

Mr. Ingram: The Ministry of Defence's Disposal Services Agency has had no discussions with foreign nations on the disposal of the Navy's current aircraft carriers when they reach the end of their planned in-service life.

Mr. Rosindell: To ask the Secretary of State for Defence if he will make a statement on the progress of the construction of the two new aircraft carriers; what the military specifications of the aircraft carriers will be; and if he will make a statement on the contract for construction. [165614]

Mr. Ingram: The Future Carrier (CVF) programme is currently in its assessment phase and discussions are continuing on the contracting arrangements for the demonstration and manufacture (D&M) of the carriers. As with any new equipment project, the Department has not sought to fix the dimensions of the aircraft carriers during this phase. The design of the ships will continue to evolve as we seek to balance overall performance, time and cost as part of normal assessment phase activity. Ministers are currently considering proposals on the overall CVF programme and on when to proceed to the D&M phases.

Army Personnel (Early Release)

Mr. Evans: To ask the Secretary of State for Defence how many army personnel of all ranks have requested early release from their contracts in each year since 1997. [165513]

Mr. Caplin: The information requested on the numbers of Army personnel who have submitted applications to leave before the expected end of their contract is contained in Tri-Service Publication 5, a copy of which is available in the Library of the House.

Bosnia-Herzegovina

Mr. Soames: To ask the Secretary of State for Defence what his policy is on NATO presence in Bosnia-Herzegovina once the EU has taken over the Stabilisation Force operation there; and if he will make a statement. [165595]

Mr. MacShane: I have been asked to reply.

Work continues on the delineation of tasks between the EU and NATO in Bosnia once the Stabilisation Force (SFOR) withdraws. We would expect the continuing but limited NATO role in Bosnia to focus on defence outreach and some operational tasks, including in support of the International Criminal Tribunal for the Former Yugoslavia, once SFOR withdraws.

Departmental Budget

Mr. Rosindell: To ask the Secretary of State for Defence if he will make a statement on his Department's budgetary requirement over the next decade. [165548]

Mr. Ingram: Spending plans for 2004–05 and 2005–06 are set out in the Government's Expenditure Plans for the Ministry of Defence 2003–04 to 2005–06, a copy of which is available in the Library of the House.

Spending plans up to 2007–08 are the subject of the 2004 Spending Review, which will conclude later this year. Plans beyond 2007–08 will be addressed in future spending reviews.

Mr. Soames: To ask the Secretary of State for Defence if he will list his Department's top level budget holders in each financial year from 1997–98 to 2000–01. [165563]

Mr. Ingram: The top level budget holder structure for the periods requested is as follows:

1997–98	*1998–99*	*1999–2000*	*2000–01*
Commander-in-Chief Fleet	Commander-in-Chief Fleet	Commander-in-Chief Fleet	Commander-in-Chief Fleet
General Officer Commanding (Northern Ireland)	General Officer Commanding (Northern Ireland)	General Officer Commanding (Northern Ireland)	General Officer Commanding (Northern Ireland)
Commander-in-Chief Land Command	Commander-in-Chief Land Command	Commander-in-Chief Land Command	Commander-in-Chief Land Command
Air Officer Commander-in-Chief RAF Strike Command	Air Officer Commander-in-Chief RAF Strike Command	Air Officer Commander-in-Chief RAF Strike Command	Air Officer Commander-in-Chief RAF Strike Command
Chief of Fleet Support	Chief of Fleet Support	Chief of Joint Operations	Chief of Joint Operations
Quarter Master General	Quarter Master General	Chief of Defence Logistics	Chief of Defence Logistics
Air Officer Commanding-in-Chief RAF Logistics Command	Air Officer Commanding-in-Chief RAF Logistics Command	2nd Sea Lord/Commander-in-Chief Naval Home Command	2nd Sea Lord/Commander-in-Chief Naval Home Command
2nd Sea Lord/Commander-in-Chief Naval Home Command	2nd Sea Lord/Commander-in-Chief Naval Home Command	Adjutant General (Personnel and Training Command)	Adjutant General (Personnel and Training Command)
Adjutant General (Personnel and Training Command)	Adjutant General (Personnel and Training Command)	Air Officer Commanding-in-Chief RAF Personnel and Training Command	Air Officer Commanding-in-Chief RAF Personnel and Training Command
Air Officer Commanding-in-Chief RAF Personnel and Training Command	Air Officer Commanding-in-Chief RAF Personnel and Training Command	2nd Permanent Under Secretary of State	2nd Permanent Under Secretary of State
2nd Permanent Under Secretary of State	2nd Permanent Under Secretary of State	Chief Executive Defence Procurement Agency/Chief of Defence Procurement	Chief Executive Defence Procurement Agency/Chief of Defence Procurement
Vice Chief of Defence Staff Chief of Defence Procurement	Vice Chief of Defence Staff Chief of Defence Procurement		

Civilian Staff

Mr. Rosindell: To ask the Secretary of State for Defence (1) how many civilians are employed within the armed forces; and in what capacity; [165553]

(2) how many civilians are employed by the Ministry of Defence. [165555]

Mr. Caplin: The number of civilians employed by the Ministry of Defence as at 1 January 2004 was as follows:

	Total	*Operational*	*Military Support*	*HQ, DPA and Support*	*Unallocated*
Total Staff	89,440	24,180	34,210	30,990	60
Non-Industrial Total	63,050	15,390	28,280	19,310	60
Industrial Total	15,100	8,790	5,930	380	-
Trading Funds	11,290	-	-	11,290	-

Figures are full-time equivalent figures for permanent staff, including Royal Fleet Auxiliaries and excluding staff on career breaks, long term sick leave and on secondment etc. Full time equivalent is a measure of the size of the workforce that takes account of the fact that some people work part-time. Figures have been rounded to the nearest 10.

Climate Change

Sue Doughty: To ask the Secretary of State for Defence how many staff *(a)* have worked and *(b)* are working on identifying the national security implications of climate change. [165281]

Mr. Ingram: The identification of the national security implications of climate change forms part of a wider review by MOD of the impact of climate change on the Department's policies, operations and estate. Staff working on this do so as part of their wider duties and consequently it is not possible to quantify the numbers of staff involved.

Sue Doughty: To ask the Secretary of State for Defence whether staff with responsibility for regional strategy have been asked to report on the security implications of climate change for the region for which they are responsible. [165286]

Mr. Ingram: In developing regional strategies, the MOD conducts an analysis of the contemporary strategic context and a wide-ranging assessment of future trends. As part of this strategic assessment, the potential security implications of climate change for particular regions are considered along with other environmental stress factors.

Correspondence

Mr. Hancock: To ask the Secretary of State for Defence when he will write to the hon. Member as promised in his answer of 20 January 2004, *Official Report*, column 244W. [165487]

Mr. Ingram: The Defence Clothing Integrated Project Team is undertaking an audit to establish the extent of holdings of enhanced combat body armour. It is envisaged that this will conclude shortly and I will write to the hon. Member once this work is complete and place a copy of my letter in the Library of the House.

Destroyers

Bob Spink: To ask the Secretary of State for Defence how many destroyers were held by the Royal Navy in 1997; how many are held now; and how many are deployed on operational duty. [165386]

Mr. Ingram: The Royal Navy had 12 destroyers in 1997. There are 11 now. Six are deployed on operational duty, four are available to deploy and one is in a scheduled period of maintenance.

Eurofighter

Mr. Hoyle: To ask the Secretary of State for Defence pursuant to his answer of 24 March 2004, *Official Report*, column 853W, on the Eurofighter, what plans he has to discuss with the US Administration the potential benefits the Eurofighter could bring to the US airforce. [164969]

Mr. Ingram: There are no plans to discuss with the United States Administration the potential benefits the Eurofighter could bring to the US airforce.

Foodstuffs/Kit Purchases

Mr. Gordon Prentice: To ask the Secretary of State for Defence what steps he is taking to increase the amount of UK-sourced *(a)* foodstuffs and *(b)* kit purchased for the armed services. [165461]

Mr. Ingram: Open and fair competition remains the bedrock of the Ministry of Defence's procurement policy although we are prepared to use other approaches where these offer better long-term value for money. The MOD's non-warlike acquisition requirements such as foodstuffs and equipment are subject to the EC Public Procurement Regulations that require such opportunities be advertised in the *Official Journal of the European Union.*

The MOD's contracted food supplier, '3663', is specifically required to source British products whenever they are competitive and when they meet the required quality standard. Indeed, of the 1,400 different products procured for the armed forces in the UK, including fresh, chilled and frozen commodities, over 1,100 are British. The remaining 300 include products that are not produced in this country, such as coffee and bananas.

Iraq

Llew Smith: To ask the Secretary of State for Defence if he will list the date of each briefing he has received on the weapons of mass destruction capabilities of Iraq since March 2002; and what the source of the briefing was in each case. [156643]

Mr. Hoon: I received briefings from a variety of sources and took part in various discussions that included reference to Iraqi capability, including assessed weapons of mass destruction capability, during the period in question. However, the exact dates and content are not recorded centrally.

Mr. Rosindell: To ask the Secretary of State for Defence what the average length of a rotation in Iraq for British Service men and women has been. [165556]

Mr. Ingram: Army personnel normally serve in Iraq for six months, and RAF personnel for four months. In some cases, individuals may serve for longer or shorter tours due to the specific demands of some posts or for career management requirements.

Mr. Rosindell: To ask the Secretary of State for Defence (1) how many Territorial Army personnel have served in Iraq; [165557]

(2) for how much longer he expects that Territorial Army personnel will be required to serve in Iraq. [165617]

Mr. Ingram: As at 1 April 2004, approximately 6,170 Territorial Army personnel have been mobilised on Operation Telic, the vast majority of whom will have served in Iraq.

In line with the tenets of the Strategic Defence Review, Territorial Army personnel will be considered for Service in Iraq, for as long as a British military presence is deemed necessary.

Mr. Rosindell: To ask the Secretary of State for Defence how many *(a)* part-time military personnel and *(b)* Territorial Army personnel are stationed in Iraq. [165558]

Mr. Ingram: There are no part-time military personnel stationed in Iraq. However, as at 31 March 2004 there were 989 reservists stationed in Iraq, of whom 938 were members of the Territorial Army.

Logistics Budget

Mr. Soames: To ask the Secretary of State for Defence what proportion of the Department's logistics budget is spent outside the Defence Logistics Organisation; and by whom. [165562]

Mr. Ingram: 'Logistics' is a term that covers a range of activities that are integral to the capability the Ministry of Defence delivers at all levels. Accordingly, it is not possible to disaggregate a 'logistics budget' for the Department.

Marine Patrol Aircraft

Bob Spink: To ask the Secretary of State for Defence how many marine patrol aircraft were held in 1997; how many are held now; and how many are operational. [165382]

Mr. Ingram: In 1997 the RAF held 29 marine patrol aircraft. The RAF currently has 29 MPAs, 20 of which are operational.

Medical Services

Miss McIntosh: To ask the Secretary of State for Defence what medical services are available to personnel at *(a)* AAC Dishforth, *(b)* RAF Leeming, *(c)* RAF Linton on Ouse and *(d)* Alanbrooke Barracks. [165093]

Mr. Ingram: The following medical services are available to personnel at these establishments:

same-day appointments giving access to General Practice medical facilities, including on-site dispensing;

occupational health providing routine medical assessments and additional assessments as required pre-deployment, fitness for training etc;

physiotherapy, rehabilitation and remedial physical training including access to 'fast track' diagnostics and treatment if required;

community mental health team referral to secondary/tertiary medical care is available as required through Ministry of Defence Hospital Units/NHS and all disciplines have out-of-hours arrangements plus accident and emergency access through the NHS;

access to specialist services can be arranged as required.

Combined Services Caving Association

Llew Smith: To ask the Secretary of State for Defence what advance notice was provided to the Mexican authorities of the plans of the members of the Combined Services Caving Association prior to their entry into Mexico this month; and if he will set out the official response made by Her Majesty's Government to the concerns raised over the cavers' presence in Mexico by President Vicente Fox. [165160]

Mr. Rammell: I have been asked to reply.

The British Embassy in Mexico City contacted the Mexican Ministry of Defence on 28 November 2003, and the Ministry of Foreign Affairs on 3 February 2004, at official level by telephone. In these contacts the Embassy informed the authorities of the nature and purpose of the Combined Services Caving Association visit and the fact that those members of the group who were members of the British armed forces would be in Mexico in their civilian capacity as cavers. The contacts were designed to establish that, as in previous years, no special clearances would be required, and to ensure the Mexicans were informed of the visit. The Embassy offered further information in writing. The Mexican authorities confirmed by phone that no special clearances were required for the visit and that no further information was needed.

The UK responded to the Mexican Government's concern about the presence of the UK cavers in Mexico by Note Verbale on 26 March. In our reply we expressed our sincere gratitude to the Mexican Government for their co-operation and assistance to help ensure the safe rescue of the trapped cavers. We also set out the full facts about the nature of activities being undertaken by the cavers and our understanding of the immigration documentation necessary.

Royal Air Force

Mr. Rosindell: To ask the Secretary of State for Defence how many non-civilians are on the payroll of the RAF. [165609]

Mr. Caplin: Information on RAF Regular and Full Time Reserve personnel is given in the Tri-Service Publication 3 (TSP3), a copy of which is available in the Library of the House.

Miss McIntosh: To ask the Secretary of State for Defence when he expects RAF Leeming to be equipped with the Typhoon. [165089]

Mr. Ingram: The position remains as I set out in the Adjournment debate of 12 November 2003, *Official Report*, column 140WH.

Bob Spink: To ask the Secretary of State for Defence how many front-line aircraft were in use by the RAF in *(a)* 1992, *(b)* 1997 and *(c)* 2001; and how many are in use now. [165060]

Mr. Ingram: I assume the hon. Member is referring to RAF fast-jet front-line aircraft. The numbers in question as at 5 March for each year are:

1992—366

1997—358

2001—294

2004—310.

Mr. Kidney: To ask the Secretary of State for Defence how many RAF bases there were in the UK in 2002–03; what the costs were of maintaining each of them; and how many uniformed military personnel were based at each. [165306]

Mr. Ingram: I will write to the hon. Member and a copy of my letter will be placed in the Library of the House.

Royal Navy

Mr. Rosindell: To ask the Secretary of State for Defence if he will make a statement on the operational status of the Royal Navy. [165546]

Mr. Ingram: The Royal Navy is fully capable of meeting its current operational commitments.

Salaries

Mr. Rosindell: To ask the Secretary of State for Defence what percentage of the armed forces budget has been spent on salaries during the last seven years for which figures are available. [165552]

Mr. Ingram: I will write to the hon. Member and place a copy of my letter in the Library of the House.

Science Strategy

Dr. Iddon: To ask the Secretary of State for Defence what steps he has taken to enhance science in his Department since the publication of the Government's science strategy, "Investing in Innovation". [162253]

Mr. Ingram: Science and technology has a key role to play in the UK's transition to smaller, but technically advanced, network enabled forces and the UK's war on terror. The Ministry of Defence remains committed to ensuring science feeds into both its policy-making work on future capabilities and also into the defence equipment programme. The MOD has historically

invested considerable sums in technological research for defence purposes and the science and technology budget has remained stable over the last three years.

The MOD science and technology programme has been aligned with defence policy and the capability strategies that flow from it for some considerable time. The MOD is now managing its research programme by outputs to ensure science and technology is focussed on meeting policy and its high level customer needs. Major customers for science and technology in the MOD outline their requirements, which align with MOD's priorities and high level needs, and a detailed research programme is designed to deliver these strategies. This approach is designed to draw together Government, industrial and university sectors in new partnerships, such as Defence Technology Centres, while at the same time maximising the opportunities for wider commercial exploitation from MOD investments.

Service Deployments

Mr. Soames: To ask the Secretary of State for Defence how many British service personnel are *(a)* deployed and *(b)* stationed in (i) Germany, (ii) Northern Ireland, (iii) Bosnia-Herzegovina, (iv) Croatia, (v) Kosovo, (vi) Albania, (vii) the Former Yugoslav Republic of Macedonia, (viii) Sierra Leone, (ix) the Gulf Region, (x) Turkey, (xi) Gibraltar, (xii) Belize, (xiii) Kenya, (xiv) Canada and (xv) The Falkland Islands. [165596]

Mr. Ingram: The approximate numbers of British service personnel deployed or stationed in the locations specified are shown below:

Location	*Deployed*	*Stationed*
Germany	0	17,900
Northern Ireland	0	13,000
Bosnia-Herzegovina	990	0
Croatia	0	0
Kosovo	1,000	0
Albania	0	0
FYR of Macedonia	20	0
Sierra Leone	20	0
The Gulf Region	8,700	0
Turkey	0	0
Gibraltar	0	500
Belize	0	30
Kenya (training team only)	0	10
Canada (training team only)	0	200
The Falkland Islands	1,150	50

The above figures do not include personnel serving in loan/diplomatic posts, on temporary training or small detachments. However, significant numbers of personnel are also currently serving in the three following locations:

Location	*Deployed*	*Stationed*
Afghanistan	480	Nil
Cyprus	400	3,000
Brunei	Nil	1,100

All figures have been rounded.

Royal Military Police

Mr. Hancock: To ask the Secretary of State for Defence when the last independent quality audit of the work of the Special Investigation Branch of the Royal Military Police was completed; when the next one is scheduled; what the main recommendations were; which recommendations have yet to be implemented; and if he will make a statement. [165762]

Mr. Ingram: The Royal Military Police Special Investigation Branch (SIB) are subject to inspection in accordance with the Regulation of Investigatory Powers Act. The Surveillance Commissioner undertook an inspection in 2003 and made no substantive comments. The Interception Commissioner is expected to undertake an inspection later this year. In addition, all major SIB investigations are reviewed by external civilian police forces in accordance with Home Office guidelines.

Surplus Land

Mr. Soames: To ask the Secretary of State for Defence whether his Department will receive the full proceeds of the land recently agreed to be sold to Taylor Woodrow as building land surplus to that required for the renovation of the rest of the Colchester garrison site. [165697]

Mr. Caplin: The proceeds from the sale of surplus land at Colchester (net of costs incurred) will be received by RMPA (the PFI contractor), and used to reduce the cost of the unitary payments made by the Department under the PFI contract.

Tanks

Bob Spink: To ask the Secretary of State for Defence how many main battle tanks are held by the Army; and how many are deployed in operational units. [165385]

Mr. Ingram: I will write to the hon. Member and a copy of my letter will be placed in the Library of the House.

Mr. Rosindell: To ask the Secretary of State for Defence (1) how many tanks are battlefield ready in the British armed forces; [165549]

(2) how many Challenger series *(a)* 1 and *(b)* 2 tanks are operational in the armed forces; [165551]

(3) what the cost in 2003–04 was of maintaining the fleet of tanks. [165550]

Mr. Ingram: I will write to the hon. Member and a copy of my letter will be placed in the Library of the House.

Warships

Mr. Hancock: To ask the Secretary of State for Defence pursuant to the answer of 25 March, to the hon. Member for Mid Sussex (Mr. Soames), *Official Report*, column 948, on warships, what the expiry date for the reactor certificate of HMS Triumph is. [165793]

Mr. Ingram: The authorisation to operate HMS Triumph's reactor expired on 7 March 2004.

Wind Farms

Norman Baker: To ask the Secretary of State for Defence pursuant to the answer to the hon. Member for Orkney and Shetland (Mr. Carmichael) of 16 March

2004, *Official Report*, column 204W, on wind farms, if he will list the reasons for objection in each case; and how many formal applications were not objected to in each year. [165781]

Mr. Caplin: I will write to the hon. Member and a copy of my letter will be placed in the Library of the House giving the details of the nine formal objections from my previous answer where this information is publicly available.

INTERNATIONAL DEVELOPMENT

Human Rights and Democracy Project

Mr. Bercow: To ask the Secretary of State for International Development (1) what his Department's involvement was in the 2002 European Initiative for Human Rights and Democracy project to deliver an information campaign on the International Crime Tribunal and the ratification of the Statute of the Tribunal in *(a)* Kazakhstan, *(b)* Kyrgyzstan, *(c)* Uzbekistan, *(d)* Tajikistan, *(e)* Turkmenistan and *(f)* Mongolia; and what assessment he has made of the results of each project; [163867]

(2) what his Department's involvement was in the 2002 European Initiative for Human Rights and Democracy project on media training and reinforcing minorities in *(a)* Armenia, *(b)* Azerbaijan and *(c)* Georgia; and what assessment he has made of the results of each project. [163912]

Mr. Rammell: I have been asked to reply.

Decisions about the individual projects funded by the European Initiative for Democracy and Human Rights are made by the European Commission and local EC delegations. They are also responsible for managing and evaluating the projects. The EU Committee on Human Rights and Democracy allocates EU budget resources to projects in third countries and is responsible for evaluating the impact of the fund. The UK is represented on the committee by officials from the Foreign and Commonwealth Office and the UK permanent representation to the EU.

TREASURY

Allergies

Mrs. Iris Robinson: To ask the Chancellor of the Exchequer how many deaths there were from allergic reactions in each of the last 10 years. [164929]

Dawn Primarolo: The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Len Cook to Mrs. Iris Robinson, dated 7 April 2004:

As National Statistician I have been asked to reply to your recent question asking how many deaths there were from allergic reactions in each of the last 10 years. (164929)

The latest year from which data are available is 2002. Figures given in the attached table relate to deaths where one or more of the conditions mentioned on the death certificate was classified as allergic according to the International Classification of Diseases (ICD). Conditions classified to ICD codes which cover both allergic and non-allergic conditions were excluded from this analysis.

Number of deaths were the underlying or one of the contributory causes of death was classified as an allergic reaction.[1]
England and Wales, 1993 and 2002[2]

Calendar year	*Number of deaths*
1993	40
1994	59
1995	55
1996	55
1997	39
1998	46
1999	52
2000	50
2001[3]	46
2002[3]	43

[1] Causes of death were classified as allergic reactions for the years 1993 to 2000 using the International Classification of Diseases, Ninth Revision (ICD-9) codes
477.0—Allergic rhinitis due to pollen
477.8—Allergic rhinitis due to other allergen
477.9—Allergic rhinitis, cause unspecified
493.0—Extrinsic asthma
693—Dermatitis due to substances taken internally
599.0—Anaphylactic shock
995.3—Allergy, unspecified
999.4—Anaphylactic shock due to serum
and for the years 2001 and 2002 using the International Classification of Diseases, Tenth Revision (ICD-10) codes
J30.1—Allergic rhinitis due to pollen
J30.2—Other seasonal allergic rhinitis
J30.3—Other allergic rhinitis
J30.4—Allergic rhinitis, unspecified
J45.0—Predominately allergic asthma
L.27—Dermatitis due to substances taken internally
T78.0—Anaphylactic shock due to adverse food reaction
T78.1—Other adverse food reactions, not elsewhere specified
T78.2—Anaphylactic shock, unspecified
T78.4—Allergy unspecified
T80.5—Anaphylactic shock due to serum
T88.6—Anaphylactic shock due to adverse effect of correct drug or medicament properly administered.
[2] Figures are based on deaths occurring in each calendar year.
[3] The introduction of ICD-10 for coding cause of death in 2001 means that data for allergic reactions may not be completely comparable with data for years before this date. The data should therefore be interpreted with causation.

Child Tax Credit

Miss Begg: To ask the Chancellor of the Exchequer if he will estimate *(a)* how many people, broken down by income decile, would gain from and *(b)* the cost of a stand-alone child care tax credit that covered 90 per cent. of the costs of eligible child care from families with incomes below £13,480 and was reduced by 37 per cent. for families with incomes above that threshold. [165085]

Dawn Primarolo: It is not possible to estimate the impact of a "stand-alone" system, due to uncertainties around the detail of such a system. Approximate estimates for the impact of increasing the maximum percentage of child care costs paid for under the working tax credit from 70 per cent. to 90 per cent. are shown in the table.

Number of households estimated to gain, by income decile[1]

1	10,000
2	10,000
3	20,000
4	50,000
5	60,000
6	70,000
7	50,000
8	30,000
9	10,000
10	[2]—
Total	300,000
Annual cost	£0.2 billion

[1] On an equivalised household income basis; figures are rounded to the nearest 100,000.
[2] Indicates impact of less than 5,000.
Note:
Figures may not sum due to rounding.

Estimates provided are uncertain due to the need to take into account changes in other taxes and benefits when making such an assumption, and the uncertainty over future distributions of earnings.

Miss Begg: To ask the Chancellor of the Exchequer if he will estimate how many children would be lifted above 60 per cent. median income by 2004–05 by a £545 per annum increase in the per child element of the child tax credit. [165076]

Dawn Primarolo: Increasing the per child element of the child tax credit by £545 per year could reduce the number of children in households below 60 per cent. of equivalised median household income after housing costs by around 1 million.

Miss Begg: To ask the Chancellor of the Exchequer if he will estimate *(a)* how many people, broken down by income decile, would gain from and *(b)* the annual cost of an increase of £545 per year to the per child element of the child tax credit for each child under five in a family; and how many children would be lifted above 60 per cent. median incomes by 2004–05 as a result of such an increase. [165082]

Dawn Primarolo: Approximate estimates for the impact of increasing the per child element of the child tax credit by £545 per year for each child under the age of five are shown in the table.

Number of households estimated to gain, by income decile[1]

1	300,000
2	500,000
3	500,000
4	300,000
5	200,000
6	100,000
7	100,000
8	[2]—
9	[2]—
10	[2]—
Total	2,000,000
Annual cost	£0.5 billion
Reduction in number of children (of any age) in households below 60 per cent. of median income[3]	0.2 million

[1] On an equivalised household income basis; figures are rounded to the nearest 100,000.
[2] Indicates figures of less than 50,000.
[3] On an after housing costs, equivalised household income basis.
Note:
Figures may not sum due to rounding.

More households are estimated to gain from these changes in the second decile than the first, because there are more households with children in the second decile.

Estimates provided are uncertain due to the need to take into account changes in other taxes and benefits when making such an assumption, and the uncertainty over future distributions of income.

Miss Begg: To ask the Chancellor of the Exchequer if he will estimate *(a)* how many people, broken down by income decile, would gain from and *(b)* the annual cost of an increase of £1,625 per year to the per child element of the child tax credit for fourth and subsequent children; and how many children would be lifted above 60 per cent. median incomes by 2004–05 as a result of such an increase. [165083]

Dawn Primarolo: Approximate estimates for the impact of increasing the per child element of child tax credit by £1,625 per year for fourth and subsequent children are shown in the table.

Number of households estimated to gain, by income decile[1]

1	70,000
2	120,000
3	60,000
4	40,000
5	20,000
6	10,000
7	[2]—
8	[2]—
9	[2]—
10	[2]—
Total	320,000
Annual cost	£0.7 billion
Reduction in number of children in households below 60 per cent. of median income[3]	0.3 million

[1] On an equivalised household income basis; figures have been rounded to the nearest 10,000.
[2] Indicates impact of less than 5,000.
[3] On an after housing costs, equivalised household income basis.
Note:
Figures may not sum due to rounding.

More households are estimated to gain from these changes in the second decile than the first, because there are more households with children in the second decile.

Estimates provided are uncertain due to the need to take into account changes in other taxes and benefits when making such an assumption, and the uncertainty over future distributions of earnings.

Miss Begg: To ask the Chancellor of the Exchequer if he will estimate *(a)* how many people, broken down by income decile, would gain from and *(b)* the annual cost of an increase of (i) £260 per year and (ii) £545 per year to (A) the per child element of the child tax credit and (B) child benefit. [165084]

Dawn Primarolo: Approximate numbers of households estimated to gain from proposals (A) and (B) are shown in the table.

Income decile[1]	*Increased per child element of child tax credit (A)*	*Increased child benefit (B)*
1	700,000	700,000
2	1,000,000	1,000,000
3	900,000	900,000
4	600,000	800,000
5	300,000	800,000
6	200,000	700,000
7	100,000	600,000
8	100,000	600,000
9	[2]—	500,000
10	[2]—	400,000
Total	3,900,000	7,000,000

[1] On an equivalised household income basis; figures are rounded to the nearest 100,000.
[2] Indicates impact of less than 50,000.
Note:
Figures may not sum due to rounding.

More households are estimated to gain from these changes in the second decile than the first, because there are more households with children in the second decile.

Approximate estimates for the cost of increasing the per child element of the child tax credit are shown in Table 4 of the publication, "Tax ready reckoner and tax reliefs", which is available on the HM Treasury website at http://www.hm-treasury.gov.uk/media//AAB24/pbr03_trr_revised.pdf

Approximate estimates for the cost of increasing all the 2004–05 child benefit rates by (i) £260 per year and (ii) £545 per year are, respectively, £3.4 billion and £7.1 billion.

Estimates provided are uncertain due to the need to take into account changes in other taxes and benefits when making such an assumption, and the uncertainty over future distributions of earnings.

Civil Servants (Relocation)

Mr. Hoban: To ask the Chancellor of the Exchequer what the average cost of a workstation is, as defined by the Lyons Report, at the Office of National Statistics in *(a)* London, *(b)* Titchfield, *(c)* Southport, *(d)* Bristol, *(e)* Cardiff and *(f)* Newport. [165050]

Dawn Primarolo: The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Len Cook to Mr. Mark Hoban, dated 7 April 2004:

As National Statistician, I have been asked to reply to your recent Parliamentary Question asking what the average cost of a workstation is, as defined by the Lyons Report at the Office of National Statistics offices in *(a)* London, *(b)* Titchfield, *(c)* Southport, *(d)* Bristol, *(e)* Cardiff and *(f)* Newport. (165050)

The total property operating costs per annum for each workstation at existing ONS offices are:

London—£12,001*

Newport—£2,494

Titchfield—£2,260

Southport—£1,748

*This figure relates to the ONS office accommodation at Drummond Gate, SW1 and Bessborough Street, SW1 only. The Family Records Centre facilities at Myddelton Street, EC1, operated jointly by ONS and the National Archives, are not included.

The total property operating costs per annum for each workstation at Bristol and Cardiff would depend on the type of accommodation available.

Mr. Hoban: To ask the Chancellor of the Exchequer what the average salary is of central Government employees in *(a)* Hampshire, *(b)* London, *(c)* Newport and *(d)* Bristol. [165290]

Dawn Primarolo: The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Len Cook to Mr. Mark Hoban, dated 7 April 2004:

As National Statistician, I have been asked to reply to your recent Parliamentary Question on the average salary of central government employees in *(a)* Hampshire, *(b)* London, *(c)* Newport, and *(d)* Bristol. (165290)

Estimates of the average earnings of central government employees in the areas requested (where available) are taken from the 2003 New Earnings Survey (NES) and are shown in the attached table. These are provided for full-time employees on adult rates of pay who were in the same job for the year covered by the survey. This is the standard definition used for NES tables. The NES does not collect data on the self employed and people who do unpaid work. Area figures are provided according to location of workplaces.

Owing to the small NES samples sizes for Newport and Bristol, estimates of the average earnings of central government employees cannot be provided for these areas. We have therefore provided estimates for the two Training and Enterprise Council (TEC) regions that contain Newport and Bristol. These are South East Wales TEC region and Western TEC region respectively.

The NES, carried out in April of each year, is the most comprehensive source of earnings information in Great Britain. It is a one per cent sample of all employees who are members of pay-as-you-earn (PAYE) schemes, but because of its sampling frame, it has difficulty capturing data on people with very low pay. It is therefore likely to under-represent relatively low paid staff earning below the tax threshold.

As with any statistical sample survey, estimates from the NES are subject to sampling error.

Average gross annual earnings of central government employees in six areas, as shown: April 2003

£

Area	*Average annual earnings*
Hampshire	24,065
London	28,130
Newport	[1]—
City of Bristol	[1]—
South East Wales TEC	22,892
Western TEC	25,037

[1] Under the New Earnings Survey publication criteria, data cannot be shown owing to the small sample size.

Notes:

1. Estimates for South East Wales TEC and the Western TEC refer to these Training and Enterprise Council Regions. Western TEC region covers four local authorities in the Bristol area. South East Wales TEC region covers 10 local authorities in the Newport and Cardiff areas.

2. Central government employees are employees of organisations classified to central government using the Interdepartmental Business Register (IDBR). This includes Government Departments and establishments, the NHS and various Government-financed organisations.

3. Armed forces are not included in the New Earnings Survey.

New Earnings Survey, April 2003

Construction Industry

Chris Ruane: To ask the Chancellor of the Exchequer what measures his Department has taken to clarify the legal position on the use of Local Labour in Construction; and if he will make a statement. [164856]

Dawn Primarolo: The legal position on the use of local labour clauses in public contracts is covered in the European Commission's 2001 Interpretative Communication on the Community law applicable to public procurement and the possibilities for integrating social considerations into public procurement (COM(2001)566 final). That document, which takes account of relevant European Court of Justice cases, makes it clear that social and employment clauses must be compatible with Community law—particular, such clauses must not discriminate directly or indirectly against tenderers from other Member States. It is unlikely that a clause based on "locality" would meet this requirement. It is for each Department to consider such issues on a cause by case basis, against the background of the Government procurement policy, based on value for money, and the EU requirements outlined above.

Chris Ruane: To ask the Chancellor of the Exchequer what plans he has to update the 1996 Treasury advice to public bodies on using Local Labour in Construction to allow public bodies greater flexibility in using local labour. [164886]

Dawn Primarolo: Officials are unaware of any 1996 Treasury advice.

The legal position on the use of local labour clauses in public contracts is covered in the European Commission's 2001 Interpretative Communication on the Community law applicable to public procurement and the possibilities for integrating social considerations into public procurement (COM(2001)566 final). Local Labour clauses will be covered in guidance to be prepared by the interdepartmental Sustainable Procurement Group, in light of its report, published in January 2003.

Customs

Patrick Mercer: To ask the Chancellor of the Exchequer what estimate he has made of the cost, per unit, of establishing manned UK customs points at *(a)* EU, *(b)* other European and *(c)* other destinations from which freight transport travels to Britain. [165108]

John Healey: UK Customs have only one staffed customs point outside the UK at Coquelles in France dealing with Channel Tunnel traffic. Customs do not keep records of the cost of dealing with individual freight units travelling through the Tunnel.

Departmental Policies (Sustainable Development)

Norman Lamb: To ask the Chancellor of the Exchequer (1) what percentage of paper for printed publications used by his Department in 2002–03 was from recycled sources; and how much post-consumer waste this paper contained; [165533]

(2) what measures he has put in place to ensure that his Department meets the quick win targets set by the Department for Environment, Food and Rural Affairs to ensure that all paper for printed publications bought by the Department is 60 per cent. recycled, of which a minimum is 75 per cent. post-consumer waste; [165535]

(3) by what date his Department expects to reach the quick win targets set by the Department for Environment, Food and Rural Affairs to ensure that *(a)* all copying paper bought by the Department is 100 per cent. recycled with a minimum of 75 per cent. post-consumer waste content and *(b)* all paper for printed publications bought by the Department is 60 per cent. recycled, of which a minimum is 75 per cent. post-consumer waste. [165536]

Dawn Primarolo: Treasury publications produced during 2002–03 were printed on paper containing 40 per cent. post-consumer waste. Since January 2004, a recycled paper containing 75 per cent. post-consumer waste has been used for around half of Treasury publications. It is expected that at least 60 per cent. of Treasury publications will be printed on this paper by year end. The copying paper bought by the Treasury is 100 per cent. recycled with 100 per cent. post-consumer waste content.

Environmental Costs

Sue Doughty: To ask the Chancellor of the Exchequer what general mechanisms he has identified to internalise environmental costs in the economy; and if he will list those instances where he *(a)* has implemented such a mechanism, *(b)* plans to implement such a mechanism and *(c)* plans to investigate possible mechanisms for implementation in the medium to long term. [165271]

John Healey: The Government's approach to environmental taxation was set out in the statement of intent on Environmental Taxation in 1997. This was developed further in 'Tax and the Environment: Using economic instruments' published alongside the 2002 Pre Budget Report, which also considered the role of tax alongside other economic instruments instruments such as tradable permits. Since 1997 the Government has introduced a number of economic instruments, which seek to internalise environmental costs in the economy such as the aggregates levy and UK Emission Trading Scheme. A list of fiscal measures that the Government has introduced can be found in table 7.2 of the recent Economic and Fiscal Strategy report.

Sue Doughty: To ask the Chancellor of the Exchequer (1) what consideration is given to the cost of climate change in the determination of his economic strategy; [165272]

(2) what consideration he has given to the cost of diffuse industrial pollution in his economic strategy. [165273]

John Healey: The Chancellor considers all relevant economic, social and environmental factors, including the implications for climate change and water quality, when determining the Government's economic strategy. It is one of the Treasury's objectives to protect and improve the environment by using instruments that will deliver efficient and sustainable outcomes through evidence-based policies, as set out in "Tax and the environment: using economic instruments", published alongside the 2002 Pre-Budget Report.

Hydrofluorocarbons

Sue Doughty: To ask the Chancellor of the Exchequer whether he plans to introduce economic instruments to reduce leakage of hydrofluorocarbons. [165276]

John Healey: The Government currently has no such plans. Decisions on taxation are made by the Chancellor as part of the annual budget process.

London Marathon

Simon Hughes: To ask the Chancellor of the Exchequer if he will set out his policy on imposing VAT on sponsorship payments from those entering runners in the London Marathon. [162511]

John Healey: Charities and their donors in the UK will benefit from a wide range of VAT reliefs and exemptions. In accordance with the requirements of the EU directives on which UK VAT law is based, sponsorship raised by runners for organisations that have paid for a place in the London Marathon is free from VAT. However, any payment required in exchange for a place is subject to VAT; consequently, an organisation may be able to reclaim some of the VAT it incurs in providing this service.

Office of Government Commerce

Mr. Evans: To ask the Chancellor of the Exchequer what assessment he has made of *(a)* the effectiveness of introducing a specialist buying agency in the Office of Government Commerce and *(b)* whether better value can be obtained from smaller suppliers. [165516]

Dawn Primarolo: OGC buying solutions is an Executive Agency of the Office of Government Commerce (OGC) and operates as a trading fund. It was formed in 2001 by the amalgamation of CCTA, TBA and PACE.

It has ministerial targets based on the following four assessment areas:

1. Value for Money improvements in Central Civil Government
2. Customer satisfaction
3. Return on capital employed
4. Reduction in internal costs

For the three financial years since the Agency's inception all of these targets have either been achieved or exceeded.

In some circumstances a smaller supplier could provide better value, especially when the customer is looking for a solution that is flexible, responsive or innovative. Government is taking action to encourage public sector clients to consider the smaller supplier and to facilitate easier access for them.

Passported Benefits

Miss Begg: To ask the Chancellor of the Exchequer if he will estimate *(a)* how many people, broken down by income decile would gain from and *(b)* the annual cost of raising the threshold for eligibility for all passported benefits to £14,200. [165081]

Dawn Primarolo: The principal passported benefits with thresholds below £14,200 are free school meals and welfare foods (free milk and vitamins) which are available to families in receipt of child tax credit, but not eligible for working tax credit, and with incomes up to £13,230 in 2003–04. Increasing this threshold to £14,200 would have a negligible impact on the number of eligible families and hence on costs.

Pensioners (Tynemouth)

Mr. Alan Campbell: To ask the Chancellor of the Exchequer how many senior citizens in Tynemouth constituency qualified for the 10 per cent. rate of income tax in each year since its introduction. [165361]

Dawn Primarolo: All income tax payers benefit from the 10 pence starting rate. The Survey of Personal Incomes estimates there are about 6,000 and 9,000 state retirement pension age tax payers in the Tynemouth constituency in 2000–01 and 2001–02 respectively. Figures for 1999–2000 are currently not available.

Premium Bonds

Mr. Gordon Prentice: To ask the Chancellor of the Exchequer what estimate he has made of the total value of premium bond prizes that are unclaimed; and if he will make a statement. [165087]

Dawn Primarolo: At the end of January, there were 397,552 prizes unclaimed to a total value of £23.5 million.

Savings

Bob Spink: To ask the Chancellor of the Exchequer if he will give the savings level for each of the last five years. [165387]

Dawn Primarolo: The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Len Cook to Mr. Bob Spink, dated 7 April 2004:

As National Statistician, I have been asked to reply to your Parliamentary Question on savings levels in each of the last five years.

The information requested is shown in the following table.

Households sector gross saving, and the households saving ratio UK, 1999–2003

	Households sector[1] gross saving £ billion	*Households' saving ratio[2] percentage*
1999	32.9	5.3
2000	36.7	5.5
2001	47.6	6.7
2002	40.3	5.5
2003	43.7	5.7

[1] Figures shown are for the combined household and non-profit institutions serving households (NPISH) sectors. The accounts for this sector are currently combined and separate estimates are not available.
[2] This ratio represents households' saving as a percentage of total available households' resources.
Source:
UK National Accounts.

Scotch Whisky (Tax Stamps)

Mr. Alan Reid: To ask the Chancellor of the Exchequer (1) what assessment he has made of how

many *(a)* producers of Scotch whisky and *(b)* other companies will benefit from the £3 million fund for assistance with capital investment to mitigate upfront costs of complying with his proposed tax stamps scheme for spirits bottles; [165231]

(2) what criteria he has used to identify those firms that will benefit from the £3 million fund for assistance with capital investment to mitigate upfront costs of complying with his proposed tax stamp scheme for spirit bottles. [165233]

John Healey: The £3 million fund for assistance with capital investment is intended to be targeted at smaller firms, and the precise design and coverage have still to be decided. It is important that grants are distributed fairly and legally and the Government are working with the industry to consider how this might best be achieved.

Mr. Alan Reid: To ask the Chancellor of the Exchequer what assessment he has made of the change in the volume of the business of warehouse keepers that will be caused by his proposed tax stamps scheme for spirits bottles; and if he plans to compensate them for any losses. [165234]

John Healey *[holding answer 1 April 2004]:* A full Regulatory Impact Assessment will be published alongside the Finance Bill on 8 April which will identify the costs, benefits and proposed offsetting measures of the tax stamps system.

Tax Avoidance

Mr. McFall: To ask the Chancellor of the Exchequer what the total amount of revenue lost as a result of tax avoidance has been in each financial year since 1997, broken down by *(a)* VAT, *(b)* corporate taxation and *(c)* personal taxation. [161857]

John Healey: In "Protecting Indirect Tax Revenues", published alongside the 2003 Pre-Budget report, a copy of which is available in the Library, HM Customs and Excise published a broad estimate of the scale of VAT avoidance as part of its wider historic estimates of revenue losses arising from VAT avoidance, fraud and non-compliance over the last decade. Because of the inherently more difficult exercise of estimating revenue losses from non-consumption taxes, it has not yet been possible to produce an accurate estimate of the losses arising from avoidance of corporate or personal taxation.

Mr. McFall: To ask the Chancellor of the Exchequer which companies are known to be selling or to have sold versions of the gilts scheme used to reduce income tax bills; how many individuals and companies are known to be using or to have used the scheme; and how much revenue is involved in each case. [161861]

Dawn Primarolo: This was a highly abusive tax avoidance scheme involving the deliberate generation of losses on the purchase and re-sale of Government gilt strips for the purpose of reducing income tax bills, which the Inland Revenue quickly identified and acted against. However, at this stage it is not possible with complete accuracy to identify all those who sold the scheme, the numbers of individuals and companies who used the scheme or the value of revenue involved.

EDUCATION AND SKILLS

Looked-after Children

Mr. McNamara: To ask the Secretary of State for Education and Skills how many looked-after children there have been in England in each year since 1994; and what proportion of children have been continuously looked after for at least 12 months. [158065]

Margaret Hodge: The number of children looked after at 31 March for each year since 1994, and the percentage looked after continuously for at least 12 months are shown in the table.

Number of children looked after at 31 March, and percentage looked after continuously for at least 12 months, England[1]

Year	Number of children looked after at 31 March[2]	Percentage looked after continuously for at least 12 months
1994	49,100	69
1995	49,500	67
1996	50,600	67
1997	51,200	69
1998	53,300	69
1999	55,500	70
2000	58,100	70
2001	58,900	73
2002	59,700	73
2003	60,800	Not available[3]

[1] Figures in this table exclude children under an agreed series of short term placements.
[2] Figures rounded to the nearest 100.
[3] The percentage of children looked after continuously for at least 12 months is derived from the SSDA 903 return. Figures for the year ending March 2003 will be available on 31 March 2004.
Source:
CLA 100 and SSDA 903 statistical returns

Mr. McNamara: To ask the Secretary of State for Education and Skills what percentage of looked-after children received an annual health assessment in each year since 1994. [158070]

Margaret Hodge: Information on the percentage of looked-after children who have received an annual health assessment was not collected centrally between 1994 and 1999. The percentages since 2000 are shown as follows.

Figures for the year ending 30 September 2003 are expected to be published at national level on 29 April and, at local authority level towards the end of May 2004.

Looked after children who received an annual health assessment, 12 months ending 30 September 2000 to 2002—England

	Percentage
2000	65
2001	68
2002	71

Source:
OC2 return

Physical Education

Tim Loughton: To ask the Secretary of State for Education and Skills what proportion of children in

England spent *(a)* one hour or less, *(b)* between one and two hours and *(c)* over three hours per week on physical education in 2003. [165574]

Mr. Stephen Twigg: The information is not held in the format requested. "The Impact of School Sport Partnerships" (published in March 2004 by DfES and DCMS) set out the early funding of the 2003–04 PE, School Sport and Club Links survey. Overall 61 per cent. of pupils in phase 1 school sport partnership schools spend two hours in a typical week on high quality PE and school sport within and beyond the curriculum. A copy of the report has been placed in the House of Commons Library. The results of the full survey will be published later this month.

Sure Start

Mr. Drew: To ask the Secretary of State for Education and Skills what the level of Sure Start expenditure in the Stroud constituency was in 2003–04. [164167]

Margaret Hodge: £2.192 million has been allocated to Gloucestershire for general Sure Start grant activities in 2003–04. Gloucestershire county council does not collect information on how this funding is allocated on a district basis.

A further £646,000 has been allocated to the Mini Sure Start local programme and neighbourhood nursery in Stroud. The Mini Sure Start local programme (Cam and Dursley) received a revenue grant of £120,000 to support the delivery of outreach and health services, family support and adult education. This programme is linked to a 50 place neighbourhood nursery (Treetops Nursery) which opened on 26 March 2004. Sure Start has contributed £256,000 in capital funding towards the nursery's integrated education and care facilities. We are also providing start up revenue grant funds of £270,000, available over three years to help ensure the nursery is firmly established.

Accommodation

Kate Hoey: To ask the Secretary of State for Education and Skills what sources of public funding are available to cover the cost of accommodation while studying for a single, childless, full-time further education student, studying for a non-degree course, and living independently of parental support in local authority accommodation. [164627]

Alan Johnson: The focus of the public support that my Department provides for the accommodation costs of students in further education is on those whose course of study makes it necessary for them to live away from home. Bursaries are available for students attending six residential colleges and for those on specialist courses at colleges of agriculture, horticulture, art and design. A related scheme for students at other colleges who need to undertake courses at level 3 or above, or have a particular employment related learning need is at the pilot stage.

Students who do not qualify for a bursary may be eligible for a Career Development Loan, which can cover living expenses as well as the costs of tuition if the course is full time.

As far as those in receipt of Housing Benefit is concerned, both DfES and the Department for Work and Pensions recognise that the '16 hour rule', whereby income related benefits should only be provided for those in work, or those unable to work, can create difficulties for some people who wish to participate in full time further education. The situation is being monitored through the DWP Hardest to Help Delivery Plan, and DfES and DWP are working together to streamline the arrangements for supporting those in learning.

Adoption and Children Act

Mr. Dawson: To ask the Secretary of State for Education and Skills what preparations are being made for the implementation of section 122 of the Adoption and Children Act 2002 by the end of 2004. [164114]

Margaret Hodge *[holding answer 30 March 2004]*: I refer my hon. Friend to the answer I gave to the hon. Member for Richmond Park (Dr. Tonge) on 23 February 2004, *Official Report*, column 178W.

I wish to use this opportunity to clarify something I said to the hon. Member at the Westminster Hall debate on 23 October 2003. The Department for Constitutional Affairs will be consulting on the court rules for placement and adoption this spring. The regulations, court rules and guidance should be in place by the end of 2004. Section 122 is included in this package. After a period for preparation and training, we expect the legislation to come into force in September 2005.

Asthma

Mr. Watson: To ask the Secretary of State for Education and Skills (1) what percentage of schools have an asthma policy; [164812]

(2) what advice his Department gives to schools about dealing with children who suffer from asthma. [164813]

Margaret Hodge: The Department does not collect data on schools' asthma policies. Advice to schools on managing asthma is contained in, "Supporting pupils with medical needs: a good practice guide".

Asylum/Immigration

Mr. Dawson: To ask the Secretary of State for Education and Skills if he will make a statement on Government policy on the support available to unaccompanied asylum seeker children in respect of the Children (Leaving Care) Act 2000; and what the implications of section 55 of the Nationality, Immigration and Asylum Act 2002 are for unaccompanied asylum seeker children. [159192]

Margaret Hodge *[holding answer 8 March 2004]*: Local authorities have duties placed on them by the Children Act 1989 and the Children (Leaving Care) Act 2000 to continue to care for children beyond their 16th birthdays, either as 'eligible' children who remain in care or as 'relevant' children who have left care but still receive their support from the local authority. Section 55 of the Nationality Immigration and Asylum Act 2002 does not affect the support that is provided to these or any other children. There are no implications arising from section 55 for the continuing local authority care of any unaccompanied asylum seeker child.

The duties of local authorities are also extended by the Children (Leaving Care) Act 2000 to include planning for and where necessary supporting young people who are no longer children, having passed their 18th birthdays. Care leavers aged 18 or over (up to 21 or, in some circumstances, 24) are defined in the Children (Leaving Care) Act 2000 as "former relevant children". The access to leaving care support from responsible local authorities for "former relevant children" who were unaccompanied asylum seeking children is not affected by section 55.

In order to provide additional support to local authorities with responsibilities for former unaccompanied asylum seeking children, I have announced an additional £17 million funding for 2004/05, to be directed towards those local authorities with the greatest responsibilities for such young people. The arrangements are set out in Local Authority Circular LAC (2004) 6 (formerly numbered (2004) 1). I have placed a copy of this circular in the House of Commons Library.

When an unaccompanied asylum seeker child is approaching their 18th birthday the person may apply for support to the National Asylum Support Service (NASS), provided they are not eligible for DWP benefits and they have an outstanding asylum claim. Each case is considered on its merits, taking account of the age and other relevant circumstances of the young person. If support was refused under section 55, the person would in most cases continue to be supported by the responsible local authority. In the small minority of cases where such support is not available, NASS will provide support if it is necessary to avoid a breach of Article 3 of the European Convention on Human Rights.

Chief Scientific Adviser

Dr. Iddon: To ask the Secretary of State for Education and Skills whether his Department has a chief scientific adviser. [162481]

Alan Johnson: The Department for Education and Skills does not have a designated chief scientific adviser. The Department does, however, have expertise on the role of science as a subject throughout the education system. Sir Alan Wilson, who was recently appointed Director General for Higher Education in my Department, will also be an effective point of contact for all science-related matters across the education system.

Children in Care

Bob Spink: To ask the Secretary of State for Education and Skills what proportion of children with parents who have learning disabilities were taken into care in *(a)* 1992, *(b)* 1997 and *(c)* the latest year for which figures are available; and if he will make a statement. [162911]

Margaret Hodge: The information requested is not collected centrally.

Children's Commissioner

Mr. David Stewart: To ask the Secretary of State for Education and Skills whether children will be involved in the process for choosing a Children's Commissioner. [164194]

Margaret Hodge *[holding answer 1 April 2004]:* Yes. The exact form that their participation will take is currently under consideration.

Citizenship

Bob Russell: To ask the Secretary of State for Education and Skills whether the citizenship curriculum includes the teaching of *(a)* the words of the National Anthem and *(b)* knowledge of the flags and patron saints of the nations of the United Kingdom; and if he will make a statement. [165334]

Mr. Stephen Twigg: The flags, patron saints and the national anthem of the United Kingdom are not a separate element of the Citizenship National Curriculum. However, understanding the origins and implications of the diverse national, regional, religious and ethnic identities in the United Kingdom is an important part of the Citizenship curriculum, which became statutory for 11–16 year olds in September 2002. In this context pupils have the opportunity to explore the unique qualities that are part of the shared identities of the countries of the United Kingdom. They may consider the political, religious, social and constitutional systems that affect their lives and communities.

Mr. Woodward: To ask the Secretary of State for Education and Skills (1) how many advanced skills teachers for citizenship have been recruited *(a)* in total and *(b)* in St. Helens, South; [165331]

(2) how many specialist citizenship teachers have been recruited in *(a)* England and *(b)* St. Helens, South in each of the last three years; [165336]

(3) how much has been made available to *(a)* enable schools to buy resources and *(b)* train teachers for the teaching of citizenship in each of the last three years. [165337]

Mr. Stephen Twigg: There are currently 60 citizenship Advanced Skills Teachers. Eight of these are based in the North West Government Office Region, though none specifically in St. Helens, South. Around 400 individuals have completed initial teacher training for citizenship education since 2002 and this will rise to around 600 at the end of the 2003/04 academic year. The Department does not hold records on appointments of Newly Qualified Teachers.

£15 million was made available to schools to support citizenship and personal, social and health education in 2001–02. Since 2002–03 schools have decided how much to spend from their total budgets to support citizenship. Schools are able to spend this in the way that best met their needs, including spending on teachers' professional development. Since the financial year 2000–01 the Department has spent £3 million to support the development of a range of resources and activities for citizenship education, many of which have been made available to schools free of charge.

Departmental Officials

Mr. Cousins: To ask the Secretary of State for Education and Skills which former officials of the Department have asked for permission to join *(a)* PricewaterhouseCoopers, *(b)* Deloitte & Touche, *(c)* Ernst and Young and *(d)* KPMG. [156909]

Alan Johnson: All civil servants are subject to the Business Appointment Rules, which set out the circumstances in which they must seek permission to accept outside appointments within two years of leaving the service. A copy of the Rules is available in the Libraries of the House. Information about appointments taken up by the most senior staff is published in the annual reports of the Advisory Committee on Business Appointments. The next annual report will be published shortly.

Since 2001, my Department has received two requests for permission to take up employment with the firms listed, one for PricewaterhouseCoopers and one for KPMG. Both requests received unconditional approval in 2001.

Devon LEA

Mr. Swire: To ask the Secretary of State for Education and Skills how many students living in the Devon Local Education Authority area have gone into full-time higher education in each of the last seven years. [164784]

Alan Johnson: The available information is taken from the Universities and Colleges Admission Services (UCAS) and covers 18-year-old applicants accepted through UCAS to full-time first degree and HND courses. Figures are given in the table.

18-year-old applicants domiciled in Devon LEA[1], accepted through UCAS to full-time first degree and HND courses

Year of entry	*Devon LEA*	*Plymouth LEA*	*Torbay LEA*
1996	2,264	—	—
1997	2,447	—	—
1998	1,617	478	267
1999	1,708	455	233
2000	1,676	513	264
2001	1,710	537	278
2002	1,738	547	300

[1] For figures recorded for 1998 entry onwards, Devon LEA split into Devon LEA, Plymouth LEA and Torbay LEA.

UCAS.

Domestic Violence

Mrs. Curtis-Thomas: To ask the Secretary of State for Education and Skills what support is available for children who have been victims of domestic violence. [164379]

Margaret Hodge: Local authorities with social service responsibilities have a statutory general duty to safeguard and promote the welfare of children in their area who are in need by providing a range of services appropriate to meeting those needs. The definition of such needs covers children who face the likelihood that their health or development might be impaired without such services, regardless of their cause, or whether or not they reside with their family. Children who have been the victims of domestic violence may be assessed by local authorities as being children in need.

It is the responsibility of the local social service department to assess such children according to the Framework for the Assessment of Children in Need and their Families (2000), and to decide which needs exist and how or whether they should be addressed, including through the provision of services.

More generally, through Section 64, Health Services and Public Health Act 1968, the Department supports the Women's Aid Federation of England, through a core grant (80,000 in 2004–05), and in relation to its helpline (£49,000 in 2004–05).

University Drop-out Rates

Mr. Swire: To ask the Secretary of State for Education and Skills how many students dropped out of *(a)* Oxford, *(b)* Cambridge, *(c)* Edinburgh, *(d)* St. Andrews, *(e)* Exeter and *(f)* Durham universities in each of the last seven years. [164801]

Alan Johnson: The available information on drop-out rates can be found in the Higher Education Council for England (HEFCE) publication, "Performance Indicators in Higher Education in the UK". Copies of the publication can be found at: http://www.hefce.ac.uk/learning/perfind/2003/ The non-completion rates cover UK domiciled full-time students starting first degree courses who are projected to neither transfer nor achieve an award from their study. A benchmark is calculated for each institution which allows for the entry qualification of the students and the subject mix at the institution. Figures are given in the tables. Prior to this, non-completion rates were calculated by the Department for the UK as a whole, but not at individual institution level.

Projected first degree non-completion rates, 1996/97 to 2000/01

Percentage

	Non-completion rate by those starting courses in:					
	1996/97		*1997/98*		*1998/99*	
Institution	*Rate*	*Benchmark*	*Rate*	*Benchmark*	*Rate*	*Benchmark*

Higher Education Funding Council for England (HEFCE).

Early Years Development

Bob Spink: To ask the Secretary of State for Education and Skills if he will make it his policy to ensure that funds made available to *(a)* private and *(b)* local education authority nursery education and care providers are (i) ring-fenced and (ii) passed in their entirety to providers; and if he will make a statement. [163113]

Margaret Hodge: From April 2003, all funding for free early education places was consolidated within the general education formula spending arrangements for LEAs and schools. We have no plans to make further changes. The over under-fives sub-block is currently worth some £2.6 billion. It is for individual local authorities to determine, in the light of local consultation, what proportion of the overall resources should be delegated to schools and the rate at which private, voluntary and independent providers should be funded for delivering a free nursery education place. According to the latest available (January 2003) data some 50 per cent. of three year olds and 23 per cent. of four year olds take up their free entitlement with private, voluntary and independent providers.

Education (Hemsworth)

Jon Trickett: To ask the Secretary of State for Education and Skills what percentage of the population of Hemsworth constituency engaged in *(a)* vocational education, *(b)* non-vocational further education and *(c)* higher education in 2002–03. [147453]

Alan Johnson: Data on the percentage of students participating in post-compulsory education are not calculated for areas smaller than LEAs because reliable estimates cannot be made. Hemsworth constituency is part of Wakefield LEA, the latest available figures for which are shown in the table.

People from Wakefield participating in post-compulsory education

Proportion of adults (aged 19–59) participating in:	
Vocation courses at FE colleges[1]	3.4 per cent.
Academic courses at FE colleges[1]	0.2 per cent.
Adult education courses[2]	3.8 per cent.
Undergraduate courses[3]	0.8 per cent.

[1] Based on the numbers of students enrolled on FE courses in autumn 2001 as recorded by the Learning and Skills Council.
[2] Based on the number of students on adult education courses in autumn 2001 as recorded by Wakefield LEA.
[3] Based on the number of students accepted to full-time undergraduate courses via the Universities and Colleges Admissions Service (UCAS) in autumn 2002.

Education (North Tyneside)

Mr. Alan Campbell: To ask the Secretary of State for Education and Skills how many students living in North Tyneside local education authority have gone into full-time higher education in each of the last seven years. [164371]

Alan Johnson: The available information is taken from the Universities and Colleges Admissions Services (UCAS) and covers 18-year-old applicants accepted through UCAS to full-time first degree and HND courses. Figures are given in the table.

18-year-old applicants domiciled in North Tyneside LEA, accepted through UCAS to full-time first degree and HND courses

Year of entry	Number
1996	367
1997	497
1998	499
1999	538
2000	474
2001	417
2002	412

Source:
UCAS

Education (Stroud)

Mr. Drew: To ask the Secretary of State for Education and Skills how many and what percentage of 18 and 19-year-olds in Stroud achieved university entry in each of the last seven years. [162823]

Alan Johnson: Figures by constituency are not available. The available information is taken from the Universities and Colleges Admissions Service (UCAS) and covers 18-year-old applicants from Gloucestershire LEA, accepted through UCAS to full-time first degree and HND courses. Figures are given in the table.

18-year-old applicants domiciled in Gloucestershire LEA, accepted through UCAS to full-time first degree and HND courses

Year of entry	Number	Percentage
1996	1,469	23.3
1997	1,718	24.9
1998	1,670	22.8
1999	1,601	22.8
2000	1,724	24.8
2001	1,656	23.4
2002	1,733	25.0

Education Initatives

Mr. Goodman: To ask the Secretary of State for Education and Skills what funding has been allocated to *(a)* Aimhigher, *(b)* the Children's Fund, *(c)* community champions, *(d)* early excellence centres, *(e)* education action zones, *(f)* Excellence in Cities, *(g)* extended schools, *(h)* Healthy Schools Programme, *(i)* Local Network Fund for Children and Young People, *(j)* neighbourhood learning centres, *(k)* neighbourhood nurseries, *(l)* Neighbourhood Support Fund, *(m)* new entrepreneur scholarships, *(n)* Sure Start, *(o)* Sure Start Plus and *(p)* Young Volunteer Challenge Pilot in (i) 2004–05, (ii) 2005–06 and (iii)total. [163723]

Alan Johnson: Funding allocations are shown in the table below. Information on additional local contributions, for example from LEAs, is not held centrally.

Initiative	*2004–05*	*2005–06*	*Total for initiative up to and including 2004–06*
Aimhigher[1,2]	87	89	352
Children's Fund	160	To be confirmed	600
Community Champions[3]	3	3	17
Early Excellence Centres	15	13	96
Education Action Zones	61	61	384
Excellence in Cities	306	386	1,615
Extended Schools	31	To be confirmed	56
Healthy Schools Programme[4]	8	[5]8	50
Local Network Fund for Children and Young People	40	40	50
Neighbourhood Learning Centres	30	[6]30	90
Neighbourhood nurseries	95	54	253
Neighbourhood Support Fund	10	10	80
New Entrepreneur Scholarships[7]	6	To be confirmed	18
Sure Start local programmes[8]	463	507	1,722
Sure Start Plus[9]	3	3	17
Young Volunteer Challenge Pilot[10]	3	0	5

[1] These figures exclude amounts for Opportunity Bursaries and contributions towards HEFCE's widening participation allocation
[2] These figures relate only to the DfES contribution. From August 2004, additional contributions are being made by HEFCE and the Department of Health and, subject to confirmation, from the LSC
[3] Includes £1 million per year Home Office contribution from 2001–02 to 2003–04
[4] These figures include funds from the Department of Health.
[5] This figure is indicative
[6] This figure is indicative
[7] New Entrepreneur Scholarships are funded by the Learning and Skills Council.
[8] The figures for Sure Start relate to spend/allocation for Sure Start local programmes. They do not include programmes funded by the former Early Years and Childcare Unit which now come under the remit of the Sure Start Unit as a result of decisions taken in the last spending review.
[9] Sure Start Plus was administered by the Department of Health until Monday 29 March 2004, when it transferred to DfES.
[10] The overall budget for YVC Pilot is £4.5m up to the end of March 2005.
Note:
All amounts are £ millions and rounded to the nearest million

Educational Standards

Mr. Davidson: To ask the Secretary of State for Education and Skills what assessment he has made of the extent to which educational standards in *(a)* England, *(b)* Scotland, *(c)* Wales and *(d)* Northern Ireland have changed since 1997; how he reached his conclusion; and if he will make a statement. [164967]

Mr. Stephen Twigg: On the basis of measuring standards in schools in England against our PSA targets for the years 1997 and 2003 we can draw the following comparison:

Issue	*1997*	*2003*
Primary		
Percentage of 11-year-olds achieving level 4 or above in English	63	75
Percentage of 11-year-olds achieving level 5 or above in English	16	27
Percentage of 11-year-olds achieving level 4 or above in maths	62	73
Percentage of 11-year-olds achieving level 5 or above in maths	18	29
KS3		
Percentage of 14-year-olds achieving level 5 or above in English	57	69
Percentage of 14-year-olds achieving level 5 or above in maths	60	71
Percentage of 14-year-olds achieving level 5 or above in ICT	50	67
Percentage of 14-year-olds achieving level 5 or above in science	60	68
GCSE		
Percentage of 16-year-olds who get qualifications equivalent to five GCSEs at grade A* to C	45.1	52.9
Number of schools not achieving at least 20 per cent. of pupils who get qualifications equivalent to five GCSEs at grade A* to C	361	114

This overview of improving standards across the board is confirmed by the recently published Annual Report of Her Majesty's Chief Inspector of Schools which commented that

"over the past ten years, standards have undoubtedly risen in primary and secondary schools, as has the quality of teaching and leadership and management."

Furthermore my right hon. Friend the Chancellor of the Exchequer announced in his Budget statement on 17 March 2004 that

"UK education spending which was just 4.7 per cent. of GDP in 1997 will rise to 5.6 per cent. in 2007–8—from one of the lowest in the industrialised world to amongst the best."

Further education

As a result of the strategies we have introduced, the success rate for further education colleges has improved from 53 per cent. in 1997/98 to 65 per cent. in 2001/02.

Devolved Administrations

Standards in education in Scotland, Wales and Northern Ireland are not the responsibility of the Department of Education and Skills. I therefore refer my hon. Friend to my right hon. Friend the Secretary of State for Scotland, my right hon. Friend the Secretary of State for Wales and to my right hon. Friend the Secretary of State for Northern Ireland for responses to parts *(b)*, *(c)* and *(d)* of his question.

Essay/Coursework Sales

Mr. Willis: To ask the Secretary of State for Education and Skills (1) if he will conduct an urgent inquiry into the activities of companies who provide A level essays and coursework for UK students; [165313]

(2) what plans he has to make sure that A level students who use material supplied by commercial companies are penalised through the loss of any grade achieved in the subject for which coursework has been supplied and submitted as their own work; [165314]

(3) what plans he has to regulate companies who supply A level coursework to UK students. [165315]

Mr. Miliband *[holding answer 1 April 2004]:* The marking and grading of examination scripts is the responsibility of the examination awarding bodies. The Qualifications and Curriculum Authority as Regulator, is responsible for ensuring that the awarding bodies fulfil their obligations under the examinations Code of Practice. There are well-established procedures for dealing with instances of suspected malpractice in examinations, which are published by the Joint Council for Qualifications (JCQ) and agreed by the awarding bodies.

The Guidance includes procedures for investigating alleged malpractice, including the misuse of ICT, and the sanctions and penalties to be applied to those candidates who are caught cheating. Sanctions can include the issue of a warning; the loss of all marks gained in all components in a qualification or ultimately barring the candidate from entering one or more examinations for a set period of time.

Foster Care

Mr. David Stewart: To ask the Secretary of State for Education and Skills what plans he has *(a)* to promote foster care, with particular reference to advertising campaigns, and *(b)* to encourage people to become foster carers. [164193]

Margaret Hodge *[holding answer 1 April 2004]:* We will be spending £1.5m of the Choice Protects Grant in 2004–05 to develop a number of suggestions from the Green Paper to improve the status, support and training for foster carers. These include the development of a national award and a national helpline.

We have recently produced a Fostering Publicity Pack designed to help local authority fostering teams to run targeted local campaigns to recruit new foster carers for looked after children. We have also announced a three-year grant to support Foster Care Fortnight.

Mr. David Stewart: To ask the Secretary of State for Education and Skills if he will increase payments to foster carers. [164195]

Margaret Hodge *[holding answer 1 April 2004]*: The National Minimum Standards for fostering services clearly require that: 'Each foster carer receives an allowance and agreed expenses, which cover the full cost of caring for each child or young person placed with him or her.' Additionally some foster carers may receive a fee payment.

The Choice Protects Programme is supported by a £113 million grant over three years. In 2004–05 this amounts to £30 million for local authorities. This money can be used to improve payments for foster carers.

Free School Meals

Mr. Watson: To ask the Secretary of State for Education and Skills what studies his Department has undertaken to examine the effects of providing *(a)* free school lunches and *(b)* free school breakfasts. [165030]

Mr. Stephen Twigg: The Department for Education and Skills has not undertaken studies to examine the effects of providing free school lunches and free school breakfasts.

This Department, together with the Department of Health (DoH), is jointly funding a Food in Schools (FiS) programme. The DoH strand comprises eight projects which include breakfast clubs. Good practice identified through FiS will help schools promote a clear and consistent message about diet and nutrition.

Mr. Watson: To ask the Secretary of State for Education and Skills how many children receive *(a)* free school lunches and *(b)* free school breakfasts, broken down by local education authority. [165071]

Alan Johnson: The available data on free school lunches have been placed in the House of Commons Library.

Information relating to free school breakfasts is not collected by the Department.

Graduate Employment

Phil Sawford: To ask the Secretary of State for Education and Skills what action his Department takes to monitor the type of employment opportunities offered to graduates. [164468]

Alan Johnson: The Department commissions, collates and monitors a wide range of data on graduate employment and employability in general, including: monitoring surveys, research and analyses produced by a variety of organisations, including employer and graduate careers services groups and academic research, on graduate vacancies, employment and starting salaries; monitoring and analysing data on the graduate labour market from the annual First Destinations Survey of Higher Education leavers, which are collected

and published by the Higher Education Statistics Agency and the quarterly Labour Force Survey, collected and published by the Office for National Statistics; commissioning a survey of 1999 graduates to track earnings and employment outcomes and investigate their careers three and a half years following graduation, the results of which are expected to be published later this year; and maintaining a broad intelligence base on the graduate labour market, which is updated as new research and findings emerge.

Headquarters Staff

Mr. Letwin: To ask the Secretary of State for Education and Skills what progress has been made in reducing the number of headquarters staff since the Budget. [165022]

Alan Johnson: The reduction in the number of head office posts is due to take place over the next four years to 2008. The Department is currently planning how to take the reductions forward as part of its aim to transform the way it does its business. By the end of this April it will provide staff with more detail about these plans and the HR policies it will be putting in place to support the transition.

Healthy Eating

Mr. Watson: To ask the Secretary of State for Education and Skills how much his Department spent to promote healthy eating among children aged under 16 years in each of the last five years. [165024]

Mr. Stephen Twigg: We have allocated over £5 million a year to local education authorities to promote healthy schools including healthy eating and they are free to supplement these allocations from other budgets supported by revenue support grant.

Mr. Watson: To ask the Secretary of State for Education and Skills what assessment he has made of links between a healthy diet and *(a)* educational attainment and *(b)* behaviour in schools. [165028]

Mr. Stephen Twigg: The Department for Education and Skills has made no assessment of the links between a healthy diet, and education attainment and behaviour, in schools. This Department works closely with the Food Standards Agency (FSA), who provide information to the public and Government on food safety, nutrition and diet. We have a formal agreement with FSA that requires them to inform us, without delay, of any information on food safety, nutrition and diet that requires us to take action.

Higher Education

Huw Irranca-Davies: To ask the Secretary of State for Education and Skills what assessment he has made of the financial impact of the proposed higher education reforms on graduates of medical courses from different socio-economic backgrounds. [165426]

Alan Johnson: During the first four years of their courses medical students have the same student support as any other eligible higher education students; and pay the same contributions to fees. The Government have made a number of proposals to safeguard access to higher education for those from low income families. Around three in ten students will receive means tested maintenance grants of £2,700, and over half will be eligible for full or partial grants, as well as bursaries and other support from universities under arrangements agreed by the Office of Fair Access.

Fees for English domiciled medical students in years 5 and 6 are currently paid by the Department of Health. These students also qualify for means tested NHS bursaries in their fifth and subsequent years of study. Department of Health Ministers have indicated that they will, if necessary, take measures to ensure that any increase in the level of tuition fees will not have an adverse impact on the supply, retention, diversity or quality of students on health professional courses, including medicine.

Under our proposals, arrangements for repayment of non means tested fee loans will, for all graduates, be heavily subsidised: graduates will repay their loans at zero real rate of interest and only when their income exceeds £15,000 per year. Repayments will then be made at a rate of 9 per cent. of income above £15,000. According to Graduate Prospects, GPs can expect to earn in excess of £46,000 a year at the start of their careers. This compares very favourably with the salaries of other newly qualified graduates.

The Gateways to the Professions Review under Sir Alan Langlands will look at how the public sector and the professions, including medicine, can sustain and improve recruitment opportunities for graduates, especially those who do not qualify for the full £3,000 grant and bursary support. It will report by mid-2005.

Simon Hughes: To ask the Secretary of State for Education and Skills what percentage of school leavers in *(a)* Greater London and *(b)* each London borough went on to higher education in each year since 1997. [162334]

Alan Johnson: The available information is taken from the Universities and college Admissions service (UCAS) and covers 18 year old applicants accepted through UCAS to full time first degree and HND courses. Figures are given in the table.

Percentage of 18 year olds accepted for entry to HE through UCAS

Percentage

	Year of entry					
LEA	*1997*	*1998*	*1999*	*2000*	*2001*	*2002*
Barking	10.2	9.8	9.4	10.3	11.4	13.6
Barnet	32.1	30.5	28.7	30.1	31.9	32.3

[1] The effect of year on year fluctuations on a small population mean this method of calculating participation rates is unreliable for the City of London.

Sandra Gidley: To ask the Secretary of State for Education and Skills whether he has undertaken a gender impact assessment of the latest pay proposals for higher education staff. [164768]

Alan Johnson: As independent and autonomous bodies, higher education institutions are responsible for their own academic and administrative affairs, including pay for their staff. Institutions must decide for themselves the level of evaluation they wish to undertake on the impact of the new pay proposals.

Learning Disabled Children

Tim Loughton: To ask the Secretary of State for Education and Skills what proportion of learning disabled children aged *(a)* between five and 10 years, *(b)* between 11 and 15 years and *(c)* between 16 and 20 years also have a physical disability. [165539]

Margaret Hodge: The information requested is not available centrally.

Information on special educational needs by type of special educational need was collected for the first time in January 2004 and provisional data will be available at the end of April.

Literacy Strategy

Mr. Hoban: To ask the Secretary of State for Education and Skills what role phonics play in the Literacy Strategy at Key Stages *(a)* 1 and *(b)* 2. [165291]

Mr. Stephen Twigg: The National Literacy Strategy puts phonics—both analytic and synthetic—at the heart of literacy teaching in Key Stages 1 and 2. It advocates a strong emphasis on word level work (particularly phonics) and guided reading in the early years, with a gradual shift to place more emphasis on sentence level work (particularly composition in writing) in Key Stage 2.

Mr. Hoban: To ask the Secretary of State for Education and Skills what assessment he has made of the effectiveness of phonics in the teaching of reading; and what guidance he has issued concerning its use in primary schools. [165322]

Mr. Stephen Twigg: From a position where many schools were teaching very little phonics, the National Literacy Strategy has transformed literacy teaching in primary schools. Its approach is soundly based on international research and best practice. The teaching of phonics has contributed to primary schools' achievement in maintaining world class standards, with tens of thousands more seven and 11-year-olds now achieving the expected level in reading for their age.

Guidance to teachers on the use of phonics is included in the strategy's framework for teaching and a supplement to the "Progression in Phonics" training material will be available for schools in the summer term.

Millennium Volunteers

Mr. Woodward: To ask the Secretary of State for Education and Skills what the Government's policy is on the extension to secondary school pupils of millennium volunteers under the active citizens in schools initiative; how many have been recruited; what assessment has been made of the take-up of volunteers; and if he will make a statement. [165333]

Alan Johnson: The Active Citizens in Schools (ACiS) pilot aims to build on aspects of the Millennium Volunteers (MV) programme and encourage 11 to 15 year olds in schools to make a commitment to volunteering in line with the citizenship curriculum, encourage them to become Millennium Volunteers when they reach the age of 16 and help to engage them in the wider democratic process. Over 4,000 young people have been involved in ACiS. The interim evaluation suggests that ACiS has to date been encouragingly successful, particularly in terms of the number of young people involved and the diversity of opportunities that have been developed. The DfES is planning to roll out the initiative through the extended schools programme from 2004.

Music, Dance and Drama

Mr. Hoban: To ask the Secretary of State for Education and Skills if he will list each of the initiatives announced by his Department since June 1997 on *(a)* music, *(b)* dance and *(c)* drama, including (i) the month and year of the announcement and (ii) its cost. [165292]

Mr. Miliband: My Department has supported many projects in these areas since June 1997. In respect of schools and further education, the following programmes have been instigated:

The Music Standards Fund was established in 1999 to protect and expand LEA music services. Approximately £270 million will have been invested by the end of the financial year 2003–04.

13 "Wider Opportunities" pilots in music have been undertaken; in March 2004 I announced £1.5 million investment to help LEAs develop their own pilots.

The Music and Dance (Aided pupil) Scheme began in 1981. The Department has spent a total of £79.914 million on the Scheme from 1997–98 to 2003–04. A new complementary national grants scheme for exceptionally talented children will be piloted from September 2004.

181 of the 259 designated specialist arts colleges since June 1997 have a performing arts (music, dance and drama) or music focus. Specialist schools receive a one-off capital grant of £100,000 and additional recurrent funding of £126 per pupil per year for each of the four years covered by their specialist school development plans.

The Dance and Drama Awards, for post-16 students, have cost £55 million since they were announced in 1998, with a further £15 million allocated for 2004–05.

Dance is one of six areas of activity within the National Curriculum programme of study for physical education. Between April 2003 and September 2006, we are investing over £459 million to transform PE and school sport.

Overseas Students

Mr. Andrew Turner: To ask the Secretary of State for Education and Skills what plans he has to apply parental income tests to students entering higher education from EU accession countries; and what estimate he has made of the proportion who will enjoy *(a)* fee rebates and *(b)* maintenance bursaries. [164080]

Alan Johnson *[holding answer 26 March 2004]:* The Government is required under Article 12 of the EC Treaty to treat EU students no less favourably than UK students with regard to tuition fees. Parents of students from the EU accession countries will undergo exactly the same means-assessment as parents of students from England and Wales and existing member states.

It is estimated that the proportion of students receiving financial support towards their tuition fees will average those of students from the current EU countries. EU students are not entitled to receive bursaries or loans for maintenance.

Hugh Bayley: To ask the Secretary of State for Education and Skills how many overseas students *(a)* in total, *(b)* from Africa and *(c)* from each country in Africa are studying (i) non-degree, (ii) undergraduate and (iii) postgraduate courses at colleges and universities. [164151]

Alan Johnson: The available information covering HE study in English institutions is given in the table.

[1] Figures for HE study in HE institutions are taken from the Higher Education Statistics Agency (HESA) and are a snapshot as at 1 December, and relate to the academic year 2002/2003. Figures for HE study in FE institutions are taken from the Learning Skills Council (LSC) and are a snapshot as at 1 November, relating to the academic year 2001/2002. Comparable figures for 2002/2003 will be available later in the year.

Source:

Higher Education Statistics Agency (HESA) and the Learning Skills Council (LSC)

Pre-schools

Mr. Breed: To ask the Secretary of State for Education and Skills what assistance is available to pre-schools to enable them to *(a)* improve their premises and *(b)* move to a more appropriate location. [165715]

Margaret Hodge: Capital funding is available to support playgroups and pre-schools in extending and developing their services to provide full day care. £6 million was available for this purpose during the period 2002–04 and a further £21.45 million has been included in the General Sure Start Grant for the period 2004–06.

Pupil Referral Units

Mr. Hoban: To ask the Secretary of State for Education and Skills what assessment he has made of the effectiveness of pupil referral units in *(a)* improving children's behaviour, *(b)* enabling children to move back to mainstream schools and *(c)* raising the level of attainment of excluded children. [165472]

Mr. Miliband: According to OFSTED most pupil referral units (PRUs) are well run. Where this is the case they offer a curriculum that has both breadth and depth which is delivered innovatively, they make a very positive contribution to their pupils' outcomes, including improving their behaviour and attendance.

Mr. Hoban: To ask the Secretary of State for Education and Skills how many hours of education per week a child attending a pupil referral unit is required to receive; and what the average number of hours per week received is. [165474]

Mr. Miliband: A child attending a pupil referral unit (PRU) because he or she has been permanently excluded from school should receive a suitable full time education appropriate to their age and Key Stage. So too, where possible, should pupils subject to fixed term exclusions of 15 days or more. DfEE Circular 11/99 suggests that 20 hours or more constitute appropriate full time education. All local education authorities confirmed that all permanently excluded pupils were in receipt of suitable full time education in September 2002.

The average hours received could be obtained only at disproportionate cost. PRUs also provide a valuable service, with other institutions, for young people. However, the time that pupils spend at the PRU each day will vary according to their needs. Such pupils might include dual registered pupils (i.e. remaining on their school roll and attending the PRU for specific educational modules e.g. additional basic skills tuition or anger management), sick children, respite for children who have been bullied, and teenage mothers.

School Meals

Tim Loughton: To ask the Secretary of State for Education and Skills what percentage of *(a)* maintained and *(b)* grammar schools in England have introduced healthy eating options into school canteens in the past 12 months. [165575]

Alan Johnson: The Department for Education and Skills does not collect this information.

Tim Loughton: To ask the Secretary of State for Education and Skills what percentage of children in *(a)* maintained and *(b)* grammar schools bring packed lunches into school. [165576]

Mr. Stephen Twigg: The Department for Education and Skills does not collect this information.

School Playing Fields

Mr. Breed: To ask the Secretary of State for Education and Skills what land used as playing fields by schools in Cornwall have been disposed of in the last 10 years. [165713]

Mr. Stephen Twigg: Section 77 of the School Standards and Framework Act 1998 was introduced on 1 October 1998 to stop the indiscriminate sale of school playing fields that occurred in the 1980s and early to mid-1990s. Local authorities and governing bodies of all maintained schools now need the Secretary of State's consent before they can dispose of a playing field or any part of a playing field. Applications to sell school playing field are approved only where it is clear that they meet the published criteria and, in particular, that any proceeds will be used to improve school sports provision or education facilities.

There are no central records of how many school playing fields were lost before October 1998. Since October 1998, the Government have not approved any applications affecting schools in Cornwall that would result in the loss of areas of school playing fields capable of forming at least a small sports pitch of 2,000m^2.

Schools (Key Stages)

Mr. Hoban: To ask the Secretary of State for Education and Skills if he will list the delivery mechanisms used by the Department to implement its strategies for each of the key stages. [165304]

Mr. Stephen Twigg: The Department's strategic documents "Excellence and Enjoyment" and "A New Specialist System" set out a clear framework for transforming educational achievement across the key stages in primary and secondary schools.

They set out how the Department uses a broad range of delivery mechanisms to work with LEAs and schools to achieve this objective. These include the Specialist Schools programme, the Excellence in Cities programme, and the Primary and Key Stage 3 National Strategies.

The Department's non-departmental public bodies (NDPBs) which work with schools, in particular the Qualifications and Curriculum Authority (QCA), the Teacher Training Agency (TTA), the British Educational Communications and Technology Agency (BECTA) and the National College for School Leadership (NCSL), all play a central role.

Special Educational Needs

Bob Spink: To ask the Secretary of State for Education and Skills how many children attended severe learning disability special schools in each of the last five years. [162909]

Margaret Hodge: Information relating to special schools with approval to make provision for severe learning difficulties is shown in the following table. Schools may be approved to make provision for more than one area of special need.

Special schools[1]: Schools approved to make provision for severe learning difficulties—position as at January each year—England

	Number of schools	*Total pupils[2]*
1999	347	25,064
2000	350	25,153
2001	449	35,590
2002	445	37,302
2003	496	41,985

[1] Includes maintained and non-maintained special schools.
[2] Includes all pupils in the school, not just those pupils with severe learning difficulties.
Source:
Annual Schools' Census

Bob Spink: To ask the Secretary of State for Education and Skills how many children attended moderate learning difficulty special schools in each of the last five years. [163112]

Mr. Miliband: Information relating to special schools with formal approval to make provision for moderate learning difficulties is shown in the table. Schools may be approved to make provision for more than one area of special need.

Special Schools[1]: Schools approved to make provision for moderate learning difficulties—position as at January each year—England

	Number of schools	*Total pupils[2]*
1999	354	39.071
2000	336	37,592
2001	454	47,832
2002	472	51,036
2003	489	51,273

[1] Includes maintained and non-maintained special schools.
[2] Includes all pupils in the school, not just those pupils with moderate learning difficulties.
Source:
Annual Schools' Census

Jonathan Shaw: To ask the Secretary of State for Education and Skills pursuant to his Answer of 22 March 2004, *Official Report*, column 630W, on special educational needs, if he will make a statement on each of the four cases the Special Educational Needs and Disability Panel has reviewed, the reasons for each being reviewed and the subsequent outcomes. [164758]

Margaret Hodge: As stated in the previous Answer, the SEN and Disability Tribunal has identified four cases since September 2002 in which panels have reviewed decisions because they might have included obvious errors. Over the same period panels have reviewed five decisions because the interests of justice appeared to require it. In a further two cases the Tribunal reviewed decisions because there might have been an error resulting from administrative mistakes.

The following table summarises the cases reviewed and the outcomes.

Review date	*Reasons*	*Outcome*
3 December 2002	Obvious error	Decision set aside
8 January 2003	Obvious error	Decision amended
3 February 2003	Interests of justice	Decision stood
9 April 2003	Interests of justice	Decision amended
9 May 2003	Administrative error	Decision stood
19 September 2003	Obvious error/interests of justice	Decision amended
18 November 2003	Administrative error	Decision stood
24 January 2004	Obvious error/Interests of justice	Decision amended
24 February 2004	Interests of justice	Decision stood

Student Finance

Jon Trickett: To ask the Secretary of State for Education and Skills what steps his Department has taken to ensure the smooth transition from the present arrangements for applications for student loans through local education authorities to the new system of Student Finance Direct; and if he will make a statement. [164633]

Alan Johnson: Student Finance Direct retains the role of LEAs, which receive and assess applications from students, and the Student Loans Company (SLC), which pays them. They will both now be supported by a new IT system to carry out those functions.

My officials and the SLC, which is in the lead in developing and implementing the new system, have taken a number of steps to help LEAs with the transition. They have sought LEA views on, and involved LEA staff directly in, the design and implementation of the new system. Most importantly, following the principles recommended in the report by Ian McCartney MP, "Successful IT: Modernising Government in Action", the system was piloted in six LEAs in 2003. The lessons learned have been fed into the system that will be used nationally this year. The SLC will have appropriate contingency arrangements in place to deal with any problems.

Mr. Sheerman: To ask the Secretary of State for Education and Skills if he will extend the student loan system to British students wishing to undertake their entire undergraduate degree in another EU member state. [164849]

Alan Johnson: We have no plans to do so. It has been longstanding policy to provide student support for maintenance to British students attending designated courses wholly provided by UK educational institutions

maintained or assisted by recurrent grants out of public funds or provided by such institutions in conjunction with institutions outside the UK; and courses of higher education specifically designated by the Secretary of State.

Mr. Lazarowicz: To ask the Secretary of State for Education and Skills (1) what discussions he has had with Scottish Ministers regarding arrangements to ensure students from England who attend higher education institutions in Scotland are not disadvantaged in terms of *(a)* fee liability and *(b)* living costs from 2006; [164891]

(2) what discussions he has had with Scottish Ministers regarding arrangements for students from Scotland to study medicine in higher education institutions in England after 2006; [164894]

(3) what discussions he has had with Scottish Ministers regarding assistance for *(a)* fee costs and *(b)* living costs for Scottish students studying in England from 2006. [164895]

Alan Johnson: My right hon. Friend the Secretary of State for Education and Skills and I have quarterly meetings with Scottish Ministers, in which these issues are discussed.

Sure Start (Lancashire)

Mr. Dawson: To ask the Secretary of State for Education and Skills how many Sure Start capital programmes have been completed in Lancashire. [164115]

Margaret Hodge *[holding answer 30 March 2004]:* There are 17 local programmes approved across Lancashire over six rounds. Four have completed some of their planned capital work—Hyndburn Church and West Accrington has completed its main building which is open for service; Burnley, Danehouse and Stoneyholme, Rossendale Bacup and Stacksteads, and Burnley Duke Bar and Burnley Wood have completed some of their capital builds and are anticipated to open in April. 12 neighbourhood nurseries all involving significant building work have also opened offering 432 places to children under the age of five. In addition, One Early Excellence Centre opened its new building in February this year.

Teachers

Mr. Hoban: To ask the Secretary of State for Education and Skills if he will list the initiatives launched by the Department concerning the continuing professional development of teachers since June 1997, including *(a)* the date of their launch and *(b)* their cost. [165289]

Mr. Miliband: Most of the Department's initiatives since June 1997 have involved elements of continuing professional development for teachers. More than £1 billion has been made available in this period to support professional development through national initiatives, such as the Literacy and Numeracy Strategies, Excellence in Cities, Beacon schools and the Key Stage 3 strategy, but it is not possible to disaggregate the precise amounts that have been spent on professional development as many of the initiatives allow schools to decide how the money should be spent. There have however been a number of initiatives that have been specifically for the individual professional development of teachers. A list of these is provided in the following table. In addition, the National College for School Leadership has introduced a number of programmes to transform the quality of leadership in schools.

£

Name of initiative	*Date of Launch*	*Cost*
National Professional Qualification for Headship	June 1997	18,630,000
Leadership Programme for Serving Heads	November 1998	4,009,000
New Opportunities Fund ICT Teacher Training	September 1999	230,000,000
Induction	September 1999	[1]70,536,000
Best Practice Research Scholarships	May 2000	9,000,000
Teachers' International Professional Development	May 2000	12,000,000
Sabbaticals	September 2001	24,612,000
Early Professional Development Pilot	September 2001	25,000,000
Professional Bursaries	April 2002	15,000,000
Enhancing Subject Teaching Using ICT	January 2004	8,000,000

[1] This figure covers the period from April 2001-March 2003. Support for NQT induction was part of a larger school improvement grant for 1999–2001. Separate figures cannot be disaggregated.

TRANSPORT

Cargo Movements

Mr. Barry Gardiner: To ask the Secretary of State for Transport what quantity of consolidated cargo landing in Europe which was transported by road or rail into the United Kingdom was transported to enhanced remote transit sheds in the last year for which figures are available; and what European regulations apply to these cargo movements. [165628]

Dawn Primarolo: I have been asked to reply.

Neither the Department of Transport or HM Customs and Excise hold information down to the level of detain requested.

The European regulations which apply to these cargo movements are:

Council Regulation (EEC) No. 2913/92 (The Community Customs Code), in particular Articles 91–97 thereof, and

Commission Regulation (EEC) No. 2454/93 (Provisions for implementation of the Community Customs Code), in particular Articles 340a-340d, 341–442a and 450a-462a.

Roads and Pavements

Bob Spink: To ask the Secretary of State for Transport (1) what proportion of local authorities'

roads and pavements maintenance budget was paid out for compensation against claims in each of the last five years; and if he will make a statement; [165056]

(2) how many claims were received by local authorities in each of the last five years for *(a)* personal injury and *(b)* damage to motor vehicles in respect of roads and pavements. [165058]

Mr. McNulty: This information is not collated centrally, although we are looking at whether and how we could do so in the future.

A27

Peter Bottomley: To ask the Secretary of State for Transport (1) what the traffic flows on the A27 *(a)* through Worthing and *(b)* around Arundel were (i) in 1997 and (ii) on the latest date for which figures are available; [165699]

(2) what representations he has received *(a)* for and *(b)* against improvements for traffic on the A27 (i) through Worthing and (ii) around Arundel. [165701]

Mr. Jamieson: Traffic flows on the A27 *(a)* through Worthing and *(b)* around Arundel (i) in 1997 and (ii) 2002—the latest date for which figures are available—are given in the table:

Year	*Location*	*Two-way annual average daily traffic (AADT)*
1997	Clapham, west of Worthing	24,893
1997	North Lancing, east of Worthing	Not available
1997	Walberton, west of Arundel	24,633
1997	Poling, east of Arundel	27,609
2002	Clapham, west of Worthing	26,800
2002	North Lancing, east of Worthing	52,800
2002	Walberton, west of Arundel	26,700
2002	Poling, east of Arundel	28,400

Since the Secretary of State's announcement on 9 July 2003, Ministers have received five representations in support of improvements on the A27 through Worthing and 11 representations in support of improvements on the A27 through Arundel.

No representations for or against proposed short-term, small-scale improvements for traffic on the A27 through Worthing and around Arundel have been received.

Peter Bottomley: To ask the Secretary of State for Transport how many lanes each way are justified for the A27 *(a)* through Worthing and *(b)* around Arundel. [165700]

Mr. Jamieson: In Worthing there are four lanes—two each way—for traffic for some sections of the A27 and the remainder is one lane each way with additional lanes at junctions. There are numerous junctions with local roads and a very high proportion of local traffic uses the route.

Following the rejection of the proposals of the south coast multi-modal study the Highways Agency is working closely with West Sussex county council to develop alternative strategies for managing traffic in Worthing, and I expect their report in the summer. The justification for the number of traffic lanes required in Worthing will therefore depend on this work.

At Arundel, there is one lane each way along the existing inner Arundel bypass. The principal congestions points are, however, the main junctions at Arundel and at the nearby Crossbush junction. The agency has recently installed traffic signals to improve the operation of the Crossbush junction. It is envisaged that additional road capacity will be required in the Arundel area, but the exact nature of this provision is under consideration and the agency will report back in the summer.

Peter Bottomley: To ask the Secretary of State for Transport when he expects to propose relief for *(a)* traffic on the A27 and *(b)* residents in (i) Worthing and (ii) Arundel. [165702]

Mr. Jamieson: In July 2003 we rejected the proposals for a number of road improvements for the A27 as presented in the recommendations of the south coast multi-modal study. We asked the Highways Agency to review the proposals and develop less environmentally damaging options. This work is in progress and I expect the agency to report back in the summer. I will then consider the alternatives and decide on the way forward for the Arundel and Worthing lengths of the A27.

The agency is developing short-term measures to improve traffic flow and pedestrian crossing facilities in Worthing and has installed traffic signals to smooth traffic flow at Crossbush junction near Arundel.

A38

Mr. Breed: To ask the Secretary of State for Transport what estimate he has made of the final cost of the remedial work undertaken on the A38 Saltash tunnel; and how the work is to be funded. [165714]

Mr. Jamieson: The estimated cost of the refurbishment works being undertaken on the A38 Saltash tunnel is £8,250,000. The work is being funded by the Highways Agency.

Some remedial works will need to be completed satisfactorily before the completion of the refurbishment contract; they will be undertaken at the contractor's expense.

Air Travel Trust Fund

John Thurso: To ask the Secretary of State for Transport (1) if he will make a statement on the financial status of the Air Travel Trust Fund; which types of air tickets are covered by the Air Travel Trust Fund; and how many and what value of tickets were sold in each category in each year from 1997; [164645]

(2) what the current deficit of the Air Travel Trust Fund is at present as covered by the Government guaranteed overdraft facility; and how this is projected to change over the next few years. [164646]

Mr. McNulty: The Air Travel Trust Fund (ATTF) is currently £9.6 million in deficit but has overdraft facilities guaranteed by the Government. In the event of any failure passengers would not therefore lose out. It is not possible to predict how the deficit will change over

the next few years. As soon as parliamentary time permits, we will introduce a Bill to enable the Civil Aviation Authority (CAA) to levy a charge on the industry to eliminate the deficit and make provision for future calls on the fund.The Air Travel Organisers' Licensing (ATOL) scheme protects air travellers against insolvency of tour organisers. In the event of a company failure, the cost of refunds and repatriations is met by the bond, and if it is insufficient then ATTF provides the remaining funds required.

Companies holding ATOLs may sell any type of air ticket, but the CAA does not collect data on the type of ticket sold. In 2003 ATOL holders made 23 million sales of package holidays and flights on charter airlines without accommodation, and 5 million sales of flights on scheduled airlines, making a total of 28 million protected tickets.

The following table compares the number of ATOL protected tickets with total tickets for journeys originating in the UK.

UK originating return trips

	ATOL protected		*Total*
	Million trips	*£ billion*	*Million trips*
1997	23.5	9.5	30.3
1998	25.0	10.4	34.3
1999	26.4	11.1	37.5
2000	28.0	12.4	41.4
2001	29.1	13.0	43.0
2002	27.9	12.9	44.0
2003[1]	27.9	12.9	[2]—

Anti-Terrorism, Crime and Security Act

Miss McIntosh: To ask the Secretary of State for Transport what resources have been made available to the British Transport Police to meet their additional responsibilities under the Anti-Terrorism, Crime and Security Act 2001 in *(a)* 2001, *(b)* 2002, *(c)* 2003 and *(d)* 2004. [162624]

Mr. McNulty: The Anti-Terrorism, Crime and Security Act 2001 provides officers of the British Transport Police (BTP) with jurisdiction outside the railways in certain, specified circumstances. The number of incidents where BTP officers respond in such circumstances accounts for some 1 per cent. of their activities each year. The costs are absorbed within BTP's budget and are offset by the assistance provided to BTP by local police forces for which BTP are not charged. Between 2000–01 and 2004–05 BTP's budget has increased as follows:

	£ million	*Percentage*
2000–01	120.5	—
2001–02	121.9	+1.2
2002–03	126.4	+3.7
2003–04	136.7	+8.2
2004–05	161.0	+18

Birmingham Airport

Mr. John Taylor: To ask the Secretary of State for Transport when he expects Birmingham International Airport to announce a scheme of compensation for Solihull constituents adversely affected by the proposed second runway. [165566]

Mr. McNulty: I understand that Birmingham Airport are currently finalising the details of their draft compensation and mitigation scheme. They intend to consult key stakeholders after Easter and begin a full public consultation before the end of May.

Computerised MOT Test

Mr. Hancock: To ask the Secretary of State for Transport pursuant to the Answer of 8 March 2004, *Official Report*, column 1237W, on computerised MOT test, if he will make it his policy to set a final date for the implementation of a computerised MOT test by Siemens Business Services, failing which he will appoint a new contractor. [165796]

Mr. Jamieson: No, at this stage we do not see it as appropriate to set such a date.

Cycle Lanes

Mr. Evans: To ask the Secretary of State for Transport how many miles of new cycle lanes have been provided in the Ribble Valley and Fulwood since 1997; and at what cost. [165512]

Mr. McNulty: Since 1997, 10.5 km of on-road cycle lanes and 4.3 km of off-road cycle lanes have been constructed in the Ribble Valley and Fulwood; their exact cost is not available.

Driving Licences

Andrew Mackinlay: To ask the Secretary of State for Transport whether people from EU accession countries will be permitted to drive in the UK using their national licence after 1 May. [165052]

Mr. Jamieson: The UK's implementation of the second EC directive on driving licences (91/439/EEC) on 1 January 1997 brought about the mutual recognition of all Community licences. This obligation will be extended to include recognition of all licences in circulation in the new member states from their date of accession, 1 May 2004.

Department-sponsored Bodies

Mr. Stephen O'Brien: To ask the Secretary of State for Transport what the *(a)* resource budget, *(b)* administration costs and *(c)* staff numbers were for 2003 of the (i) Northern Lighthouse Board, (ii) Trinity House Lighthouse Service, (iii) Rail Passengers Committee Eastern England, (iv) Rail Passengers Committee Midlands, (v) Rail Passengers Committee North Eastern England, (vi) Rail Passengers Committee North Western England, (vii) Rail Passengers Committee Scotland, (viii) Rail Passengers Committee Southern England, (ix) Rail Passengers Committee Wales, (x) Rail Passengers Committee Western England, (xi) Rail Passengers Council and (xii) Shipping Task Force. [165124]

Mr. McNulty: The information is as follows:

For Financial Year 2003–04	*Resource Budget (£)*	*Administration Costs (£)*	*Staff Numbers*
RPC Eastern England	274,200	49,000	5
RPC Midlands	279,000	69,400	5
RPC North Eastern	275,700	89,400	5
RPC North Western	275,500	72,500	5
RPC Scotland	302,000	90,900	5
RPC Southern	287,500	106,000	5
RPC Wales	262,500	62,400	5
RPC Western	283,200	64,900	5
Rail Passengers' Council	1,446,800	758,300	22
			206 (does not include part time staff; such as commissioners (5) or
Northern Lighthouse Board	22,791	4,904	attendants/boatmen (106)
Trinity House Lighthouse Service	33,434	1,777	409
		453 (catering for	
Shipping Task Force	49,500	meetings only)	No staff

Disability Discrimination Act

Linda Perham: To ask the Secretary of State for Transport what impact he expects the provisions of the draft Disability Discrimination Bill to have on the measures contained in the Disability Discrimination Act 1992 regarding specifications of hackney carriages; and what the timetable is for consultation and implementation. [165456]

Mr. McNulty: The provisions in the draft Disability Discrimination Bill have no impact on the existing provisions of Part 5 of the Disability Discrimination Act 1995 (DDA) that give the Secretary of State powers to make accessibility regulations for hackney carriages (taxis). I announced on 28 October last year our policy proposals fro taking forward those provisions. We are currently working on the technical requirements and we will be consulting in due course on draft regulations that will include a proposed timeframe for implementation.

The transport provision in the draft Disability Discrimination Bill would allow us to lift the exemption for transport vehicles in Part 3 of the DDA that deals with access to goods, services and facilities. We are committed to doing so in respect of public transport services, including taxis, to ensure that in future operators of those services take reasonable steps to ensure that they do not discriminate against disabled people. We do not, however, intend to bring in the duties under Part 3 that would require physical alterations to vehicles.

Finningley Airport

Mr. Bill O'Brien: To ask the Secretary of State for Transport what assistance was given to Peel Holdings to help with the Finningley Airport development. [165711]

Mr. McNulty: Peel Holdings have received no assistance from the Department for Transport to help with the Finningley Airport development. Our policy on Finningley is set out in the Future of Air Transport White Paper.

Freight Future

Mr. Paul Marsden: To ask the Secretary of State for Transport what the cost of producing the Freight Future newsletter was in the last year for which figures are available. [165149]

Mr. Jamieson: The Department issued two editions of the Freight Future newsletter in 2003–04. The cost of producing them was £69,358. This includes management, design, printing of 80,000 copies of each issue and insertion into five industry publications.

Greenhouse Gases

Mr. Challen: To ask the Secretary of State for Transport what his Department's assessment is of the likely greenhouse gas emissions from transport in 2010. [165167]

Mr. Jamieson: Forecasts of 2010 emissions of carbon dioxide (CO_2) from the transport sector, together with information on emissions of a number of other pollutants, are published in Transport Statistics Great Britain 2003, which is available via the DfT website.

Heavy Goods/Public Service Vehicles

Mr. Paul Marsden: To ask the Secretary of State for Transport how many *(a)* heavy goods vehicle and *(b)* public service vehicle licences (i) were issued and (ii) were revoked in each of the last 10 years. [163839]

Mr. Jamieson: The number of licences issued in these categories can be obtained only at disproportionate cost. The following table shows the total number of applications processed by DVLA for licences to drive medium and large goods vehicles and passenger carrying vehicles over the last 10 years. The figures include applications for provisional entitlement, full entitlement, renewals and replacement licences.

	Applications processed
1993–94	403,854
1994–95	167,650
1995–96	167,645
1996–97	264,446
1997–98	254,244
1998–99	244,963

	Applications processed
1999–2000	155,478
2000–01	167,966
2001–02	266,242
2002–03	306,601

For revoked licences, the following table shows the number of medium and large goods vehicle licences and passenger carrying vehicle licences revoked over the last 10 years (where figures are available).

	Revoked by Traffic Commissioner	Revoked by DVLA	Total revoked
1993–94	1,520	[1]—	1,520
1994–95	555	[1]—	555
1995–96	510	12,432	12,942
1996–97	670	12,613	13,280
1997–98	925	13,092	14,017
1998–99	[1]—	[1]—	—
1999–2000	131	12,844	12,975
2000–01	94	14,500	14,594
2001–02	118	14,652	14,770
2002–03	104	14,354	14,458

[1] Figures not available

M6

Mr. Kidney: To ask the Secretary of State for Transport whether he has received from the Highways Agency plans for widening the M6 motorway between junctions 11 and 20; and if he will make a statement. [165307]

Mr. Jamieson: In my announcement on 10 December 2002 about the outcome of a number of multi-modal studies, I asked the Highways Agency to carry out further detailed work on proposals to widen the M6 from junction 11a to junction 19. In carrying out that work it has proved necessary to undertake more detailed traffic modelling and economic evaluation work than initially expected. However, this work is nearing completion and I expect to receive a report from the Highways Agency in the next few months.

Port Security

Patrick Mercer: To ask the Secretary of State for Transport what training is provided to port security officers in *(a)* scanning ships and containers, *(b)* scanning of workers and *(c)* testing for chemical, biological, radiological and nuclear materials; and if he will make a statement. [165106]

Mr. Jamieson: The International Ship and Port Security (ISPS) Code does not set any training standards for Port Facility Security Officers (PFSOs) and each Contracting Government is able to determine the detail of the training course to be undertaken.

Unlike the vast majority of countries the UK requires PFSOs to complete a Government approved training course. My Department's Transport Security Directorate (TRANSEC) developed training standards and course criteria for PFSOs in the UK, and approves the training providers.

The UK's implementation of the IPSPS Code does not require ports to monitor chemical, biological, radiological and nuclear (CBRN) traffic. However the Home Office and Customs are taking forward a programme to install radiation detection equipment at points of entry into the UK (including airports, seaports and the Channel Tunnel). Under this initiative Customs Officers, who are responsible for detecting and deterring illicit import and export of radioactive materials, have received specialist training in operating the equipment and the incident response procedures.

PFSOs will however work in partnership with Customs Officers when necessary, and will be aware of the detection equipment at points of entry into the UK.

As required by the ISPS code each port will detail how it is going to achieve access control to its restricted areas, and this may include subjecting vehicles (including lorries), persons and their possessions to checks and searches. In addition ports will be required to formalise pass systems to help prevent unauthorised access to these operational areas of the port. Access control and how to maintain pass systems are covered in the PFSO training courses and security instructi9ons that have been issued to industry.

Rail Compensation

Mr. Hancock: To ask the Secretary of State for Transport pursuant to his answer of 22 March 2004, *Official Report*, columns 513–14W, on rail compensation, what plans he has to ensure consistency among franchisees in the compensation arrangements offered to passengers. [164227]

Mr. McNulty: Passenger's Charters are consistent in that they must meet the minimum compensation arrangements as set out in the National Conditions of Carriage. Franchisees are free to offer at their commercial discretion compensation arrangements that give more extensive rights than those in the National Rail Conditions of Carriage but they may not give less.

Rail Services (Kent)

Jonathan Shaw: To ask the Secretary of State for Transport what estimate he has made of the investment required to allow Channel Tunnel Rail Link domestic service trains to use 700-seater trains from Rochester, Strood and Gravesend. [162503]

Mr. McNulty: The platforms at Rochester, Strood and Gravesend can only accommodate trains up to 10 cars long. The proposed 700-seater Channel Tunnel Rail Link domestic service would be 12 car trains. The cost of extending the platforms at Rochester would be £12.4 million, Strood £1.2 million and Gravesend £8.6 million. Due to the prohibitively high cost of

extending these platforms, the Strategic Rail Authority's Integrated Kent Franchise Consultation Document proposes a service of two Channel Tunnel Rail Link domestic trains per hour in each direction from Rochester, Strood and Gravesend using 350 seater six car trains.

Reduced Pollution Certificates

Mr. Paul Marsden: To ask the Secretary of State for Transport what the administrative charges are for a company applying for a reduced pollution certificate. [165181]

Mr. Jamieson: The current cost of a reduced pollution test carried out in conjunction with another statutory test e.g heavy goods vehicle or public service vehicle annual test or certificate of initial fitness examination of £15.50. When carried out on its own the cost if £26.00. There are supplementary fees of £5.50 payable if the test is carried out other than at one of Vehicle and Operator Service Agency's (VOSA) testing stations and £9.00 if the test is carried out outside normal working hours.

TransportEnergy Best Practice

Mr. Paul Marsden: To ask the Secretary of State for Transport what percentage of transport companies used the TransportEnergy Best Practice Programme in the last year for which figures are available. [165148]

Mr. Jamieson: Five per cent. of all freight transport companies in England have used the TransportEnergy Best Practice programme since 2002.

Tyres

Mr. Paul Marsden: To ask the Secretary of State for Transport if he will make a statement on his assessment of the effects of energy efficient tyres on fuel consumption for *(a)* buses and *(b)* freight trucks. [165152]

Mr. Jamieson: Through the TransportEnergy Best Practice programme, the Department has recently published a leaflet describing trials of energy efficient tyres fitted to trucks. These trials have shown some positive results, with fuel consumption reduced by an average of 7 per cent. Trials have shown that tread wear rates for current energy efficient tyres can be inferior to those of standard tyres, so they can have larger replacement costs.

TRADE AND INDUSTRY

Indigenous Communities (Commercial Exploitation of Traditional Knowledge)

Mr. Watson: To ask the Secretary of State for Trade and Industry what percentage of the patents of medicinal plants in the last five years she estimates were based on the traditional knowledge of indigenous people. [165034]

Ms Hewitt: No patents covering the UK have been granted in the past five years for whole plants with medicinal properties. There are 24 granted patents relating to medicinal compounds extracted from plants. It is not possible to determine clearly how many of these are based on the traditional knowledge of indigenous people. However, it would appear that about 50 per cent. of these patents relate to extracts of plants with a recognised traditional medicinal use.

Mr. Watson: To ask the Secretary of State for Trade and Industry if her Department will take action to prohibit pharmaceutical companies from using traditional knowledge of indigenous communities without receiving prior informed consent before exploiting plants or crops for commercial gain. [165179]

Ms Hewitt: The UK Government have ratified the Convention of Biological Diversity (CBD) which deals among other issues with traditional knowledge and prior informed consent. The CBD also recognises the sovereign rights of states over their genetic resources and that access to them is subject to national legislation. It also requires that access to genetic resources should be subject to the prior informed consent of the providing country and to mutually agreed terms, including the fair and equitable sharing of the benefits derived from the use of genetic resources.

At the recent seventh Conference of Parties (COP7) in Kuala Lumpur, the UK Government helped to negotiate a mandate for an international benefit-sharing regime. This mandate covers traditional knowledge and recognises the need for both facilitating access to genetic resources and the subsequent sharing of benefits. The UK also takes an active part in discussions in the World Intellectual Property Organisation (WIPO) and the World Trade Organisation (WTO) on the intellectual property aspects of these issues.

Post Office Network

Mrs. Calton: To ask the Secretary of State for Trade and Industry what assessment she has made of Post Office Limited's *(a)* support for the vulnerable and *(b)* action to maintain post offices as focal points for communities during the Network Reinvention Programme for 2003 and 2004 to date. [165339]

Mr. Timms: The Network Reinvention programme is an operational matter for Post Office Ltd. There is a public consultation process agreed between the company and Postwatch and local communities are consulted before final decisions are taken. The needs of the elderly, the disabled and those on lower incomes are carefully considered. At the end of the programme, over 95 per cent. of the urban population nationally will still live within one mile of a post office and the majority within half a mile.

Mrs. Calton: To ask the Secretary of State for Trade and Industry what assessment she has made of Post Office Network's ability to maintain convenient access for all to post offices, as indicated on page 5, chapter 1 of the Performance and Innovation Unit Report of 2000. [165340]

Mr. Timms: The Government regards it as most important that all communities have good access to postal and Government services and it is committed to doing all it can to ensure a viable Post Office network for the future. We have appointed a dynamic management team who are committed to turning the business around and to give effect to the vision in the PIU report of a thriving network meeting changing customer needs.

The Government has placed a formal obligation on Post Office Ltd to maintain the rural network and prevent avoidable closures, in the first instance until 2006, and has made available £450 million over three years to support this. For the urban network, where rationalisation is a vital element of renewal, Post Office Ltd is required to ensure that at the end of their reinvention programme over 95 per cent. of the urban population nationally will still live within one mile of a post office and the majority will live within half a mile.

Mrs. Calton: To ask the Secretary of State for Trade and Industry what discussions she has held with *(a)* Postwatch and *(b)* Postcomm about the role of Postwatch. [165352]

Mr. Timms: The Department has a regular dialogue with Postwatch and Postcomm on a range of issues concerning the postal market and the postal market regulatory framework. As a non-departmental public body, sponsored by DTI, the Department also has regular meetings with Postwatch about its programme, performance and operations. HMT and DTI are undertaking a joint project on consumer representation in regulated industries. As part of this project they have worked closely with Postwatch.

Mrs. Calton: To ask the Secretary of State for Trade and Industry what representations she has received from Postcomm about their work with key Post Office Network stakeholders to develop a shared understanding of the role that post offices should play in the longer term. [165369]

Mr. Timms: The Postal Services Commission (Postcomm) reports annually to my right hon. Friend the Secretary of State for Trade and Industry on developments in the post office network. Postcomm publishes these annual reports on its website and copies have been placed in the Libraries of the House. We have also received advice on the longer term role of post offices in rural areas. We are considering that report, which we would expect to be published in due course.

Mrs. Calton: To ask the Secretary of State for Trade and Industry (1) what assessment she has made of each annual report from Postcomm on the urban network since 2001; and if she will place copies of her assessments in the Library; [165370]

(2) what advice she has received from the Postal Services Commission regarding their monitoring of the size and shape of the Post Office network and its impact on local communities. [165368]

Mr. Timms: The Postal Services Commission (Postcomm) reports annually to the Secretary of State for Trade and Industry on developments in the post office network. Postcomm publishes these annual reports on its website and copies have been placed in the Libraries of the House.

My right hon. Friend the Secretary of State makes no formal assessment of the annual reports from the regulator but they are one of many sources which inform Government policy.

Mrs. Calton: To ask the Secretary of State for Trade and Industry what representations she has received about line management in Postwatch. [165371]

Mr. Timms: None.

Mrs. Calton: To ask the Secretary of State for Trade and Industry what support her Department has offered to Post Office Limited to ensure that benefit recipients can continue to access their entitlement in cash at post offices. [165439]

Mr. Timms: The Government has ensured that those people who want to do so can continue to collect their benefits in cash at the post office. The Government invested £450 million in the Horizon project, one of the UK's largest computerisation projects, which has automated every post office in the network. That IT platform has enabled the Post Office to provide its customers with access to a range of banking services at the post office counter. People can now collect their benefits in full in cash at post offices using basic bank accounts, some 20 million current accounts or the Post Office card accounts.

Renewables

Mr. Nigel Evans: To ask the Secretary of State for Trade and Industry what assessment she has made of the efficiency of wind turbines compared to other sources of renewable energy. [165517]

Mr. Timms: The capacity factor, sometimes referred to as the load factor, is the energy generated during a given period divided by the energy generated that would have been generated had the wind turbine been operating at maximum output.

Figures for average capacity factor for individual wind farms are not available for reasons of commercial confidentiality. However, the most recent figures available show an average load factor for all UK windfarms as being 29.9 per cent. in 2002[1]. Separate figures for offshore wind farms are not yet available as UK's first major offshore wind farm at North Hoyle has only been operational since November last year. However, we would expect average load factors to be greater due to the superior offshore wind resource.

The Oxera Report[2] puts the cost of onshore wind in 2004 at £31/MWh and offshore wind at £55/MWh. This is expected to fall to £25/MWh and £37/MWh respectively by 2020.

The cost of wind compared to other forms of renewable generation can be found in table 3.7 within the report at www.dti.gov.uk.energy/renewables/policy.oxeraresults.pdf.

[1] *Source:* DUKES 2003 available on the DTI website at www.dti.gov.uk/energy/inform/energy_stats/renewables/index.shtml. (Data for 2003 will become available in June 2004).

[2] Oxford Economic Research Associates "Results of Renewables Marked Modelling" February 2004.

Accountancy Fees

Mr. Simmonds: To ask the Secretary of State for Trade and Industry what estimate her Department has made of the average accountancy fee for completing a company voluntary agreement as a percentage of the net value of the company in each year since 2000. [164287]

Mr. Sutcliffe: The Insolvency Service, the Executive Agency of the Department for Trade and Industry that has responsibility for the policy regarding company voluntary arrangements (CVAs) does not collect statistical information regarding the fees of nominees and supervisors on a regular basis and no estimate of such fees is available. Proposals put to a company's creditors contain details of the charges of the nominee and supervisor. It is up to the creditors to decide whether to accept such proposals.

Arms Exports

Mr. Gardiner: To ask the Secretary of State for Trade and Industry what steps have been taken to ensure that components for machine guns exported to *(a)* Côte d'Ivoire, *(b)* Nigeria and *(c)* Senegal have not been exported in contravention of the Economic Council of West African States Moratorium. [163415]

Mr. MacShane: I have been asked to reply.

The United Kingdom has one of the strictest and most transparent arms export licensing systems in the world. All export licence applications are rigorously assessed on a case by case basis against the Consolidated EU and National Arms Export Licensing Criteria, taking account of the circumstances prevailing at the time and other announced Government policies. Criterion 1 specifically addresses respect for the UK's international commitments and international obligations.

The UK takes the provisions of the Economic Council of West African States Moratorium fully into account when assessing export licence applications. We would not issue an export licence if there were a clear risk that the export would be re-exported by the stated end-user in contravention of the Moratorium.

British Coal

Adam Price: To ask the Secretary of State for Trade and Industry whether the Department has been given Treasury approval to retain surpluses payable to it out of

the Mineworkers' Pension Scheme during the last five years to offset expenditure on liabilities inherited from British Coal. [164382]

Nigel Griffiths *[holding answer 29 March 2004]:* No. The Government's share of any valuation surplus from the Mineworkers' Pension Scheme is released over a 10-year period and paid directly into the Consolidated Fund as Consolidated Fund Extra Receipts.

Business Support

Mr. Stephen O'Brien: To ask the Secretary of State for Trade and Industry pursuant to her answer of 23 February 2004, *Official Report*, column 56W, on Business Support, if she will list the DTI funded business support schemes that have been discontinued since January 2003. [158879]

Ms Hewitt: All DTI funded business support schemes are being replaced by a small set of more strategically focused products. Four of these new products (Small Firms Loan Guarantee, Grant for Research and Development, Grant for Investigating an Innovative Idea and Knowledge Transfer Partnerships) have been available since spring 2003. Further products will be made available from April this year.

Under current plans, the legacy schemes shown in the lists will not, from April 2004, receive any new DTI financial support over and above what has already previously been committed to them. In some cases there will be a tail of activities to which the Department has made legal commitments. The first list shows legacy schemes that have closed to new customers since January 2003. The second list shows legacy schemes that currently remain open to new customers and in some cases may continue to exist with funding from other sources.

List 1

Aeronautics Research Programme (CARAD)
Applications Technology Support
Automotive College
Biowise
Broadcast Digital Test Bed
Building Up Biomaterials
Competitiveness for the Oil and Gas Supplies Sector
CONNECT

British Geological Survey Project
Chemical Industry Sites Participation (Reputation) Project
Early Growth Funding
E-Business Programme for the UK Chemicals Sector
Electronics Design Programme
Engineering and Machinery Alliance
Envirowise
Faraday Partnerships
Industry Forum Adaptation Initiative
LINK Collaborative Research Scheme
Motorsport Development programme
NESTA Futurelab Industry Placement Scheme
Phoenix Fund
Regional Venture Capital Fund Programme
Supply Chain Groups
Waste and Resources Action Programme.

In addition to the schemes listed above, the Home Shipbuilding Credit Guarantee Scheme will close to new guarantees for support after 5 April 2005. New applications will continue to be accepted until 1 October 2004 and a further period for signature of guarantee contracts will be permitted until 5 April 2005. My Department will be in contact with stakeholders in the next few days to explain the arrangements for closure of this scheme.

Departmental Policies (Ilford, North)

Linda Perham: To ask the Secretary of State for Trade and Industry if she will set out, including statistical information relating as directly as possible to the constituency of Ilford, North, the effect of her Department's policies on Ilford since 1997. [164883]

Ms Hewitt: The Parliamentary Constituency Area (PCA) of Ilford, North falls entirely within the London borough of Redbridge. DTI has no area-based initiatives targeted directly on this PCA or the borough of Redbridge.

General economic and labour market information covering the borough of Redbridge can be found at http://www.dti.gov.uk/sd/bci

Downloaded Music

Michael Fabricant: To ask the Secretary of State for Trade and Industry what measures she proposes to take to combat the illegal downloading of music from the internet. [164840]

Ms Hewitt: The UK music industry makes a substantial contribution to our economy. The UK is the third largest market in the world for sales of music and the National Music Council estimates that the music industry generates value added in excess of £3.6 billion (2000).

Illegal downloading of music from the internet has a serious impact on our creative industries and the artist they represent. BPI research estimates that 7.4 million people in the UK have downloaded material from illegal sites.

UK copyright law does provide strong protections for those who own rights in music so that they are able to take action against any illegal use of their material. However, we believe that increasing the provision of legal downloads is the best approach to combating illegal downloading and welcome the positive steps recently taken by the music industry to promote the availability of legitimate music tracks on the internet.

Electricity Supply

Mr. Challen: To ask the Secretary of State for Trade and Industry what role Ofgem has in ensuring security of supply when regulating the electricity industry. [165166]

Mr. Timms: Ofgem's principal objective is to protect the interests of consumers. In carrying out its functions in a manner which it considers is best calculated to further the principal objective Ofgem must have regard to the need to secure that all reasonable demands for electricity are met.

Hazardous Waste

Sue Doughty: To ask the Secretary of State for Trade and Industry pursuant to the answer by the Minister for the Environment of 11 March 2004, *Official Report*, column 1620W, on hazardous waste, how many of the *(a)* 100,000 special waste producers and *(b)* 750,000 future hazardous waste producers her Department has contacted to inform them of the requirements of the Landfill Directive relating to hazardous waste. [165323]

Mr. Timms: Defra lead on hazardous waste and the Landfill Directive, but the DTI is assisting in the development of a communications strategy which will raise awareness of these issues among businesses through a variety of mechanisms and media. I understand that my colleague the Minister of State at Defra will be providing the hon. Member with further details of the activities being planned over the coming months.

Libya

Mr. David Stewart: To ask the Secretary of State for Trade and Industry what assessment she has made of potential business and commercial opportunities for UK firms consequent on improved relations with Libya; and if she will make a statement. [164730]

Mr. Mike O'Brien: The positive developments in the bilateral relationship have led to a significant increase in the level of interest from UK companies wishing to do business in Libya. We believe that opportunities exist for UK firms in a number of sectors, including oil and gas, airports, education and training, ports and logistics and tourism.

Minimum Wage

Malcolm Bruce: To ask the Secretary of State for Trade and Industry what estimate she has made, for each year since the introduction of the national minimum wage, of *(a)* the number of employers not complying with the national minimum wage provisions and *(b)* the level of underpayment of the national minimum wage. [165500]

Mr. Sutcliffe: The information is as follows.

(a) Data on the number of employers not complying with the minimum wage is not available. However, from April 2003 to February 2004 the Inland Revenue have investigated nearly 5,000 cases of suspected underpayment and found nearly 2,000 cases where employers were non-compliant, identifying £2,250 million in arrears of pay.

(b) Given that the Government does not produce estimates of the number of workers not complying with the legislation the level of underpayment cannot be estimated. However, the Office for National Statistics, do however publish the number of jobs paying below the NMW (see following table), but these are not an estimate of non-compliance because they include employees who are legitimately being paid below the NMW levels (for example, those who are receiving accredited training or where the employer provides accommodation).

Number and proportion of jobs paying below the national minimum wage

	Amount £	*Percentage*
Spring 2000[1]	240,000	1.0
Spring 2001[2]	250,000	1.0
Spring 2002[3]	330,000	1.3
Spring 2003[4]	260,000	1.0

[1] Rate was £3.00 per hour (aged 18 to 21 years) or £3.60 per hour (aged 22 years and over).
[2] Rate was £3.20 per hour (aged 18 to 21 years) or £3.70 per hour (aged 22 years and over).
[3] Rate was £3.50 per hour (aged 18 to 21 years) or £4.10 per hour (aged 22 years and over).
[4] Rate was £3.60 per hour (aged 18 to 21 years) or £4.20 per hour (aged 22 years and over).
Source:
Office for National Statistics central estimates of low pay.

Nirex

Mr. Watson: To ask the Secretary of State for Trade and Industry pursuant to her answer of 25 March 2004, *Official Report*, columns 965–66, on Nirex, what the last date was on which the Department discussed the budget for Nirex prior to the Nirex board meeting of 4 March with *(a)* BNFL and *(b)* British Energy; and what the Department's input was to the discussion. [165297]

Mr. Timms: Discussions with BNFL took place on 27 February on how best to secure value for money for the shareholders from the Nirex budget.

No such discussions were held with British Energy.

Nuclear Decommissioning Authority

Mr. Watson: To ask the Secretary of State for Trade and Industry whether the Nuclear Decommissioning Authority will be responsible for the long-term disposal of *(a)* intermediate level, *(b)* high level and *(c)* other types of nuclear waste. [165325]

Mr. Timms: The Energy Bill includes provisions that will enable the proposed Nuclear Decommissioning Authority (NDA) to treat, store and dispose of hazardous material, including Low Level Waste (LLW), Intermediate Level Waste (ILW) and High Level Waste (HLW), at designated sites for which it is responsible and also in designated circumstances. In carrying out its functions, the NDA will be required to have particular regard for Government policy. Radioactive waste management policy is the responsibility of the Department for Environment, Food and Rural Affairs (DEFRA) and the devolved Administrations. The Government's independent body, the Committee on Radioactive Waste Management (CoRWM), is receiving policy options for the long-term management of higher-level radioactive wastes. CoRWM will report its recommendations to Ministers, who will decide the long-term policy and the arrangements for its implementation. The NDA could be given responsibilities in this regard. Clause 3 of the Energy Bill provides that, should Ministers so decide.

Nuclear Safeguards

Llew Smith: To ask the Secretary of State for Trade and Industry if she will make a statement on the implementation to date of Commission Regulation 3227/76 on the application of nuclear safeguards to mixed facilities. [165155]

Nigel Griffiths: Commission Regulation (Euratom) 3227/76 sets out Euratom safeguards reporting requirements. Application of the Regulation at installations that handle 'both civil nuclear material and nuclear materials assigned or liable to be assigned to meet defence requirements' (so-called 'mixed facilities') is as described in its Article 35. Accountancy reports and associated information are therefore provided for all the safeguarded nuclear material at such facilities in the UK.

Performance and Innovation Unit

Mrs. Calton: To ask the Secretary of State for Trade and Industry what reports she has made to the Prime Minister on progress against conclusions in the Performance and Innovation Unit report of 2000. [165438]

Mr. Timms: My right hon. Friend the Prime Minister has been kept informed on a regular basis with progress on implementation of the PIU report.

Post Office Network

Mrs. Calton: To ask the Secretary of State for Trade and Industry who are the key Post Office network stakeholders. [165440]

Mr. Timms: A very wide range of organisations and individuals are stakeholders in this important national network, as clients, customers or partners.

Regional Development Agencies

Mr. Stephen O'Brien: To ask the Secretary of State for Trade and Industry what assessment she has made of the likely impact on regional businesses of incorporation of regional development agencies into future regional assemblies. [165211]

Jacqui Smith: The Government's plans for elected regional assemblies in the English regions and their relationship with the Regional Development Agencies (RDAs) are set out in the White Paper "Your Region, Your Choice". In regions which choose to have elected regional assemblies the RDA will become accountable to the assembly but will retain its present day-to-day operational independence. In appointing the RDA Board members the assembly will be required to ensure that the Chair and at least half the Board have had recent or current experience of running a business. Business will therefore continue to be at the heart of the decision-making process for regional economic development.

As now, regional business will be able to contribute to the formation and delivery of the regional economic strategy. A key role of the elected assembly will be to improve the region's sustainable economic performance by ensuring the region's economic development strategy is integrated with policies and strategies on related issues such as skills, planning, housing and transport. This will enable business to benefit from better targeted policies.

Moreover, business will be able to help shape the assembly's work on this and more generally through the arrangements that will be put in place for stakeholder involvement. Elected assemblies will be required actively to involve stakeholders in their work—which could include scrutiny, policy development, consultation and implementation. As a key stakeholder, regional business will therefore have a range of opportunities to influence issues which affect them.

A draft of the Bill to establish elected regional assemblies, including their structures, powers and functions, will be published before the first referendums are held.

Regulatory Impact Assessments

Mr. Stephen O'Brien: To ask the Secretary of State for Trade and Industry pursuant to the answer of 15 March 2004, *Official Report*, column 43W, on regulatory impact assessments, how many regulatory impact assessments were issued by the Small Business Service in each year since their inception, with particular reference to the Evaluation of Regulatory Impact Assessments Compendium Report 2003–04, March 2004, Pages 25–26. [165110]

Nigel Griffiths: In respect of the previous answer, I was advised that the Small Business Service had not issued any regulatory impact assessment. However, I have subsequently discovered that it has issued one assessment which related to the transposition into UK law of EC Directive 2000/35/EC on combating late payment in commercial transactions.

Sellafield

Llew Smith: To ask the Secretary of State for Trade and Industry if she will make a statement on the near-crash of an RAF Hercules transport aircraft into the cooling towers for the Calder Hall nuclear reactors at Sellafield. [165161]

Mr. Timms: My officials have discussed this matter with the site operator BNFL and with the Ministry of Defence. Both have confirmed that no such incident took place.

Llew Smith: To ask the Secretary of State for Trade and Industry if she will place in the Library copies of the annual safeguards inspection reports prepared by Euratom on the B30 nuclear materials storage ponds at Sellafield. [165162]

Nigel Griffiths: The Commission has published reports on Euratom safeguards operations for 1999–2000, 2001 and 2002 (see Department of Trade and Industry Explanatory memoranda 11669/01 COM(2001)436 final, 13397/02 COM(2002)566 final and 16077/03 COM (2003) 764 final respectively, which are available in the Libraries of the House. Commission follow-up of its inspections at individual installations is by letter to the operator concerned. Such letters are however classified by the Commission and we cannot therefore place copies in the Libraries of the House. The reports on specific inspections from which the comments in its follow-up letters are drawn are internal to the commission—and not shared with either the facility operator or Member State authorities concerned.

Llew Smith: To ask the Secretary of State for Trade and Industry what quantities of plutonium are held in the B30 nuclear materials storage silo at Sellafield; and what methods are used to verify the plutonium contents in the radioactive wastes contained. [165163]

Nigel Griffiths: For security reasons, we do not reveal information on the quantities of nuclear material held in specific locations (Exemption 1a), information whose disclosure would harm national security or defence (Code of Practice on Access to Government Information). Records exist to show the quantities of nuclear material in spent magnox fuel received at the B30 plant. Material leaving the plant is similarly recorded, and equipment to enable Euratom safeguards verification of fuel rods shipped from the plant was in operation between 1993 and 1998 when such shipments ceased. Information therefore exists on the quantities of waste materials now in the plant but the condition of these materials and the need to minimise radiation exposure means that the activities that can be performed at present to verify this information (including in the course of Euratom safeguards inspections) are limited. Appropriate measurement and verification of the material will however take place as material is removed during the decommissioning of B30.

Llew Smith: To ask the Secretary of State for Trade and Industry (1) what recent communications she has received from the European Commission in respect of the application of Euratom nuclear safeguards to the B30 nuclear waste storage plant at Sellafield; [165164]

(2) if she will place in the Library a copy of the letter by Mr. Ian Holt, UK permanent representative to the European Union to the European Commission Director-General for Transport and Energy, dated 8 December 2003, in respect of the application of safeguards verification at the B30 plant at Sellafield. [165174]

Nigel Griffiths: The Commission summarised its safeguards concerns relating to the B30 waste storage plant in a letter to the United Kingdom's Permanent Representative to the European Union dated 13 October 2003. A response to the commission's letter was sent on 8 December 2003, but a copy cannot be placed in the Libraries of the House because the issue is now the subject of legal correspondence between the Commission and the UK. There is a confidentiality agreement between the Commission and Member States that governs the release of such correspondence.

FOREIGN AND COMMONWEALTH AFFAIRS

Bosnia

Mr. Soames: To ask the Secretary of State for Foreign and Commonwealth Affairs what work has been done to delineate tasks between the EU and NATO in Bosnia once the European Union takes over the Stabilisation Force operation; and if he will make a statement. [165561]

Mr. MacShane: Work continues on the delineation of tasks between the EU and NATO in Bosnia once the Stabilisation Force (SFOR) withdraws. We would expect the continuing but limited NATO role in Bosnia to focus on defence outreach and some operational tasks, including in support of the International Criminal Tribunal for the Former Yugoslavia, once SFOR withdraws.

European Convention for the Protection of Human Rights and Fundamental Freedoms

Mr. David Atkinson: To ask the Secretary of State for Foreign and Commonwealth Affairs whether it is the Government's policy *(a)* to promote and *(b)* to support the accession of the European Union to the European Convention for the Protection of Human Rights and Fundamental Freedoms; and if he will make a statement. [165023]

Mr. Rammell: The Government believes that EU accession to the European Court of Human Rights (ECHR) could bring significant advantages in ensuring that the European Union institutions are externally held to account for human rights breaches, in exactly the same way as member states. But the instrument of EU accession must not detrimentally affect the position of individual EU member states under the ECHR.

European Initiative for Democracy and Human Rights

Mr. Bercow: To ask the Secretary of State for Foreign and Commonwealth Affairs (1) what assessment he has made of the effectiveness of the 2002 European Initiative for Democracy and Human Rights projects to *(a)* campaign against racism in Israel, *(b)* combat discrimination against Palestinian citizens in Israel, *(c)* strengthen the Bedouin community in Israel and

(d) provide emergency legal aid for Palestinian prisoners in the Israeli military detention centres in the West Bank and Gaza Strip; and what his Department's involvement was in each project; [165206]

(2) what assessment he has made of the effectiveness of the European Initiative for Democracy and Human Rights *(a)* projects to sponsor masters degrees in Human Rights and Democratisation in 2002 in (i) Palestine, (ii) Lebanon, (iii) Malta, (iv) Libya, (v) Egypt, (vi) Algeria, (vii) Tunisia, (viii) Morocco, (ix) Cyprus, (x) Jordan and (xi) Israel and *(b)* 2002 projects to promote women's rights in (A) Egypt, (B) Jordan, (C) Lebanon, (D) Gaza and (E) the West Bank; and what his Department's involvement was in each project. [165207]

Mr. Rammell: Decisions about the individual projects funded by the European Initiative for Democracy and Human Rights are made by the European Commission and local EC Delegations. They are also responsible for managing and evaluating the projects. The EU Committee on Human Rights and Democracy allocated EU budget resources to projects in third countries and is responsible for evaluating the impact of the fund. The UK is represented on the Committee by officials from the Foreign and Commonwealth Office and the UK Permanent Representation to the EU.

Palestine

Mr. Bercow: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment he has made of the effect of movement restrictions in the West Bank on the effectiveness of the EU trade agreement with the territories. [161493]

Mr. MacShane: Restrictions on freedom of movement have made it more difficult for Palestinians to take advantage of the European Communities/Palestinian Liberation Organisation interim Agreement. This has contributed to a deep economic crisis. According to the World Bank, 60 per cent. of Palestinians live on less than the UN poverty threshold of US$2.10 a day. The Government and EU partners regularly call on both sides to implement their roadmap obligations, including the easing of restrictions on the movement of persons and goods.

Bali

Dr. Tonge: To ask the Secretary of State for Foreign and Commonwealth Affairs what representations he has made to the Indonesian authorities regarding terrorism in Bali. [165335]

Mr. MacShane: We are in regular contact with the Indonesian authorities on issues relating to terrorism, including in Bali. Through the Foreign and Commonwealth Office Global Opportunities Fund we have provided training in crisis management, aviation security and counter-terrorism legislation. We are also developing a programme of further training for the police. Richard Gozney, then our Ambassador in Jakarta, attended the Bali conference on regional approaches to counter terrorism in February 2004, at which discussions were held further to develop co-operation in counter terrorism. We will continue to work with the Indonesian government against this threat, including through capacity building.

China

Sue Doughty: To ask the Secretary of State for Foreign and Commonwealth Affairs what progress has been made in persuading the Chinese Government to ratify the International Covenant on Civil and Political Rights. [165264]

Mr. Rammell: At the most recent round of the UK China Human Rights Dialogue in November 2003, the Chinese delegation said that the ratification of the International Covenant on Civil and Political Rights (ICCPR) would be supported by a recently organised inter-ministerial task force.

I regularly raise ICCPR ratification with Chinese interlocutors and stress that the Government attaches great importance to progress in this area.

Correspondence

Mr. Dalyell: To ask the Secretary of State for Foreign and Commonwealth Affairs when he intends to reply to the letter to him of 11 March from Mrs. Pamela Dix, Secretary of UK Families Flight 103, concerning the criminal investigation into the Lockerbie bombing. [164295]

Mr. MacShane: My noble Friend Baroness Symons of Vernham Dean replied on 8 April 2004.

Mr. Kaufman: To ask the Secretary of State for Foreign and Commonwealth Affairs when he intends to reply to the letter to him from the right hon. Member for Manchester, Gorton dated 24 February 2004 with regard to Dr. S. Crowshaw. [164935]

Mr. Rammell: My right hon. Friend the Foreign Secretary replied on 29 March.

Cyprus

Andrew Mackinlay: To ask the Secretary of State for Foreign and Commonwealth Affairs pursuant to his answer of 24 March 2004, *Official Report*, columns 900–01W, on Cyprus, for what reasons it was not Government policy that the ending of Turkish occupation of Cyprus territory should be a precondition for the opening of Turkey's EU accession negotiations; and if he will make a statement. [165073]

Mr. MacShane: The Copenhagen European Council in 1993 set out the criteria which candidates for EU membership need to satisfy before accession. These demanded that "the candidate country has achieved stability of institutions guaranteeing democracy, the rule of law, human rights and respect for and protection of minorities, the existence of a functioning market economy as well as the capacity to cope with competitive pressure and market forces within the Union."

The 2003 Accession Partnership between the EU and Turkey called on Turkey to "strongly support efforts to find a comprehensive settlement of the Cyprus problem through the continuation of the United Nations Secretary General's mission of good offices and of negotiations on the basis of his proposals." This Government welcomes the Turkish Government's commitment to finding a settlement on the basis of the UN proposals.

Democratic Republic of the Congo

Mr. Drew: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make a statement on his assessment of the implications of the recent attempted coup in the Democratic Republic of Congo. [165458]

Mr. Mullin: The fighting in Kinshasa in the early hours of 28 March is a reminder of the fragility of the situation in the Democratic Republic of Congo and the need for the international community to remain engaged. We are urging all the groups that make up the transitional government to continue to work together to make the transition a success.

Falkland Islands

Mr. Streeter: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make a statement on the Falkland Islands 200 mile economic zone. [164188]

Mr. Rammell: The Falkland Islands do not have a 200 mile economic zone.

Beyond the territorial sea of the Falkland Islands there is an interim fishery conservation and management zone, the limits of which are defined in a Proclamation by the Governor of 29 October 1986, and an outer fishery conservation zone, the limits of which are defined in Proclamations of 20 December 1990 and 22 August 1994.

The Falkland Islands Government have jurisdiction in respect of fisheries, conservation of living resources and the protection and preservation of the marine environment in these zones. The zones are referred to in the written statement which I made on 29 March 2004, *Official Report*, columns 81–82WS.

Mr. Streeter: To ask the Secretary of State for Foreign and Commonwealth Affairs whether there have been recent violations by Argentinian vessels of the Falklands Island 200 mile economic zone. [164265]

Mr. Rammell: I refer the hon. Member to the written statement that I made on this issue on 29 March 2004, *Official Report*, columns 81–82WS.

Iraq

Mr. Drew: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment he has made of levels of *(a)* discrimination against, *(b)* rape of and *(c)* torture of Mandaeans in Iraq. [164028]

Mr. Rammell: A small community of around 500 Mandaeans live in Basra, in the UK area of responsibility. They are represented by Sheikh Raad Gubashi, a Mandaean member of the Interim Council. The CPA office in Basra has not received evidence of discrimination or ill-treatment against them. If any information could be provided we would be willing to investigate.

Discrimination against any Iraqi citizen is forbidden by Article 12 of the Transitional Administrative Law (TAL), which was agreed by the Iraqi Governing Council on 8 March. A copy of the TAL has been placed in the Library of the House. The Coalition is working hard with the Iraqis to strengthen the Iraqi security and judiciary sectors, in order to provide security to all Iraqi citizens and safeguard the rights laid out in the TAL.

Mr. Watson: To ask the Secretary of State for Foreign and Commonwealth Affairs what evidence he has collated on the use by the former regime of Saddam Hussein of coercion to force the medical profession to conduct amputations as a form of punishment. [165254]

Mr. Rammell: The practice of the former regime of forcing medical professionals to perform punitive amputations has been well-documented by a number of independent sources including Amnesty International, Human Rights Watch, the UN Special Rapporteur on the Situation of Human Rights in Iraq and by the British Medical Journal. A recent survey of medical professionals carried out in Iraq by Physicians for Human Rights has confirmed the prevalence of such coercion. UK and other Coalition nationals working for the Coalition Provisional Authority Office of Human Rights and Transitional Justice are collecting evidence for possible criminal prosecutions of those who ordered the amputations.

Ministerial Conferences

Mr Ancram: To ask the Secretary of State for Foreign and Commonwealth Affairs how many conferences he and his Ministers attended *(a)* in the UK and *(b)* abroad in the year to 29 February 2004; and what the cost was of attending these conferences, broken down by (i) travel costs, (ii) food and drink, (iii) accommodation and (iv) miscellaneous costs. [160797]

Mr. Straw *[holding answer 16 March 2004]:* Since 1999 the Government has published an annual list of all visits undertaken by Cabinet Ministers costing £500 or more during each financial year. The list includes details of my attendance at overseas conferences. The details for the financial year 2003/04 will be published as soon as possible after 31 March 2004. All ministerial travel is undertaken in line with the rules set out in the Ministerial code and Travel by Ministers. During the period 1 March 2003–29 February 2004, I attended the following conference and meetings, including those of UN, EU or NAQTO formations:

UK

(£)

Date	*Conference*	*Location*	*Travel Costs*	*Food and Drink*	*Accommodation*	*Miscellaneous*
4 March 2003	Enlargement seminar for parliamentarians	Locarno suite, FCO	0	0	0	0
30 April 2003	Seminar with parliamentarians on the future of the Arab world	Lancaster House	0	0	0	0
17 July 2003	Seminar on the future of Europe	Locarno suite, FCO	0	0	0	0
12 July 2003	Progressive governance conference	Hilton, Metropole hotel, London	0	0	0	0
25 November 2003	Address at the IPPR conference	Thistle hotel, Victoria	0	0	0	0

Overseas

Date	*Conference*	*Location*
20–21 March 2003	Europe Council	Brussels, Belgium
16 April 2003	Informal European Council and Signature of the Accession	Athens, Greece
17 April 2003	European Conference	Athens, Greece
2–3 May 2003	Gymnich (informal meeting of EU Foreign Ministers	Rhodes, Greece
19 May 2003	General Affairs and External Relations Council	Brussels, Belgium
22–23 May 2003	G8 Foreign Ministers meeting	Paris, France
3 June 2003	NATO Foreign Ministers meeting	Madrid, Spain
16 June 2003	General Affairs and External Relations Council	Luxembourg
19–21 June 2003	European Council and EU/Western Balkans Summit	Porto Caras, Greece
21 July 2003	General Affairs and External Relations Council	Brussels, Belgium
5–6 September 2003	Gymnich (Informal meeting of EU Foreign Ministers)	Riva del Garda, Italy
13 September 2003	UN "Permanent 5" meeting	Geneva, Switzerland
22–25 September 2003	UNGA (United Nations General Assembly)	New York, USA
4 October 2003	Intergovernmental conference (IGC)	Rome, Italy
13 October 2003	General Affairs and External Relations Council	Luxembourg
16–17 October 2003	European Council	Brussels, Belgium
27 October 2003	ICG Meeting	Brussels, Belgium
17–18 November 2003	General Affairs and External Relations Council and IGC meeting	Brussels, Belgium
28–29 November 2003	Intergovernmental Conference Ministerial Conclave	Naples, Italy
8 December 2003	General and External Relations Council	Brussels, Belgium
12–13 December 2003	European Council	Brussels, Belgium
21 January 2004	Annual meeting of the World Economic Forum	Davos, Switzerland
26 January 2004	General Affairs and External Relations Council	Brussels, Belgium
23 February 2004	General Affairs and External Relations Council	Brussels, Belgium

I have placed the list of conferences or meetings attended by Foreign and Commonwealth Office Ministers during the period 1 March 2003—February 2004 in the Library of the House.

Ministerial Visits

Richard Burden: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will list the ministerial visits from *(a)* his and *(b)* other Government Departments to (i) Israel and (ii) the Occupied Territories in each of the past 10 years. [163659]

Mr. Rammell: Since 2000, the year in which the second Intifada began, the following ministerial visits have taken place to Israel and the Occupied Territories (OTs):

	Ministerial visit
2000	
29 February to 1 March	Peter Mandelson, Minister for Northern Ireland—Israel
28 to 30 March	Peter Hain, FCO Minister—Israel and OTs
24 to 26 June	David Trimble, Northern Ireland Minister—Israel and OTs
29 to 31 August	Peter Hain, FCO Minister—Israel and OTs
2001	
20 to 22 July	Bed Bradshaw, FCO Minister—Israel and OTs
24 September	Jack Straw, Foreign Secretary—Israel and OTs
1 November	Prime Minister—Israel and OTs
2002	
14 to 17 January	Bed Bradshaw, FCO Minister—Israel and OTs
13–14 February	Jack Straw, Foreign Secretary—Israel and OTs
3 to 4 July	Mike O'Brien, FCO Minister—Israel and OTs
2003	
28 to 31 July	Hilary Benn, DFID Minister—OTs
30 September to 1 October	Baroness Symons, FCO Minister—Israel
2004	
21 to 23 January	Baroness Symons, FCO Minister—OTs
21 to 26 February	Stephen Twigg, DFES Minister—Israel and OTs

Records prior to 2000 are not held centrally and drawing up a comprehensive list dating back to 1994 would incur disproportionate costs.

Mr. Maajid Nawaz

Mr. Amess: To ask the Secretary of State for Foreign and Commonwealth Affairs pursuant to his answer of 23 March 2004, *Official Report*, column 750W, on Mr. Maajid Nawaz, what representations the Government has made to the Egyptian Government since the verdict of 25 March 2004 regarding Maajid Nawaz. [164885]

Mr. Mullin: Our ambassador in Cairo raised the case with the Egyptian Foreign Minister on 25 March. I assure the hon. Member that we will continue to make representations, where appropriate, to the Egyptian Government, about any concerns we may have about Maajid Nawaz's case.

Nigeria

John Barrett: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment he has made of the fairness of the Nigerian local council elections; and if he will make a statement. [165427]

Mr. Mullin: Local government elections took place in Nigeria on 27 March. The elections were another important step towards enhancing democratic accountability in Nigeria. They were, however, long delayed and did not take place in all 36 states. There were consistent reports of polling irregularities, intimidation and violence. We hope that steps will be taken to rectify these incidences of malpractice using the due process of law. We are ready to offer our support to the Nigerian authorities in improving the process.

North Korea

Mr. Gordon Prentice: To ask the Secretary of State for Foreign and Commonwealth Affairs what recent

discussions he has had with the Government of North Korea concerning its alleged export of nuclear technology; and if he will make a statement. [165476]

Mr. MacShane: The Government, at both official and ministerial level, take every opportunity to raise proliferation issues with the Government of the Democratic People's Republic of Korea.

The most recent such discussion was during a call on the Under-Secretary of State for Foreign and Commonwealth Affairs, my hon. Friend the Member for Harlow (Mr. Rammell), by Mr Choe Thae Bok, Chairman of the Supreme People's Assembly, during the latter's visit to the UK in March this year.

Nuclear Weapons

Mr. Lazarowicz: To ask the Secretary of State for Foreign and Commonwealth Affairs what steps have been taken by the United Kingdom to encourage countries not signed up to the Non-Proliferation Treaty to reduce their nuclear arsenal. [165745]

Mr. MacShane: The United Kingdom consistently calls on Israel, India and Pakistan to join the Nuclear Non-proliferation Treaty as non-nuclear weapon states. The complete abandonment and dismantling of any nuclear weapon programmes would be required before their accession to the Treaty.

Mr. Lazarowicz: To ask the Secretary of State for Foreign and Commonwealth Affairs what steps the United Kingdom plans to take over the next 12 months to facilitate global compliance with the Non-Proliferation Treaty. [165746]

Mr. MacShane: The United Kingdom continues to stress the utmost importance of compliance with the Non-Proliferation Treaty. We will continue to work with our European partners in the framework of the EU Common Position on universality as well as with other countries and the International Atomic Energy Agency to encourage global compliance with the Treaty and the adoption of the Additional Protocol.

Passports

Mr. Davidson: To ask the Secretary of State for Foreign and Commonwealth Affairs how many residents in each British Overseas Territory have applied for British passports since the new rules were introduced in May 2002; how many applicants have been successful; and if he will make a statement. [164968]

Mr. Mullin: The number of residents in each British Overseas Territory who have successfully applied for passports as British citizens since May 2002 are as follows:

Anguilla—3,776
British Virgin Islands—3,426
Cayman Islands—2,460
Falkland Islands—79 (since 2004)
Gibraltar—2,595
Montserrat—1,290
St. Helena—586, and its dependency Ascension Island—435
Turks and Caicos Islands—304
Tristan da Cunha—164
Bermuda—3,709
Pitcairn—8.

We do not hold statistics for unsuccessful applications and cannot provide details, though numbers will be low since most applicants produce passports confirming their status as British Overseas Territories citizens.

Saudi Arabia

Mr. Colman: To ask the Secretary of State for Foreign and Commonwealth Affairs what advice he has given the Secretary of State for Home Affairs in relation to applications for asylum from Saudi members of the Committee for the Defence of Legitimate Rights resident in the United Kingdom. [164677]

Mr. Rammell: All asylum claims are judged on their individual merits. The Foreign and Commonwealth Office answers enquiries from the Home Office case by case.

Mr. Colman: To ask the Secretary of State for Foreign and Commonwealth Affairs what the Government's policy is on peaceful democratic reform in Saudi Arabia; and if he will make a statement. [164678]

Mr. Rammell: We encourage peaceful reform and change in Saudi Arabia.

Special Advisers

Mr. Ancram: To ask the Secretary of State for Foreign and Commonwealth Affairs how many special advisers to his Department attended conferences *(a)* in the UK and *(b)* abroad in the year to 29 February; and what the cost was of attending these conferences, broken down by (i) travel costs, (ii) food and drink, (iii) accommodation and (iv) miscellaneous costs. [160798]

Mr. Straw *[holding answer 17 March 2004]:* The two special advisers have attended the following conferences:

Date	*Conference and location*	*Travel costs (£)*	*Food and drink (£)*	*Accommodation (£)*	*Miscellaneous (£)*
Michael Williams					
2003					
22–25 September	United Nations General Assembly (New York)	3,793. 40	170.00	937.40	0
27 November	Ditchley Park Seminar	48.00	n/a	n/a	0
2004					
20–21 January	World Economic Forum (Davos)	RAF flight	3.30	Not yet available	0
Ed Owen					
19–21 June	European Council/EU-Western Balkans Summit (Porto Caras, Greece)	RAF flight	80	Not yet available	0
29 August	IGC Meeting (Rome)	RAF flight	n/a	n/a	0

Sudan

Mr. Drew: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make a statement on the recent attempted coup in the Sudan; and what his assessment is of its implications for the future of the Popular Congress Party and its leader Dr Hassan al-Turabi. [165457]

Mr. Mullin: We understand that the Government of Sudan has arrested a number of military officers as well as officials of the opposition Popular Congress party, including its leader, Dr Hassan al-Turabi. The Government of Sudan has announced that the individuals were planning a coup. It appears that the offices of the Popular Congress Party have been closed.

Terrorism

Llew Smith: To ask the Secretary of State for Foreign and Commonwealth Affairs whether he has made *(a)* an assessment of and *(b)* a response to the recommendations of the Commonwealth Parliamentary Association Conference on Anti-terrorism held in Bangladesh in October 2003. [165159]

Mr. Mullin: The Commonwealth Parliamentary Association (CPA) held its annual conference in Bangladesh in October 2003. The subjects discussed included anti-terrorism legislation and the action plan developed by the Commonwealth Ministerial Committee on Terrorism, in which the UK plays an active role. Heads of Commonwealth Governments, who met in Nigeria in December 2003, endorsed this plan and recognised the important work the Commonwealth Secretariat is carrying out in assisting member countries to comply with UN Security Council Resolution 1373.

The CPA has not sought a response from my right hon. Friend the Foreign Secretary to the report of its conference. We welcome all commitments that contribute to anti-terrorism, including those made by Commonwealth governments and organisations.

Uganda

Mr. Boris Johnson: To ask the Secretary of State for Foreign and Commonwealth Affairs what estimate he has made of the number of *(a)* internally displaced persons in Teso in North East Uganda and *(b)* the number of internally displaced persons camps in Teso. [165515]

Mr. Mullin: The number of internally displaced persons in the Teso region is estimated to be 380.000. We do not have a precise figure for the number of camps as the situation is very fluid.

HOME DEPARTMENT

Israel (Bombings)

Lynne Jones: To ask the Secretary of State for the Home Department (1) whether the Government has received results obtained by Israeli scientists on samples removed from the sites of the bombings on 26 July 1994 at the Israeli Embassy and Balfour House; [160930]

(2) what forensic reports he has received on *(a)* the results of tests by Israeli scientists carried out on samples removed from the sites of the bombing of the Israeli Embassy in London on 26 July 1994 and *(b)* police and forensic reports by scientists on the type and amount of explosive used, and the trigger mechanisms used, in the bombings. [160928]

Mr. Blunkett: Scientists from Israel and the Forensic Explosives Laboratory met to discuss findings following their investigations, but reports were not exchanged. The issue of forensics was subsequently covered extensively and in detail at the trial.

In answer to the most recent previous questions about this issue I refer my hon. Friend to the answers I gave my hon. Friend, Member for Islington North (Jeremy Corbyn) on 3 June 2003, *Official Report*, column 100W, and the answer given to you on 15 May 2003, *Official Report*, column 431W. I arranged for my officials to place a copy of transcripts of the original trial as are available in the Library. I apologise for the delay, but this is on order and will be available in approximately eight weeks.

Certain information was not disclosed at the trial or subsequent appeals and cannot now be divulged owing to the Public Interest Immunity certificates granted by the courts.

"Reducing Crime: Changing Lives"

Miss McIntosh: To ask the Secretary of State for the Home Department which bodies his Department consulted prior to the publication of Reducing Crime—Changing Lives. [163106]

Paul Goggins: Since the review of Correctional Services was announced in the White Paper 'Justice for all' published in July 2002 the Home Secretary has sought and continues to seek views from all stakeholders on a number of issues relating to the effective management of offenders.

Administrative Officers

John McDonnell: To ask the Secretary of State for the Home Department what the average cost in salary of employing an administrative officer in his Department for one year at current pay levels was in the last year for which figures are available; and what the equivalent cost of covering an AO post with temporary agency staff was in the same period. [163576]

Fiona Mactaggart: The average salary costs of employing an Administrative Officer for one year at current pay levels is £18,234, including employers National Insurance contributions and superannuation costs. The typical cost of covering an AO post with temporary agency staff equates to an annual cost of £14,208.

Animal Testing

John Barrett: To ask the Secretary of State for the Home Department how many animal experiments were conducted in connection with *(a)* household cleaning products and *(b)* ingredients used in household cleaning products in each year since 1997; and if he will make a statement. [165436]

Caroline Flint: *(a)* In the statistics which are collected and published by the Home Office it is not possible to identify household cleaning products separately from other products which are used in the household. The numbers of procedures for testing the safety of such products, in each year since 1997, are shown in table 25 of 'Statistics of Scientific Procedures on Living Animals, Great Britain', 2002, a copy of which is in the Library.

For ease of reference the numbers of procedures for safety testing of substances used in the household are shown in the table.

Scientific procedures on living animals for the purpose of safety testing products for use in the household, 1997–2002 Great Britain

	Number of procedures
1997	2,026
1998	1,477
1999	341
2000	1,242
2001	590
2002	1,032

(b) It is not possible to identify procedures performed for the safety testing of ingredients used in household cleaning products since these substances are likely to have other uses and the procedures will be reported under the category which is most relevant to the likely use of, and exposure to, the substance in question.

John Barrett: To ask the Secretary of State for the Home Department if he will make a statement on the use of the LD50 test on animals for the testing of pharmaceuticals in the UK. [165449]

Caroline Flint: Guidance produced by the International Conference on Harmonisation of Technical Requirements for the registration of Pharmaceuticals for Human Use (ICH) does not recommend LD50 tests on animals, and the Home Office does not license LD50 tests for such agents.

Anti-Terrorism, Crime and Security Act

Miss McIntosh: To ask the Secretary of State for the Home Department what resources have been made available to the police to meet their additional responsibilities under the Anti-Terrorism, Crime and Security Act 2001 in *(a)* 2001, *(b)* 2002, *(c)* 2003 and *(d)* 2004. [162623]

Ms Blears: This information is not available in the form requested. However the Government grant to support overall police spending will be almost £10.1 billion in 2004–05 which represents an increase of £2.3 billion or a 30 per cent. increase since 2000–01. This provides for a record number of police officers with officer numbers at 138,155 in December 2003—an increase of 5,887 since December 2002.

Within this overall grant we have provided substantial additional funding to the Police Service in England and Wales to enable them to respond to the increased threat from international terrorism since September 2001:

	£ million
2002–03	63
2003–04	59
2004–05	84

The figure for 2004–05 includes an additional £15 million of funding for Police Special Branches which was announced on 19 March.

ASBOs

Vera Baird: To ask the Secretary of State for the Home Department (1) how many breaches of anti-social behaviour orders were subject to court enforcement in Langbaurgh police basic command unit in 2003; [164447]

(2) how many people were made the subject of anti-social behaviour orders in Langbaurgh police basic command unit in 2003. [164448]

Ms Blears: The Home Office has not received any notification of anti-social behaviour orders (ASBOs) issued, from 1 January 2003 up to 30 September 2003 (latest available), within the unitary authority area of Redcar and Cleveland, which is covered by the Langbaurgh police district.

Breach data for 2003 will be available in the autumn. Data on breaches of ASBOs successfully prosecuted are currently available for the period 1 June 2000 up to 31 December 2002. During this period in the Cleveland Magistrates Courts Committee (MCC) area, in which the local government area of Redcar and Cleveland is located, the total number of breaches successfully prosecuted is seven.

Aspect Court

Mr. Lilley: To ask the Secretary of State for the Home Department when since 1 January 2003 he *(a)* visited Aspect Court and *(b)* met officials from Aspect Court. [161128]

Mr. Blunkett: I have not visited Aspect Court since 1 January 2003. Neither have I, to the best of my knowledge, met with any officials from Aspect Court. Senior Immigration and Nationality Directorate officials do, of course, have regular meetings with staff from Aspect Court.

I did, however, open nearby Foundry House in November 2002 and met with a number of officials on that occasion.

Asylum Appeals

Mr. Keetch: To ask the Secretary of State for the Home Department how much time is given to applicants for political asylum to prepare their appeal after the receipt of a letter of refusal from the Immigration and Nationality Directorate; and if he will make a statement. [164213]

Mr. Browne: If an applicant for asylum is refused the time limits for lodging appeals are contained in the Immigration and Asylum Appeals (Procedure) Rules 2003 and the Immigration and Asylum Appeals (Fast Track Procedure) Rules 2003. These time limits do not start to run until the decision from the Immigration and Nationality Directorate (IND) has been served in accordance with the Immigration (Notices) Regulations 2003. Under these Regulations, if notice is given to the applicant's representatives, it is taken to have been given to the applicant. A summary of these limits is set out as follows.

If the asylum claim is certified by the Secretary of State as clearly unfounded within the meaning of section 94 of the Nationality, Immigration and Asylum Act 2002, the applicant may not bring an appeal while still in the United Kingdom. He or she may appeal from outside the United Kingdom, and has 28 days from his or her departure from the UK to lodge their appeal.

If the claim is not certified as clearly unfounded, the time limits to give notice of appeal are as follows:

(a) if the person is in the United Kingdom and is in detention under the Immigration Acts, he or she has five days to give notice of appeal;

(b) if the person is in the United Kingdom, but not in detention, he or she has 10 days to give notice of appeal;

(c) if the person is subject to the Fast Track process, he or she has two days to give notice of the appeal.

The notice of appeal is lodged with the Immigration and Nationality Directorate.

The time limits relate to lodging the notice of appeal. The time the person has to prepare for the actual appeal hearing will depend on when the Immigration Appellate Authority receives the appeal and lists it for hearing.

The relevant procedural rules also make provision for cases where the notice of appeal is given outside the applicable time limit.

Asylum Applications (Burmese)

Vera Baird: To ask the Secretary of State for the Home Department how many applications for asylum from Burmese people were *(a)* received and *(b)* refused in 2002–03. [164451]

Mr. Browne: The number of Burmese nationals (excluding dependants) claiming asylum and initial decisions on asylum applications for 2002–03 are shown in the table. Initial decisions do not necessarily relate to applications made in the same period. 75 per cent. of initial decisions made in 2002–03 on applications from Burmese nationals were refusals.

Asylum applications[1] received in the United Kingdom, excluding dependants, and initial decisions[2] on applications, April 2002 to March 2003, nationals of Burma

Burma (Myanmar)—April 2002 to March 2003	*Number*
Applications	
Total	85
Port	15
In country	70
Decisions	
Total decisions	85
Grants of asylum	20
Grants of ELR	*
Total refusals[3]	65

[1] Provisional figures rounded to nearest five, with '*' = one or two.
[2] Information is of initial determination decisions, excluding the outcome of appeals or other subsequent decisions.
[3] May include some refusals under non compliance grounds.

Vera Baird: To ask the Secretary of State for the Home Department how many Burmese failed asylum seekers were deported to Burma in the year 2002–03. [164452]

Mr. Browne: Estimates of the number of Burmese nationals who had sought asylum at some stage and who were removed from the UK in the financial year 2002–03 are shown in the table. These figures include persons departing 'voluntarily' after the initiation of enforcement action against them, removals to a safe third country and persons leaving under Assisted Voluntary Returns Programmes run by the International Organisation for Migration.

Removals and voluntary[1] departures of principal asylum applicants (excluding dependants): April 2002 to March 2003[2,3,4]

	April 2002 to March 2003
Burma (Myanmar)	5

[1] Including persons departing "voluntarily" after enforcement action had been initiated against them.
[2] May include removals to a safe third country.
[3] Data are estimated due to data quality issues on the IND databases.
[4] Provisional figures.
Note:
Data are rounded to nearest five.

Information on the destination of these removals and whether they were forcibly removed or departed voluntarily is not available, except by examination of individual case files at disproportionate cost.

All asylum (and human rights) claims made by Burmese nationals are considered on their individual merits in accordance with our obligations under the 1951 UN Refugee Convention and the European Convention on Human Rights (ECHR). Should a claim be refused and any appeal before the independent Immigration Appellate Authority be unsuccessful, it means that for that individual it is safe to return.

In making decisions about removing failed asylum seekers, the Home Office takes full account of up to date information from a wide range of sources about the situation in the country of origin. These sources include intergovernmental organisations (such as the UN), governmental sources (including the Foreign and Commonwealth Office) and human rights organisations (for example Amnesty International and Human Rights Watch).

If an individual asylum seeker establishes a need for international protection they would not be returned.

Asylum Removals

Mr. Kidney: To ask the Secretary of State for the Home Department for what reasons applicants for asylum who were unsuccessful in 2003 were not removed. [164165]

Mr. Browne: There are a number of reasons to explain why some people whose asylum applications were unsuccessful in 2003 have not yet been removed. The removal of a person is complex and several factors have to be taken into account before we are able to effect removal. These factors include assessing the various factors relating to an individual's removal and overcoming various barriers to removal, such as documentation issues and a lack of co-operation from receiving countries.

Every effort is made to remove people as quickly as possible after refusal or the exhaustion of appeal rights. And we are taking action to overcome these obstacles. We have negotiated four new returns agreements in the last seven months, and are progressively extending biometrics in visas for countries where we know there is a problem. In the Asylum and Immigration Bill We are proposing penalties of up to two years for those who destroy their documents or won't cooperate with redocumentation, simplifying the appeals process to stop people lodging multiple appeals to frustrate removal, and encouraging voluntary removal by ending benefits for those whose claims have failed.

We are also expanding detention space available and increasing investment in the enforcement capability of the Immigration Service with staffing increased from 1,677 in April 2002 to 2,463 in November 2003. We remain committed to making every effort remove and detect those people who have no right to be here.

Asylum Seekers (Children)

Mrs. Curtis-Thomas: To ask the Secretary of State for the Home Department on how many occasions in the past 12 months unaccompanied child asylum seekers have been detained; and what the average length of time of detention is. [164332]

Mr. Browne: Information on the number of unaccompanied asylum seeking children detained over the last 12 months is not available.

Unaccompanied minors are not normally detained and would only be so in exceptional circumstances, and then only overnight, where this was considered necessary for the safety and security of the minor while alternative care arrangements were made.

Information on the number of people detained solely under Immigration Act powers as at 27 March 2004 will be published on the Home Office website on 25 May. www.homeoffice.gov.uk/rds/immigration1.html.

Bail Hostels (Peterborough)

Mrs. Helen Clark: To ask the Secretary of State for the Home Department whether the nine sex offenders until recently housed at the Peterborough bail hostel next to St. George's School have been removed; and if he will give an undertaking that they will not be returned there. [165189]

Paul Goggins: Admissions to, and discharges from, all approved premises including at Peterborough occur on a regular basis and for a variety of reasons. I am unable to give personal details about any individual, current or past residents. Approved premises play a key role in the Government's strategy for supporting offenders after release from prison and ensuring effective public protection.

Boarding Schools

Mr. Maude: To ask the Secretary of State for the Home Department (1) how many boarding schools with charitable status the Charity Commissioners have inspected in each of the last six financial years; and if he will estimate the cost; [164260]

(2) in how many boarding schools the Charity Commissioners have identified significant defects in each of the last six financial years. [164261]

Fiona Mactaggart: These are matters for the Charity Commission as the Government Department responsible for the regulation of charities in England and Wales. The Chief Charity Commissioner will write to the right hon. Member and a copy of his reply will be placed in the Library.

BRACE

Mr. Lilley: To ask the Secretary of State for the Home Department (1) when the policy known as BRACE was introduced; [161130]

(2) when Ministers authorised the treatment of work permit applications under BRACE; [161131]

(3) to which categories of entry applicants BRACE originally applied; and when it was extended to applicants under European Community Association agreements. [161132]

Mr. Browne *[holding answer 12 March 2004]:* BRACE was applied to backlogs of general casework applications submitted by people who were already in the United Kingdom and who had already been pre-cleared at a visa issuing office overseas or examined by an immigration officer at port. These would have included backlogs of in-country applications under the European Community Association Agreements. BRACE did not extend to work permit applications. As regards the date of introduction and the authorisation of the guidance, I refer the right hon. Member to the note entitled "Summary of longstanding practice in Managing Longstanding Immigration Backlogs" placed in the Library on 29 March.

Carter Review

Mr. Drew: To ask the Secretary of State for the Home Department on what date Patrick Carter was commissioned to undertake the review of the correctional service. [164496]

Paul Goggins *[holding answer 30 March 2004]* Patrick Carter was commissioned to undertake the review of Correctional Services on 17 March 2003.

Communications Directorate

Mr. Laws: To ask the Secretary of State for the Home Department how many staff the Communications Directorate of the Home Office had in each year from 1997–98 to 2005–06 (planned); what the running costs were in each year; and if he will make a statement. [156706]

Mr. Blunkett: The purpose of the Communication Directorate (CD) is to take a strategic overview of Home Office communication activity. This entails managing a wide range of communication roles from the strategic level to front line delivery; also included is management of the Direct Communications unit, which is responsible for answering all public and ministerial inquiries by telephone, mail and email.

CD unit organisation and staffing at 1 March 2004

	Number
Directors office	2
Direct communications	88
Marketing and strategic communications	55
Information services	38
Internal communications	23
Press office	51
Total	257

The requested breakdown of expenditure is as follows:

	Staff numbers	*Communication directorate running costs (£)*
1997–98	88	4,102,943
1998–99	92	3,960,185
1999–2000	90	5,580,806
2000–01	117	7,699,620
2001–02	153	9,242,712
2002–03	226.5	9,086,614
2003–04	260	11,682,504
2004–05	[1]260	[1]11,098,376
2005–06	[1]260	[1]11,098,376

[1] Provisional figures.

Direct Communications Unit has absorbed functions from other parts of the Home Office, including telephones, front of house, ministerial correspondence and public inquiries.

A review of the press office in 2000 agreed an expansion to meet the growing demands of a 24 hour 365 day media. At the same time there was development of the Home Office Internet site and the internal Intranet to communicate with 18,000 staff who have access. The function of internal communications did not exist pre 1999.

Coroners

Mr. Fabian Hamilton: To ask the Secretary of State for the Home Department whether coroners have the power to delay the release of bodies because no funeral arrangements have been made. [159970]

Paul Goggins: Coroners are not empowered to delay releasing the body of a deceased person solely because no funeral arrangements have been made. However, if the persons to whom the body should be released cannot agree on the mode of disposal or who should arrange the funeral the coroner will be entitled to retain the body pending resolution of the dispute.

Correspondence

Mr. Sanders: To ask the Secretary of State for the Home Department when he will reply to the letter sent to him by the hon. Member for Torbay on 29 August 2003 with regard to Mr. Wyman of Preston Down Road, Paignton. [164039]

Mr. Browne *[holding answer 26 March 2004]:* I wrote to the hon. Member on 7 April 2004.

CPS

Mr. Grieve: To ask the Secretary of State for the Home Department what discussions he has had with the Attorney General about the renaming of the Crown Prosecution Service; and if he will make a statement. [159299]

Mr. Blunkett: The Home Secretary and the Attorney General have regular meetings to discuss joint policy matters.

The idea of renaming the Crown Prosecution Service was initially put forward by the Attorney General last year.

Criminal Record Checks

Mr. Oaten: To ask the Secretary of State for the Home Department how many applications for criminal records checks have been outstanding for more than three weeks, broken down by sector. [163336]

Ms Blears: As at 29 February 2004, there are 30,933 applications that are over three weeks old and are currently being processed by the Criminal Records Bureau (CRB). This represents approximately four days' work for the Bureau. Approximately 60,000 other applications are over three weeks old and with the customer. This figure is not included in the total because the Bureau is unable to process these applications on the basis that it is awaiting further information from the applicant. In many cases, the Bureau will not receive information from the applicant and the application is suspended, pending withdrawal.

Information is not available to provide the breakdown by sector sought by the hon Member for Winchester. Disclosure applications are processed in the order in which they are received and no sector is given priority over any other. The CRB computer system was not designed to capture information in the format requested, because there was no anticipated need to do so. Although the business sector of the Registered Body that countersigns the application is recorded on receipt, this is to enable the Bureau to undertake trend analysis. Any conclusions based on this would not be expected to provide the hon. Member for Winchester with the information he seeks, because it would not evaluate the performance of one sector against another during processing.

Overall, the Criminal Records Bureau has been achieving and in some cases exceeding its public service standards since last June. The Agency is issuing 83.76 per cent. of allDisclosures within three weeks and 91–92 per cent. within public service standards.

Mr. Oaten: To ask the Secretary of State for the Home Department on how many occasions applicant details supplied by the Criminal Records Bureau to the police have led to conviction details being matched mistakenly with an applicant. [163337]

Ms Blears: The Criminal Records Bureau (CRB) does not provide applicant details to the police during the matching process and the answer to the hon. Member for Winchester's question is none. The Bureau uses an extract of the Police National Computer (PNC) to compare the personal details that have been provided by the applicant against existing PNC records. From 1 January 2003 to 29 February 2004, the CRB has matched 193 Disclosure applicants to conviction information held on PNC, which have subsequently

been found to be incorrect. The total number of applications processed by CRB during the same period is 2.66 million.

In some circumstances, applicants' details are similar and sometimes identical to people who have a criminal record. There are cases where an individual has given an applicant's personal details to police following criminal activity in an effort to avoid having a police record. The Disclosure itself informs applicants of a process whereby they can challenge or "dispute" the information presented on their Disclosure. The CRB will then liaise with the police to ensure the correct details are recorded. In some circumstances, where it is impossible to dissociate a person from a conviction record, the applicant is asked to undergo fingerprinting for elimination purposes.

Mr. Hancock: To ask the Secretary of State for the Home Department (1) how many applications for *(a)* standard disclosures and *(b)* enhanced disclosures are currently unissued six weeks after the original application; and what the reasons are for delays; [163904]

(2) what the latest performance figures are for the Criminal Records Bureau with regard to applications for *(a)* standard disclosures and *(b)* enhanced disclosures. [163905]

Ms Blears: As at 20 March 2004, the Criminal Records Bureau (CRB) has a total of 1,196 applications awaiting completion after six weeks. I am unable to provide a breakdown by Disclosure type as requested because the information is not available from the CRB systems.

The performance figures for February 2004 are as follows:

205,000 Disclosures have been issued during the month;

90 per cent. of Standard Disclosures were issued within two weeks;

90 per cent. of enhanced Disclosures were issued within four weeks;

Over 3.4 million Disclosures have now been issued since the start of the service.

Each application that is received by the CRB is progressed individually through the system and delays can occur at any point in the process. The CRB does not record centrally the reasons why individual applications have been delayed and to provide the hon. Member with the information as requested, would require a manual inspection of each of the 1,196 applications. However, the most common causes for an application being delayed are:

Applications delayed due to a high volume of cases awaiting checks at Local Police Forces.

Applications involving complex casework and checks from numerous Police Forces;

Application forms being submitted to the CRB containing incomplete or inconsistent information;

Applications stalling within the CRB automated systems due to technical errors.

Deed Poll Name Changes

Mr. Beggs: To ask the Secretary of State for the Home Department what procedures are in place to ensure that, when an individual changes his or her name by deed poll, the individual's original name is retained in criminal records data; and if he will make a statement. [146231]

Ms Blears: Details of convictions for recordable offences are recorded on the Police National Computer (PNC).

Criminal records on PNC are retained under the name by which they were first entered on the system, together with information about other names which the subject of a record is known to use or to have used.

Drug Testing

Mrs. Gillan: To ask the Secretary of State for the Home Department pursuant to his statement of 14 January 2004, *Official Report*, column 277WH, on drug testing, what plans he has to market the national workplace initiative; and what budget has been set aside for the campaign. [161180]

Caroline Flint: Marketing the National Workplace Initiative has been a priority for the last six months within phase 2 (September 2003 to March 2004) of the workplace initiative. Phase 2 has focused on providing key business tools to help employers develop robust drug and alcohol workplace policies based on best practice, and to raise awareness on substance misuse. The key tools have been employer guidelines, employee leaflets and providing marketing and substance misuse training to DAT nominated business trainers to enhance the way they engage with businesses. Other marketing tools include rolling out the West Sussex DAT 'E-online training tool' as a National Initiative and creating a business focused website at www.businessengagement.com. Overall these marketing initiatives will lead to greater awareness of the National Workplace Initiative and will encourage more employers to write a workplace policy. The budget set aside for marketing was £100,000 and this has covered all the printing and production costs of 15,000 employer guidelines, plus the costs of building a website and rolling out the West Sussex DAT training tool.

Electoral Fraud

Mr. Gordon Prentice: To ask the Secretary of State for the Home Department how many *(a)* prosecutions and *(b)* convictions there were for electoral fraud in ea[illegible] year since 1994. [165100]

Paul Goggins: The information collected centrally by the Home Office is limited to various fraud-related offences under the Representation of the People Act 1983 and is shown in the table. Similar offences, under other fraud and forgery provisions, cannot be separately identified.

Persons[1] proceeded against at magistrates courts and found guilty at all courts of various fraud related offences under the Representation of the People Act 1983, England and Wales 1994 to 2002

	Tampering with nomination and ballot papers etc., making false declarations as to election expenses, bribery, treating, undue influence and personation offences	
	Persons proceeded against	*Persons found guilty*
1994	1	2
1995	12	14
1996	—	—
1997	9	5

Persons[1] proceeded against at magistrates courts and found guilty at all courts of various fraud related offences under the Representation of the People Act 1983, England and Wales 1994 to 2002

	Tampering with nomination and ballot papers etc., making false declarations as to election expenses, bribery, treating, undue influence and personation offences	
	Persons proceeded against	*Persons found guilty*
1998	7	6
1999	3	5
2000[2]	2	1
2001	16	10
2002	1	1

[1] These data are on the principal offence basis.
[2] Excluding any cases in Staffordshire.

Statistics for 2003 will be published in the autumn.

European Community Action Programme

Mr. Cash: To ask the Secretary of State for the Home Department how much each body funded under the European Community Action Programme received in grants in each of the last five years; how much was received by branches of each body in the UK in each year; and on what criteria decisions on making grants are based. [161396]

Caroline Flint *[holding answer 17 March 2004]:* This is not a question any Government Department can answer fully at this time.

Unfortunately, the Commission will not undertake an evaluation of the programme up until the end of 2003, as this was not built into the funding until now. It was impractical to carry out an evaluation because this was Commission funding, which member states have no involvement in or oversight of and the information needed to carry out such an evaluation is unavailable.

A list of bodies that received past funding from the programme and the amounts these bodies received are in the letter of 3 March from myself to the Chairman of European Scrutiny Committee and attached spreadsheet which has been placed in the Library.

There will be a full evaluation of the grants starting in 2004.

The grant process and criteria for decision making are described in the proposal for the establishment of the European Community Action Programme which has been placed in the Library.

Focus Groups/Polls

Mr. Laws: To ask the Secretary of State for the Home Department what his estimate is of total expenditure by his Department on *(a)* focus groups and *(b)* opinion polls in each year from 1995–96 to 2003–04; and if he will make a statement. [162751]

Fiona Mactaggart: Detailed information in the form requested is not held centrally in the finance system of the Core Home Office. It could be provided only at a disproportion cost.

The Home Office is committed to obtaining best value for money and wants to hear what people have to say about new policies and ideas. Contracts for research through focus groups and opinions polls are let in accordance with agreed procurement procedures.

The Home Office makes extensive use of research to inform the development, delivery and evaluation of policy.

Girl Prisoners

Claire Ward: To ask the Secretary of State for the Home Department how many girls aged *(a)* 15 years, *(b)* 16 years and *(c)* 17 years are being held in prison. [163038]

Paul Goggins: On 31 January 2004 there were no girls aged 15 or 16 years and 55 girls aged 17 years being held in Prison Service establishments in England and Wales.

Guilty Pleas

Vera Baird: To ask the Secretary of State for the Home Department if he will bring section 144 of the Criminal Justice Act 2003 into force as a matter of urgency. [162984]

Paul Goggins *[holding answer 23 March 2004]:* Section 144, which provides for timely guilty pleas to be recognised by a reduction in sentence, re-enacts section 152 of the Powers of Criminal Courts (Sentencing) Act 2000, which was itself a re-enactment of section 48 of the Criminal Justice and Public Order Act 1994. No date has yet been set for section 144 to be brought into force.

On a related subject, Sir Robin Auld recommended that there should be a clearer tariff of discounts for early guilty please, backed up by a system of advance indication of likely sentence. The tariff question is being taken forward by the Sentencing Advisory Panel, which issued a consultation paper last year, and sentence indication will be dealt with non-legislatively.

Home Detention Curfews

Mrs. Gillan: To ask the Secretary of State for the Home Department whether risk of re-offending is a criterion for not granting release under the Home Detention Curfew Scheme. [165188]

Paul Goggins: Yes. Prisoners must not be released on Home Detention Curfew (HDC) if there is a pattern of offending which indicates a likelihood of re-offending during the HDC period.

Howard League

Mrs. Curtis-Thomas: To ask the Secretary of State for the Home Department what the benefits to the Prison Service are of its joint project with the Howard League. [164351]

Paul Goggins: The Prison Service supports the Howard League's proposal to open a printing workshop at HMP the Mount. If the plan is successful the workshop will be self-financing and employ up to 11 prisoners on the minimum wage.

The workshop will benefit the Prison Service in helping develop the resettlement agenda; provide constructive activity for prisoners; and, provide an excellent opportunity to combine voluntary sector ideals with production workshop activity.

Illegal Immigration

Mr. Greg Knight: To ask the Secretary of State for the Home Department how many persons are on duty on a full-time basis to stop and search vehicles for suspected illegal immigrants at the port of Immingham. [162824]

Mr. Browne *[holding answer 23 March 2004]:* There are no dedicated Immigration Service staff on full-time duty at the port of Immingham. Staff from Humberside International Airport and Hull port attend incidents at Immingham port as required.

Mr. Greg Knight: To ask the Secretary of State for the Home Department what measures are in place to prevent the entry of illegal immigrants through the port of Immingham. [162825]

Mr. Browne *[holding answer 23 March 2004]:* The United Kingdom Immigration Service is working in close co-operation with both Her Majesty's Customs and Excise and Humberside Police to combat illegal immigration through Immingham docks. The Immigration Service's Mobile Freight Search Team (MFST) is regularly deployed at Immingham when intelligence analysis suggests that this is necessary.

Such operations are undertaken by a team of four or five immigration officers from the MFST who are specialists in freight search techniques and who are assisted by one or more Humberside officers who have local intelligence and operational knowledge. MFST and Humberside immigration staff continue to work closely with Immingham carriers to improve checking systems in Belgium and Holland and so reduce the risk of the port being targeted by potential illegal immigrants. The programme to install freight screening and detection equipment overseas provides for deployment at feeder ports serving UK Channel and North Sea ports including Immingham.

Mr. Simmonds: To ask the Secretary of State for the Home Department how many people have been prosecuted for employing illegal immigrants in each year since 1997. [163140]

Mr. Browne: Information on the number employers in the UK who were prosecuted for employing illegal immigrants is not available and therefore information on the numbers of these employers successfully prosecuted is not available.

However, information on persons proceeded against for employing a person subject to immigration control is shown in the table.

Number of persons proceeded against and those found guilty of offences under section 8 of the Asylum and Immigration Act 1996, England and Wales 1997 to 2002

Offence description/ Statute	*[1]Person proceeded against*	*Number of offences involved*	*[2]Persons found guilty*
Employing a person subject to immigration control/Asylum and Immigration Act 1996 section 8			
1997[3]	—	—	—
1998[3]	1	1	1
1999[3]	4	23	1
2000[3]	10	32	4
2001[3]	5	65	1
2002	2	22	1

[1] Principal immigration offence basis.
[2] Indicates that a substantive penalty has been imposed on a non-immigration offence dealt with at the same time.
[3] Data have been revised since they were published in the command paper "Control of Immigration: Statistics United Kingdom 2001".

Information on those people proceeded against under the Immigration Acts between 1997 and 2002 was published on 27 November 2003 in the command paper "Control of Immigration: Statistics United Kingdom 2002" (Cm 6053), a copy of which can be found in the Library of the House. Comparable statistics for 2003 will be published later this year in the command paper "Control of Immigration: Statistics United Kingdom 2003".

The government is taking action to tackle the employment of illegal workers. It has increased the number of enforcement operations, enhanced powers for immigration officers and expanded opportunities for people to work legally in the UK, paying taxes and contributing.

But business must also play its part in tackling this problem—by making rigorous checks on the documentation of potential employees, and these changes to the Section 8 regulations will make it easier for business to comply.

Most employers want to comply with the law, but in order to deter to those who may not, we are currently considering raising the penalty that complicit employers may face.

Mrs. Curtis-Thomas: To ask the Secretary of State for the Home Department when the results from the research into data collection methods for assessing the size of the UK's illegal population will be available. [164333]

Mr. Browne: The research commissioned is a review of the methods used in other countries to estimate their illegally resident populations. It is not restricted to data collection methods but also encompasses a review of data sources, an explanation and appraisal of the methods of calculation of estimates, and an appraisal of the applicability of these methods for use in the UK.

This work is still on-going. Data sources and availability are currently being investigated in the light of one of the possible methods the review is uncovering.

It is therefore not possible at this stage to estimate when this work will be completed though we will aim to publish the results as soon as practicable.

Mrs. Curtis-Thomas: To ask the Secretary of State for the Home Department what assessment has been made of the number of failed asylum seekers remaining in the UK. [164334]

Mr. Browne: Information on the total number of failed asylum seekers currently in the UK is not available. Some applicants may leave the United Kingdom without informing the Immigration Service.

The Government have commissioned research into the methods used in other countries to estimate the overall size of the illegal population including failed asylum seeker, in order to define methods appropriate for the UK.

The work required is challenging because, by definition, illegal migrants fall outside of official statistics and are therefore difficult to measure. People illegally present in the UK are also motivated to ensure they remain hidden, which is a challenge to conducting research.

IND Correspondence

Mr. Keetch: To ask the Secretary of State for the Home Department when the Immigration and Nationality Directorate will re-send correspondence relating to case T27 1597 that was sent, and returned, on 5 March. [164212]

Mr. Browne: In relation to case T27 1597, a decision notice was sent to the applicant's last notified representatives by recorded delivery on 4 March 2004. On 12 March, the Immigration and Nationality Directorate was advised that the representatives no longer represented the applicant and they would return the notice and related documents. By 26 March, the original notice not having been returned, a further decision notice was sent recorded delivery to the applicant at her home address.

Juveniles

Dr. Vis: To ask the Secretary of State for the Home Department how many children with an open F2052SH have been placed in *(a)* segregation and *(b)* special cells in each juvenile prison in the last five years. [165401]

Paul Goggins: This information is not held centrally and could not be obtained without disproportionate cost.

Dr. Vis: To ask the Secretary of State for the Home Department how many adjudications involving juvenile girls in Bullwood Hall prison in each month since January 2003 have found them guilty of a misdemeanour. [165402]

Paul Goggins: The information is set out in the table.

Month	*Number*
2003	
January	9
February	44
March	24
April	17
May	25
June	24
July	17
August	21
September	34

March	5

Dr. Vis: To ask the Secretary of State for the Home Department how many juvenile girls and women prisoners have had their babies taken from them at birth in each of the last five years. [165405]

Paul Goggins: The decision on whether it is necessary to take a baby away from its mother at birth is made by Social Services in the light of their assessment of what is in the best interest of the child.

The Prison Service does not keep statistics on these decisions.

Kurdish Asylum Seekers

Sir Archy Kirkwood: To ask the Secretary of State for the Home Department what assessment he has made of the treatment of Kurdish asylum seekers returned to Iran. [163131]

Mr. Browne: If an individual is unsuccessful in his application and in any appeal they make to the independent Immigration Appellate Authority we consider that it is safe for that individual to be removed to Iran.

In considering claims the Home Office takes full account of up to date information from a wide range of sources about the situation in the country of origin. These sources include intergovernmental organisations (such as the UN), governmental sources (including the Foreign and Commonwealth Office) and human rights organisations (for example Amnesty International and Human Rights Watch).

Life Tariffs

Mr. Maude: To ask the Secretary of State for the Home Department how many prisoners in England and Wales were *(a)* serving a natural life tariff and *(b)* designated not for release in each of the last 10 years. [163280]

Paul Goggins: The number of prisoners in England and Wales who were serving a whole life tariff in each of the last 10 years is given as follows:

Number of persons serving a whole life:

1994—31
1995—32
1996—32
1997—31
1998—23
1999—23
2000—23
2001—22
2002—22
2003—21
2004—20

The number of determinate cases considered by the Parole Board and the number recommended for parole is given in table 10.1 of the publication 'Prison Statistics England and Wales', a copy of which is available in the House of Commons Library.

Maxine Carr

Mr. Paice: To ask the Secretary of State for the Home Department what contacts have been allowed between Maxine Carr and representatives of the media while she is in prison. [155865]

Paul Goggins *[holding answer 23 February 2004]:* It is not Prison Service policy to comment publicly on individual prisoners. I will write to the hon. Member.

Ministerial Speeches

Keith Vaz: To ask the Secretary of State for the Home Department how many speeches he made between 9 June 2003 and 1 February 2004; and where a copy of each speech can be obtained. [156146]

Mr. Blunkett: During the period 9 June 2003 and 1 February 2004, I made 16 keynote speeches outside Parliament and various other informal speeches. Copies of some speeches are published on the Home Office web site http://www.homeoffice.gov.uk/inside/speeches/index/html and all parliamentary speeches are available in Hansard.

In addition, speeches are occasionally published in pamphlet form such as 'Civil Renewal: A New Agenda' based on The CSV Edith Kahn Memorial Lecture, I delivered on 11 June 2003 and 'Active Citizens, Strong Communities: Progressing Civil Renewal' based on the Scarman Lecture I delivered at the Citizens' Convention on 11 December 2003.

National Identity Register

Mr. Oaten: To ask the Secretary of State for the Home Department how much has been spent so far on the development of the National Identity Register. [163329]

Mr. Browne: No funds have been spent so far on the development of the National Identity Register.

National Offender Management Service

Mr. Drew: To ask the Secretary of State for the Home Department how many meetings he and his officials have held with private sector prison operating companies regarding the new National Offender Management Service *(a)* prior to the publication of and *(b)* since the publication of "Reducing Crime—Changing Lives". [163939]

Paul Goggins: Home Office officials meet regularly with the operators of the contracted prisons at operational and senior management level, both individually and as a group. Progress with the Review of Correctional Services, and subsequently the Government's proposals set out in "Reducing Crime—Changing Lives", have been discussed at a number of these meetings. I met informally with senior directors from the four companies concerned on 23 March and was interested to hear their views on how they might help to deliver better outcomes for offenders and reduce re-offending.

Mr. Drew: To ask the Secretary of State for the Home Department whether the Chief Executive of the National Offender Management Service and his implementation team will be in a position to submit a full report regarding its funding requirements up to 2007–08 for the 2004 spending review. [163941]

Paul Goggins: The funding requirements for the National Offender Management Service (NOMS) up to 2007–08 will be set out as part of the Home Office Spending Review 2004 proposal. The NOMS implementation team has been closely involved in developing a full supporting analysis of those requirements.

Mr. Drew: To ask the Secretary of State for the Home Department whether the Prison Service Pay Review Body will continue to set rates of pay for the staff currently within its remit under the National Offender Management Service. [163986]

Paul Goggins: There are no immediate plans to alter the position of the Prison Service Pay Review Body, but terms and conditions for National Offender Management Service staff will be considered as part of the transition process.

Mr. Gerrard: To ask the Secretary of State for the Home Department if he will make a statement on the effect of the creation of the National Offender Management Service upon the size of the prison population over the next five years. [160898]

Paul Goggins: By 2009, as a result of the National Offender Management Reforms and other measures, the intention is that prison population should match

prison capacity and remain at a figure of less than 80,000. The population may increase in the intervening period.

Mr. Drew: To ask the Secretary of State for the Home Department what responses he has received to the consultation on the setting up of the National Offender Management Service. [162817]

Paul Goggins: As of 26 March 2004 the Home Office has received 262 responses to the proposals in 'Reducing Crime—Changing Lives'. The National Offender Management Service Implementation Team is currently analysing the responses, which will inform the process of implementation.

Mr. David Drew: To ask the Secretary of State for the Home Department what discussions he has had with *(a)* the Association of Chief Police Officers, *(b)* the NHS, *(c)* local authorities and *(d)* the Local Government Association on the setting up of the National Offender Management Service. [162818]

Paul Goggins: We are working closely with a range of organisations on the implementation of the National Offender Management Service. The implementation team has already held initial discussions with the Department of Health and the Local Government Association and will continue to discuss NOMS with all key stakeholders.

Dr. Vis: To ask the Secretary of State for the Home Department whether Patrick Carter received advice from accountancy firms in preparing his report on managing offenders. [162842]

Paul Goggins: I understand that the team based in the Cabinet Office, who conducted the independent review of correctional services led by Patrick Carter, sought expertise from a range of sources, including commissioning one piece of work from external consultants.

Miss McIntosh: To ask the Secretary of State for the Home Department if he will place in the Library the business case for the introduction of the National Offender Management Service. [163023]

Paul Goggins: We have already published Patrick Carter's independent report "Managing Offenders—Reducing Crime", which sets out the case for a National Offender Management Service, and the Government's response "Reducing crime—Changing Lives" which accepts that case. A separate business case for the National Offender Management Service is currently being prepared.

Miss McIntosh: To ask the Secretary of State for the Home Department what factors were taken into account when formulating the timetable for the introduction of the National Offender Management Service. [163024]

Paul Goggins: The formation of the National Offender Management Service (NOMS) is a key part of the Government's public sector reform programme. It will make a substantial contribution to reducing reoffending and overall levels of crime. We aim to achieve these benefits as quickly as possible and will formally launch NOMS on 1 June. Full implementation will continue over several years under the direction of the NOMS Board.

Miss McIntosh: To ask the Secretary of State for the Home Department whether there will be a Gateway Review during the development of the National Offender Management Service. [163025]

Paul Goggins: A Gateway Review process will be carried out during the implementation of the National Offender Management Service.

Miss McIntosh: To ask the Secretary of State for the Home Department for what reasons there was no three month consultation period prior to the announcement of plans to introduce the National Offender Management Service. [163026]

Paul Goggins: The Government published its proposals for the reform of correctional services in its paper Reducing Crime—Changes Lives. In that paper the Home Secretary set out the initial views of the Government to Patrick Carter's Report and sought the views of stakeholders on a number of issues.

The reform of correctional services and the creation of the National Offender Management Service is a significant undertaking. There is no suggestion that the entire reform will be carried out after a single consultation exercise. The questions for stakeholders posed in Reducing Crimes -Changing Lives represents the start of a consultation process. I have already undertaken to ensure that consultation is ongoing with staff and stakeholders over the period of up to five years that we expect the full roll out of the new service to take.

Miss McIntosh: To ask the Secretary of State for the Home Department what assessment he has made of the impact the National Offender Management Service is likely to have on cooperation between the prison and probation services. [163028]

Paul Goggins: The government recognises the progress made in the development of joint working between the prison and probation services. But, as Patrick Carter's review of Correctional Services makes clear there are still gaps in the service through which offenders can fall back into crime. The creation of the National Offender Management Service, joining the two services together, will provide a seamless, more effective service with a clear remit to reduce re-offending.

Miss McIntosh: To ask the Secretary of State for the Home Department what assessment he has made of the impact of the creation of the National Offender Management Service on the employment status of staff; and what steps his Department has taken to inform staff of proposed changes. [163109]

Paul Goggins: The National Offender Management Service (NOMS) implementation team will work closely with staff and unions to get the structure of NOMS right. Assessments are being made on changes to staff numbers, terms of service and work locations. Staff are being kept updated of developments with regular newsletters and there will be full consultation on any proposed changes to the employment status of staff.

Naturalisation Applications

Mr. Chope: To ask the Secretary of State for the Home Department what the current estimated time for processing a naturalisation application is. [164271]

Mr. Browne *[holding answer 29 March 2004]:* At the end of December 2003 the average waiting time for naturalisation applications was 5.45 months.

Mr. Chope: To ask the Secretary of State for the Home Department on what date those who participated in the first British citizenship naturalisation ceremony made their applications for naturalisation; and how long processing took. [164272]

Mr. Browne *[holding answer 29 March 2004]:* All those who participated in the first ceremony applied from various dates after 1 January 2004 and their applications were decided in time for the ceremony on 26 February 2004.

Offender Statistics/Supervision

Bob Spink: To ask the Secretary of State for the Home Department how many *(a)* men aged over 65 years and *(b)* women aged over 60 years are in prison (i) on remand and (ii) after sentence. [165389]

Paul Goggins: The information requested is given in the table.

Prison population by age and type of custody, 31 January 2004

	Remand	*Sentenced*
Men aged 65 and over	53	712
Women aged 60 and over	5	21

Mrs. Gillan: To ask the Secretary of State for the Home Department whether information on those deemed high or very high risk, who are covered by multi-agency public protection panels, is routinely passed on by mental health authorities. [165185]

Paul Goggins: The multi-agency public protection arrangements (the MAPPA), have helped promote the sharing of information between health professionals, police and probation. To strengthen these arrangements, and to ensure that appropriate information sharing takes place, a duty to co-operate with the MAPPA authorities has been placed on various health bodies including mental health trusts.

Open Prisons

Mr. McLoughlin: To ask the Secretary of State for the Home Department how many of the prisoners held in *(a)* Sudbury open prison and *(b)* other open prisons in (i) 2002–03 and (ii) 2003–04 were originally classified as (A) Category A, (B) Category B, (C) Category C and (D) Category D prisoners. [148876]

Paul Goggins: The number of prisoners in *(a)* Sudbury and *(b)* other adult male open prisons at 30 June 2002 and 2003, by their original classification on entry into the prison estate, is given in the table.

Population at 30 June

	Sudbury open prison		*Other adult male open prisons*	
	2002	*2003*	*2002*	*2003*
A	12	9	44	51
B	118	136	424	482
C	269	278	1.15	1.59
D	48	33	1.31	1.21

Paedophilia

Tim Loughton: To ask the Secretary of State for the Home Department how many *(a)* men and *(b)* women are serving sentences for paedophilia convictions. [164044]

Paul Goggins *[holding answer 26 March 2004]:* Child sex offenders can be included in a number of different Prison Service offence codes. The Prison Service does not have a specific offence code to cover paedophiles, and hence information on the number of persons who are serving sentences having been convicted of child sex offences is unavailable.

Tim Loughton: To ask the Secretary of State for the Home Department how many *(a)* men and *(b)* women of Afro-Caribbean origin are in jail for paedophilia. [164045]

Paul Goggins *[holding answer 26 March 2004]:* Child sex offenders can be included in a number of different Prison Service offence codes. The Prison Service does not have a specific offence code to cover paedophiles, and hence information on the number of persons who are serving sentences having been convicted of child sex offences is unavailable.

Parental Imprisonment

Mr. Jim Cunningham: To ask the Secretary of State for the Home Department what efforts his Department is making to reduce the impact of parental imprisonment on children aged under 16 years. [165138]

Paul Goggins *[holding answer 1 April 2004]:* The Prison Service recognises that the imprisonment of a parent can have a significant impact on their children. The training programme for new prison officers includes a module to raise awareness of the needs of such children. The Prison Service is also developing a pilot partnership programme with the Lankelly Foundation and the Ormiston Children and Families Trust, to offer a comprehensive package of services and support to the families of prisoners. This work will take place in prisons, as well as in the wider community, and will include work with other agencies such as education, health and social services.

Specific projects include: development of and improvements to visitors' centres; creation of family liaison officer posts within prisons; training for local staff who come into contact with families; community support services; enhanced children's visits programmes; support for alternative contact for children who do not visit; family awareness programmes; parenting from prison courses; post-release support; information to families; and research.

Police

Miss McIntosh: To ask the Secretary of State for the Home Department what additional funding is made

available to North Yorkshire Police for policing *(a)* in Menwith Hills, *(b)* in Fylingdales and *(c)* during royal visits. [163557]

Ms Blears: Since September 11, all police forces have been able to bid for additional funding for various counter terrorist activities, including the protection of vulnerable sites. Given the nature of the funding, publicity is not being given to the activities it covers or what has been allocated to individual forces. The hon. Member can be assured that North Yorkshire have been receiving financial assistance for the Government for security policing at RAF Fylingdales and Menwith Hill.

In addition to this the force has been provided with special grants totalling £1.1 million between 2001 and 2004, as a contribution to the extra cost of policing protests at Menwith Hill and Fylingdales.

Most police forces will have to police royal visits. We would therefore normally expect that they meet the extra cost from their own budget and general reserves.

Bob Spink: To ask the Secretary of State for the Home Department how many police officers per 1,000 population there are *(a)* on establishment and *(b)* available for 24 hour duty without restriction in the Essex Constabulary. [164336]

Ms Blears: Information is not available in the form requested. As at 31 March 2003 the full time equivalent police officer strength per 100,000 population in the Essex Constabulary was 186 and the available for duty full time equivalent strength 183 per 100,000 population.

"Managing Offenders—Reducing Crime"

Mr. Drew: To ask the Secretary of State for the Home Department on what date his Department received the report, "Managing Offenders—Reducing Crime". [163984]

Paul Goggins: The Prime Minister, Home Secretary and Chief Secretary to the Treasury received the report, "Managing Offenders—Reducing Crime", from Patrick Carter on 11 December 2003.

Prison Spaces

Mrs. Gillan: To ask the Secretary of State for the Home Department how many additional prison spaces he estimates will be needed beyond the summer of 2004; and what plans he has to build additional jails. [165187]

Paul Goggins: The Government expect to have around 79,500 places available by the end of 2005–06.

The reforms outlined in Reducing Crime Changing Lives aim to improve the management of offenders and reduce re-offending. As a result of these reforms, and other measures, it is intended that the prison population should remain at a figure of less than 80,000 by 2009.

Two new private sector prisons providing 1,290 places are currently under construction and due to open at Ashford (near Heathrow) and Peterborough on 17 June 2004 and 28 March 2005 respectively.

We continue to investigate options for providing further increases in capacity over the coming years and as part of the Government's modernisation strategy. This is based on a combination of expanding capacity in existing prisons and a programme to build new large multi-functional prisons.

Prisoner Pay

Dr. Vis: To ask the Secretary of State for the Home Department which prisons pay prisoners who attend full-time education the same rates as those who work. [165399]

Paul Goggins: There are various forms of work available within establishments, all with different pay scales. Pay schemes and rates of pay that operate within establishments are a matter for local management, subject to certain centrally prescribed minimum rates of pay which are set out in Prison Service Order 4460. Prisoners who are employed in work, induction, education, training or offending behaviour programs will receive at least the minimum weekly rate of pay for employed prisoners.

The Prison Service does not hold the rates of pay for prisoners centrally. Therefore it would be possible to obtain this information only at disproportionate cost.

Prisoner Statistics

Mrs. Gillan: To ask the Secretary of State for the Home Department how many *(a)* women and *(b)* men were being held in prison on 9 March. [160978]

Paul Goggins *[holding answer 12 March 2004]:* On 9 March 2004 there were 4,559 females and 70,431 males being held in Prison Service establishments in England and Wales.

Mrs. Curtis-Thomas: To ask the Secretary of State for the Home Department how many prisoners were released from prison in each of the last five years. [164347]

Paul Goggins: The number of persons discharged from determinate sentences in each of the last five years is given in the table.

Persons discharged from determinate sentences[1], 1999–2003

	Number
1999	89,765
2000	89,154
2001	85,290
2002	88,330
2003	86,995

[1] Excludes discharges following recall after release on licence, non-criminals and fine defaulters.

Mrs. Curtis-Thomas: To ask the Secretary of State for the Home Department what percentage of prisoners obtained employment following release in each of the last five years; and how these figures are calculated. [164348]

Paul Goggins: The available information is from large-scale resettlement surveys of sentenced prisoners nearing release, conducted for the Prison Service by an external survey company. In a survey conducted in November to December 2001, 24 per cent. of prisoners had a paid job arranged after release, and a further six per cent. had a training or education place arranged. In a survey conducted in March to April 2003, 25 per cent.

of prisoners had a paid job arranged after release, and a further five per cent. had a training or education place arranged. A further survey is currently being undertaken.

Sandra Gidley: To ask the Secretary of State for the Home Department how many prisoners aged 65 years and over re-offended once released from prison in each of the last three years. [157378]

Paul Goggins: Of the 432 prisoners aged 65 and over at time of discharge from custody in 1997, 126 were reconvicted of a standard list offence within two years. In 1998, there were 398 prisoners discharged, of which 114 were reconvicted within two years. In 1999, there were 597 prisoners discharged, of which 177 were reconvicted within two years.

Prisons

Mr. Stinchcombe: To ask the Secretary of State for the Home Department on what dates since 1999 prison service officials have accompanied representations from government departments of the Republic of Ireland on visits to private prisons in England and Wales; and if he will make a statement. [164302]

Paul Goggins: There is no record of any visit to privately managed prisons by representatives from Government Departments of the Republic of Ireland accompanied by Prison Service officials since 1999.

Mrs. Curtis-Thomas: To ask the Secretary of State for the Home Department what measures have been proposed by the Prison Service to integrate vocational training into prison work to give prisoners the opportunity to gain recognized qualifications. [164393]

Paul Goggins: Work-based learning takes place throughout prison establishments, in dedicated workshops, industries workshops, kitchens, laundries, wing cleaning, estate maintenance and physical education departments.

Work-based training is planned as part of a cohesive strategy for learning and skills. Through the newly appointed Heads of Learning and Skills, links are made between dedicated training workshops, work areas and the education department in order to integrate Skills for Life and key skills into practical training. Learners are acquiring skills and achieving nationally recognised qualifications which will improve their chances of finding employment on release.

All establishments are set an annual key performance for work skills and between 2003 and January 2004 prisoners achieved 89,104 work-based qualifications against an annual target of 60,800.

In addition £40 million is being invested over three years through the Youth Justice Board to provide a range of academic and vocational training opportunities for juvenile offenders. The Specification for Learning and Skills includes programmes that allow young people to attain specific vocational and employment skills.

Mrs. Curtis-Thomas: To ask the Secretary of State for the Home Department what the Prison Service strategy is regarding the closure of workshops. [164395]

Paul Goggins: The closure of a workshop can have a significant impact on the internal market and on supplies and services available to other prisons. The Prison Service will ensure that any decisions on workshop closure are properly considered and made in a structured way, with regard to the system as a whole.

A policy on the closure or re-designation of workshops is currently being developed. This will ensure that any plans for closure are supported by a business case. Factors that will be included in such an appraisal include:

The reason for closure or re-designation;

What activities are planned to take place within the building that housed the workshop;

How the same or increased number of working hours for prisoners will be provided; and.

What plans there are for the machinery or other capital investment already made in the workshop.

Where a decision is proposed that might result in a reduction in prisoner industry places, adversely effect the internal supply chain, and/or increase costs to the Prison Service it is proposed that this decision would need to be endorsed by the recently created Industries Management Board—which has a brief to govern the operation of industries within the Prison Service.

Mrs. Curtis-Thomas: To ask the Secretary of State for the Home Department what factors influence the location of a workshop at a particular prison establishment. [164396]

Paul Goggins: Prison Service industry have tended to be developed in particular establishments as a result of local initiatives. Other factors that influence the location of a workshop at a particular prison establishment include the physical space available as well as the type of prisoner held and the purpose of the establishment.

Following the internal review on the strategic oversight and management of the public sector prison industries in England and Wales (2003) the Prison Service has a clear strategic direction for prison industries that combines the complementary aims of increasing the efficiency and effectiveness of industries while also increasing the resettlement and training opportunities possible for prisoners within workshops. This strategic direction will increasingly drive decisions made about the particular type and location of industrial workshops while, at the same time, making best use of current workshops.

Mrs. Curtis-Thomas: To ask the Secretary of State for the Home Department how prisoners are assessed for vocational training and workshop placements. [164397]

Paul Goggins: Prisoners are assessed for their general suitability for vocational training. Prisoners also undergo a risk assessment for health and safety reasons prior to starting their training in a workshop environment.

All establishments provide an induction programme and initial assessment of each offender's basic skills and the results inform the creation of an individual learning plan. Initial assessments should also be shared with teachers, trainers and workshop staff.

Mrs. Curtis-Thomas: To ask the Secretary of State for the Home Department what response he has made to the recommendation in the Internal Review Report 2003 that the prison working day should be increased. [164398]

Paul Goggins: The internal review of the strategic oversight and management of the public sector prison industries in England and Wales (2003) was fully accepted by the Prison Service Management Board. While none of the review's 44 recommendations contained a specific recommendation that the prison working day should be increased the text did note that ideally industrial workshops should operate standard working hours of around 36 hours per week. The review also noted that operational demands and restrictions precluded this from being achieved across the prison estate.

There are currently over 300 industry workshops which operate for an average 26 hours per week. This contributes nearly 13,000,000 hours of purposeful activity for prisoners a year.

The Prison Service is committed, wherever possible, to extending the working day for prisoners. For example a plastics workshop at HMP Ranby operates for 96 hours per week, employing prisoners on three shifts (including a night shift). The Prison Service has to strike a balance between allowing more prisoners to access places and enabling individual prisoners to work a longer day.

The Prison Service are exploring the possibility of developing Service Level Agreements with prisons that will stipulate the number of operating hours a workshop will open, the number of prisoners employed and the qualifications offered alongside a target for achievement. This will help both to establish a minimum period each workshop should open and improve performance.

Mrs. Curtis-Thomas: To ask the Secretary of State for the Home Department what response he has made to the recommendation in the Internal Review Report 2003 that prison work should reflect the working week outside prison. [164399]

Paul Goggins: The Prison Service Management Board fully accepted the recommendations contained in the internal review of the strategic oversight and management of the public sector prison industries in England and Wales (2003). While none of the reviews 44 recommendations contained a specific recommendation that prison work should try and reflect the same kind of working week as outside the review did note that wherever possible the prison regime should try and reflect the same kind of working week as that found outside.

There are several aspects to reflecting the working week on the outside including not only extending the working day where possible but also setting and maintaining reasonable production levels. In addition it is important to have part-time working to accommodate prisoner learning. In addition there are other models for bridging the gap between prisons and the community—the work with National Grid Transco is a good example of using the time prisoners spend in prison essentially for training followed by actual work in the community.

It is not practical, as the review acknowledged, to fix a figure on the number of hours a workshop should be open—as different categories of establishment have different operational demands. However the Prison Service is committed, wherever possible and subject to operational constraints, to extending the working day for prisoners. There are examples in the Prison Service where this has been achieved. As part of implementing the review's recommendations the Prison Service is also seeking to improve production levels where needed as well as encouraging more demanding and creative work where it is possible to do so.

Linking work and education for the large number of unskilled prisoners with numeracy and literacy difficulties as well as with poor or non-existent work histories is a key part of enhancing the working week. In many instances key skills have been embedded into practical training courses in prisons' workshops. Using £7.36 million of the Offenders Learning and Skills Unit's recent Capital Modernisation Fund, from Learning to Earning, 77 classrooms adjacent to workshops have been constructed to support the integration of key skills into training programmes. Additionally these classrooms are increasingly able to support the wider key skills—Working with Others, Problem Solving, Improving Own Learning and Performance. All three wider key skills relate to the work ethic. The value placed on these skills by employers is evident from their inclusion in Modern Apprenticeship frameworks in mainstream vocational training.

Mrs. Curtis-Thomas: To ask the Secretary of State for the Home Department what the outcome was of the Prison Service's meeting with the Correctional Service Accreditation Panel on the Focus on Resettlement. [164403]

Paul Goggins: The Correctional Service Accreditation Panel encouraged the programme's further development and outlined some general comments that need to be considered in any future application for accreditation. Another meeting will be held later this year.

Mrs. Curtis-Thomas: To ask the Secretary of State for the Home Department what measures the Prison Service is putting in place to meet the demand for new work places. [164405]

Paul Goggins: Since 1994–95 the prisoner population has increased by 50 per cent. and prisons are delivering an additional 30 per cent. more purposeful hours, despite pressure on workshop and classroom capacity.

Where possible the Prison Service constructs additional workshops to meet the needs of the increasing population. A number of workshops have opened or are planned to be opened in the near future. These include workshops at HMPs Garth (an additional 180 prisoner work places), Wymott (an additional 24 prisoner work places), Whatton (an additional 200 work places) and Ranby (an additional 40 prisoners on a split-shift system). HMP Haverigg are currently planning to bring some old workshops back into operation as part of the Performance Improvement Plan process which should realise an additional 100 new prisoner work places. The plans at Haverigg include the conversion of

a contract services workshop to an appropriate office environment providing 15 prison work places in which national industries data can be managed.

Mrs. Curtis-Thomas: To ask the Secretary of State for the Home Department what co-operation there is between the Prison Service and the Learning and Skills Council in order to identify local labour market needs. [164406]

Paul Goggins: In April 2003 all local Learning and Skills Councils (LSCs) initiated strategic area reviews of post-16 LSC-funded provision. These reviews assess the extent to which the current pattern of post-16 learning in each local area meets the needs of learners, employers and the community—including the needs of offenders.

The Offenders' Learning and Skills Unit is working with the Learning and Skills Council to develop a coherent information, advice and guidance strategy that meets the needs of all offenders both in prison and in the community.

Mrs. Curtis-Thomas: To ask the Secretary of State for the Home Department what research he has *(a)* commissioned and *(b)* evaluated into the link between prison work and prisoners' attitudes towards work. [164407]

Paul Goggins: Three studies have been commissioned on this subject:

Home Office Research Study 208 'Women Prisoners: a Survey of their Work and Training Experiences in Custody and on Release' in 2000

Home Office Research Study 226 'Building Bridges to Employment for Prisoners' in 2001 and

'Prison Work and Training: an Evaluation' Simon and Corbett, Brunel University, 1994, 1997

Mrs. Curtis-Thomas: To ask the Secretary of State for the Home Department for what reasons the Prison Service has refocused prison industry production on the internal market. [164408]

Paul Goggins: The aim of prison industries is to occupy prisoners in out of cell activity and wherever possible to help them gain skills, qualifications and work experience to improve their employment prospects on release.

At the same time the Prison Service is a significant consumer of a large range of products and there are sound economic reasons for producing for internal consumption. In producing for the internal market there are significant opportunities for industrial workshops to provide both specific and generic work skills for prisoners. Additionally there are opportunities for growth within a number of the internal industries. There will be an increasing demand for items such as cell furniture, clothing items and other engineering work. As long as industries meets the standards that are required externally there will also be opportunities to manufacture and supply to other organisations items such as office furniture.

Producing efficiently and effectively for consumption within the Prison Service does not mean an exclusive focus on the internal market and where possible prisons should build relationships with local employers to meet specific skills shortages. The Prison Service is also working with a number of partners, in both the voluntary and private sectors to develop work opportunities within prisons and for prisoners after release.

Project Funding

Mr. Colman: To ask the Secretary of State for the Home Department how many *(a)* solely state-financed and *(b)* public-private partnership and private finance initiative projects for which his Department is responsible have been launched in each region in each of the last 10 years. [160961]

Fiona Mactaggart: The information is as follows.

(a) The number of major projects that are recorded as being solely state financed based on central information held since July 2002 is 24. Major projects are considered to be those projects with a whole life cost greater than £40 million or which are considered to be novel, contentious or high risk. These are considered to be national projects and not specific to regions.

(b) I would refer my hon. Friend to the Signed PFI Projects List, which can be found on the HM Treasury website www.hm-treasury.gov.uk/documents/public_private_partnerships/ppp_pfi_stats. In addition, the following projects are classed as public-private partnerships:

	Project	*Region*
2000	Airwave	National
2000	Criminal Records Bureau	North West

Promotion

John McDonnell: To ask the Secretary of State for the Home Department how much the introduction of assessment centres for promotion to HEO and G7 grades cost his Department in each year since its introduction. [163630]

Fiona Mactaggart *[holding answer 31 March 2004]:* Assessment Centres were introduced in February 2002 for two key grades: Higher Executive/Chief Immigration Officer (HEO/CIO) and Grade 7. Estimated total resource costs for running the Assessment Centres were as follows:

Grade	*Numbers assessed*	*Estimated resource cost (£)*
2002		
Grade 7	288	365,000
HEO/CIO	1,208	865,000
2003		
Grade 7	939	1,078,000
HEO/CIO	2,342	1,159,000

School Buses (Sex Offenders)

Miss McIntosh: To ask the Secretary of State for the Home Department pursuant to the answers of 17 March, *Official Report*, columns 350–1W, on school buses (sex offenders), if he will list the instances in which

Criminal Records Bureau checks have been made mandatory under legislation other than the Police Act 1997. [163243]

Ms Blears: The principal provisions currently in force in England as regards those working with children include:

the Protection of Children Act 1999 (all persons applying for a childcare position with a childcare organisation—as defined);

the Children's Homes Regulations 2001 (all providers, managers and employees);

the Fostering Services Regulations 2002 (all providers, managers and employees); and

the Voluntary Adoption Agencies and the Adoption Agencies (Miscellaneous Amendments) Regulations 2003 (all providers, managers and employees).

Seasonal Agricultural Workers Scheme

Mr. Boswell: To ask the Secretary of State for the Home Department if he will consolidate the obligation to register with the new scheme for accession countries by those nationals admitted to the UK to work with the Seasonal Agricultural Workers Scheme. [164036]

Mr. Browne: Nationals from the eight Accession States who join the Seasonal Agricultural Workers Scheme (SAWS) scheme before 1 May will not be required to register with the Worker Registration Scheme. The SAWS card will be valid as a registration certificate until 31 December 2004. If a SAWS participant wishes to take any additional work or new employment, he or she will be required to register with the Home Office.

Sentencing (Women)

Mr. Jim Cunningham: To ask the Secretary of State for the Home Department if he will make a statement on the Department's plans to review sentencing for women. [165137]

Paul Goggins *[holding answer 1 April 2004]:* While it is for the courts to decide the appropriate sentence in individual cases, custodial sentences should be reserved for serious, dangerous and persistent offenders.

The Home Office is taking forward the Women's Offending Reduction Programme over the next three years which seeks to address the range of factors that have an impact on women who offend. A primary focus will be on encouraging greater use of community-based interventions that are better tailored to the needs of women. The Judicial Studies Board will be invited to review training and guidance for sentencers to ensure that it includes gender specific issues; and the Sentencing Guidelines Council will consider the impact of the new Criminal Justice Act 2003 sentencing powers on female as well as male offenders.

Sex Abuse Guidelines

Mrs. Curtis-Thomas: To ask the Secretary of State for the Home Department (1) what the terms are of the code of practice on unhelpful or intrusive reporting on cases of historical sex abuse; [148883]

(2) what discussions he has held with media representatives to assess how unhelpful or intrusive reporting of historical sex abuse cases can be avoided; and what the outcome of these meetings was; [148884]

(3) what meetings he plans to hold with media representatives to assess how unhelpful or intrusive reporting of historical sex abuse cases can be avoided; and when these discussions will take place. [148885]

Paul Goggins: I have held discussions with representatives of the Press Complaints Commission (PCC) with regard to the anonymity of suspects in sexual offence cases.

The Government believes that self regulation through the effective use of media codes is the best way to ensure pre-charge anonymity and the PCC is examining its code of conduct to see how it can be strengthened.

Shopkeepers (Harassment)

Mr. Hepburn: To ask the Secretary of State for the Home Department how many persistent offenders of violence against and intimidation of shop workers have been convicted in each year since 1997. [163607]

Paul Goggins: Data are not readily available at this level of detail.

Substance Abuse

Mr. Hancock: To ask the Secretary of State for the Home Department how many prosecutions have taken place under the Cigarette Lighter Refill (Safety) Regulations 1999; and what the resultant penalties were in each case. [165760]

Paul Goggins: Information collected centrally by the Home Office does not separately identify offences under the Cigarette Lighter Refill (Safety) Regulations 1999.

Mr. Hancock: To ask the Secretary of State for the Home Department what assessment he has made of the effectiveness of the legislation relating to substance abuse; and what plans he has to amend the legislation. [165761]

Caroline Flint: Volatile Substance Abuse is controlled by the Intoxicating Substances (Supply) Act 1985, which regulates the general sale of abusable products by making it an offence for any such substance to be knowingly supplied for the purpose of intoxication to someone under 18. The Cigarette Lighter Refill (Safety) Regulations 1999, banned the sale of butane gas lighter refills to under 18s.

The Government continues to be concerned about the level of misuse of volatile substances by young people. However, it thinks that at present enforcement of current provisions is sufficient and has no plans to amend the legislation.

Sudbury Prison

Mr. McLoughlin: To ask the Secretary of State for the Home Department what the maximum capacity of HMP Sudbury is; and how many inmates are being held at Sudbury. [163746]

Paul Goggins: As at 26 March 2004, the operational capacity of HMP Sudbury was 559 and the prisoner population was 554.

Temporary Promotions

John McDonnell: To ask the Secretary of State for the Home Department how many staff in his Department are on temporary promotion; and how many of these have been on temporary promotion for more than *(a)* 12 months and *(b)* two years. [163629]

Fiona Mactaggart *[holding answer 31 March 2004]:* Figures for (i) less than 12 months (ii) between one and two years, and (iii) more than two years are to be found in the table.

Staff on temporary promotion

	Less than 12 months	*More than 12 months (between one-two years)*	*More than two years*	*Total*
Forensic Science Service (FSS)	13	13	2	28
Central Home Office (excluding Immigration and Nationality Directorate (IND), including Merseyside Office)	359	184	155	698
IND	684	393	210	1,287
Prison Service Agency (PSA)	897	326	194	1,417
United Kingdom Passport Service (UKPS)	95	29	4	128
Total Home Office Staff	2,048	945	565	3,558

Contributions have been received above from the Agencies (FSS, UKPS and PSA); figures for the Central Home Office and Immigration and Nationality Directorate are provided centrally.

Ticket Touting

Mr. Don Foster: To ask the Secretary of State for the Home Department how many prosecutions have been made in each of the last three years for ticket touting *(a)* in person, *(b)* through published advertisements, *(c)* via internet auction sites and *(d)* through other means; how many were successful in each case; what the average length of custodial sentence was in each case; and if he will make a statement. [164487]

Paul Goggins: Defendants proceeded against and those convicted of offences of ticket touting under section 166 of the Criminal Justice and Public Order Act 1994 in England and Wales, 2000 to 2002, are shown in the table. No information is held centrally on the circumstances of each case. The offence is not one that attracts a custodial penalty.

Number of defendants[1] proceeded against and found guilty under section 116 of the Criminal Justice and Public Order Act 1994 (ticket touting), England and Wales 2000 to 2002

	Defendants proceeded against	*Defendants found guilty*
2000	163	140
2001	126	94
2002	127	91

[1] These data are on the principal offence basis

Statistics on court proceedings for 2003 will be published in the autumn.

Transco

Mrs. Curtis-Thomas: To ask the Secretary of State for the Home Department (1) if he will make a statement on the roll-out of the Transco model; and which other industries are training prisoners with a view to employing them on release; [164349]

(2) what the benefits to the Prison Service from the roll-out of the Transco model are. [164350]

Paul Goggins: The training provided by National Grid Transco is linked to job vacancies in the gas industry. The project is a good example of how employers and the Prison Service are able to collaborate to meet some of the staffing needs of business, while at the same time contributing to reduced re-offending by released prisoners.

National Grid Transco, with its main contractors, is training prisoners for employment as Gas Network Operatives. The programme is currently operating at Reading Young Offender Institution and Wymott prison. Prisoners from Rochester and Glen Parva Young Offender Institutions are being transferred to Reading to participate in the training.

By the end of 2003, 27 prisoners had completed National Vocational Qualifications to qualify as Gas Network Operatives. All 27 were offered jobs with National Grid Transco or one of its contractors and 24 are still in employment. Three have since re-offended and have returned to prison.

National Grid Transco is planning to expand the project to include a number of other establishments. They aim to train and assist into employment up to 250 prisoners a year from 2006. National Grid Transco is also encouraging other companies in the electricity, water, engineering and logistics sectors to adopt the same approach in working with the Prison Service.

Other industries involved in training prisoners with a view to employing them on release include construction, catering, car mechanics, sport and leisure, and transport.

Victim Support

Mr. Bacon: To ask the Secretary of State for the Home Department if he will make a statement on the latest situation in relation to the funding of Victim Support. [164567]

Paul Goggins *[holding answer 30 March 2004]:* Since the start of the financial year 1997–98 the Home Office's funding of Victim Support has more than doubled, from £11.7 million to £30 million in 2003–04.

No final decision has yet been made with regard to the level of Home Office funding for Victim Support for 2004–05.

Violence Against Women

Mr. Hancock: To ask the Secretary of State for the Home Department what plans he has to commit resources to a UK national strategy as agreed in the Beijing Platform for Action to eliminate all forms of violence against women. [160913]

Paul Goggins: There are currently no plans to create a National Strategy on Violence Against Women and there is no requirement within the Beijing Platform for Action for us to do so. We are, however, developing a range of policies in this area:In June last year we published the consultation paper, "Safety and Justice", which set out the Government's strategy to tackle domestic violence in England and Wales. It set out proposals under three key headings: prevention; protection; and justice and support. And it included proposals for non-legislative as well as legislative measures, which now form part of the Domestic Violence, Crime and Victims Bill, which was introduced into the House of Lords in December last year.

The Office of the Deputy Prime Minister (ODPM) is investing £18.9 million this year in refuges in England, which will mean 273 units of new or improved accommodation over the next three years. There will be a further £7 to £9 million in each of the next two years.

The ODPM contributed £1 million over three years, matched by £1 million from Comic Relief, towards the development of a single national 24-hour freephone helpline for victims of domestic violence and the UK 'refuges online system', which provides immediate access to information on refuge accommodation and specialist services across the UK. These were launched in December last year. The Home Office is contributing £1 million towards promoting the new helpline.

On sexual offences, the Government are concerned about the low rate of convictions for reported rape. Issues surrounding consent are central to establishing whether a sexual offence has taken place. The Sexual Offences Act 2003 introduces a test of reasonableness into the law on consent. It applies largely to England and Wales.

We are also supporting the development of Sexual Assault Referral Centres (SARCS) throughout England and Wales. SARCs are 'one stop' locations where victims of sexual assault can receive care and counselling while, at the same time, having the opportunity to assist the police investigation into alleged offences. SARCs will be considered as part of a wider strategy to improve services for victims of sexual offences. The Government are also considering options for the development of a national rape helpline. We are in discussion with the Scottish Executive, Welsh Assembly and Northern Ireland Office to consider how this will best serve victims of sexual offences nationally.

And finally, The Female Genital Mutilation Act 2003, implemented on 3 March this year, reinforces existing legislation criminalising the offence and increases the maximum penalty for performing and procuring female genital mutilation from five to 14 years imprisonment. It applies to England, Wales and Northern Ireland.

Women Offenders

Mrs. Curtis-Thomas: To ask the Secretary of State for the Home Department if he will make a statement on the Women Offending Reduction Programme. [164372]

Paul Goggins: The significant increase in the female prison population, and the wider consequences of this in terms of disruption to their families, particularly their children, supports the need to respond specifically to the needs and characteristics of women offenders.

The Women's Offending Reduction Programme (The Programme), published on 11 March 2004, is a three-year programme of work that aims to promote a more specific and joined up response to the range of factors that have an impact on why women offend.

In order to reduce the number of women in custody and increase the potential for diversion the Programme will focus on improving sentencers' confidence in community disposals that offer appropriate packages and interventions and are better tailored to meet the particular needs of women offenders. The Programme includes, for example, the development of women specific community-based interventions such as the 'Real Women' offending behaviour programme.

Two key target groups are women with mental health problems and women with substance misuse problems. The Programme will operate in tandem with the Department of Health's Women's Mental Health Strategy and the National Drugs Strategy so that women offenders can access appropriate treatment in the community.

For women who do need to be held in custody, resettlement is a vital element of the Programme. More effective re-integration into the community for women prisoners on release should have a positive impact on re-offending rates. The implementation of the Women's Estate resettlement strategy will ensure that good family ties are maintained to minimise the impact on children separated from their mothers, and necessary local community links are made to meet the range of women's resettlement needs.

The Programme's priorities contribute to the wider Home Office aims of reducing offending and re-offending and will also reflect and support the objectives of the new National Offender Management Service that will come into operation in June 2004.

Work Permits

Mr. Lilley: To ask the Secretary of State for the Home Department what targets have been set for numbers of applications for work permits processed by Home Office officials in *(a)* 2003 and *(b)* 2004; and how targets are allocated among departmental offices. [161127]

Mr. Browne *[holding answer 12 March 2004]:* There are no targets for the number of work permits issued by the Home Office, although the Sectors Based Scheme within these arrangements is subject to a quota. The work permit system is designed to be flexible and

responsive to the needs of employers and the economy. The overall number of work permits issued will depend on the number of applications made by employers and whether individual applications meet the criteria for the issuing of permits.

Work Permits (UK) does make internal planning assumptions about expected volumes of applications (on a financial, not calendar, year basis), in order to allocate resources to process applications. Work Permits (UK)'s planning assumption for 2003–04 is that it will receive 175,000 work permit applications (including extension applications). The current planning assumption for 2004–05 is 183,000. These figures do not include applications under the Highly Skilled Migrant Programme and Seasonal Agricultural Workers Scheme applications, which Work Permits (UK) also administers.

These planning assumptions are informed by monitoring trends in volumes of applications and consultation with stakeholders, including other Government Departments on labour market conditions.

Tom Brake: To ask the Secretary of State for the Home Department how many work permits have been granted to education workers since January 2003 broken down by *(a)* Government office region, *(b)* type of education work and *(c)* nationality. [163854]

Mr. Browne: The tables provide figures for the numbers of work permits that have been granted to education workers since January 2003.

All work permits applications, including extensions, approved for education workers since 1 January 2003, broken down by the type of education work:

Occupation	*Number of permits issued*
Teacher	5,720
Lecturer	792
Research Associate	763
Research Fellow	705
Research Assistant	530
Professor	158
Research Officer	100
Tutors	90
Research Technician	19
Others	3,041
Total	11,918

All work permits applications, including extensions, approved for education workers since 1 January 2003, broken down by nationality:

Nationality	*Number of permits issued*
Australia	1,549
Canada	676
India	760
Jamaica	481
New Zealand	736
Peoples Republic of China	948
Russia	261
South Africa	1,577
United States of America	1,318
Zimbabwe	304
Others	3,308
Total	11,918

A breakdown of all work permits applications approved for education workers since January 2003 by Government Office region is not available.

Workers Registration Scheme

Mr. Malins: To ask the Secretary of State for the Home Department if he will make a statement on progress made on introducing a workers' registration scheme for EU Nationals after 1 May. [164337]

Mr. Browne *[holding answer 29 March 2004]:* On 25 March we laid draft regulations which will establish a workers' registration scheme for nationals from eight of the states acceding to the European Union on 1 May.

The draft regulations are laid under paragraph 2(2) of Schedule 2 to the European Communities Act 1972 and Section 2 (6) of the European Union (Accessions) Act 2003 and will be subject to the affirmative resolution procedure. The draft regulations and an Explanatory Memorandum can be viewed at http://www.legislation.hmso.gov.uk/si/dsis2004.htm

Young Offenders

Charles Hendry: To ask the Secretary of State for the Home Department what plans he has to streamline the inspection regime for secure units for juvenile offenders. [162314]

Paul Goggins: From 1 April 2004 the Commission for Social Care Inspection (CSCI), which replaces the Social Services Inspectorate, will inspect local authority secure children's homes and secure training centres. Her Majesty's Inspectorate of Prisons will continue to inspect Young Offender Institutions holding juveniles, with support from CSCI.

Within those arrangements, there will be greater harmonisation of the approach to education inspections through use of the same methodology and a consistent pool of inspectors.

Mr. Oaten: To ask the Secretary of State for the Home Department pursuant to his answer of 9 February 2004, *Official Report*, column 1262W, on juvenile prisoners, if he will provide a brief description of *(a)* the fixtures and facilities in the unfurnished cell in each establishment, *(b)* its location within the prison and *(c)* the items of clothing and personal possessions which the prisoner is allowed to have with him. [162438]

Paul Goggins: Every special or unfurnished cell ("special accommodation"), when used for the temporary confinement of juveniles under Rule 51 of the Young Offender Institution Rules 2000 (or Rule 48 of the Prison Rules 1999) is heated, ventilated, has a window or other natural light, and an intercom or other means of allowing the young person to communicate with an officer. There is access to toilet and sanitary facilities.

The Prison Service does not provide other fixtures or facilities in special accommodation when used for the temporary confinement of juveniles, having regard to the fact that the young person's refractory or violent behaviour may result in damage to themselves or property; and the fact that the confinement is only temporary and must cease as soon as the refractory or violent behaviour has ended.

Special or unfurnished cells are located in the establishment's segregation unit, which in some cases is known as the "separation and care unit" or "intensive support unit". The only exception is at HMYOI Wetherby, where the unfurnished cell is located temporarily near the administrative unit due to structural works in progress.

When a young person is placed in special accommodation a risk assessment will be conducted. This determines whether the young person is at risk of self-injury and whether normal clothing presents a hazard to his/her health. If in exceptional circumstances it is necessary to remove normal clothing, the young person is provided with protective clothing so that he/she can be decently dressed and their normal clothing is returned to them at the earliest opportunity.

Personal possessions are not normally allowed in special accommodation given that the young people must only be kept there for the shortest possible time; and may often be in a volatile state, with the result that personal possessions may present the risk of self-injury or harm. However, permission may be granted on a case-by-case basis, if the risk assessment demonstrates the benefits would outweigh the risks.

Young Offenders Institutes

Julie Morgan: To ask the Secretary of State for the Home Department how many juveniles in each young offenders' institution were injured by other inmates in each month from June 2003 to the most recent month for which figures are available. [163216]

Paul Goggins: In April 2003 a new measure of violence was introduced based on the number of reported serious assaults. An assault is classified as 'serious' if it:

is a sexual assault, or

results in detention in outside hospital as an inpatient, or

requires medical treatment for concussion or internal injuries, or

is a fracture, scald or burn, stabbing, crushing, extensive or multiple bruising, black eye, broken nose, lost or broken tooth, cuts requiring suturing, bites, temporary or permanent blindness.

Information on juveniles seriously assaulted by other trainees in custody is given in the table:

Number of serious assaults—Year 2003–04

	June	July	August	September
Brinsford	—	—	—	—
Brockhill	—	—	—	—
Bullwood Hall	—	1	—	—
Castington	—	—	—	—
Eastwood Park	—	—	—	—
Feltham	—	—	—	—
Hindley	—	—	—	—
Huntercombe	1	—	—	—
Lancaster Farms	2	3	—	—
New Hall	—	—	—	—
Onley	7	2	3	2
Stoke Heath	—	—	—	1
Thorn Cross	—	—	—	—
Warren Hill	—	—	—	—
Werrington	1	—	3	1
Wetherby	—	—	1	—

	October	November	December	January 2004	February 2004
Brinsford	—	—	—	—	—
Brockhill	—	—	—	—	—
Bullwood Hall	—	—	—	—	—
Castington	—	—	—	—	—
Eastwood Park	—	—	—	—	—
Feltham	—	—	—	—	—
Hindley	—	—	—	—	—
Huntercombe	—	—	—	—	—
Lancaster Farms	—	—	—	—	—
New Hall	—	—	—	—	—
Onley	—	—	—	—	—
Stoke Heath	—	1	—	—	—
Thorn Cross	—	—	—	—	—
Warren Hill	1	—	—	1	—
Werrington	—	—	—	—	—
Wetherby	—	—	—	—	—

The number of positive adjudication's for assaults on juveniles is given in the table. Most of the injuries in these incidents would be classified as minor (grazes, scratches, abrasions, minor bruises, swellings, superficial cuts) or none at all.

ENVIRONMENT, FOOD AND RURAL AFFAIRS

GM Crops

Mr. Stephen O'Brien: To ask the Secretary of State for Environment, Food and Rural Affairs what consultations she has held with businesses affected by adding GM maize to the National Seed List. [164023]

Mr. Morley: Under National List legislation, before any variety is added to the list any person who would be affected by the proposed decision is given the opportunity to make written representations or request a hearing on the matter.

Details of the proposal to add the only GM variety to date, the forage maize Chardon LL, to the National List were published in the Plant Varieties and Seeds Gazette No. 423 (March 2000).

227 individuals/organisations submitted written representations of which 60 also requested a hearing. Three further individuals/organisations requested a hearing only.

The public hearing opened on 2 October 2000 and a digest of the matters raised at the hearing was published in December 2002.

Mr. Meacher: To ask the Secretary of State for Environment, Food and Rural Affairs what results she has received from the Chardon LL cattle feeding studies completed at the Reading University Centre for Dairy Research in 2002. [164956]

Mr. Morley: I have not seen the results of this cattle feeding study, which was privately funded research undertaken by Reading University. Publication of the results of studies carried out by the university is a matter for them and those funding the work. However, I understand that the researchers intend to submit their study and the results to a peer-reviewed journal for publication.

Mr. Meacher: To ask the Secretary of State for Environment, Food and Rural Affairs what assessment she has made *(a)* of the extent to which the 1998–99 National List Trials for Chardon LL were (i) independent and (ii) impartial and *(b)* of their value in determining whether to place the variety on the National Seeds Register. [164957]

Mr. Morley: The National List trial programme for maize in 1998–9 comprised four trial sites in each year, plus a reserve site.

A thorough evaluation of all the data used for the assessment of Chardon LL in National List trials was conducted by the independent experts on the Herbage Value for Cultivation and Use (VCU) group. The group recommended that data from one site in 1999 should be excluded because of substandard plant populations. This was done and data from the reserve site used instead.

Mr. Meacher: To ask the Secretary of State for Environment, Food and Rural Affairs how much the Chardon LL cattle feeding studies at Reading University have cost public funds. [164959]

Mr. Morley: There has been no cost to public funds. I understand the study carried out at Reading University was privately funded.

Mr. Meacher: To ask the Secretary of State for Environment, Food and Rural Affairs what provision she has made to ensure that Chardon LL maize will not be added to the National Seed List before arrangements have been made to restrict herbicide use to the regime used for the farmscale evaluation programme. [164960]

Mr. Morley: In her statement of 9 March my right hon. Friend the Secretary of State for the Environment Food and Rural Affairs made it clear that Chardon LL would not be added to the UK National List until the Part C release consent had been amended in accordance with ACRE's advice. Officials have written to the French Competent Authority, which issued the relevant consent on behalf of all EU member states, seeking amendments to the consent for Bayer T25 GM maize (Chardon LL) to limit herbicide use with the crop in line with ACRE's advice on the FSE results.

Mr. Meacher: To ask the Secretary of State for Environment, Food and Rural Affairs when she was informed of the recommendation of Professor David Beever that no new maize variety should be placed upon the National Seeds Register unless it achieves a whole-plant target of 32 per cent. [164961]

Mr. Morley: The dry matter content achieved for maize crops depends on location, climate and variety. Views on the optimum value vary and the realistic situation is that it falls within a range of around 28–32 per cent., depending on local factors. The importance of dry matter content is taken into account in the National List system, but it is only one of a number of factors which are assessed.

Mr. Meacher: To ask the Secretary of State for Environment, Food and Rural Affairs what assessment she has made of the involvement of Grainseed in the conduct of the National List trials for Chardon LL in 1998 and 1999 on behalf of the British Plant Breeders Society and the impact on their research findings. [164962]

Mr. Morley: A thorough evaluation of all the data used for the assessment of Chardon LL in National List trials was conducted by the independent experts on the Herbage Value for Cultivation and Use (VCU) group. The group recommended that the 1998 Grainseed data were acceptable as part of a valid assessment of the performance of Chardon LL. However, the group recommended that the 1999 Grainseed data should be excluded because of substandard plant populations. This was done and data from a reserve site used instead.

Mr. Meacher: To ask the Secretary of State for Environment, Food and Rural Affairs what assessment she has made of the new Norwegian research on the safety of the CaMV promoter used in the Chardon LL transgenic insert. [164963]

Mr. Morley: The reported new scientific evidence from Norway on the cauliflower mosaic virus promoter has yet to be published. When the details of this research do become available, the Advisory Committee on Releases to the Environment (ACRE), which advises the Government on the risks posed by the intentional release of GMOs, will be asked to evaluate these data and advise on their implications for existing consents and future applications.

Mr. Meacher: To ask the Secretary of State for Environment, Food and Rural Affairs what evidence she has collated, in the absence of ruminant feeding studies, that Chardon LL has added value for cultivation and use in the United Kingdom. [164964]

Mr. Morley: The criterion for adding a variety to the UK National List is that it should, taking its qualities as a whole, represent a clear improvement compared with other forage maize varieties already on the UK List. Chardon has been assessed on this basis and found to meet the performance standards set to indicate a clear improvement in value for cultivation and use. The evidence for this is that in National List trials, Chardon's results met the improvement standards for several important characteristics. Animal feeding studies are not required for this assessment.

Mr. Meacher: To ask the Secretary of State for Environment, Food and Rural Affairs what action she has taken to ensure that the Reading University cattle feeding studies involving Chardon LL fodder maize will be scientifically robust and independent of *(a)* Government and *(b)* GM crop technology companies. [164965]

Mr. Morley: The cattle feeding study carried out by the Reading University was privately funded research. It is therefore not a matter for Government. I understand that the researchers intend to submit their study to a peer reviewed journal for publication so others will be able to assess the data when the peer review process is complete.

Mr. Meacher: To ask the Secretary of State for Environment, Food and Rural Affairs when she was informed that *(a)* Liberty on its own had proved ineffective as a herbicide used with GMHT fodder maize crops in the United States and *(b)* to overcome this problem Bayer has been promoting the use of Liberty/atrazine mix since the spring of 2001. [164966]

Mr. Morley: I refer my right hon. Friend to the answer given on 25 March 2004, *Official Report*, column 997W.

Sue Doughty: To ask the Secretary of State for Environment, Food and Rural Affairs what discussions she has held with scientists who oppose the commercial growing of GM crops in the United Kingdom. [165284]

Mr. Morley: The Secretary of State has not held any direct discussion with scientists who oppose the commercial growing of GM crops. However, scientists across the range of opinions were involved in the Science Review strand of the GM public dialogue carried out last year. The GM Science Review Panel itself consisted of leading scientists across a range of disciplines and perspectives. Other scientists opposed to the growing of GM crops also attended the open meetings held during the review and contributed written submissions, which are published on the review website. Their views are reflected in the two reports published by the GM Science Review.

Mr. Peter Ainsworth: To ask the Secretary of State for Environment, Food and Rural Affairs what assessment was made during the GM Farm Scale Evaluations of the environmental impact of treating Chardon LL maize with more than six litres per hectare of glufosinate ammonium. [165374]

Mr. Morley: In the farm-scale evaluations the terms of the pesticide approval for the use of glufosinate ammonium on GM maize Chardon LL permitted a maximum individual (single-dose) application rate of 4 litres per hectare and the maximum total rate permitted was 8 litres per hectare.

The results of the evaluations, including those where the total application rate was more than 6 litres per hectare, are given in the paper by G T Champion et al published in the Philosophical Transactions of the Royal Society, series B, volume 358, number 1439, last autumn. Defra officials sent the hon. Member a copy of these papers on 24 October 2003 and a copy is also available in the Library.

Sellafield

Llew Smith: To ask the Secretary of State for Environment, Food and Rural Affairs (1) if she will place in the Library copies of the letters received since 1 January 2003 from the European Commission in respect of the application of Euratom Treaty Article 35 at Sellafield; [165156]

(2) if she will place in the Library a copy of the report of the Euratom verification visit to Sellafield on 8 to 12 March. [165157]

Mr. Morley: The UK's Permanent Representative to the European Union has received two letters from the European Commission since 1 January 2003 regarding the application of Article 35 Euratom at Sellafield. Copies have been placed in the Library. I shall also place in the Library the final report of the Commission on its Article 35 verification visit to Sellafield, as soon as this becomes available.

ACRE

Mr. Peter Ainsworth: To ask the Secretary of State for Environment, Food and Rural Affairs what advice she has received from the Advisory Committee on Releases to the Environment regarding the environmental impact of growing Chardon LL maize under a bromoxynil management regime. [165373]

Mr. Morley: The advisory committee has not given any specific advice on the use of bromoxynil.

Agricultural Subsidies

Mr. Liddell-Grainger: To ask the Secretary of State for Environment, Food and Rural Affairs what the total amount of money paid in subsidies to farmers on Exmoor was in *(a)* 2001–02 and *(b)* 2002–03. [161882]

Alun Michael: The following table represents the total amounts of subsidy money paid to farmers on Exmoor in 2001–02 and 2002–03. These are European Agriculture Guidance and Guarantee Fund (EAGGF) financial years which run from 16 October to 15 October.

EAGGF Year	*Value (£)*
2001–02	3,568,470.50
2002–03	3,889,458.00

Air Quality Strategy

Mrs. May: To ask the Secretary of State for Environment, Food and Rural Affairs what discussions she has had with the Department of Transport on the implications of the Ten Year Transport Plan for the Government's air quality strategy; and if she will make a statement. [162957]

Margaret Beckett: Officials in my Department and the Department for Transport are in regular contacts on the implications of a range of transport policies including the Government Ten Year Plan for Transport, on the Government air quality strategy and the two Departments' shared Air Quality Public Service Agreement.

Animal Fodder

Mr. Hancock: To ask the Secretary of State for Environment, Food and Rural Affairs how much animal fodder has been imported into *(a)* the UK and *(b)* the EU from developing countries in each of the last three years for which information is available. [164222]

Alun Michael: The following table shows imports into the UK and the EU of animal feeding stuffs from developing countries (as defined by the World Bank website) for 2000–02.

There are also imports of cereals from developing countries. However, with the data available, it is impossible to say what proportion of the cereals are for human consumption or to be used as animal feeding stuffs. Imports of cereals are excluded from the table for that reason.

UK and EU 15 imports of animal feeding stuffs from developing countries as classified by the World Bank 2000–02

Thousand tonnes

Countries	*2000*	*2001*	*2002*
UK	1,778	1,932	1,862
EU 15	21,750	24,199	25,019

UK data source: HM Customs and Excise

EU 15 data: Eurostat Comext Database, CD-Rom 2/2004 and 2/2003

Biodiversity

Mr. Meacher: To ask the Secretary of State for Environment, Food and Rural Affairs what steps she is taking to meet *(a)* the UK Biodiversity Action Plan targets and *(b)* the target adopted by EU Ministers in Gothenburg to halve biodiversity loss by 2010. [165067]

Mr. Bradshaw *[holding answer 1 April 2004]:* Work to meet the targets set for habitats and species as part of the UK Biodiversity Action Plan (UKBAP) is being undertaken at national, regional and local levels by a wide ranging partnership including Government, statutory agencies, conservation organisations and the private sector. Lead partners for the action plans will report on progress towards the targets in 2005.

In October 2002 the Government published "Working with the grain of nature": a biodiversity strategy for England[1]. The strategy aims to facilitate implementation of the UKBAP in England and to ensure that the implications for biodiversity as a whole are considered as an integral part of other key policies. It sets out a series of actions that will be undertaken by Government and their partners to make biodiversity a fundamental consideration in agriculture, water, woodlands, urban and the marine and coastal environment and in people's everyday lives.

Action undertaken as part of the strategy and the UKBAP will contribute to achieving the target adopted by EU Ministers to halt biodiversity loss by 2010. In addition, we have put in place a range of other biodiversity and sustainable development measures including our extensive network of protected sites and the development of agri-environment schemes. We have set challenging PSA targets to bring into favourable condition by 2010 95 per cent. of all nationally important wildlife sites; and to reverse the long term decline in the number of farmland birds by 2020.

[1] The Biodiversity Strategy for England can be found at http://www.defra.gov.uk/wildlife-countryside/ewd/biostrat/index.htm.

Biofuels Directive

Mrs. May: To ask the Secretary of State for Environment, Food and Rural Affairs what contribution her Department has made to the forthcoming Biofuels Directive consultation paper. [162958]

Margaret Beckett: The Department has had a number of discussions with the Department for Transport and other Departments about the consultation paper on the implementation of the Biofuels Directive.

Mrs. May: To ask the Secretary of State for Environment, Food and Rural Affairs what discussions she has had with the Department for Transport on the development of a biofuels obligation for the transport sector. [162959]

Margaret Beckett: The Department has had a number of discussions with the Department for Transport about the development of a biofuels obligation for the transport sector. In the recent Budget Report, my right hon. Friend the Chancellor of the Exchequer committed the Government to including this as one of the options in the consultation on the implementation of the Biofuels Directive in the UK.

Bovine TB

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs what differences there are in the *(a)* epidemiological pattern and *(b)* success of control measures in respect of bovine TB in cattle between Scotland and England. [158340]

Mr. Bradshaw: TB incidents in Scotland occur sporadically and tend to be geographically scattered across the country. They are generally associated with the introduction of infected cattle from Ireland or parts of England and Wales where TB is endemic. In contrast, most TB incidents in England occur in a number of traditional "TB hotspots" or endemic areas, thus showing a high degree of geographical clustering. Reactor numbers per incident and the proportion of confirmed incidents in Scotland are lower than in the endemic TB areas of England. This tends to make TB incidents in Scotland quicker to resolve by testing and removal of infected animals. Recurrent and chronic TB incidents are much more common in the endemically affected areas of England.

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs what plans she has to integrate cattle health data into the British Cattle Movement Service database to assist in tracking the TB test status of cattle. [158667]

Mr. Bradshaw: This is an option being considered in the development of our delivery plan for the implementation of the short term measures proposed in the consultation document published on 9 February, "Preparing for a new GB strategy on bovine tuberculosis."

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs to what factors she attributes the 20 per cent. annual increase in bovine TB. [158809]

Mr. Bradshaw: The 20 per cent. figure is the average annual increase in the number of TB reactors slaughtered for the period 1990 to 2001. The average number of herd breakdowns over the same period is 18 per cent.

In countries where there is no significant wildlife reservoir, cattle controls based on regular tuberculin testing, culling, movement restrictions (including tracing and contiguous testing) and slaughterhouse checks have been effective in controlling the disease. In many European Union countries, TB incidents in cattle herds are at a very low level.

In some parts of Great Britain, however, current cattle control measures are not proving effective in controlling the disease. It is not possible at present to quantify those elements of local disease spread that are due to wildlife as opposed to cattle spread, or to other factors.

The randomised badger culling trial, together with the related road traffic accident survey of badger carcases, and spoligotyping of Mycobacterium bovis strains, will provide further data on how the disease is spread. The TB99 epidemiological questionnaire has been designed to assess factors that might predispose herds to a TB breakdown, and their relative importance. The results of analyses of data collected up to 2002 should be published later this year.

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs what estimate she has made of the potential value of additional trade to the farming community if the United Kingdom regained its status as a TB-free area. [159056]

Mr. Bradshaw: The United Kingdom has never held officially tuberculosis free (OFT) status, as defined in EU Directive 64/432/EEC, and no estimate has been made of the potential value to the farming community of additional trade if OFT status were to be achieved.

Mr. Paterson: To ask the Secretary of State for Environment, Food and Rural Affairs whether her Department has sold beef carcases derived from animals purchased as a result of positive TB tests. [159293]

Mr. Bradshaw: Defra will sell any beef carcases that are passed fit for human consumption. Meat Hygiene Service officials will inspect all carcases and associated offals at licensed slaughterhouses, including reactor animals.

Carcases of TB reactors without visible lesions will be passed fit for human consumption, provided they otherwise meet the standard for post-mortem inspection.

In cases where there are localised lesions the officials will remove any TB affected organ or part of a carcase and the rest of the carcase will normally pass as fit for human consumption, unless another problem is found which makes it unfit.

Where TB lesions have been discovered in more than one organ or parts of the carcase, the whole carcase, offals and blood are rejected as being unfit for human consumption.

Cattle over 30 months old are not used for food.

Carbon Dioxide

Mr. Watson: To ask the Secretary of State for Environment, Food and Rural Affairs if she will list carbon dioxide levels in the earth's atmosphere for each of the last 10 years. [165256]

Mr. Morley: The table shows atmospheric carbon dioxide (CO_2) concentrations in parts per million (ppm) from 1993 to 2002. Average annual data for 2003 are not yet available.

The data presented are from air samples collected at the Mauna Loa Observatory, Hawaii, which is considered one of the most favourable locations in the world for measuring representative concentrations of atmospheric CO_2.

	Annual atmospheric CO_2 (ppm)
1993	357.10
1994	358.86
1995	360.90
1996	362.58
1997	363.84
1998	366.58
1999	368.30
2000	369.47
2001	371.03
2002	373.07

Climate Change

Sue Doughty: To ask the Secretary of State for Environment, Food and Rural Affairs which *(a)* research on climate change and *(b)* climate change models her Department has used in the development of policy on climate change. [165282]

Mr. Morley: The Department draws on a wide body of research in developing policy on climate change, including primarily the assessments of research by the intergovernmental Panel on Climate Change and the results of research commissioned by my Department. It also draws on research undertaken by the Research Councils and commissioned by other Government departments for their own requirements. The development and use of climate prediction models by the Met Office's Hadley Centre forms a significant component of the Department's commissioned research programme and such models contribute to the development of policy on climate change.

Sue Doughty: To ask the Secretary of State for Environment, Food and Rural Affairs what assessment she has made of the impact of climate change on the yield of the principal crops grown in the United Kingdom over the next 50 years. [165283]

Mr. Morley: Over the past 15 years a considerable amount of research has been funded, through both MAFF and Defra, on Climate Impacts on Agriculture—including effects on crop yields.

A summary of the research was published in February 2000 entitled: "Climate Change and Agriculture in the United Kingdom" which is available online at http://www.defra.gov.uk/environ/climate/climatechange/index.htm.

Research in this area is ongoing and further information is available on both the Farming and Science pages of the Defra website.

Sue Doughty: To ask the Secretary of State for Environment, Food and Rural Affairs pursuant to her Answer of 10 March 2004, *Official Report*, column 1532W, on climate change, when she expects the process of departmental reporting on the implications of climate change to be completed; and if she will place copies of the reports in the Library. [165288]

Mr. Morley: A report on the outcome of the process is expected to be published later in 2004, and copies will then be placed in both Libraries.

Norman Baker: To ask the Secretary of State for Environment, Food and Rural Affairs what the average length of the growing season was in *(a)* 1974, *(b)* 1984, *(c)* 1994 and *(d)* 2003 (i) in England and (ii) broken down by county. [165751]

Alun Michael: In responding, we are using the definition of the growing season in England to be the longest period within a year which:

Starts—the first day in a period of five consecutive days during the spring when the daily average temperature was greater than 5.5°C, and

Ends—the day before a period of five consecutive days in the autumn/winter when the daily average air temperature was less than 5.5°C.

The 20th century warming over central England has resulted in a lengthening of what is known as the thermal growing season by about one month.

Most of the increase took place in two distinct phases. The first took place between 1920 and 1960, and the second between 1980 and 2000.

The longest thermal growing season occurred in 2000 when it extended for 328 days. The thermal growing season is now longer than at any time since the start of the daily temperature series in 1772.

Accurate data by county are not available.

For further information please refer to the UKCIP02 Scientific Report (specifically page 10, Figure 7), available online: http://www.ukcip.org.uk/scenarios/sci_report/sci_report.html.

Coastal Defence

Mr. Bellingham: To ask the Secretary of State for Environment, Food and Rural Affairs how much and what percentage of revenue received from aggregate dredging has been *(a)* put back into the coastal defence budget and *(b)* made available for coastal defence compensation in each of the last five years. [163573]

Mr. Morley: The Crown Estate receives revenue from dredging companies for all the marine aggregates that they extract from the seabed that the Crown Estate owns or over which it has mineral rights. All surplus revenue raised by The Crown Estate is passed directly to the Exchequer for the benefit of all UK taxpayers.

There is no direct link between surplus revenues and the Government's budget for coastal defence. Defra does not allocate funds to be spent on coastal damage compensation.

In addition, all producers of aggregates, both onshore and offshore are liable to the aggregates levy. A proportion of this levy is disposed to the Aggregates Levy Sustainability Fund, which finances research to improve the sustainability of aggregate production, including a substantial programme of marine environmental studies to reduce the impacts of dredging.

Coastal Erosion

Mr. Gummer: To ask the Secretary of State for Environment, Food and Rural Affairs what estimate she has made of the effects of *(a)* managed retreat and *(b)* managed realignment in the Suffolk, Coastal constituency. [163752]

Mr. Morley: I have made no such estimates.

The relevant operating authorities, the Environment Agency (EA), Suffolk Coastal District Council and Waveney District Council, produced a Shoreline Management Plan (SMP) in 1998 for the coastline between Lowestoft and Harwich setting out recommended coastal defence policies. It is due to be reviewed later this year.

There were four strategic options included in the SMP: "Do Nothing", "Hold the Existing Line", "Advance the Existing Line" and "Retreat the Existing Line".

There are two main stretches of coastline in the Suffolk, Coastal constituency where the recommended policy is to retreat the existing line. They are:

(i) from Benacre to Easton Bavents, and

(ii) from Walberswick to north of Sizewell Power Station.

Mr. Gummer: To ask the Secretary of State for Environment, Food and Rural Affairs what estimate she has made of the *(a)* speed and *(b)* extent of coastal erosion in the Suffolk Coastal constituency at (i) Covehithe, (ii) Dunwich and (iii) Bawdsey. [163754]

Mr. Morley: I have made no such estimates. This Department has policy responsibility for flood and coastal defence but local operating authorities are responsible for monitoring the coastline and considering what measures to take. However the Department has provided grant aid to the operating authorities for studies on coastal processes which will inform the review of the Shoreline Management Plan for this frontage which will commence later this year.

The current SMP shows the predicted coastline in the year 2073 and gives the estimated value of the total land at risk through projected erosion as £6.26 million.

Mr. Gummer: To ask the Secretary of State for Environment, Food and Rural Affairs (1) what estimate she has made of the value of the land and buildings in the Suffolk Coastal constituency that will be lost in the next *(a)* 10, *(b)* 25 and *(c)* 50 years under current sea defence policies; [163755]

(2) what information and advice she has given to the owners and occupiers of homes and farmland at East Lane, Bawdsey, about the protection she will afford them by way of coastal defences. [163756]

Mr. Morley: Defra officials have replied to correspondence about East Lane, Bawdsey, by explaining the relative responsibilities of the Department and local operating authorities, and the arrangements for funding improved defences within a national priority system.

I understand that the Environment Agency (EA) have also corresponded with and met local residents, including landowners, Internal Drainage Board members and the Parish Council. The EA has provided advice on the short term and longer term options for the management of sea defences at East Lane, Bawdsey.

The EA and Suffolk Coastal District Council jointly held a public meeting on 17 June 2003 when the situation at East Lane was explained to local residents.

Residents of properties at risk in areas of flooding have been offered the opportunity to receive a direct warning of flooding from the EA.

Mr. Gummer: To ask the Secretary of State for Environment, Food and Rural Affairs (1) at what point between the sea and the village of Bawdsey she intends to protect the coastline; how much land she expects to lose before that point is reached; and what time scale she envisages for that erosion; [163757]

(2) when she expects to define the shoreline in Bawdsey, Suffolk, that she will defend. [163758]

Mr. Morley: These are primarily matters for the local operating authorities.

The Shoreline Management Plan (SMP) published in 1998 showed the predicted coastline position in the year 2073 (ie 75 years from the date the plan was prepared).

For the coastal frontage at Bawdsey the SMP recommended policy was to hold the existing line in the short term. I understand that the subsequent studies undertaken since have confirmed this policy but this will no doubt be considered again this year's review of the SMP. However consideration of Defra funding for any improved defences is dependent on those defences meeting the technical, economic and environmental criteria and achieving an appropriate priority score.

Mr. Gummer: To ask the Secretary of State for Environment, Food and Rural Affairs what discussions her Department has held with the Department for Culture, Media and Sport on the historic importance of Martello towers. [164250]

Mr. Morley: Defra has had no direct discussion with the Department for Culture, Media and Sport on the specific issue of Martello towers. English Heritage (EH) is the Government's statutory adviser on matters concerning the conservation of England's historic built environment and is represented on Defra's Stakeholder Forum to inform the Government's new Strategy for Flood and Coastal Erosion Risk Management. Defra consults EH as necessary and did so for example during development of guidance on environmental appraisal of flood and coastal defence projects and of the priority scoring system for flood and coastal defence projects for Defra grant aid.

Economic justification for proposed defences should take benefits arising from protection of such assets into account as far as possible. A small specific allowance is made for protection of heritage assets in the priority scoring system.

I understand the Environment Agency has consulted EH as part of the consultation process for the development of proposals to protect assets, including a Martello tower, at East Lane, Bawdsey in the right hon. Member's constituency.

Mr. Gummer: To ask the Secretary of State for Environment, Food and Rural Affairs what value she places on the preservation of the line of Martello towers from Felixstowe to Aldeburgh. [165488]

Mr. Morley: Defra has not found it necessary to allocate a specific value to these particular assets as part of general policy development or implementation. In the context of reducing the risk of flooding or coastal erosion to such assets, it would fall to the relevant operating authorities—Environment Agency or local authority—to decide upon appropriate measures and the extent to which the benefits to be gained from investing in defences would justify the cost.

Proposals to use Defra grant aid for the purpose must meet the Department's economic, technical and environmental criteria and achieve the threshold priority score for the year in which the works start. Economic justification for proposed defences should take benefits arising from protection of assets into account as far as possible. The Department has recognised the need to preserve national heritage and a small specific allowance is made for protection of heritage assets in the priority scoring system.

Conferences/Seminars

Miss McIntosh: To ask the Secretary of State for Environment, Food and Rural Affairs what plans have been made in the last three months for conferences and seminars by agencies of her Department; what the total cost was of organising each of those events; and how many people attended in each case. [161391]

Alun Michael: Records of conferences and seminars held by the Defra Agencies are not available centrally and could be obtained only at disproportionate cost.

Miss McIntosh: To ask the Secretary of State for Environment, Food and Rural Affairs what plans have been made in the last three months for internal conferences and seminars to be attended by staff of her Department; what the total cost was of organising each of those events; and how many people attended in each case. [161392]

Alun Michael: The following conferences and seminars for internal staff for which records are held centrally are as follows:

Flood management. Number attended, approximately 64. Total cost £2,038, including audio and video for webcasting.

Lessons of the Foot and Mouth outbreak. Number attended, approximately 100. Total cost £2,232 including audio and video for webcasting.

Support for rural businesses. Number attended approximately 35, cost about £500. These three are part of a programme of seminars hosted by the Permanent Secretary covering a variety of subjects of relevance to Defra policy and its change programme, to which all staff are invited.

A conference for Defra's Senior Civil Service. Number attended, approximately 200. Cost £22,696.98 (including VAT).

Five science seminars. Number attended ranged from 50 to 120, average 81, total cost about £200. These are part of a continuing programme of science seminars hosted by Defra's Chief Scientific Adviser, which are held once a month.

Pre-retirement two-day seminars in London and Lowestoft. Total number attended, 49. Total cost approximately £1,770. These are part of an on-going programme of seminars to help Defra staff prepare for retirement.

Sustainable development seminars, one held already, another two planned. There were 23 attendees at the first, cost (for food) £242.58. The second is expected to have the same number of attendees and roughly the same cost. A third, larger seminar in May is expected to attract 54 people and to cost £585.50.

Seminar on public procurement. Number attended, approximately 120. No costs other than staff costs.

Two state aids seminars, to explain the Block Exemption Regulations. Number attended, approximately 90. Total cost, for refreshments, about £60.

An agriculture, food and fisheries Forward Look EU seminar, important for Defra, UKRep and UK attaches overseas. Number attended, 80. Cost approximately £900.

The costs above do not include staff costs.

Departmental Officials

Mr. Cousins: To ask the Secretary of State for Environment, Food and Rural Affairs which former officials of the Department have asked for permission to join *(a)* PricewaterhouseCoopers, *(b)* Deloitte & Touche, *(c)* Ernst & Young and *(d)* KPMG. [156890]

Alun Michael: Since Defra was created in 2001 there have been no requests made by Defra officials for permission to join *(a)* PricewaterhouseCoopers, *(b)* Deloitte & Touche, *(c)* Ernst & Young or *(d)* KPMG.

All civil servants are subject to the Business Appointment Rules as detailed in the Civil Service Management Code, which set out the circumstances in which they must seek permission to accept outside appointments within two years of leaving the Service. A copy of the Rules is available in the Libraries of the House. Information about appointments taken up by the most senior staff are published in the annual reports of the Advisory Committee on Business Appointments. The next annual report will be published shortly.

Ducks

Mr. Hancock: To ask the Secretary of State for Environment, Food and Rural Affairs what plans she has to adopt the recommendation from the Council of Europe Standing Committee for the Protection of Animals Kept for Farming Purposes concerning domestic ducks. [164184]

Mr. Bradshaw: A revised Code of Recommendations for the Welfare of Livestock: Ducks, is due to go out for public consultation shortly. The draft takes account of Council of Europe recommendations on Domestic Ducks and Muscovy Ducks (1999).

Energy Efficiency

Brian White: To ask the Secretary of State for Environment, Food and Rural Affairs what discussions she has had with the Scottish Executive about the pledge made in Building a Better Scotland: Spending Proposals 2003–06, to reduce the number of homes with poor energy efficiency standards by 20 per cent. by 2006; and if she will adopt a similar policy for English homes. [161201]

Mr. Morley: The Government set out their goals for improving energy efficiency in the Energy White Paper and will publish their Energy Efficiency Implementation Plan shortly. This will set out the policies and programmes for delivering energy efficiency, including in the household sector, where a key element includes the Government's target to ensure all social homes reach set standards of decency by 2010. Ministers have had no discussions with the Scottish Executive about their pledge.

Sue Doughty: To ask the Secretary of State for Environment, Food and Rural Affairs what energy rating is necessary to enable a household to be removed from fuel poverty. [165279]

Mr. Morley: This will depend on the characteristics of an individual household. However, research has shown that bringing homes to a SAP rating of 65 is a level at which there is minimal risk of a household being in fuel poverty.

Exmoor Deer

Mr. Gray: To ask the Secretary of State for Environment, Food and Rural Affairs what discussions

she has had with the Exmoor Deer Management Society about the condition of deer at the Baronsdown sanctuary. [165178]

Mr. Bradshaw: I am not aware of any discussions between the Department and the Exmoor Deer Management Society on this matter.

Farm Subsidies (West Derbyshire)

Mr. McLoughlin: To ask the Secretary of State for Environment, Food and Rural Affairs what the total amount of money paid in subsidies to farmers in West Derbyshire was in *(a)* 2001–02 and *(b)* 2002–03; and what the estimated total amount paid in subsidies to farmers in West Derbyshire will be in 2012. [163747]

Alun Michael: The following table shows the total amount of money paid in subsidies to farmers in South and West Derbyshire in 2001–02 and 2002–03. The Rural Payments Agency (RPA) is unable to provide figures solely for West Derbyshire as the NUTS (Nomenclature of Territorial Units for Statistics) coding structure used for regional analysis does not contain a code for West Derbyshire. The nearest regional code is for South and West Derbyshire to which the figures in the table refer.

Due to the on-going changes resulting from the Common Agricultural Policy Mid Term Review, it is not possible for RPA to estimate a figure for subsidies that will be paid to farmers in West Derbyshire in 2012.

The European Agriculture Guidance and Guarantee Fund (EAGGF) financial year runs from 16 October to 15 October.

EAGGF year	*Amount (£)*
2001–02	2,615,536
2002–03	3,293,758

Fertilisers

Mr. Tyrie: To ask the Secretary of State for Environment, Food and Rural Affairs what account is taken in the procedures for assessing the risks to public health from agricultural spraying of *(a)* long-term exposure to pesticides in the air, excluding spraydrift, *(b)* exposure to pesticides via precipitation, *(c)* exposure to pesticides transported from outdoor applications and redistributed into an indoor air environment, *(d)* exposure to mixtures of pesticides and other hazardous chemicals per spraying application, *(e)* the effect on vulnerable groups with particular reference to (i) babies, (ii) children, (iii) pregnant women, (iv) the elderly and (v) those with pre-existing medical problems and chemical sensitivity and *(f)* the effect of exposure to pesticides in the (A) short and (B) long term for domestic animals situated in or near sprayed fields. [165694]

Alun Michael: The UK's pesticide approval system provides robust safeguards to protect the public against health risks—a view that is endorsed by independent scientists on the Advisory Committee on Pesticides. Before any pesticide can be used it must first be proved that it is safe to humans, wildlife and the environment. Companies wishing to obtain approval for the marketing and sale of pesticide products are required to submit substantial data dossiers, covering, among other things, their effects on the environment and non-target species, safety in use and any residues they may leave in food.

Mr. Tyrie: To ask the Secretary of State for Environment, Food and Rural Affairs whether the Minister for Rural Affairs has seen in full the video evidence and written documentation submitted by Georgina Downs to the recent departmental consultation on proposals for the introduction of no-spray buffer zones between spraying areas and residential properties in England and Wales. [165707]

Alun Michael: I have watched both of the videos that Georgina Downs submitted as part of her response to this consultation. I shall also consider fully the written submission provided by Ms Downs once I have received the Pesticide Safety Directorate's analysis of all of the responses to the consultation.

Green Landlord Scheme

Mrs. May: To ask the Secretary of State for Environment, Food and Rural Affairs what discussions her Department has had with HM Treasury on the elements of a green landlord scheme; and if she will make a statement. [162955]

Margaret Beckett: Defra and HM Treasury officials have been working together closely on a consultation on the use of economic instruments to promote household energy efficiency. As part of this process, the green landlord scheme was discussed at Ministerial level prior to the Budget.

Green Minister

Sue Doughty: To ask the Secretary of State for Environment, Food and Rural Affairs what work her Department's Green Minister has undertaken in an official capacity in the last three months. [165654]

Mr. Morley: My noble Friend, the Lord Whitty, is Defra's Green Minister and, as part of this role, is a member of the Ministerial Sub-Committee of Green Ministers. I chair the Sub-Committee. However, it has been established practice under successive Governments not to disclose information relating to the proceedings of Cabinet Committees. This practice is now formalised by Exemption 2 of Part II of the Code of Practice on Access to Government Information.

Sustainable development is the overarching aim of Defra. Therefore, the work of all Defra's Ministers, including the Green Minister, contributes to this aim. Consequently, it is not possible to separate the role of the Green Minister from Lord Whitty's other work over the last three months.

An important piece of work within the Department over the last year has been the review of the 1999 UK Strategy on Sustainable Development. This work is culminating in a consultation on a new strategy which is to be launched at an event on 21 April 2004.

Sue Doughty: To ask the Secretary of State for Environment, Food and Rural Affairs what meetings her Department's Green Minister has attended in an official capacity in the last 12 months. [165655]

Mr. Morley: My noble Friend, the Lord Whitty, is Defra's Green Minister and, as part of this role, is a member of the Ministerial Sub-Committee of Green Ministers. I chair the Sub-Committee. However, it has been established practice under successive Governments not to disclose information relating to the proceedings of Cabinet Committees. This practice is now formalised by Exemption 2 of Part II of the Code of Practice on Access to Government Information.

With regard to other meetings attended over the last 12 months, sustainable development is the overarching aim of Defra. Meetings attended by Lord Whitty over the last 12 months, whether or in his capacity as Green Minister, contribute to this aim. Therefore, it is not possible to differentiate from meetings attended in the official capacity as Green Minister or in other roles.

Sue Doughty: To ask the Secretary of State for Environment, Food and Rural Affairs if she will list the meetings at which a representative of her Department was present regarding the delivery of sustainable development across Government as co-ordinated by the Ministerial Sub-committee of Green Ministers. [165656]

Mr. Morley: My noble Friend, the Lord Whitty, is a member of the Ministerial Sub-Committee of Green Ministers. However, it has been established practice under successive Governments not to disclose information relating to the proceedings of Cabinet Committees. This practice is now formalised by Exemption 2 of Part II of the Code of Practice on Access to Government Information.

There are many meetings held to take forward the business of sustainable development at which officials are present. It would take disproportionate resources to gather this information from across the Department.

Greenhouse Gases

Sue Doughty: To ask the Secretary of State for Environment, Food and Rural Affairs what discussions she has had with her international counterparts on the use of contraction and convergence to reduce global levels of greenhouse gas emissions; and if she will make a statement. [165270]

Mr. Morley: At the UN climate change negotiations in Milan last December the UK, as part of the EU, sought to open a technical dialogue on Contraction and Convergence and other approaches. The purpose was to start technical discussions on different methodologies to promote better understanding and build capacity. Unfortunately, we were not able to secure the necessary support to take this forward. In bilateral discussions, the UK continues to exchange views with other countries on how to promote further action post-2012, when the first commitment period of the Kyoto Protocol ends.

Mr. Drew: To ask the Secretary of State for Environment, Food and Rural Affairs what estimates she has made of the emissions of greenhouse gases in million tonnes of carbon equivalent from UK coal-fired power generation in the last three years for which figures are available; and what estimate she has made of emissions for the next three years. [165453]

Mr. Morley: Greenhouse gas emissions from UK coal fired power stations were 26.6, 29.3 and 27.4 million tonnes of carbon equivalent in 2000, 2001 and 2002 respectively. These data include emissions of carbon dioxide, methane and nitrous oxide weighted together using global warming potentials. Provisional data suggest that emissions from coal fired power stations were 30.6 million tonnes of carbon equivalent in 2003. Emissions projections are not available by individual year and are currently being revised. Initial results made available in July 2003 suggest that emissions from coal powered power stations will be about 26 million tonnes of carbon equivalent in 2005. Further results will be available soon.

Hazardous Waste

Sue Doughty: To ask the Secretary of State for Environment, Food and Rural Affairs pursuant to the answer of 11 March 2004, *Official Report*, column 1620W, on hazardous waste, how the predicted number of 750,000 active producers of hazardous waste following the implementation of the revised European hazardous waste list was reached; and how she will alert the newly included producers to the inclusion of their waste arisings on the new list. [164078]

Mr. Morley: The Environment Agency commissioned work from consultants to inform work on the transition from the current Special Waste regime to the Hazardous Waste regime. The predicted number of 750,000 active producers of hazardous waste was derived from an analysis of the available data on the expected types of newly hazardous wastes correlated with an assessment of the numbers of those businesses likely to produce such waste.

The Department is working with key stakeholders in the Hazardous Waste Forum including the Environment Agency the Department for Trade and Industry and Federation of Small Businesses to ensure that awareness of these changes will be brought to the attention of affected businesses.

HFCs

Sue Doughty: To ask the Secretary of State for Environment, Food and Rural Affairs if she will make a statement on the effect of the voluntary policy of reducing leakage of hydrofluorocarbons. [165274]

Mr. Morley: The voluntary policy on reducing leakage of hydrofluorocarbons has had a positive impact in terms of raising awareness. Industry stakeholders are now much more aware of the environmental threat posed by these gases, and they are actively pursuing a strategy of emission reduction.

A recent study commissioned by Defra, (AEAT/ED50090/R01) calculated projected hydroflurocarbon emissions for the period 2005–25. The study estimated that the voluntary leakage reduction policy could reduce emissions of fluorinated gases, including hydrofluorocarbons, by approximately 3 millions tonnes of carbon equivalent over this period.

Sue Doughty: To ask the Secretary of State for Environment, Food and Rural Affairs what proposals she has to reduce leakage of hydrofluorocarbons. [165275]

Mr. Morley: The UK is currently negotiating with other European Union Member States a proposal for a Regulation of the European Parliament and of the Council on certain fluorinated greenhouse gases. This Regulation is a key part of the first phase of the European Climate Change Programme. It will put in place a legislative framework to reduce emissions of hydrofluorocarbons (HFCs), perfluorocarbons (PFCs) and sulphur hexafluoride (SF6), which are powerful greenhouse gases covered by the Kyoto Protocol.

The Regulation will introduce specific measures related to the containment, use and recovery of fluorinated gases, together with a general obligation to take all abatement measures that are technically feasible and cost-effective. In addition the Regulation will provide for restrictions on the placing on the market of some products and equipment that contain fluorinated gases, and a reporting regime for producers, importers and exporters.

Mr. Drew: To ask the Secretary of State for Environment, Food and Rural Affairs what estimate she has made of the emissions of hydrofluorocarbons in each year since 1995 from mobile and vehicle air conditioning; and what the forecasts are for future years. [165452]

Mr. Morley: A 2003 report commissioned by Defra indicated that emissions of hydrocarbons (MFC 134a) rose steadily from 1995–2000, from approximately 140 tonnes in 1995 to approximately 600 tonnes in 2000. This rise was due to the rapid growth of MFC-based mobile air conditioning (MAC) systems in new passenger vehicles from 10 per cent. in 1990 to 50 per cent. in 2000.

The report forecast that MFC based MAC systems would be fitted to approximately 75 per cent. of new cars by 2010, and associated emissions would continue to rise to a peak of approximately 1,270 tonnes of MFC 134a in 2010.

The proposed new EC Regulation on certain fluorinated greenhouse gases includes provisions which would lead to a phase out from 2009 of air conditioning systems with fluorinated gases with a global warming potential higher than 150.

The Government have made it clear that they welcome the overall aim of the draft Regulation to reduce emissions of the powerful greenhouse gases that it covers and the environmental benefits that will be delivered. These reductions in emissions will form part of the wider efforts being taken to combat climate change.

Hunting Trophies

Mrs. Curtis-Thomas: To ask the Secretary of State for Environment, Food and Rural Affairs what investigations are conducted to ascertain whether hunting trophies have been obtained illegally. [164401]

Mr. Morley: All applications for permits are referred to the UK's Authority for advice on the conservation status of the species concerned. An applicant wishing to import a hunting trophy from an endangered species would need to provide a copy of the export permit issued by the exporting country. This is regarded as proof of legal acquisition and without this an import permit would not be authorised.

Mrs. Curtis-Thomas: To ask the Secretary of State for Environment, Food and Rural Affairs how many times in the last five years the import of hunted trophies has been refused where there was evidence that the animals had been taken illegally. [164402]

Mr. Morley: I am not aware of any applications in the last five years to import hunting trophies which were acquired illegally.

Ice Caps

Norman Baker: To ask the Secretary of State for Environment, Food and Rural Affairs what change there has been in the percentage of ice cap cover in *(a)* Antarctica and *(b)* the Arctic in each year since 1974; and what total (i) area and (ii) volume the change between 1974 and 2003 represents. [165747]

Mr. Morley: The following tables show:

Percentage change in sea ice area for the southern and northern hemispheres from 1975 to 2003, relative to 1974.

Change in sea ice area in million square kilometers for the southern and northern hemispheres from 1975 to 2003, relative to 1974.

There is no significant trend in area coverage of Antarctic sea ice. Arctic sea ice shows a downward trend of approximately 2.9 per cent. per decade.

Observations of ice thickness are not routinely available, and consequently it is not possible to construct a description of the annual volume change. From the limited data available there are indications that there is a downward trend in Arctic sea ice volume of 4 per cent. per decade.

Graphs showing the change in sea ice area have been placed in the Library of the House. Note that reliable satellite measurements of sea ice area have been available only since 1978. The apparent rapid change in sea ice in the 1970s is partly due to the change from the previous sparse ship observations to the routine satellite measurements.

Percentage change in sea ice area relative to 1974

Year	*Antarctica*	*Arctic*
1975	-4.2	-0.6
1976	-8.9	1.2

2003	-0.604	-0.79

Ivory Sales

Mr. Watson: To ask the Secretary of State for Environment, Food and Rural Affairs if she will make a statement on the decision under the Convention on International Trade in Endangered Species to demand that all African states ban domestic ivory sales. [165252]

Mr. Morley: While the CITES Secretariat did call for a ban on domestic ivory sales in African states, the CITES Standing Committee decided that this matter required further consideration by the range states and that the final decision should be referred to the 13th Conference of CITES Parties, which is to take place in Bangkok in October.

The fact that there are unregulated internal markets for ivory in certain parts of Africa is a matter of major concern and I await with interest the Secretariat's proposals for dealing with this matter.

Kyoto

Bob Spink: To ask the Secretary of State for Environment, Food and Rural Affairs what progress has been made in the last year towards meeting the Kyoto targets; and if she will make a statement. [163595]

Mr. Morley: The UK's target under the Kyoto Protocol is to reduce its greenhouse gas emissions to 12.5 per cent. below base year levels by 2008–12. (The base year is 1990 for carbon dioxide, methane and nitrous oxide, and 1995 for fluorinated compounds.)

UK emissions in 2002, the most recent year for which final data are available, were 15.3 per cent. below the base year level. Provisional estimates made by my Department suggest that in 2003 UK emissions were between 14 and 15 per cent. below those in the base year. The increase on the previous year was linked to greater consumption of coal relative to natural gas for electricity generation. We believe on the basis of projections, including the effects of policies under the UK Climate Change programme, that the downward trend in emissions will be resumed, and that the Kyoto target will be met.

The European Community's target under the Kyoto Protocol is to reduce its greenhouse gas emissions by 8 per cent. below the base year level. In 2001, the last year for which data is available, EC emissions had decreased by 2.3 per cent. from the base year level.

Marine/Coastal Pollution

Norman Baker: To ask the Secretary of State for Environment, Food and Rural Affairs how many incidents in the last year for which figures are available of *(a)* marine pollution and *(b)* coastal pollution have resulted in (i) court actions and (ii) fines; and what the nature and level of conviction and financial penalty was in each case. [162899]

Mr. Morley: Several Departments and Agencies are responsible for incidents of coastal and marine pollution in English and Welsh waters depending on the source of the pollution. In 2003 the Maritime and Coastguard Agency took one successful court action which resulted in a £30,000 fine. Information about marine pollution from land based sources is available from the Environment Agency.

Nappies

Norman Baker: To ask the Secretary of State for Environment, Food and Rural Affairs (1) what estimate she has made of the average annual cost to a waste disposal authority of the disposal in landfill sites of disposable nappies; what discussions she has had with local authorities about ways of reducing those costs; what steps she takes to promote best practice in such matters; and if she will make a statement; [161854]

(2) what estimate she has made of the tonnage of disposable nappies that was disposed of in landfill sites in the last five years; what percentage of that tonnage is represented by *(a)* faeces and urine and *(b)* the original weight of the nappy; and what assessment she has made of the public health implications of the disposal in landfill sites of the untreated raw sewage in disposable nappies; [161855]

(3) what steps her Department takes to promote the uptake of reusable nappies; [161856]

(4) what initiatives she plans to reduce the impact upon the environment of the use of disposable nappies. [161911]

Mr. Morley: West Sussex County Council's scheme promoting re-usable nappies was included in the Municipal Waste Management Strategies Guidance published by the then DETR in 2001. West Sussex estimated that the cost of disposing of nappies to them was between £280,000 and £430,000 per annum.

The Strategy Unit in its report "Waste Not Want Not" estimated that in 2000–01 nappies comprised around 2 per cent. of household waste, equivalent to 350,000 tonnes.

Medical and related scientific studies show a wide range for the production of urine and faeces from children of different ages and these figures are currently being investigated as part of the Environment Agency study on the life cycle impacts of disposable and reusable nappy systems which will report in the summer.

Properly regulated landfill is a proven method of dealing with waste safely and can be relied on if alternative methods of dealing with waste are not provided. Our view is that good waste management practice adequately regulated can and does cope with disposable nappies.

Following the publication of the Strategy Unit report "Waste Not Want Not" the Government accepted the recommendation that the Waste and Resources Action Programme (WRAP) should take forward (as part of an overall waste minimisation initiative) work on supporting re-usable nappies through the provision of support for new businesses and information to parents. The details of the programme are still being worked up.

The aim of the WRAP programme is to achieve an average diversion of 225 kg/yr per participating household. WRAP'S target is to convert 155,000 households to re-usable nappies by end of fiscal year 2006. This is an ambitious target and if achieved would create a reduction in household waste of 35,000 tonnes.

Sue Doughty: To ask the Secretary of State for Environment, Food and Rural Affairs what assessment she has made of the merits of including disposable nappies in the criteria for hazardous waste. [164491]

Mr. Morley: For a waste to be classified as "hazardous", it must normally be listed as such in the European Waste Catalogue. Nappies are not listed as hazardous. It is open to member states to determine that other wastes are hazardous where these display one or more of the hazardous properties specified in the Hazardous Waste Directive at above the thresholds the directive specifies. Waste such as nappies would be considered under property H9 (infectious). However, to be considered hazardous there would need to be a high risk that infectious substances were present in the waste at a concentration above that naturally encountered. Since the source population for household waste is healthy, the risk of infection is very low and nappies do not therefore meet the criteria necessary for a "hazardous" classification.

Organic Farming

Mr. Hancock: To ask the Secretary of State for Environment, Food and Rural Affairs if she will increase support for farmers to grow an increased *(a)* range and *(b)* quantity of organic produce. [164225]

Mr. Bradshaw: Aid for organic farmers was extended in May last year with the introduction of ongoing payments under the Organic Farming Scheme. It is proposed to further develop aid through the organic strand of the Entry Level Agri-Environment Scheme which will shortly be submitted for approval by the European Commission and which is expected to be launched in 2005.

Over-thirty-month Scheme

Mr. Drew: To ask the Secretary of State for Environment, Food and Rural Affairs what response she has made to the recent Food Standards Agency proposal to end the Over-Thirty-Month Scheme. [164466]

Mr. Bradshaw: My right hon. Friend, the Secretary of State, has welcomed the recommendation by the Food Standards Agency that the Over Thirty Month (OTM) rule could be replaced with a system of testing OTM animals for the food chain. UK Rural Affairs Ministers have decided that animals born before August 1996 should not be allowed back into the food chain because of difficulties associated with tracing and culling the cohorts of cases born before this date.

Peat

Mr. Gummer: To ask the Secretary of State for Environment, Food and Rural Affairs if she will make a statement on the *(a)* funding and *(b)* resources provided for the peat replacement section of her Department. [163893]

Mr. Bradshaw: Since April 2002 the Department has provided some £15.97 million, and over the next two years will make available a further £3.01 million to English Nature, to support the conservation of peat resources by bringing to an end commercial peat extraction which was threatening three important nature conservation sites in the north of England.

We have also provided funding to the Waste Resources Action Programme (WRAP) to enable them to carry out work to develop markets for composted materials, which can be used as alternative growing media. The total budget for WRAP's Kerbside Collection and Organics Market Development Programme is £14.9 million spread over the financial years 2003–04, 2004–05 and 2005–06.

Staff resources involved in work on peat replacement issues represent a proportion of a single staff year, linked to broader biodiversity aims as set out in Working with the Grain of Nature—a Biodiversity Strategy for England. The team concerned will have some increase in administration resource in 2004–05 and we are considering how best to apply this.

Mr. Gummer: To ask the Secretary of State for Environment, Food and Rural Affairs when the figures for progress on peat replacement for 2003 will be published. [164248]

Mr. Bradshaw: The latest information on monitoring of peat and alternative products for growing media and soil improvers in the UK was published by the Office of the Deputy Prime Minister in 2003. My Department now has responsibility for this issue. We are considering arrangements for a further monitoring exercise later this year with a view to publishing the data in 2005.

In the meantime we have commissioned ADAS to produce a report this summer which will provide details of the current use of peat and growing media alternatives in the commercial horticulture sector in England.

Prittle Brook Sewerage

Bob Spink: To ask the Secretary of State for Environment, Food and Rural Affairs if she will investigate the operation of the Prittle Brook sewerage system; and if she will instruct Ofwat to bring forward its repair. [165381]

Mr. Morley: I understand that the current foul water sewerage system has on several occasions resulted in discharges to Prittle Brook. The situation has been further exacerbated by heavy rainfall and surface water infiltration.

We are aware that Anglian Water has increased its investment in the local network and initiated a number of operational changes and studies e.g. the installation of non-return valves and the removal of tree roots, damaging the sewers.

Each of the water and sewerage companies, including Anglian Water, will be submitting their business plans later this month setting out their investment proposals for the period 2005–10. These plans incorporate the repair and maintenance of sewers. In the light of these plans, the Director General of Water Services, the independent economic regulator, will make his draft determinations of price limits in August and his final determinations in December 2004.

Radioactive Waste

Mr. Watson: To ask the Secretary of State for Environment, Food and Rural Affairs to which Minister the Radioactive Waste Policy Group is responsible and reports. [165257]

Mr. Morley: The Radioactive Waste Policy Group (RWPG) is chaired and managed by the Department for Environment, Food and Rural Affairs (Defra). It is made up of UK Government, devolved Administration and regulatory body representatives. Its terms of reference are:

> "To review and make recommendations on issues which arise in relation to UK radioactive waste management policy, radioactive discharges, and corresponding regulatory processes and arrangements".

The group meets several times a year and functions in the interim through correspondence.

Mr. Watson: To ask the Secretary of State for Environment, Food and Rural Affairs if she will list the members of the Radioactive Waste Policy Group. [165258]

Mr. Morley: The Radioactive Waste Policy Group (RWPG) is made up of representatives from: the Department for Environment, Food and Rural Affairs (Defra); the Department of Trade and Industry (DTI); Department of Health, (DH); Department for Transport (DfT); the Department for Education and Science (DfES); the Department for Culture, Media and Sport (DCMS); the Department for Work and Pensions (DWP); the Ministry of Defence (MOD); the Office of the Deputy Prime Minister (ODPM); Treasury, the Cabinet Office; the Scottish Executive (SE); the National Assembly for Wales (NAW); the Department of the Environment Northern Ireland (DoENI); the Health and Safety Executive (HSE); the Environment Agency (EA); the Scottish Environment Protection Agency (SEPA); the Office for Civil Nuclear Security (OCNS); and the Foods Standards Agency (FSA). Some of these representatives are full participating members. Others are corresponding members, not normally attending meetings but doing so on occasion in light of the agenda. The identities of organisational representatives change over time. I have arranged for the current list of full and corresponding RWPG members to be placed in the Library.

Rights of Way

Mr. Laxton: To ask the Secretary of State for Environment, Food and Rural Affairs what powers she has to implement policy arising from her Department's consultation on the use of mechanically powered vehicles on rights of way. [165153]

Alun Michael: The proposals in the consultation paper on better enforcement of existing legislation and the regulation of vehicles on rights of way could be implemented through departmental circulars and other guidance. Primary legislation would be needed to implement the proposals on how future and historic rights might be claimed and on statutory easements.

Rural Payments Agency

Miss McIntosh: To ask the Secretary of State for Environment, Food and Rural Affairs if she will make a statement on the role of the Rural Payments Agency. [164598]

Alun Michael: The Rural Payments Agency (RPA) is an Executive Agency of the Department for Environment, Food and Rural Affairs (Defra). It is the accredited Common Agricultural Policy (CAP) paying agency responsible for CAP schemes in England and for certain schemes throughout the UK. In addition, it is the UK Funding Body, and as such is responsible for the receipt and administration of moneys from the Guarantee Section of the European Agriculture Guidance and Guarantee Fund (EAGGF) for funding the CAP schemes administered by all the UK Paying Agencies.

RPA is a major delivery arm of Defra and provides delivery experience and advice to policy divisions within Defra. It currently delivers over £2 billion of CAP payments to farmers and traders under existing

schemes. On 1 April 2003, RPA assumed responsibility for the British Cattle Movement Service (BCMS) which is Defra's centre of expertise and service delivery on animal health and identification. RPA is responsible, through BCMS, for the Cattle Tracing System, including issuing of cattle passports and recording of cattle movements.

Secondments

Norman Baker: To ask the Secretary of State for Environment, Food and Rural Affairs if she will list the secondees from outside organisations presently working in her Department, stating in each case *(a)* the name of the person, *(b)* the name of the organisation, *(c)* the post held and *(d)* the start and finish dates of the secondment, and indicating which are involved in drafting parliamentary answers. [158051]

Alun Michael: The following table details the secondees currently working in this Department and the other information requested.

The term "secondee" refers to a person "borrowed" from an organisation outside the Civil Service for a period of between three months and three years (exceptionally five years), without affecting employment status. During the secondment period the secondee remains an employee of the parent organisation but is expected to abide by the Defra Staff Handbook and the Official Secrets Act. Secondees are expected to undertake the full range of duties attached to the post, including the provision of drafts for PQs if required.

At the end of the secondment the secondee would return to the parent organisation.

Name	*Parent organisation*	*Defra job title*	*Involved in drafting parliamentary answers*	*Secondment dates*
Nader Bahri	Powergen	Industrial Adviser	Yes	28 April 2003–28 April 2004
Alison Barnes	English Nature	England Local Biodiversity Action Co-ordinator	Yes	16 January 2001–31 March 2006
Fay Blair	Global to Local	Environment Quality Team Consultant	No	2 January 2003–31 March 2004
Tony Bray	East Sussex County Council	Account Manager, Regional and Local Delivery	No	8 March 2004–7 March 2006
Rob Cathcart	English Nature	Environmental Adviser	No	5 January 2004–25 June 2004
Richard Chalk	Royal Bank of Scotland	Head of Organisation and Leadership Development	No	12 January 2004–31 December 2005
David Coleman	Countryside Agency	Head of Rural Services	Yes	2 December 2002–30 November 2004 DA
David Cooper	Cambridgeshire County Council	Policy Adviser	No	22 September 2003–22 September 2004
Stephen Crisp	British Telecommunications	Business and Environment Adviser	No	21 October 2003–21 October 2004
GianMarco Currado	Environment Agency	EU Chemical Safety Adviser	Yes	1 July 2003–30 March 2005
Howard Dalton	Warwick University	Chief Science Adviser and Head of Science Directorate	Yes	4 March 2002–3 March 2007
Alan Darcy	Environment Agency	Waste Policy Adviser	No	8 January 2004–8 July 2004
Ged Duckworth	Environment Agency	Waste Permitting Review Policy Adviser	Yes	4 November 2002–31 July 2004
Duncan Eggar	British Petroleum	Climate Adviser	No	1 February 2002–30 April 2004
Joanna Enright	Ashursts	Policy Adviser	Yes	3 October 2003–8 April 2004
John Enright	London Remade	Head of Local Authority Support	No	4 August 2003–4 August 2005
Richard Findon	English Nature	Head of Sustainable Agriculture Unit	Yes	15 September 1999–5 September 2005
John Galvin	Environment Agency	Waste Policy Adviser	Yes	5 February 2001–30 October 2004
Alun James	Environment Agency	Sustainable Development Strategy Adviser	Yes	1 December 2002–30 April 2003
Chris Lee	Association of London Government	Market Development Manager	Yes	5 January 2004–2 January 2005
Fiona Lickerish	Countryside Agency	Senior Research Officer	Yes	11 November 2002–31 March 2005
Esther Maughan	Strong Language	Sustainable Development Commission Adviser	Yes	14 April 2001–13 May 2005
Ben Metz	London Community Recycling Network	Waste Implementation Programme Adviser	No	3 November 2003–31 March 2004
John Powell	Gloucester University	Senior Policy Officer Commons Legislation	No	20 October 2003–31 May 2005
Geoff Radley	English Nature	Head of Agri-Env Scheme Review Team	Yes	1 January 2002–31 May 2005

Mike Rich	Environmental Campaigns	Local Environment Quality Team Adviser	No	10 November 2003–9 November 2004
Diane Roberts	SW Regional Development Agency	Regional Development Liaison Officer	Yes	19 May 2003–21 May 2004
Sandy Shattock	Countryside Agency	Head Rural Community Unit	Yes	15 January 2002–13 January 2005
Nick Starkey	National Farmers Union	Secretary to the Government-Industry Forum on Non Food uses of crops	No	1 October 2003–30 September 2005

Sewerage

Norman Baker: To ask the Secretary of State for Environment, Food and Rural Affairs what proportion of the population in England and Wales has access to *(a)* mains sewage systems, *(b)* unadopted sewers, *(c)* private sewers and *(d)* septic tanks, broken down by local authority. [162895]

Mr. Morley: Estimates of the number of properties served by various types of sewerage system vary. The W.S. Atkins research found that:

(a) Approximately 90 per cent. of the properties in England and Wales have access to mains sewerage.

(b) Assuming 'unadopted sewers' mean all private sewers i.e. they are not adopted by the relevant sewerage undertaker then 40 per cent. of properties connect to public sewers via unadopted sewers.

(c) Assuming 'private sewers' means sewers which connect to a private treatment facility i.e. not part of the public system—then 10 per cent. of properties are estimated to be connected to completely private systems. This includes those connected to private treatment facilities, septic tanks and cesspools.

(d) No data are available on the number of properties with septic tank.

Information expressed as a proportion of the population is not available and neither is information available broken down by local authority areas.

Sturgeon

Mr. Watson: To ask the Secretary of State for Environment, Food and Rural Affairs what representations her Department made to the Convention on International Trade in Endangered Species with regard to the spring hunt for sturgeon in the Caspian Sea. [165251]

Mr. Morley: The Department did not make any direct representations on this issue when it was discussed at the 50th meeting of the CITES Standing Committee, held in Geneva on 15–19 March. However, we did support the recommendation that the CITES Secretariat should continue to monitor permits issued for the export or re-export of caviar to ensure that any frauds or forgeries were identified quickly. This view was fully supported by the other EU member states and duly conveyed to the Standing Committee by Germany on their behalf.

Thames Barrier

Norman Baker: To ask the Secretary of State for Environment, Food and Rural Affairs if she will list the occasions on which the Thames Barrier has been closed in each of the last 10 years; and what estimate she has made of the number of occasions when it will be closed in *(a)* 2010, *(b)* 2020, *(c)* 2050 and *(d)* 2100. [165740]

Mr. Morley: The Thames Barrier is closed to protect London from high water levels in the River Thames resulting from tidal surge conditions in combination with high freshwater flows in the river following rainfall over the Thames catchment. The Barrier closures may be characterised as predominantly tidal-influenced (T) or predominantly rainfall/fluvial-influenced (F). Over the last 10 years the Thames Barrier has been closed to prevent flooding during the winter flood season (generally October to April) on 67 occasions as follows:

1994–95: 4 (T = 2, F = 2)

1995–96: 4 (T = 4, F = 0)

1996–97: 1 (T = 1, F = 0)

1997–98: 1 (T = 1, F = 0)

1998–99: 2 (T = 2, F = 0)

1999–2000: 6 (T = 3, F = 3)

2000–01: 24 (T = 16, F = 8)

2001–02: 4 (T = 3,F = 1)

2002–03: 20 (T = 8, F = 12)

2003–04: 1 (T = 1, F = 0)

Forecasting the frequency of closure of the Thames Barrier in the future depends on two principal factors:

(a) The impacts of climate change on sea and river levels—based on the climate change scenarios currently available; and

(b) The extent to which these levels may be reduced by other flood risk management measures used within the Thames Estuary in conjunction with operation of the Thames Barrier.

Depending on the balance of factors described above, The Environment Agency's early studies indicate estimated frequency of closures as follows:

2010: 10—20 closures per year

2020: 20—35 closures per year

2050: 6*—75 closures per year

2100: 30*—325 closures per year

The lower figure for each year indicates the best predicted outcome based on lowest climate change scenario impacts and maximum use of flood management mitigation measures implemented from 2030 (shown by *). The higher figure for each year indicates the worst potential outcome based on

maximum climate change predicted impacts with no additional flood management mitigation measures implemented from 2030.

The Environment Agency is currently planning for the future of flood risk management within the Thames Estuary and has for this purpose established a project called Thames Estuary 2100 based at the Thames Barrier. The purpose of the project is to produce a flood risk management plan for the tidal part of the Thames Estuary covering the next 100 years.

UN Environment Programme

Sue Doughty: To ask the Secretary of State for Environment, Food and Rural Affairs if she will make a statement on the outcome of the visit of the Environment Minister to the United Nations Environment Programme session in Korea. [165263]

Mr. Morley: The Global Ministerial Environment Forum (GMEF) met in Jeju, Republic of Korea, to discuss the action needed to factor environmental considerations more fully into the implementation of the Millennium Development Goals (MDGs) and World Summit on Sustainable Development (WSSD) Commitments on water, sanitation and human settlements. I represented the UK. Together with Lesotho's Minister of Natural Resources, Mr.Monyane Moleleki, I co-chaired an interactive session on how integrated water resource management (IWRM) plans can make a key contribution to the sustainable provision of water and sanitation.

The output from this session and two following ones were summarised in the Jeju Initiative, adopted by the GMEF on 31 March. This sets out what contribution Governments and UNEP, with other multilateral institutions, can make in these areas. The Initiative will be reported to the Twelfth Meeting of the UN Commission for Sustainable Development.

While in Korea, I also took part in a meeting of Commonwealth Environment Ministers and had useful bilateral discussions, notably with the Environment Minister of Korea, Kyul-ho Kwak, and with UNEP Executive Director Klaus Toepfer. I also met with a number of international NGOs.

Village Halls (Stroud)

Mr. Drew: To ask the Secretary of State for Environment, Food and Rural Affairs if she will list those village halls in the Stroud constituency that have applied for *(a)* her Department's and *(b)* Lottery grants for refurbishment purposes; and which have been successful. [164211]

Alun Michael: The information that would be needed to provide a comprehensive answer on successful applications is not held centrally, and information on unsuccessful applications is generally not collated on a geographical basis. Such information as we have is as follows:

Defra

Aggregates Levy Sustainability Fund—in its first two years of operation (2002–04) there have been no successful applications for schemes in Stroud.

Rural Enterprise Scheme—no applications relating to village halls have been received from the Stroud constituency.

Countryside Agency Vital Villages programme, Community Services Grants—two village halls have applied for, and successfully obtained, a grant for projects: Woodchester Village Community Hall—£9,750—and Oakridge Village Hall Trust-£5,404.

Lottery

Community Fund and other Lottery distributors—the Department for Culture, Media and Sport do not collect information on either the number or value of applications for Lottery grants for village halls received by the Distributing Bodies. Information about unsuccessful applications is treated in confidence and is retained by the Distributing Bodies.

Stroud has received 265 Lottery awards in total since 1995 worth £10.8 million. Stroud may also have received Lottery funding from umbrella schemes.

£328,762 Lottery awards have been made to refurbishment projects to 28 village halls, parish and community centres in Stroud. This figure includes halls that have widened their use for other members of the community, e.g. scout halls and youth clubs. The information is as follows:

£

Recipient	Project title/description long	Award date	Award amount
Awards for all			
St. Swithuns Scout Group, Leonard Stanley	Improvements to toilets and showers to improve usage and access by other groups such as the playgroup and over 50s exercise classes	20 May 2003	4,935
Nailsworth Youth Club	Disabled toilets and access will be installed at this community centre	18 March 2004	5,000
Whiteshill and Ruscombe Youth Club	Purchase of utensils and recreation equipment, heating system and decoration	11 June 1996	7,190
Community fund			
1st Minchinhampton Scout Group	Essential repairs. HQ building also used by playgroup and other community groups	16 May 1997	2,300
1st Stonehouse Scout Group	Essential refurbishment work for scout group HQ building which is also used by a variety of community groups	16 May 1997	3,830
Chalford Village Hall	Refurbishment and furnishing of the group's premises	19 September 1997	3,634
Dursley Parish Centre Committee	Essential kitchen refurbishment in the parish centre	21 April 1998	4,945
Ashmead Village Hall	External renovation	22 June 1998	4,208
Amberley Parish Rooms and Playgroup Management Committee	Refurbish and upgrade a community room beneath Amberley Parish Church	30 October 1998	37,053
Woodchester Village Community Hall	Specialised cleaning equipment and a feasibility study to upgrade the building	5 November 1998	1,906
Chalford Village Hall	New kitchen equipment and improve storage space	4 March 1999	1,302

£

Recipient	Project title/description long	Award date	Award amount
Harescombe Parish Hall	A new porch and replace two windows	4 March 1999	4,730
Uley Village Hall Management Committee	Extensive refurbishment including new drainage and building work	4 March 1999	4,935
Pitchcombe Village Hall Committee	Provision of a car park	27 April 1999	44,654
Miserden Village Hall	Carry out necessary repairs	17 June 1999	4,230
Horsley Village Hall	New furniture including a portable stage with disabled ramp	7 October 1999	5,000
Drusely and District Community Association	Central heating and double glazing installation	2 December 1999	22,725
Coaley Village Hall Management Committee	Replacement windows and doors	8 December 1999	5,000
Sheepscombe Village Hall	Fees for development plan for the hall to proceed to planning	3 February 2000	4,803
Elmore Village Hall Management Committee	Replacement windows in the hall with double glazed high security window units	3 February 2000	5,000
Box Village all Management Committee	New toilets with disabled access, a new kitchen and an enlarged community meeting room	5 May 2000	56,000
St. James Parish Centre Dursley	Centre is an ex-church school. Replacement of hall and kitchen floors and installation of fly screens	29 June 2000	4,908
Stone and District Village Hall	Replacement of the rear porch and tarmacking to rear of the car park	6 September 2000	2,411
Nailsworth Youth Club	Replacing of the roof and refurbishment of the kitchen	15 May 2001	2,500
Stone and District Village Hall	Installation of an induction loop facility	20 December 2001	1,360
Frith Youth Centre Bussage	Replacement flooring and fitting disabled toilets	31 January 2002	4,943
Frith Youth Centre Bussage	Replacement roof and other improvements to the games hut	25 November 2002	74,260
New opportunities fund			
Woodchester Village Community Hall	Provision of an IT suite and learning resource centre	31 January 2002	5,000

Warm Front Scheme

Mr. Chaytor: To ask the Secretary of State for Environment, Food and Rural Affairs what instructions her Department issued to Warm Front scheme managers on the publication on their websites of monthly statistical data relating to works carried out under the scheme; what assessment she has made of compliance with these instructions; and what action she proposes to take to ensure future compliance. [161638]

Mr. Morley *[holding answer 29 March 2004]:* As part of the continuous development of Warm Front, the optimum reporting mechanisms for publishing Warm Front data were discussed between the Department and the scheme managers. Following these discussions it was agreed that data would be published annually.

Following a recent review of the delivery of the scheme, the Department has asked the scheme managers to publish data on a quarterly basis.

Historic annual data are also available on the scheme managers' websites.

Waste

Sue Doughty: To ask the Secretary of State for Environment, Food and Rural Affairs what resources she has provided to the Environment Agency to *(a)* detect and *(b)* prosecute the illegal disposal of hazardous waste. [156429]

Mr. Morley: In 2003–04 Defra provided over £130 million grant-in-aid to the Environment Agency. Approximately £ 39 million of this will be used carrying out its waste duties which include the detecting and prosecuting of those responsible for the illegal disposal of hazardous waste. The agency agrees its priorities with the Department during the annual corporate planning process and allocates its funds accordingly.

Mr. Peter Duncan: To ask the Secretary of State for Environment, Food and Rural Affairs what consultations have been launched in the last five years into *(a)* the reuse and *(b)* disposal of waste plastics. [162297]

Mr. Morley: There have been no consultations specifically on the reuse or disposal of waste plastic. However the following consultations, launched in the last five years, had implications for the reuse and disposal of waste plastic.

Consultation on changes to the Packaging Regulations, July 2003

Consultation on Packaging Regulations—Raising the targets in 2002–November 2001

Consultation Paper on Recovery and Recycling Targets for Packaging Waste in 2001, August 2000

UK Management Plan for Exports and Imports for Waste, June 2000

A Consultation Paper on changes to the percentage activity obligation and other matters, September 1999

Report of the Market Development Group, August 1999

A way with waste—a draft waste strategy for England and Wales, September 1999.

Waste Electrical and Electronic Equipment Directive

Norman Baker: To ask the Secretary of State for Environment, Food and Rural Affairs how the anticipated funds to be generated through the retail compliance scheme under the Waste Electrical and Electronic Equipment Directive will be distributed in order to develop an adequate collection infrastructure across the UK. [163093]

Mr. Morley: No decision has yet been made about how the funds will be distributed to establish an adequate collection network.. The Government are currently discussing the details of the retailer compliance scheme with the British Retail Consortium.

Norman Baker: To ask the Secretary of State for Environment, Food and Rural Affairs what factors underlie her decision to ring fence £5 million of the proposed retail fund for local authority collection infrastructure under the Waste Electrical and Electronic Equipment Directive. [163094]

Mr. Morley: Local authorities are well placed to collect waste electrical and electronic equipment at civic amenity sites as they have a well established collection infrastructure already in place. The WEEE Directive, however, does not place any obligations on local authorities, and the Government have said that any new burdens placed on local authorities as a result of the WEEE Directive should be properly financed.

Under the proposals put forward in the most recent consultation paper on the WEEE Directive, local authorities would be able to bid into a ring-fenced retailer fund to upgrade their facilities to collect separately WEEE. The level of this funding (initially set at £5 million per annum for years 2005–10, with a review in 2008) was determined by a study carried out by consultants on behalf of Defra.

Norman Baker: To ask the Secretary of State for Environment, Food and Rural Affairs how her Department intends to *(a)* encourage reuse of waste electrical and electronic equipment and *(b)* maintain the role of charity organisations in the collection of waste electrical and electronic equipment. [163095]

Mr. Morley: Reuse of whole appliances is given priority in the Waste Electrical and Electronic Equipment (WEEE) Directive, and the Government have asked for views from stakeholders on how best this should be done in the most recent consultation paper on the implementation of the WEEE Directive. The UK has a good network of charitable organisations that refurbish and reuse WEEE, and the Government are keen for this to continue.

Norman Baker: To ask the Secretary of State for Environment, Food and Rural Affairs how her Department intends to protect existing retail from take-back activities and reduce the likelihood of them being withdrawn, with particular reference to white goods, under the Waste Electrical and Electronic Equipment Directive. [163097]

Mr. Morley: The current proposals for a retailer compliance scheme encourage retailers to continue their existing take back schemes, and establish new schemes. Formal consultation has recently ended but discussions continue with interested parties on the best practical way forward.

Norman Baker: To ask the Secretary of State for Environment, Food and Rural Affairs when her Department expects to provide definitive information to businesses with duties under the Waste Electrical and Electronic Equipment Directive on its scope across equipment categories. [163098]

Mr. Morley: The Government expect to issue draft guidance on the scope of the Waste Electrical and Electronic Equipment (WEEE) Directive in late spring this year, alongside draft implementing regulations.

Norman Baker: To ask the Secretary of State for Environment, Food and Rural Affairs how the regulating authorities will ensure that the visible fee shown on consumer prices represents only the collection, treatment and disposal costs incurred by the Waste Electrical and Electronic Equipment Directive. [163099]

Mr. Morley: No decision has yet been taken on the question of a visible fee. The Government are currently analysing the responses to the recent consultation on the implementation of the Waste Electrical and Electronic Equipment (WEEE) Directive, and considering representations from industry on this issue.

Norman Baker: To ask the Secretary of State for Environment, Food and Rural Affairs how her Department plans to *(a)* enable compliance and *(b)* enforce the regulations in the case of internet and mail order sellers when they fall under the scope of the Waste Electrical and Electronic Equipment Directive. [163100]

Mr. Morley: The proposals set out in the most recent consultation Paper on the implementation of the Waste Electrical and Electronic Equipment (WEEE) Directive were that producers would have to register as a condition of placing products on the market. The Paper asked for views from stakeholders on how best to implement and enforce this. The Government are currently analysing the responses.

Norman Baker: To ask the Secretary of State for Environment, Food and Rural Affairs what assessment she has made of the potential impact of other legislation which will interact with the Waste Electrical and Electronic Equipment Directive, with specific reference to *(a)* the Batteries Directive and *(b)* the impending changes to the UK's hazardous waste classification and licensing system. [163101]

Mr. Morley: A draft proposal for a new batteries Directive has now been put forward by the Commission and is currently being considered by Member States and the European Parliament, which is expected to hold a First Reading on 19 April. The Government are keen to ensure that the text of the final Batteries Directive and the Waste Electrical and Electronic Equipment (WEEE) Directive are complementary. Talks are underway internally to ensure that mutual objectives are achieved, and the Government will also work to ensure that the batteries proposals are consistent with other waste legislation.

The interaction with the changes to the UK's hazardous waste classification system is being assessed in the ongoing review of hazardous waste legislation.

Defra is currently reviewing the existing waste management licensing system and intends to replace it with a new permitting regime. Under this new regime, the degree of regulation will be proportionate to the risks posed by different waste recovery and disposal activities. The new regime will include the transposition of the supplementary permitting requirements of the WEEE Directive and the future Batteries Directive as well as the permitting of the recovery and disposal of hazardous wastes.

Waste Incineration

John McDonnell: To ask the Secretary of State for Environment, Food and Rural Affairs what plans she has to increase the monitoring and control of waste incinerators. [163610]

Mr. Morley: Waste incineration processes are currently in a period of transition from integrated pollution control to the pollution prevention and control requirements of the Pollution Prevention and Control Act 1999 and the Waste Incineration Directive. These impose new, tighter, requirements for the monitoring and control of emissions from waste incinerators. The new requirements for the Waste Incineration Directive must be in place by 28 December 2005. Local Authorities and the Environment Agency will be responsible for implementing and enforcing these new requirements.

Water Services

Sue Doughty: To ask the Secretary of State for Environment, Food and Rural Affairs what assessment she has made of the impact of climate change on the quantities of water that may be sustainably abstracted over the next 50 years. [165303]

Mr. Morley: The Environment Agency is the statutory body with a duty to manage water resources in England and Wales. As part of the agency's management role it has national and regional water resource strategies which set out the pressures over the next 25 years. Water companies have 25-year water resource plans which complement the agency strategies. Both the plans and strategies factor in the effects of climate change and will develop over time as the implications become clearer. The plans will also identify where there is a need for development of new resources.

The Environment Agency's Catchment Abstraction Management Strategies (CAMS) are a mechanism to ensure that there is a sustainable balance, at the catchment level, between the needs of abstractors and the environment. Pressures on water resources, such as climate change, are taken into consideration in the CAMS process and the agency will be able to use its powers to rebalance water resources as necessary.

The 2002 UK Climate Impacts Programme scenarios suggest higher winter flows and lower summer flows, with more frequent summer droughts over the next 50 years. The Environment Agency and water companies have carried out a preliminary assessment which suggests that the impact of these changes on abstraction for the public supply is mixed. Further work on this is due to start in the next few months.

Norman Baker: To ask the Secretary of State for Environment, Food and Rural Affairs if she will make a statement on average water flow data between 1994 and 2003 at sites operated by the Environmental Change Network. [165797]

Mr. Morley: The Environmental Change Network (ECN) is the UK's long-term integrated monitoring network designed to aid in the detection, interpretation and forecasting of environmental changes resulting from natural and human causes. It is a multi-agency initiative which currently consists of a network of 54 terrestrial and freshwater sites making regular measurements on the main drivers of change and ecosystem responses.

Annual water flow from ECN's 14 river sites in England is shown in the following table. The data are incomplete for the requested period because: (i) some river sites did not begin monitoring until after 1994; (ii) equipment faults sometimes resulted in too few data points to allow estimation of annual means; and (iii) some data towards the end of the period have not yet been incorporated in the ECN database.

Annual mean flows (cubic metres per second) between 1994 and 2003 at all Environmental Change Network freshwater river sites in England.

Bob Spink: To ask the Secretary of State for Environment, Food and Rural Affairs what progress has been made in reducing water leakage; and if she will make a statement. [165378]

Mr. Morley: Since the Water Summit in 1997, Ofwat has set water companies annual leakage targets. This has helped to achieve a significant reduction in leakage, from 4,505 Megalitres per day in 1996–97 to 3,623 Megalitres per day in 2002–03. Most companies are now at their economic level of leakage which is the level at which it would cost more to further reduce leakage than to supply additional water from other sources. The Director General of Water Services publishes leakage data annually in the 'Security of Supply, Leakage and the Efficient Use of Water' reports, copies of which are available in the Library of the House. The Government's approach to demand management was confirmed by my right hon. Friend, the Secretary of State in March 2004 in her Principal Guidance to the Director-General of Water Services.

Bob Spink: To ask the Secretary of State for Environment, Food and Rural Affairs what proportion of households have water meters; and if she will make a statement. [165375]

Mr. Morley: An estimated 24 per cent. of households in England and Wales received bills based upon a meter reading in 2003–04, this is predicted to rise to 26 per cent. in 2004–05.

There are no figures available for the number of households where a meter is present but is not used as the basis for charging.

Bob Spink: To ask the Secretary of State for Environment, Food and Rural Affairs what monitoring of water quality is being undertaken by the National Rivers Authority. [164204]

Mr. Morley: Since 1996, responsibility for monitoring water quality has been with the Environment Agency. The Agency routinely monitors over 7000 sites in the aquatic environment. The Agency's programmes cover all monitoring required by EU Directives, national and international commitments, national and regional operational needs, responses to pollution incidents and regulation of authorised discharges to water. The programmes cover a wide range of chemical parameters plus routine biological monitoring for the purposes of both assessing compliance with standards and general assessments of environmental quality. The Agency's programmes cover both freshwaters i.e. rivers, lakes and groundwaters and the estuarine and marine environment.

Zebra Fish

Mr. Watson: To ask the Secretary of State for Environment, Food and Rural Affairs (1) what plans she has to prohibit the sale of genetically modified *(a)* zebra fish and *(b)* other species in the UK; [165035]

(2) what assessment her Department has made of the possible future market for genetically modified pets. [165036]

Mr. Morley: Sales of genetically modified fish and other GM animals are already prohibited within the European Union unless specifically authorised under Directive 2001/18 on the Deliberate Release into the Environment of Genetically Modified Organisms or kept in secure containment under the terms of Directive 90/219 (as amended by Directive 98/81/EC) on the contained use of Genetically Modified Micro-Organisms. To date no applications have been received in the EU to release either GM fish or GM pets. The Department has not undertaken any assessment of the future market for genetically modified pets.

HEALTH

Heroin Addicts

Simon Hughes: To ask the Secretary of State for Health how many registered heroin addicts there were in *(a)* Greater London and *(b)* each London borough in each of the last five years. [162339]

Miss Melanie Johnson: This information is not available because there is no longer a register of heroin addicts. The Home Office register of heroin addicts ceased in 1997 as resistance to register by heroin users meant the data were so inaccurate they were unusable.

Adverse Drug Reactions

Mr. Burstow: To ask the Secretary of State for Health (1) what proportion of inpatients had their hospital stay prolonged by adverse drug reactions in the last 12 months; [163488]

(2) what his latest estimate is of the proportion of hospital admissions caused by adverse drug reactions; and if he will make a statement. [163497]

Mr. Hutton: The Department of Health collects information on all hospital admissions (Hospital Episode Statistics data). These data contain primary and secondary reasons for hospital admissions, which includes data on 'external causes' such as adverse drug reactions (ADRs).

In the year 2002–03 about 0.5 per cent. of admissions were identified as caused by ADRs. However, this proportion is likely to be an under-estimate because only admissions specifically identified as caused by ADRs will have been included.

United Kingdom wide data are not available to allow estimation of the proportion of in-patients who had their hospital stay prolonged by adverse drug reactions in the last 12 months.

Mr. Burstow: To ask the Secretary of State for Health if he will place in the Library a copy of the *(a)* Committee on Safety of Medicines' policy on the disclosure of information about adverse drug reactions and *(b)* Medicines and Healthcare Products Regulatory Agency's policy on disclosure of information. [163490]

Ms Rosie Winterton: A copy of the publication scheme of the Committee on the Safety of Medicines (CSM) has been placed in the Library. The CSM does not routinely publish information about suspected adverse drug reactions (ADRs). However, the Medicines and Healthcare products Regulatory Agency (MHRA) currently responds on behalf of the CSM to individual requests for ADR data under the Code of Practice on Access to Government Information. Anonymised ADR data are released on this basis.

An independent review of access to data from the yellow card scheme is currently considering whether, and if so under what conditions and for what purposes, data collected on suspected ADRs should be made more widely available. The review is expected to be published later this year.

The MHRA is committed to making available as much information as is compatible with the provisions of the current Code of Practice on Access to Government Information. A copy of the MHRA's approved publication scheme has been placed in the Library.

Mr. Burstow: To ask the Secretary of State for Health if he will list the 10 types of drug most commonly involved in adverse drug reactions reported to the yellow card scheme. [163491]

Ms Rosie Winterton: The following table lists the 10 drugs most commonly associated with suspected adverse drug reactions reported to the yellow card scheme in 2003. The figures provided relate to the number of reports received. Some reports may contain more than one reaction.

Drug[1]	*Number of reports*
Clozapine	1,075
Rofecoxib	367
Venlafaxine	359
Bupropion	348
Celecoxib	341
Paroxetine	294
Risperidone	290
Aspirin	275
Infliximab	265
Etoricoxib	239

[1] Stated as drug substance

Total number of reports received in 2003: 18,060.

The total number of reports received for a particular drug does not reflect the effects of factors such as an individual's medical history, concomitant medication and age, nor do they reflect the total usage of a drug (aspirin has a very high usage), whether a particular drug has a monitoring scheme (clozapine) or is being intensively monitored due to it being a new drug on the market (infliximab, bupropion, etoricoxib). These factors may result in an increased number of reports submitted via the yellow card scheme.

Mr. Burstow: To ask the Secretary of State for Health (1) what his Department's estimate is of the percentage of adverse drug reactions which are reported by *(a)* general practitioners, *(b)* hospital doctors, *(c)* nurses and *(b)* pharmacists via the yellow card system; and if he will make a statement; [163492]

(2) what the nurse reporting figures for adverse drug reactions were for each month since the scheme started, broken down by those under the *(a)* e-yellow card and *(b)* paper based yellow card scheme; [163494]

(3) how many calls NHS Direct has received from callers reporting adverse drug reactions since 1 January 2003. [163496]

Ms Rosie Winterton: In the United Kingdom, the yellow card scheme allows health professionals to report suspected adverse drug reactions (ADRs) on a voluntary basis to the Medicines and Healthcare products Regulatory Agency (MHRA) and the Committee on Safety of Medicines (CSM). Alongside doctors, pharmacists, dentists and coroners, the scheme was extended to allow nurses, health visitors and midwives to report suspected ADRs on 31 October 2002. An electronic version of the yellow card was launched on the same date.

To date, the Medicines and Healthcare products Regulatory Agency (MHRA) has received 2,992 reports of suspected adverse drug reactions from nurses, from both paper and electronic versions of the yellow card. The following table provides a breakdown of reports received from nurses, for both paper and electronic yellow cards (table 1).

In 2003, the MHRA received a total of 18,060 yellow card reports from health professionals broken down as in table 2.

A pilot scheme enabling patients to contribute to the yellow card scheme via NHS Direct was launched in a single NHS Direct area on 25 April 2003. NHS Direct nurses and health information advisors submit reports of suspected adverse drug reactions via an electronic yellow card. All calls from patients reporting suspected ADRs at the Beckenham call centre have been reported to the MHRA and, to date, we have received 39 reports from patients via NHS Direct.

Table 1: Breakdown of reports from nurses since 31 October 2002

Received date (month/year)	*Number of reports (paper)*	*Number of reports (electronic)*	*Total number of reports*
October 2002	8	0	8
November 2002	253	3	256
December 2002	85	1	86
January 2003	60	2	62
February 2003	295	0	295
March 2003	239	10	249
April 2003	146	6	152
May 2003	129	13	142
June 2003	167	9	175
July 2003	211	11	222
August 2003	154	4	158
September 2003	126	7	133
October 2003	202	8	210
November 2003	218	2	220
December 2003	173	4	177
January 2004	171	3	174
February 2004	158	4	162
March 2004	106	4	110

Total number of reports received to date: 2,992.

Table 2: Breakdown of report source and number of adverse drug reaction (ADR) reports received by the MHRA in 2003 from the Adverse Drug Reactions On-line Tracking (ADROIT) database

Report source	*Number of reports*	*Percentage*[1]
General Practitioner	5,564	31
Hospital Doctor	4,388	24
Nurse	2,196	12
Pharmacist	3,434	19
Other	2,477	14

[1] Percentage of total number of reports received in 2003.

Total number of reports received in 2003 was 18,060.

Mr. Burstow: To ask the Secretary of State for Health what evaluation has been made of the *(a)* impact and *(b)* quality of information received on electronic yellow cards. [163495]

Ms Rosie Winterton: The Medicines and Healthcare products Regulatory Agency (MHRA) and Committee on Safety of Medicines (CSM) launched a new electronic yellow card on 31 October 2002, to provide a rapid and convenient way to report suspected adverse drug reactions (ADRs) for healthcare professionals. To date, the MHRA has received 386 reports of suspected adverse drug reactions (ADRs) via the Internet.

A working group of the CSM and its Subcommittee on Pharmacovigilance (SCOP) was formed to advise on

strategies for electronic reporting and the criteria for evaluation of its contribution to pharmacovigilance. The working group proposed a questionnaire for electronic reporters to obtain their opinions on the usefulness of the electronic yellow card. A one-year evaluation has been carried out to assess the impact of, and the nature and quality of, information received on electronic yellow cards in comparison with the paper counterparts.

Electronic reports were comparable with paper reports with respect to the proportion of serious ADRs reported and reports associated with new, intensively monitored drugs. In general, there was little difference in the quality of core information (patient, reporter, suspect drug and reaction details) provided via electronic and paper yellow cards. A significant proportion (93 per cent.) of electronic reporters intend to continue reporting via the Internet. The working group and the MHRA are currently assessing method's to promote and increase the awareness and usability of the electronic yellow card amongst health professionals.

A new website providing rapid and direct access to the electronic yellow card is at www.yellowcard.gov.uk. This was launched on 19 February 2004 and the working group MHRA are in the process of linking this with other health-related websites. The findings from the evaluation will be presented to CSM for consideration and to inform future enhancements to the electronic yellow card.

Mr. Burstow: To ask the Secretary of State for Health (1) how many people, broken down by age, suffered from adverse drug reactions, in *(a)* England, *(b)* each region and *(c)* each strategic health authority in each year since 1997; and how many of those reactions were fatal; [163498]

(2) how many children suffered from adverse drug reactions, in *(a)* England, *(b)* each region and *(c)* each strategic health authority in each year since 1997; and how many of those reactions were fatal. [163499]

Ms Rosie Winterton: Reports of suspected adverse drug reactions (ADRs) are collected by the Medicines and Healthcare products Regulatory Agency (MHRA) and Committee on Safety of Medicines (CSM) through the spontaneous reporting scheme, the yellow card scheme. Approximately 20,000 reports of ADRs are reported to the MHRA/CSM through this scheme each year, of which approximately 3 per cent. report a suspected ADR with a fatal outcome.

There are five regional monitoring centres (RMCs) that act locally on behalf of the CSM to collect reports of ADRs and to stimulate ADR reporting through local initiatives. These are Mersey, Wales, Northern, West Midlands and Scotland, which was established in 2002.

The attached tables contain the total number of suspected ADR reports and ADR reports with a fatal outcome received via the yellow card scheme from 1997 to 2003 inclusive. The figures are broken down by age groups: 16 years and under, 17 to 59 years and 60 years and above. Included in the tables are the numbers of suspected ADR reports and reports with a fatal outcome received from the five RMCs. A breakdown of ADR data by health authority is not available, as this information is not collected as part of the yellow card scheme. Data from the yellow card scheme cannot be used to measure the frequency of an ADR in a particular region or health authority, as spontaneous ADR reporting is associated with an unknown and variable degree of under-reporting.

It is important to note that the submission of a suspected ADR report does not necessarily mean that it was caused by the drug. Many factors have to be taken into account in assessing causal relationships including temporal association, the possible contribution of concomitant medication and the underlying disease. Additionally, the use of medicines may vary between different age groups. Use of medicines in the elderly, for example, is higher than in other age groups and elderly patients are more likely to be using combinations of medicines.

Table 1: Total number of adverse drug reaction (ADR) reports and reports with a fatal outcome, broken down by age group, from 1997 to 2003 received by the Medicines and Healthcare products Regulatory Agency (MHRA) from the Adverse Drug Reactions On-line Tracking (ADROIT) database. Figures include reports received from the regional monitoring centres (RMCs).

[1] Small number of cases. Data withheld to protect patient confidentiality.

[2] CSM Scotland began to receive yellow cards on 10 October 2002.

Sandra Gidley: To ask the Secretary of State for Health pursuant to his answer of 22 March, *Official Report*, column 599W, on older people, how many adverse drug reactions occurred in individuals aged *(a)* 60–79 years, *(b)* 70–79 years, *(c)* 80–89 years and *(d)* over 90 years in each year since 1997. [164256]

Ms Rosie Winterton: Reports of suspected adverse drug reactions (ADRs) are collected by the Medicines and Healthcare products Regulatory Agency (MHRA) and Committee on Safety of Medicines (CSM) through the spontaneous reporting scheme, the Yellow Card scheme. Approaching 20,000 reports of ADRs are reported to the MHRA/CSM through this scheme each year.

The table shows the total number of suspected ADR reports received via the yellow card scheme from 1997 to 2003 inclusive. The figures are broken down by age group: 60–69 years, 70–79 years, 80–89 years and 90 years and above.

	Age group				
Year	*60–69*	*70–79*	*80–89*	*More than 90*	[1]*Total number reports*
1997	2,627	2,050	776	83	16,627
1998	2,754	2,348	833	89	18,054
1999	2,781	2,271	815	76	18,483
2000	3,473	2,706	1,012	113	33,151
2001	3,071	2,440	1,023	135	21,466
2002	2,339	2,214	1,133	189	17,174
2003	2,401	2,239	1,241	196	18,060

[1] Total number of reports received for all ages through the yellow card scheme (includes reports where the patient age has not been specified)

It is important to note that a report of an adverse reaction does not necessarily mean that it was caused by the drug. Many factors have to be taken into account in assessing causal relationships including temporal

association, the possible contribution of concomitant medication and the underlying disease. Additionally, the use of medicines may vary between different age groups. Use of medicines in the elderly, for example, is higher than in other age groups and elderly patients are more likely to be using combinations of medicines.

Mr. Burstow: To ask the Secretary of State for Health if he will make a statement on his Department's review of the Yellow Card scheme for reporting adverse drug reactions. [164611]

Ms Rosie Winterton: On 21 July 2003, my noble Friend the Parliamentary Under Secretary of State for Health announced an independent review into the access to and use of data collected by the Medicines Healthcare products Regulatory Agency on suspected adverse drug reactions (ADRs). The review is being led by Dr. Jeremy Matters, CB. The primary purpose of the review is to consider whether, and if so under what conditions and for what purposes, the data should be made more widely available.

A 12 week public consultation exercise ended on 9 January 2004. The report of the Review is expected to be published later in the year.

Mr. Burstow: To ask the Secretary of State for Health how many cases of adverse reactions relating to herbal medicines were reported to the yellow card scheme in each year since 1997. [164681]

Ms Rosie Winterton: Reports of suspected adverse drug reactions (ADRs) are collected by the Medicines and Healthcare products Regulatory Agency (MHRA) and Committee on Safety of Medicines (CSM) through the spontaneous reporting scheme, the yellow card scheme. By 30 March 2004, the CSM and MHRA had received 527 reports of suspected adverse drug reactions (ADRs) associated with herbal medicines since 1997. A breakdown of the number of reports received per year is shown in the table.

Year	*Number of ADR reports associated with herbal medicines*
1997	46
1998	41
1999	65
2000	142
2001	79
2002	69
2003	66
2004 (part)[1]	19
Total	527

[1] Figures to date

It is important to note that the submission of a suspected adverse reaction does not necessarily mean that it was caused by the drug. Many factors have to be taken into account in assessing causal relationships, including temporal association, the possible contribution of concomitant medication and the underlying disease.

The number of reports received via the yellow card scheme does not directly equate to the number of people who suffer adverse reactions to drugs for a number of reasons, as this scheme is associated with an unknown and variable level of under-reporting. Reporting through the yellow card scheme has been low for products used in self-medication as health professionals may not be aware of their use. ADR reporting rates may be influenced by the seriousness of reactions, their ease of recognition, extent of use of a particular drug and promotion and publicity about a drug. Data from the yellow card scheme cannot be used as a basis for determining the incidence of an ADR as neither the total number of reactions occurring, nor the number of patients using the drug is known.

Agency Nurses (CRO Checks)

Sandra Gidley: To ask the Secretary of State for Health (1) what risk assessment has been made of agency nurses working in care home settings without the need for a Criminal Records Bureau disclosure; [164811]

(2) what risk assessment he has made of allowing care assistants to work unsupervised for a domiciliary care agency before their Criminal Records Bureau checks are complete. [164818]

Dr. Ladyman: In view of current recruitment difficulties within the care home and domiciliary care sectors, the Department is consulting on amendments to the Care Homes Regulations 2001, the Domiciliary Care Agencies Regulations 2002 and the Nurses Agencies Regulations 2002 to allow staff to start work prior to the satisfactory completion of a Criminal Records Bureau disclosure.

The consultation ends on 16 April and I will carefully consider all responses. An announcement will be made in due course.

Allergic Reactions (Latex)

Mr. Stunell: To ask the Secretary of State for Health what plans he has to require primary care trusts to establish a policy to reduce allergic reactions to latex in *(a)* staff and *(b)* patients. [165568]

Mr. Hutton: Actions to be taken in relation to natural rubber latex (NRL) are covered by the Health and Safety at Work Act, Etc. 1974 which places a general duty on all National Health Service employers to keep staff and patients healthy and safe at work. The Management of Health and Safety at Work Regulations 1992 places duties on employers to systematically assess all workplace risks and to take all reasonably practicable action to minimise those risks—this includes exposure to NRL. The Control of Substances Hazardous to Health Regulations 2002 (COSHH), also apply in requiring employers to undertake an assessment of any substances used at work that are hazardous to health. All of this legislation applies to primary care trusts.

The Department of Health, working with the Health and Safety Executive (HSE) and other interested parties, has developed a latex toolkit covering the issues surrounding latex allergy such as what employers and employees should be doing in the workplace, areas affected and general information.

Mr. Stunell: To ask the Secretary of State for Health what estimate he has made of the number of NHS staff adversely affected by an allergic reaction to latex; and *(a)* how many days work have been lost and *(b)* how many staff have left the service as a result of latex allergy in each of the last five years. [165571]

Mr. Hutton: The Department of Health does not collect this information centrally, as it would duplicate data collection undertaken by the Health and Safety Executive in relation to the control of substances hazardous to health.

Ambulance Services

Mr. Burstow: To ask the Secretary of State for Health (1) if he will publish the ambulance response times for *(a)* England and *(b)* each ambulance trust for (i) category a, (ii) category b and (iii) category c calls in each year since 1997; [163506]

(2) what percentage of urgent patient journey calls were more than 15 minutes late in *(a)* England and *(b)* each ambulance trust in each year since 1997. [163507]

Ms Rosie Winterton: Information is not available in the form requested. The available data are published in the statistical bulletin "Ambulance services, England: 2002–03", a copy of which is in the Library. It is also available at www.publications.doh.gov.uk/public/sb0313.htm. This shows available performance data for England and by ambulance trust.

Ashford and St. Peter's Hospitals NHS Trust

Mr. Wilshire: To ask the Secretary of State for Health if he will publish the franchise plan for the Ashford and St. Peter's Hospitals NHS Trust. [165064]

Mr. Hutton *[holding answer 1 April 2004]*: I refer to hon. Member to the reply I gave on 12 June 2002 at column 1320W.

Biometric Data

Mr. Burstow: To ask the Secretary of State for Health what plans his Department has to introduce a black box style system to retain key biometric data for major operations; and if he will make a statement. [162639]

Ms Rosie Winterton: The operating theatre black box system has been invented by a scientist in Britain and can be used to record the actions of surgical teams and clinical information about a patient during an operation. It is one method to support learning and improve patient safety.

The Government recognise the need to understand more about the nature and causes of errors in surgery and as part of the Department's patient safety research programme has funded research into the safety of surgical care. The research team will make recommendations to inform surgical team training in error management in the future. The national Patient Safety Agency is also undertaking work to reduce patient safety incidents associated with surgery.

Further information is available on the patient safety research programme website at: http://www.publichealth.bham.ac.uk/psrp and on the National Patient Safety Agency website at: http://www.npsa.nhs.uk.

Cancer Treatment

Dr. Gibson: To ask the Secretary of State for Health (1) pursuant to his answer of 5 January 2004, *Official Report*, column 200W, on the National Institute for Clinical Excellence, when the findings of the investigation into the implementation of guidance on the use of cancer treatments produced by the National Institute for Clinical Excellence will be published; [164239]

Mr. Evans: To ask the Secretary of State for Health (2) when the National Cancer Director expects to have completed his review of postcode prescribing in the case of cancer treatment. [R] [164683]

Miss Melanie Johnson: Professor Mike Richards, the National Cancer Director, is continuing his investigation into the causes of the apparent variation in the uptake of cancer drugs approved by the National Institue for Clinical Excellence.

Professor Richards is currently considering evidence provided by the 34 cancer networks in England and data supplied by the pharmaceutical industry.

Findings are expected to be available in Spring 2004.

Care Homes

Tim Loughton: To ask the Secretary of State for Health what new arrangements are in place for patient forums to inspect care homes. [162921]

Ms Rosie Winterton: Patients' forums have statutory powers to enter and inspect care homes for the purposes of carrying out their functions, such as monitoring and reviewing the services provided in them, where the services are provided under partnership arrangements between the national health service and a local authority under Section 31 of the Health Act 1999 and where the services provided relate to the exercise of the local authority's health related functions.

In addition patients' forums can enter and inspect NHS care homes and NHS services provided in private care homes. Patients' forums only have the powers to enter and inspect the care homes that have been mentioned for the purposes of their functions.

From 1 April 2004, the Commission for Social Care Inspection will be responsible for regulation and inspection of care homes and will have a duty to co-operate with the Commission for Health Care Audit and Inspection. The Government expect these bodies to work closely with patients' forums as they carry out their statutory functions.

Mr. Burstow: To ask the Secretary of State for Health how much was paid on average per day by local authorities to independent care homes for the provision of *(a)* food, *(b)* care and *(c)* accommodation in the latest year for which figures are available. [163601]

Dr. Ladyman: The Government do not collect data on payments by local councils to independent care homes. According to the most recent National Care Standards Commission report (March 2004), fees for care homes for older people fall most often into the £200 to £400 per week range with very few above £700 per week. In the case of younger adults, fees charged fall in the range of £300 to £1,200 although overall they range from under £100 to over £2,000 per week.

The figures are not broken into the component costs.

CFISSA

Mr. Burstow: To ask the Secretary of State for Health what the *(a)* budget and *(b)* outturn figures for the Centrally Funded Initiatives and Services Special Allocation (CFISSA) were for each of the last three years; if he will publish the total list of allocations from CFISSA for the current financial year; and if he will list the virements from the CFISSA. [151797]

Mr. Hutton *[holding answer 2 February 2004]:* Tables have been placed in the Library showing:

(a) for the years 2000–01, 2001–02 and 2002–03 the initial and final budget levels and outturn for each of the main areas within the Centrally Funded Initiatives and Services and Special Allocations budget.

(b) the total allocations made to NHS organisations to date in 2003–04.

The latest information on virement from capital to revenue in 2003–04 are shown in the following table. There were no net virements from the CFISSA programme into capital in 2003–04:

2003–04 Capital to revenue virements for the CFISSA programme

Budget	*£000*
National IT Programme: Corporate Services	3,605
National IT Programme: Procurement, commercial and legal services	22,000
National Knowledge Service	1,000
Surveillance and Disease Registers	2,500
National IT Programme: Local Initiatives	88,895
	118,000
Local NHS capital to revenue transfers	200,000
Total capital to revenue virement	318,000

Clinical Trials

Mr. Lansley: To ask the Secretary of State for Health whether the full results of clinical trials submitted to the Medicines and Healthcare Products Regulatory Agency are required to be published. [163849]

Ms Rosie Winterton: The full results of clinical trials submitted to the Medicines and Healthcare products Regulatory Agency (MHRA) are not required to be published. Sponsors of clinical trials conducted in the United Kingdom have an obligation to provide end of study data in a report. For marketed drugs, the marketing authorisation holder has an obligation to inform the MHRA of any information relevant to the evaluation of the risks and benefits of the product and provide periodic safety update reports to the MHRA. However, the MHRA has made information available about clinical trials in the specific circumstances where it has been in the public interest to do so.

Community Hospitals

Mr. Boris Johnson: To ask the Secretary of State for Health what the bed occupancy rate is in the community hospitals of *(a)* Townlands, *(b)* Wallingford, *(c)* Abingdon, *(d)* Wantage, *(e)* Watlington and *(f)* Didcot. [164102]

Ms Rosie Winterton: Bed data are not centrally collected by hospital site. Data are collected annually on a provider basis from National Health Service trusts. The two trusts involved are the South East Oxfordshire Primary Care Trust (PCT) and the South West Oxfordshire PCT. The average daily number of available, and occupied beds in wards open overnight for the two trust involved, are shown in the table. The bed occupancy rate is also included in the table.

Information for each NHS trust is published annually on the Department's website at: http://www.performance.doh.gov.uk/hospitalactivity/.

	SHA	*Org ID*	*Total*	*General and Acute*	*Acute*	*Geriatric*	*Mental illness*	*Learning disability*	*Maternity*
2002–03									
SE Oxfordshire PCT	Q16	5DX

Percentage occupancy			95.2	95.2	95.2	—	—	—	—

Source:
Department of Health form KH03
Status:
Published 11 September 2003 (latest data available)

Mr. Boris Johnson: To ask the Secretary of State for Health what the minimum number of beds required to ensure the *(a)* clinical and *(b)* financial viability of community hospitals in Oxfordshire is. [164105]

Ms Rosie Winterton: The information requested is not held by the Department.

Our policy on "Shifting the Balance of Power" means that funding decisions rest with primary care trusts (PCTs). PCTs, in conjunction with strategic health authorities (SHAs), have responsibility for planning and developing services according to the needs of local people and they have the local knowledge to assess the health care needs of their residents and to identify strategies and plans to meet those needs.

I understand that the South East and South West Oxfordshire PCTs are carrying out a consultation "South Locality Plan", which they hope will shape a long-term strategy for improving care and services

delivered by the local health economy. The hon. Member may therefore wish to approach the Thames Valley SHA on this matter.

Mr. Boris Johnson: To ask the Secretary of State for Health if he will make a statement on the circumstances leading to the closure of the community hospital in Burford. [164106]

Ms Rosie Winterton: I understand that Burford Hospital was closed in 2000. The decision to close the hospital was made following a full public consultation on Oxfordshire community services in 1998. All patients who were receiving their care at Burford were relocated to other community hospitals following its closure.

Conflicts of Interest

Mr. Burstow: To ask the Secretary of State for Health what regulations are in place governing conflicts of interest on medical advisory committees, including the *(a)* Committee on Safety of Medicines and *(b)* Joint Committee on Vaccination and Immunisation; and if he will make a statement. [162426]

Ms Rosie Winterton: All members of the Committee on Safety of Medicines are required to follow a code of practice relating to declarations of interests in the pharmaceutical industry. The code is comprehensive and is followed at each meeting to ensure the integrity of the advice given to Ministers by the committee. This code, and a register of members' interests, is published in the Annual Report of the Medicines Advisory Bodies. The report for 2002 is in the Library. It is also available at www.mhra.gov.uk

Members of the Joint Committee on Vaccination and Immunisation (JCVI) are also required to follow a code of practice relating to declarations of industry interests which is followed at each meeting. A register of JCVI members' interests is available on the JCVI pages of the Department of Health's website at www.advisorybodies.doh.gov.uk

Consultants Appointments

Mr. McLoughlin: To ask the Secretary of State for Health what the specific requirements of the NHS (Appointment of Consultants) Regulations 1982 are on the appointment procedure for NHS consultants; what *(a)* qualifications and *(b)* experience a surgeon is required to have to be appointed as an NHS consultant; what (i) experience and (ii) qualifications a surgeon is required to have to work for an independent sector treatment centre; and what criteria the appointment procedure must satisfy. [164602]

Mr. Hutton: Current requirements are those set out in the National Health Service (Appointment of Consultants) Regulations 1996. To become a consultant in the NHS a doctor must be included on the specialist register held by the General Medical Council (GMC) and successfully compete for a consultant post in open competition. In the United Kingdom the postgraduate specialist medical qualification, leading to automatic inclusion on the specialist register, is a certificate of completion of specialist training. Individual employers may also specify any particular requirements for a post in a job description and person specification.

Procedures for the appointment of staff in independent sector treatment centres are a matter for the relevant independent healthcare providers. In order to operate independently in an independent sector treatment centre a doctor must be a registered medical practitioner included on the specialist register held by the GMC.

Mr. Burstow: To ask the Secretary of State for Health how many appointments have been made to the New Consultant Entry Scheme; and how many appointments are expected to be made in *(a)* 2004, *(b)* 2005 and *(c)* 2006. [156292]

Mr. Hutton: The New Consultant Entry Scheme (NCES) became fully operational in January. To date, five specialist registrars have been appointed to psychiatric, paediatric intensive care, histopathology, rehabilitation medicine and ophthalmology consultant posts on the scheme. Expressions of interest in the scheme continue to grow and we expect to match additional specialist registrars to vacant consultant posts in the coming months.

The scheme is managed by NHS Professionals for Doctors but not centrally funded, allowing strategic health authorities to make local arrangements to place doctors on the scheme. Local reports suggest a further 60 doctors had been appointed on the scheme.

The scheme is voluntary but potentially there are [1]2,485 specialist registrars in 2004, 2,399 specialist registrars in 2005 and 2,167 specialist registrars in 2006 who are expected to obtain their certificate of completion of specialist training and would be eligible to apply to the scheme.[1]

Non-consultant career grade doctors who have a certificate of completion of specialist training or are on the specialist register, are also eligible for the scheme. Latest available figures from the September 2001 medical workforce census suggest that there are 448 doctors on the specialist register working in non-consultant career grade posts who would be eligible for the scheme.

[1] Specialist registrar figures based on calendar year 2004, 2005 and 2006.

Source:

Department of Health Planning Extract.

Continuing Care Entitlement

Mr. Burstow: To ask the Secretary of State for Health if he will estimate the cost of reimbursing people who had not received NHS continuing care to which

they were entitled following the Health Service Ombudsman's report; and if he will estimate what impact the review of eligibility criteria will have on the cost of free personal care. [164872]

Dr. Ladyman: Funding was made available to strategic health authorities to cover the estimated costs of recompense claims for patients inappropriately denied fully funded National Health Service continuing care. The Department does not routinely publish details of estimated costs of a specific service. Any variation in future costs of free personal care remains within the range of estimates previously made by the Department.

Mr. Burstow: To ask the Secretary of State for Health if he will estimate how many people have not received NHS continuing care because of strict eligibility criteria who will now receive such care after the review of eligibility criteria following the Health Service Ombudsman's report. [164873]

Dr. Ladyman: It is not possible to make an assessment of the number of people affected by changes in fully funded National Health Service continuing care criteria. It is expected that strategic health authorities will provide continuing care based on assessed needs, in accordance with their local eligibility criteria, following review of those criteria.

Cost of Accountants

Mr. Paul Burstow: To ask the Secretary of State for Health if he will estimate the cost to the NHS in 2003–04 of employing accountants to handle the administration of claims for VAT exemption; and if he will make a statement. [164874]

Mr. Hutton: The Department does not centrally collect the information on which such an estimate could be made.

Cots

Mr. Waterson: To ask the Secretary of State for Health what plans he has to increase the number of cots for *(a)* pre-term babies and *(b)* severely premature babies in the South East of England. [163619]

Dr. Ladyman: We are investing an additional £70 million in neonatal intensive care services to provide, over the next two years, up to 75 new cots nationally. This provision will include cots and services for pre-term and severely premature babies in the South East of England.

Deaf People

Tim Loughton: To ask the Secretary of State for Health how measures included in the initiative on choice in the NHS will benefit deaf people. [163057]

Dr. Ladyman: "Building on the Best: Choice, Responsiveness and Equity in the NHS" draws out the main themes that emerged from the recent consultation on what changes would do the most to improve the experience of health care for patients, users and cares. The Department is planning to produce an accessible summary of the document for deaf people. "Building on the Best" emphasised that there must be flexible arrangements for people to access services that respond to their needs in the round rather than a response that isolates their health needs and that communications barriers must be dismantled.

Dentists

Dr. Murrison: To ask the Secretary of State for Health pursuant to his answer of 24 February 2004, *Official Report*, column 134, on dentists, what information the hon. Member for Doncaster, Central used to obtain the dentist training numbers for this year and for 1997. [159700]

Ms Rosie Winterton: The estimates were based on information from dental schools in England of the number of students accepted for the 1997–98 and 2003–04 academic years.

Departmental Buildings

Mr. Llwyd: To ask the Secretary of State for Health what *(a)* renovation and *(b)* maintenance projects on buildings (i) owned and (ii) rented by his Department were undertaken in each of the last five years; and what the associated costs were of each. [163946]

Ms Rosie Winterton: Renovation and maintenance projects to the value of £6.24 million were carried out at the buildings owned and rented by the Department in the period 1999–2004 and shown in the table.

Capital Expenditure on Renovation and Maintenance Projects

£ million

	1999–2000	2000–01	2001–02	2002–03	2003–04	Total
Leasehold

Departmental Policies (Ilford, North)

Linda Perham: To ask the Secretary of State for Health if he will make a statement on the impact of his Department's policies on the services for users of *(a)* King George Hospital, Ilford and *(b)* Whipps Cross University Hospital since 1997. [164876]

Mr. Hutton: Detailed information on the impact of Departmental policies nationally is set out in the Department of Health annual reports. A copy of the most recent report "Department of Health—Government Expenditure Plans" is available in the Library and on the Department's website.

King George Hospital is one of four main hospitals within the Barking, Havering and Redbridge Hospitals National Health Service Trust. Developments and improvements at King George Hospital since 1997 include:

A cardiac angiography suite opened to patients in November 2003, (partially funded by the New Opportunities Fund) to provide facilities for local residents to receive cardiac investigations closer to home.

The Cedars Centre cancer unit, redeveloped and extended cancer treatment facilities recently opened by Her Royal Highness Princess Alexandra, developed in conjunction with Macmillan Cancer Relief.

A primary care walk-in centre will open in April 2004 within the King George Hospital accident and emergency department. A capital redevelopment of the accident and emergency area is planned to accommodate a full walk-in centre in due course.

In April 2001, following a major reconfiguration of all healthcare services within north-east London, Whipps Cross Hospital NHS Trust was established as an acute trust within the North East London Strategic Health Authority. Developments and improvements at Whipps Cross University Hospital since 1997 include:

Investment

The approval of the outline business case for the redevelopment of Whipps Cross Hospital at a total cost of £331 million.

The opening of a satellite renal unit £1.35 million in partnership with Barts and The London NHS Trust.

The opening of the new Acorn children's unit—£1.2 million.

The opening of the Gillian Revell rehabilitation centre—a rehabilitation unit for older people.

Information Management Technology

A trust-wide programme to upgrade information management technology investment in both hardware and software.

Access: Accident and Emergency

Major upgrading of the accident and emergency department.

£2.5 million emergency medicine centre opened in June 2003.

In March 2002, there were 382 patients waiting more than 12 months for inpatient treatment and 874 waiting 9 to 11 months. Latest figures show 344 waiting more than 9 to 11 months.

In March 2002, there were 2,310 patients waiting more than 13 weeks for outpatient treatment. Latest figures show 1,366 patients waiting more than 13 weeks.

83.6 per cent. of patients spend less than four hours in the accident and emergency Department. In September 2002, the figure was 49.1 per cent.

99.8 per cent. of urgent referrals for suspected cancer are seen by a specialist within two weeks.

Coronary Heart Disease Services

The opening of rapid access chest pain clinic on Byron ward. Extra funding allocated for heart disease services has resulted in a cut in waiting times from over 26 weeks to 13 weeks.

The opening of an integrated cardiology unit on Byron ward.

The opening of a cardiac catheterisation laboratory.

Linda Perham: To ask the Secretary of State for Health what improvements to users of primary care services in the London borough of Redbridge have been funded by his Department since 1990. [164877]

Mr. Hutton: Detailed information on the impact of departmental policies nationally is set out in the Department of Health annual reports. A copy of the most recent report "Department of Health—Government Expenditure Plans", is available in the Library and on the Department's website.

The London borough of Redbridge is coterminous with Redbridge Primary Care Trust (PCT).

Information is not held centrally for the period 1990 to 2002. In April 2003 Redbridge PCT was merged with part of the disaggregated Chingford, Wanstead and Woodford PCT. Figures are therefore only available from June 2003 for Redbridge PCT. This information is shown in the tables.

Number of people waiting for in-patient treatment (including day cases) in Redbridge PCT

	Month end	
	June 2003	*January 2004*
Total waiting list	5,209	4,811
Patients waiting 9–11 months	384	368
Patients waiting over 12 months	0	0

Source:
Department of Health form KH07.

In June 2003 71.9 per cent. of patients (of practices which have an appointments system) were offered an appointment to see a primary care professional within one working day. Latest figures show that this has risen to 82.8 per cent. (December 2003).

Number of people waiting for out-patient treatment in Redbridge PCT

	Month end	
	June 2003	*September 2003*
13+ weeks	1,710	1,982
17–20 weeks	457	481
21+ weeks	0	0

Source:
Department of Health form KH07.

The NHS Plan commitment by March 2003 was that no one would wait more than 21 weeks. As figures show, the PCT is meeting this target.

Redbridge PCT allocations

	£ million
2003–04	160.65
2004–05	175.54

During 2003–04 Redbridge PCT invested significant monies in Primary Care Service development. These include:

Scheme	£000
Enhanced Intermediate Care Team	120
Paediatric Diabetes Nurse Specialist	25
Provision of community based services by GPwSI	60
Extension of GP Co-operative	30
Investment at Whipps Cross Hospital MRI Waits and GP referrals	50
Mental Health Treatments	18
Exceptional treatment	50
Integrated equipment store	15
Setting up and providing a GP appraisal system for all RPCT practicing GPs	115
Child protection improvements—nurse consultant	50
Diabetes retinal screening	100
Free Nursing Care	70
Breast screening extension to 65–70 year olds	79
Fund GP counselling service	173
IT support for CHD and Diabetes registers: 2 IT facilitators	45
Total	1,000

The PCT has also funded increased activity and service developments for specialist services, which it commissions through consortium arrangements within North East London strategic health authority and pan London consortia.

The PCT has also been working in partnership with non-NHS organisations to the benefit of Redbridge residents, during 2003–04 £400,000 was spent on schemes including community volunteers, mental health concern, dementia, local action for health, regeneration and health improvement and user involvement.

Eligibility Criteria

Mr. Burstow: To ask the Secretary of State for Health pursuant to his answer of 24 March 2004, *Official Report*, column 916W, on eligibility criteria, what information will be available centrally on the number of individual cases granted recompense. [165301]

Dr. Ladyman: After the end of March 2004, the number of individual cases granted recompense up to that time will be held centrally.

Foundation Hospitals

Mr. Burstow: To ask the Secretary of State for Health how many members each foundation trust applicant has recruited. [157759]

Mr. Hutton: The independent regulator has authorised the first 10 National Health Service foundation trusts. When doing so, the chairman of the independent regulator announced there are 50,000 members of the 10 NHS foundation trusts. More detailed information about membership numbers at each of the NHS foundation trusts is available from the constitutions, and the register of members. Both documents are held by the NHS foundation trusts themselves.

Health Services (Crosby)

Mrs. Curtis-Thomas: To ask the Secretary of State for Health what the average number of patients on *(a)* in-patient and *(b)* day case waiting lists was in Crosby in each year since 1997; and what the percentage change was in each year. [164308]

Miss Melanie Johnson: The information is not collected on a constituency basis but at national health service trust level. This information is shown in the table.

Average number of patients waiting for elective admission, selected NHS trusts, 1996–97 to 2003–04

	Aintree Hospitals NHS Trust		*Southport and Formby Hospitals Services NHS Trust*		*West Lancashire NHS Trust*		*Southport and Ormskirk Hospital NHS Trust*

Department of Health dataset QMAE

Mrs. Curtis-Thomas: To ask the Secretary of State for Health how many *(a)* cancelled urgent operations and *(b)* last minute cancelled operations there were in Crosby in each year since 1997. [164358]

Miss Melanie Johnson: Data are not collected on the number of cancelled urgent operations. However, quarterly data are collected on the number of operations cancelled by the hospital for non-clinical reasons.

Cancelled operations data are collected nationally and by National Health Service Trust and strategic health authority level. This information is available in the Library and on the Department's website at www.performance.doh.gov.uk/hospitalactivity

Mrs. Curtis-Thomas: To ask the Secretary of State for Health what percentage of *(a)* ambulance emergency responses were within eight minutes and *(b)* urgent ambulance responses to general practitioners requests were within 15 minutes in Crosby in each year since 1997. [164359]

Miss Melanie Johnson: Data are collected for ambulance trusts from 1998 when each ambulance service introduced call prioritisation. The information requested is available in the Library and can be found on the Department's website at www.publications.doh.gov.uk/public/sb0313.htm.

Health Services (Lancashire)

Mr. Hoyle: To ask the Secretary of State for Health what percentage of *(a)* doctors and *(b)* nurses were agency staff in (i) Preston and (ii) Chorley hospitals in each of the last three years. [147858]

Miss Melanie Johnson: The information is not held centrally.

Hip Replacement (Qualifying Criteria)

Bob Spink: To ask the Secretary of State for Health what the qualifying criteria for the patient choice scheme are for orthopaedic patients on the Royal London Hospital waiting for hip replacement. [163988]

Mr. Hutton: The Royal London Hospital is part of the London patient choice project. This pan-London scheme is at present for London patients who are registered with a London general practitioner.

The London patient choice project offers choice of treatment in an alternative hospital to clinically appropriate patients waiting longer than six months for surgery, including orthopaedic surgery.

From 1 April 2004 the London patient choice scheme will be open to all clinically appropriate patients, including those resident outside of London, who are on a London Hospital waiting list. However the scheme is not enacted until the patient has been on the waiting list for six months.

HIV/AIDS

Hugh Bayley: To ask the Secretary of State for Health what training is provided to nationals of sub-Saharan African countries working within the NHS in treating HIV/AIDS. [164760]

Mr. Hutton: The training and education that a member of the national health service workforce receives will depend upon the demands of the specific role within the NHS. An individual's training needs are identified through the development of individual career plans and appraisal mechanisms. There are no specific training programmes for nationals of sub-Saharan Africa working in the NHS, but if specific needs are identified, these are addressed on an individual basis.

Hospital Infections

Mr. Lansley: To ask the Secretary of State for Health what assessment he has made of the efficacy of Ebiox handrub and handwash products as part of a programme of infection control in hospitals; and what advice he has issued concerning their use. [163149]

Ms Rosie Winterton: As part of Winning Ways we are developing a rapid review process to assess new procedures and products for which claims of effectiveness are made for their ability to prevent or control healthcare associated infection. This will help the national health service assess new products such as the Ebiox's products which are still under development.

Existing guidance already provides advice on hand hygiene products[1].

[1] The epic project: Developing National Evidence-based Guidelines for Preventing Healthcare Associated Infections. Phase 1 guidelines for preventing hospital acquired infections (available at http://www.dh.gov.uk/assetRoot/04/07/73/68/04077368.PDF).

Hospital Shower Curtains

Dr. Gibson: To ask the Secretary of State for Health what studies he has made of hospital shower curtains as a source of micro-organisms. [163760]

Miss Melanie Johnson: The Department has not commissioned any research into hospital shower curtains as a source of pathogenic micro-organisms. There is no evidence of disease linked to micro-organisms found on shower curtains within the United Kingdom.

Hull and East Yorkshire Hospitals NHS Trust

David Davis: To ask the Secretary of State for Health if he will list the *(a)* current and *(b)* proposed private finance initiative projects for the Hull and East Yorkshire NHS Hospitals Trust. [165040]

Mr. Hutton: There are two Private Finance Initiative hospital schemes for the Hull and East Yorkshire NHS Hospitals Trust: new maternity facilities at Hull Royal Infirmary (which became operational in March 2003) and the development of a new integrated oncology and clinical haematology unit at Castle Hill Hospital, which is currently in procurement and scheduled to reach financial close in winter 2004–05.

Illegal Meat Imports

Mr. Whittingdale: To ask the Secretary of State for Health what assessment he has made of the risks to human health from illegal imports of meat. [165202]

Miss Melanie Johnson: I am advised by the Food Standards Agency (FSA) that it has developed a risk profile of the microbiological risks to public health from illegally imported meat.

On the basis of the risk profile, the FSA does not believe there is currently the evidence to suggest the need for a formal risk assessment. However, the FSA will continue to monitor the available data and review the risk profile.

The United Kingdom public health bodies involved in the investigation of outbreaks of infectious intestinal disease have not traced any outbreaks of human disease in the UK to illegally imported meat.

The FSA's advice to UK consumers is that illegally imported meat should not be eaten because it will not have been subject to proper controls at the point of production and will have evaded export controls in the country of origin and import controls at the port of entry to the EU. These controls are designed to verify compliance with food safety standards, and such illegal imports cannot legally be sold in the UK.

The FSA has advised local authorities, which are responsible for enforcement of imported food and food safety legislation, that all illegally imported food products, including meat, should be removed from the human food chain. The FSA is also working closely with the Department for Environment, Food and Rural Affairs and HM Customs and Excise to assist in the targeting of enforcement work to detect and seize illegal meat imports.

In-patient Treatment (Greater London)

Simon Hughes: To ask the Secretary of State for Health how many people were waiting for in-patient hospital treatment in Greater London, broken down by hospital trust, in each month since June 2002. [163732]

Mr. Hutton: The information requested is shown in a table which has been placed in the Library.

Infection Control (Care Homes)

Mr. Paul Burstow: To ask the Secretary of State for Health how many deaths in care homes were attributed to notifiable infectious diseases in each year since 1997, broken down by disease. [165240]

Dawn Primarolo: I have been asked to reply.

The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Len Cook to Paul Burstow, dated 7 April 2004:

As National Statistician I have been asked to reply to your recent question asking how many deaths in care homes were attributed to notifiable infectious diseases in each year since 1997, broken down by disease. (165240)

The latest year for which data are available is 2002. The figures in the table below relate to deaths occurring in care homes from diseases which are notifiable under the Public Health (Control of Disease) Act 1984 and the Public Health (Infectious Diseases) Regulations 1988. Only those diseases for which there were any deaths occurring in care homes have been included in the table.

Number of deaths

	Tuberculosis and late effects of tuberculosis	*Other*	*Total*
1997	31	16	47
1998	30	10	40
1999	33	9	42
2000	21	12	33
2001[1]	20	21	41
2002[1]	19	21	40

[1] The introduction of the International Classification of Diseases Tenth Revision (ICD-10) for coding case of death in 2001 means that data for 2001 onwards may not be completely comparable with data for years before this date. Analysis of data for tuberculosis suggests that figures for ICD-9 and ICD-10 are broadly comparable, but detailed analyses of other notifiable diseases has not been undertaken. The data should therefore be interpreted with caution.

Notes:

1. Care homes were defined as NHS and non-NHS nursing homes, local authority residential homes and private residential homes
2. Figures are based on deaths occurring in each calendar year.

Mr. Burstow: To ask the Secretary of State for Health what percentage of hospitals had implemented a ward housekeeping service in England at the latest date for which figures are available. [165244]

Mr. Hutton: The most recent data collected at the end of September 2004 by NHS Estates from national health service trusts show 40 per cent. of all hospitals have introduced housekeepers. 53 per cent. of larger hospitals (those having 100 beds or more, and accounting for 86 per cent. of all beds), have already implemented the service.

Information Technology

Mr. Lansley: To ask the Secretary of State for Health if he will ensure that general practitioner practices will be granted at least three choices of information technology suppliers under the new General Medical Services contract. [163348]

Mr. Hutton: The National Programme for Information Technology (NPfIT) has awarded a number of contracts to local service providers (LSPs) who act as prime contractors to deliver the elements of the NPfIT in a geographical area. It is the primary responsibility of the LSPs to work with a range of other suppliers to deliver the solutions that the national health service needs. This will include working with clinical professionals and primary care system providers to ensure that the systems in use across the NHS conform to the national standards required and can be upgraded to integrate with new national applications as they come on line.

The new general medical services contract guaranteed a choice of systems for general practitioners. We will ensure that they do have a choice of systems that comply with agreed national standards. It is not appropriate to specify a particular number of choices.

IT (Dentists)

Mrs. Calton: To ask the Secretary of State for Health pursuant to the answer of 17 March 2004, *Official Report*, column 388W, on IT (Dentists), (1) what pilot schemes have been undertaken to facilitate integration of NHS dentistry within the national programme for IT; [163906]

(2) what assessment has been made of *(a)* the success of and *(b)* areas for improvement within pilot schemes to facilitate integration of NHS dentistry within the national programme for IT. [163907]

Ms Rosie Winterton: Forty seven dental practices in England are involved in 23 pilot schemes set up by the Modernisation Agency as part of the modernising dentistry programme, which was created following the publication of Options for Change in August 2002. The aim of the modernising dentistry programme is to facilitate new ways of working in the delivery of National Health Service primary care dental services. Allied to this are streams of work to support modernisation in dental hospitals and secondary care.

The focus is on supporting and improving any area of patient care through the better use of Information Technology (IT) and the National Programme for IT (NpfIT) is developing services that are intended to be used by all NHS clinicians. This includes dentists, and we will be testing new ways of working and contributing to the new dental service which will be rolled out from 2005 onwards. Although these pilots were initiated prior to dentistry being brought into the NPfIT, the outcomes of these pilots will feed directly into the future requirements for dental IT systems.

Khat

Ms Stuart: To ask the Secretary of State for Health what assessment he has made of the impact on health of the use of Khat. [164090]

Miss Melanie Johnson: In the publication "Dangerousness of Drugs (2003)" , copies of which are available in the Library, the Department published guidance on the health impact of Khat. This summary was commissioned from the National Addiction Centre based on expert review of the evidence.

Limited Registration (Doctors)

Mr. Burstow: To ask the Secretary of State for Health pursuant to the answer of 11 February 2004, *Official Report*, column 1540W, on doctors, what he means by a period of limited registration. [162236]

Mr. Hutton: All doctors who wish to practice medicine in the United Kingdom must be registered with the General Medical Council (GMC). There are four main types of registration: provisional, limited, full and specialist. Limited registration is granted to doctors whose primary medical qualification is obtained outside the United Kingdom and who have provided evidence

of linguistic abilities, capability to practise in the UK and secured an offer of employment. Doctors with limited registration may only work under the supervision of fully registered medical practitioner and the type of posts in which they can work is also restricted.

A doctor who has been granted limited registration can apply to move to full registration if they meet the GMC's requirements. By law the total maximum period for which limited registration can be granted is five years. Further details on registration can be obtained directly from the GMC, as the independent statutory body responsible for licensing medical practitioners.

Liver Disease

Mr. Burstow: To ask the Secretary of State for Health (1) what estimate his Department has made of the incidence of undetected cases of hepatitis C in England; and if he will make a statement; [162068]

(2) if he will estimate the incidence of *(a)* hepatitis C and *(b)* all liver disease in England in each year since 1990; [162071]

(3) what estimate his Department has made of the incidence of *(a)* hepatitis C, *(b)* liver cancer and *(c)* all liver disease in England in the next decade. [162073]

Miss Melanie Johnson: Laboratory reports of antibody to hepatitis C in England, between 1992 (when national surveillance began) and 2003 are available on the Health protection Agency's website at http:// www.hpa.org.uk/infections/topics/ az/hepatitis c/data lab region.htm The majority of cases of acute hepatitis C infection do not result in symptoms and therefore new infections are not usually identified. These laboratory reports do not distinguish between new (incident) and past infections and represent newly diagnosed cases of hepatitis C.

Studies suggest that about 0.5 per cent. of the general population in England (250,000 people) has been infected with hepatitis C. The number of cumulative laboratory reports is lower than the estimate for the overall population prevalence and suggests that the majority of hepatitis C infections have not been diagnosed.

Finished admissions into National Health Service hospitals in England for liver disease from 1995–96 to 2002–03 are shown in the table.

Finished admissions into National Health Service hospitals in England for liver disease 1995–96 to 2002–03

1995–96	*1996–97*	*1997–98*	*1998–99*	*1999–2000*	*2000–01*	*2001–02*	*2002–03*
16,293	16,790	18,729	19,301	19,990	20,595	20,640	21,956

Note: Data in table refer to admissions where there has been a primary diagnosis of liver disease (i.e. ICD-10 K70-K77, Q44.6, B66.1, B66.3). Data are only available from 1995/96 because of changes in the way diagnoses are coded.
Source:
Hospital Episode Statistics, Department of Health

The future incidence of hepatitis C and the associated burden of liver disease are not known. The Department is funding the Health Protection Agency, in collaboration with the Medical Research Council's Biostatistics Unit at Cambridge, to provide estimates in this area.

Mr. Burstow: To ask the Secretary of State for Health what estimate his Department has made of the level of need for liver transplantation in England in the next decade. [162072]

Ms Rosie Winterton: The growing success of liver transplantation means that more people are now being offered a transplant. It is estimated that the demand, particularly for alcoholic liver disease and hepatitis C, will continue to grow slowly at a rate of 10–15 per cent. over the next five years.

Magnetic Resonance Imaging Scanners

Mr. Sheerman: To ask the Secretary of State for Health if he will make a statement on his strategy for cutting inpatient and outpatient waiting times for access to magnetic resonance imaging scanners in England. [165345]

Mr. Hutton: Data on waiting times for diagnostic tests, including magnetic resonance imaging (MRI), are not collected centrally; however, data may be collected locally by some strategic health authorities.

As recently announced by my right hon. Friend the Secretary of State, work is under way to eradicate waits for MRI through national procurement of a mobile MRI service. This will deliver an approximate 10 per cent. increase in the capacity already available to the national health service. In practical terms, approximately 80,000 extra MRI scans will be available to patients by July 2004.

Mr. Sheerman: To ask the Secretary of State for Health what progress has been made with the *(a)* recruitment and *(b)* training of radiographers to reduce waiting times for access to magnetic resonance imaging scanners in England. [165347]

Mr. Hutton: There has been significant progress in increasing both the numbers of radiographers employed in the national health service and the number of radiographers entering training each year. Between 1997 and 2003, the number of NHS radiographers increased by 1,573 or 13 per cent. and between 1996–97 and 2002–03, the number of training places for radiographers has increased by 634 to 107 per cent.

Information is not collected centrally on waiting times for access to magnetic resonance imaging scanners.

Medical Devices Agency

Mr. Burstow: To ask the Secretary of State for Health how many *(a)* fatal accidents and *(b)* adverse incident

reports to the Medical Devices Agency there were in each year since 1997; and if he will make a statement on the most common causes of these incidents. [163505]

Ms Rosie Winterton: The information on total numbers of reported medical device related adverse incidents and reported incidents involving a fatality is shown in table 1.

Table 1: Reported medical device related adverse incidents 1997–2003

	Total number of reported incidents	*Reported incidents involving a fatality*
1997	5,383	47
1998	6,298	79
1999	6,610	87
2000	7,249	92
2001	7,896	141
2002	8,756	175
2003	8,795	166

For summary information and reported purposes, the Medicines and Healthcare products Regulatory Agency groups the causes of medical device related adverse incidents into four categories:

1. Before delivery—issues relating to design, manufacture, quality control and/or packaging.

2. After delivery—relating to performance and/or maintenance failures and device degradation.

3. User error—where the device had not been used in accordance with the instructions for use.

4. No established link to device—where *(a)* the device was found subsequently to work as intended (possibly due to an intermittent fault, tampering, or user error) or *(b)* it was not available for inspection, or *(c)* because the report was made on precautionary basis.

The percentage of incidents falling into each of these categories in 2003 is shown in Table 2.

Table 2: Reported medical device related adverse incidents 2003

Percentage

Cause of incident	*All incident reports (number = 8,795)*	*Reported incidents involving a fatality (number = 166)*
1. Before delivery	37	12
2. After delivery	30	11
3. User error	18	36
4. No established links to device	44	62

Note:
Figures total more than 100 per cent. as multiple causes have been identified in some reports.

Medicines and Healthcare Products Regulatory Agency

Tim Loughton: To ask the Secretary of State for Health (1) whether any members of the expert working group of the Medicines and Healthcare products Regulatory Agency have an interest in GlaxoSmithKline; [162486]

(2) what the reasons were for four separate reviews of Seroxat (paroxetine) by the expert working group of the Medicines and Healthcare products Regulatory Agency; [162487]

(3) who sits on the expert working group of the Medicines and Healthcare products Regulatory Agency; [162488]

(4) when the Medicines and Healthcare products Regulatory Agency was informed about the recently issued guidance on the recommended prescription doses of Seroxat (paroxetine); [162557]

(5) what plans he has to withdraw Seroxat (paroxetine) from new prescriptions. [162558]

Ms Rosie Winterton: Since paroxetine (Seroxat) was authorised in 1990, its safety has been closely monitored by the Medicines and Healthcare products Regulatory Agency (MHRA) and the Government's independent expert advisory committee, the Committee on Safety of Medicines (CSM). The CSM has considered the safety of Seroxat on a number of occasions in response to the receipt of new data in relation to the issues of suicidal behaviour and withdrawal reactions.

The CSM's expert working group on the safety of selective serotonin reuptake inhibitors (SSRIs) was established in May 2003 to review the current available evidence relating to the safety of SSRIs, including paroxetine. The CSM's expert working group comprises the following members whose areas of expertise include psychiatry, child and adolescent psychiatry, epidemiology, statistics and general practice:

Professor Ian V. D. Weller
Professor Deborah Ashby
Mr. Richard Brook (resigned in March 2004)
Professor Mary G. A. Chambers
Dr. Jonathan D. Chick
Professor Colin Drummond
Professor David J. Gunnell
Professor Klaus Ebmeier
Dr. Elizabeta Mukaetova-Ladinska
Mr. Eamonn O'Tierney
Dr. Ross J. Taylor
Dr. Ann York
Dr. Morris Zwi

Members of the Medicines Act advisory committees such as the CSM and its working groups are required to follow a code of practice relating to declarations of interests in the pharmaceutical industry. The code is rigorously followed at each meeting to ensure the integrity of the advice given to the Licensing Authority by those committees. None of the members of the CSM's expert working group have a personal interest in GlaxoSmithKline or any of the other companies which hold marketing authorisations for SSRIs.

To date the expert group has met nine times and has completed the most comprehensive review yet undertaken of the safety of SSRIs in paediatric use. An interim report, which provides information on the key evidence considered by the group up to July 2003 and the action that has been taken as a result of the group's advice, was published on the MHRA/CSM website in September 2003. The expert group is now focused on completing its task of reviewing all the data related to the use of paroxetine and the related drugs in adults, specifically focusing on suicidal behaviour, withdrawal reactions and the dosage recommendations.

As part of the ongoing in-depth review, the expert group has recently re-evaluated the original dose finding studies carried out for the licensing of paroxetine. The expert group initially reviewed one of the dose finding studies for paroxetine in October 2003. On the advice of the expert group, the manufacturer was then asked to provide data to justify the current dosing recommendations for all indications as part of the European review of the risks and benefits of paroxetine. The expert group reviewed the completed data set at their meeting on 27 February 2004.

This review confirmed that, as stated in the product information provided to prescribers, the recommended daily dose is 20mg, with the exception of obsessive compulsive disorder and panic disorder, for which the recommended daily dose is 40gm.

On 10 March 2004, the CSM confirmed the advice of its expert group and advised that public communication was necessary on the basis of the re-evaluation of clinical trial data and the evidence of prescribing outside of the recommendations in the summary of product characteristics. Ministers accepted the CSM's advice and a communication underlining the recommended daily doses for paroxetine was issued to health professionals on 11 March 2004.

The CSM's current advise is that the balance of risks and benefits of this medicine in the licensed indications is favourable and, on this basis, there are no plans to restrict its use in new patients.

Mental Health Services

Mr. Burstow: To ask the Secretary of State for Health what representations he has received on a negative impact of the four-hour target for total time in accident and emergency on the care of patients with mental health difficulties who present to accident and emergency departments; and if he will make a statement. [159736]

Ms Rosie Winterton: Patients with mental health difficulties benefit along with other patients from the reduction in delay in assessment and treatment the four-hour target requires. Concerns were expressed last year by clinicians about the minority of patients who clinically need more than four hours in accident and emergency (A&E). In response to this the final December 2004 target was adjusted at the end of 2003 to a minimum operating standard of 98 per cent. This gives all trusts up to 2 per cent. headroom to manage clinical exceptions and other patients still in A&E after four hours. The number of patients with mental health difficulties who clinically need more than four hours in A&E is very small.

Tim Loughton: To ask the Secretary of State for Health how many people were resident in mental hospitals or mental institutions in each of the last five years. [163014]

Ms Rosie Winterton: Information on the numbers of patients resident in national health service hospitals in England under the care of a mental illness or learning disabilities consultant from 31 March 1998 to 2002 is shown in the table.

	Mental illness	*Learning disabilities*
1998	31,734	8,413
1999	30,801	7,102
2000	29,891	6,030
2001	31,560	6,507
2002	31,344	5,362

Source:
NHS Facilities

Tim Loughton: To ask the Secretary of State for Health how many people were outpatients affiliated to a mental hospital or mental institution in each of the last five years. [163015]

Ms Rosie Winterton: Information is not available in the form requested.

Between 2001 and 2002 there was an increase of over 50,000 in numbers of patients seen by community mental health teams and increases of 1,000 and nearly 3,000 inpatients seen by crisis resolution and assertive outreach teams.

The number of attendances at consultant led outpatient National Health Service clinics for Mental Illness sector is provided in table 1. Taken alone, these figures do not reflect accurately the volume of provision as mental health services are provided in a number of alternative ways as well as through traditional outpatient appointments. Table 2 provides the currently available information on the number of people receiving services from assertive outreach, crisis resolution, and early intervention teams, which provide mental health services to people with mental health problems in the community.

Table 1
Consultant outpatient attendances: Mental Illness sector, England

Year	*Quarter*	*Sector*	*First attendances seen*	*Subsequent attendances seen*	*Total attendances seen*
1998–99		[1]	287,411	1,813,011	2,100,422
1999–2000		[1]	281,578	1,790,408	2,071,986
2000–01		[1]	284,884	1,760,399	2,045,283
2001–02		[1]	272,599	1,684,879	1,957,478
2002–03		[1]	276,442	1,736,263	2,012,705
2003–04	1	[1]	61,924	381,459	443,383
2003–04	2	[1]	66,997	397,497	464,494

Local Delivery Plan Returns

Tim Loughton: To ask the Secretary of State for Health how many mental health trusts have fully established women-only day care facilities. [163044]

Ms Rosie Winterton: The information requested is not centrally available.

"Following Shifting the Balance of Power", strategic health authorities (SHAs) carry responsibility for the development of local delivery plans that show how proposals for mental health modernisation will be taken forward.

Information to guide local services on applicable service models is available in guidance published by the Department of Health. Women's mental health: into the mainstream was made available to services in September 2002. A copy is available in the Library.

In addition, a programme of work led by the National Institute for Mental Health in England focuses on the development of services for women, including day care provision.

SHAs carry responsibility for the direct management of trust performance, taking account of national guidance and local population needs and resources. Our annual national assessment of local services' self-assessment of development shows that progress is being made but information is not captured centrally on a trust by trust basis.

Tim Loughton: To ask the Secretary of State for Health how many episodes of mental health treatment for minors took place in each of the last five years. [163058]

Dr. Ladyman: Information is not available in the form requested.

A survey of the mental health of children and adolescents in Great Britain, carried out in 1999 by the Office for National Statistics on behalf of the Department of Health, Scottish National Executive and National Assembly for Wales, showed that about 10 per cent. of children aged five to 15 in Great Britain had a mental disorder in that year, of whom half had seen someone from the educational services, about a quarter had used the specialist health care services and a fifth had contact with the social services.

Tim Loughton: To ask the Secretary of State for Health how many *(a)* consultant psychiatrists, *(b)* mental health nurses and *(c)* primary care mental health workers (i) were recruited by and (ii) left the NHS in (A) 2003–04 and (B) in each of the previous five years. [163684]

Mr. Hutton: The Department's workforce census, which takes place each September, does not collect the number of joiners and leavers in the national health service.

The number of consultants in the psychiatry group and the number of all specified mental health nurses in post since 1998 is shown in the table. Separate information is not collected on the number of primary care mental health workers employed in the NHS.

Consultants within the psychiatry group specialty and all specified mental health nurses as at 30 September each specified year

Headcount

	Consultants in the psychiatry group	*All specified mental health nurses*[1]
1998	2,627	48,877
1999	2,808	48,922
2000	2,904	49,026
2001	2,959	51,315
2002	2,979	52,204
2003	3,229	53,678

[1] Includes nurses employed in learning disabilities, community learning disabilities, psychiatry and community psychiatry areas of work.

Department of Health non-medical workforce census

Tim Loughton: To ask the Secretary of State for Health how many *(a)* consultant psychiatrists, *(b)* mental health nurses and *(c)* primary care mental health workers are employed by the NHS; and how many of these work (i) part-time and (ii) full-time. [163685]

Mr. Hutton: Information on the number of consultants in the psychiatry group and qualified nurses working in the mental health areas of work is shown in the tables. Separate information is not collected on the number of primary care mental health workers employed in the national health service.

Hospital, public health medicine and community health services (HCHS) staff in England by contract group as at 30 September 2003

Headcount

	Consultants in the psychiatry group
Total	3,229
Whole-time	2,321
Maximum part-time	66
Part-time	643
Honorary	199

NHS hospital and community health services: qualified nursing, midwifery and health visiting staff by specified area of work and nature of contract, in England as at 30 September 2003

Headcount

	All specified mental health nurses[1]

Ministerial Accommodation Costs

Mr. Burstow: To ask the Secretary of State for Health what his Department's allowance is for the cost of a night's accommodation in a hotel for a Minister. [163602]

Ms Rosie Winterton: Accommodation arrangements for Department of Health Ministers when travelling on official business are in line with the Ministerial Code, paragraph 84 and are borne by the Department.

Nanotechnology

Mr. Watson: To ask the Secretary of State for Health what evaluation his Department has made of the safety of injectable quantum dots. [165026]

Ms Rosie Winterton: Quantum dots are understood to be another manifestation within the field of nanotechnology and the Department and its agencies are monitoring developments in this field closely. As the technology develops we expect it will be used in healthcare to produce new products and to improve the way that existing products work. Products developed using this technology may be classified either as medicines or as medical devices, according to the standard definitions and assessed to ensure the safety of any product.

Nappies

Phil Sawford: To ask the Secretary of State for Health what steps his Department is taking to promote awareness of the benefits of reusable nappies. [164113]

Mr. Burstow: To ask the Secretary of State for Health what action his Department is taking to promote the use of real nappies once mothers and babies are discharged from hospital. [165321]

Dr. Ladyman *[holding answer 29 March 2004]*: The Government firmly believes that women and their families should be given information on the use of both reusable nappies to make an informed choice. The Pregnancy Book and Birth to Five are two comprehensive information booklets produced by the Department which are given free to all first time mothers.

Both publications give detailed information on both reusable and disposable nappies including information about nappy laundering services.

It is for individual units and trusts to decide on the practicalities of promoting the use of terry nappies in their own maternity units.

National Programme for Information Technology

Mr. Burstow: To ask the Secretary of State for Health pursuant to his answer of 24 March 2004, *Official Report*, column 922W, on the national programme for information technology (NPfIT), what the total projected cost was for the NPfIT when it was announced in June 2002 *(a)* up to March 2006 and *(b)* up to and beyond March 2006. [165302]

Mr. Hutton: When the national programme for information technology in the national health service (NPfIT) was announced in June 2002 the costs were still being assessed and work was ongoing as part of the Spending Review (SR) 2002. The first projected cost for the NPfIT announced in January 2003 as part of SR2002 was £2.3 billion to cover the period April 2004 to March 2006.

We are not considering budgetary requirements as part of SR2004 and the key indicator of the projected cost for the NPfIT following award of the eight contracts is £6.2 billion to cover the period from April 2004 to beyond March 2006. The initial £2.3 billion was allocated as follows: £370 million for 2003–04, £730 million for 2004–05 and £1.2 billion for 2005–06.

Mrs. Calton: To ask the Secretary of State for Health (1) how much has been spent by *(a)* primary care trusts and *(b)* NHS trusts on the National Programme for IT since 2001; and what spending is projected for the next three years; [159140]

(2) what assessment has been made of the cost to each *(a)* primary care trust and *(b)* NHS trust for training users of the new IT systems under the National Programme for IT; and what allocation of funding has been made to each for that purpose. [159142]

Mr. Hutton: There was no spending on the National Programme for Information Technology (NPfIT) in 2001 nor 2002. The three year expenditure programme started in April 2003 but there has been no local expenditure on the National Programme by primary care trusts and national health service trusts in the last year. The expenditure projection over the three years from April 2003 is shown in the following table and is centrally funded.

In addition to this central funding, the NHS spends its own resources on information technology, mainly for existing IT systems. In 2003–04, it is estimated that the NHS will spend around £880 million. About 70 per cent. of this amount will be spent by NHS trusts with the remainder spent by primary care trusts and strategic health authorities.

As the NPfIT is implemented over the years ahead, an increasing proportion of the existing NHS IT spend will become available to be spent on additional services under the national programme contracts as trusts make local choices. However, it is too soon to accurately predict the proportion.

£ million

	Current estimate
2003–04	330
2004–05	956
2005–06	1,352
Total	2,638

Training requirements for users are being developed as part of the detailed plans for each geographical cluster. This will enable the programme to consider the most appropriate ways of providing training and development and produce firmer costs.

Mr. Yeo: To ask the Secretary of State for Health whether the EMIS IT system is one of the accredited systems for the National Programme for IT. [160663]

Mr. Hutton: EMIS systems have been accredited for use in national health service primary care under the terms of the former "Requirements for Accreditation" process and the new General Medical Services contract.

The National Programme for Information Technology has awarded a number of contracts to local service providers (LSPs) who act as prime contractors to deliver the elements of the NPfIT in a geographical area. It is the primary responsibility of the LSPs to work with a range of other suppliers to deliver the solutions that

the NHS needs. This will include working with EMIS and other primary care system providers to ensure that the systems in use across the NHS conform to the national standards required and can be upgraded to integrate with new national applications as they come on line.

Mr. Burstow: To ask the Secretary of State for Health pursuant to his Answer of 5 January 2004, *Official Report*, column 201W, on NHS contracts, what *(a)* total value and *(b)* duration was originally set for the contract; and what the total expected (i) value and (ii) duration is. [156351]

Mr. Hutton: The value and duration set for the contracts awarded by national programme for information technology in the national health service are as shown in the table.

Contracts awarded by national programme for information technology

Company	Value £ million	Expiry	Purpose
BT	620	2013	National data spine
BT	530	2011	National NHS network
SchlumbergerSema	64.5	[1]2008	National e-booking service
Accenture	1,099	2013	North East local service provider (LSP)
Accenture	934	2013	Eastern LSP
BT	996	2013	London LSP
CSC	973	2013	North West and West Midlands LSP
Fujitsu	986	2013	Southern LSP

[1] With an option for renewal.

National Service Framework (Older People)

Sandra Gidley: To ask the Secretary of State for Health what estimates his Department has made of the costs of implementing Standard 1[0] of the National Service Framework for Older People. [164765]

Dr. Ladyman: There is little research or firm evidence available to allow us to quantify the extent of age discrimination and therefore the cost associated with eliminating it. Eliminating age discrimination, promoting person-centred care, ensuring evidence-based practice and access to specialist care and treatment are inter-linked aspects of the national service framework for older people that are centred around giving older people fair access to the national health service based on priority of clinical need.

New NHS Hospitals

Dr. Richard Taylor: To ask the Secretary of State for Health how many of the new NHS hospitals built under the Private Finance Initiative have incurred penalty charges by exceeding the level of bed occupancy stipulated in the NHS trusts' contracts with the private consortia providing the service. [165235]

Mr. Hutton: Hospitals are not penalised or fined for having higher bed occupancy rates. All Private Finance Initiative contracts include additional payments for higher levels of services needed when there are more patients in the hospital. Bed occupancy rates are used to measure these increases.

NHS Ancillary Staff

Mr. Norman: To ask the Secretary of State for Health how many *(a)* nursing assistants, *(b)* nursery nurses, *(c)* healthcare assistants, *(d)* clerical and administrative staff, *(e)* maintenance and works staff, *(f)* medical secretaries, *(g)* medical records officers and *(h)* porters are employed by the NHS. [165086]

Mr. Hutton: Separate information is not collected on the number of medical secretaries, medical records officers and porters employed in the national health service. Medical secretaries and medical records officers are included among clerical and administrative staff in clinical support and porters are in the support to doctors and nurses staff group. The available information, including a table of explanatory notes for each staff group, has been placed in the Library.

NHS Beds

Andy Burnham: To ask the Secretary of State for Health how many beds there were in the NHS on *(a)* 1 May 1997 and *(b)* 1 March 2004. [158688]

Mr. Hutton *[holding answer 4 March 2004]:* Information on beds is not collected at individual census dates in the year. The average daily number of available beds in 1997–98 and 2002–03 is shown in the table.

Average daily number of available beds, by sector, England, 1997–98 and 2002–03

	1997–98	2002–03
All Specialties (excluding day only)	193,625	183,826
General and Acute	138,047	136,679
Acute	107,807	108,706
Geriatric	30,240	27,973
Mental illness	36,601	32,753
Learning disability	8,197	5,038
Maternity	10,781	9,356
Day only	7,125	8,544

Source:
Department of Health form KH03.

The decrease in the number of national health service beds in some sectors reflects service improvements away from in-patient stays. We are aiming to deliver as many services as possible in the most low tech and local environment with more support in peoples' homes and the community. More procedures are taking place in out-patients and community settings which used to require hospital admission. At the same time, more consultations and treatments are taking place outside hospitals in the community and being delivered by different groups of staff. General practitioners are starting to offer treatments and consultations, which were once only done by hospital consultants. Similarly, there is an increase in the range of work undertaken by nurses. Many of the changes in the way services are delivered have been supported by the Modernisation Agency and through collaboration and learning between different parts of the NHS. This redesign of services has allowed the NHS to treat more patients and offer more convenient services.

The NHS Plan did, however, recognise a need for more general and acute beds and set a target of 2,100 extra by 2004. The latest available statistics for 2002–03 showed that general and acute beds increased by 1,600

to 136,679 over the previous three years. This represents over three quarters of the target set out in the NHS Plan. This is the first time general and acute bed numbers have increased in three consecutive years since records began in 1960.

NHS Dentistry

Mr. Denham: To ask the Secretary of State for Health (1) what steps he plans to take to improve access to *(a)* NHS dentistry and *(b)* NHS orthodontic treatment in the Southampton Primary Care Trust area; [164118]

(2) what assessment he has made of the availability of NHS orthodontic treatment to patients in the Southampton Primary Care Trust area; [164119]

(3) what assessment he has made of the availability of NHS dentistry to patients in the Southampton Primary Care Trust area. [164120]

Ms Rosie Winterton *[holding answers 31 March 2004]:* Southampton City Primary Care Trust (PCT) has made arrangements to ensure that any patients requiring urgent dental treatment can usually be offered an appointment on the same day. For patients wishing to register with a National Health Service dentist for routine dental care there were, on 30 March 2004, four dental practices in the city accepting new NHS patients. There were also three dental practices accepting NHS orthodontic patients, although there are waiting times for these appointments. The PCT has also put in place arrangements to ensure that the more complex orthodontic cases are treated at Southampton General Hospital, which has 1.5 whole time equivalent orthodontic consultants. Southampton also has one personal dental service site in operation—the Southampton and South West Hampshire Dental Access Centre—which sees an average of 815 patients each month.

We have provided new investment totalling £90 million to NHS dentistry over the last year. £59 million will support access, and strategic health authorities (SHAs) have been advised of their shares and are working with their PCTs to address access issues. Hampshire and the Isle of Wight SHA has been allocated £1.64 million, and Southampton City PCT will receive a share of this to support its action plan to improve access to NHS dentistry in Southampton. Additionally, the PCT funds a local dental helpline, which provides information on where NHS dentistry, including orthodontics, is available locally, either for urgent or routine treatment.

Mr. Hancock: To ask the Secretary of State for Health how many dentists have left the NHS, in whole or in part, to work in the private sector in each year since 1997 in *(a)* total, *(b)* NHS Trust areas covering Portsmouth and *(c)* NHS Trust areas covering Hampshire. [160769]

Ms Rosie Winterton: Information on the total number of dentists leaving the general dental service (GDS) or personal dental service (PDS) is shown in the table. Information is not available on the reason for leaving.

Dentists can leave the National Health Service for a variety of reasons. These include retirements, short term absence, leaving for other employment as well as dentists leaving the NHS dental services to practise wholly privately.

Few dentists leave the NHS altogether to practise privately. There are approximately 1,000, or 5 per cent. of dentists who practise wholly privately. This number includes specialists.

Number of leavers from the GDS or PDS

12 months ending September	*England and Wales*	*Hampshire and Isle of Wight*	*Portsmouth City Primary Care Trust*
1998	1,000	48	5
1999	1,065	63	14
2000	1,228	67	13
2001	1,256	74	12
2002	1,370	77	14
2003	1,248	67	8

Information is not available on the number of dentists who have partially left the NHS. Dentists on the GDS and PDS are mainly self-employed and are free to vary the amount of NHS work they do.

NHS Direct

Mr. Burstow: To ask the Secretary of State for Health what estimate he has made of the number of nurses NHS Direct will employ in England by 2006; and if he will make a statement. [160340]

Ms Rosie Winterton: The forecast from the latest NHS Direct capacity improvement plan estimates that NHS Direct will employ 1,550 nurses by April 2006.

Mr. Yeo: To ask the Secretary of State for Health what proportion of calls to NHS Direct resulted in the caller being advised to attend *(a)* accident and emergency, *(b)* an NHS walk-in centre and *(c)* a primary care surgery appointment in the last year for which figures are available. [162056]

Ms Rosie Winterton: The proportion of calls to NHS Direct that resulted in the caller being advised to attend accident and emergency, a NHS walk-in centre, and a primary care surgery appointment in the last year for which figures are available are set out in the table.

Disposition	*Percentage of total calls*
Accident and emergency	7.5
NHS walk-in centre	0.3
Primary care surgery appointment	9.9

Miss McIntosh: To ask the Secretary of State for Health what the target time is in which to answer calls to NHS Direct; and what the target will be after 1 April. [162262]

Ms Rosie Winterton: NHS Direct's performance is measured on a daily basis against eight service delivery targets. The service delivery target set for NHS Direct to answer calls, is 90 per cent. of calls to be answered within 30 seconds. The service delivery targets are consistent with the out-of-hours standards and they will therefore be adjusted in line with any changes to the out-of-hours accreditation standards.

Miss McIntosh: To ask the Secretary of State for Health what the target for the percentage of calls to NHS Direct to be answered is; and what the target will be after 1 April. [162263]

Ms Rosie Winterton: NHS Direct's performance is measured on a daily basis against eight service delivery targets. The service delivery target for the percentage of calls to NHS Direct that should be answered is that less than 5 per cent. of callers will hang up before the call is answered. The service delivery targets are consistent with the out-of-hours standards and they will, therefore, be adjusted in line with any changes to the out-of-hours accreditation standards.

NHS Hospitals (Deficits)

Mr. Godsiff: To ask the Secretary of State for Health which NHS hospitals built with private sector funds have deficits in this financial year. [163484]

Mr. Hutton: Audited information on the financial position of national health service trusts for year 2003–04 will be published in their individual annual accounts. This data will be available centrally in the autumn. We have no plans to publish unaudited information.

NHS Modernisation Agency

Tim Loughton: To ask the Secretary of State for Health how many whole-time-equivalent nurses he estimates will be performing non-clinical duties with the NHS Modernisation Agency. [163462]

Mr. Hutton: At 1 March 2004 the NHS Modernisation Agency employed 143 whole time equivalent staff who are qualified as nurses. 139 whole time equivalent of these staff work either directly with clinical teams to improve services for patients or their role involves them actively encouraging and promoting service modernisation out in the National Health Service.

Tim Loughton: To ask the Secretary of State for Health what the annual budget of the NHS Modernisation Agency was in the last three years for which figures are available. [163463]

Mr. Hutton: The NHS Modernisation Agency was established on 1 April 2001. Annual budgets for 2001–02 and 2002–03 were as follows.

£ million

	Budget
2001–02	54
2002–03	132

For the current financial year 2003–04, the annual budget stands at £232 million.

The arm's length body review is reviewing bodies like the Modernisation Agency. It is clear that the Agency will be re-shaped with more of its staff transferred to modernisation within local settings but retaining a national capacity, smaller than now, to preserve a strong focus on modernisation and innovation in the national health service.

Tim Loughton: To ask the Secretary of State for Health how many people have been appointed to the NHS Modernisation Agency; and at what remuneration level. [163464]

Mr. Hutton: As at 1 March 2004, the NHS Modernisation Agency had 767 employed or seconded whole time equivalent staff in post.

Of the total staffing profile of the agency, 17 per cent. are senior managers or clinician level, 49 per cent. are programme manager level and 34 per cent. are support staff.

Tim Loughton: To ask the Secretary of State for Health when he last met the head of the NHS Modernisation Agency. [163465]

Mr. Hutton: The Secretary of State for Health has regular meetings with the Head of the Modernisation Agency including at the National Modernisation Board. Other Ministers also meet the Head of the Modernisation Agency.

Tim Loughton: To ask the Secretary of State for Health how often the NHS Modernisation Agency meets; and when the last meeting took place. [163466]

Mr. Hutton: The NHS Modernisation Agency is a directorate of the Department of Health. Its Director, David Fillingham, is a member of the Department's Delivery Board, which meets monthly. The Modernisation Agency's management team meets every month.

Tim Loughton: To ask the Secretary of State for Health how many *(a)* clinical and *(b)* non-clinical staff are employed by the NHS Modernisation Agency; and what the figures were for the last five years. [163467]

Mr. Hutton: The NHS Modernisation Agency was created in April 2001.

At 30 December 2002, there were 670 staff employed by the NHS Modernisation Agency, of which 216 had professional clinical qualifications.

As at the 1 March 2004, there were 767 whole time equivalent staff employed by or seconded to the NHS Modernisation Agency. Of these, 213 WTE have professional clinical qualifications.

NHS Professionals

Mr. Baron: To ask the Secretary of State for Health whether NHS Professionals is covered by the Conduct of Employment Agencies and Employment Businesses Regulations; and if he will make a statement. [160594]

Mr. Hutton *[holding answer 11 March 2004]*: The NHS Professionals Special Health Authority is covered by the Conduct of Employment Agencies and Employment Businesses Regulations.

Mr. Burstow: To ask the Secretary of State for Health (1) what representations he has received on the *(a)* training and *(b)* criminal records checks undergone by nurses used by NHS Professionals; and if he will make a statement; [163500]

(2) what representations he has received on the adequacy of the *(a)* facilities and *(b)* IT systems to support NHS Professionals; and if he will make a statement. [163502]

Mr. Hutton: No such representations have been received.

Mr. Burstow: To ask the Secretary of State for Health how many NHS acute trusts have signed up to use NHS Professionals; and what proportion of acute trusts this represents. [163501]

Mr. Hutton: 55 acute trusts are currently signed up with NHS Professionals. This represents 24 per cent. of all acute trusts in England.

Mr. Burstow: To ask the Secretary of State for Health what the budget for NHS professionals is for each of the next three years. [163510]

Mr. Hutton: The budget for 2004–05 will be agreed very shortly. Budgets for the subsequent two years will be agreed at a later stage.

NHS Staff

Mr. Norman: To ask the Secretary of State for Health (1) how many support staff there were for scientific and technical staff in the NHS broken down by *(a)* trainees, *(b)* assistants, *(c)* healthcare assistants, *(d)* clerical and administrative staff and *(e)* maintenance and works staff in each of the last seven years; [165327]

(2) how many support staff there were for NHS ambulance staff, broken down by *(a)* trainee ambulance personnel, *(b)* healthcare assistants, *(c)* support workers, *(d)* clerical and administrative staff and *(e)* maintenance and works staff in each of the last seven years. [165398]

Mr. Hutton: The information requested is shown in the table.

NHS hospital and community health services: Support to clinical staff by area and by grade in England as at 30 September each year

Headcount

	1997	*1998*	*1999*	*2000*	*2001*	*2002*	*2003*
Total support to clinical staff	283,871	289,363	296,619	307,225	325,890	344,524	360,666

Department of Health Non-Medical Workforce Census.

NHS Staff (Foreign Nationals)

Hugh Bayley: To ask the Secretary of State for Health how many nationals of sub-Saharan African countries are employed by the NHS *(a)* directly and *(b)* through private agencies. [164420]

Mr. Hutton: The information requested is not collected centrally.

Health care professionals who work in the United Kingdom have to be registered with the relevant body. East body produces a statistical breakdown of their register.

NHS Staff Numbers

Mr. Yeo: To ask the Secretary of State for Health what the net change in the number of *(a)* general practitioners, as defined in the NHS Plan (Cm 4818), *(b)* nurses, *(c)* consultants and *(d)* midwives was for each year since 1997. [160658]

Mr. Hutton: The net change in the number of general practitioners (GPs) (excluding GP retainers and GP registrars) nurses, consultants and midwives for each year since 1997 is shown in the table.

Between 2002 and 2003 there was the largest increase recorded in the number of nurses, GPs and consultants—bringing the total workforce in the national health service to its highest level yet.

Hospital, public health medicine and community health services (HCHS) consultants, NHS Plan group GPs, all NHS qualified nursing, midwifery and health visiting staff, including practice nurses employed by unrestricted principals and equivalents (UPEs)[1] and NHS hospital and community health service midwives—England

Number (headcount)

	Change					
	1997–98	*1998–99*	*1999–2000*	*2000–01*	*2001–02*	*2002–03*
Consultants	850	997	1,080	1,381	1,288	1,680
NHS Plan GPs[2]	205	216	126	209	400	1,156
Nurses[3]	4,601	6,180	6,495	14,429	17,139	18,839
Midwives	456	-42	-227	503	174	692

[1] UPEs include GMS unrestricted principals, PMS contracted GPs and PMS salaried GPs.
[2] NHS Plan GPs includes GMS unrestricted principals, PMS contracted GPs, PMS salaried GPs, restricted principals, assistants, salaried doctors, PMS other and flexible career schemes.
[3] Practice nurse headcount figures are estimated for 1998 and 1999.
Note:
All data as at 30 September 1997–2002 and 30 June 2003 except GP and practice nurse data 1997–99.

Nurses (Recruitment)

Mr. Burstow: To ask the Secretary of State for Health with which countries other than the Philippines, Spain, India and Indonesia his Department is holding discussions to develop bilateral agreements on international nurse recruitment. [164289]

Mr. Hutton: We have no plans to enter further bilateral agreements on International Recruitment.

Officials from the Department recently met with representatives from the Chinese Embassy to discuss issues of mutual interest and the scope for co-operation without the need for formal agreements.

Mr. Burstow: To ask the Secretary of State for Health how many nurses have *(a)* applied for posts and *(b)* been recruited through the bilateral agreement with Indonesia. [164290]

Mr. Hutton: We do not hold the information centrally as to how many nurses applied for posts through the Memorandum of Understanding with Indonesia. Sixty seven nurses were interviewed and 19 were offered employment.

Four Indonesian nurses have been recruited into the National Health Service through the bilateral agreement.

Mr. Burstow: To ask the Secretary of State for Health how many *(a)* nurses and midwives and *(b)* medical consultants have been recruited through bilateral agreements, broken down by country. [164291]

Mr. Hutton: The Department signed a Memorandum of Understanding with the Philippine Government last year. To date the National Health Service has recruited 186 nurses through the agreement.

The Department has a bilateral agreement with the Ministry of Health in Spain. To date the NHS has recruited 892 nurses/midwives and 18 medical consultants as a result of this agreement.

The Department has an agreement with the Ministry of Health in India. To date the NHS has recruited 431 nurses/midwives and 136 medical consultants as a result of this agreement.

The Department signed a Memorandum of Understanding with the Indonesian Government in 2002. To date the NHS has recruited four nurses through the agreement.

We have recent signed a Memorandum of Understanding with South Africa to offer South African and English healthcare professionals the chance to go on time-limited placements to the other country.

Mr. Burstow: To ask the Secretary of State for Health how many nurses recruited through bilateral agreements are working in the NHS. [164292]

Mr. Hutton: 1,513 nurses currently working in the national health service have been recruited through bilateral agreements.

431 nurses have been recruited from India, four from Indonesia, 186 from the Philippines and 892 from Spain.

Mr. Burstow: To ask the Secretary of State for Health whether his Department plans to monitor the number of nurses not trained in the UK working in the NHS. [164293]

Mr. Hutton: The Nursing and Midwifery Council holds information on the number of nurses and midwives from overseas entering the register each year. This information can be found at www.nmc-uk.org.

Operations

Mr. Burstow: To ask the Secretary of State for Health how many operations were cancelled but rescheduled within 24 hours, in the NHS in *(a)* England, *(b)* each region and *(c)* each strategic health authority in each year since 1996. [156298]

Mr. Hutton: Quarterly data are collected on the number of operations cancelled by the hospital for non-clinical reasons 'at the last minute' (that is on the day patients are due to arrive, or after arrival in hospital, or on the day of their operation).

Cancelled operations data at England level and by National Health Service trust and Strategic Health Authority level are available in the Library and on the Department's website at http://performance.doh.gov.uk/hospitality

Data on the number of operations postponed by hospitals for periods of less than 24 hours are not collected centrally by the Department.

Bob Spink: To ask the Secretary of State for Health which operations are being purchased from the private sector. [164693]

Mr. Hutton: During recent years the national health service has purchased a range of operations from the private sector under the 'Concordat' arrangement. These have largely been less complex procedures, mainly in ophthalmology, general surgery and orthopaedics. Information is not held centrally on which operations have been commissioned under the Concordat this year, but is available for 2002–03. An analysis has been placed in the Library.

To ensure that waiting time targets are met, patient choice increased and value for money improved, the NHS will be making much greater, but more structured use of the independent sector from next year. This will be done under the aegis of the independent treatment centre programme. The procedures purchased will be diagnostic and less complex surgical procedures (such as cataract treatment, hernia repairs, primary hip and knee replacement, arthroscopies, endoscopies), mainly in general surgery, ophthalmology and orthopaedics.

When fully operational, we expect the independent sector treatment centre programme to treat 250,000 patients per annum across a range of simple and day care procedures.

In addition to this main programme, the Department is also currently negotiating a supplementary procurement (announced in July 2003) of an extra 125,000 operations for the NHS over the next five years, principally for additional orthopaedic operations. Two services are already working: a treatment centre at Daventry (cataracts) and the mobile cataract treatment service provided by Netcare.

Bob Spink: To ask the Secretary of State for Health what the price paid was for each class of operation purchased from the private sector; and what the equivalent NHS cost of those operations is. [164822]

Mr. Hutton: Information relating to the number of operations purchased from the private sector is not available.

Details of the finished consultant episode (FCE) activity that the national health service sub-contracted to, or directly commissioned from non-NHS providers during the financial year 2002–03, can be found in Appendix SRC5 of the Payment by Results: Core Tools 2004 publication, available on the Department's website at http://www.dh.gov.uk/PolicyAndGuidance/OrganisationPolicy/FinanceAndPlanning/NHSReferenceCosts/f s/en.

This activity includes both operative and non-operative procedures and treatments, for elective and emergency admissions to hospital. Comparable details of the cost of such activity incurred by NHS trusts can be found in Appendix SRC1 of the publication.

The information is also available on the CD, "Payment by Results: Core Tools 2004". The CD contains unit cost information for each NHS provider in 2002–03 for designated procedures, diagnoses and treatments.

Opticians

Mr. Burstow: To ask the Secretary of State for Health pursuant to his answer of 24 March 2004, *Official Report*, column 926W, on opticians, how many optical premises were registered as accepting national health service optical vouchers in *(a)* each region and *(b)* each primary care trust for each year since 1997. [165298]

Ms Rosie Winterton: All optical premises registered on a primary care trust (PCT) list to provide general ophthalmic services can accept national health service optical vouchers. There is no requirement for optical practices to register to accept optical vouchers alone. The Department is not aware of any difficulty in the availability of practices willing to accept NHS optical vouchers.

Information on the number of ophthalmic premises holding a contract with health authorities and latterly PCTs to provide general ophthalmic services has been placed in the Library.

Out-of-Hours Services

Miss McIntosh: To ask the Secretary of State for Health what steps his Department has taken to inform the public of the changes to out-of-hours services when the new general practitioner contract comes into effect on 1 April. [162260]

Mr. Hutton: From 1 April 2004, general practitioner practices will be able to opt-out of responsibility for out-of-hours services, with the approval of their local primary care trust (PCT). From 1 January 2005, they will have a right to opt-out in all but exceptional circumstances.

Where practices opt-out, it will be for PCTs to put in place alternative service for patients. It will therefore be for PCTs and practices to inform patients of changes as and when they occur. The Department is providing materials to help PCTs do that and has also briefed a number of national organisations representing patients.

Parliamentary Questions

Mr. Burstow: To ask the Secretary of State for Health when he expects to reply to questions tabled by the honourable Member for Sutton and Cheam, reference *(a)* 152306, *(b)* 151700, *(c)* 144757 and *(d)* 144782. [158719]

Dr. Ladyman: Replies were sent to the hon. Member on:

Friday 5 March 2004, *Official Report*, columns 1169–70W
Thursday 18 March 2004, *Official Report*, columns 444–45W
Wednesday 24 March 2004, *Official Report*, column 910W.

Mr. Burns: To ask the Secretary of State for Health what proportion of written questions for answer by his Department on a named day received a holding answer in the period between State Opening in *(a)* November 1998, *(b)* November 1999, *(c)* December 2000, *(d)* November 2002 and *(e)* November 2003 and the last day of February in the following year; and of those questions, what proportion received a substantive answer (i) within five parliamentary sitting days, (ii) within six to 10 parliamentary sitting days, (iii) within 11 to 20 parliamentary sitting days and (iv) after more than 20 parliamentary sitting days. [159997]

Ms Rosie Winterton *[holding answer 10 March 2004]:* Significant changes have been made to the parliamentary section and procedures for answering right hon. and hon. Members' questions within the Department since March 2002. A new database was introduced in October 2002 to help improve the process.

The available information is shown in the table.

Prior to October 2002, information from the previous database does not readily provide the further analysis sought, which could be obtained only by a manual count which would incur a disproportionate cost.

Session	*Number of Named Day PQs received*	*Percentage of Named Day PQs given a holding answer*	*Number given a substantive answer within 5 calendar days*	*Number given a substantive answer 6 to 10 calendar days*	*Number given a substantive answer within 11 to 20 calendar days*	*Number given a substantive answer after 20 calendar days*	*Number not yet answered*	*Average number of calendar days taken to answer a Named Day PQ after a Holding Reply was issued*
2003–04[1]	378	69.5	130	59	48	19	7	13.6
2002–03	1,469	68.6	480	245	140	144	—	15
2001–02*(a)*	283	70.3	101	54	21	13	—	12.3
2001–02*(b)*	4,205	—	—	—	—	—	—	—
2000–01	929	—	—	—	—	—	—	—
1999–2000	1,763	—	—	—	—	—	—	—
1998–99	1,175	—	—	—	—	—	—	—

[1] To end February.

Note:
The information for the 2001–02 session has been divided into two parts, as during this session a new Parliamentary Questions database was introduced to the Department. The information for 2001–02 *(a)* has been provided by this new database; the information for 2001–02 *(b)* has been taken from the old database.

Mr. Heathcoat-Amory: To ask the Secretary of State for Health when he will reply to the Question tabled by the hon. Member for Wells on 12 February, ref: 155796. [162500]

Mr. Hutton *[holding answer 22 March 2004]:* A reply was sent to the hon. Member on 26 March.

Patient Experience Definition

Mr. Burstow: To ask the Secretary of State for Health if he will estimate the cost of the research to develop the Patient Experience Definition. [162425]

Ms Rosie Winterton: The total cost of the project to explore the overall experience of patients using national health service services, was £39,722.60. One element of the project was the production of a Patient Experience Definition.

The Patient Experience Definition articulates the entirety of the desired experience from a patient perspective when using NHS services. Traditionally service delivery has focused on the physical aspects of patient care and has given much less emphasis to patients' emotional needs. The research has clearly identified that for patients a good emotional experience is critical to their overall satisfaction with the NHS. The definition enables both the Department and the NHS to have a more complete understanding of the patient experience when developing and delivering patient-centred services in the future.

Patients Choice Scheme

Bob Spink: To ask the Secretary of State for Health (1) how many patients he estimates will receive treatment under the Patients Choice Scheme in its first year; and if he will make a statement; [164695]

(2) if he will make it his policy to allow patients to opt into the Patients Choice Scheme; and if he will make a statement. [164696]

Mr. Hutton: The Department is committed to giving patients greater choice over the hospital they attend.

All strategic health authorities have completed robust plans for the implementation of choice for patients waiting more than six months for elective surgery which will be rolled out between April and August 2004. The plans anticipate that during the period April 2004 and December 2004 some 85,000 patients who have waited over six months will accept the choice of moving to another hospital for faster treatment. By December 2004 there will be no patients waiting longer than six months for inpatient treatment.

All patients waiting more than six months for elective surgery will be eligible to be considered for the scheme unless there is an overriding clinical reason why it would not be in the patient's best interest.

Under the current choice pilot schemes, almost 20,000 patients have already chosen to move to another hospital for faster treatment.

From December 2005 choice of hospital will be offered at the point of general practitioner referral, benefiting 10 million patients each year.

Percutaneous Endoscopic Gastrostomy

Mr. Goodman: To ask the Secretary of State for Health how many patients received percutaneous endoscopic gastrostomy in each year since 2001; and for what types of impairment. [163703]

Dr. Ladyman: Information for 2001–02 and 2002–03 on the numbers of episodes, listed by primary diagnosis, in which percutaneous endoscopic gastrostomy was the main procedure has been placed in the Library.

Pest Infestations

Mr. Burstow: To ask the Secretary of State for Health pursuant to his answer of 10 March 2004, *Official Report*, column 1610W, on pest infestations, what central monitoring will occur of action area three in Winning Ways. [163564]

Mr. Hutton: Strategic health authorities will monitor overall progress in achieving the measures set out in action area three of Winning Ways—on reducing reservoirs of infection.

Additional information on specific actions will be provided by the hospital cleanliness key target, standards of cleanliness scores, the performance indicator Winning Ways—processes and procedures and the controls assurance standards.

Plasma

Mr. Burstow: To ask the Secretary of State for Health what the projected timeline is for providing fresh frozen plasma sourced outside the UK for *(a)* children born in March, *(b)* older children born since 1996 and *(c)* high-risk groups. [163481]

Miss Melanie Johnson: The Government announced on 15 August 2002 that fresh frozen plasma (FFP) will be obtained from the United States for new-born babies and children born after 1 January 1996 as an added precaution against the theoretical risk of variant Creutzfeldt-Jakob Disease transmission. The National Blood Service will begin issuing imported FFP for all neonatal patients from the week commencing 29 March 2004. This will be extended to older children born on or after 1 January 1996 as soon as practicable. A commercially produced FFP product, sourced from the United States, is also available for the national health service to purchase.

The expert Advisory Committee on the Microbiological Safety of Blood and Tissues for Transplantation is considering whether to extend the provision of non-United Kingdom sourced FFP to high risk groups. There is no defined time scale at present.

Prescriptions

Mrs. Calton: To ask the Secretary of State for Health pursuant to his answer of 17 March 2004, *Official Report*, column 393W, on prescriptions, if he will list the sources and types of risks and threats, including fraud, identified by the security analysis evaluation made by the University of Newcastle into electronic transmission of prescriptions; and what countermeasures have been put in place. [163842]

Ms Rosie Winterton: The information was presented in a report to the Department by the Sowerby Centre for Health Informatics at the University of Newcastle entitled "Report on Security Assessment of the ETP pilots", a copy of which has been placed in the Library.

The lessons learned on fraud prevention from the earlier pilots are being taken into account in the design of the national model for the electronic transmissions of prescriptions and as part of the overall security architecture of the NHS Care Records Service.

Primary Care Trusts

Mr. Lansley: To ask the Secretary of State for Health what estimate he has made of the number of primary care trusts that plan to use NHS Direct to handle their out-of-hours calls from 1 April. [162098]

Ms Rosie Winterton: No estimate has been made of the number of primary care trusts that plan to use NHS Direct to handle out-of-hours calls from 1 April 2004.

Mr. Burstow: To ask the Secretary of State for Health what support will be given by his Department to primary care trusts who have had to sign early contracts with foundation trusts to manage risks involved with signing contracts before negotiations on activity levels have been completed. [165245]

Mr. Hutton: The Department of Health has put in place a package of support for primary care trusts (PCTs) that will be contracting with national health service foundation trusts, including:

Model 'template' contract documents to be adapted locally;

Bespoke training on 'Contracting with and by NHS Foundation Trusts'. Currently 253 NHS staff have attended the training course including 122 representatives from 78 PCTs; and

Access to specialist legal advice.

Prisons (Medical Access)

Mr. Burstow: To ask the Secretary of State for Health what representations he has received on ambulance and paramedic access to prisons; and if he will make a statement. [164612]

Dr. Ladyman: Ministers have received no representations on this issue. The Prison Service and the Department jointly issued a letter to prison governors and chief executives of National Health Service ambulance trusts on 22 March 2004 stating that agreed local protocols must be drawn up for rapid access to emergency paramedical services. Officials from the Department and the Prison Service are working together to look at providing central advice to high security prisons.

Private Finance Initiative

Mr. Jim Cunningham: To ask the Secretary of State for Health what analysis he has made of the effect of the Private Finance Initiative in the NHS, with particular regard to the cost of *(a)* services and *(b)* increasing capacity. [165136]

Mr. Hutton *[holding answer 1 April 2004]:* The Department reviews the business cases for all major private finance initiative (PFI) projects in accordance with the Department's capital investment manual. To be approved, a business case must demonstrate that in PFI option is affordable and value for money when compared with the publicly funded alternative. National Health Service trusts are also required to monitor performance throughout the lifetime of the PFI contract.

Since 1997, 21 major new PFI hospitals have opened and another 10 are under construction, representing capital investment in the NHS of nearly £3.5 billion.

All PFI schemes announced since the NHS Plan was published in July 2000 have resulted in increases in capacity. The 29 major schemes announced in February 2001, many of which are now in procurement, were the first to be planned from the start after July 2000 and are intended to increase NHS beds by approximately 2,900. These increases are in both acute and intermediate care beds, contributing to the targets in the NHS Plan.

Project Funding

Mr. Colman: To ask the Secretary of State for Health (1) how many *(a)* solely state-financed and *(b)* public-private partnership and private finance initiative projects for which his Department is responsible have been launched in each region in each of the last 10 years; [160969]

(2) how much was spent by *(a)* the Government on solely state-financed projects and *(b)* the (i) Government and (ii) private sector on public-private and private finance initiative projects for which his Department is responsible, in each of the last 10 years, broken down by region. [160970]

Mr. Hutton: The table provides information on projects which have reached financial close. In the case of the hospital build programme only schemes with a capital value of £25 million and over are included. Further information on private finance initiative projects can be found on the Treasury website at http://www.hm-treasury.gov.uk/documents/publicprivatepartnerships/ppp_pfi_stats.cfm

It is not possible to break these numbers down into regions as projects such as the national health service local improvement finance trust and treatment centres programmes cross administrative boundaries. Also, regional health authorities, NHS regional offices and directorates of health and social care have now been replaced with 28 strategic health authorities.

	NHS capital expenditure						*PFI/PPP investment*			
	Publicly procured hospital schemes		*Treatment centres*		*PFI hospital schemes*		*Treatment centres*		*NHS lift*	
Financial year[1,2]	*No.*	*Total capital value (£ million)*	*No.*	*Total capita value (£ million)*	*No.*	*Total capital value (£ million)*	*No.*	*Total capital value (£ million)*	*No.*	*Total capital value (£ million)*

2003–04					9	1052	1	23	6	124

[1] Expenditure pre 1999–2000 is on a cash basis.

[2] Expenditure figures from 1990–2000 to 2002–03 are on a Stage 1 Resource Budgeting basis (and consistent with figures in table 3.3a of Departmental Report 2003.

[3] Estimated outturn.

[4] Made up of wholly publicly procured and as part of an existing PFI scheme. The Treatment Centre programme is spread over 2 years.

Records are not held centrally for all contracts entered into with private sector companies. This information could be provided only at disproportionate cost.

Public Bodies (Health Services)

Mr. Burstow: To ask the Secretary of State for Health (1) if he will list the *(a)* budget, *(b)* administration budget, including payroll, *(c)* number of staff and *(d)* capital assets of the (i) Access Task Force, (ii) Adoption and Permanence Task Force, (iii) Cancer Task Force, (iv) Children Task Force, (v) Coronary Heart Disease Task Force, (vi) Cross Task Force Prevention Group, (vii) Herbal Medicines Statutory Regulation Working Group, (viii) Making a Difference, Reducing Burdens in Hospitals Task Force, (ix) Making a Difference, Reducing Burdens On GPs Task Force and (x) Mental Health Task Force; [163515]

(2) if he will list the *(a)* budget, *(b)* administration budget, including payroll, *(c)* number of staff and *(d)* capital assets of the (i) NHS IT Task Force, (ii) Older People Task Force, (iii) Patient Environment Steering Group, (iv) Practice Learning Task Force, (v) Quality Task Force, (vi) External Project for Reform of Social Work Education and Training, (vii) Reform of Social Work Education and Training, (viii) Practice Learning Project Group for Reform of Social Work, Education and Training, (ix) Qualification Development Project Group for Reform of Social Work, Education and Training and (x) Registration Post-Qualifying, Continuous Professional Development Project Group for Reform of Social Work, Education and Training; [163517]

(3) if he will list the *(a)* budget, *(b)* administration budget, including payroll, *(c)* number of staff and *(d)* capital assets of the interdepartmental group on the (i) Health Impact Assessment, (ii) Management of Medicines Renal NSF Groups, (iii) NHS Modernisation Board, (iv) NHSFT External Referenee Groups for Governance, (v) Nursing and Midwifery Modernisation Board, (vi) SCOTH/ACMD Working Group on Cannabis and Tobacco Smoking, (vii) National Users Panel of the Community Equipment Services External Reference Group, (viii) Interagency Working Group to Develop a Memorandum of Understanding between his Department and the Police and the HSE and (ix) Primary Care Workforce Review External Reference Group; [163516]

(4) if he will list the *(a)* budget, *(b)* administration budget, including payroll, *(c)* number of staff and *(d)* capital assets of the (i) Strategic Commissioning Group, (ii) Workforce Task Force, (iii) Advisory Committee for Topic Selection, (iv) Advisory Group for Genetics Research, (v) Agenda for Change Central Negotiating Group, (vi) Children's National Service Framework Strategy Group, (vii) Expert Group on Blocked Anaesthetic Tubing, (viii) Expert Group on Mental Health in Prisons, (ix) Forensic Psychiatrists Working Group, (x) Generic Medicines Management Steering Group for Diabetes, Renal and Long-Term Conditions National Service Frameworks and (xi) Implementation Board for Modernising NHS Hospital Medicines Manufacturing. [163518]

Ms Rosie Winterton: Information on the Department's task forces, ad hoc advisory groups and reviews is given in the annual publication "Public Bodies". This publication explains that such groups have a short-term focus and when their work comes to an end they are disbanded. These groups are usually created to give expert advice to the Government on a specific issue and are usually expected to remain in operation for less than two years. They are not separate statutory bodies. As such, they have no capacity to employ staff or hold assets in their own right, and rely on secretariat and other support from the Department and sometimes other interested bodies. They will not normally have any formal separate budget allocated to them, and accountability for expenditure will remain with the body to whom any funding is allocated. A number of those listed have completed their work and no longer exist.

Radiographers

Bob Spink: To ask the Secretary of State for Health what assessment he has made of the adequacy of provision of radiographers in England; and if he will make a statement. [164329]

Mr. Hutton: Considerable progress has been made in increasing the number of radiographers employed in the National Health Service. There are 13 per cent. more NHS radiographers than in 1997 and the number of training places has increased by 107 per cent. over the same period. The additional training places are now starting to make an impact on numbers in the workforce. However, there is more to do. National vacancy rates are 6.1 per cent. for diagnostic radiographers and 10.7 per cent. for therapeutic radiographers.

The Department recently launched a national radiography recruitment and retention strategy to build on the progress already made. For the next two years, this will focus on increasing the workforce, encouraging returns and developing an attractive career pathway for all radiography staff.

Register of Interests

Bob Spink: To ask the Secretary of State for Health what requirements there are on officials in his Department to declare current interests; and what register of interests is kept for his departmental officials. [164691]

Ms Rosie Winterton: The Civil Service Management Code sets out the requirements for civil servants declaring any conflict of interest. The Department of Health staff are required to follow the code and declare any relevant interests; and, in addition, to record such interests in a register.

Seroxat

Tim Loughton: To ask the Secretary of State for Health (1) what estimate has been made under the yellow card system of the number of people who have suffered side effects from Seroxat in each of the last five years; [162560]

(2) how many people prescribed Seroxat are known to *(a)* suffer and *(b)* have suffered from side effects worthy of note. [162561]

Ms Rosie Winterton: The Medicines and Healthcare products Regulatory Agency and Committee on Safety of Medicines receive reports of suspected adverse drug reactions (ADRs) submitted by doctors, dentists, pharmacists and coroners via the yellow card scheme, and there is a legal requirement for companies to report suspected ADRs to their drugs.

The number of reports received via the yellow card scheme does not directly equate to the number of people who suffer adverse reactions to drugs for a number of reasons including an unknown level of under-reporting. It is important to note that the reporting of a suspected reaction does not necessarily mean it was caused by the drug and may relate to other factors such as the patient's underlying illness or other medicines taken concurrently.

A total of 8,958 reports of suspected ADRs have been received through this scheme in association with paroxetine (Seroxat) since 1990, of which 4,826 were serious (i.e. considered serious by the reporter, were fatal, life-threatening, resulted in hospitalisation or disability, or were medically significant).

The following table provides a breakdown of the total number of reports received in association with paroxetine (Seroxat) annually for the past five years.

	Number of reports for paroxetine (Seroxat)
1999	481
2000	433
2001	341
2002	359
2003	241

Comprehensive warnings about the possible side effects of Seroxat, including those which may occur upon withdrawal from treatment, are included in the product information for prescribers and the patient information leaflet.

Shared Services Scheme

Mr. Burstow: To ask the Secretary of State for Health pursuant to his Answer of 23 March 2004, *Official Report*, column 718W, on administration, if he will set out the projected estimated savings if the shared services schemes were rolled out nationally; and what the timetable is for rolling out these schemes. [165296]

Mr. Hutton: It is anticipated that using the existing capacity of the centres in Leeds and Bristol, and allowing for the safe and proper migration of data, take up of the shared service centres will be slightly over 60 per cent. of national health service organisations by number by 2009–10.

It is anticipated total savings will be £95 million to £105 million per annum by then.

Skin Cancer

Tim Loughton: To ask the Secretary of State for Health what percentage of children have developed skin cancer in each of the last seven years. [165579]

Dawn Primarolo: I have been asked to reply.

The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Len Cook to Tim Loughton, dated 7 April 2004:

As National Statistician, I have been asked to reply to your recent question concerning what percentage of children have developed skin cancer in each of the last seven years. [165579].

The latest year for which figures are available is 2000. The proportion[1] of all children aged0–14 years registered with a newly diagnosed case of melanoma of the skin[2] for each of the seven years 1994–2000 in England, are given in the table below.

Number of children aged 0–14 years that developed skin[1] cancer, and rate of occurrence, England, 1994–2000

	Number of cases	*Rate per million children[1]*
1994	15	2
1995	7	1
1996	10	1
1997	8	1
1998	9	1
1999	6	1
2000	5	1

[1] Proportions are presented as rates per million population aged 0–14 in each year. The populations used are interim revised mid-year population estimates for England, released in November 2003.

[2] For the year 1994, International Classification of Disease, Ninth Revision Code (ICD-9) Code C172 For the years 1995 to 2000, International Classification of Diseases, Tenth Revision (ICD-10) code C43.

Source:
Office for National Statistics.

Speech Therapy

Angela Watkinson: To ask the Secretary of State for Health how many speech therapists posts were vacant in each of the primary care trusts in Greater London in each year since 1997. [164174]

Mr. Hutton: Information on the number and rate of vacancies lasting three months or more for speech and language therapists for all organisations in the London area in each year since 1999, the first year vacancy information was collected, has been placed in the Library.

Substance Misuse (Advertising Campaigns)

Mr. Carmichael: To ask the Secretary of State for Health how much the Government have spent on advertising campaigns highlighting the dangers associated with *(a)* alcohol misuse, *(b)* illegal drugs and *(c)* tobacco smoking in each year since 1997. [161067]

Miss Melanie Johnson: There has been no expenditure by the Department on advertising the dangers of alcohol during this period. The Department has funded health promotion work in this area from a centrally held budget, including campaign literature, helpline and website advice. However, local national health service agencies are responsible for local health promotion work. The funds they spend on this work forms part of their general budget and no breakdown of these funds is centrally available.

Prior to 1999–2000, the Health Education Authority ran the campaign highlighting the dangers of illegal drugs.

The figures in the table show the Department's expenditure from 1999–2000 on advertising the dangers of illegal drugs.

£ million

	Expenditure
1999–2000	0.53
2000–01	0.5
2002–03	1.5
2003–04	1.5[1]

[1] Contribution to joint Home Office/Department of Health/ Department for Education and Skills campaign on the dangers of illegal drugs.

Prior to 1999–2000 the Health Education Authority ran the public education campaign on the dangers of smoking. The Department of Health took over this work in 1999–2000.

The figures in the following table show the Department's expenditure from 1999–2000 to date.

£ million

	Expenditure
1999–2000	6.18
2000–01	8.97
2001–02	7.79
2002–03	7.88
2003–04	[1]17.76

[1] Total spend to date.

Suicide Bereavement

Mr. Truswell: To ask the Secretary of State for Health (1) what assessment his Department has made of models of suicide bereavement support in other countries as part of its study into adopting such models in England. [164857]

(2) what role suicide bereavement support plays in the national suicide prevention strategy. [164858]

Ms Rosie Winterton: The national suicide prevention strategy for England is committed to providing appropriate support to people bereaved by suicide. The National Institute for Mental Health in England has established a small group comprising of organisations which provide support to people bereaved by suicide to consider what further support and information can be provided to this vulnerable group. No formal assessment of models of suicide bereavement support in other countries has been undertaken by the Department, but the bereavement group has considered some as part of its work. The Department has commissioned the York Centre for Reviews and Dissemination to undertake a review of evidence regarding interventions to help people bereaved by suicide. Its findings will inform the work of the bereavement group.

Mr. Truswell: To ask the Secretary of State for Health how many suicide bereavement support organisations receive financial or other support from his Department. [164859]

Ms Rosie Winterton: The Department currently funds two organisations which provide support to people bereaved by suicide; CRUSE Bereavement Care and the Samaritans.

Teenage Cancer

Dr. Gibson: To ask the Secretary of State for Health how many teenage and young adult cancer patients entered into clinical trials in each of the last five years; and if he will make a statement. [163891]

Miss Melanie Johnson: The National Cancer Research Network (NCRN) does not collect data on the ages of cancer patients entered into clinical trials. Therefore the information requested is not available. The Department of Health, which funds NCRN, is providing specific support for a specialised research network on paediatric oncology. The network is led by the United Kingdom children's cancer study group (UKCCSG). At the suggestion of the UKCCSG, this funding includes provision for a trial co-ordinator development post for teenage and young adult cancers. This investment reflects the importance the Department places on the development of clinical trials for teenage and young adult cancer patients.

Therapist Consultants

Mr. Burstow: To ask the Secretary of State for Health pursuant to his answer of 12 March 2004, *Official Report*, column 1828W, on therapist consultants, how many allied health professions consultants there were in *(a)* 2003 and *(b)* 2004. [164242]

Mr. Hutton: The Department of Health non-medical workforce census records that there were 20 allied health professions consultants on 30 September 2003. Corresponding figures for 2004 are not yet available.

Timber Purchases

Mr. Gardiner: To ask the Secretary of State for Health how *(a)* the Department for Health, *(b)* health authorities, *(c)* the Meat Hygiene Service, *(d)* the Medicines and Healthcare Products and Regulatory Agency, *(e)* the NHS Estates, *(f)* the NHS Pensions Agency and *(g)* the NHS Purchasing and Supply Agency monitor and audit purchases of timber and timber products to ensure that they meet the Department's stated commitment to being obtained from legal and sustainable sources. [164675]

Ms Rosie Winterton: The information is as follows:

Department of Health: The Department is committed to ensuring that all its purchases of timber and timber products meet the requirements of the United Kingdom Government timber procurement policy. Following publication of revised guidance to Departments on sustainable timber procurement in January 2004, the Department has revised its standard Invitation to Tender to ensure that all tenderers are aware of and comply with the policy. In addition, the Department's facilities management team monitors all purchases of timber and timber products to ensure that they meet the requirements of the policy.

Health Authorities: The NHS Purchasing and Supply Agency (NHSPASA) is actively implementing a timber compliance strategy within the National Health Service (NHS). For example, NHSPASA is working with all the suppliers on the national NHS contract for furniture to implement the Government's timber procurement policy within the NHS.

This will ensure that the source of timber can be audited and monitored to make sure that it is from a sustainable and legal supply. Suppliers' progress is monitored on an ongoing basis, and updated information is available to the NHS on the NHSPAPSA's website.

Meat Hygiene Service (MHS): The MHS is an executive agency of the Food Standards Agency and as such is not covered by the Department's sustainable development policy. However, the MHS procurement strategy states that:

"the MHS will ensure that sound environmental policies are incorporated into its procurement process so that costs and benefits associated with 'green' procurement are always considered".

Medicines & Healthcare Products Regulatory Agency (MHRA): The policies of the central Department also apply to, and have been adopted by MHRA.

NHS Estates: The policies of the central Department have been adopted by NHS Estates. Any purchase of furniture would require the supplier to give undertakings as to the source of materials used. Any purchase of new furniture would require the supplier to give undertakings as to the source of the material used.

NHS Pensions Agency: Purchases of timber are made via the Agency's facilities management contractor, who endeavours to ensure that the products are purchased from legitimate timber merchants. Actual purchases are monitored and reported within the framework for sustainable development on the Government Estate.

NHS Purchasing and Supply Agency: NHSPASA buys timber products only from suppliers that have implemented chain-of-custody systems that have been independently audited. This is a requirement of NHSPASA's ISO14001 environmental management system.

Training

Mr. Burstow: To ask the Secretary of State for Health how many *(a)* district nurses and *(b)* health visitors were in training in each year since 1997. [164865]

Mr. Hutton: The number of district nurses and health visitors in training in each year since 1997 is shown in the table.

Number of district nurses and health visitors in training

	Health visitors	*District nurses*
1997–98	627	603
1998–99	580	541
1999–2000	598	573
2000–01	695	560
2001–02	580	521
2002–03[1]	664	569

[1] Forecast

There has been significant growth in the number of community service nurses other than health visitors and district nurses. Since 1997 there has been an increase of 11,974(61.9 per cent.) in such nurses.

These figures reflect that changing nature of the nursing workforce and the increasing skill mix in community nursing teams. Health visiting teams are also increasing their skill mix through initiatives that are promoting integrated children's services where health visitors work as part of Sure Start and other community children's teams.

It is the responsibility of primary care trusts to determine how they use the extra growth money allocated, to deliver on both national and local priorities.

Mr. Burstow: To ask the Secretary of State for Health how much he estimates it costs to train *(a)* 250 district nurses and *(b)* 250 health visitors. [164868]

Mr. Hutton: The contract for training community nurses does not differentiate between different branches of nursing, such as district nurses and health visitors.

Based on the average cost of the contract it would cost £5.9 million to train 250 district nurses and 250 health visitors.

Treatment Centres

Mr. McLoughlin: To ask the Secretary of State for Health what criteria organisations had to satisfy to be invited to bid for independent sector treatment centre contracts; what stages the evaluation process consisted of; who evaluated the competing providers; and what qualifications each had to enable them to carry out the evaluation. [164604]

Mr. Hutton: All independent sector providers that expressed an interest in response to advertisements in the *Official Journal* of the European Communities were asked to complete and return a pre-qualification questionnaire. Detailed analysis of the information in the questionnaire enabled the selection of a group of short-listed bidders based on their financial standing and ability to deliver high quality clinical services. This group was invited to submit bids for the contracts to manage and run the proposed new treatment centres. The subsequent selection of the preferred bidders followed careful evaluation of the submitted bids. The evaluation criteria included clinical quality, infrastructure, information management and technology, human resources, legal, financial, speed of mobilisation and delivery, and value for money. There was a structured scoring mechanism against each of these criteria and total scores assessed between bidders.

The national implementation team co-ordinated the evaluation of submitted bids. Bids were evaluated and ranked by specialist teams consisting of members of the national implementation team, their advisers and local national health service sponsors and experts. The national implementation team is part of the new commercial directorate of the Department of Health and brings together staff with a range of the clinical, commercial and legal skills relevant to the procurement of clinical services.

Mr. McLoughlin: To ask the Secretary of State for Health which organisations have been invited to bid for independent sector treatment centre contracts; and what specific experience each organisation has in running surgical facilities providing orthopaedic procedures and major joint replacement programmes. [164605]

Mr. Hutton: Announced preferred bidders for the independent sector treatment centre programme are: Netcare UK, Mercury Healthcare Ltd., Care UK

Afrox, Anglo Canadian Clinics, Nations Healthcare, Birkdale Clinic, New York Presbyterian, Capio UK and Interhealth Care Services (UK) Ltd. All likely preferred bidders are subject to final contract negotiation and agreement and schemes will only proceed if they provide the required level of value for money for national health service commissioners.

Contractual closure has also been reached on four of the schemes. One, a fixed site treatment centre at Daventry, managed and run by the Birkdale Clinic; the second, a mobile cataract theatre, run and managed by Netcare UK; the third a fixed site treatment centre at Trent, managed and run by Care UK Afrox; and the fourth a fixed site treatment centre at Bradford, managed by Nations Healthcare.

The selection of the preferred bidders followed careful evaluation of the submitted bids. This evaluation included a clinical assessment and preferred bidders have demonstrated that they are competent to provide the services for which they have bid.

Tuberculosis

Dr. Murrison: To ask the Secretary of State for Health what the mortality rate for TB was in each year since 2000. [161100]

Miss Melanie Johnson: The mortality rate for tuberculosis in each year from 2000 is shown in the table.

	Male	*Female*
2000	-0.69	0.41
2001	-0.69	0.41
2002	-0.80	0.40

Note:
Rates per 100,000 for England and Wales, directly age-standardised to the European Standard Population.
Source:
ONS

Dr. Murrison: To ask the Secretary of State for Health how many cases of TB there were in England in the last period for which figures are available, broken down by *(a)* age, *(b)* sex, *(c)* ethnicity and *(d)* patient's country of origin. [161140]

Miss Melanie Johnson *[holding answer 15 March 2004]:* The information requested is shown in the tables.

The following data are taken from the 2001 Enhanced tuberculosis surveillance.

Number of TB cases by age group and sex

Age group	*Male*	*Female*	*Sex not reported*	*Total*
Age not reported	2	3	0	5
0–4	79	68	0	147
5–9	59	59	0	118
10–14	83	95	0	178
15–19	167	187	1	355
20–24	330	276	2	608
25–29	445	351	2	798
30–34	400	297	2	699
35–39	306	231	1	538
40–44	266	181	0	447
45–49	233	176	1	410
50–54	186	153	0	339
55–59	139	133	0	272
60–64	190	140	0	330
65–69	146	147	0	293
70–74	169	126	1	296
75–79	142	126	0	268
80–84	100	89	0	189
85–89	44	44	0	88
90+	14	22	0	36
Total	3,500	2,904	10	6,414

Number of TB cases by place of birth

	TB cases	*Percentage*
Born in the UK	1963	30.60
Born abroad	3490	54.40
Place of birth not reported	961	15.00

Number of TB cases by ethnic group

Ethnicity	*TB cases*	*Percentage*
White	1,804	28.10
Black Caribbean	186	2.90
Black African	1,003	15.60
Black other	32	0.50
Indian	1,060	16.50
Pakistani	1,019	15.90
Bangladeshi	169	2.60
Chinese	82	1.30
Other (including mixed ethnic group)	486	7.60
Ethnic group not reported	573	8.90

Urine-based Therapies

Mrs. Calton: To ask the Secretary of State for Health what assessment has been made of the possibility of urine-based drug therapies providing a route for human-to-human transmission of *(a)* CJD and *(b)* other diseases. [162496]

Miss Melanie Johnson: The possibility of urine based drug therapies providing a route for human-to-human transmission of Creutzfeldt-Jakob disease (CJD) and other diseases has been considered by the Committee on Safety of Medicines (CSM) and at a European level by the Committee for Proprietary Medicinal Products (CPMP). There is no evidence of human-to-human infection of CJD caused by urine based drug therapy and epidemiological evidence does not suggest a risk for urine-derived medicinal products from patients with sporadic CJD. However, as a precautionary measure, the CSM has advised that urine from a country with one or more cases of variant Creutzfeldt-Jacob Disease (vCJD) should not be used as a source of human urine to produce medicinal products for the United Kingdom.

All UK medicinal products are manufactured in accordance with European regulatory guidelines and it is a requirement that all urinary derived products use validated manufacturing process which are capable of

providing assurance that the risk of viral infectivity is minimised. These requirements are assessed by the Medicines and Healthcare products Regulatory Authority for all urinary derived products. Bacterial infection should not be an issue, as these products are for injection and are therefore required to be sterile.

Waiting Times

Mr. Burstow: To ask the Secretary of State for Health if he will list the waiting time statistics for *(a)* inpatient, *(b)* outpatient, *(c)* community and *(d)* treatment centre dental treatment in (i) England and (ii) each region in each of the last six years; and if he will make a statement. [156327]

Ms Rosie Winterton: The available information has been placed in the Library.

Information is not collected centrally on waiting times in the community and for treatment centre dental treatment.

Weston Area Health Trust

Brian Cotter: To ask the Secretary of State for Health how many vacancies for *(a)* district nurses, *(b)* health visitors and *(c)* midwives there were in the Weston Area Health Trust in each year since 1997. [165602]

Ms Rosie Winterton: Figures for three-month vacancies for district nurses, health visitors and midwives in Weston Area Health National Health Service Trust as at 31 March each year have been collected since 1999 and are shown in the table.

NHS hospital community health services: three-month vacancies for district nurses, health visitors and midwives in the Weston Area Health NHS Trust as at 31 March each year

whole-time equivalent

	District nurses	*Health visitors*	*Midwives*
1999	0	0	0
2000	0	0	0
2001	0	0	0
2002	1	0	0
2003	0	0	1

Note:
Three-month vacancies are vacancies which trusts are actively trying to fill which had lasted for three months or more (whole-time equivalents)

Department of Health Vacancies Survey

Brian Cotter: To ask the Secretary of State for Health how many *(a)* district nurses, *(b)* health visitors and *(c)* midwives there were in the Weston Area Health Trust in each year since 1997 broken down by (i) headcount and (ii) whole-time equivalent. [165603]

Ms Rosie Winterton: The information requested is shown in the table.

NHS hospital community health services: district nurses, health visitors and midwives employed within Weston Area Health NHS Trust as at 30 September each year

	1997	*1998*	*1999*	*2000*	*2001*	*2002*	*2003*
Whole-time equivalent							
District nurses	26	27	6	29	28	0	0
Health visitors	23	23	0	22	22	2	3
Midwives	8	7	3	8	8	9	12
Headcount							
District nurses	31	36	7	35	33	0	0
Health visitors	29	30	0	29	29	4	6
Midwives	10	8	4	9	10	14	25

Note:
The change in staff numbers from 2001 to 2002 is because in April 2002 community staff (including district nurses and health visitors) transferred from Weston Area Health NHS Trust to North Somerset PCT.

Working Time Directive

Mr. Burstow: To ask the Secretary of State for Health pursuant to his answer of 17 March, *Official Report*, column 396W, on the Working Time Directive, if he will list the problems raised with him caused by the decisions of the European Court of Justice on the SIMAP/Jaeger cases; and if he will set out his Department's response to those representations. [164901]

Mr. Hutton: The two European Court of Justice decisions have raised particular problems for the National Health Service by ruling that residential on-call work, even if the doctor is resting or sleeping, has to be counted as work and also by stipulating that compensatory rest has to be taken immediately. This has made compliance with the Working Time Directive for doctors in training from August 2004 more difficult given the substantial reliance on resident on-call rotas to provide round the clock cover in acute services. These difficulties are most apparent in small isolated hospitals and some specialities.

CHURCH COMMISSIONERS

Weddings (Non-Anglican Communicants)

Paul Flynn: To ask the hon. Member for Middlesbrough, representing the Church Commissioners what plans the Commissioners have to increase the number of *(a)* church and *(b)* church-owned premises that are available for wedding ceremonies for those who have not been baptised in the Anglican communion. [166160]

Sir Stuart Bell: The legal rules on where Church of England weddings may take place are not a matter for the Church Commissioners.

However, I can tell my hon. Friend that, subject to a limited number of statutory exceptions, parishioners in England have a right to be married by the Church of England in their own parish church. This applies irrespective of whether the bride and groom have been baptised.

ELECTORAL COMMISSION COMMITTEE

Electoral Registration

26. **Mr. Barnes:** To ask the honourable Member for Gosport, representing the Speaker's Committee on the Electoral Commission what proposals the Electoral Commission has to encourage electoral returning officers to canvass local residents in order to update electoral registration. [166168]

Mr. Viggers: The Commission published a report last year on the electoral registration process, which made a number of recommendations for changes to the law and identified good practice in the management of the electoral registration process. The Commission also intends to issue practice guidance to electoral registration officers on what is possible and desirable within the current statutory framework to improve the accuracy of the register.

Voting Age

Mr. Allen: To ask the hon. Member for Gosport, representing the Speaker's Committee on the Electoral Commission when the Electoral Commission's report on the age of voting and candidacy will be published. [166767]

Mr. Viggers: The Electoral Commission's report on the age of voting and candidacy is being published today. The Commission has sent copies to all Members of Parliament and has placed copies in the Library.

HOUSE OF COMMONS COMMISSION

Electricity Consumption

Norman Baker: To ask the hon. Member for Roxburgh and Berwickshire, representing the House of Commons Commission what the total electricity consumption for the House has been for each year from 1997 to date; and what percentage in each year was derived from renewable sources. [165925]

Sir Archy Kirkwood: The total electricity consumed each year on the parliamentary estate has been:

	Million kWh
1997–98	16.1
1998–99	17.1
1999–2000	17.2
2000–01	19.8
2001–02	21.1
2002–03	23.4

During this period the Parliamentary Estate has grown with the occupation of additional premises, so the figures are not directly comparable.

Since 2002 some 11 per cent. of our electricity has come from renewable sources.

Recycling

Norman Baker: To ask the hon. Member for Roxburgh and Berwickshire, representing the House of Commons Commission (1) what steps the Commission takes to facilitate the recycling of *(a)* glass and *(b)* cans within the House; [165923]

(2) what volume of paper collected from the House of Commons in 2003 was sent for recycling; [165926]

(3) what steps he takes to ensure that paper placed in containers for recycling is recycled. [165927]

Sir Archy Kirkwood: Glass for recycling is collected and crushed in the waste centre off Peers Court. 154 tonnes were recycled in the 11 month period from April 2003 to February 2004. Metal cans for recycling are separated from general waste at our waste contractor's works.

In the 11 month period from April 2003 to February 2004, 347 tonnes of waste paper were sent for recycling.

Recycling bins are available for all offices on the parliamentary estate. Cleaners and waste centre attendants have been instructed accordingly. Members of the Waste Recycling Steering Group work within their respective parts of the estate to encourage maximum recycling.

Telephone Costs

Norman Baker: To ask the hon. Member for Roxburgh and Berwickshire, representing the House of Commons Commission what the total telephone bill for the House was in the last year for which figures are available. [165687]

Sir Archy Kirkwood: The cost of telephone calls and rental in 2002–03 was approximately £1.6 million.

CULTURE, MEDIA AND SPORT

Licensing Act (Circuses)

9. **Mr. Luff:** To ask the Secretary of State for Culture, Media and Sport, when she last met representatives of the circus industry to discuss the implementation of the Licensing Act 2003. [166149]

Mr. Caborn: Meetings with the circus industry about the Licensing Act 2003 have been at official rather than ministerial level. Officials from my Department last met circus industry representatives on 5 March and have also discussed these issues with the Arts Council and with Equity.

Motor Sport

10. **Richard Burden:** To ask the Secretary of State for Culture, Media and sport, what efforts she is making to promote motor sport in the UK. [166150]

Mr. Caborn: The Government fully support the promotion of motor sport in this country including world-class motor sport events. Officials from my Department, together with those from the Department of Trade and Industry and four Regional Development Agencies are supporting the work of the Motorsport Development Board (MDB). This industry-led body has the remit to promote and develop motor sport in the UK. Financial support of up to £16 million for the work of the MDB was announced by my right. hon. Friend the Secretary of State for Trade and Industry on 11 July 2003.

Tourism (Seaside Resorts)

11. **Shona McIsaac:** To ask the Secretary of State for Culture, Media and Sport, what steps she is taking to promote tourism in English seaside resorts. [166151]

Estelle Morris: VisitBritain receives a grant of £12.9 million to promote holidays to the domestic market. Seaside resorts feature in the current and future campaigns. Next year they will benefit substantially from the "SeaBritain" campaign in which VisitBritain will be a partner of the National Maritime Museum.

Gift Aid (Museums)

12. **Mr. Heath** : To ask the Secretary of State for Culture, Media and Sport, what recent discussions she has had with the Chancellor of the Exchequer on gift aid in relation to museums. [166153]

Estelle Morris: Officials from my Department, representatives from the museums sector and Inland Revenue officials met in February to discuss gift aid in relation to Museums. The results of the consultation will be announced around the time of the outcome of the 2004 Spending Review.

Gambling

13. **Mr. Swayne:** To ask the Secretary of State for Culture, Media and Sport, if she will make a statement on reform of gambling laws. [166154]

Mr. Caborn: We plan to introduce a Gambling Bill as soon as parliamentary time allows. The Bill will modernise the law and provide stronger safeguards. We are considering the report of the Joint Scrutiny Committee that looked at our draft Bill. It made 139 recommendations and we will consider each carefully.

Playing Fields

15. **Mr. Robathan:** To ask the Secretary of State for Culture, Medial and Sport how many playing fields were sold in each financial year since 2001–02. [166156]

Mr. Caborn: The available data relate to planning applications. In 2001–02, 91 per cent. and in 2002–03, 90 per cent. of all approved planning applications relating to playing fields improved sporting provision or kept it at the same level.

National Lottery

17. **Bob Spink:** To ask the Secretary of State for Culture, Media and Sport what estimate she has made of the proportion of lottery good causes money that will go to the New Opportunities Fund. [166158]

Estelle Morris: The New Opportunities Fund (NOF) gets 33.33 per cent. of operator-related income to the National Lottery Distribution Fund (NLDF), and a share of earnings from the investment of the NLDF balance. NOF's share of investment earnings is related to its proportion of the total NLDF balance. It changes frequently as that proportion changes.

Sir Teddy Taylor: To ask the Secretary of State for Culture, Media and Sport what the total amount of unclaimed lottery prizes is; and what the largest single unclaimed amount is. [166157]

Estelle Morris: Total unclaimed prizes up to the week ending 20 March 2004 were £614.4 million. The largest unclaimed prize to date is £3,011,065.

Miss McIntosh: To ask the Secretary of State for Culture, Media and Sport if she will make a statement on Lottery funding for sports facilities for local football clubs. [166531]

Mr. Caborn: Lottery funding will continue to be made available for the provision of new sports facilities—including facilities for local football clubs.

Local football clubs can benefit from a wide range of publicly funded programmes and initiatives: for example, the New Opportunities Fund for PE and Sport; Active England; Community Club Development Fund; and Green Spaces and Sustainable Communities.

Funding is also available through the Football Foundation to support capital projects, such as the £60,000 recently awarded to Poppleton Junior Football Club for the re-development of pitches on their Millfield Ground.

Accountancy Services

Mr. Cousins: To ask the Secretary of State for Culture, Media and Sport what the *(a)* nature and *(b)* value was of all contracts, consultancies or other services placed with the accountancy firms (i) Deloitte & Touche, (ii) Ernst & Young, (iii) KPMG and (iv) PricewaterhouseCoopers since 2000–01 by the Department and its agencies. [166095]

Mr. Caborn: The following contracts are those awarded over the stated time period:

(i) Deloitte & Touche—Nil return.

(ii) Ernst & Young—Nil return.

(iii) KPMG—Nil return.

(iv) PriceWaterhouseCoopers:

Commonwealth Games Review July 2001—£96,000

E-Commerce Impact Study on Tourism July 2002—£43,750

Costs and Benefit Assessment—London Olympic Bid 2012 January 2003—£38,000.

The return includes Royal Parks Agency.

BBC

Keith Vaz: To ask the Secretary of State for Culture, Media and Sport when she last met the acting Director General of the BBC; and what was discussed. [166093]

Tessa Jowell: I met Mark Byford, the acting Director General of the BBC, on 4 February. This was an informal meeting and we discussed a range of topical issues relating to the BBC.

Paul Flynn: To ask the Secretary of State for Culture, Media and Sport what discussions she has had with the BBC on future funding of the Corporation. [166140]

Tessa Jowell: The arrangements for future funding of the BBC will be considered as part of the Charter review process. I have had several meetings with the BBC to discuss the review process but have not specifically discussed funding with the Corporation.

Departmental Computers

Bob Spink: To ask the Secretary of State for Culture, Media and Sport what plans she has to update computer *(a)* hardware and *(b)* software standard packages used in her Department. [166372]

Mr. Caborn: The Department for Culture, Media and Sport will be updating a number of its desktop PCs as part of regular system upgrade plans. The Department also plans to update its e-mail, finance and HR systems.

Digital Television

Mr. David Stewart: To ask the Secretary of State for Culture, Media and Sport if she will make a statement on public broadcasting provision to remote rural locations following conversion to full digital television broadcasting. [166155]

Tessa Jowell: The Government's policy for digital switchover is that everyone, including those in rural areas, who can currently get the public service broadcasting channels in analogue form, must continue to receive them on digital systems when analogue is switched off.

David Hamilton: To ask the Secretary of State for Culture, Media and Sport what assessment she has made of accessibility to digital television in *(a)* Scotland, *(b)* England, *(c)* Wales and *(d)* Northern Ireland. [165677]

Estelle Morris: I will reply to my hon. Friend as soon as possible.

Mr. Peter Duncan: To ask the Secretary of State for Culture, Media and Sport if she will make a statement on plans to upgrade transmitters in Dumfries and Galloway to receive digital television services. [165970]

Estelle Morris: Until analogue signals are switched off there will be no frequencies available to broadcast digital television services from transmitters in Dumfries and Galloway without causing interference to viewers' existing analogue signals. The Digital TV Action plan provides the route map to achieve digital switchover, which could be completed between 2006 and 2010 and we are working closely with stakeholders on the detailed plans.

Mr. Peter Duncan: To ask the Secretary of State for Culture, Media and Sport what percentage of the population of Dumfries and Galloway are able to receive Freeview digital television services. [165971]

Estelle Morris: According to the BBC's coverage prediction database, around 20,000, or 31 per cent. of households in Dumfries and Galloway have access to Freeview at this time.

Green Ministers

Mr. Don Foster: To ask the Secretary of State for Culture, Media and Sport if she will list the meetings at which her Department has been represented regarding the delivery of sustainable development across Government as co-ordinated by the Ministerial Sub-committee of Green Ministers. [165956]

Estelle Morris: It is established practice under successive Governments not to disclose information relating to the proceedings of Cabinet Committees. This practice is now formalised by Exemption 2 of Part II of the Code of Practice on Access to Government Information.

Libraries (Greater London)

Simon Hughes: To ask the Secretary of State for Culture, Media and Sport how much money was spent on library *(a)* buildings and *(b)* books in Greater London in each year since 1997, broken down by borough. [165840]

Estelle Morris: The information in the following tables shows the funds spent on library premises and books in *(a)* Inner London *(b)* Outer London and *(c)* Greater London.

Information relating to individual London library authorities can be found within the Annual Public Library Statistics published by the Chartered Institute of Public Finance and Accountancy (CIPFA), and available in the Library of the House.

Funds spent on library premises

£

	1997–98	*1998–99*	*1999–2000*	*2000–01*	*2001–02*
Funds spent on library premises					
Inner London	5,290,670	6,297,018	6,430,335	6,134,076	6,993,679
Outer London	9,703,422	8,750,414	8,806,541	8,882,198	9,666,024
Greater London	16,459,173	16,229,149	16,347,315	16,173,994	17,821,923

Funds spent on library premises

£

	1997–98	1998–99	1999–2000	2000–01	2001–02
Funds spent on books

Outer London	8,796,050	8,531,187	8,132,739	8,307,775	8,163,558
Greater London	14,500,596	14,281,363	13,557,198	13,466,932	13,217,627

Simon Hughes: To ask the Secretary of State for Culture, Media and Sport how many *(a)* public libraries and *(b)* mobile library units there were within each Greater London borough in each year since 1997. [165841]

Estelle Morris: The following information shows the number of service points open for 10 or more hours each week as well as the number of mobile libraries in *(a)* Inner London *(b)* Outer London and *(c)* Greater London.

Information relating to individual London library authorities can be found within the Annual Public Library Statistics published by the Chartered Institute of Public Finance and Accountancy (CIPFA), and available in the Library of the House.

Number of library service points in London

Libraries	*1997–98*	*1998–99*	*1999–2000*	*2000–01*	*2001–02*

Library Digitisation (Birkenhead)

Mr. Frank Field: To ask the Secretary of State for Culture, Media and Sport how much money has been spent on the digitisation of content in libraries in Birkenhead since 1997. [166506]

Estelle Morris: The Metropolitan Borough of Wirral is a partner in the Merseyside Gateway Project which received £370,000 from the New Opportunities Fund to create a website depicting the history and growth of the Port of Liverpool and its environs. 710 (out of 20,000 overall) images from Wirral Archives and Birkenhead Reference Library have been selected for the site—these include a number of Birkenhead related documents including several photographs and other documents from the Cammell Laird archive. The council's contribution to the project was over £1,000.

New Opportunities Fund 3

Alistair Burt: To ask the Secretary of State for Culture, Media and Sport what representations have been made in relation to the administrative burden associated with the New Opportunities Fund 3 programme; and if she will make a statement. [166467]

Mr. Caborn: My right hon. Friend the Secretary of State has received correspondence from the hon. Member for Enfield, Southgate (Stephen Twigg) on behalf of his constituent, Mr. M. Lazarus, of Hadley Wood. My right. hon. Friend the Secretary of State for Education and Skills has also received correspondence from Bedfordshire County Council on this matter.

The New Opportunities Fund for PE and Sport (NOPES) programme is administered by the New Opportunities Fund (NOF). NOF has worked closely with local authorities throughout the bidding process to ensure that levels of bureaucracy are kept to the minimum necessary to protect the distribution of public funds.

Alistair Burt: To ask the Secretary of State for Culture, Media and Sport what the start date was of the New Opportunities Fund 3 project; what the projected expenditure on this programme was over its period; what the actual expenditure on this programme has been during that time; and if she will make a statement. [166468]

Mr. Caborn: The New Opportunities Fund for PE and Sport (NOPES) was officially launched in England in November 2001 with available funding of £581.25 million.

NOPES is a long-term project, reflecting the fact that such an investment takes considerable time and planning to ensure that money is spent both efficiently and effectively. Actual expenditure to date is £10.4 million.

It is anticipated that the majority of NOPES funding will be committed by the end of 2004, well ahead of schedule, with the great majority of new facilities in use by spring 2006, in line with the original timetable.

Alistair Burt: To ask the Secretary of State for Culture, Media and Sport if she will make a statement about the progress of the New Opportunities Fund 3 initiative to improve sports facilities in schools. [166469]

Mr. Caborn: The New Opportunities Fund for PE and Sport (NOPES) was officially launched in England in November 2001 with available funding of £581.25 million.

NOPES is a long-term project, reflecting the fact that such an investment takes considerable time and planning to ensure that money is spent both efficiently and effectively. Actual expenditure to date is £10.4 million.

It is anticipated that the majority of NOPES funding will be committed by the end of 2004, well ahead of schedule, with the great majority of new facilities in use by Spring 2006, in line with the original timetable.

Alistair Burt: To ask the Secretary of State for Culture, Media and Sport if she will list those to whom a grant under the New Opportunities Fund 3 programme has been awarded where the award has been transferred from the Department to the school in recognition of works taking place. [166471]

Mr. Caborn: New Opportunities Fund grants for PE and Sport are allocated and paid to local authorities and not direct to schools. Details of grants paid to local authorities, based on invoices submitted, are being placed in the Libraries of both Houses.

Alistair Burt: To ask the Secretary of State for Culture, Media and Sport if she will list the awards made under the New Opportunities Fund 3 programme, broken down by *(a)* county and *(b)* amount. [166470]

Mr. Caborn: New Opportunities Fund awards for PE and Sport are made to local authorities and not to counties. Details of local authority allocations for England, grouped by region, are being placed in the Libraries of both Houses.

Mr. Frank Field: To ask the Secretary of State for Culture, Media and Sport how much money from the New Opportunities Fund was allocated to Birkenhead in each year since 1997. [166505]

Estelle Morris: The New Opportunities Fund made its first grant to the Birkenhead area in 1999. Since then, in each calendar year, it has allocated:

£

	Award amount
1999	5,687,368
2000	1,249,862
2001	1,909,933
2002	420,305
2003	383,372

These numbers are derived from the Department's database of lottery awards, which is based on information supplied by New Opportunities Fund (and the other distributing bodies).

Recycling

Mr. Don Foster: To ask the Secretary of State for Culture, Media and Sport what percentage of *(a)* copying paper and *(b)* paper for printed publications used by the Department in 2002–03 was from recycled sources; and how much post-consumer waste each amount contained. [165950]

Mr. Caborn: DCMS procures only 100 per cent. recycled copying paper, which meets the Department for Environment, Food, and Rural Affairs target of 75 per cent. post-consumer waste content. Paper for printed publications sometimes needs to be of higher quality but in excess of 60 per cent. of all such paper is 100 per cent. recycled; the post-consumer waste content is not known.

Mr. Don Foster: To ask the Secretary of State for Culture, Media and Sport what measures she has put in place to ensure that her Department meets the quick win targets set by the Department for Environment, Food and Rural Affairs to ensure that all copying paper bought by the Department is 100 per cent. recycled with a minimum of 75 per cent. post-consumer waste content. [165951]

Mr. Caborn: DCMS has purchased only recycled copier paper for at least the last five years. The paper of choice meets the stated content targets.

Mr. Don Foster: To ask the Secretary of State for Culture, Media and Sport when her Department expects to implement in full the quick win targets set by the Department for Environment, Food and Rural Affairs to ensure that *(a)* all copying paper bought by the Department is 100 per cent. recycled with a minimum of 75 per cent. post-consumer waste content and *(b)* all paper for printed publications bought by the Department is 60 per cent. recycled, of which a minimum is 75 per cent. post-consumer waste. [165953]

Mr. Caborn: DCMS already specifies all papers to meet the stated quick win targets. The current market is such that the specified paper cannot always be supplied in respect of printed publications.

Mr. Don Foster: To ask the Secretary of State for Culture, Media and Sport if she will list the Department's main suppliers of *(a)* copier paper, *(b)* stationery, *(c)* envelopes and *(d)* paper for reports, in each case stating (i) the name of each paper used and (ii) the (A) recycled and (B) post-consumer recycled content of each paper. [165954]

Mr. Caborn: Currently all copier paper, stationery and envelopes are supplied by Corporate Express. Copier paper is Evolve and is 100 per cent. recycled with at least 75 per cent. post-consumer waste content. Paper stationery items are from numerous manufacturers and content is not always published but at all times recycled products are specified. Paper for reports is supplied by the successful print tender but again recycled paper and high post-consumer waste content is specified by the Department.

SportScotland

Mr. Peter Duncan: To ask the Secretary of State for Culture, Media and Sport what plans she has to review the maximum support available through SportScotland. [165974]

Mr. Caborn: I have no such plans. This is a matter for the Scottish Executive.

Sustainable Development

Mr. Don Foster: To ask the Secretary of State for Culture, Media and Sport what steps she is taking to promote the delivery of sustainable development within Government. [165957]

Estelle Morris: The Department for Culture, Media and Sport, covers a range of issues which contribute to people's quality of life. We intend that in achieving our strategic priorities we also fulfil sustainable development aims. The departmental strategy for sustainable development, published in February, refers to the three broad headings of our objectives in this area: sustainable policies, sustainable estate management and communicating sustainable development. The Department is currently working to promote sustainable development within Government especially with the Department for Education and Skills and with the Department for Environment, Food and Rural Affairs. We are also disseminating awareness-raising videos and training courses for our own staff and will be offering to provide these to other Departments.

Mr. Don Foster: To ask the Secretary of State for Culture, Media and Sport what progress has been made on her Department's Sustainable Development Strategy. [165958]

Estelle Morris: The Department's Sustainable Development Strategy was published in February. Copies of the strategy are available from the Library of the House. We intend to review progress against the actions points listed early next year.

Tourism (Birkenhead)

Mr. Frank Field: To ask the Secretary of State for Culture, Media and Sport if she will make a statement on the work of regional development agencies in developing tourism in Birkenhead. [166507]

Mr. Caborn: The North West Development Agency (NWDA) is working closely with The Mersey Partnership (TMP), the nominated Destination Management Organisation (DMO) for Merseyside.

During 2003–04 TMP received £320,000 from the Agency's Marketing Image Budget for tourism and investment campaigns to promote Merseyside. £419,000 was also provided from the NWDA's Tourism budget for a variety of projects which will benefit Birkenhead.

The Mersey Waterfront Regional Park, which covers an area from Southport to Wirral, including Birkenhead.

£65,000 for new restrooms for the Birkenhead Historic Warships which include disabled access and enhanced visitor facilities. This will enable promotion to a wider audience including older and disabled visitors especially as D Day celebrations are planned for June 2004.

£90,000 towards the Landmark Monument feasibility study—the possibility of creating a signature type structure in the Mersey, which may be accessible to the public, a similar concept to the Statue of Liberty.

£400,000 for Hoylake/West Kirby Resort Improvements.

Birkenhead will also benefit in the longer term from the Festival of Light Study, which aims to provide world class permanent lighting across the Waterfront area to culminate in the year 2008 Capital of Culture. The Hotel Study will provide a review of expected demand and a forward plan for the development of hotels on the Waterfront and outer areas of Merseyside. The Woodside master plan is a blue print for future development at this key site. The restoration of the Wirral Way from West Kirby to Thurstaston will incorporate new cycle ways totalling £358,000.

The NWDA is also investigating the possibility of the Golf Open being held at the Royal Liverpool at Hoylake in the next few years.

HOUSE OF COMMONS

Plastic Bags

Michael Fabricant: To ask the Chairman of the Catering Committee if he will discontinue the use in food outlets in the House of plastic bags for carrying take-away products and replace these with paper-based carriers. [165924]

Mr. Dennis Turner: The Refreshment Department will revert to the use of paper carrier bags for take-away food and drinks, except in the Debate restaurant in Portcullis House, where the use of clear plastic bags helps to reduce queues by allowing cashiers to see the contents without the need for carrier bags to be unpacked at the tills.

PRIME MINISTER

Accountancy Services

Mr. Cousins: To ask the Prime Minister what the *(a)* nature and *(b)* value was of all contracts, consultancies or other services placed with the accountancy firms (i) Deloitte and Touche, (ii) Ernst and Young, (iii) KPMG and (iv) PricewaterhouseCoopers since 2000–01 by his Office. [166099]

The Prime Minister: None.

Civil Servants

Bob Spink: To ask the Prime Minister if he will list for each civil service grade within his Office the total number of staff employed, broken down by *(a)* gender, *(b)* ethnic group and *(c)* age group; and how many are registered disabled. [166386]

The Prime Minister: For these purposes, my office is part of the Cabinet Office.

The information requested is published in "Civil Service Statistics", copies of which are available in the Libraries of the House and at www.civil-service.gov.uk/statistics

Departmental Computers

Bob Spink: To ask the Prime Minister what plans he has to update computer *(a)* hardware and *(b)* software standard packages used in his Office. [166377]

The Prime Minister: Computer hardware and software packages are regularly reviewed and updated when necessary.

Iraq

Llew Smith: To ask the Prime Minister what reports he has received from *(a)* the United States Administration and *(b)* the Iraq Survey Group in respect of the whereabouts in Iraq of military equipment and technology capable of being used in weapons of mass destruction that were exported from the United Kingdom to Iraq prior to May 1997. [165175]

The Prime Minister: The Government has not received any reports from either the US Administration or the Iraq Survey Group in respect of the whereabouts in Iraq of military equipment and technology capable of being used in weapons of mass destruction that were exported from the United Kingdom to Iraq prior to May 1997.

My hon. Friend will be aware of the findings of the Scott inquiry into the supply of goods to Iraq during the 1990s.

Libya

Mr. Lidington: To ask the Prime Minister whether, during his meeting with Colonel Gaddafi, he asked Libya to provide him with details of arms and other support supplied to the IRA; and if he will make a statement. [166643]

The Prime Minister: I refer the hon. Member to the answer I gave to the hon. Member for South Antrim (Mr. Burnside) on 1 April 2004, *Official Report*, column 1569W.

Lords Lieutenant

Bob Spink: To ask the Prime Minister what his policy is on the future of Lords-Lieutenants. [166229]

The Prime Minister: Lord-Lieutenants are The Queen's representatives in their respective counties or areas. They carry out a range of duties which are widely appreciated, in particular in their role as a link with the Royal Family and in their support for a wide variety of local voluntary and community work. I welcome the continuing contribution which they make.

HEALTH

"No Secrets"

Sandra Gidley: To ask the Secretary of State for Health what assessment he has made of the implementation of the guidance in "No Secrets". [164770]

Dr. Ladyman: The Department commissioned the Centre for Policy on Ageing in 2002 to analyse implementation of the Department's "No Secrets" guidance, which provides the basis for local multi agency codes of practice to prevent and tackle the abuse of vulnerable adults. The analysis indicates that local councils have met the requirements required by "No Secrets" and that considerable progress has been made towards improving co-ordination between agencies when dealing with adult abuse cases.

Accountancy Services

Mr. Cousins: To ask the Secretary of State for Health what the *(a)* nature and *(b)* value was of all contracts, consultancies or other services placed with the accountancy firms (i) Deloitte & Touche, (ii) Ernst & Young, (iii) KPMG and (iv) PricewaterhouseCoopers since 2000–01 by the Department and its agencies. [166096]

Ms Rosie Winterton: The Department does not hold centrally a record of individual contracts, nor does it have similar details for its agencies. To secure such details could be obtained only at disproportionate cost.

Adverse Drug Reactions

Mr. Burstow: To ask the Secretary of State for Health what percentage of adverse drug reactions he estimates are reported; and if he will make a statement. [163493]

Ms Rosie Winterton: In the United Kingdom, the yellow card scheme allows health professionals to report suspected adverse drug reactions (ADRs) on a voluntary basis to the Medicines and Healthcare products Regulatory Agency (MHRA) and the Committee on Safety of Medicines (CSM). There is a legal requirement for companies to report suspected ADRs to their drugs.

All voluntary reporting systems suffer from under-reporting. The proportion of suspected adverse drug reactions, which are reported, is very variable. Under reporting is thought to occur less frequently with newly identified, serious and unlabelled reactions (those reactions which are not yet included in the product information).

Studies in UK hospitals (Smith et al 1996) and general practice settings (Martin et al 1998, Heeley et al 2001) have estimated that around five to ten per cent. of all suspected adverse drug reactions experienced by patients are reported to CSM and MHRA through the yellow card scheme. The study in general practice carried out by Heeley et al (2001) combined serious and non-serious ADRs in this estimate of under reporting of ADRs. This study also provided a breakdown of the estimates of under-reporting of reactions classified as serious or non-serious and labelled or unlabelled, and estimated that general practitioners report between 30 and 50 per cent. of serious unlabelled adverse reactions to CSM and MHRA via the yellow card scheme.

Under-reporting does not necessarily detract from the ability of drug safety monitoring systems to identify new and important drug safety hazards. The MHRA and CSM are continually working to increase the quality and quantity of reports received via the Yellow Card Scheme in order to increase the potential for rapid identification of new drug safety hazards.

Agency Nurses (Weston Area)

Mr. Stephen O'Brien: To ask the Secretary of State for Health what the *(a)* resource budget, *(b)* administration costs and *(c)* staff numbers were for 2003 of the (i) Commission for Patient and Public Involvement in Health and (ii) Wider Health Working Group. [165121]

Ms Rosie Winterton: For the Commission for Patient and Public Involvement in Health (CPPIH):

The budget allocation for 2003–04 was £35.4 million. This figure included £8 million for extension of community health councils from 1 April to 1 December 2003 and £3.2 million for the provision of the independent complaints advocacy service.

Administrative costs amount to £5.7 million. Administrative costs have been defined as those incurred by the headquarters. All other resources contribute directly to the delivery of the patient and public involvement forums as supported by the forum support organisations and the regional office network.

As 2003–04 has been the Commission's first full year of operation the staffing complement has grown steadily over this period. At 1 April 2003, the CPPIH employed three permanent staff and 19 temporary members of staff. By 31 March 2004, the position was that 136 permanent members of staff and 24 temporary staff had been recruited against a total staffing compliment of 198.

For the wider health working group the answer to all points for 2003–04 is nil.

Alcohol Treatment Services

Mr. Keith Bradley: To ask the Secretary of State for Health how many alcohol treatment centres there are in the North West. [165503]

Miss Melanie Johnson: The information requested is not collected centrally.

Allergies

Andrew Mackinlay: To ask the Secretary of State for Health if he will make a statement on trends in the occurrence of allergies in the UK; and what the Government's policy is on the alleviation of allergies. [165061]

Dr. Ladyman: We recognise that the numbers of people with allergies are increasing. It is not yet known why this is, but various factors are thought to be involved including a rise in dust mites due to a greater use of carpets, air pollution, and people being introduced to more allergens such as new plant species.

The Royal College of Physicians (RCP) published its report, "Allergy—the unmet need: a blueprint for better patient care", on 25 June 2003. We welcome the RCP report and believe it is a useful contribution to the debate on how to improve national health service allergy services.

The Food Standards Agency funds research on food allergy and intolerance, with particular emphasis on severe allergies; how they occur and what causes them. A large programme of research on food intolerance and allergy, costing around £1 million a year, is ongoing. King's College London is leading a £2.1 million European Commission-funded prospective study of the incidence and prognosis of allergy, allergic disease and low lung function in adults living in Europe. Also, The University of Manchester is leading a £1.2 million EC-funded investigation of the prevalence, pathogenesis, treatment and prevention of sun allergy across Europe. Sun-provoked skin reactions are one of the commonest forms of allergy.

It is the role of primary care trusts, in partnership with local stakeholders, to decide what services to provide for their populations, including those with allergies. They are best placed to understand local health care needs and commission services to meet them.

Mrs. Iris Robinson: To ask the Secretary of State for Health how many allergy sufferers he estimates there are. [164930]

Dr. Ladyman: The information requested is not held centrally. Last year, in the report, "Allergy—the unmet need: a blueprint for better patient care", the Royal College of Physicians estimated that around one in six of the population is affected by allergy.

Ambulance Services

Mr. Burstow: To ask the Secretary of State for Health if he will make a statement on the provision of insurance cover for ambulance personnel in the event of death in a terrorist attack. [166408]

Mr. Hutton: Normal cover arrangements under the liabilities to third parties scheme, run by the NHS Litigation Authority, would apply to attendance at any major incident, including the site of a terrorist attack. Cross-Government discussions are also taking place with insurance industry representatives to clarify the general position in respect of personal insurance policies if staff are exposed to risks as a consequence of terrorist action in the course of their duties.

Mr. Burstow: To ask the Secretary of State for Health what action his Department has taken to prepare ambulance personnel for dealing with a terrorist attack. [166409]

Mr. Hutton: All ambulance services have plans in place for responding to and dealing with a range of major incidents, including possible terrorist attacks. National guidance requires that those plans are regularly reviewed and practised.

All ambulance services have been issued with standard personal protective equipment and decontamination units and have access to spare equipment and drug countermeasure supplies. Standard operating procedures have been developed and implemented in conjunction with the Ambulance Service Association and each service has instructors and teams of staff specifically trained to operate and perform safely in a contaminated environment.

All ambulance staff are also receiving recognition and awareness training and additional investment has been made available to develop and maintain their capacity and capability. The Department is currently purchasing instruments to give early warning of radiation for all front line ambulance staff.

Mr. Burstow: To ask the Secretary of State for Health how many exercises simulating a major incident involving ambulance personnel took place in *(a)* England and *(b)* each region in each year since 1997; and if he will make a statement. [166410]

Mr. Hutton: National guidance to National Health Service organisations requires that all major incident plans be reviewed and tested on a regular basis. Ambulance services have been conducting such exercises for many years, often in conjunction with local emergency partners. This includes testing their response arrangements to scenarios involving chemical, biological or radiological and nuclear materials. Such exercises are an integral part of testing local arrangements, identifying gaps and making continuous improvement. As such exercises are arranged and conducted at a local level, comprehensive information regarding numbers is not collected by the Department.

Asthma

Mr. Watson: To ask the Secretary of State for Health if he will list the prevalence of asthma among children under 16, broken down by health authority. [164815]

Dr. Ladyman: We do not collect the information requested on the prevalence of asthma centrally. Asthma is estimated to affect around 4 to 6 per cent. of children and 4 per cent. of adults sufficiently severely to require medical supervision. We do, however, have some data on the number of hospital admissions as set out in the following table.

Primary diagnosis (ICD-10 J45, J46) Asthma age on admission 0–15 years. Count of finished admission episodes by Strategic Health Authority (SHA) of Treatment NHS hospitals, England 2002–03

Strategic HA of Treatment	Finished Admission Episodes
Norfolk, Suffolk and Cambridgeshire HA	1,049
Bedfordshire and Hertfordshire HA	754
Essex HA	455
North West London HA	732
North Central London HA	625
North East London HA	853
South East London HA	879
South West London HA	661
Northumberland, Tyne and Wear HA	708
County Durham and Tees Valley HA	800
North and East Yorkshire And Northern Lincolnshire HA	882
West Yorkshire HA	1,306
Cumbria and Lancashire HA	1,098
Greater Manchester HA	1,980
Cheshire and Merseyside HA	1,598
Thames Valley HA	717
Hampshire And Isle of Wight HA	662
Kent and Medway HA	638
Surrey and Sussex HA	961
Avon, Gloucestershire and Wiltshire HA	868
South West Peninsula HA	615
Dorset and Somerset HA	562
South Yorkshire HA	625
Trent HA	881
Leicestershire, Northamptonshire and Rutland HA	678
Shropshire and Staffordshire HA	676
Birmingham and The Black Country HA	1,755
Coventry, Warwickshire, Herefordshire and Worcestershire HA	687
England	24,705

A finished admission episode is the first period of in-patient care under one consultant within one healthcare provider. Please note that admissions do not represent the number of in-patients, as a person may have more than one admission within the year.

The primary diagnosis is the first of up to 14 (seven prior to 2002–03) diagnosis fields in the Hospital Episode Statistics (HES) data set and provides the main reason why the patient was in hospital.

Figures are grossed for both coverage and missing/invalid clinical data, except for 2001–02 and 2002–03, which are not yet adjusted for shortfalls.

Mr. Watson: To ask the Secretary of State for Health how much the treatment of asthma cost the NHS in each of the last five years. [164816]

Dr. Ladyman: This information is not held centrally. However we estimate that the net ingredient cost of prescriptions dispensed in the community for the treatment of asthma in England for the last five years is set out in the following table:

Net ingredient cost of all asthma drugs dispensed in the community in England, 1998 to 2002

£ Million

BNF Section	1998	1999	2000	2001	2002

Net ingredient cost of all asthma drugs dispensed in the community in England, 1998 to 2002

£ Million

BNF Section	1998	1999	2000	2001	2002
BNF 3.1	220.0	230.9	230.3	238.5	239.6
BNF 3.2	266.9	274.5	283.2	308.7	338.1
BNF 3.3	11.1	14.4	14.9	15.9	17.2
BNF 21.1.2	2.1	2.0	2.3	2.7	3.0

BNF 21.12	1.7	1.5	1.5	1.4	1.5
Total	501.9	523.4	532.2	567.3	599.5

Source:
Prescription Cost Analysis (PCA) data from the Prescription Pricing Authority.

Asthma drugs are included in British National Formulary (BNF) Sections 3.1 (Bronchodilators), 3.2 (Corticbsteroids), and 3.3 (Cromoglicate, related therapy and leukotriene receptor antagonists). Appliances used in the treatment of asthma are contained within the Prescription Pricing Authority pseudo British National Formulary sections 21.1.2, 21.1.10 and 21.12.

The prescription information is from the Prescription Cost Analysis (PCA) system from the Prescription Pricing Authority, and shows data for all prescriptions items that are dispensed in the community in England. As well as prescriptions prescribed in GP practices, prescriptions prescribed in hospitals that have been dispensed in the community are included. Private prescriptions, and prescriptions dispensed in hospitals are not included.

The net ingredient cost refers to the cost (which the dispenser is reimbursed) of the drug before discounts and does not include any dispensing costs or fees. It does not include any adjustment for income obtained where a prescription charge is paid at the time the prescription is dispensed, or where the patient has purchased a pre-payment certificate.

Mr. Watson: To ask the Secretary of State for Health what research his Department has conducted into the reasons for increases in asthma rates in the last 25 years. [165259]

Dr. Ladyman: A range of research projects on the epidemiology of allergies have recently been completed or are ongoing. The International Study of Asthma and Allergies in Childhood was formed in 1991. Phase one measured the prevalence of childhood asthma, hayfever and atopic eczema for international comparisons. Phase two began in 1998 and involves more intensive studies in a smaller number of countries. The Department funded the United Kingdom contribution to phase two.

King's College London has led a £2.1 million European Commission-funded prospective study of the incidence and prognosis of allergy, allergic disease and low lung function in adults living in Europe. King's College is also participating in the Global Allergy and Asthma European Network, launched on 12 February 2004.

This European and international research activity will contribute to evidence on the possible causes of the increase in asthma rates in the UK and other European countries.

Mr. Watson: To ask the Secretary of State for Health what recent research he has examined concerning asthma and a remodelling of the body's airways. [165406]

Dr. Ladyman: In April 2002, the National Asthma Campaign published its consultation document, "Where next in basic asthma research?" A copy of the report was sent to the Department. The charity identified seven key areas of basic asthma research, including airway remodelling, in people with asthma.

Care Homes

Mr. Hopkins: To ask the Secretary of State for Health what the minimum standard of care in a care home setting is; and if he will make a statement. [164275]

Dr. Ladyman *[holding answer 31 March 2004]*: The minimum standard of care for care homes is set out in the National Minimum Standards for Care Homes for Older People and the National Minimum Standards for Care Homes for Adults (18–65).

These standards are taken into account by the Commission for Social Care Inspection, which is responsible for ensuring homes meet the requirements set down in the Care Homes Regulations 2001.

A copy of the Standards and the Regulations is available in the Library.

Mr. Todd: To ask the Secretary of State for Health if he will assess the merits of exempting people suffering from particular illnesses from the requirement to recover the costs of personal care provided within care homes. [165468]

Dr. Ladyman: In our response to the Royal Commission on long-term care in the NHS Plan, we made it clear that we did not believe that making personal care free is the best use of limited resources. Instead, we have significantly increased investment in other aspects of older people's services. We believe that investing in services will secure greater benefits for older people than would have been achieved by providing free personal care.

Having made this decision, it would be inequitable to single out particular conditions or different settings for special treatment as far as personal care is concerned.

Mr. Todd: To ask the Secretary of State for Health what recent representations he has received concerning the definition of personal care provided within care homes; and if he will make a statement. [164107]

Dr. Ladyman: Since January 2004, I have not received any representations which specifically ask about the definition of personal care provided in care homes.

The Department published statutory guidance, 'Supported Housing and Care Homes—Guidance on Regulation' in August 2002, about eligibility for care home registration.

Competent Authorities (EU Accession States)

Miss McIntosh: To ask the Secretary of State for Health pursuant to the answer of 24 March, *Official Report*, column 934, on training (EU accession states), what assessment his Department has made of the likely numbers of *(a)* midwives and *(b)* other healthcare professionals who will come to the UK following the enlargement of the EU; and what actions his Department has taken to ensure that NHS employers have sufficient mechanisms in place to offer appropriate induction programmes to all such professionals requiring them. [R] [166452]

Mr. Hutton: No estimate has been made. The regulatory bodies will in due course have statistics about the numbers of practitioners from the acceding countries who join their registers. Guidance to the national health service on the implications of enlargement for the recognition of professional qualifications has been issued and is available on the Department's website at http://www.dhtgov.uk/PolicyAndGuidance/HumanResourcesAndTraining/ModernisingProfessionalRegulation/FitnessToPractice/FitnessToPracticeArticle/fs/en?CONTENT ID = 4078281&chk = ku6xxC.

Correspondence

Mr. Kaufman: To ask the Secretary of State for Health (1) when he intends to reply to the letter to him from the right hon. Member for Manchester, Gorton dated 24 February with regard to Mrs. E. D. Murphy; [164933]

(2) when he will reply to the letter to him from the right hon. Member for Manchester, Gorton, dated 24 February, with regard to Mrs. E. O. Murphy. [166347]

Dr. John Reid: A reply was sent to my right hon. Friend on 2 April 2004.

Dentistry

Mr. Hepburn: To ask the Secretary of State for Health how many dentists per head of population there were in *(a)* the Jarrow constituency, *(b)* South Tyneside, *(c)* Tyne and Wear, *(d)* the North East and *(e)* England in each year since 1997. [162925]

Ms Rosie Winterton: The number of general dental service (GOS) dentists per 10,000 population for South Tyneside Primary Care Trust (PCT), Tyne and Wear, the North East and for England for 1997 to 2003 is shown in the table. Jarrow constituency is covered by South Tyneside PCT.

These figures are on a headcount rather than a whole time equivalent basis (wte) basis and therefore take no account of part-time working. This may affect comparisons between different areas. The figures include dentists working in the GDS or in the personal dental service (PDS). They exclude dentists working in

other National Health Service dental services; community dental services and hospital dental services. Dentists working wholly privately are not covered.

Number of dentists per 10,000 population at 30 September each year

	[1]South Tyneside	[2]Tyne and Wear	[3]North East	England
1997	3.44	3.27	3.07	3.45
1998	3.60	3.39	3.25	3.54
1999	3.65	3.49	3.35	3.65
2000	3.67	3.57	3.37	3.72
2001	3.62	3.61	3.43	3.84
2002	3.73	3.75	3.54	3.89
2003	3.73	3.86	3.57	3.95

Notes:

[1] For 1997 to 2001, figures cover Gateshead and South Tyneside Health Authority (HA) area. From 2002, the figures cover South Tyneside PCT.

[2] Between 1997 and 2002, figures for Tyne and Wear include the following HAs: Gateshead and South Tyneside, Newcastle and North Tyneside and Sunderland. From 2002, figures represent the following PCTs: Gateshead, Newcastle, North Tyneside, South Tyneside and Sunderland Teaching.

[3] Between 1997 and 2002 the North East includes the following HAs: County Durham and Darlington, Gateshead and South Tyneside, Newcastle and North Tyneside, Northumberland, Sunderland and Tees. From 2002, it includes Northumberland, Tyne and Wear Strategic Health Authority (SHA) and County Durham and Tees Valley SHA.

Mr. Burstow: To ask the Secretary of State for Health if he will estimate the cost of providing free dental checks for *(a)* children every six months and *(b)* adults every year. [164861]

Ms Rosie Winterton: Children are entitled to free dental treatment under the National Health Service, including free dental examinations every six months.

About a quarter of all adults are exempt from charges or pay reduced charges for NHS dental treatment. Under current arrangements, adults may have dental examinations at six monthly intervals if they wish.

If annual dental examinations were made free to all adults in England, patient charge revenue would be reduced by around £65 million per annum. Under the present dental payment system for general dental services, the total cost would be increased if the change stimulated demand for more dental examinations and these also led to some additional NHS dental treatment.

The National Institute for Clinical Excellence has recently produced draft guidance for consultation, which proposes that the interval between dental examinations for patients should be tailored to meet their needs on the basis of an assessment of disease levels and risk of dental disease. If accepted, we would expect the new contractual arrangements for dentists which are currently under discussion with the profession to reflect this approach which is aimed towards care tailored to the clinical needs of patients. Under the new contract proposals, the link between treatments and payments will be abolished. Instead, dentists will be paid a guaranteed annual income for an agreed level of NHS commitment and will be free to decide treatments for their patients on the basis of clinical need, including the frequency of dental examinations.

Mr. Barnes: To ask the Secretary of State for Health if he will place in the Library a list of NHS dentists serving North Derbyshire; what the addresses of each such clinic is; and what the extent of private dental work undertaken by each one is. [166378]

Dr. Ladyman: This information is not collated centrally. However, addresses and contact numbers for dentists serving in North Derbyshire can be obtained from NHS Direct (tel: 0845 4647), or from the national health service website at www.nhs.uk (tel: 020 7210 4850) which connects to local NHS services.

There is no information available on private work as this is a matter for individual contractors.

Departmental Computers

Bob Spink: To ask the Secretary of State for Health what plans he has to update computer *(a)* hardware and *(b)* software standard packages used in his Department. [166367]

Ms Rosie Winterton: The Department ensures the currency of its information technology infrastructure through a regular programme of renewals. It is currently engaged in a major modernisation of its IT infrastructure and computers, installing Microsoft Windows XP and Microsoft Office XP on its desktop and laptop computers.

With regard to hardware, including desktop equipment, the Department has a replacement cycle of at least four years, with five to seven years or longer for central servers, and other network components.

Software is replaced or upgraded, as needed, and to keep it in line with suppliers' support arrangements, and where necessary, to meet enhanced business requirements. The Department will consider open source software in its future upgrade path.

Departmental Officials

Mr. Cousins: To ask the Secretary of State for Health what secondments *(a)* PricewaterhouseCoopers, *(b)* Deloitte & Touche, *(c)* Ernst & Young and *(d)* KPMG have made to his Department since 2001; for what (i) periods and (ii) tasks the secondments were made; whether secondments of staff from his Department have been made to those firms; and for what (A) periods and (B) tasks. [156922]

Ms Rosie Winterton: There have been four secondments from PricewaterhouseCooper, three secondments from KPMG, one secondment from Ernst & Young and two secondments from Deloitte & Touche into the Department since 2001.

The four secondments from PricewaterhouseCooper are:

From January 2002—continues. The secondment involves providing advice on issues relating to policy and implementation of foundation trusts and the NHS Bank on issues pertaining to corporate finance, private finance and public—private partnerships.

From July 2002—continues. July 2002—February 2003, worked full time on the development of the National Health Service foundation trust financial regime. March 2003—July 2003, worked 50 per cent. of the time on the

NHS foundation trust financial regime and 50 per cent. on various projects in the strategy unit. August 2003—continuing, works full time in the strategy unit and makes occasional contributions to the NHS foundation trust financial regime.

From June 2003—September 2003. The secondment involved producing a guidance manual to best practice methods for successful contracting.

From September 2003—March 2004. The secondment involves working with the independent regulator for NHS foundation trusts transitional team and then the permanent team, to help develop an audit code setting out standards, procedures and techniques for the independent regulator as set out in the Health and Social Care (Community Health and Standards) Act 2003.

The three secondments from KPMG are:

From January 2001—January 2002. The secondment involved advising NHS trusts on financial aspects of private finance initiative contracts.

From December 2002—October 2003. The secondment involved working with franchising policy development.

From July 2003—continuing. The secondment involves establishing performance and finance measurement reporting, developing business plans and commercial evaluation of projects.

The one secondment from Ernst & Young is:

From October 2000—October 2001. The secondment involved advising NHS Trusts on financial aspects of private finance initiative contracts.

The two secondments from Deloitte & Touche are:

From November 2001—May 2003. The secondment involved advising NHS trusts on financial aspects of private finance initiative contracts.

From December 2001—November 2002. The secondment involved advising NHS trusts on financial aspects of private finance initiative contracts.

There was one secondment by a member of staff to Deloitte & Touche. The secondment was from November 2001 to November 2002, the secondment involved learning about private sector systems and procedures for evaluating private finance initiative schemes.

Further information on secondments into and out of the Department, from all sectors, has been placed in the Library.

Domiciliary Care

Mr. Boris Johnson: To ask the Secretary of State for Health what research his Department has commissioned on the provision of domiciliary care in Oxfordshire. [164103]

Dr. Ladyman: No research has been commissioned on the provision of domiciliary care in Oxfordshire. However, the Department collects a range of data from councils with social services responsibilities and from the national health service through a series of statistical returns. These data inform policy development and inspection preparations nationally, and are published to aid local planning and comparison. In addition, all councils submit a delivery and improvement statement twice annually and this contains information on performance for 2003–04.

Sandra Gidley: To ask the Secretary of State for Health pursuant to his answer of 22 March 2004, *Official Report*, column 598W, on older people, how the National Minimum Standards for Domiciliary Care Agencies are monitored; and what information is held centrally on compliance with the standard. [164257]

Dr. Ladyman: From 1 April 2004, the Commission for Social Care Inspection (CSCI) took over the regulatory responsibilities of the National Care Standards Commission. CSCI monitors National Minimum Standards (NMS) for domiciliary care agencies in the same way as it monitors NMS for all other services it regulates—through its registration and inspection actions.

Currently, the domiciliary care sector is being registered and only services assessed against the Regulations as fit are registered. At present, no information is held centrally on compliance with the NMS as the inspection programme has not yet begun. This will start later in 2004 and early in 2005. Results of inspections, including details of compliance with the NMS, will be held centrally on CSCI's registration and inspection database.

Sandra Gidley: To ask the Secretary of State for Health pursuant to his answer of 22 March 2004, *Official Report*, column 598W, on older people, if he will place a copy of the standard on medication for domiciliary care agencies in the Library. [164258]

Dr. Ladyman: The Domiciliary Care Agencies Regulations and National Minimum Standards for Domiciliary Care were published in January 2003. The regulations came into force on 1 April 2003. Regulation 14(6)*(b)* and standard 10 of the National Minimum Standards set out requirements and a standard in relation to procedures for assisting with medication and health related tasks. The Regulations and National Minimum Standards are both available in the Library.

Sandra Gidley: To ask the Secretary of State for Health if he will break down by region the domiciliary care agencies which have applied for registration. [164766]

Dr. Ladyman: The information requested is set out in the table.

Domiciliary care agencies which have applied for registration. Position at 29 March 2004

Region	*Registered Services*	*Applications outstanding*
North East	126	97
East Midlands	62	236
South West	339	175
West Midlands	93	346
North West	241	413
London	200	319
South East	333	432
Eastern	104	408
Yorkshire and Humberside	148	187
Total	1,646	2,613

Sandra Gidley: To ask the Secretary of State for Health of the domiciliary care agencies which have been registered with action plans, how many are *(a)* in the public sector and *(b)* privately owned. [164767]

Dr. Ladyman: As at 29 March 2004, 855 domiciliary care agencies had been registered with conditions: 144 in the public sector, comprising three National Health Service agencies and 141 local authority agencies; and 711 independent agencies, comprising 613 private agencies, 79 voluntary agencies and 19 other agencies.

Sandra Gidley: To ask the Secretary of State for Health of the domiciliary care agencies which have been fully registered, how many are *(a)* in the public sector and *(b)* privately run. [164771]

Dr. Ladyman: As at 29 March 2004, there were 1,646 domiciliary care agencies registered. Of these, 296 were in the public sector, comprising 292 local authority services and four National Health Service services and 1,315 services were in the independent sector, comprising 1,156 private agencies and 159 voluntary agencies. In addition 35 other agencies were registered.

Sandra Gidley: To ask the Secretary of State for Health how many domiciliary care agencies have been refused registration. [164772]

Dr. Ladyman: As at 29 March 2004, six domiciliary care agencies have been refused registration, 2,613 applications are awaiting registration and the total number of agencies registered is 1646.

Sandra Gidley: To ask the Secretary of State for Health how many domiciliary care agencies have been registered; and how many have been registered with action plans. [164773]

Dr. Ladyman: As at 29 March, a total of 1,646 domiciliary care agencies had been registered, of which 855 had been registered with conditions.

Elderly (Abuse)

Sandra Gidley: To ask the Secretary of State for Health what assessment he has made of the number of incidents of abuse of the elderly in residential and domiciliary care settings; and if he will make a statement. [164820]

Dr. Ladyman: The Department keeps no statistics centrally on the incidence of abuse in residential and domiciliary care settings. However, Ministers have agreed funding to enable Action on Elder Abuse to take stock of the information that is currently being collected locally under the "No Secrets" guidance. It is hoped to have preliminary results in six months time and fuller results towards the end of 2005. In due course, the Department plans to introduce national data collections and to identify performance measures, relating to adult abuse.

Eye Surgery

Mrs. Iris Robinson: To ask the Secretary of State for Health what guidelines are in place on the quality of private laser eye surgery. [165789]

Ms Rosie Winterton: Private establishments where Class 4 laser treatment (the type used in laser eye surgery) is provided are required to be registered as independent hospitals, under the Care Standards Act 2000. As such they are required to meet national minimum standards among which is the requirement to ensure that all staff using lasers and intense pulsed light sources use them only for treatments for which they have been trained and, where appropriate, hold qualifications, and that they receive regular training.

Responsibility for the registration and inspection of independent hospitals passed from the National Care Standards Commission to the Commission for Healthcare Audit and Inspection on 1 April 2004. Independent hospitals are inspected against the national minimum standards at least once every 12 months under the terms of the Commission for Healthcare Audit and Inspection (Fees and Frequency of Inspections) Regulations 2004.

General Practitioners

Mr. Watson: To ask the Secretary of State for Health what assessment he has made of the effects of allowing general practices to sell goodwill as part of the new General Medical Services contracts. [165795]

Mr. Hutton: The sale of goodwill will cover less than 10 per cent. of primary medical services.

The long-standing prohibition on the purchase and sale of goodwill by medical practices providing essential services to a list of registered patients continues. Extending the ban to providers of other services is not necessary, nor is there any justification for depriving certain other providers of their existing rights under the European Convention on Human Rights.

Mr. Watson: To ask the Secretary of State for Health what the average general practitioner list size was in *(a)* Birmingham and *(b)* the Black Country in each of the last 10 years. [165804]

Dr. Ladyman: The information is not available in the format requested.

Table 1 shows the average general practice list size for the area covered by Birmingham and the Black Country Strategic Health Authority for the years 1993 to 2003.

Table 2 shows the average list size for the primary care trusts within Birmingham and the Black Country Strategic Health Authority since 2001.

Table 1: Unrestricted Principals and Equivalents[1] (UPEs) average list size for Birmingham and the Black Country Strategic Health Authority, 1993–2003[2]

	Average list size
1993	1,993
1994	1,972
1995	1,955
1996	1,945
1997	1,941
1998	1,930
1999	1,967
2000	1,927
2001	1,943
2002	1,928
2003	1,929

Table 2: Unrestricted Principals and Equivalents[1] (UPEs) average list size for Birmingham and the Black Country Strategic Health Authority, by Primary Care Trust, 2001–03[2]

	2001	2002	2003
(a) Birmingham			
South Birmingham PCT	1,716	1,659	1,684
North Birmingham PCT	1,886	1,942	1,939
Heart of Birmingham PCT	2,203	2,299	2,315
East Birmingham PCT	1,991	2,024	2,082

Rowley, Regis and Tipton PCT	2,022	2,041	1,914
Wednesbury and West Bromwich PCT	2,063	1,960	1,994
Wolverhampton City PCT	1,959	1,930	1,925
(c) Other			
Solihull PCT	1,786	1,795	1,853

[1] UPEs includes GMS Unrestricted Principals, PMS Contracted GPs and PMS Salaried GPs.

[2] Data as at 1 October for the years 1993–99, 30 September for the years 2000–03.

[3] All data as at 30 September.

Source:

Department of Health General and Personal Medical Services Statistics.

Mr. Lansley: To ask the Secretary of State for Health how many developments by general practitioner practices have been halted as a result of the Department's requirement that contracts needed to be signed by 30 September 2003; and how many of these have subsequently proceeded with the support of their primary care trust. [165873]

Mr. Hutton: The Department is unaware of any general practitioner scheme that has been cancelled as a result of the change to single cash limited budget. The 30 September 2003 date was used as a means for identifying base line premise allocations. These have since been supplemented by a further premise growth allocation in March 2004 to lead primary care trusts in each strategic health authority area.

Jeremy Corbyn: To ask the Secretary of State for Health what his latest estimate is of the average general practitioner practice case load within Camden and Islington; how many general practitioner groups are expected to retire in the next 12 months; and how many new general practitioners he expects to be appointed in Camden and Islington in the next 12 months. [166350]

Mr. Hutton: The Department does not collect centrally the information requested. However, there has been an increase of 256 general practitioners, excluding retainers and registrars, in London since 1999. London primary care trusts are planning to recruit over 200 additional GPs between July 2003 and March 2006.

Health Checks (Over-65s)

Sandra Gidley: To ask the Secretary of State for Health what health checks are routinely performed on the NHS on people over 65. [164763]

Dr. Ladyman: General practitioners are required to provide a health check to all patients aged 75 or over who request it and have not had a consultation within the last 12 months. For people aged 65 or over, in receipt of health or community care, local National Health Service bodies and councils with social services responsibilities should routinely assess their needs and review services at least annually.

Health Services (Birkenhead)

Mr. Frank Field: To ask the Secretary of State for Health what assessment he has made of *(a)* the number of extra midwives which will be required in the NHS in the next 10 years and *(b)* the adequacy of the number of training places available to meet that demand. [166235]

Mr. Hutton: We are committed to increasing the number of midwives working in the national health service. Speaking at the Royal College of Midwives in 2001, my right hon. Friend the Member for Darlington (Mr. Milburn) said that there would be an extra 2,000 midwives working in the NHS within the next five years. As at September 2003, there were 1,369 more midwives employed in the NHS than in 2000.

It is for the NHS to determine locally the number and type of training places it purchases for students to train as midwives. Increased investment has seen a rise of 28 per cent. between 1996–97 and 2002–03 in the number of students starting midwifery training and further growth is expected this year to support further growth in midwifery numbers.

Incontinence Pads

Mr. Ben Chapman: To ask the Secretary of State for Health (1) what guidance he has given to primary care trusts about the quantity of incontinence pads to be supplied to individuals in residential homes; [166053]

(2) what consultation he has had with independent nursing homes about the supply of incontinence pads. [166054]

Dr. Ladyman: Since the introduction of national health service-funded nursing care in October 2001, residents in care homes providing nursing care should not have to pay for the continence supplies they need. The NHS will ensure that the care home either receives continence products free of charge, or will make a payment to the care home for continence provision. Guidance issued to primary care trusts in September 2001 and March 2003 was consulted upon with a wide range of stakeholders, including care homes providing nursing care. The guidance stresses the importance of the NHS consulting local providers about continence provision to ensure that, as far as possible, the arrangements meet their needs concerning delivery and storage.

Infection Control

David Davis: To ask the Secretary of State for Health what action his Department is taking to improve standards of hygiene within the NHS. [165045]

Dr. Ladyman: We are working to improve both infection control and cleanliness. Key to achieving this is implementation of "Winning Ways—Working

together to reduce Healthcare Associated Infection in England". This will reduce infection rates and improve patient care.

In addition, to help the national health service comply with "Standards of Cleanliness for the NHS", a healthcare cleaning manual will be issued shortly to all NHS trusts. The National Patient Safety Agency is piloting a new approach to hand hygiene in acute hospitals and this will start to be implemented during 2004.

Insulin

Mr. Kidney: To ask the Secretary of State for Health (1) what assurances he has sought from *(a)* Novo Nordisk and *(b)* CP Pharmaceuticals about the long-term provision of animal insulin; [166020]

(2) what steps he has taken to ensure the long-term supply of *(a)* human insulin and *(b)* animal insulin. [166021]

Ms Rosie Winterton: The Department is in regular contact with Novo Nordisk and CP Pharmaceuticals and both these companies have confirmed that they will continue to supply animal insulin and human insulin for the foreseeable future.

Mr. Kidney: To ask the Secretary of State for Health what assessment he has made of the efficacy of *(a)* human insulin and *(b)* animal insulin for people with diabetes. [166022]

Ms Rosie Winterton: All authorised insulins, whether human insulin or animal insulin, have been demonstrated to be efficacious in people with diabetes mellitus. As part of the licensing approval process for any medicinal product, including insulins, the applicant has to provide evidence that the product meets appropriate standards of quality, safety and efficacy. This will include clinical trial data in patients with diabetes. Findings from the Cochrane review, which compared the effects of synthetic human insulin and natural animal insulin in diabetic patients from 1996 to 2002 and was subsequently updated in 2003, indicate that both human and animal insulins are equally effective. The decision to use one or other of the insulin rests with the physician in consultation with the patient.

Mr. Kidney: To ask the Secretary of State for Health what assessment he has made of the number of people with diabetes who are *(a)* unwilling and *(b)* unable to use human insulin to manage their condition; and what proportion of people with diabetes using insulin to manage their condition these represent. [166023]

Ms Rosie Winterton: This information is not collected centrally. However, both human and animal insulins remain available.

Long-term Care

Mr. Burstow: To ask the Secretary of State for Health what funding his Department *(a)* has made available in each year since 1996–97 and *(b)* will make available in each year from 2004–05 to 2007–08 to tackle anomalies of the old funding system for long-term care. [164615]

Dr. Ladyman: The NHS Plan announced additional resources, rising to £360 million a year by 2003–04, to tackle anomalies in the system of funding for long term care. This was disseminated via the Preserved Rights Grant, the Residential Allowance Grant, the Deferred Payments Grant and new funding for National Health Service-funded nursing care. There has also been and continues to be extra investment in new services such as intermediate care and extra care housing.

Funding was made available in 2003 to strategic health authorities to cover the estimated costs of recompense claims for patients inappropriately denied fully funded NHS continuing care since 1996. The Department does not routinely publish details of estimated costs of a specific service.

Mental Health

Tim Loughton: To ask the Secretary of State for Health if he will assess the number of mentally disordered offenders who are deaf. [165834]

Ms Rosie Winterton: There are two specialist mental health facilities for deaf mentally disordered offenders. These are at Rampton Hospital, a high secure hospital, which accommodates up to 10 individuals and Mayflower Hospital, an independent medium secure hospital, which has places for up to 40.

There will also be some deaf people in prison. The exact number is not known because no statistics are collected. The best available estimate is that 0.1 per cent. of the prison population will have some degree of hearing loss and that there may be between 50 and 100 who are profoundly deaf. Of these, up to a third may have mental health problems. These figures are, however, estimates and should be treated with caution.

Musculoskeletal Disease

Dr. Gibson: To ask the Secretary of State for Health what plans he has to include the management and treatment of musculoskeletal disease within the terms of reference of the National Service Framework for Older People. [166208]

Dr. Ladyman: Although the National Service Framework (NSF) for Older People did not specifically focus on the management and treatment of musculoskeletal disease, the underlying principle, set out in the NSF, of fair access to high quality, joined-up care, based on need and not age, applies to all older people. We have no plans to add to the NSF for older people, which was published in March 2001.

NHS Usage Statistics

Laura Moffatt: To ask the Secretary of State for Health what percentage of NHS acute service users in the last period for which figures are available were above retirement age. [165879]

Dr. Ladyman: In 2002–03, 36 per cent., of all admissions to national health service hospitals in England in acute specialties were by people who were above retirement age on the day of admission. Further detail is shown in the following table.

Main Consultant Specialty Acute (Codes: 100–421, 450–460, 620, 800–901). Age on Admission in years 65+ (males), 60+ (females) and count for all ages. Count of Finished Admissions Episodes. NHS Hospitals, England 2002–03

Age Grouping	*Finished admission episodes*	*Percentage acute admissions*
65+ (males) and 60+ (females)	3,578,853	36.1
All ages	9,908,693	100.0

Notes:
A finished admission episode is the first period of in-patient care under one consultant within one healthcare provider. Please note that admissions do not represent the number of in-patients, as a person may have more than one admission within the year.
Figures have hot been adjusted for shortfalls in data (i.e. the data are ungrossed).
Source:
Hospital Episode Statistics (HES), Department of Health.

Nursing

Mr. Burstow: To ask the Secretary of State for Health what action has been taken by his Department to implement the recommendations of the Audit Commission report, "Brief Encounters", on temporary nurses. [166404]

Mr. Hutton: The recommendations contained in "Brief Encounters" will be taken into account by the newly established NHS Professionals special health authority in its management of the national health service temporary labour market, in partnership with local NHS trusts and primary care trusts.

Mr. Burstow: To ask the Secretary of State for Health what the mandatory entry requirements are for nursing training *(a)* diplomas and *(b)* degrees. [166442]

Mr. Hutton: Currently, in line with Nursing and Midwifery Council standards, entry to nurse training programmes, either for pre-registration diplomas or pre-registration degrees, requires a statutory minimum of five GCSEs at grade A, B or C (or the equivalent). Midwifery programmes require the same statutory minimum. However, one qualification must be in a science subject.

These standards are due to change soon and the new arrangements will be in place for September, when specific education entry requirements will cease to apply. Applicants will be required to meet general education entry requirements that show their competence in literacy and numeracy, as well as providing evidence of good health and character.

Higher education institutions are expected to set their own additional entry requirements for degrees and diplomas.

Older People

Mr. Webb: To ask the Secretary of State for Health for what *(a)* initiatives, *(b)* campaigns and *(c)* advisory bodies relating to older people his Department (i) is responsible and (ii) has provided funding since 2001; and what the cost in each year was for each one. [166238]

Dr. Ladyman: The national service framework (NSF) for older people, published in March 2001, forms the basis for the Department's programme to improve health and social care services for older people. Since its launch, the Department has supported a number of initiatives, campaigns and advisory bodies, as part of the implementation of the NSF. However, it is not possible to identify these separately.

Organ Transplants

Mr. Burstow: To ask the Secretary of State for Health what authority controls the matching of donated organs with potential transplant recipients in the *(a)* NHS and *(b)* private sector. [164863]

Ms Rosie Winterton: It is the responsibility of UK Transplant, a special health authority based in Bristol, to match and allocate organs from deceased donors to suitable patients on the national transplant list, whether national health service or private, according to allocation rules agreed by national organ advisory committees.

It is the responsibility of local transplant centres or clinicians working in private practice to assess the suitability of a potential live organ donor and obtain approval from the Unrelated Live Transplant Regulatory Authority if required.

Mr. Burstow: To ask the Secretary of State for Health what protocols govern the selection of recipients of donated organs for transplant in the *(a)* NHS and *(b)* private sector. [164870]

Ms Rosie Winterton: The rules for allocating organs are publicly available on the UK Transplant website at www.uktransplant.co.uk. They are regularly reviewed by the medical profession in consultation with other health professionals, the Department and advisory groups. The system of allocation differs according to the type of organ; whether it is a heart, lung, kidney, liver or cornea, but there are some overall guiding principles which ensure as far as possible proper matching of organs to patients and equality of access to the organ available. All eligible patients, whether national health service or private, have to be registered on the relevant national transplant list and will be allocated a suitable organ when one becomes available.

Oxygen Cylinders

Mr. Laxton: To ask the Secretary of State for Health whether the tender document to contractors for the supply of oxygen cylinders to cluster headache patients informs potential contractors of the number of cylinders that they will be required to supply each week to cluster headache patients. [166451]

Ms Rosie Winterton: Healthcare professionals are responsible for assessing and prescribing oxygen therapy for patients, including those suffering from cluster headaches. The new contract, being developed to support introduction of a modernised, integrated, oxygen service during 2005, will require service contractors to supply oxygen in a way that best meets the needs of the patient, as set out in the patient's prescription.

Pain Management

Mr. Sheerman: To ask the Secretary of State for Health how his Department guarantees that the quality

of local pain management services provided by NHS trusts and primary care trust commissioners is effectively monitored by strategic health authorities; and what steps it takes to ensure that best practice in pain management is shared between NHS trusts and primary care trusts from different strategic health authority regions. [165349]

Mr. Hutton: The process for commissioning health services involves the establishment of service level agreements between primary care trust commissioners and providers for various specialties. These set the framework for the monitoring of all services, including pain. Strategic health authorities would not normally become involved in this process except in cases of serious difficulty.

The commissioning process ensures that quality services are provided and it is for providers to ensure that they take account of developments in pain services, such as the recommendations in the Clinical Standards Advisory Group report on pain or the Royal College of Anaesthetists and Pain Society booklet, "Pain Management Services—Good Practice".

Residential Care

Mr. Dorrell: To ask the Secretary of State for Health how many registered beds there were in *(a)* residential care homes and *(b)* nursing homes in Leicestershire for each year since 1995–96. [166121]

Dr. Ladyman: The table shows the number of care home places in Leicestershire at 31 March for the years 1996 to 2001.

Figures for later years have been collected by the National Care Standards Commission, but comparable details broken down by local authority are not available.

Number of care home places in Leicestershire[1] at 31 March 1996–2001

Rounded numbers

At 31 March	*Residential*[2]	*Nursing*[3]	*Total*
1996	5,220	2,325	7,545
1997	5,960	2,320	8,280
1998	5,840	2,150	7,990
1999	6,065	2,190	8,255
2000	6,330	1,710	8,040
2001	6,640	1,625	8,265

[1] For 1996 and 1997, residential figures are for Leicestershire Council with Social Services Responsibilities (CSSR). For 1998 onwards, residential figures are for Leicestershire CSSR, Leicester CSSR and Rutland CSSR. Nursing figures are for Leicestershire Health Authority for all years.

[2] Includes places in local authority staffed, voluntary, private, small and dual registered homes.

[3] Includes places in general nursing homes, mental nursing homes and private hospitals and clinics.

Department of Health forms RAC5, RA, RH(N) and KO36.

Shared Service Centres

Mr. Burstow: To ask the Secretary of State for Health pursuant to his answer of 23 March 2004, *Official Report*, column 718W, on administration, what savings he estimates can be gained from the expansion of shared service centres for *(a)* financial services and *(b)* human resources. [164899]

Mr. Hutton: It is not possible to estimate precisely the level of savings from expanding either financial services or human resources (HR) as these depend on a number of factors. The level of savings at each trust will depend on the age of their existing information technology systems, their cost base and number and type of staff they employ, how their services are delivered at the moment and the volume of transactions that are undertaken. The speed of any roll-out will also dictate the level of savings and is equally dependent on similar local circumstances.

However, it is estimated that by 2009–10, total savings from the use of shared service centres in the national health service will be about £35 million per annum on HR and £60-£75 million on financial services.

Skin Disease

Dr. Evan Harris: To ask the Secretary of State for Health what assessment he has made of the proportion of general practitioner time spent dealing with skin disease. [164903]

Dr. Ladyman: The information requested is not held centrally.

Social Services (Destitute British Nationals)

Tim Loughton: To ask the Secretary of State for Health what responsibilities social services departments have to support destitute British nationals. [165494]

Dr. Ladyman: If an adult British citizen approaches a council with social services responsibilities for help, the council should determine whether the person is ordinarily resident in its area or in urgent need. If so, the council should carry out a community care assessment if it believes that the individual adult's needs are such that s/he may be provided with community care services. If, on the basis of a community care assessment, the individual is deemed eligible for community care services, the council should provide those services and, thereafter, review both needs and services at frequent intervals. This process applies to all adult British citizens whether they are destitute or not. In some situations, a council may have to provide substantial help, including residential accommodation, if a destitute British citizen is returning to, or arriving in, the United Kingdom and cannot access benefits and housing immediately.

Temporary Staff

Matthew Taylor: To ask the Secretary of State for Health if he will list the employment agencies which his Department has used to supply temporary staff in each financial year since 1996–97 to the most recent date for which figures are available. [163820]

Ms Rosie Winterton: The Department of Health allows managers to access temporary staff, when necessary, through appropriate employment agencies at their own discretion, where the appropriate funding is authorised.

According to departmental records, a number of agencies were used by managers in the Department to supply temporary staff. The agencies used by the Department during 2002–03 and 2003 to date are shown in the list. The supplied information may not be complete due to limitations in the current departmental finance system.

Treatment Centres

Mr. McLoughlin: To ask the Secretary of State for Health which organisations have been consulted on the Trent Region Access and Choice programme; how long the consultation period was; and whether copies of the responses were made publicly available. [164603]

Dr. Ladyman: Responsibility for effective involvement activity rests with the Trent Strategic Health Authority (SHA) and the relevant primary care trusts (PCTs).

The SHA is responsible for communicating high level strategic issues relating to the programme and it is the responsibility of PCTs to communicate operational impact and seek views on how best to meet the needs of local people through the delivery of the new service.

Mr. McLoughlin: To ask the Secretary of State for Health what submissions he has received regarding the location of the independent sector treatment centre in Trent as part of the Trent Region Access and Choice programme; what assessment the Department has made of *(a)* the length of journey and *(b)* the time taken to reach (i) Derby, (ii) Nottingham and (iii) Sheffield hospitals; and what assessment has been made of the potential impact on patient safety if complications occur after surgery. [164600]

Dr. Ladyman: The Barlborough independent sector treatment centre (IS-TC) is being set up to provide much needed additional clinical capacity in the Trent region, to help reduce waiting times and introduce choice for national health service patients. The location of the IS-TC in the Trent Strategic Health Authority (SHA) area was determined by the service provider, Care UK Afrox Healthcare (CUAH), working closely with Trent SHA, so that health requirements of the regional and local populations could be best served.

Information on travel times to the hospitals mentioned is not available, but the service provider will be providing NHS patients with transport to and from the IS-TC. All IS-TCs will be staffed by fully trained and experienced clinical teams. Surgeons operating in IS-TCs must be registered with the General Medical Council on its specialist register. IS-TCs will have facilities and trained staff to resuscitate and stabilise any patient who suffers such complications.

Patients needing transport to a NHS trust in the event of a clinical emergency will be transported using normal ambulance services to either Chesterfield Royal Infirmary or, should they require an intensive care bed, to one of the hospital trusts in the North Trent critical care network. This is the same arrangement that would be followed for patients in any district general hospital in south Yorkshire.

Mr. McLoughlin: To ask the Secretary of State for Health whether independent sector treatment centres will be subject to the same national audit framework as NHS hospitals. [164601]

Dr. Ladyman: The services provided by independent sector treatment centres for NHS bodies are subject to scrutiny by the Commission for Healthcare Audit and Inspection (CHAI) on the same basis as other National Health Service services.

In addition, under the Care Standards Act 2000, CHAI is responsible for registering and inspecting independent treatment centres against the National Minimum Standards and Regulations issued by the Secretary of State.

Vulnerable Adults

Sandra Gidley: To ask the Secretary of State for Health when the protection of vulnerable adults list will be implemented in healthcare settings. [164819]

Dr. Ladyman: The Department remains fully committed to implementing the protection of vulnerable adults (POVA) scheme for healthcare. The POVA scheme is being commenced in social care first as there is strong evidence that most abuse of vulnerable adults occurs either in people's own homes or in care homes. There remain problems with implementing POVA in healthcare settings. It is hoped to resolve these problems as soon as possible, with a view to fully implementing POVA during 2005.

Working Time Directive

Mr. Burstow: To ask the Secretary of State for Health what monitoring will be undertaken by his Department on the impact of the European working time directive on emergency medical transfers at night between hospitals. [166405]

Mr. Hutton: Performance management of the implementation of the working time directive is the responsibility of strategic health authorities, as part of mainstream national health service performance management.

CONSTITUTIONAL AFFAIRS

BACS

Brian White: To ask the Parliamentary Secretary, Department for Constitutional Affairs what progress his Department has made to manage the changeover from the Bank Automated Clearing System to the new BACSTEL-iP system for electronic payments. [164319]

Mr. Lammy: The Department's outsourced banking function (Liberata) have obtained costs for the new hardware and software required for the upgrade and made plans for the migration to BACSTEL-iP. The migration timetable is driven by our sponsoring bank, the Bank of England, which is in the process of drawing up a timetable for implementation by December 2005.

Immigration Control (Lawyers)

Mr. Gordon Prentice: To ask the Parliamentary Secretary, Department for Constitutional Affairs how many lawyers have been *(a)* prosecuted, *(b)* convicted and *(c)* struck off for offences related to the evasion of immigration control by their clients in each year since 1997. [165462]

Mr. Lammy: The complaints handling arm of the Law Society, the Office for the Supervision of Solicitors, have provided numbers of cases which resulted in solicitors being subject to disciplinary action, in relation to the provision of immigration advice since 1997.

1997

No cases

1998

1—subject to a section 43 Order (preventing a legal executive or a legal clerk from working in a firm of solicitors)

1—struck off

1999

1—fined

1—reprimanded

2000

1—struck off

3—fined

2001

1—struck off

1—subject to a section 43 Order

1—fined and suspended

1—suspended

2—fined

2002

No cases

2003

1—struck off

1—indefinite suspension

1—fined

Legal Aid

Mr. Roger Williams: To ask the Parliamentary Secretary, Department for Constitutional Affairs how many people *(a)* applied for and *(b)* received legal aid in England and Wales since 2000; and how many people had an application rejected. [165844]

Mr. Lammy: The Legal Services Commission is unable to provide figures for criminal and civil Legal Help because decisions about whether to take on a case are made by the supplier and not referred to the Commission on a case-by-case basis.

The Commission can however provide figures for civil representation on the basis of the number of applications for funding certificates received, granted and rejected; the figures are not necessarily reflective of the number of individuals involved.

The figures for civil representation from 2000–01 are in table A. The number of applications received and dealt with by the Crown Courts are in table B. The number of applications received and dealt with by the magistrates' courts are in table C.

The number of applications rejected does not equate to the difference between the number of applications received and the number of applications granted because other outcomes are possible including abandonment or withdrawal of an application, or an offer of contributory funding that the applicant decides not to progress.

Table A—Civil applications

	2000–01	*2001–02*	*2002–03*	*Total*
Funding applications received	226,104	205,821	211,723	643,648
Funding applications granted	174,017	161,988	164,096	500,101
Funding applications rejected	24,353	20,347	22,904	67,604

Table B—Crown court applications[1]

	2000	*2001*	*2002*	*Total*
Funding applications received	13,494	12,073	11,080	36,647
Funding applications granted	13,279	11,909	10,890	36,078
Funding applications rejected	264	204	190	672

[1] Information is available by calendar year only.

Table C—Magistrates' court applications

	2000–01	*2001–02*	*2002–03*	*Total*
Funding applications received	477,307	627,215	662,847	1,767,369
Funding applications granted	449,632	598,422	632,057	1,680,111
Funding applications rejected	23,566	27,797	29,886	81,249

Legal Services

Geraldine Smith: To ask the Parliamentary Secretary, Department for Constitutional Affairs what plans he has to review the financial eligibility limits for publicly funded legal help. [165408]

Mr. Lammy: No decision has yet been taken on the eligibility uprating. We will inform the House as soon as a decision has been taken.

Geraldine Smith: To ask the Parliamentary Secretary, Department for Constitutional Affairs what steps he is taking to improve access to community legal services. [165409]

Mr. Lammy: The Community Legal Service (CLS) aims to improve access to quality legal and advice services for all. Regional Legal Service Committees and CLS Partnerships are responsible for co-ordinating the delivery of legal and advice services in their area and through an analysis of local legal needs, can ensure that resources are more effectively targeted to those most in need. A number of initiatives have been put in place to improve access to advice, including the Just Ask! website. A national telephone advice service will be available nationally from summer 2004 following a successful pilot. CLS leaflets provide information on legal rights and details of local service providers can be found in the CLS Directory, available at a number of public locations and online. The Constitutional Affairs Select Committee's current inquiry into the adequacy of civil legal aid provision is considering access to civil legal and advice services. An independent review is also evaluating the effectiveness of the CLS and is due to report in late April 2004.

Legal Services Commission

Mr. Roger Williams: To ask the Parliamentary Secretary, Department for Constitutional Affairs (1) how many new solicitors firms have undertaken contracts with the Legal Services Commission in England and Wales since 2000; [165842]

(2) how many solicitors firms, in England and Wales have withdrawn from a Legal Services Commission contract in each year since 2000. [165843]

Mr. Lammy: I shall reply to the hon. Member as soon as possible.

Press Officers

Mr. Laws: To ask the Parliamentary Secretary, Department for Constitutional Affairs how many press officers were employed in the Department in each year from 1990–91 to 2003–04; what the total cost was in each year; and if he will make a statement. [162858]

Mr. Lammy: The Department for Constitutional Affairs (DCA) was created in June 2003. Since its inception the DCA, which includes its agencies—the Court Service and the Public Guardianship Office (PGO) has employed:

	2003–04	
	Number	*Paybill (£)*
Press Officers	14	384,661
Support Staff	6	140,963

The Directors of Communications of the DCA and PGO, the DCA Deputy Director of Communications, and the DCA Head of News also deal with the media within their wider responsibilities.

Special Immigration Appeals Commission

Mr. Dismore: To ask the Parliamentary Secretary, Department for Constitutional Affairs whether the Special Immigration Appeals Commission is a court; and if he will make a statement. [165390]

Mr. Lammy: The Special Immigration Appeals Commission is a superior court of record pursuant to Section 1(3) of the Special Immigration Appeals Commission Act 1997 as amended by Section 35 of the Anti-terrorism, Crime and Security Act 2001. The amendment to the status of the commission took effect from 13 December 2001.

Whistleblowers

Mr. McNamara: To ask the Parliamentary Secretary, Department for Constitutional Affairs what provisions are made across departments of Government to reward whistleblowers for providing information leading to successful detection of fraud or other crime; and how many and what sizes of rewards have been made in the past five years. [145211]

Mr. Lammy: My Department is not responsible for whistleblowing provisions across Government Departments.

However, we do have a whistleblowing policy that provides a confidential reporting procedure for employees to voice concerns about any aspect of work within the Department.

There is no policy of rewarding whistleblowers, and in the past year no rewards have been made.

NORTHERN IRELAND

Ulster-Scots

Mr. Dodds: To ask the Secretary of State for Northern Ireland how many people who completed the 2001 Census in Northern Ireland entered Ulster-Scots in response to the question on language. [166481]

Mr. Pearson: None. The question on language asked in the 2001 Census related specifically to Irish and allowed only tick-box responses.

A26

Mr. Gregory Campbell: To ask the Secretary of State for Northern Ireland what the average volume per day of vehicles using the A26 between Ballymena and Coleraine was in each of the last 10 years. [165732]

Mr. Spellar: The Chief Executive of Roads Service (Dr. Malcolm McKibbin) has written to the hon. Gentleman in response to this question.

Letter from Dr Malcolm McKibbin to Mr Gregory Campbell dated 5 April 2004:

You recently asked the Secretary of State for Northern Ireland a Parliamentary Question regarding the average volume per day of vehicles using the A26 between Ballymena and Coleraine was in the last 10 years. I have been asked to reply as the issues fall within my responsibility as Chief Executive of Roads Service.

Roads Service collects traffic data from 4 locations along the A26 between Ballymena and Coleraine. The counters occasionally mal-function and/or require maintenance resulting in periods where traffic flow information is not available. The available data on the average volume of vehicles per day recorded in each of the last 10 years is shown in the attached table.

I hope you find this information helpful.

Location	*1994*	*1995*	*1996*	*1997*	*1998*	*1999*	*2000*	*2001*	*2002*	*2003*
Dual carriageway between Ballymena and Glarryford	13,940	15,230	—	15,170	—	—	15,170	—	16,910	17,880
A44 Ballycastle junction to Ballymoney Bypass	9,640	10,260	10,760	11,410	11,040	11,860	11,740	12,630	12,860	—
Ballymoney Bypass	11,300	13,990	13,150	11,990	13,370	14,100	13,440	14,560	14,940	15,660
Between Ballymoney and Coleraine	11,750	12,170	12,050	13,170	13,870	14,630	14,610	15,060	14,920	15,670

Attendance Allowance

Mr. Gregory Campbell: To ask the Secretary of State for Northern Ireland how many attendance allowance claims have been subject to appeal in Northern Ireland in each of the last five years; and what the percentage rate of success was. [165995]

Mr. Spellar: The number of attendance allowance appeals heard during the last five financial years and the percentage success rate was:

	Total	*Success rate (percentage)*
1999–2000	57	26.3
2000–01	43	25.6
2001–02	118	20.3
2002–03	143	27.3
2003–04	108	21.3

Car Ownership

Mr. Gregory Campbell: To ask the Secretary of State for Northern Ireland what estimate he has made of the change in the numbers of those owning cars in Northern Ireland over the past 10 years. [165998]

Mr. Pearson: Information on the numbers of people owning cars in Northern Ireland is not readily available. However, the 1991 Census of Population showed that residents of 64.5 per cent. of households had access to at least one car or van, rising to 73.7 per cent. of households in the 2001 Census of Population.

Civil Servants

Mr. Beggs: To ask the Secretary of State for Northern Ireland how many travel warrants were issued to civil servants employed by his Department for travel between Northern Ireland and Great Britain via *(a)* Belfast City Airport and *(b)* Belfast International Airport in each of the last three years. [165774]

Mr. Pearson: The number of travel warrants issued to civil servants employed by the 11 Departments of the Northern Ireland Civil Service and the Northern Ireland Office for travel between Northern Ireland and Great

Britain via *(a)* Belfast City Airport, and *(b)* Belfast International Airport, in each of the last three years is set out in the table.

£

	Belfast City	*Belfast International*
2001–02	11,947	4,568
2002–03	17,890	1,687
2003–04	16,981	2,507

These figures relate only to flights booked through the NICS and NIO contracted travel agency services and do not include any journeys undertaken and which were booked through other channels, as to obtain this information would be at disproportionate cost to Departments.

Mr. Beggs: To ask the Secretary of State for Northern Ireland what the cost of air travel for civil servants employed by his Department travelling between Northern Ireland and each of Great Britain's airports via *(a)* Belfast City Airport and *(b)* Belfast International Airport was in each of the last three years. [165775]

Mr. Pearson: The cost of air travel for civil servants employed by the 11 Departments of the Northern Ireland Civil Service and the Northern Ireland Office travelling between Northern Ireland and each of Great Britain's airports for each of the last three years is set out in the table.

£

	Belfast City	*Belfast International*
2001–02	2,418,932	990,101
2002–03	3,983,798	239,348
2003–04	3,154,379	210,216

These figures relate only to flights booked through the NICS and NIO contracted travel agency services and do not include any journeys undertaken and which were booked through other channels, as to obtain this information would be at disproportionate cost to Departments.

Mr. Beggs: To ask the Secretary of State for Northern Ireland how many civil servants flew from Belfast International Airport to *(a)* London Luton, *(b)* London Stansted and *(c)* London Gatwick in each of the last three years; and what the average return fare was. [165776]

Mr. Pearson: The number of civil servants who flew from Belfast International Airport to *(a)* London Luton, *(b)* London Stansted and *(c)* London Gatwick in each of the last three years is set out below along with the average return fare in each case.

	2001–02	*2002–03*	*2003–04*
(a)			
London Luton	7	92	309
Air fair (return)	£59.92	£77.94	£105.53
(b)			
London Stansted	23	19	359
Air fair (return)	£66.78	£95.75	£104.23
(c)			
London Gatwick	640	12	206
Air fair (return)	£159.48	£88.27	£76.08

These figures relate only to flights booked through the NICS and NIO contracted travel agency services and do not include any journeys undertaken and which were booked through other channels, as to obtain this information would be at disproportionate cost to Departments.

Mr. Beggs: To ask the Secretary of State for Northern Ireland how many civil servants flew from Belfast City Airport to *(a)* London Heathrow and *(b)* London Gatwick in each of the last three years; and what the average return fare was. [165777]

Mr. Pearson: The number of civil servants who flew from Belfast City Airport to *(a)* London Heathrow and *(b)* London Gatwick in each of the last three years is set out below along with the average return fare in each case.

Flights from Belfast City Airport

	2001–02	*2002–03*	*2003–04*
(a)			
London Heathrow	2,776	7,771	9,898
Air fare return	£139.75	£183.03	£183.88
(b)			
London Gatwick	2,333	2 619	1,456
Air fare return	£227.77	£16).90	£175.58

These figures relate only to flights booked through the NICS and NIO contracted travel agency services and do not include any journeys undertaken and which were booked through other channels as to obtain this information would be at disproportionate cost to Departments.

Bob Spink: To ask the Secretary of State for Northern Ireland if he will list for each civil service grade within his Department, the total number of staff employed, broken down by *(a)* gender, *(b)* ethnic group, *(c)* registered disabled and *(d)* age group. [166402]

Mr. Pearson: At 1 January 2004 the total number of staff in the Northern Ireland Departments and the Northern Ireland Office was 31,439. The following tables show the breakdown, for each grade level, by *(a)* gender, *(b)* ethnic origin, *(c)* those who have declared a disability, and *(d)* age group:

(a) Permanent staff by grade level and gender

	Gender		
Grade level	*Female*	*Male*	*Total*
Grade 5 and above	56	229	285
Grade 6/7	409	1,020	1,429
Deputy Principal	838	1,700	2,538
Staff Officer	1,099	1,887	2,986
Executive Officer I/II	4,528	4,511	9,039
Administrative Officer	6,735	2,506	9,241
Administrative Assistant	1,968	1,214	3,182
Industrial	67	2,672	2,739
Total	15,700	15,739	31,439

(b) Permanent staff by grade level and ethnic origin

	Ethnic origin								
Grade level	*White*	*Black African*	*Black Caribbean*	*Bangladeshi*	*Chinese*	*Indian*	*Pakistani*	*Other*	*Total*
Grade 5 and above	263	0	1	0	0	2	0	0	266
Grade 6/7	1,295	1	0	0	2	1	0	2	1,301
Deputy Principal	2,309	1	0	0	2	1	1	3	2,317
Staff Officer	2,675	2	0	1	0	3	2	0	2,683
Executive Officer I/II	7,699	3	3	0	0	3	2	6	7,716
Administrative Officer	7,863	4	3	0	0	1	0	4	7,875
Administrative Assistant	2,855	6	0	0	1	2	0	2	2,866
Industrial	1,555	0	0	0	0	0	0	0	1,555
Total	26,514	17	7	1	5	13	5	17	26,579

Note:
For 4,860 of the 31,439 staff (15.5 per cent.) no ethnic origin information has been provided.

(c) Permanent staff by grade level and declared disability

Grade level	*Declared disabled*
Grade 5 and above	8
Grade 6/7	44
Deputy Principal	102
Staff Officer	107
Executive Officer I/II	385
Administrative Officer	362
Administrative Assistant	164
Industrial	106
Total	1,278

Note:
For 4,540 of the 31,439 staff (14.4 per cent.) no disability information has been provided.

(d) Permanent staff by grade level and age group

	Age						
Grade level	*16 to 19 years*	*20 to 29 years*	*30 to 39 years*	*40 to 49 years*	*50 to 59 years*	*60 plus years*	*Total*
Grade 5 and above	0	0	17	93	167	8	285
Grade 6/7	0	11	195	589	607	27	1,429
Deputy Principal	0	107	654	978	768	31	2,538
Staff Officer	0	360	751	1,147	702	26	2,986
Executive Officer I/II	1	1,053	3,374	3,306	1,237	68	9,039
Administrative Officer	86	2,951	2,806	2,406	856	136	9,241
Administrative Assistant	184	1,423	619	528	330	98	3,182
Industrial	7	183	643	941	745	220	2,739
Total	278	6,088	9,059	9,988	5,412	614	31,439

Civil Service Pay Offer

Mr. Kevin McNamara: To ask the Secretary of State for Northern Ireland whether the 5.57 per cent. civil service pay offer made to the trade union NIPSA for 2003 had Treasury approval. [164943]

Mr. Pearson: It is not the Government's practice to discuss the internal processes that underlie the handling of pay negotiations. All concerned within Government are working together to take forward the Government's firm and fair approach to civil service pay, which is that pay should not jeopardise the imperative of improving services, but should take account of the need to retain, recruit and motivate staff within the spending and delivery plans set in the Northern Ireland Budget.

Complementary Medicine

Mr. Gregory Campbell: To ask the Secretary of State for Northern Ireland what the budget for complementary medicine in the National Health Service in Northern Ireland was in 2003. [165997]

Angela Smith: The Department did not make any specific resources available for Complementary Medicine in 2003.

It is a matter for HPSS clinicians or healthcare professionals with lead clinical responsibility for the individual patient to decide whether an individual patient could benefit from the use of a particular therapy.

Departmental Buildings

Mr. Llwyd: To ask the Secretary of State for Northern Ireland what *(a)* renovation and *(b)* maintenance projects

on buildings (i) owned and (ii) rented by his Department were undertaken in each of the last five years; and what the associated costs were of each. [163947]

Mr. Pearson: Due to the number of buildings involved and the differing methods of recording by the various Departments of the Northern Ireland Administration and the Northern Ireland Office, disaggregation of the figure-work by project and between owned and rented buildings in line with the question would involve disproportionate cost. The table below gives the information for renovation and maintenance expenditure on both owned and rented buildings for each year.

£

Year	*Value of internal renovation/alteration/ refurbishment undertaken*	*Value of maintenance work carried out*
1999–2000	412,790.22	7,985,123.65
2000–2001	737,131.85	7,721,766.60
2001–2002	1,067,010.50	6,411,959.63
2002–2003	1,412,010.30	8,016,377.12
2003–2004	1,661,491.60	9,890,600.50

Departmental Computers

Bob Spink: To ask the Secretary of State for Northern Ireland what plans he has to update computer *(a)* hardware and *(b)* software standard packages used in his Department. [166368]

Mr. Pearson: The Northern Ireland Civil Service makes extensive use of Information and Communications Technology (ICT) in carrying out its day-to-day business.

The 11 Departments of the Northern Ireland Administration have an ongoing programme for updating their computer hardware and software. In the case of PCs and associated office automation software the average period between updates is three to four years; for application servers it is currently five to seven years.

A separate programme is under way to provide a common operating system platform for the 11 Departments of the Northern Ireland Administration.

The Northern Ireland Office is modernising its office IT system (covering hardware and software) through a programme called Flax.

Departmental Efficiency Savings

Mr. Trimble: To ask the Secretary of State for Northern Ireland what plans he has to pursue efficiency savings in each of the Northern Ireland Departments similar to those proposed in the Efficiency Reviews outlined in the recent Budget. [165949]

Mr. Pearson: A similar focus on promoting efficiency within the public sector will be applied in Northern Ireland, with the aim of releasing resources for reallocation to front line services. This will be a central theme to the Northern Ireland Priorities and Budget process, running throughout 2004.

Drug Rehabilitation

Lady Hermon: To ask the Secretary of State for Northern Ireland what research has been undertaken to ascertain the level of *(a)* need and *(b)* demand for a dedicated drug rehabilitation service in Northern Ireland. [164539]

Angela Smith: There has been no research undertaken to establish the level of need or demand for a dedicated drug rehabilitation service in Northern Ireland.

The need for such research was identified as one of a number of research priorities within the Regional Drug and Alcohol Action Plan and the intention was to provide a report to the Department by October 2003. However, a previously commissioned Audit of Statutory Addiction Services which would inform the needs assessment proposal took longer than anticipated and the final report was not received in the Department until early March 2004. At its next meeting in May 2004, the Treatment Working Group will consider their priorities for the coming year, including the needs assessment for a rehabilitation service, and will make decisions about such priorities within available resources.

I will write to the hon. Lady after this meeting to inform her of the outcome.

Employment Statistics

Mr. Beggs: To ask the Secretary of State for Northern Ireland how many *(a)* males over 65 years and *(b)* females over 60 years are in full-time employment in Northern Ireland. [165778]

Mr. Gardiner: It is not possible to provide separate estimates from the Labour Force Survey (LFS) for *(a)* males over 65 years and *(b)* females over 60 years of age in full-time employment only, because the estimates at Autumn 2003 do not reach the minimum threshold level required for a sufficiently reliable estimate to be quoted. However, the LFS does provide sufficiently reliable estimates of the total number of males over 65 years and females over 60 years of age in employment (full-time and part-time) of which there were 16,000 at Autumn 2003. The estimated number of females over 60 years of age in employment (full-time and part-time) at this time was 10,000.

Energy Costs

Mr. Lidington: To ask the Secretary of State for Northern Ireland whether he has secured European Commission approval for his proposal to commit public expenditure to reduce the costs of energy to business. [166015]

Mr. Gardiner: The Department of Enterprise, Trade and Investment is working, in conjunction with the Department of Trade and Industry, on the preparation of an application to the European Commission for the required State Aid clearance of the proposed financial intervention.

Falls

Mr. Beggs: To ask the Secretary of State for Northern Ireland how many people over 60 years were admitted to long-term care following a fall in each of the last three years, broken down by health trust area. [165768]

Angela Smith: The information requested is not readily available and could be provided only at disproportionate cost.

Fishing Industry

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland pursuant to his answer of 18 December 2003, *Official Report*, column 1078W, on the fishing industry, if he will set out a timescale for the *(a)* recommencement and *(b)* completion of a Strategic Review of the Northern Ireland Fishing Industry. [165945]

Mr. Pearson: The Taskforce for South Down and the Prime Minister's Strategy Unit have both reported on the strategic context for Northern Ireland's fishing industry. These exercises have both entailed considerable consultation, research and analysis. I have decided not to undertake another review but rather to focus on implementing the recommendations of the South Down Taskforce and to move ahead, in consultation with local interests, to address the implications for Northern Ireland of the Strategy Unit's Report, "Net Benefits".

Health Board Funding

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland what action he has taken to attempt to redress the imbalance of funding through the Eastern Health Board's Capitation Formula. [166047]

Angela Smith: Equity in resource allocation within a Board area is a matter for the Board concerned. The Eastern Board is working with all of its HSS Trusts to ensure that, within the resources available, the issue of equity is addressed throughout all its local populations.

A review of the Capitation Formula, currently used to allocate the available resources to HSS Boards, is due to be published for consultation in May 2004. This may alter the equity position to some extent within the Eastern Board localities.

The Department will continue to work closely with the Eastern Board on this matter.

Health Services

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland (1) what plans he has to provide a specialist paediatric epilepsy nurse in the Province; [164913]

(2) if he will make a statement on the provision of paediatric nurse specialists for the NHS. [164923]

Angela Smith: The Department has invested over a number of years in the provision of paediatric nursing in the community. The aim of community paediatric nursing service is to provide a range of professional skills to meet the needs of children, e.g. asthma/ respiratory care, diabetes, behaviour management, epilepsy, pain management, nutrition and constipation and palliative care. The service is aimed at those children with disability, chronic and life limiting illness.

Traditionally, access to a specialist epilepsy nurse was through a regional service, but the increasing prevalence of this condition has required Boards to commission a more locally based service from within the community paediatric service. The development of this service means that only in exceptional circumstances should a child have to attend the regional service, thereby not interrupting school and normal activities of living.

Boards are continuing to review and invest in paediatric community services.

Housing

Mr. Gregory Campbell: To ask the Secretary of State for Northern Ireland how many Housing Executive single homes in Northern Ireland have been adapted for disability use in each of the last five years. [165735]

Mr. Spellar: The Housing Executive carries out both major and minor adaptations for its tenants. Information relating to dwellings occupied by single persons, which have been adapted for disability use, is not readily available and could be obtained only at disproportionate cost. However the following tables show the numbers of completed adaptations in individual properties for each of the five years from 1998–99 to 2002–03 and the year 2003–04, to the end of February 2004.

	Major works	*Minor works*
1998–99	2,006	8,243
1999–2000	2,297	8,060
2000–01	2,548	6,855
2001–02	3,981	8,543
2002–03	4,053	8,049
2003–04	3,174	7,527

Labour Statistics

Mr. Hume: To ask the Secretary of State for Northern Ireland what the percentage unemployment level is in *(a)* Coleraine, *(b)* Derry (city), *(c)* Strabane, *(d)* Omagh, *(e)* Dungannon, *(f)* Cookstown, *(g)* Eniskillen, *(h)* Armagh (city), *(i)* Portadown, *(j)* Newry and *(k)* Lisburn. [165344]

Mr. Gardiner: Claimant Count unemployment rates are not available at a town or city level, but can be provided at District Council Area level. The Claimant Count rates at February 2004 for the District Council Areas which contain the specified towns and cities are provided in the table below.

Claimant count unemployment rate by District Council Area at February 2004

District Council Area	*Percentage Rate*
Coleraine	3.4
Derry	5.7
Strabane	5.5
Omagh	3.3
Dungannon	2.1
Cookstown	1.9
Fermanagh	4.0
Armagh	2.4
Craigavon	2.8
Newry and Mourne	3.2
Lisburn	2.2
Northern Ireland	3.2

Landfill

Mr. Trimble: To ask the Secretary of State for Northern Ireland what amount of industrial and commercial waste was sent to landfill in 2003, expressed as a percentage of the 1998 level. [165948]

Angela Smith: The most recent survey figures available relate to the 2002 Survey "Industrial and Commercial Waste Production in Northern Ireland" commissioned by the Department of the Environment's Environment and Heritage Service. This survey reported that approximately 635,000 tonnes of industrial and commercial waste were generated, of which 40 per cent. (252,000 tonnes) went to landfill.

The 1998 survey "Development of a Waste Arisings Database for Northern Ireland—Pilot Survey and Database Design" initiated by EHS showed 700,000 tonnes of industrial and commercial waste were generated, of which 57 per cent. (399,000 tonnes) went to landfill.

The amount of such waste sent to landfill in 2003 was, therefore, 63 per cent. of the 1998 figure, which equates to a reduction of some 37 per cent.

Copies of both documents have been placed in the Library.

MRI Scanners

Mr. Gregory Campbell: To ask the Secretary of State for Northern Ireland what the average waiting time for an MRI scan is in each of the hospitals providing such treatment in Northern Ireland. [165734]

Angela Smith: The information requested could only be provided at disproportionate cost.

NHS Dentistry

Mr. Gregory Campbell: To ask the Secretary of State for Northern Ireland how many National Health Service dentists have been working in Northern Ireland in each of the last five years. [165992]

Angela Smith: The information requested is as follows General Dental Practitioner headcount by year.

Year[1]	*Headcount*
2004	720
2003	696
2002	689
2001	673
2000	661

[1] Figures are at 1 April for each year.
Source:
Central Services Agency

Nursing

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland how many student nurses *(a)* commenced and *(b)* completed training in Northern Ireland in each of the last 10 years. [165791]

Angela Smith: The information requested is provided in the following tables.

Numbers who commenced training in each of the last 10 years

Year 1 April–31 March	*Number commencing training*
1994–95	663
1995–96	733
1996–97	711
1997–98	749
1998/99	617
1999–2000	562
2000–01	614
2001–02	856
2002–03	770
2003–04	864

Note:
2004 figure includes 30 Open University students.

Number of students who became eligible for First Level Registration

Year 1 April–31 March	*Number*
1994–95	779
1995–96	827
1996–97	626
1997–98	716
1998–99	599
1999–2000	612
2000–01	508
2001–02	454
2002–03	449
2003–04	490

Ofcom

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland what discussions he has had with OFCOM on unsolicited telephone calls for commercial purposes. [166049]

Mr. Gardiner: The level of complaints in Northern Ireland concerning unsolicited calls has been small and as such I have not intervened directly in this matter.

The use of telephones for unsolicited commercial, particularly direct marketing, reasons is covered by Directive 2002/58/EC on privacy and electronic communications. The Regulations came into force on 11 December 2003 and are enforced by the Information Commissioner's Office, rather than OFCOM. The regulations work on the principle of opt-out rules on unsolicited direct marketing by phone; it is a breach of the regulations to make an unsolicited direct marketing call to any subscriber who has either told that caller not to ring, or who has been registered on the Telephone Preference Service (TPS) for at least 28 days. Currently only individual subscribers have the right to register on the TPS but in response to a Government consultation undertaken last year this will be opened to corporate subscribers also as of 25 June 2004.

Parenting Initiatives

Lady Hermon: To ask the Secretary of State for Northern Ireland how much funding has been made available to education and library boards in Northern Ireland specifically for parenting initiatives in each of the past five years; what plans he has to increase the current level of funding for parenting initiatives; and if he will make a statement. [165726]

Mr. Gardiner: The Department of Education recognises the importance of engaging parents in their children's learning. Over the last five years the allocations to Education and Library Boards specifically for parenting initiatives were as follows:

£000

	Amount
1999–2000	[1]131
2000–01	207
2001–02	212
2002–03	217
2003–04	238

[1] part year

There are no plans to increase the current level of earmarked funding which the Department of Education makes available to Education and Library Boards for this purpose. However, Boards are free to supplement this funding by allocating further resources from within their overall block grant.

Personal Debt

Mr. Beggs: To ask the Secretary of State for Northern Ireland what steps he is taking to address the dangers of increasing personal debt in Northern Ireland; and if he will make a statement. [165779]

Mr. Gardiner: The Consumer Strategy for Northern Ireland was published in March 2002. As a result, the Department of Enterprise, Trade and Investment commissioned research into the provision of a suitable framework for the delivery of effective debt/money advice in Northern Ireland. This is now being taken forward within the context of the Department for Social Development's proposed new Information and Advice Strategy which is scheduled to be published for consultation in May 2004.

The Office of the First Minister and Deputy First Minister is currently representing Northern Ireland on a UK cross-departmental officials' group on over-indebtedness. The findings of this group may also impact on the money advice initiative in Northern Ireland.

Prescriptions

Mr. Gregory Campbell: To ask the Secretary of State for Northern Ireland (1) what the cost to the public purse of free prescriptions issued in Northern Ireland has been in each of the last five years; [166002]

(2) how many *(a)* paid-for and *(b)* free prescriptions were issued in Northern Ireland in each of the last five years. [166003]

Angela Smith: The information is not available in the form requested.

The total number of prescription items, and the number for which the full prescription charge was paid, in each of the last five calendar years is given below. Based upon sample analyses, it is estimated that 5 per cent. of prescription items are partly paid-for by pre-payment certificates (PPCs), which allow the patient to obtain as many prescription items as necessary during the four or 12 month validity of the certificate for a set fee. Consequently, about 89 per cent. of Health Service prescription items are dispensed free of charge to patients. Estimated figures for the latter two categories are calculated as follows:

£million

	Total Items	Charge Paid	Est. 5 per cent. PPCs	Est. 89 per cent. Free
1999	23,247,901	1,341,795	1,162,395	20,743,711
2000	23,663,632	1,409,347	1,183,182	21,071,103
2001	24,551,125	1,472,666	1,227,556	21,850,903
2002	25,419,957	1,545,007	1,270,998	22,603,952
2003	26,399,016	1,552,296	1,319,951	23,526,769

The total cost of Health Service prescription items in Northern Ireland in each of the last five calendar years (most recent figures available) and the estimated costs of those items dispensed free, are as follows:

(£000)

Year	Total Gross Cost	89 per cent. (Cost of Free Items)
1999	262,822	233,912
2000	273,977	243,840
2001	295,607	263,090
2002	323,651	288,049
2003	354,339	315,362

Property Demolition

Mr. Gregory Campbell: To ask the Secretary of State for Northern Ireland what progress has been made in relation to proposed action to be taken against those allegedly responsible for the demolition of properties for which no planning permission was sought. [165999]

Angela Smith: Consent is required for the demolition of listed buildings and for the demolition of unlisted buildings within a Conservation Area.

If a building is demolished without the necessary consent being obtained, enforcement action will be taken. Prosecution action will also be pursued if appropriate, as is currently happening in relation to the demolition of two listed buildings in the hon. Gentleman's constituency last summer.

Public Sector Housing

Mr. McGrady: To ask the Secretary of State for Northern Ireland what the breakdown by community background in numbers and percentages is of those waiting for public sector housing in *(a)* Northern Ireland and *(b)* the Belfast areas in (i) 2000, (ii) 2001, (iii) 2002 and (iv) 2003. [166044]

Mr. Spellar: The Northern Ireland Housing Executive, under its Section 75 Equality duties, is developing a comprehensive approach to record keeping and monitoring in relation to religious affiliation. The information requested is only available for the last two financial years in respect of those waiting to be allocated properties by either the Northern Ireland Housing Executive or a registered housing association and is a snapshot of the waiting list at 31 March in each of the years.

	2001–02		2002–03	
	Number	Percentage	Number	Percentage
Northern Ireland				
Protestant	12,268	47	12,237	47
Catholic	10,180	39	10,512	40
Undisclosed/ Unavailable	2,350	9	2,103	8
Other	1,305	5	1,394	5
Total	26,103		26,246	
Belfast				
Catholic	3,728	48	3,187	44
Protestant	3,029	39	3,125	43
Undisclosed/ Unavailable	648	8	567	8
Other	345	4	387	5
Total	7,750		7,266	

The breakdown is based on answers, as stated on the General Housing Application Form, to a question about the religion of the respondent and the raw data are still subject to testing for reliability and validity. The question was answered by over 91 per cent. of applicants.

Mr. McGrady: To ask the Secretary of State for Northern Ireland what the breakdown by community background in numbers and percentages is of those allocated public sector housing in *(a)* Northern Ireland and *(b)* the Belfast areas in (i) 2000, (ii) 2001, (iii) 2002 and (iv) 2003. [166045]

Mr. Spellar: Housing is allocated on the basis of need and not religious affiliation. The Northern Ireland Housing Executive, under its Section 75 Equality duties, is developing a comprehensive approach to record keeping and monitoring in relation to religious affiliation. The information requested is only available for one financial year 1 April 2002–31 March 2003 and the cumulative total for the year in respect of those allocated Northern Ireland Housing Executive properties is as follows:

	Number	Percentage
Northern Ireland		
Protestant	4,959	54
Catholic	3,258	35
Undisclosed/ Unavailable	530	6
Other	471	5
Total	9,218	
Belfast		
Protestant	1,331	64
Catholic	579	28
Undisclosed/ Unavailable	104	5
Other	73	3
Total	2,087	

The breakdown is based on answers, as stated on the General Housing Application Form, to a question about the religion of the respondent. The question was answered by over 91 per cent. of applicants. The proportionately lower level of allocations to Catholic applicants in Belfast reflects the lower stock turnover in Catholic areas.

Pulmonary Hypertension

Lady Hermon: To ask the Secretary of State for Northern Ireland if he will make a statement on provision in Northern Ireland for sufferers of pulmonary hypertension. [165934]

Angela Smith: I refer the hon. Lady to the answer I gave on 30 March 2004 (*Official Report*, column 1332W).

Redundancies (Foyle)

Mr. Hume: To ask the Secretary of State for Northern Ireland how many redundancies there were in the Foyle constituency in the past 36 months. [165395]

Mr. Gardiner: In the past 36 months, to 29 February 2004, there were 1,436 redundancies in the Foyle Constituency confirmed to the Department of Enterprise, Trade and Investment.

Mr. Hume: To ask the Secretary of State for Northern Ireland if he will make a statement on the education and retraining specifically tailored for textile workers who have been made redundant. [165396]

Mr. Gardiner: Staff from the Department for Employment and Learning, supported by colleagues from the Social Security Agency, Inland Revenue and local training and Further Education providers, have delivered Redundancy Counselling for those textile workers affected by the recent closures. An important aspect of this service is to promote available education and training opportunities.

In the North West the Further Education sector has been particularly proactive and offers a full range of provision including training in new skills and assistance in the start-up of businesses. In addition, a joint application has been made by the Department for Employment and Learning and FAS, the training authority in the Republic of Ireland, for funding to the European Structural Fund's Interreg Programme, to address the reskilling of redundant workers.

Mr. Hume: To ask the Secretary of State for Northern Ireland how many new jobs were created in the Foyle constituency in the past 36 months; and how many of those new jobs are still in existence. [165397]

Mr. Gardiner: There were 2,624 job gains by Invest NI clients within Foyle Parliamentary Constituency Area over the three-year period to March 2003. However, there were also 3,991 job losses by clients during this period resulting in a net loss in employment of 1,367. In addition to this, 322 offers of assistance were made through the 'Start a Business' Programme and the estimate of job creation resulting from these is 531. It is not possible to state specifically which of the new jobs created remain in existence.

Information on the total number of jobs created is not available. Total employee jobs data at Parliamentary Constituency level are only available from the biennial Census of Employment and the most recent figures relate to September 2001. At September 2001, the Census of Employment showed that there were 39,063 employee jobs in Foyle Parliamentary Constituency Area. This represented an increase of 515 (1.3 per cent.) from the previous Census figure (September 1999).

Rolling Stock

Mr. Gregory Campbell: To ask the Secretary of State for Northern Ireland whether the new rolling stock being tested by Translink will be used on the whole rail network. [166001]

Mr. Spellar: The first of the 23 new trains is due to be delivered this month. After a period of commissioning and testing it is expected that the first train will be in passenger service by the late autumn of this year, with the remainder coming into service progressively through 2004 and 2005.

Translink is currently considering how the trains can best be deployed on the Northern Ireland railway network and will announce its decision when this is complete.

Royal Mail

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland for what reasons Royal Mail has been denied permission to erect a post box at Lansdowne Road, Newtownards. [165865]

Mr. Spellar: The Chief Executive of Roads Service (Dr. Malcolm McKibbin) has written to the hon. Lady in response to this question.

Letter from Dr. Malcolm McKibbin to Mrs. Iris Robinson, dated 6 April 2004:

You tabled a Parliamentary Question asking for what reasons Royal Mail has been denied permission to erect a post box at Lansdowne Road, Newtownards. As the issues fall within my responsibility as Chief Executive of Roads Service, I have been asked to reply.

I understand that Royal Mail submitted a written request on 7 January 2004 seeking permission to locate a post box at Lansdowne Road, Newtownards. The proposed location of the box was shown to be 5 metres from the junction of Lansdowne Road and Ten Acre (a side road leading to houses occupied mainly by elderly people).

Following discussions with the Traffic Police, our local Section Engineer replied to Royal Mail on 16 January 2004 indicating that the proposed location was not suitable due to concerns that vehicles stopping so close to the junction to post mail would have compromised traffic safety. However, it was suggested that if the box could be located a minimum of 15 metres from the junction, at the back of the footway, this would be acceptable. This distance ties in with the minimum length of waiting restriction commonly marked on the ground at road junctions to reinforce current law (i.e. it is an offence to park a vehicle within 15 metres of a junction regardless of whether the road is marked with double yellow lines).

It would appear that Royal Mail has somehow misinterpreted the content of our reply, which clearly indicates that Roads Service would grant approval for an alternative location close to that initially proposed. I have asked our Section Engineer to contact the Royal Mail to clarify the position so that the post-box can be provided as soon as possible.

School Bags

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland (1) how many complaints have been received in the last five years by the Department of Education from parents concerned at the excessive weights children carry in school bags; and if he will make a statement; [165782]

(2) what plans he has to introduce, as standard practice, personal lockers for children in schools in the Province in order to limit the amount of books carried in school bags; [165783]

(3) what guidelines he has issued on limits to the amount of weight a child should carry to and from school; and if he will make a statement; [165786]

(4) what assessment has been made of the medical risks associated with children carrying excessive weights in school bags. [165787]

Mr. Gardiner: One parent has complained to the Department of Education about the weight of schoolbags. The Department has not issued guidelines or carried out a medical assessment on this matter. There are no plans to introduce, as standard practice, the provision of personal lockers for school children. The Department's School Building Handbook provides for either cloakroom space or moveable lockers in schools. It is, however, a matter for school authorities to decide what provision should be made at a particular school. Also, parents have a responsibility to protect the health and welfare of their children by ensuring that only essential materials are carried in schoolbags. Similarly, pupils are also responsible for making decisions as to the books and learning materials they need to carry to and from school each day.

St. Mary's Primary School

Mr. McNamara: To ask the Secretary of State for Northern Ireland what steps he is taking to develop a strategy and action plan to phase out racially segregated primary education of Traveller children at St. Mary's Primary School, Belfast. [165855]

Mr. Gardiner: St. Mary's Primary School is not a designated "Traveller school" and there are no such schools in Northern Ireland. St. Mary's is a Catholic Maintained school which, as is the case with all grant-aided schools in Northern Ireland, is open to all children.

The Department of Education is required by law to have regard to the general principle that pupils shall be educated in accordance with the wishes of their parents. It is the case that many parents of Traveller children wish to have them educated in St. Mary's. While it is the Department's policy to encourage the integration in school of Traveller children with other children, there are no plans to phase out provision at St. Mary's for so long as there is a demand for places in the school from the parents of Traveller children.

Suicide

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland how many suicides there were in each of the last 20 years; and if he will make a statement. [164917]

Mr. Pearson: The following table gives the number of deaths registered in Northern Ireland per annum from 1984 to 2003 caused by "suicide and self-inflicted injury"[1] and the number of registered deaths due to "undetermined injury whether accidentally or purposefully inflicted"[2].

The Promoting Mental Health Strategy and Action Plan published last year includes a specific section on preventing suicide. Preventative action includes promoting coping skills in the general population, suicide awareness programmes and targeted work with vulnerable groups. In addition action is also being taken under the Drug and Alcohol Strategies to support and counsel those affected by addiction problems.

[1] International Classification of Diseases, Tenth Revision codes X60-X84, Y87.0 for years 2001–03 and Ninth Revision codes E950-E959 for years 1983–2000.

[2] International Classification of Diseases, Tenth Revision codes Y10-Y34, Y87.2 for years 2001–03 and Ninth Revision codes E980-E989 for years 1983–2000.

Table: Number of registered deaths by year in Northern Ireland resulting from by suicide and self-inflicted injury or undetermined injury whether accidentally or purposefully inflicted

Registration year	*Suicide and self-inflicted injury*	*Undetermined injury whether accidentally or purposefully inflicted*	*Total deaths*
1984	109	14	123
1985	117	40	157
1986	145	29	174
1987	86	36	122
1988	153	30	183
1989	116	18	134
1990	158	10	168
1991	129	19	148
1992	107	21	128
1993	129	22	151
1994	138	13	151
1995	122	24	146
1996	124	19	143
1997	120	18	138
1998	126	24	150
1999	121	33	154
2000	163	22	185
2001	141	17	158
2002	162	21	183
2003 (Provisional)	132	12	144

Sunbeds

Lady Hermon: To ask the Secretary of State for Northern Ireland what steps he has taken to ensure that sunbed users in Northern Ireland are made aware of the health risks arising from sunbed use; and if he will make a statement. [164660]

Mr. Gardiner: The Health and Safety Executive in Great Britain has published guidance for operators and customers of solaria. Included in that advice is that people under 16 years old should not use sunbeds and that a limit of 20 sessions per year should be observed. This advice was developed after consultation with leading experts, is equally applicable to the Northern Ireland situation and is referred to by Health and Safety Inspectors here as illustrating good practice. The guidance "Controlling Health Risks from the use of UV Tanning Equipment" can be accessed via HSENF's website.

In addition, UK Health Departments (including DHSSPSNI) are currently funding a SunSmart Campaign run by Cancer Research UK. Campaign leaflets and posters were sent to all GP surgeries, secondary schools and health promotion departments.

Tax Discs

Mr. Gregory Campbell: To ask the Secretary of State for Northern Ireland how many tax discs were issued for vehicles in Northern Ireland in each of the last 10 years. [165730]

Angela Smith: The information is as follows.

	Number
1993–94	833,142
1994–95	838,952
1995–96	864,706
1996–97	900,397
1997–98	993,066
1998–99	984,502
1999–2000	1,007,788
2000–01	950,598
2001–02	1,051,654
2002–03	1,045,538
2003–04	[1]1,176,000

[1] Provisional outturn

TK-ECC Plant

Mr. Trimble: To ask the Secretary of State for Northern Ireland what plans he has to bid to retain the vacant TK-ECC factory premises at Dundonald to encourage reinvestment into the area. [165910]

Mr. Gardiner: TK-ECC purchased the factory, freehold, from IDB in 1995 as part of a major disposal programme of fully developed estates. Invest NI has no plans to buy the factory back should it come onto the market.

The land is zoned as "existing employment/industry" and Invest NI will oppose any attempt to change that zoning and will seek to work with the private sector to obtain new tenants and encourage reinvestment in the area.

Travellers

Mr. McNamara: To ask the Secretary of State for Northern Ireland if he will take steps to ensure Travellers have equal access to training as education and youth workers. [165856]

Mr. Gardiner: Access to courses of training for education or youth workers is open to all students who meet the requirements for entry to the respective courses. The arrangements for remission of tuition fees apply equally to students from the Traveller community as they do to students from other low income families. Students in higher education who satisfy residency requirements and whose family incomes are less than £20,970 do not pay anything towards their tuition fees. Likewise, Traveller students have the same access to student loans as other students. Where family income is under £20,000, they are eligible to receive non-refundable bursaries of up to £2,000 thereby reducing the amount of student loan they need to borrow. Supplementary grants such as Disabled Students' Allowance and childcare grants are also available.

Windfarm (Tunes Plateau)

Mr. Gregory Campbell: To ask the Secretary of State for Northern Ireland what assessment he has made of

the responses to the application for the establishment of a windfarm at the Tunes Plateau off the coast of Northern Ireland. [165736]

Mr. Gardiner: Pending completion of various technical and feasibility studies the development consortium has not yet made an application for the establishment of a wind farm at the Tunes Plateau.

WORK AND PENSIONS

Council Tax Benefit

Brian Cotter: To ask the Secretary of State for Work and Pensions how many people are *(a)* eligible to receive and *(b)* receiving council tax benefit in (i) the constituency of Weston-super-Mare and (ii) the north Somerset unitary authority. [165681]

Mr. Pond: Information about the number of people who are eligible to receive Council Tax Benefit is not available below national level. At August 2003, there were 9,000 Council Tax Benefit recipients in north Somerset.

Notes:

1. The data refers to benefit units, which may be a single person, couple or family.

2. The figure is rounded to the nearest hundred and expressed in thousands.

3. Council Tax Benefit totals exclude any Second Adult Rebate cases.

4. Information about the number of people receiving Council Tax Benefit is not

available at constituency level.

Source: Housing Benefit and Council Tax Benefit Management Information System

Quarterly 100 per cent. caseload stock-count.

Mr. Peter Duncan: To ask the Secretary of State for Work and Pensions how many individuals in *(a)* Scotland and *(b)* Dumfries and Galloway are in receipt of council tax benefits. [165979]

Mr. Pond: The information is in the following table.

Council Tax Benefit recipients in Scotland and Dumfries and Galloway:

	Thousand
Scotland	523.9
Dumfries and Galloway	12.2

Notes:

1. The data refers to benefit units, which may be a single person, couple or family.

2. The figures are rounded to the nearest hundred and expressed in thousands.

3. Council Tax Benefit totals exclude any Second Adult Rebate cases.

Source:

Housing Benefit and Council Tax Benefit Management Information System Quarterly 100 per cent. caseload stock-count taken in August 2003.

Departmental Industrial Action

Adam Price: To ask the Secretary of State for Work and Pensions what the cost was of the two days' industrial action taken in February by staff in his Department; and what the cost was of moving priority work to other locations. [165825]

Mr. Pond: It is not possible to estimate the financial cost without incurring disproportionate costs. Any costs incurred for example in extra overtime payments to staff, would be offset by the savings made on staff salaries. The Department's businesses routinely move work around locations in order to optimise their services. Our information technology enables this to be done without incurring extra costs. There was no significant movement of work during the strike action. Our contingency arrangements allowed us to minimise the disruption to services to the most vulnerable members of society for whom the Department's services exist.

Departmental Policies (Sustainable Development)

Paul Holmes: To ask the Secretary of State for Work and Pensions what target is set by his Department for the *(a)* completion and *(b)* publication of Health and Safety Executive reports into leaks at the UK chemical plants; and if he will make a statement. [165666]

Jane Kennedy: DWP does not set targets for the completion and publication of HSE reports into incidents at chemical plants. The length of time for publication of reports is dependent on the nature and complexity of the incident and the action that was taken.

Employment (Birkenhead)

Mr. Frank Field: To ask the Secretary of State for Work and Pensions if he will make a statement on the levels of long-term *(a)* adult and *(b)* youth employment in Birkenhead over the last seven years. [166510]

Jane Kennedy: The UK has one of the strongest labour markets in the world. We have the highest employment and the lowest unemployment of the major industrialised countries. Employment is high across the UK: every region and country has an employment rate above the EU average. Claimant long term (one year plus) unemployment has been virtually eradicated for young people and has fallen by three-quarters for adults.

Specific information for Birkenhead is in the following table.

Birkenhead	*February 1997*	*February 2004*	*Change*
Total claimant unemployment	5,227	2,540	-51%
Unemployment as a proportion of the working age population	11.4%	5.6%	-5.8 points
Aged 18–24 unemployed for more than 1 year[1]	392	18	-95%
Aged 25 and over unemployed for more than 1 year	1,682	371	-78%

Free TV Licences

Mr. Peter Duncan: To ask the Secretary of State for Work and Pensions (1) how many people resident in Dumfries and Galloway are in receipt of a free television licence; [165980]

(2) how many residents of Dumfries and Galloway he estimates are over 75 years old. [165981]

Malcolm Wicks: The information is not available in the format requested.

The number of households with at least one resident aged 75 or over in the Dumfries and Galloway local authority is 9,665. These households would therefore be eligible to receive a free TV licence.

We cannot accurately estimate how many residents of Dumfries and Galloway are over 75 year old. However, since the number of people in Dumfries and Galloway local authority aged 75 or over who received a winter fuel payment for winter 2002- 2003 was 12,175, this is an indication of the number of such people.

Notes:

1. Numbers are rounded to the nearest 5.

2. Any residence found to have 4 or more occupants is not included in these figures as it is assumed to be Residential Care Nursing Home.

Source:

IAD Information Centre, Winter Fuel Payment data Winter 2002–2003, 100 per cent. sample.

National Minimum Wage

Mr. Frank Field: To ask the Secretary of State for Work and Pensions how many workers in Birkenhead have benefited from the national minimum wage. [166512]

Mr. Boateng: I have been asked to reply.

The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Len Cook to Mr. Frank Field, dated 19 April 2004:

As National Statistician, I have been asked to reply to your recent question about the number of workers in Birkenhead who have benefited from the national minimum wage (NMW). (166512)

The Office for National Statistics (ONS) calculates estimates of the number of jobs paid less than NMW rates for the United Kingdom and Government Office Regions. A guide to measuring low pay and associated articles and data can be found on the National Statistics website at: http://www.statistics.gov.uk/StatBase/Product.asp?vlnk = 5837&Pos = 1&ColRank = 1&Rank = 272

Estimates for Parliamentary Constituencies are not available.

New Performance and Development System

Adam Price: To ask the Secretary of State for Work and Pensions for what reasons the new performance and development system for his Department does not allow staff a grievance hearing and the right to be accompanied by a trades union representative when challenging a decision on their designated performance level; whether the system is comparable to that in other Government departments; and what best practice models were used as the basis for the system. [165847]

Mr. Pond: The Department has set out clear arrangements within the Performance and Development System guidance for allowing staff to raise issues about their appraisal and about their performance mark. This guidance also makes clear that individuals do have the right to be accompanied by a colleague, or Trade Union representative, where a member of staff raises a disagreement. PDS was developed using the best features from previous systems, in line with Cabinet Office recommendations and with the input of managers, staff and Trade Unions. It is similar to that used by some other Government Departments, including Treasury and Cabinet Office and by outside organisations. We were supported in the research by consultants specialising in appraisal systems.

Mr. Hopkins: To ask the Secretary of State for Work and Pensions what evidence has been gathered by his Department to show that the new Performance and Development System will improve staff *(a)* performance and *(b)* motivation. [165899]

Mr. Pond: The Performance and Development system was developed with input from staff, managers and Trade Unions, and in line with Cabinet Office recommendations. It was supported by independent consultants who researched and advised on best practice in both public and private sectors. The system provides a fair and objective assessment of performance against that of people at the same level doing similar work, a stronger focus on personal development, and more regular feedback, all of which is intended to improve motivation and performance.

This is only the end of the first year of the system, it is therefore too early to have tangible evidence of the results on motivation and performance. But experience in other organisations shows that the steps outlined above, coupled with planned work in the summer on continuous improvement, provide a sound basis for the future.

Mr. Hopkins: To ask the Secretary of State for Work and Pensions what the administrative and implementation costs are for the Performance and Development System for his Department, broken down by the costs of *(a)* compulsory interim reviews, *(b)* compulsory self reviews, *(c)* compulsory personal development plans, *(d)* preparation and *(e)* training of the new staff. [165900]

Mr. Pond: The Performance and Development System (PDS) replaced seven legacy systems. Most of the features of PDS are not new, and existed in previous legacy arrangements. These have not been costed previously, all good employers have appraisal arrangements in line with Investors in People standards. While there have been additional costs this year, as there would be in any organisation introducing a new policy these have not been excessive, around 2–3 hours for each member of staff. We expect this investment in performance management and training (mostly using e-learning) to result in improved performance.

Norwich Pension Centre

Norman Lamb: To ask the Secretary of State for Work and Pensions how many applications are waiting to be processed at the Norwich Pension Centre. [166381]

Malcolm Wicks: As at 2 April, there were 6,228 applications for Pension Credit waiting to be processed at Norwich Pension Centre, of which 3,142 were awaiting further information or evidence from the customer. This represents a normal head of work.

Norman Lamb: To ask the Secretary of State for Work and Pensions how many letters and e-mails from customers were awaiting a response at the Norwich Pension Centre on 1 April. [166382]

Malcolm Wicks: Norwich Pension Centre is the largest Centre in the country, having a Pension Credit case load alone of 184, 000.

The centre currently receives on average 11,490 written customer communications per week, consisting chiefly of notifications of changes of individual circumstances, but including customer complaints. While not all of these communications necessitate a reply to the customer, most will require an intervention to the computer records in order to assess any action that may be required.

Norwich Pension Centre currently has 22,082 of these notifications outstanding, which for this particular Pension Centre, represents a normal two weeks head of work.

Over-70s

Dr. Kumar: To ask the Secretary of State for Work and Pensions if he will estimate the total number of pensioner households with one or more householders over the age of 70 years, within the constituency of Middlesbrough, South and Cleveland, East, who will benefit from the Chancellor's recently announced council tax allowance. [165867]

Malcolm Wicks: The latest available data shows 7,870 households in the parliamentary constituency of Middlesbrough, South and Cleveland, East with at least one resident aged 70 or over. We expect the 2004–05 figures to be similar.

Notes:

1. Numbers are rounded to the nearest 5.

2. Any residence found to have 4 or more occupants is not included in these figures as it is assumed to be a Residential Care Nursing Home.

Source:

IAD Information Centre, winter fuel payments data winter 2002–03 100 per cent. sample.

Over-80s

Dr. Kumar: To ask the Secretary of State for Work and Pensions how many pensioner households with one or more householders over the age of 80 years, within the constituency of Middlesbrough, South and Cleveland, East, have received the £300 winter fuel allowance. [165866]

Malcolm Wicks: The information requested is not yet available. However 3,385 people aged 80 or over in the parliamentary constituency of Middlesbrough, South and Cleveland, East so far have received a winter fuel payment this winter 2003–04.

Notes:

1. Numbers are rounded to the nearest five.

2. Please note that these figures for 2003–04 refer only to the main payment run ie they do not include the late payment run figures. We estimate that there are approximately 100,000 people in Great Britain paid via late payment runs (0.8 per cent. of all payments). However, since late payment runs are mainly in respect of non-system cases whose claims had not been received by the Qualifying Week, they are heavily skewed towards men aged 60.

Source:

IAD Information Centre, 100 per cent. sample.

Pension Credit

Mr. David Willetts: To ask the Secretary of State for Work and Pensions what the cost is of the recent "Pick it Up, It's Yours" Pension Credit advertising campaign, broken down by *(a)* television, *(b)* radio, *(c)* newspaper, *(d)* poster and *(e)* other forms of advertising. [166475]

Malcolm Wicks: The total cost of publicity for the "Pick It Up, It's Yours" campaign was £15,580,000 for the 2003–2004 financial year. This included the following advertising media costs:

TV	3,570,864
National and regional press	6,086,146
Radio	123,168

The campaign also included other communications media. Commercial poster sites have not been used for this campaign. However, local publicity posters, e.g for display in community premises have been produced. The costs for these cannot be disaggregated.

Mr. Willetts: To ask the Secretary of State for Work and Pensions what the average cost was for a full page pension credit advertisement in each publication used during the "Pick it Up, It's Yours", advertising campaign. [166540]

Malcolm Wicks: The advertising media for the "Pick It Up, It's Yours" campaign was procured using the Government's publicity agency COI Communications. This achieves maximum value for money by exploiting economies of scale across Government departments to negotiate the most favourable rates.

The average cost for a full page advertisement is therefore commercially confidential and is not disclosed in line with Part 2, Paragraph 13 of the Code of Practice on access to Government information.

Mr. Willetts: To ask the Secretary of State for Work and Pensions which advertising agency was used for the recent "Pick It Up, It's Yours" pension credit advertising campaign; and how much they received in payment for their services. [166541]

Malcolm Wicks: The advertising agency used for this campaign is Delaney Lund Knox Warren (DLKW). They received an estimated £815,171.06 (ex VAT) for their services. This figure, however, is based upon aggregate spending across all advertising managed by COI Communications, the Government's publicity agency. It will not be finalised until an overall agency reconciliation is completed at the end of May 2004.

Mr. Willetts: To ask the Secretary of State for Work and Pensions pursuant to his answer of 19 January 2004, *Official Report*, column 1081W, on pension credit, how much of the estimated expenditure for 2004–05 represents back-dated entitlement for 2003–04; and what assumptions are made about the basis on which the savings credit threshold will be uprated in 2005. [166648]

Malcolm Wicks: It is estimated that in 2004–05, £190 million will be spent on backdated Pension Credit relating to 2003–04 entitlement.

For the purposes of expenditure planning it has been assumed the Savings Credit Threshold will be increased in line with the Retail Prices Index. The actual uprating of Pension Credit will be determined in the annual uprating order.

Pension Forecasts

Mr. Webb: To ask the Secretary of State for Work and Pensions how many automatic state pension forecasts his Department has issued to the self-employed since May 2003. [166236]

Malcolm Wicks: To date 864,901 automatic state pension forecasts have been issued to the self-employed since the exercise began in May 2003.

Pensions

Mr. Chidgey: To ask the Secretary of State for Work and Pensions if he will make a statement on his Department's policy on encouraging people already receiving benefit to apply for their retirement pension. [166477]

Malcolm Wicks: We write to people already receiving benefit around four months before they reach State Pension age to invite them to claim State Pension. However, the responsibility for claiming State Pension lies with the person concerned.

The benefit already in payment may be affected when the person reaches State Pension age. It may be replaced by State Pension once claimed, or be adjusted to take account of the State Pension.

If the claim for State Pension is not made in time then a claim can be made subsequently and entitlement backdated for up to three months.

Sure Start Maternity Grant

Mr. Frank Field: To ask the Secretary of State for Work and Pensions how many mothers in Birkenhead have made use of the Sure Start maternity grant. [166514]

Mr. Pond: The information is not available in the format requested. The available information is in the following table.

Sure Start Maternity Grants for Wirral Social Fund District/ Jobcentre Plus District

	Applications	*Awards*
2000–01	1,445	1,240
2001–02	1,704	1,388
2002–03	1,956	1,597
2003–04	1,945	1,568

Notes:
1. Data is not available by Parliamentary Constituency. Birkenhead Parliamentary Constituency is part of Wirral Jobcentre Plus District, which was previously Wirral Social Fund District.
2. Sure Start Maternity Grants were introduced on 27 March 2000. The very small number of cases for 1999–2000 has been excluded for data protection reasons.
3. Data is given for all applications and awards, irrespective of whether the application was made by the mother or her partner.
Source:
DWP Social Fund Policy, Budget and Management Information System.

Winter Fuel Allowance

Mr. Frank Field: To ask the Secretary of State for Work and Pensions how many senior citizens in Birkenhead have benefited from the winter fuel allowance since 1997. [166509]

Malcolm Wicks: The number of people who have benefited from a Winter Fuel Payment in the Birkenhead constituency is in the following table. Figures for 1997–98 and 1998–99 are not available.

	Payments made
1999–2000	12,610
2000–01	13,845
2001–02	13,960
2002–03	14,240
2003–04	14,375

Notes:
1. Figures are rounded to the nearest five.
2. Please note that these figures for 2003–04 refer only to the main payment run i.e. they do not include the late payment run figures. We estimate that there are approximately 100,000 people in Great Britain paid via late payment runs (0.8 per cent. of all payments). However, since late payment runs are mainly in respect of non-system cases whose claim had not been received by Qualifying Week, they are heavily skewed towards men aged 60.
3. Figures are not held for the first two years of the scheme as payments were only made to those on certain benefits. Figures have been kept since it was known the scheme would be extended to all those aged 60 or over.
Source:
IAD Information Centre, 100 per cent. sample.

CABINET OFFICE

Civil Servants

Mr. Letwin: To ask the Minister for the Cabinet Office how many established civil servants were appointed in March. [165505]

Mr. Alexander: Data on civil servants recruited during a specific month is not collected centrally.

Data on staffing levels in the Civil Service is collected from Departments and Agencies twice yearly, in april and October.

Public Service Employers Forum

Mr. Stephen O'Brien: To ask the Minister for the Cabinet Office what the *(a)* resource budget, *(b)* administration costs and *(c)* staff numbers were for 2003 of the Public Service Employers Forum. [165123]

Mr. Alexander: The Public Service Employers' Forum brings together around 15 senior employers from across the public sector to share good practice on pay and workforce reform in order to improve the delivery of public services. It meets quarterly and is supported by 0.3 Full time equivalent member of staff provided by the Office of Public Services Reform. Additional administration and resource costs in 2003 were minimal as meetings were generally held within the Cabinet Office and those attending did so on a voluntary basis.

EDUCATION AND SKILLS

Capital Modernisation Fund

Mr. Frank Field: To ask the Secretary of State for Education and Skills how much money was allocated to Birkenhead from the capital modernisation fund. [166324]

Alan Johnson: The Department for Education and Skills does not hold this information centrally. Capital Modernisation Fund is allocated by project and not by area.

School Closures

David Hamilton: To ask the Secretary of State for Education and Skills how many rural schools have closed in each year since 1997. [165588]

Alan Johnson: The Department does not have reliable data on the number of rural school closures in England for individual years before 1998. The number of rural small schools approved for closure from 1998, when the presumption against closure of rural schools was introduced in England, is as follows:

Year	*No.*
1998	5
1999	2
2000	2
2001	3
2002	5
2003	12
2004	6

In 2003 a new, wider, definition of rural was introduced with the result that the proportion of schools in England classified as rural has increased.

The Secretary of State's guidance makes clear that there should be a presumption against the closure of rural schools. This does not mean that no rural school should ever close, but the case for closure should be strong and the proposals clearly in the best interests of educational provision in the area.

School Computers

Mr. Frank Field: To ask the Secretary of State for Education and Skills how much public funding has been spent on computers for schools in Birkenhead in each of the last seven years. [166321]

Alan Johnson: My department does not collect information on school spend on computers at constituency level. However Birkenhead is in Wirral LEA and since 1998–99, schools in Wirral have benefited from the following funding through the Standards Fund grant for ICT (including match funding from the LEA):

Year	*Allocation to Wirral LEA*
1998–1999	671,532
1999–2000	468,826
2000–2001	1,077,224
2001–2002	1,529,393
2002–2003	2,117,961
2003–04	2,197,120

Mr. Ben Chapman: To ask the Secretary of State for Education and Skills how much public funding has been spent on computers for schools in Wirral, South in each of the last seven years. [166622]

Alan Johnson: My department does not collect information on school spend on computers at constituency level. However Wirral, South is in Wirral LEA and since 1998–99, schools in Wirral have benefited from the following funding through the Standards Fund grant for ICT (including match funding from the LEA):

Year	*Allocation to Wirral LEA*
1998–1999	671,532
1999–2000	468,826
2000–2001	1,077,224
2001–2002	1,529,393
2002–2003	2,117,961
2003–2004	2,197,120

Special Educational Needs

Mr. Hoban: To ask the Secretary of State for Education and Skills how many children in each local education authority had special educational needs in the latest year for which information is available, broken down by *(a)* statemented special educational needs and *(b)* non-statemented special educational needs. [165585]

Margaret Hodge: The data requested are shown in the following table.

All schools[1]: number of pupils with special educational needs—January 2003—by local education authority area

	Number of pupils with a statement of SEN	*Percentage pupils with a statement of SEN*	*Number of pupils with SEN without a statement*	*Percentage pupils with SEN without a statement*
England	250,545	3.0	1,169,780	14.0
North East	13,933	3.2	61,807	14.2
Darlington	527	3.1	2,248	13.2
Durham	3,103	3.8	12,593	15.5

TRANSPORT

Airport Capacity (South-East)

Mrs. Dunwoody: To ask the Secretary of State for Transport when he expects the first new runway to be available to serve the south-east of England. [166543]

Mr. Darling: "The Future Development of Air Transport" White Paper explains that the Government support the development as soon as possible (we expect around 2011–12) of a wide-spaced second runway at Stansted, as the first new runway in the south-east. It will be for airport operators to decide how to take forward plans for airport expansion in the light of the framework set out in the White Paper.

Mrs. Dunwoody: To ask the Secretary of State for Transport whether comprehensive simulation of the airspace management implications of possible runway development options for the south-east of England was undertaken prior to the publication of the Aviation White Paper on 16 December 2003; and what plans *(a)* National Air Traffic Services and *(b)* the Civil Aviation Authority have to undertake such a simulation. [166544]

Mr. Darling: Yes. CAA/DAP and NATS undertook as part of the SERAS Study preliminary high-level airspace modelling, simulating potential airport development packages. The broad conclusion reached from the modelling work was that for all scenarios considered the additional ATMs could be accommodated with changes envisaged to the structure and management of airspace within the London Terminal Control Area (LTMA).

Office of the Traffic Commissioner (Eastbourne)

Mr. Wyatt: To ask the Secretary of State for Transport how many cases have been investigated by the Office of the Traffic Commissioner in Eastbourne following anonymous tip-offs in *(a)* 2001, *(b)* 2002 and *(c)* 2003. [164478]

Mr. Jamieson: Investigations are carried out on behalf of the Traffic Commissioner in Eastbourne by the Vehicle and Operator Services Agency's (VOSA).

In 2003 VOSA received 22 anonymous tip-offs. All such information received is investigated by VOSA's Intelligence Officers and appropriate action taken. This may involve reference to the Office of the Traffic Commissioner for further action. VOSA does not hold information on the number of anonymous tip-offs for 2001 and 2002.

Crossrail

Mr. Damian Green: To ask the Secretary of State for Transport (1) when he expects to announce his decision on the Crossrail project; and if he will make a statement; [166455]

(2) when he will publish the Montague Report into the Crossrail project; and if he will make a statement. [166456]

Mr. McNulty: I refer the hon. Member to my answer of 18 March 2004, *Official Report*, column 404W, to the hon. Member for Romford (Mr. Rosindell).

Cycle Lanes

Mr. Ben Chapman: To ask the Secretary of State for Transport how many miles of new cycle lanes have been provided using public funds in Wirral, South since 1997. [166633]

Mr. McNulty: 8.34 miles of new cycle lanes have been constructed in Wirral, South since 1997.

Departmental Computers

Bob Spink: To ask the Secretary of State for Transport what plans he has to update computer *(a)* hardware and *(b)* software standard packages used in his Department. [166365]

Mr. McNulty: The Department reviews its software and hardware assets regularly to ensure they meet the organisation's business needs.

Office Automation and Desktop Software:

The Department is currently undertaking a project to upgrade our Microsoft Windows NT and Office 97 software to the XP versions. Licences to use the software have already been purchased under the Office of Government Commerce's (OGC's) Memorandum of Understanding (MOU) with Microsoft.

Electronic Document and Record Management (EDRM):

We are negotiating a site licence for the Oracle relational database software to support the DfT system. We intend to use the OGC MOU with Oracle for this purchase. This will licence the use of the standard Oracle software for all DfT users.

Other software:

The SAP Finance system, the Peoplesoft HR system and our Group Wise e-mail system are all covered by support agreements that include software upgrades and helpdesk support.

Hardware:

It is expected that the move to Windows XP will not require any fundamental change to PC hardware, which will continue to be replaced on an "as needs" basis, with desktop hardware replaced when it has reached the end of its useful life.

Driving Instructors

Mr. Heath: To ask the Secretary of State for Transport when he will lay before the House regulations requiring approved driving instructors to pass a hazard perception test. [166763]

Mr. Jamieson: As announced in the Adjournment debate on 14 January 2004, *Official Report*, columns 936–40, we plan to lay regulations before the House towards the end of the year to introduce the computer-based assessment for approved driving instructors.

East London Line

Jim Dowd: To ask the Secretary of State for Transport when he expects to give final approval for the construction of the East London Line extensions. [166483]

Mr. McNulty: I refer the hon. Member to the answer given to the hon. Member for Battersea (Mr. Linton) on 29 March 2004, *Official Report*, column 1159W.

Highways Budgets (Compensation Payments)

Mr. Lansley: To ask the Secretary of State for Transport how much local authorities with highway responsibilities paid in claims for personal injury or liability, as a proportion of their total highways budgets, in 2002–03. [165895]

Mr. McNulty: This information is not collated centrally from local authorities, although we are looking at whether and how we could do so in the future.

However, the Department for Transport carried out a survey last year. This found that at present local authorities do not collect information on compensation paid on a consistent basis. The best estimate from the survey was that between £50 million and £75 million was paid by local authorities in respect of compensation claims related to highway maintenance in 2002–03. This represents between 2 per cent. to 3 per cent. of the total capital and revenue funding of £2.53 billion made available for local highway maintenance in 2002–03 (not including PFI credits).

Light Rail Schemes

John Thurso: To ask the Secretary of State for Transport pursuant to his answer of 26 January 2004, *Official Report*, column 36W, on light rail schemes, if he will list the light rail schemes that he expects will be under construction by 2010, with their expected *(a)* cost, *(b)* construction start dates and *(c)* completion dates; and what the stages of (i) appraisal, (ii) assessment and (iii) procurement will be. [166005]

Mr. McNulty: Five schemes are currently under development. Of these two have received provisional approval from my Department. They are:

Midland Metro extension—Birmingham to Five Ways and Wednesbury to Brierley Hill (estimated total cost £227 million; expected construction start 2005 and expected completion 2008); and

Merseytram Line 1 (estimated total cost £225 million; expected construction start 2005 and expected completion 2007).

Three schemes have received approval but the estimated cost subsequently increased. The value for money of the schemes therefore needs to be reappraised. They are:

Manchester Metrolink Phase 3;

South Hampshire Rapid Transit System; and

Leeds Supertram.

Bids have also been received for Merseytram Line 2 and extensions to the Nottingham Express Transit. The Department is also in discussions with promoters about further extensions to the Midland Metro, Sheffield Supertram, Tyne and Wear Metro, Merseytram, Manchester Metrolink.

Currently the Department's approach to the assessment of appraisals of light rail schemes includes:

Promoters of major local transport schemes submit their bids for central funds as part of their Local Transport Plan (LTP).

The business case supporting the bid should be written in accordance with the Department's New Approach to Appraisal (NATA), details of which can be found on the Department's appraisal website: www.webtag.org.uk. NATA involves assessing the impact of the proposal against the Government's five objectives for transport: economy, safety, integration, accessibility, and the environment. The NATA approach includes the analysis of both monetised and non-monetised costs and benefits.

The Department's officials examine the case presented for funding, including the benefits, costs, risks, affordability and public acceptability. This usually requires a period of dialogue with the promoters in addition to the information submitted through the written business case.

The Department issues guidance to promoters of schemes to help them prepare a business case that meets the Department's requirements.

A pre-procurement business case is needed to secure Provision View for funding, which is dependent on the necessary statutory powers being obtained, and the scheme design or costs not changing substantially as a result of further work to obtain powers and the procurement process.

Once statutory powers have been obtained and tender received from bidders an updated business case is needed if details of the scheme have changed to secure Full Approval for scheme funding.

The Department leaves the choice of procurement method to the promoter of a scheme, although on larger schemes it will usually consult with the promoter on the approach being taken from an early stage. Promoters may present a case for PFI or capital funding via the same business case process. Capital funding for public transport schemes is usually split between section 56 grant and borrowing approvals.

Maidenhead/Twyford Stations

Mrs. May: To ask the Secretary of State for Transport how many passengers use *(a)* Maidenhead and *(b)* Twyford stations at (i) morning peak, (ii) evening peak and (iii) off-peak hours. [165858]

Mr. Darling: The latest data collected for the 2001 London Area Transport Survey are as follows:

Number of passengers boarding trains at each station

	Maidenhead	*Twyford*
Morning peak (06:00–10:00)	2,171	1,017
Evening peak (17:00–20:00)	1,034	172
Off-peak	2,172	353
Total	5,377	1,542

National Air Traffic Services

Mrs. Dunwoody: To ask the Secretary of State for Transport (1) if he will make a statement on the reasons for the resignation of the Chief Executive of National Air Traffic Services; and how much time was left to run on the former Chief Executive's contract of employment; [166527]

(2) what payments have been made to the former Chief Executive of National Air Traffic Services on his early departure; [166528]

(3) if he will make a statement on the relevant experience of the new Chief Executive of National Air Traffic Services, with particular reference to *(a)* the air transport industry and *(b)* air traffic control services. [166529]

Mr. Darling: The current contract of the Chief Executive of National Air Traffic Services Ltd ends in June. He will leave the company then and be replaced by

Paul Barron. Decisions on necessary skills, qualifications and disbursements are matters for the NATS Board.

Navigational Aids

John Thurso: To ask the Secretary of State for Transport how much was contributed by the General Lighthouse Fund to navigational aids in the territorial waters of the Republic of Ireland in each of the last 10 years; and what the future estimate is of contributions over the next three years. [166056]

Mr. Jamieson: The contribution from the General Lighthouse Fund to the provision of navigational aids in the Republic of Ireland is as follows:

	GBP £ million
1994–05	4.8
1995–06	4.7
1996–07	4.3
1997–08	4.0
1998–09	4.3
1999–2000	4.9
2000–01	4.4
2001–02	5.5
2002–03	5.8
2003–04	5.9
Average	4.8

The contribution is expected to be in the region of £6 million to £7 million per annum over the next three years dependent on exchange rates and decisions on capital investment.

John Thurso: To ask the Secretary of State for Transport what progress has been made with negotiations with the Irish Government on the cessation of payments from the UK General Lighthouse Fund for the provision of navigational aids in Irish territorial waters. [166057]

Mr. Jamieson: We accept that the Republic of Ireland should meet the full costs of provision of their aids to navigation. We remain committed to renegotiating the current agreement to achieve this and are arranging to meet the Irish Government in May to take the matter forward.

Road Safety

Mr. Spring: To ask the Secretary of State for Transport if he will allow safety camera partnerships in Suffolk to release funding raised from speed cameras for local road safety projects that do not involve speed camera installations; and if he will make a statement. [165583]

Mr. Jamieson: I have no plans to change the current policy that receipts from conditional offer fixed penalty speeding fines may be used only for the installation and operation of approved safety cameras. Other investment in road safety measures is funded within local authorities' and national road programmes.

Mr. Spring: To ask the Secretary of State for Transport how many *(a)* deaths and *(b)* serious injuries there were in road traffic accidents in Suffolk in each year since 1997. [165584]

Mr. Jamieson: The following table shows numbers of deaths and serious injuries in road accidents in Suffolk in each year from 1997 to 2002. Figures for 2003 are not yet available.

	Killed	*Seriously injured*
2002	43	360
2001	53	415
2000	56	468
1999	48	432
1998	23	364
1997	43	440

Mr. Spring: To ask the Secretary of State for Transport pursuant to his answer of 18 March 2004, *Official Report*, column 408W, what percentage of the money raised from speed cameras within Suffolk since April 2003 were *(a)* used for the installation and operation of approved safety camera installations and *(b)* passed to the Consolidated Fund. [165689]

Mr. Jamieson: Safety camera partnership accounts are audited annually. This information will be available when the audited accounts for the Suffolk partnership are completed later this year.

Mrs. May: To ask the Secretary of State for Transport how many accidents have occurred on the A4 between Maidenhead and Reading in each year since 1995; how many resulted in *(a)* personal injuries and *(b)* death; how many involved drunk driving; how many resulted in prosecution and how many of the casualties were pedestrians. [165859]

Mr. Darling: The following table shows the number of accidents on the A4 between Maidenhead and Reading which resulted in either personal injury or death; the number of accidents where at least one driver was found to be over the drink drive limit on taking a roadside breath test; and the number of pedestrian casualties in accidents on this stretch of the A4, in each year from 1995 to 2002.

We cannot identify how many of the drivers over the drink drive limit were prosecuted as the Home Office does not provide prosecution data for individual roads.

	All accidents		*Drink/drive accidents*		
	Fatal	*Involving personal injury but not death*	*Fatal*	*Involving personal injury but not death*	*Pedestrian casualties*
1995	0	33	0	3	1
1996	0	25	0	2	0
1997	1	18	0	1	1
1998	0	27	0	0	0
1999	0	22	0	0	2
2000	0	27	0	0	1
2001	1	13	0	0	1
2002	1	15	0	0	0
All	3	180	0	6	6

Mr. Redwood: To ask the Secretary of State for Transport how many injuries have been experienced by pedestrians as a result of accidents with cyclists in the last three years. [165961]

Dr. Howells: The following table shows the number of pedestrian casualties who were struck by cyclists in road accidents for the last three years for which figures are available. These figures are published each year in Table 23 of "Road Casualties Great Britain: the Annual Report".

Number of pedestrian casualties who were hit by pedal cycles: 2000–02

	2000	*2001*	*2002*
Killed	3	0	4
Seriously injured	66	60	47
Slight	225	198	158
Total	294	258	209

Mr. Redwood: To ask the Secretary of State for Transport how many *(a)* deaths and *(b)* serious injuries of pedestrians have been caused by accidents with buses in the last three years. [165962]

Dr. Howells: The following table shows the number of pedestrians who were killed or seriously injured when struck by a bus or a coach in a road accident in each of the last three years for which figures are available. These figures are published each year in Table 23 of "Road Casualties Great Britain: the Annual Report".

Pedestrian casualties by severity in accidents with buses: 2000–02

	2000	*2001*	*2002*
Killed	60	79	55
Seriously Injured	356	351	384

Lembit Öpik: To ask the Secretary of State for Transport pursuant to his answer of 18 March 2004, *Official Report*, column 408W, on safety camera partnerships, if he will amend the rules of the safety camera partnerships so that funding can be released to fund local road safety projects, including Bikesafe; and if he will make a statement. [166034]

Mr. Jamieson: Investment in road safety projects is funded within local authorities' and national road programmes. I have no plans to amend rules for the safety camera cost recover scheme in order to broaden the scope of what can be funded from the fine receipts.

John Thurso: To ask the Secretary of State for Transport pursuant to his answer of 22 January 2004, *Official Report*, column 1377W, on the road network, what the *(a)* date and *(b)* location of the most recent Government funded trial of anti-glare devices undertaken in the UK was. [166102]

Mr. Jamieson: The most recent Government funded trial of anti-glare devices in the UK on trunk roads and motorways was undertaken

(a) between 1 February 1974 and 31 January 1977

(b) on the M6 between junctions 1 and 4.

Miss McIntosh: To ask the Secretary of State for Transport how many sites there are on the UK motorway and trunk road network of chevron markings, designed to ensure motorists keep their distance from the car in front; and what their locations are. [166317]

Mr. Jamieson: There are chevron markings at six sites, namely:

M5 J22–21 Northbound carriageway between Somerset/North Somerset border south of Weston super Mare.

M62 Westbound between J23–22.

M6 J18–19 Northbound and Southbound carriageways.

M56 J12–14 Northbound and Southbound carriageways.

M6 J32–33 Southbound carriageway only.

M1 J16–17 Southbound carriageway only.

Miss McIntosh: To ask the Secretary of State for Transport what research his Department has commissioned into the effectiveness of chevrons designed to encourage motorists to keep their distance from one another. [166318]

Mr. Jamieson: The Department of Transport commissioned TRL in the early 1990s to undertake two trials to investigate the effectiveness of using 'Chevron' guidance markings on the road surface to encourage motorists to maintain a safe distance from one another. The research showed that they were effective in reducing vehicles following too closely. The chevron markings and their associated signs are prescribed in the Traffic Signs Regulations and General Directions 2002.

Network Rail

Miss McIntosh: To ask the Secretary of State for Transport if he will make a statement on his future plans for Network Rail. [R] [166532]

Mr. McNulty: I refer the hon. Member to the Statement made by my right hon. Friend the Secretary of State on 19 January 2004. He will publish his proposals in the summer.

Speed Cameras

Simon Hughes: To ask the Secretary of State for Transport how much revenue has been raised in fines imposed as a result of speed cameras in *(a)* Greater London and *(b)* each London borough since 1997. [162332]

Mr. Jamieson: Information is not available on the amount of fines paid following speed offences detected by camera, the following table shows the number of fixed penalties and court fines ordered to be paid for the offence of 'speeding detected by camera' in the calendar years 1997 to 2001, for the Metropolitan and City of London police forces combined. It is not possible from the data collected centrally to identify each London borough. Not all fines and fixed penalties will have been paid.

Fixed penalty and court proceedings data for speeding offences detected bycameras[1, 2] within Greater London[3], 1997–2001

	Fixed Penalties		Court Proceedings[4]		
	Number of tickets[5]	Estimated fines[6] (£)	Number of fines	Total amount of fine (£)	Average fine[5]
1997	15,300	612,900	2,500	259,600	102
1998	14,200	566,200	2,900	356,800	125
1999	13,000	521,900	2,600	288,400	111
2000	44,100	1,910,700	2,200	256,700	115
2001	52,100	3,128,600	4,500	513,700	114

[1] Automatic cameras until 1998, all camera types from 1999.
[2] Offences under the Road Traffic Regulation Act 1984 and The Motor Vehicles (Speed Limits on Motorways) Regulations 1973.
[3] The Metropolitan and City of London police combined.
[4] Includes cases where fixed penalty notices were originally issued but not paid and subsequently referred to court.
[5] Paid i.e. no further action.
[6] Estimate based on £40 fixed penalty charge to October 2000. From November 2000 the penalty was raised to £60.

Home Office information for 2002 will be available in late spring 2004.

Station Improvements

John Thurso: To ask the Secretary of State for Transport pursuant to his answer of 26 January 2004, *Official Report*, column 41W, on station improvements, what plans the Government have for delivering improvements to the stations not addressed by the Modern Facilities at Stations scheme and which were identified as being in need of improvement in the Strategic Rail Authority's original target to improve 1,000 stations by 2004. [166006]

Mr. McNulty: Any extension of the Modern Facilities at Stations Scheme (MFAS) beyond the 68 stations referred to in my previous answer is a matter for the SRA, which would consider such an extension along with their other priorities.

Transport Services (Birkenhead)

Mr. Frank Field: To ask the Secretary of State for Transport what the percentage change in *(a)* deaths and *(b)* serious injuries on the roads of Birkenhead has been since 1997. [166496]

Dr. Howells: The available information relates to local authority areas. For Wirral metropolitan district, which includes the constituency of Birkenhead, the number of deaths in road accidents rose by 20 per cent. from 10 in 1997 to 12 in 2002, the latest year for which information is available; and the number of serious injuries fell by 3 per cent., from 178 in 1997 to 173 in 2002. Estimates on the basis of parliamentary constituencies will become available in the summer. I shall write to my right hon. Friend with figures for Birkenhead and place a copy of the letter in the Libraries of the House.

Mr. Frank Field: To ask the Secretary of State for Transport how many rural bus services in Birkenhead are supported by rural bus grants. [166498]

Dr. Howells: Rural Bus Subsidy Grant (RBSG) is paid to local transport authorities, in the case of Birkenhead this is the Merseyside Passenger Transport Executive (PTE). It is for the authority to decide which services should be supported with the grant. We understand from the PTE that no rural bus services in Birkenhead are provided by RBSG.

Mr. Frank Field: To ask the Secretary of State for Transport if he will make a statement on the effect of investment in railway improvements over the next 10 years upon residents of Birkenhead. [166500]

Dr. Howells: Merseytravel Passenger Transport Executive (PTE) is responsible for improving services and facilities for passengers on the Merseyrail network. Network Rail is responsible for maintaining and renewing the infrastructure.

The PTE has plans for a number of improvements over the next 10 years. These include refurbishment of Hamilton Square station and enhancement of bus/rail interchange facilities; major rebuild of Bidston, making the station fully accessible and developing a strategic park and ride site served by the station; electrification of the line between Bidston and Woodchurch including upgrade of Upton Station and introduction of associated park and ride facilities; and investigation into making Birkenhead North, Birkenhead Park, Rock Ferry and Green Lane stations fully compliant with the Disability Discrimination Act 1995.

A new waiting room and Customer Information Services at Birkenhead Central, together with new Customer Information Services at Green Lane, are being provided through the Strategic Rail Authority's Modern Facilities at Stations Programme. In addition, Merseyrail rolling stock will be fully refurbished by the end of 2004. The refurbishment includes the provision of CCTV, dedicated wheelchair spaces and cycle racks.

Working Time Directive

Mr. Peter Duncan: To ask the Secretary of State for Transport how many responses he has received to his consultation on the implementation of the Working Time Directive for mobile workers in the transport sector. [165972]

Mr. Jamieson: The Department has received 105 responses to the consultation exercise, from both sides of industry and other interested stakeholders.

TRADE AND INDUSTRY

British Coal Corporation

Mr. Foulkes: To ask the Secretary of State for Trade and Industry whether, following the dissolution of the British Coal Corporation on 26 March, all the corporation's liabilities will be fully met by her Department. [164949]

Mr. Timms: I can confirm that upon the dissolution of the British Coal Corporation on 27 March all its remaining liabilities were transferred to the Department of Industry, which will now have direct responsibility for their timely discharge.

Broadband

Llew Smith: To ask the Secretary of State for Trade and Industry what assessment has been made of the implications for energy demand of the rolling out of the broadband communications programme. [166227]

Mr. Timms: Under the Market Transformation Programme (MTP), which is managed by the Department for Environment, Food and Rural Affairs (Defra), the Government has issued a Briefing Note to provide a basic analysis and projections for the energy consumption of Broadband technologies in the UK market.

The Briefing Note (BNBROAD1: Energy requirement implications of broadband communication technology 2003–2010) is published on the MPT website: http://www:mtprog.com/approvedbriefingnotes/EnergyRequirementImplicationsofBroadbandCommunicationTechnology20032010.aspx?kintUniqueID=254.

Departmental Computers

Bob Spink: To ask the Secretary of State for Trade and Industry what plans she has to update computer *(a)* hardware and *(b)* software standard packages used in her Department. [166371]

Ms Hewitt: Updating the computer hardware and standard software packages in my Department is the responsibility of our ICT Service Provider. My Department has outsourced the provision of ICT services under a PFI contract. This provides for the updating of computer hardware to an agreed schedule, and the updating of standard computer software packages to keep them to a level that is supported by software suppliers.

Energy Supplies

Mr. Streeter: To ask the Secretary of State for Trade and Industry what recent assessment she has made of *(a)* gas and *(b)* oil reserves in the North Sea. [165079]

Mr. Timms *[holding answer 1 April 2004]:* The Department carries out an annual exercise to assess the likely levels of remaining North Sea oil and gas reserves. The results of this exercise are published on DTI's Oil and Gas website at www.og.dti.gov.uk.

The latest estimates are as at the end of 2002 and total remaining reserves (including the undiscovered) are estimated to lie in the range of some 934—2984 billion cubic metres of gas and 951—3606 million tonnes of oil.

Updated estimates, of remaining reserves as at end 2003, are due to be published on the website this summer.

Export Assistance

Mr. Hoyle: To ask the Secretary of State for Trade and Industry how her Department assists North West businesses to export. [154338]

Mr. Mike O'Brien: Government assistance is provided by UK Trade & Investment, a joint DTI and FCO organisation with its own Chief Executive. I have Ministerial responsibility, reporting to the Secretaries of State for both Departments.

UK Trade & Investment delivers through Business Links in the English Regions. Companies which would benefit from export support can access a full range of services from market research to grants to exhibit at trade fairs and exhibitions overseas via their local Business Link International Trade Team. In doing so they gain access to UK Trade & Investment's Global Network of over 200 offices in 137 countries.

A key programme, "Passport to Export", aimed at new to export companies, has proved particularly successful. It provides a framework that guides businesses through a structured series of activities including a diagnostic or business healthcheck, bespoke export training, initial market research and a first market visit. Currently around 500 North West companies are on this programme.

Manufacturing

David Davis: To ask the Secretary of State for Trade and Industry how many people were employed in the manufacturing sector in the East Riding of Yorkshire in each year since 1999. [165048]

Jacqui Smith: Latest published data for employment in the manufacturing sector in the East Riding of Yorkshire for years since 1999 is as follows:

Year	*Manufacturing Employment*
1999	21,181
2000	20,536
2001	18,314
2002	17,717

Source:
Annual Business Inquiry

Data for 2003 will be published in December 2004.

National Minimum Wage

Mr. Frank Field: To ask the Secretary of State for Trade and Industry how many workers in Birkenhead have benefited from the national minimum wage. [166494]

Mr. Sutcliffe: It is not possible to provide estimates specifically for Birkenhead. However, based on the Office for National Statistics' Low Pay data released in 2003, the DTI estimates that around 140,000 people in the North West stood to benefit from the introduction of the national minimum wage in April 1999.

The DTI estimates that between 210,000 and 240,000 people in the North West stand to benefit from the October 2004 uprating of the National Minimum Wage.

Nuclear Decommissioning

Malcolm Bruce: To ask the Secretary of State for Trade and Industry what assessment she has made of the effect of the cost of nuclear decommissioning over the next 10 years on the price of energy to consumers. [165501]

Mr. Timms: I refer the hon. Member to the answer I gave on 5 March 2004, *Official Report*, column 1180W.

Nuclear Materials (Security)

Llew Smith: To ask the Secretary of State for Trade and Industry what recent discussions she has had with the Office of Civil Nuclear Security in respect of the adequacy of security arrangements *(a)* at nuclear installations and *(b)* for nuclear materials in transit. [166037]

Mr. Timms: My officials are in frequent contact with the Office for Civil Nuclear Security about security arrangements at civil nuclear sites and in respect of nuclear materials in transit.

It is not Government policy to disclose the substance of those discussions since such information may be of potential use to terrorists. However, the Director of Civil Nuclear Security publishes an annual report on the state of security in the civil nuclear industry and the effectiveness of security regulation, and meets me to discuss this. His next report is due this summer.

Nuclear Weapons

Mr. Lazarowicz: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment he has made of the role of the International Atomic Energy Agency in the verification of the nuclear safeguard arrangements required under the Non-Proliferation Treaty. [165803]

Nigel Griffiths: The DTI provides the UK Governor to the International Atomic Energy Agency (IAEA) and through membership of the IAEA Board of Governors the UK takes a full part in considering the implementation and development of IAEA safeguards. Since weaknesses in the then existing system of safeguards were exposed in the early 1990s, I am advised the IAEA has developed new and powerful safeguards measures, in particular to strengthen its ability to detect undeclared nuclear activities in non-nuclear weapon states. Such measures include those specified in the Model Additional Protocol to safeguards agreements, approved by the Board of Governors in May 1997. The UK has fully supported the work of the IAEA in this regard and our assessment continues to be that its safeguards verification activities are the cornerstone of the global nuclear non-proliferation regime and that a Comprehensive Safeguards Agreement in combination with an additional protocol thereto, should be considered the new verification standard for non-nuclear weapon states under the Non-Proliferation Treaty.

Tribunals

Bob Spink: To ask the Secretary of State for Trade and Industry (1) if she will issue guidance to tribunals on the test of reasonableness in relation to the award of costs between parties; [165695]

(2) what plans she has to review the guidance she gives to tribunals on costs where an employee wins the case but is left with costs higher than the compensation awarded; and if she will make a statement. [165696]

Mr. Sutcliffe: Costs are not awarded at employment tribunals, except in cases where a party or a party's representative has, in conducting the proceedings, acted vexatiously, abusively, disruptively or otherwise unreasonably, or where the bringing or conducting of the case has been misconceived. The awarding of costs is a matter for the employment tribunals themselves, acting in their capacity as independent judicial bodies and in accordance with their regulations and rules of procedure. It is not for my right hon. Friend the Secretary of State to issue guidance on the level of costs that should be awarded in specific cases.

ENVIRONMENT, FOOD AND RURAL AFFAIRS

Derelict Land

Norman Baker: To ask the Secretary of State for Environment, Food and Rural Affairs if she will estimate the number of sites designated as derelict land, broken down by region; and what the area of each such site is. [165738]

Keith Hill: I have been asked to reply.

The table shows the number of derelict land sites reported by local authorities to the 2002 National Land Use Database of Previously Developed Land. It also shows estimated areas of derelict land, after making an allowance for incomplete returns. Because of this allowance average site sizes cannot be calculated by dividing the estimated areas by the numbers of sites reported.

Derelict land and buildings: numbers of sites and area, England 2002

Region	*Number of Sites reported*	*Estimated total area (hectares)*
North East	560	1,630
North West	1,970	5,610
Yorkshire & the Humber	900	3,270
East Midlands	770	2,470
West Midlands	870	1,710
East of England	630	1,740
London	490	460
South East	610	1,430
South West	680	1,630
England	7,470	19,960

HOME DEPARTMENT

Animal Welfare

John Barrett: To ask the Secretary of State for the Home Department what plans he has to introduce a ban on animal testing in connection with *(a)* household cleaning products and *(b)* ingredients used in household cleaning products; and if he will make a statement. [165437]

Caroline Flint: The Government currently have no plans to introduce a ban on the use of animals in assessing the safety of household cleaning products and their ingredients.

National and international regularly bodies require that the chemical ingredients used in a range of household products should be tested to assess the risk they might pose to man (both the workforce and consumers) and the environment. Under the Animals (Scientific Procedures) Act 1986 such testing using animals can only be licensed when the information to be obtained is considered essential to the required risk

assessment, and when it cannot be obtained by non-animal methods. Unfortunately there are in some cases still no reliable alternatives to this kind of animal testing if the necessary safety data is to be generated.

Credit Card Fraud

Mr. Sheerman: To ask the Secretary of State for the Home Department (1) how much he estimates businesses have lost through credit card fraud committed *(a)* in general transactions, *(b)* over the internet and *(c)* over the telephone in each year since 1990; [164842]

(2) what police help is offered to businesses who are victims of fraud of less than £500,000; and whether the police are obliged to take action in the case of fraud involving less than £500,000; [164843]

(3) what action his Department is taking to combat and prevent credit card fraud committed over the internet; [164844]

(4) if he will introduce a national initiative on internet and credit card fraud to increase awareness amongst the police and the general public about combating fraud; [164845]

(5) what support his Department is offering to businesses who are repeatedly targeted by fraudulent use of credit cards over the internet. [164846]

Ms Blears: The Government do not collect figures on the cost of credit card fraud. The Association for Payment Clearing Services (APACS) has estimated the total cost of losses due to credit card fraud (as reported by card issuers) over the last 10 years as:

	£ million
1994	96.8
1995	83.3
1996	97.1
1997	122.0
1998	135.0
1999	188.4
2000	317
2001	411.5
2002	424.6
2003	402.4

(Specific figures for costs to businesses are not available)

The decision on whether and how to investigate alleged criminal offences is an operational matter for the relevant chief officer of police. The decision will take account of national and local policing priorities as well as the resources available.

We have recently boosted the resources available to police to tackle fraud. In the recent Green Paper on "Policing, Building Safer Communities Together", we signalled our intention that some forces should develop expertise in certain specialist types of investigation and play a lead role in those areas. The City of London Police will become the first such lead force tackling fraud. The Home Office and the Corporation of London have each agreed to contribute £1 million per year towards the cost of an expanded City of London Police fraud squad. The Home Office will also meet capital start-up costs of the new unit.

This arrangement will allow the City of London Police to significantly expand its fraud squad enabling it to take a lead role in the investigation of fraud in London and the south east. We will need to assess the additional achievements that result from providing these new arrangements before considering any further additional funding.

In October 2003 the National Hi-Tech Crime Unit (NHTCU), APACS (the Association for Payment Clearing Services) and the BBA (British Bankers' Association) issued a checklist for UK consumers to help protect themselves against the Internet fraudster. The Home Office has also recently launched a website to combat internet fraud. The 'e-tailing mini site' forms part of the Crime Reduction website and provides information to help both businesses and consumers protect themselves when using the internet.

The Home Office is also represented on an APACS led Steering Group which aims to tackle 'Card Not Present' (CNP) fraud. This includes fraud over the internet. We support practical measures being introduced by the industry to increase levels of security for internet transactions. These include Address Verification Services (AVS), Card Security Code (CSC), Mastercard Secure Code and Verified by Visa. There is also a manual ("Spot & Stop Card Fraud Retailer Pack") resulting from the CNP Steering Group's Work which aims to educate merchants on the dangers of CNP fraud and the steps which can be taken to prevent it.

We are about to publish, jointly with APACS, a leaflet for members of the public to raise awareness about safe credit card use. The leaflet will include a section on using cards safely over the internet. Supplies of the leaflet are being sent to all police forces in England and Wales.

The Home Office does not operate any specific support schemes for repeat victims of credit card fraud, however the schemes outlined above to tackle CNP fraud are already making a significant impact in preventing this type of fraud.

Crime (Humberside)

David Davis: To ask the Secretary of State for the Home Department if he will make a statement on crime trends within the Humberside police authority area. [165037]

Ms Blears: There were 132,734 offences recorded in the Humberside police force area in 2002–03 which was an increase over the previous year. However, figures were affected by the introduction of the National Crime Recording Standard (NCRS) which Humberside adopted in April 2002. For total crime in this force, the Home Office estimated the NCRS had a 9 per cent. impact for 2002–03.

NCRS was introduced across England and Wales in April 2002. Broadly, the NCRS had the effect of increasing the number of crimes recorded by the police. Therefore, following the introduction of the Standard, numbers of recorded crimes are not directly comparable with previous years.

The table gives a quarterly breakdown of the most recently published statistics. It is an extract from the new Home Office website: www.crimestatistics.org.uk

Recorded offences in the Humberside police force area 2002–03

Month	*Total number of offences*	*Offences per 1,000 population*
April to June 2002	31,284	36.0
July to September 2002	29,854	34.4
October to December 2002	33,567	38.6
January to March 2003	38,029	43.8

David Davis: To ask the Secretary of State for the Home Department how many burglaries per 1,000 households there have been in the Humberside police authority area in each year since 1999; and what the detection rate for burglaries in homes was. [165046]

Ms Blears: The available information is given in the table.

Burglary in a dwelling in the Humberside police force area

	Number of burglaries in a dwelling per 1,000 households	*Detection rate for burglary in a dwelling (percentage)*
1999–2000	n/a	10
2000–01	n/a	11
2001–02	32	10
2002–03[1]	33	11

n/a = Not available.

Forensic Science Service

Mr. Pound: To ask the Secretary of State for the Home Department what assessment he has made of the savings that would result from the privatisation of the Forensic Science Service in England and Wales in *(a)* 2004–05, *(b)* 2005–06 and *(c)* 2006–07. [165521]

Ms Blears: It is not intended to privatise the Forensic Science Service, but to develop it as a public private partnership (PPP).

Work is under way to prepare an outline business case that will include a financial analysis of the impact of the proposed change in status.

Mr. Pound: To ask the Secretary of State for the Home Department what discussions he has had with the Forensic Science Service in respect of the applications by *(a)* Turkey and *(b)* Croatia to join the European Network of Forensic Science Services. [165522]

Ms Blears: Turkey and Croatia are already members of the European Network of Forensic Science Institutes. No discussions have taken place between the Secretary of State for the Home Department and the Forensic Science Service regarding the applications by Turkey and Croatia to join the European Network of Forensic Scientists

Mr. Pound: To ask the Secretary of State for the Home Department what discussions he has had with the European Network of Forensic Science services in connection with the possible privatisation of forensic science services in England and Wales. [165523]

Ms Blears: It is not intended to privatise the Forensic Science Service (FSS), but to develop it as a public private partnership (PPP).

Informational discussions between Home Office officials and the chair designate and secretariat of the European Network of Forensic Sciences Institutes (ENFSI) about the future status of the FSS took place in November 2003.

Gurkhas

Miss Widdecombe: To ask the Secretary of State for the Home Department further to the answer of 15 January 2004, *Official Report*, columns 886–7W, on Gurkhas, what progress has been made on the review of immigration laws as applied to Gurkhas. [164339]

Mr. Browne *[holding answer 29 March 2004]*: Officials in the Home Office, Ministry of Defence and Foreign and Commonwealth Office have continued their work to find a satisfactory and sustainable way forward. A further meeting took place on 30 March and officials will report to Ministers shortly.

Lancashire Police Authority

Mr. Hoyle: To ask the Secretary of State for the Home Department by how much in *(a)* percentage and *(b)* cash terms Lancashire police grant has increased in each year since 1997; and if he will make a statement on the financial position of Lancashire Police Authority. [156129]

Ms Blears: The information is set out in the table.

	General Government grants[1] (£ million)	*Annual percentage change in general Government grants*	*Specific grants and capital provision[2] (£ million)*	*Total (£ million)*	*Annual percentage change in all Government grants*
1997–98	146.9	—	2.2	149.1	—
1998–99	153.6	4.6	2.4	156.0	4.6
1999–2000	155.9	1.5	2.2	158.1	1.3
2000–01	162.2	4.0	6.6	168.8	6.8
2001–02	168.1	3.6	18.2	186.3	10.4
2001–02[3]	164.0	—	18.2	182.2	—
2002–03	168.7	2.9	15.1	183.8	09
2003–04	177.1	4.9	15.4	192.5	47
2004–05	182.9	3.3	15.8	198.7	32

[1] General Government grants comprise Home Office Police grant, ODPM Revenue Support Grant and National Non-Domestic Rates.

[2] Includes funding from the Crime Fighting Fund, Rural Policing Fund, Basic Command Unit funding, Street Crime Initiative, Community Support Officer funding, Special Priority Payments, the DNA Expansion Programme, capital grant, Airwave and the Premises Improvement Fund. Total for specific grants in 2004–05 are an estimate.

[3] Figures for 2001–02 are not directly comparable with 2002–03 due to the change in funding arrangements of NCS/NCIS. Adjusted figures for 2001–02 are therefore included.

Lancashire Police Authority have set a final budget of £229.5 million for 2004–05, and increase of £12.7 million or 5.9 per cent. over this year.

Parliamentary Ombudsman

Mr. Colman: To ask the Secretary of State for the Home Department for what reasons he rejected the recommendations of the Parliamentary Ombudsman in his report, ref.C.923/03 relating to the complaint of a constituent, ref.R333021/2. [164679]

Mr. Browne: We have not rejected the recommendations of the Parliamentary Ombudsman. The Ombudsman made only one formal recommendation in this case—that if Mr. Colman's constituent made an application for British Citizenship it should be considered promptly. The Ombudsman has been informed that such an application will be considered in accordance with the rules and in the light of individual circumstances. So far, no application has been received.

Parliamentary Questions

Norman Baker: To ask the Secretary of State for the Home Department how many Parliamentary Questions have been tabled to his Department since 1 January 2003, broken down by *(a)* Ordinary Written and *(b)* Named Day; what percentage in respect of *(a)* were answered within 10 working days; and what percentage in respect of *(b)* were answered by the specified date. [157741]

Fiona Mactaggart: The Home Office does not maintain records in such a way that provides the information in the format requested without incurring disproportionate cost. The last published performance figures for the Home Office showed that 39 per cent. of all Parliamentary Questions (PQs) were answered within parliamentary deadlines.

Every effort is made to reply to PQs within the parliamentary deadlines wherever possible. Consequently the Home Office is currently in the process of introducing a new PQ system, the electronic Parliamentary Questions system (ePQS) to better monitor and manage the Department's performance.

The ePQS monitoring system has identified the bottlenecks in the PQ process and remedial action is being taken. As is usual with the introduction of any new IT system, performance has shown an initial decline. The benefits of ePQS are now being realised across the Department and performance is improving.

Police Pensions

Mr. Gordon Prentice: To ask the Secretary of State for the Home Department at what age police officers are able to retire on a full pension; and if he will make a statement. [165478]

Ms Blears: Under the current Police Pension Scheme officers may build up a maximum pension after 30 years' service. This means that an officer who joined the police service at age 18½—the earliest age at which it is possible to start as a police officer—could be entitled to retire at age 48½ with a full pension.

The Government are considering options for the modernisation of police pensions to make them more flexible and affordable for future entrants. We have concluded a UK-wide consultation exercise on proposals for a new police pension scheme, to be introduced by April 2006, and are considering the responses. Key features of the proposed scheme for new entrants are a maximum pension after 35 years and a minimum pension age of 55.

Prisons

Mr. Oaten: To ask the Secretary of State for the Home Department how many hours on average adult prisoners spent on *(a)* education, broken down by (i) literacy, (ii) numeracy and (iii) other education-related activities, *(b)* exercise, *(c)* vocational work and *(d)* community work in the last year for which figures are available. [161789]

Paul Goggins: The average number of hours for each activity is as follows:

	Hours
	Number
(a) Education	3.4
(b) Exercise	2.0
(c) Vocational work	1.6
(d) Voluntary work	0.2
(e) Time spent in work/workshops	12.1

In spite of the considerable population pressures the average time spent on purposeful activity is 23.1 hours per week.

Mrs. Gillan: To ask the Secretary of State for the Home Department what the total cost was of the movement of all prisoners from the two prisons that have been re-roled. [166424]

Paul Goggins: No final date has yet been fixed for the re-role of Edmunds Hill prison and so no women prisoners have been moved.

The cost of moving prisoners from Winchester prison totalled £5,550.00.

Mrs. Gillan: To ask the Secretary of State for the Home Department when the prisoners who were moved from the two prisons that have been re-roled were informed they were being moved; and whether notification was given to their families. [166425]

Paul Goggins: The re-role of Her Majesty's Prison Winchester West Hill has taken place. Prisoners were informed on 11 March that they would be moving to other establishments. All prisoners were able to inform their families that they would be moving. The moves took place between 15 and 25 March.

The re-role of Her Majesty's Prison Edmunds Hill has not yet taken place. It is anticipated that prisoners will transfer out from June 2004. Prisoners there know of the

re-role, and, in the case of those prisoners who will still be in custody in June 2004, discussions about future destinations have begun.

Mrs. Gillan: To ask the Secretary of State for the Home Department how many women prisoners have been transferred from the two prisons that have been re-roled; what the length of the sentences they had left to serve were on the date of transfer; and to which prisons they were transferred. [166346]

Paul Goggins: Her Majesty's Prison Edmund's Hill has not yet been re-roled, and no final date has been set. Three of the female prisoners held at the West Hill Wing of Her Majesty's Prison Winchester were released before the transfers took place, as they had reached the end of their custodial sentences.

Table 1 shows the destinations of the remaining prisoners.

Table 1: destinations of female prisoners transferred from Her Majesty's Prison Winchester

Destination establishment	*Number transferred*
Her Majesty's Prison Eastwood Park	19
Her Majesty's Prison Foston Hall	1
Her Majesty's Prison Downview	11
Her Majesty's Prison Send	40
Her Majesty's Prison Askham Grange	1

Table 2 shows the length of time these prisoners had remaining on their transfer date.

Table 2: remaining sentences

Length of sentence remaining	*Number of prisoners*
Convicted but unsentenced	1
Less than 12 months	32
One to four years	29
Four years or more	10

Mr. McNamara: To ask the Secretary of State for the Home Department what progress has been made in recording allegations and incidents of threatening and intimidating behaviour of staff towards prisoners at HM Prison Wormwood Scrubs; how the incidents are broken down for statistical analysis; and what the figures are for incidents in the last three years for which figures are available. [155658]

Paul Goggins *[holding answer 2 March 2004]:* The Investigation Support Section of the Prison Service Professional Standards Unit monitors all incidents in the prison service that result in formal investigations being commissioned. The main categories of investigations that record unprofessional behaviour of staff towards prisoners are racist abuse, inappropriate treatment of prisoners and assault on prisoners.

Monthly reports are prepared for Governors and Area Managers that include, for each prison; numbers of investigations carried out, categories of investigations, overdue investigations and emerging themes.

Wormwood Scrubs operates systems to ensure that any complaints of mistreatment from prisoners are referred to the Deputy Governor, who decides whether to commission a full investigation under the Prison Service Code of Discipline or conduct a simple inquiry for more minor issues. The Race Relations co-ordinator also reviews data from a wide range of sources to establish if any ethnic minority group is disproportionately represented. For the last three years, the number of complaints from prisoners within the above categories that resulted in investigations being commissioned at Wormwood Scrubs were:

Number of complaints from prisoners that resulted in investigations being commissioned at Wormwood Scrubs

	Simple inquiries	*Disciplinary investigations*
2001–02	49	30
2002–03	44	32
2003–04[1]	27	21

[1] As at 11 February 2004.

Additionally, annual reviews are conducted by staff from the London Area Office to assess the efficiency and effectiveness of monitoring arrangements concerning treatment of prisoners by staff in each London prison. These reviews also seek assurance that local arrangements for acting on any allegations of mistreatment by prisoners, from any source, are consistent with prison service policy and that any subsequent investigations are conducted in a timely and consistent manner.

Probation Areas (Budgets)

John McDonnell: To ask the Secretary of State for the Home Department which probation areas will be financially penalised during the next financial year as a consequence of failing to meet 2003–04 targets; and what size the penalty will be in each case. [160468]

Paul Goggins: £15 million of the probation areas' budget for 2004–05 has been retained by the Home Office to be distributed to areas as performance bonuses. On the basis of information for the first three-quarters of 2003–04, it is expected that about £12 million will be distributed to areas. It is not yet possible to provide a list of areas and the size of the amount in each case as this will not be known until all the performance data for 2003–04 has been collected and analysed.

Current information indicates that 17 probation areas will receive their full performance bonuses that will result in them having greater than 100 per cent. of their expected budget for 2004–05. A further 11 will receive performance bonuses that result in them receiving at least 99.5 per cent. of their expected budget. The remaining 14 areas will receive at least 97.5 per cent. of their expected budget.

Programme Funding

Mr. Goodman: To ask the Secretary of State for the Home Department what funding has been allocated to *(a)* building safer communities, *(b)* drug action teams, *(c)* Frameworks for Regional Employment and Skills Action, *(d)* Positive Futures and *(e)* the Youth Inclusion Programme in (i) 2004–05, (ii) 2005–06 and (iii) total. [163719]

Ms Blears: Funding in 2004–05 for the initiatives named is shown in the table:

	2004–05
Building Safer Communities	£74 million
Drug Action Teams	£386,600
Positive Futures	£5 million Home Office £1 million Football Foundation
Youth Inclusion Programme (Total YIP funding 1999–06 £39.24million)	£7 million

There is no direct Government Funding for Frameworks for Regional Employment and Skills Action (FRESAs). FRESAs are the way in which key regional partners led by the RDA develop and deliver an agreed plan to address skills and employment needs of employers and individuals within the region. The resources which partners bring to the table in respect of agreed priorities in the FRESA will vary from region to region.

Funding allocations for 2005–06 are still being discussed and levels of funding will be made known as soon as they are agreed.

Sex Offenders

Mrs. Helen Clark: To ask the Secretary of State for the Home Department whether he has a strategy for targeting the re-allocation of sex offenders to a limited number of bail hostels. [166476]

Paul Goggins *[holding answer 19 April 2004]:* No. Such a strategy would not be conducive to public protection, nor would it be in the best interest of victims of serious crime.

FOREIGN AND COMMONWEALTH AFFAIRS

Diamond/Uranium Mining (Africa)

Mr. Chidgey: To ask the Secretary of State for Foreign and Commonwealth Affairs what his Department's policies are on *(a)* the upholding of human rights and *(b)* minimising the environmental impact in the course of diamond and uranium mining in African countries. [166490]

Mr. MacShane: Extractives industries (including diamonds and uranium) should be the engines of growth and development in countries endowed with significant mineral resources, but too often the sector is associated with conflicts and corruption that derail progress towards sustainable development and poverty reduction. We believe that companies are responsible for not acting in a way that impairs the human rights of their employees or of those on whom their activities have an impact, and should act in a way that promotes their enjoyment of human rights. We also believe companies should act in a way which contributes to environmental progress with a view to achieving sustainable development. For that reason, we are actively engaged in initiatives to improve governance, including environmental and social management of the sector, while recognising that regulation of these industries is the responsibility of the host governments concerned.

For example, the Government is a founding participant in the process to develop and promote the Voluntary Principles on Security and Human Rights in the extractives sector. The Voluntary Principles are designed to provide practical guidance that will strengthen human rights safeguards in company security arrangements. The Government also actively promote the UN Global Compact and the Organisation for Economic Co-operation and Development Guidelines for Multinational Enterprises, both of which promote principles of business behaviour designed to ensure respect for human rights and protection of the environment.

Iraq

Llew Smith: To ask the Secretary of State for Foreign and Commonwealth Affairs when he expects to receive the next report of the Iraq Survey Group on Iraqi weapons of mass destruction. [165154]

Mr. Rammell: We received a copy of the latest Iraq Survey Group Interim Report on 30 March. A copy has been placed in the Library of the House.

Llew Smith: To ask the Secretary of State for Foreign and Commonwealth Affairs which British members of UNSCOM were transferred to work in the Iraq survey group. [165567]

Mr. Hoon: I have been asked to reply.

No British members of the United Nations Special Commission (UNSCOM) have transferred directly to the Iraq Survey Group. UNSCOM was withdrawn from Iraq in December 1998. Thirteen British servicemen and civil servants who served with UNSCOM between 1991 and 1998 have subsequently served with the Iraq Survey Group since June 2003.

Afghanistan

Mr. Chidgey: To ask the Secretary of State for Foreign and Commonwealth Affairs pursuant to the answer of 25 March 2004, *Official Report*, column 1031W, on Afghanistan (1) if he will list the *(a)* names and *(b)* locations of voter registration offices (i) already open in Afghanistan and (ii) due to open in Afghanistan before the September 2004 elections, broken down by province; [166123]

(2) how many people *(a)* have been registered to vote in the Afghan September 2004 elections since 1 December 2003 and *(b)* the voter registration offices will aim to register by the Afghan September 2004 elections; [166124]

(3) what assessment he has made of the *(a)* effects of the change in date of the Afghan presidency and parliamentary elections from June 2004 to September 2004 and *(b)* the reasons for the change. [166125]

Mr. Mike O'Brien: Since the start of the registration process the UN has opened 232 registration sites in 8 regional centres (Kabul, Jalalabad, Kandahar, Herat, Konduz, Jalalbad, Mazer, Bamiyan). Many of these have now closed, having registered voters in their

particular area. Voters are currently registering at 83 offices in these 8 regional centres. The UN hopes to have used a total of 5040 registration centres across the country by August. No breakdown by province is currently available.

Up to 14 April, 1,812,815 people have been registered since December 2003. The UN hopes to register 10 million voters by September 2004.

The Afghan presidential and parliamentary elections will be held in September 2004 in order to allow sufficient time for voter registration and other electoral preparations in a country whose infrastructure and human capital have been decimated by three decades of conflict. I remember attending voter registration for the Loya Jirga elections last year at the football stadium in Mazar-e-Sharif and I was very impressed with the enthusiasm of the many people who were queuing to register—they wanted to vote.

Cyprus

Mr. Gray: To ask the Secretary of State for Foreign and Commonwealth Affairs what advice to travellers to Cyprus was being issued on the Foreign Office website on 24 September 2002. [166431]

Mr. MacShane: On 24 September 2002 the Foreign and Commonwealth Office travel advice for Cyprus read as follows:

"Most visits to Cyprus are trouble-free.

Safety and security

Crimes against tourists are rare. Visitors should, however, safeguard passports, money and other valuables by using hotel safety deposit boxes.

Be aware of strong seas and undertows. Always heed warning signs and swim only from approved beaches.

Travellers are not generally at risk in Cyprus.

Terrorism

There have been a number of car bombs in the Limassol area and Nicosia over the past few years. Although the perpetrators have not been identified, these activities are restricted for the most part to in-fighting amongst the criminal fraternity.

Local laws and customs

Cyprus has a strict zero tolerance policy towards drugs. Being caught in possession of any type of narcotic will usually lead to a prison sentence or a hefty fine.

Driving standards in Cyprus are poor. Seat belts and crash helmets must be worn. You could be fined up to C£500 if you are caught not wearing a seat belt.

It is illegal to work in Cyprus without a work permit. Obtaining such a permit is the responsibility of the prospective employer. People caught working without a valid permit have received custodial sentences and large fines. Carefully check any suggested contract.

When hiring a car, moped, boat, jet ski or other vehicle, you should check that it is road or sea worthy and that there is appropriate insurance cover, and safety equipment. Observe safety rules.

Do not try to make fraudulent claims on your insurance policy. The police investigate such claims and prosecute tourists for this offence. Prison sentences and heavy fines have been imposed.

Entry requirements

A British passport holder does not need a visa prior to travelling to Cyprus. A tourist will be permitted to enter for a maximum period of three months.

Health

Cyprus and the UK do not have reciprocal health agreements and therefore all health care has to be paid for. As Cyprus is not a member of the European Union, the form E111 is not recognised. Adequate health insurance should be taken out prior to travelling to Cyprus, as hospital fees can be expensive. You will not normally be allowed to leave Cyprus if you have not settled your medical bill.

Visits to North Cyprus

The British Government does not recognise the "Turkish Republic of Northern Cyprus". Visitors arriving in the north should not attempt to cross into the south. If they do, they are liable to arrest and possible imprisonment.

It is possible to travel to the north of Cyprus from the south by crossing at the United Nations-controlled Ledra Palace checkpoint in Nicosia. But tourists may only cross between 0800–1300 and must return by 1700 the same day. You may not take a hire car through the checkpoint, although it is possible to hire one once you have crossed into the north. Goods bought in the north may be confiscated at the checkpoint on return to the south.

Buying property

The non-recognition of the "Turkish Republic of Northern Cyprus" and the possibility of a future political settlement in Cyprus could have implications for those considering buying property in the north. Before purchasing a property you are advised to apprise yourself fully of the situation and to seek legal advice.

General

Time-share operatives tout for business in Cyprus, especially in the Paphos area. Before signing a contract, you should read the small print very carefully. Under Cyprus law, you are entitled to a 15-day cooling off period, during which, if you change your mind, you should receive a full refund.

We strongly recommend that all travellers abroad take out adequate comprehensive insurance.

Contact details

British High Commission, Alexander Pallis Street, (PO Box 21978), 1587 Nicosia, (tel: +357 2 861 100 (working hours); +357 2 861 277 (outside working hours); 0997 7677 (consular hotline in Nicosia); 228 3862 (from the north); e-mail: ukconsul@cylink.com.cy infobhc@cylink.com.cy"

European Constitution

Mr. Dorrell: To ask the Secretary of State for Foreign and Commonwealth Affairs which member states of the European Union are committed to holding a referendum on the proposed European Constitution. [166119]

Mr. MacShane: A new EU treaty would need to be ratified according to the individual constitutional traditions and requirements of each of the member states. All 25 member states would have to ratify before a Constitutional Treaty would come into effect. Only a few member states have made a formal announcement on whether they intend to hold a referendum on the outcome of the Intergovernmental Conference. Of these, three have declared they will hold a referendum: Ireland. Denmark and Luxembourg. Most countries have yet to make a decision.

Georgia

Mrs. Mahon: To ask the Secretary of State for Foreign and Commonwealth Affairs what representations he has made to the Georgian Ambassador concerning the current dispute between the Ajara region and the Government of Georgia; and if he will make a statement. [165017]

Mr. Rammell: Foreign and Commonwealth Office officials have raised with the new Georgian Ambassador the dispute between the central authorities in Tbilisi and the regional Ajaran leader Aslan Abashidze, which came to a head after President Saakashvili was denied access to Ajara on 14 March. Neither I nor my right hon. Friend the Foreign Secretary have yet met the Ambassador, who presented his credentials to HM The Queen on 23 March.

EU Heads of Mission in Tbilisi, including the UK Chargé d'Affaires raised Ajara with the Georgian Foreign Minister on 25 March. They stressed their strong support for Georgia's territorial integrity; expressed their concern at the recent increase in tensions between Tbilisi and Batumi and urged both sides to refrain from actions likely to increase tensions further; and to engage in dialogue with a view to a peaceful resolution of the differences. Similar messages were given to Aslan Abashidze when Heikke Talvitie, the EU Special Representative, met him on 31 March accompanied by representatives of the local EU Troika (including the UK).

We welcome the agreements reached between President Saakashvili and Asian Abashidze when they met in Batumi on 18 March. It is important for Georgia's stability and prosperity that the Ajaran region contributes to central budgetary funds.

We welcome the fact that Georgian parliamentary elections held on 28 March passed off peacefully in the Ajaran region.

Israel

Mr. Dismore: To ask the Secretary of State for Foreign and Commonwealth Affairs what assistance he has given to Israel to help defend itself against terrorist attacks from the West Bank and Gaza. [165391]

Mr. Rammell: The UK supports all Israel's efforts to defend itself against terrorism which are consistent with international law.

The UK has taken action against numerous terrorist groups, including those involved in attacks in Israel. In 2001, we proscribed Palestinian Islamic Jihad and the military wing of Hamas. In September last year, the EU took action to freeze the assets of the whole of Hamas and, on 24 March this year, my right hon. Friend the Chancellor of the Exchequer announced a freeze on the UK assets of five leading members of Hamas.

We have publicly condemned the terrorist atrocities committed against Israeli civilians and urged the Palestinian Authority to take immediate steps to stop violence and improve security. We are supporting the Palestinians in their efforts through provision of advice and non-lethal equipment and we have assisted the Israeli authorities' investigations into terrorist attacks against Israel by UK nationals.

Mr. Dismore: To ask the Secretary of State for Foreign and Commonwealth Affairs what his policy is on the steps Israel can legitimately take to defend herself against terrorist attacks from the West Bank and Gaza; and if he will make a statement. [165393]

Mr. Rammell: Israel can take all steps open to governments to defend themselves against terrorism which are consistent with their international obligations.

Sir John Stanley: To ask the Secretary of State for Foreign and Commonwealth Affairs what the basis is for his view that those sections of the Israeli security fence that have been constructed in the Occupied Territories are illegal. [165683]

Mr. Rammell: The construction of the barrier in the Occupied Territories is in violation of the Hague Regulation of 1907 and Article 53 of the 4l Geneva Convention, because the confiscation of Palestinian land and destruction of agriculture and buildings is not militarily necessary. The barrier could and should be built on or within the Green Line.

Kosovo

Mrs. Mahon: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make a statement on the NATO Secretary General's message to the Prime Minister of Kosovo on the responsibility of the Kosovar Albanian leaders for the upsurge of violence in Kosovo. [166029]

Mr. MacShane: The NATO Secretary General condemned the inter-ethnic violence in Kosovo in his statement of 17 March and urged all ethnic communities to act responsibly to avoid further escalation. He also saluted the courage and professionalism of the Kosovo Force soldiers on the ground, operating at great personal risk, to stop the violence and uphold law and order.

I endorse the Secretary General's call for all regional political leaders to encourage tolerance and condemn acts of violence. As I stated in the House on 30 March 2004, *Official Report*, columns 1408–11, we need to encourage a new dialogue between responsible politicians both in Belgrade and Pristina. That

relationship must be formed on the basis of common European values, the rule of law and democracy, and above all respect for minorities. I will reinforce this message during my visit to the region this week.

Mrs. Mahon: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make a statement about the recent upsurge in violence in Kosovo. [166030]

Mr. MacShane: The international community will not tolerate inter-ethnic violence in Kosovo nor tolerate attacks on the United Nations Interim Administration Mission in Kosovo and the Kosovo Force. The United Kingdom is committed to a peaceful, stable, democratic European future for the Balkans.

I also refer my hon. Friend to the answer I gave in the House to the hon. Member for Isle of Wight (Mr. Turner) on 30 March 2004, *Official Report*, columns 1408–11. There have been no further developments.

Mrs. Mahon: To ask the Secretary of State for Foreign and Commonwealth Affairs (1) whether he has received a copy of the report of the UNESCO Director-General's expert mission to Kosovo in 2003 to evaluate the state of monuments there and propose a plan of action to safeguard them; and if he will make that report available to hon. Members; [166031]

(2) if he will make a statement on the enforcement of the Hague Convention of 1954 on the Protection of Cultural Property in the Event of Armed Conflict and other pertinent international normative instruments in the case of Kosovo; [166032]

(3) if he will make a statement on the UK's financial contribution to the urgent operations recommended by the UNESCO Director-General's expert mission to Kosovo to safeguard cultural and religious monuments. [166033]

Mr. MacShane: The report of UN Educational, Scientific and Cultural Organisation (UNESCO) Director-General's expert mission to Kosovo is not yet available but I have been assured that it will be made public in the near future. The UK has not been asked for any extra-budgetary funds following this mission. The UK already contributes over £11 million a year to UNESCO's regular budget, making us the fourth largest contributor.

Within Kosovo, the UN mission in Kosovo is responsible for applying those provisions of the 1954 Hague Convention on the Protection of Cultural Property applicable outside of recognised armed conflict. Recent events in Kosovo give this responsibility even greater pertinence. I will visit Kosovo this week and I will make the point that that part of Europe's history deserves our special attention and protection. The UK's continued commitment to the Convention was made clear at the International Conference of the Red Cross and Red Crescent in December 2003, where we co-signed a pledge supporting the 1954 Hague Convention with the Government of Serbia and Montenegro.

Middle East

Mr. Breed: To ask the Secretary of State for Foreign and Commonwealth Affairs what recent discussions he has had with EU member states on the road map for a peaceful solution between Israel and Palestine. [165716]

Mr. Rammell: My right hon. Friend the Foreign Secretary discussed the prospects for progress on the Middle East Peace Process with EU Foreign Ministers at the European Council on 25 March. The EU expressed its concern at the deepening conflict but confirmed its conviction that the roadmap remains the basis for reaching a peaceful settlement and that current initiatives which are consistent with the road map can help advance the peace process.

Nepal

Mr. Spring: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment he has made of the political and security situation in Nepal; and if he will make a statement. [166197]

Mr. Mike O'Brien: I refer the hon. Member to the answer I gave to the hon. Member for Newbury (David Rendel) on 9 March 2004, *Official Report*, column 1436W.

We are closely monitoring the political and security situation in Nepal. The increased violence evident in recent weeks is of great concern. We continue, in our contacts with all parties, to urge an end to the conflict in order that Nepal can achieve a lasting peace and a return to democracy.

Overseas Representation

Mr. Ancram: To ask the Secretary of State for Foreign and Commonwealth Affairs in which countries the Department is represented, including those with regional consulates; how many staff are employed in each location, broken down by *(a)* UK nationals and *(b)* locally employed; what the annual cost of maintaining representation in each of the countries was in 2003–04; and what the total expenditure by his Department on overseas representation was in (i) 2001, (ii) 2002 and (iii) 2003. [166211]

Mr. Straw: I have placed copies of the table showing countries in which the Foreign and Commonwealth Office (FCO) is represented together with the location of both UK based and locally employed staff in the Library of the House. The annual cost of maintaining representation in each of these countries for 2003–04 has not yet been ascertained. The total expenditure by the FCO on overseas representation for previous years was as follows; 2001–02, £747 million 2002–03, £797 million.

UK/Caribbean Forum

Mr. Goodman: To ask the Secretary of State for Foreign and Commonwealth Affairs what organisations and individuals are entitled to attend the forthcoming UK/Caribbean Forum meeting in May. [165678]

Mr. Rammell: The UK/Caribbean Forum is a meeting of Foreign Ministers set up as a means of strengthening and institutionalising the close relationship that exists between the UK and Caribbean countries. Ministers

from other Government Departments will also attend. In addition, a wide range of organisations with an interest in the Caribbean, both UK-based and from the region, have been invited to participate in some or all of the Forum.

Uzbekistan

Mr. Dismore: To ask the Secretary of State for Foreign and Commonwealth Affairs what assessment he has made of the statement by the authorities in Uzbekistan that terrorist attacks in late March were linked to Hizb-ut-Tahrir; and if he will make a statement. [165691]

Mr. Rammell: The Uzbek authorities have yet to conclude their investigations into the terrorist attacks in late March. Their preliminary findings appear to suggest that the perpetrators received training in camps outside Uzbekistan, and may have been influenced by the radical Islamist propaganda of Hizb ut-Tahrir. However, while we believe that this is certainly a possibility, we have yet to see convincing evidence that Hizb ut-Tahrir as an organisation advocates violence or terrorism. Nor are we aware of any co-operation between it and Al Qaeda.

We strongly believe that a proportionate response is necessary in combating terrorism in order to avoid alienating wider sections of the population, and that permitting free expression of religious belief is the best means of combating the attractiveness to some of the more radical and extremist ideologies.

In a press release issued on 30 March, I stated that "We condemn these appalling acts of violence and send our condolences to the families of those innocent victims. Terrorism is a menace which we face in common with countries around the world, and must combat in common. At the same time it is necessary to ensure that our responses are measured and proportionate, so that the disease is isolated and eliminated rather than faced with conditions where it is possible to spread further."We remain willing to receive additional information from the Uzbek authorities as their investigations continue, particularly concerning the alleged role of Hizb ut-Tahrir.

DEFENCE

Atomic Co-ordinating Offices

Alan Simpson: To ask the Secretary of State for Defence if he will make a statement on the role and function of the Atomic Co-ordinating Offices in London and Washington. [166582]

Mr. Ingram: The role of the Atomic Control Office, London and the Atomic Co-ordinating Office, Washington is to facilitate the conduct of bilateral business with the United States under the provisions of the 1958 US/UK Mutual Defence Agreement.

Defence Medical Centre (Birmingham)

Mr. Keith Simpson: To ask the Secretary of State for Defence when the new Defence Medical Centre at Birmingham will be operational. [166111]

Mr. Caplin: The Centre for Defence Medicine was formally opened and became operational on 2 April 2001. It was renamed the Royal Centre for Defence Medicine in April 2002.

Mr. Keith Simpson: To ask the Secretary of State for Defence if he will list the defence medical facilities that will be replaced by the new Defence Medical Centre at Birmingham. [166112]

Mr. Caplin: The Centre for Defence Medicine, now the Royal Centre for Defence Medicine (RCDM), was formally opened and became operational on 2 April 2001. It replaced the Royal Defence Medical College that was located in Gosport and was formally closed at the end of March 2002. The Operational Health Research Division, the academic focus for defence medicine created in April 2004 embraces professional and academic staff based in Birmingham who were part of the Royal Defence Medical College. The Defence Post Graduate Medical Deanery, which was located in Portsmouth, is also based in Birmingham, but does not form part of RCDM. In addition 110 military medical personnel are working within the MOD Hospital Unit at the University Hospital Birmingham NHS Trust (UHBT), delivering health services to military and civilian patients.

UHBT is also the focus for the MOD's aeromedical evacuation capability. Transfer of other functions from Portsmouth, which are under the control of RCDM, such as radiology and telemedicine, are being considered as part of the option to move all medical training to Birmingham.

Since September 2001, military nurse training has also been progressively transferred from Portsmouth to the Defence School of Healthcare Studies, located at the University of Central England in Birmingham. We expect to deliver all our nurse training at the University of Central England by academic year 2006–07.

On current plans around 900 military medical personnel will be based in Birmingham by 2006.

Iraq

Sir John Stanley: To ask the Secretary of State for Defence on what date he was first informed that Dr. Brian Jones of the Defence Intelligence Staff had submitted reservations about the Government's dossier, Iraq's Weapons of Mass Destruction. [165685]

Mr. Hoon: I became aware in July 2003, in preparation for my evidence session with the ISC, that Dr. Brian Jones had, in September 2002, expressed concern to his immediate line manager about the precise wording of some parts of the Government's dossier on Iraq's Weapons of Mass Destruction prior to its publication.

Bob Russell: To ask the Secretary of State for Defence pursuant to his answer of 12 March 2004, *Official Report*, column 1773W, when he expects the Royal Military Police's Special Investigations Branch to complete its investigation into the deaths of the six Royal Military police officers from the Colchester garrison who were killed in Iraq; when he expects the report to be presented to him; when he will publish the

report; whether the report to be published in full; whether families will be given *(a)* a full and *(b)* an edited version; and if he will make a statement. [166070]

Mr. Hoon: I refer the hon. Member to the answer given on 25 March 2004, *Official Report*, column 945W, by my right hon. Friend the Member for East Kilbride (Mr. Ingram). The families of the six dead soldiers will be given a further update on the findings of the Special Investigation Branch (SIB) investigation once they have completed their work. Although extensive inquiries have been undertaken, the investigation is still under way. It is not normal practice to make public the findings of SIB investigations.

Jeremy Corbyn: To ask the Secretary of State for Defence what his latest estimate is of the total volume of depleted uranium shells used in Iraq since March 2003. [166417]

Mr. Ingram: I refer my hon. Friend to the answer my right hon. Friend the Secretary of State for Defence gave on 4 June 2003, *Official Report*, column 445W. I also refer my hon. Friend to the answer of 12 June 2003, *Official Report*, column WA 62, given by my noble Friend the Lord Bach to Baroness Miller of Chilthorne Domer.

Members of Parliament (Military Visits)

Mr. Laurence Robertson: To ask the Secretary of State for Defence whether hon. Members are required to obtain permission from his Department to visit military bases in their constituencies; and if he will make a statement. [166383]

Mr. Caplin: Yes.

Nuclear Contingent Liability Arrangements

Llew Smith: To ask the Secretary of State for Defence what developments have taken place in respect of the proposals made on 11 March to alter the contingent liability arrangements covering the submarine reactor fuel core factory and Neptune test reactor; and if he will place in the Library the new documentation produced on this matter. [166038]

Mr. Ingram: No objections were raised against the contingent liability arising from non-insurance that was proposed in the Departmental Minute dated 11 March 2004.

The Rolls-Royce Core Factory and Neptune facility continue to be fully covered by commercial third party nuclear insurance. When the commercial insurance ends in 2005, the facilities should then be indemnified by the Crown by means of clauses within procurement contracts for submarine reactor fuel and related services. The contracts include details of sensitive nuclear materials and industrial processes and I am withholding them in accordance with Exemption 1 of the Code of Practice on Access to Government Information (which relates to defence, security and international relations).

Private Military Companies

Mr. Evans: To ask the Secretary of State for Defence if he will estimate how many army officers have requested early leave from their contracts to work for private military companies. [166135]

Mr. Caplin: Army officers apply for early release through the Army Retirements Board. In the last six months the total number of officers requesting Premature Voluntary Retirement has been 346. There is no requirement to specify future employment intentions but we are aware that at least three of the 346 have applied to leave with the intention of joining private military companies other than the United Kingdom defence industry.

Reservists

Lady Hermon: To ask the Secretary of State for Defence for what reasons mobilised reservists are not receiving timely pay statements; how many reservists are affected; and what steps he is taking to ensure that all reservists receive timely pay statements. [165140]

Mr. Caplin *[holding answer 1 April 2004]:* We accept that some reservists' pay statements did not get delivered on time during Op Telic. This meant that some reservists did not know they were being paid or how much they were being paid. Late or non-delivery of pay statements was attributable to delays in the administrative process of taking the reservist on strength at the Theatre unit.

This issue was identified during the Op Telic lessons identified process and action is in hand to improve the administrative systems in use. We have witnessed a significant improvement in the administrative process of taking the reservist on strength as units move into permanent infrastructure and improved communication links. In the main members of the TA called out for Op Telic 4 are now joining their respective units in their peacetime locations and administrative procedures are now being completed prior to deployment which minimises the shortcomings experienced with IT in Theatre.

While there is no central record of the number of individuals who did not receive pay slips or who experienced delays in their delivery, I understand that the extent of the problem was limited and that the vast majority of reservists did receive pay slips on time.

Tain Air Weapons Range

John Thurso: To ask the Secretary of State for Defence how many hours the Tain Air Weapons Range was in use for training operations in 2003 and in each of the preceding four years. [166068]

Mr. Caplin: The following table shows the number of hours aircraft operated over Tain Air Weapons Range in the requested years.

	Hours in use
1999	946
2000	833
2001	616
2002	788
2003	770

John Thurso: To ask the Secretary of State for Defence how many sorties were undertaken using the Tain Air Weapons Range in 2003 and each of the

preceding four years, indicating *(a)* those flown by RAF aircraft and *(b)* those flown by non-RAF aircraft. [166069]

Mr. Caplin: The following table shows the total number of passes made by aircraft at Tain Air Weapons Range, broken down by RAF and non-RAF aircraft, in the requested years. The number of sorties undertaken, each of which could involve one or more passes, is not recorded.

	Number of RAF aircraft passes	*Number of non-RAF aircraft passes*
1999	23,479	213
2000	20,709	484
2001	13,651	1,026
2002	21,743	755
2003	22,875	1,302

War Pensioners

Mr. Drew: To ask the Secretary of State for Defence what discussions he is having with the Royal British Legion on the subject of the proposed Armed Forces Compensation Scheme for war pensioners. [166459]

Mr. Caplin: Ministers and officials have maintained a regular dialogue with the Royal British Legion during the development of the new Armed Forces Compensation Scheme. As detailed scheme rules are developed, this dialogue will continue. The MOD recognises the value of the experience and expertise offered by ex-Service organisations such as the Royal British Legion.

DEPUTY PRIME MINISTER

Allotments

Mr. Ben Chapman: To ask the Deputy Prime Minister what guidance his Department provides to councils regarding budget allocations for allotments. [166055]

Keith Hill: It is for each allotment authority to decide for itself how much of its resources to devote to allotments. Revenue Support Grant is an unhypothecated block grant and this means that authorities may use it for any purposes. In most cases, rent will be the only income from an allotment site and the level of these is a matter for the relevant allotment authority to determine, taking into account the cost of managing the site, local needs, any special circumstances and the requirements of the Allotments Act 1950.

The publications "Growing in the community: a good practice guide for the management of allotments", and "Allotments: a plot holders' guide", provide comprehensive advice and good practice, including that concerning rents, for local authorities and allotment plot holders and were distributed to a wide audience.

Asbestos

Malcolm Bruce: To ask the Deputy Prime Minister what proportion of buildings occupied by *(a)* staff of the Department and *(b)* staff of the Department's executive agencies have been surveyed for the purpose of identifying the presence of asbestos prior to implementation of the control of Asbestos at Work Regulations 2002. [159372]

Yvette Cooper: The proportion of buildings of the Deputy Prime Minister surveyed for the purpose of identifying the presence of asbestos are:

(a) Seven of the 11 buildings occupied by ODPM staff

(b) 77 of the 96 buildings occupied by staff of the Office of the Deputy Prime Minister's executive agencies and Government offices.

Although the Office of the Deputy Prime Minister has overall responsibility for the buildings occupied by Government Offices, they carry out functions on behalf of 10 Departments.

Not all buildings are required to be surveyed as the use of asbestos in buildings has been prohibited since 1992. The Control of Asbestos at Work Regulations 2002 do not require surveys in such cases.

Some of the surveys noted above are not yet complete in that the final reports are still awaited. However all asbestos surveys in the Office of the Deputy Prime Minister occupancies required by the Regulations will have been completed by 21 May 2004.

BACS

Brian White: To ask the Deputy Prime Minister what progress his Department has made to manage the changeover from the Bank Automated Clearing System to the new BACSTEL-IP system for electronic payments. [164321]

Yvette Cooper: Discussions are under way, with our current supplier, regarding a number of options for managing the changeover from the Bank Automated Clearing System (BACS) to the new BACSTEL-IP system for electronic payments.

Charity Shops

Mr. Alan Campbell: To ask the Deputy Prime Minister what representations his Department has received regarding the concessionary rate reduction allowed for charity shops. [165355]

Phil Hope: The Office of the Deputy Prime Minister receives on an intermittent basis correspondence both in favour and against the rate relief granted to charity shops. We have at present no proposal to change the rules governing rate relief for charities. However, as stated in the White Paper Strong Local leadership—Quality Public Services (2001), we will monitor closely the various rate relief schemes.

Coastal Marinas

Mr. Moss: To ask the Deputy Prime Minister how many planning applications for coastal marinas in England have been *(a)* submitted, *(b)* granted and *(c)* refused in each of the last five years. [165928]

Keith Hill: This information is not collected centrally and could be provided only at disproportionate cost.

Community Cohesion and Regeneration

Mr. Doug Henderson: To ask the Deputy Prime Minister what resources his Department has put into community cohesion and regeneration through sport and physical activity based programmes in the last five years. [164685]

Yvette Cooper: Most Neighbourhood Renewal Unit (NRU) programmes and funding streams are allocated at local level. Therefore the exact amount of, for example, the Community Empowerment Fund or Neighbourhood Renewal Fund that have been spent on sports related interventions cannot be calculated.

Mr. Doug Henderson: To ask the Deputy Prime Minister what assessment his Department has made of the effectiveness of sports and physical activity-based interventions in community cohesion and regeneration. [164687]

Yvette Cooper: The Office of the Deputy Prime Minister has not made an independent assessment but relies on the monitoring and evaluation carried out by lead Departments.

Health

The Department of Health guidance is that adults participate in 30 minutes of moderate physical activity at least five times a week. Reaching this outcome will contribute to reducing health inequalities.

Community Safety

The Youth Justice Board has analysed the lives of young offenders in the communities where they live. They recommend an increase in interventions that 'demand healthy standards and the use of social and reasoning skills, provide opportunities for involvement, due praise and recognition'. The Neighbourhood Renewal Unit supports sports projects that meet these conditions.

Community Cohesion

The Office of the Deputy Prime Minister has worked with the Home Office Community Cohesion Cultural Practitioners Panel to understand the skills and competencies needed for sports workers who need to promote cohesion as part of their job.

Computer Misuse

Mr. Webb: To ask the Deputy Prime Minister how many cases of computer misuse there were in *(a)* the predecessors to his Department in each year between 1997 and 2000 and *(b)* his Department in 2003, broken down by each category of misuse; and how many of those cases resulted in disciplinary action. [163197]

Yvette Cooper: Information on the number of cases in predecessor Departments could be provided only at disproportionate cost.

No cases have been raised since the introduction on the new policy (on 29 May 2002).

Council Housing (East Yorkshire)

David Davis: To ask the Deputy Prime Minister what estimate he has made of the total of unpaid council house rents in the East Riding of Yorkshire in each year since 1997. [165041]

Keith Hill: The total of unpaid council rents in the East Riding of Yorkshire for each financial year from 1997/8 to 2002/3 is tabled below. Also shown is the total of unpaid rents expressed as a percentage of total collectable rent.

Financial Year	[1] *Collectable Rent (£000)*	[2] *Unpaid rents for the year (£000)*	*Unpaid rents as a percentage of total collectable rents*
1997–1998	22,644,000	310,000	1.4
1998–1999	22,993,000	182,000	0.8
1999–2000	23,727,000	285,000	1.2
2000–2001	24,709,000	427,000	1.7
2001–2002	25,690,000	940,000	3.7
2002–2003	26,701,000	656,000	2.5

[1] The maximum that the authority could expect to have collected during each year i.e. the total value of rent roll less rent deductions and refunds and rent loses on vacant/void dwellings.

[2] The arrears of rent that fell due during the year and remained outstanding at the end of the year. In other words, the rent that should have been received during the year but wasn't.

Note:

The figures supplied by the East riding of Yorkshire have, for presentation purposes, been rounded to the nearest £1,000. They are not necessarily audited.

Office of the Deputy Prime Minister, Local Authority Housing Division Housing Revenue Account: Second Subsidy Claim Form

Demotion Orders

Mrs. Curtis-Thomas: To ask the Secretary of State for the Home Department what response his Department received from Merseyside's local authorities regarding demotion orders. [165918]

Mr. Raynsford: Neither the Office of the Deputy Prime Minister, which leads on demotion policy nor the Home Office, which leads on anti-social behaviour policy more generally, are aware of any correspondence with Merseyside's local authorities relating to the subject of demotions orders. Should the hon. Member wish to bring any issue relating to demotion to my attention, I should be happy to bring it to the attention of the appropriate Minister.

Department Branding

Mr. Laws: To ask the Deputy Prime Minister how much his Department and its predecessors spent on branding the Department between 1997–98 and 2003–04, broken down by *(a)* consultancy fees, *(b)* design and orders for new stationery, *(c)* website design and *(d)* other material featuring new logos. [154065]

Yvette Cooper: The Office of the Deputy Prime Minister was created on 29 May 2002. From this point ODPM used the Royal Coat of Arms and the words Office of the Deputy Prime Minister as the main part of its corporate identity and incurred no 'design' costs as such. A nominal amount was been spent on originating artwork for print and electronic publishing.

Cost breakdown is as follows:

(a) logo—£525 + vat

(b) stationery—£7, 400 including value of existing stock

(c) signage—£3,600 + vat

(d) website—£3,145.

The figure of £3,145 for the website represents half the cost of dividing one site into two sites. The other half of the cost is attributable to the Department for Transport. On the development of a revised visual identity for the ODPM in 2003 and its implementation in 2004, a sum of £27,110 has been spent on branding, broken down as follows:

(a) consultancy fees: £17,152;

(b) design and orders for new stationery: £4,400—there are minimal stationery write off costs as the revised identity introduction has been phased and new letterheads are created from centralised staff PC templates;

(c) website design: £325; and

(d) other material: office signage featuring new logos between 2003–04—£5233.

Contractors carried out the work under our normal framework agreements for design and print of paper and electronic publications.

Departmental Staff

Matthew Taylor: To ask the Deputy Prime Minister (1) how many staff are employed in the Department to work in the communications field, broken down by *(a)* Government Information and Communication Service staff and *(b)* other staff, broken down by (i) press officers, (ii) special advisers and (iii) others; [158154]

(2) what the total expenditure on communications for the Department has been in 2003–04, broken down by expenditure on *(a)* Government Information and Communication Service staff and *(b)* other staff, broken down by (i) press officers, (ii) special advisers and (iii) others. [158191]

Yvette Cooper: As at 1 March 2004 there were 51 GICS staff and 21 administrative staff employed in the Directorate of Communications for the Office of the Deputy Prime Minister. Of these, 23 are press officers and 49 provide a range of communications and administrative support functions. From 1 April 2003 to 29 February 2004 the pay cost of these staff was £2.5 million, of which £0.96 million was for press officers.

There are four GICS staff employed within line divisions of the Office of the Deputy Prime Minister who perform a range of communication functions, as well as a small number of non-GICS staff whose role may encompass a proportion of communications related work. Detailed information on the latter is not maintained centrally and could only be provided at disproportionate cost.

The Special Advisers' Code of Conduct sets out the sort of work a special adviser may undertake on behalf of their Minister. This includes communications activity. Details of the costs of Special Advisers are given on an annual basis. Information for the financial year 2003–04 will be published in due course.

Disabled Facilities Grants

Mr. Laurence Robertson: To ask the Deputy Prime Minister if he will make changes to the eligibility for disability facilities grants, with particular reference to means-testing; and if he will make a statement. [165506]

Keith Hill: The Government has increased the funding for the Disabled Facilities Grant (DFG) from £57 million in 1997 to £101.5 million in 2004–05. In spite of this there is still a high demand for the grant and the means test is in place to ensure that resources go to those in greatest need. Any relaxation of it would have budgetary implications or would lead to longer waiting lists.

The Government has also announced a review of the DFG programme.

The Office of the Deputy Prime Minister, jointly with the Department of Health, will be reviewing the disabled facilities grant programme, including the operation of the means test, in the context of the Spending Review 2004. We will announce our conclusions later this year. The position in Wales is, of course, a matter for the Welsh Assembly, but we are led to believe that it will also be undertaking a review of this important issue this year.

Mr. Swire: To ask the Deputy Prime Minister (1) what the total specified capital grant awarded in disabled facilities grants is for *(a)* 2003–04 and *(b)* 2004–05 in each region of England; [165011]

(2) what courses of action are available to local authorities to make up any differences between required expenditure and disabled facilities grants to comply with Government directives; [165012]

(3) what discussions his Department has had with local authorities to ascertain their expenditure plans to adapt people's homes before the awarding of disabled facilities grants; [165013]

(4) on what basis his Department calculated the disabled facilities grant in each region of England; [165014]

(5) what assessment his Department made of *(a)* local authorities' housing strategies and *(b)* house condition surveys prior to calculating disabled facilities grants. [165015]

Keith Hill: The allocation of specified capital grant (SCG) for disabled facilities grant (DFG) to each region of England for the years 2003–04 and 2004–05 are tabled as follows:

£000

Region	*2003–04*	*2004–05*
London	15,399	15,282
East of England	10,182	9,978
North East	4,454	4,365
North West	15,738	17,360
West Midlands	11,778	11,542
South West	8,558	8,387
South East	15,690	17,211
Yorkshire/Humber	10,747	10,707
East Midlands	6,454	6,325

The SCO for DFGs is paid to local authorities to contribute towards 60 per cent. of local authority expenditure incurred on mandatory DFGs up to the limit of the allocation made to each local authority at the beginning of the financial year. Local authorities must find, from their own capital resources, funding for the remaining 40 per cent. of total DFG expenditure,

100 per cent. of any excess expenditure on mandatory DFGs above the allocation limit and any discretionary expenditure incurred by them in carrying out housing adaptations for disabled people. As DFG is a mandatory grant for eligible applicants, local authorities must make adequate financial provision within their budgets to meet these expenditure demands.

Local authorities are asked to submit to the Office of the Deputy Prime Minister every year, in the Housing Strategy Statistical Appendix to their Housing Investment Programme, their planned expenditure on mandatory DFG.

The allocation of the national budget of SCG for DFGs to each region is made on the basis of a formula. This formula comprises indices constructed according to the number of people in each region in receipt of disability living allowance and attendance allowance and also an adjustment for the regional differences in building costs. These indices are updated annually. The allocation according to the formula is limited to the total amount that the authorities in each region have said they need to cover 60 per cent. of their planned expenditure on DFGs. If the formula allocates more than this amount the residual sum is reallocated to other regions in proportion to their need. For the 2004–05 allocations, a further damping mechanism was used to ensure that no region had a cut of more than 2 per cent. in its allocation compared with the previous year.

Once the regional allocation of SCG has been established the allocation to individual local authorities is made by the Government Offices in each Region. 80 per cent. of the regional total is allocated using the same indices of need as for the regional allocation. The remaining 20 per cent. is allocated entirely at the discretion of the Government Office who can take into account any relevant local evidence of need and policy performance including an assessment of an authority's housing strategy and the role played by housing adaptations.

Environmental Health Officers

Mr. Hayes: To ask the Deputy Prime Minister what change in the number of environmental health officers the Government estimates will be needed in England and Wales as a result of the provisions contained within the Housing Bill; in what time frame the Government estimates that additional environmental health officers required as a result of the provisions contained within the Housing Bill will be recruited and trained; how much he estimates such recruitment will cost; how such costs will be met; and what money central Government will provide. [166295]

Keith Hill: The Government does not expect the provisions of Part 1 of the Housing Bill to require the employment of additional environment health officers. The Office of the Deputy Prime Minister indicated during the Committee Stage of the Bill that the Government would meet local authorities' start-up costs associated with the Housing Health and Safety Rating System, and that these costs were estimated at £4–5 million.

Implementation of the licensing provisions in Parts 2 and 3 need not in itself require the recruitment of staff as specialist environmental health officers. The number of staff required and the time frame within which they are recruited and trained will be a matter for local authorities to determine. The Government is in discussions with the Local Government Association on these matters and although licensing should be self financing it is proposed to set aside £13 million to meet local authorities' start-up costs.

Fire Services

Mr. Gordon Prentice: To ask the Deputy Prime Minister at what age firefighters are able to retire on a full pension; and if he will make a statement. [165465]

Mr. Raynsford: The maximum pension is payable after 30 years' service from age 50.

Mr. Oaten: To ask the Deputy Prime Minister if the Government will ensure that firemen have adequate insurance cover for *(a)* themselves and *(b)* their families against the risk of being injured or killed as a result of responding to a terrorist attack. [163119]

Mr. Raynsford: There are provisions within the conditions of service and the fire fighters pensions scheme for awards for injury and death benefit. However, the office of the Deputy Prime Minister has made aware that some insurance companies have been attempting to limit the amount of personal cover available to the fire fighters who may be required to respond to emergencies as a result of terrorist attack. The Government recognise the importance of ensuring that fire responders, including the fire and rescue service, are able to respond with confidence to a full range of emergency situations. That is why the Civil Contingencies Secretariat in the Cabinet Office is currently working with the relevant Departments to establish the extent of the problem and to examine the implications for the emergency services.

Football Stadium, Falmer

Norman Baker: To ask the Deputy Prime Minister whether the further representations he intends to take into account in respect of the planning application for a football stadium at Falmer, East Sussex, will be limited to *(a)* those commenting on the report by his planning inspector on the draft Brighton and Hove Local Plan and *(b)* those who had already made formal representations at or before the public inquiry into the football stadium application. [165688]

Keith Hill: My right hon. Friend the Deputy Prime Minister will take into account all representations made to him, as far as they are relevant, in making his decision on the applications for a football stadium at Falmer, East Sussex.

It will be clear from the decision letter when issued what matters have been taken into account and the weight that has been attached to any particular matter.

Government Offices for the Regions

Mr. Jenkin: To ask the Deputy Prime Minister how many people were employed in each of the Government offices for the regions in *(a)* 2003–04 and *(b)* each of the last three years; and how many are budgeted for the next year. [164808]

Yvette Cooper: The number of staff working in Government offices has increased as more Departments have devolved more work to be carried out in the regions. The figures for February 2004 and in each of the last three years are as follows:

Staff Employed in the Government Offices for the Regions

GO Region	*February 2004*	*March 2003*	*March 2002*	*March 2001*
GO South East	327	277	274	239
GO South West	344	309	294	248
GO London	321	282	258	280
GO North West	356	351	340	377
GO North East	325	296	267	258
GO East Midlands	281	277	253	221
GO West Midlands	318	301	286	289
GO East	268	235	190	172
GO Yorkshire and the Humber	310	283	267	255
Total	2,850	2,611	2,429	2,339

The figures for 2001–04 include all permanent, casual and fixed term appointments who were in post in the Government offices, but exclude those on secondment, career break, maternity leave or special leave without pay. The figure given in my answer of 26 January for staff then in post in the Government office for north-east should have been 322. Staffing in the Government offices for 2004–05 has been budgeted to cover the same number of staff as are currently employed.

Green Belt

Bob Spink: To ask the Deputy Prime Minister if he will make it his policy to allow planning applications for replacement on a one-for-one basis in the green belt where the previous buildings have been removed for safety reasons; and if he will make a statement. [165376]

Keith Hill: National policy on development in green belts is set out in Planning Policy Guidance note (PPG) 2. This states that save for a few specific exceptions the construction of new buildings inside the green belt is inappropriate development. One exception is made for the replacement of an existing dwelling, which need not be inappropriate, providing the new dwelling is not materially larger than the dwelling it replaces.

In other cases where a new building, including a replacement building, is proposed, and the building is not covered by one of the exceptions in PPG2, the onus is on the applicant to demonstrate that very special circumstances exist to justify inappropriate development. It will have to be shown that these clearly outweigh the harm by reason of inappropriateness, and any other harm, that the development will cause to the green belt.

Mr. Swayne: To ask the Deputy Prime Minister pursuant to his written statement of 29 March 2004, *Official Report*, column 73WS, on green belt statistics, when he decided to proceed with the designation of the New Forest as a national park. [165898]

Keith Hill: No decision has been made. I am advised that the Inquiry Inspector's report is currently with Defra Ministers who alone must decide whether to confirm, modify, or reject the Designation Order that the Countryside Agency made in 2002.

Gypsies/Travellers

Mr. McNamara: To ask the Deputy Prime Minister which local authorities have taken *(a)* legal action and *(b)* eviction proceedings against Gypsies and Travellers in the last year for which figures are available. [164095]

Yvette Cooper: This information is not being held centrally and could be provided only at disproportionate cost.

Housing

Mr. Edward Davey: To ask the Deputy Prime Minister pursuant to his answer of 9 February 2004, *Official Report*, column 1227W, on HMOs, if he will place copies of the responses to Licensing of Houses in Multiple Occupation in England, A Consultation Paper in the Library. [165708]

Keith Hill: Further to the commitment I gave on 9 February in response to a question from the hon. Member for Kingston and Surbiton to make copies of the responses to the 1999 consultation on Licensing of Houses in Multiple Occupation in England in the Library, I can confirm that on 19 March 2004 these were made available in the Library of the Houses.

Matthew Green: To ask the Deputy Prime Minister for what reason his analysis of responses to the consultation paper on licensing houses in multiple occupation (HMOs) in England and Wales did not include an analysis of the responses to the proposal to introduce a duty of care on the owners and managers of HMOs to ensure the health and safety of their tenants; and if he will publish an analysis of these responses. [166199]

Phil Hope: The analysis of the responses to the consultation paper on licensing of houses in multiple occupation, which was made available in the Library on 19 March 2004, was a summary analysis. A full analysis of the responses has now been made available in the Library, including that on the proposal to introduce a duty of care on owners and managers of HMOs to ensure the health and safety of their tenants.

Matthew Green: To ask the Deputy Prime Minister how many respondents to the consultation paper on licensing houses in multiple occupation (HMOs) *(a)* supported, *(b)* opposed and *(c)* did not express an opinion about the proposal to introduce a duty of care on the owners and managers of all HMOs to ensure the health and safety of their tenants. [166200]

Phil Hope: A total of 579 responses were received to the 1999 consultation paper on Licensing of Houses in Multiple Occupation in England.

A majority of the respondents—363 did not express any views on the proposal to introduce a duty of care on the owners and managers of HMOs. Five respondents were opposed to the proposal, 211 were in favour.

Mr. Hayes: To ask the Deputy Prime Minister what research has been undertaken to assess bad management practices within houses of multiple occupation in areas of *(a)* high and *(b)* low demand since 2001; and what the results have been. [166283]

Keith Hill: The Government has not undertaken any specific research into management practices within houses in multiple occupation since 2001.

Mr. Hayes: To ask the Deputy Prime Minister what the Government estimates will be the cost of an adequate monitoring scheme of licensing of houses of multiple occupation. [166286]

Phil Hope: The Government has undertaken to review the scope and operation of licensing of houses in multiple occupation within three years of its implementation. It will consult the Local Government Association and stakeholders (including landlord representative organisations) as to what tools for monitoring need to be in place, and the costs involved, to assist in carrying out the review.

Mr. Hayes: To ask the Deputy Prime Minister what consultations he has had with landlords and landlords' representatives regarding licensing of houses of multiple occupation; and what the outcomes were. [166294]

Phil Hope: Landlords and their representatives were consulted on the draft Housing Bill and were subsequently invited to present evidence to the Select Committee that scrutinised the Bill. Ministers and officials have had a number of meetings with landlords' representatives on the provisions of the Bill and its implementation. The views of landlords and their representatives (including the evidence given to the Select Committee) have been taken into consideration in developing the scheme for licensing of houses in multiple occupation in the Housing Bill. The Government is committed to continue consultation with stakeholders (including landlords) on the implementation of the licensing provisions in the Bill and it hopes to meet landlords' representatives as soon as possible to discuss this further.

A list of all individual consultations that have been carried out cannot be provided other than at disproportionate cost.

Miss McIntosh: To ask the Deputy Prime Minister what recent representations he has received on affordable homes in the Vale of York. [166534]

Keith Hill: My right hon. Friend has received three letters about affordable housing in the Vale of York from the hon. Member since November 2002. In addition, affordable housing features in discussions that the Government Office has with local authorities in the area, and appeared in their comments on the draft regional housing strategy last year. Local partnerships in the Vale of York are currently discussing three affordable housing proposals for Regional Housing Board funding in 2005–06 with the Board.

Matthew Green: To ask the Deputy Prime Minister what estimate he has made of the *(a)* number and *(b)* proportion of houses in multiple occupation with three or more storeys which have four or fewer occupants. [162718]

Keith Hill: According to the English House Condition Survey 1996, there are 622,000 buildings in England which can commonly be described as houses in multiple occupation and which are occupied by four or fewer persons. The Government have made no estimate as to the number of those HMOs that are three storeys or more.

Mr. Frank Field: To ask the Deputy Prime Minister how *(a)* the Starter Homes Initiative and *(b)* the Abandoned Homes Initiative have benefited the residents of Birkenhead. [166281]

Phil Hope: Since September 2001, the Starter Home Initiative (SHI) has been helping key workers into home ownership in areas where the high cost of housing serves to undermine recruitment and retention of skilled staff in our key public services. It has not been available to key workers in the North West. The SHI was superseded from 1 April by a new key worker housing programme—Key Worker Living. This is also not available in the North West.

I am not aware of an Abandoned Homes Initiative. However, our Market Renewal Pathfinders are a comprehensive programme to tackle low demand and abandonment in nine areas of England. The area of the Merseyside Pathfinder includes parts of, Liverpool, Sefton and Wirral, including part of Birkenhead. The Pathfinder has been allocated a total £90 million of the Market Renewal Fund for the period up until March 2006. This includes £4 million for "early actions" announced on 3 April 2003, *Official Report*, column 65 Written Statements, and a further £86 million which was announced on 2 February in my right hon. Friend the Deputy Prime Minister's publication 'Making it happen: The Northern Way', *Official Report*, column 26WS. It is for the Pathfinder to make decisions about how it spends this allocation in line with our aim to tackle low demand and abandonment.

Sue Doughty: To ask the Deputy Prime Minister what the environmental sustainability requirements are for *(a)* new build housing and *(b)* major renovation of housing. [165266]

Phil Hope: The environmental requirements for both new and renovated housing are currently limited to the conservation of energy and water. Significant improvements in the energy performance of all building were made with the revision of Part L of the Building Regulations in 2002. Part L is now being reviewed to address the requirements of the Energy Performance of Buildings Directive and the Energy White Paper. Water conservation is currently being evaluated to see how it can be incorporated in the Building Regulations.

In addition all new developments that are publicly funded through the Housing Corporation must comply with the Corporation's published Scheme Development Standards (April 2003).

From April 2003 all new homes funded by the Housing Corporation are required to achieve a BRE EcoHomes environmental assessment rating of "pass" as a minimum essential condition of grant. Registered Social Landlords are encouraged to aim for the higher 'good' rating and receive an increase of 1–2 per cent. in their Total Cost Indicator (TCI) where such certification is obtained in conjunction with 'Secured by Design' certification. From April 2005 "good" will be the minimum requirement, with "very good" becoming a recommended item.

Jeremy Corbyn: To ask the Deputy Prime Minister what his latest estimate is of the number of new housing units that will become available in the London Borough of Islington in *(a)* 2004–05 and *(b)* 2005–06, broken

down by (i) council, (ii) housing association and (iii) co-operatives; and what his estimate is of the number of private dwellings for sale that are likely to become available in the same period. [166358]

Keith Hill: Provisional information from the Housing Corporation states that the number of housing association dwellings to be provided in Islington in the two years 2004–06 is 1229. There will be no council houses built and the Office of the Deputy Prime Minister does not have information on cooperatives.

As regards new private housing for sale, the Office of the Deputy Minister does not have precise estimates. The London Plan target for Islington is 900 new "homes" Annually, or 1800 over two years, including supply from all sources. New private housing for sale will be a major component, but the figure includes the housing association dwellings the Office of the Deputy Minister has just referred to, reduction in vacancies and additional non-self contained accommodation.

Mr. Hayes: To ask the Deputy Prime Minister what measures are in place to assess the effectiveness of the implementation of the Housing Act 1996; and what their findings are. [166336]

Keith Hill: The Office of the Deputy Prime Minister considers any relevant provisions of the Act as part of different aspects of housing policy, and has amended these where appropriate. Changes include:

new provisions for Houses in Multiple Occupation (HMOs) in the current Housing Bill,

which also amends Part 5 of the 1996 Act to allow introductory tenancies to be extended.

Part 2 of the Commonhold and Leasehold Reform Act 2002 amended provisions made by the 1996 Act about service charges and leasehold enfranchisement.

Part 2 of the Anti-social Behaviour Act 2003 has replaced the 1996 Act provisions about anti-social behaviour injunctions and made new provision (demoted tenancies) designed to control anti-social behaviour by tenants of social landlords.

the Homelessness Act 2002 made substantial amendments to Parts 6 and 7 of the 1996 Bill.

Mr. Hayes: To ask the Deputy Prime Minister what measures are in place to assess the impact of the Housing Act 1996 on the housing market; and what their findings have been. [166337]

Phil Hope: The Housing Act 1996 made a range of provisions concerning the social rented sector (including the role of the Housing Corporation and tackling anti-social behaviour). It also covered the private rented sector (including the registration of Houses in Multiple Occupation (HMOs), and the creation of a system whereby Assured Shorthold Tenancies became the standard form of letting in the Private Rented Sector), leasehold reform and homelessness. No comprehensive assessment of the impact of the Act has been carried out. However its effects can be assessed from data provided by the Survey of English Housing. For example this has shown the proportion of households renting privately remaining static at around 10 per cent. of the housing market.

Mr. Hayes: To ask the Deputy Prime Minister what measures are in place to assess the effectiveness of the registration schemes provided by the Housing Act 1996; and what their findings have been. [166338]

Keith Hill: When the Housing Act 1996 was enacted, the previous administration did not put in place any measures to assess the effectiveness of its provisions for registration schemes for Houses in Multiple Occupation (HMOs). These provisions fell short of the present Government's commitment to introduce the mandatory licensing of HMOs and the repeal of the provisions of the 1996 Act. The Office of the Deputy Prime Minister is committed to reviewing the effectiveness and scope of licensing within three years of implementation.

Mr. Gordon Prentice: To ask the Deputy Prime Minister what assessment he has made of the capacity of the labour market in the nine housing market renewal pathfinder areas to provide the skilled tradespeople needed to deliver the programmes. [165464]

Keith Hill: Each of the pathfinders, as part of their strategy for turning around areas of low demand, is looking at the skills and capacity requirements necessary to deliver their programmes.

More widely, the Government is firmly committed to supporting initiatives to improve recruitment and training and is:

Funding the new Sector Skills Council, Construction Skills. This is the lead agency delivering recruitment and also addressing management issues.

Funding the Ambition Construction programme aimed at training young people in the various construction trades.

Working with the Strategic Forum and industry to encourage innovation to foster improvement and increased productivity, and supporting Constructing Excellence to encourage best practice in training and in engagement of supply chains by main contractors.

Mr. Hayes: To ask the Deputy Prime Minister whether registration schemes provided under the Housing Act 1996 will retain their legal status under the provisions of the Housing Bill. [166282]

Keith Hill: The provisions in the Housing Act 1996 for registration schemes for Houses in Multiple Occupation (HMOs) will be repealed by the Housing Bill. Under the transitional arrangements for which the Bill provides, however, registered HMOs that meet the requirements of the new licensing arrangements will become licensed for the remaining term of their existing registration.

Mr. Betts: To ask the Deputy Prime Minister what average annual real terms increase in the 2004–05 management and maintenance allowance would be required for the average allowance in England to reach, by the Decent Homes target year 2010–11, the real terms level of management and maintenance expenditure needed as set out in the Estimate of the Need to Spend on Maintenance and Management in Local Authority Housing published in June 2003. [166615]

Keith Hill: Based on the stock of English local authority housing at April 2003, an annual real increase of around 8.9 per cent. in management and maintenance allowances would be required for the six years 2005–06 to 2010–11 for allowances to reach the estimate of need.

Mr. Betts: To ask the Deputy Prime Minister by how *(a)* many percentage points and *(b)* much the average 2001–02 management and maintenance allowance would have had to increase to reach the level of the need to spend on management and maintenance indicated by

the findings in "Estimate of the Need to Spend on Maintenance and Management in Local Authority Housing", published in June 2003. [166636]

Keith Hill: The average management and maintenance allowance per dwelling of English local authorities was £1,030.64 in 2001–02 (in 2001–02 prices) and is £1,316.35 for 2004–05 (in 2004–05 prices). The need to spend is estimated at £2,193.92 in 2004–05 prices. Hence the 2004–05 level of allowances would have to increase by about 67 per cent. in real terms to reach the estimated level of need.

Land Use

Norman Baker: To ask the Deputy Prime Minister what the total area designated for urban land use in *(a)* 1974, *(b)* 1984, *(c)* 1994 and *(d)* 2003 was in England. [165753]

Keith Hill: The information requested is not held centrally and could only be provided at disproportionate cost. The information available for designated urban land areas with populations of 1,000 or more in census years:

	Million hectares
1981	1.035
1991	1.087
2001	1.159

These figures are for built-up areas, irrespective of administrative boundaries.

Local Government Finance

Mr. Sanders: To ask the Deputy Prime Minister what the *(a)* Band D council tax and *(b)* average council tax paid in (i) Plymouth, (ii) Torbay, (iii) Torridge, (iv) West Devon, (v) South Hams, (vi) Exeter, (vii) Teignbridge, (viii) Mid Devon, (ix) East Devon and (x) North Devon were in financial year 2004–05, including all precepts. [165194]

Phil Hope: The figures are available from the Office of the Deputy Prime Minister's website at www.localodpm.gov.uk/finance/ctax/ctax045.htm.

On the website, figures for own Band D council tax and average area council tax can be found, for all authorities, in Table 2—2004–05 Council taxes (average per dwelling and Band D for two adults): individual local authorities.

Mr. Sanders: To ask the Deputy Prime Minister what the percentage council tax change has been in *(a)* Plymouth, *(b)* Devon and *(c)* Torbay in each of the past three years. [165195]

Mr. Raynsford: The increase in average area council tax for Plymouth, Devon and Torbay in each of the last three years is tabled as follows.

Percentage

	Plymouth UA	*Torbay UA*	*Devon*
2002–03	13.4	16.8	7.1
2003–04	11.6	12.0	10.1
2004–05	10.1	18.3	6.0

Devon has been taken to comprise the area of Devon's eight district councils but exclude the areas of Plymouth and Torbay unitary authorities.

David Taylor: To ask the Deputy Prime Minister what *(a)* new advice he has given to and *(b)* new requirements he has imposed on billing authorities in relation to the council tax payment dates for 2004–05. [165326]

Mr. Raynsford: The Council Tax (Administration and Enforcement) (England) Regulations 1992 (SI 1992/613 as amended) set out the statutory position as to the administration of council tax. Regulation 21 in particular deals with council tax payments. No new advice or requirements have been given to or imposed on billing authorities in relation to payments dates for council tax for 2004–05.

Mr. Spring: To ask the Deputy Prime Minister what the level of council tax receipts collected by local authorities was irrespective of the financial year to which they relate in *(a)* Suffolk, *(b)* Norfolk, *(c)* Essex and *(d)* Cambridgeshire in each year from 1996–97 to 2002–03; and what the population of each authority was in each year. [165582]

Mr. Raynsford: The information requested is tabled as follows.

Council tax receipts collected by local authorities[1]: 1996–97 to 2002–03

	1996–97	*1997–98*	*1998–99*	*1999–200*	*2000–01*	*2001–02*	*2002–03*

Office for National Statistics

Brian Cotter: To ask the Deputy Prime Minister what percentage of council tax was collected within the North Somerset unitary authority in each year since 1997; and what the total cost of administering council tax payments was in each year. [165680]

Phil Hope: The information requested is tabled as follows.

North Somerset Council

£ million

	Percentage of council tax collected in-year[1]	*Council tax collection costs*
1997–98	96.9	0.755
1998–99[2]	96.7	—
1999–2000	96.6	1.071
2000–01	96.7	1.139
2001–02	97.0	1.198
2002–03	97.1	1.811
2003–04[3]	—	1.674

[1] Amount of council tax for the year received by the end of the financial year as a percentage of the net collectable debit for the year.

[2] The collection costs figure was reported as zero: the costs are assumed to have been recorded elsewhere on the RO 6 return.

[3] The collection rate figure is not yet available, and the collection cost figure is a budget figure that includes business rate collection costs (in excess of the allowance) and the costs of rate and community charge collection

Torbay UA	[6]—	[6]—	97.3	94.7	[7]—	—	—

[1] As reported on QRC4 forms. Council tax collection continues after the end of the financial year to which amounts relate and so the final percentage collected is higher than the figures shown, which exclude amounts for earlier years.
[2] Data collected by the Audit Commission as Audit Commission or Best Value Performance Indicators. Figures for the whole of Cornwall and Devon are not readily available.
[3] The definition of rent collected changed in 2000–01 (from indicator B7 to indicator BV66a) and so figures are not comparable.
[4] These figures may not be reliable.
[5] Large scale stock transfer has taken place.
[6] Not applicable: data are not comparable before and after Plymouth and Torbay because unitary authorities as a result of local government reorganisation.
[7] Data not collected.

Mobile Phone Masts

Mr. Rosindell: To ask the Deputy Prime Minister if he will set out the procedures of the appeals process for applications for mobile telephone transmitting masts. [165559]

Keith Hill: Section 78 of the Town & Country Planning Act 1990 sets out an applicant's right to appeal against planning decisions made by a local planning authority (including those for mobile telephone transmitting masts) and the failure of the local planning authority to take such decisions. There are three methods of appeal—written representation, hearing, and inquiry—and the procedures to be followed are contained with DETR Circular 05/2000. The time limit for making an appeal is three months for those applications registered by the local planning authority on or after 5 September 2003, and six months for those registered prior to that date.

Mr. Rosindell: To ask the Deputy Prime Minister how many applications for telephone masts he has *(a)* rejected and *(b)* approved during the last 12 months. [165560]

Keith Hill: The information requested is not held centrally and could be provided only at disproportionate cost. Therefore, the following information relates to appeal decisions about telecommunications development generally.

	1 April 2003 to 31 March 2004
Received	608
Withdrawn	31
Allowed	211
Dismissed	163
Total decided	374
In hand	203

Note:
All figures relate to the period in which the appeal was received, not necessarily the period in which it was decided.

Neighbourhood Renewal Fund (Crosby)

Mrs. Curtis-Thomas: To ask the Deputy Prime Minister how much has been allocated to Crosby from the Neighbourhood Renewal Fund. [164414]

Yvette Cooper: Crosby is situated in the Sefton district. Overall Sefton has been allocated £12.6 million (2001–02: £2.8million, 2002–03: £4.2 million and 2003–04: £5.6 million) of Neighbourhood Renewal Fund (NRF). Sefton is due to receive a further £5.6 million in 2004–05 and £5.6 million in 2005–06.

It is for each local authority to work with their fellow local strategic partnership members to agree exactly how to use NRF in support of the priorities in their local area.

North Bow

Ms Oona King: To ask the Deputy Prime Minister if he will make a statement on the effectiveness of the Tower Hamlets Housing Action Trust in the regeneration of North Bow. [166130]

Keith Hill: The Tower Hamlets Housing Action Trust (HAT) has completed its work on budget (including £ 123 million of Government assistance) and one year ahead of its original completion target of March 2005. It has exceeded its original objectives for the building of new homes or the improvement of existing ones to the highest standards; ensuring effective, sensitive and responsive maintenance and management of homes; promoting diversity of tenure within the HAT's estates; and improving the economic, social and environmental conditions of the area, including improved jobs opportunities, youth and community facilities.

Nearly 1,000 new homes have been built. Only one tower block, and one sheltered housing scheme, are to remain—both of which will have been extensively refurbished by the end of the HAT programme.

The high level of resident involvement has remained core to the HAT's ethos throughout its life. This included tenant involvement in the actual design of

homes. The recent Quality of Life Survey showed that 60 per cent. of residents feel that levels of crime have gone down and community spirit and neighbourliness have risen.

The HAT has also delivered, in partnership with the Bow People's Trust (BPT) and Old Ford Housing Association—and many other local agencies—a range of community and economic development initiatives to tackle the problems of social exclusion in the area. These initiatives include the Tower Hamlets Credit Union in Roman Road; the regeneration of the Roman Road Market; Growing Concerns—a community gardening project; a Construction Training Initiative for ethnic communities; a range of services for the elderly and support to local schools. A large area of open space is also being provided in the HAT area and a new Youth Centre will soon be built.

The HAT has encouraged its successor organisations to continue its vision and ensure that the gains made locally in neighbourhood renewal are sustainable and beneficial to the whole community for the long term. To this end, the HAT has awarded an endowment of some £3 million which will be used exclusively in the local area through the "Action for Bow" Trust Fund.

Public Lavatories

Mr. Gummer: To ask the Deputy Prime Minister what the total amount raised by the uniform business rate levied on public lavatories was in 2003–04. [165938]

Phil Hope: The information requested is not held centrally, and could be provided only at disproportionate cost.

Mr. Gummer: To ask the Deputy Prime Minister what plans he has to revise the uniform business rate in order to exclude the rating of publicly owned public lavatories. [165935]

Mr. Raynsford: None.

Local authority property—whether offices, schools, libraries, sporting facilities, car parks or lavatories—is rateable.

Recruitment

Matthew Taylor: To ask the Deputy Prime Minister what the cost of recruitment of civil servants for the Department was in each financial year since 1996–97, broken down by *(a)* delegated or contracted out recruitment procedures and *(b)* recruitment procedures carried out by the Department. [158193]

Yvette Cooper: The Office of the Deputy Prime Minister was created on 29 May 2002.

(a) The total cost of recruitment of civil servants, using contracted out recruitment procedures from June 2002 to March 2003 is £457,000.

(b) The provision of a breakdown of costs for internal or Whitehall-wide recruitment carried out by the Office could be provided only at a disproportionate cost.

All permanent recruitment into the Office is carried out through fair and open competition and in accordance with the rules set out in the Civil Service Commissioners Recruitment Code.

Regeneration Funding (Ilford, North)

Linda Perham: To ask the Deputy Prime Minister how much funding has been allocated for regeneration in Ilford, North since 1997. [164881]

Yvette Cooper: Information on the allocation of resources broken down to constituency level is not held centrally and could be provided only at disproportionate cost. The London borough of Redbridge and the London Development Agency have advised the Office of the Deputy Prime Minister that the amount of funding which has been allocated to regeneration projects in the borough since 1997 is tabled as follows:

Programme	*Source*	*Date*	*Funding (£ million)*	*Match funding (£ million)*
Ilford Town Centre Redevelopment-ODPM allocation from Sustainable Communities Funding	ODPM	2003–06	0.6	0.53
The Health Ladder to Social Inclusion	SRB Allocation administered through LD A	1999–2006	[1]8.0	11.6
From offending to Employment in North East London	SRB Allocation administered through LDA	1997–2003	[2]1.5	2.36
Bridging the Gap	SRB Allocation administered through LDA	1997–2002	3.0	6.0
South Ilford Business Development	LDA 2 Programme	2003–06	0.64	0.47
Barnabas Workshop—Job Shop South Ilford Business Partnership	LDA 2 Programme	2003–06	0.31	—

[1] Programme covering Redbridge and Waltham Forest is delivered by the North East London Health Authority and benefits residents in both boroughs.

[2] Programme led by the Probation Service and benefiting offenders and young people at risk of offending in five North East London boroughs including Redbridge.

In addition to these allocations there have been further allocations to the borough from the European Social Fund for training schemes.

The match funding details includes Local Authority, Health Authority, Learning and Skills Council and private sector resources and is specifically related to the regeneration programmes listed.

Regional Assemblies

Geraldine Smith: To ask the Deputy Prime Minister what the estimated costs are of setting up elected regional assemblies in *(a)* the North West, *(b)* the North East and *(c)* Yorkshire. [165460]

Mr. Raynsford: I refer the hon. Member to the answer given to the hon. Member for North Essex on 18 March 2004, *Official Report*, 451W.

Mr. Rosindell: To ask the Deputy Prime Minister if he will make a statement on the effect of the proposed regional assemblies on the operation of *(a)* town, *(b)* county, *(c)* borough and *(d)* city councils in the regions in which assemblies are set up. [165607]

Mr. Raynsford: Elected regional assemblies will be required to actively involve stakeholders in the region in their work. We would expect that local authorities (including town and parish councils) in any region that has an elected assembly will work in partnership with the assembly to deliver their vision for the region.

In regions that choose to have elected assemblies, two-tier local authorities (county and shire district councils) will be restructured into a single tier.

Regional assemblies will generally not take responsibilities from local authorities. Local government will remain the community champion with responsibility for local service delivery, while regional government will lead in the development and implementation of the strategic vision for the region.

Mr. Jenkin: To ask the Deputy Prime Minister pursuant to paragraph 5.5 of Cm 5511, what level of additional funding will be made available for rewarding elected regional assemblies which achieve or exceed the targets set by central Government. [165728]

Mr. Raynsford: No decisions have been taken on the likely level of performance reward grant for elected regional assemblies. Targets will be agreed between elected assemblies and central Government, not set by central Government.

Mr. Jenkin: To ask the Deputy Prime Minister how many *(a)* officials and *(b)* press officers are involved in the information campaign on elected regional assemblies, "Your Say". [162422]

Mr. Raynsford: No members of staff are working full-time on the information campaign or elected regional assemblies.

However, there are four administrators, three publicity officers and three press officers in the Office of the Deputy Prime Minister involved in the campaign as part of their wider communications responsibilities. There are also 14 members of staff across three Government Offices involved in the campaign as part of their wider responsibilities.

Mr. Rosindell: To ask the Deputy Prime Minister what steps he will take to encourage voter turnout for the regional assembly referendums. [165606]

Mr. Raynsford: The Office of the Deputy Prime Minister has announced that we intend to hold the referendums as all-postal ballots. In addition, we are running the "Your Say" campaign about the proposed powers of assemblies. As part of this information campaign, there will be a leaflet to every household.

The Electoral Commission also have a power under the Regional Assemblies (Preparations) Act to do anything they think necessary or expedient to encourage voting at these referendums.

Mr. Jenkin: To ask the Deputy Prime Minister if he will place in the Library copies of the responses to the Consultation Papers on *(a)* regional referendums spending limits and *(b)* the conduct of the referendums. [166516]

Mr. Raynsford: Copies of the responses to the following consultation papers are available in the Library:

(a) Registration and spending limits for those wishing to campaign;

(b) Combining regional and local referendums and local referendum rules; and

(c) Fees and charges for counting officers.

In addition, a summary of the responses is available on the Office of the Deputy Prime Minister's website.

Mr. Jenkin: To ask the Deputy Prime Minister what the total budget for the "Your Say" information campaign is; and how much he has budgeted for *(a)* leaflets, *(b)* posters, *(c)* broadcasting, *(d)* ministerial visits, *(e)* exhibition stands, *(f)* design costs, *(g)* press information and *(h)* other associated costs. [165727]

Mr. Raynsford: The Office of the Deputy Prime Minister expects the "Your Say" information campaign to cost up to £5 million in total. Likely costs are not broken down in the way requested. However current estimates of the main components are:

	£
(a) Production and distribution of leaflets	1,700,000
(b) Posters	650,000
(c) Broadcast media	1,120,000
(d) Newspapers	475,000
(e) Events	420,000
(f) Other	635,000

Regional Devolution

Mr. Rosindell: To ask the Deputy Prime Minister if he will make a statement on progress with plans for regional devolution in areas which express an interest. [165608]

Mr. Raynsford: The Government are continuing to prepare for referendums to be held in each of the North East, North West, and Yorkshire and the Humber about whether people want an elected assembly for their region.

This includes undertaking our information campaign "Your Say", which is aimed at ensuring people in the three northern regions are aware of the issues before they cast their vote in a referendum.

If there is a "yes" vote, the Office of the Deputy Prime Minister will then bring forward legislation whenever parliamentary time allows to enable elected regional assemblies to be established. We aim to publish a draft of that Bill before the first referendums are held.

Mr. Rosindell: To ask the Deputy Prime Minister if he will make a statement on the process for establishing regional devolution in areas that vote in favour of the proposal. [165618]

Mr. Raynsford: The Office of the Deputy Prime Minister will lay orders for various aspects of the referendums in the summer.

Before we hold referendums in regions that may want to establish elected assemblies, we aim to publish a draft Bill, which will set out the process of establishing the assemblies and the powers they will have. The earliest that elections could be held is in 2006.

Room Sizes

Mr. Gordon Prentice: To ask the Deputy Prime Minister if he will re-introduce minimum standards for the size of rooms in new dwellings. [165463]

Phil Hope: The Government has no plans at present to introduce minimum room size standards for new dwellings into the building regulations.

Science Strategy

Dr. Iddon: To ask the Deputy Prime Minister what steps he has taken to enhance science in his Department since the publication of the Government's science strategy Investing in Innovation. [162245]

Yvette Cooper: The Office of the Deputy Prime Minister published a Science and Innovation Strategy for my Department in July 2003 which sets out: The Office of the Deputy Prime Minister's commitment to maintaining the use of science and research for policy making and delivery; how The Office of the Deputy Prime Minister's evidence base is being developed to support it's objectives; how The Office of the Deputy Prime Minister is engaging with our research stakeholders; and how The Office of the Deputy Prime Minister is developing it's research base and building capacity, both internally and in the wider research community. The Office of the Deputy Prime Minister is implementing the recommendations of the Cross-Cutting Review of Science and Research in co-operation with OST and we will look for opportunities to use our research to promote innovation.

Special Constables

Mr. Todd: To ask the Deputy Prime Minister what his policy is on the granting by parish councils of *(a)* honoraria and *(b)* ex-gratia payments to special constables serving their area. [165467]

Phil Hope: Parish Councils are responsible for their actions and decisions to their electorate and to the auditor. Special constables may be paid allowances by a police authority only as determined by the special constables regulations. Any proposals to offer honoraria or ex-gratia payments to special constables would require approval by the Home Secretary under The Special Constables (Amendment) Regulations 2002.

Public Expenditure (Sittingbourne and Sheppey)

Mr. Wyatt: To ask the Deputy Prime Minister how much public funding was spent on *(a)* regeneration and regional development, *(b)* housing and *(c)* planning in the constituency of Sittingbourne and Sheppey between (i) 1992 and 1997, (ii) 1997 and 2001 and (iii) 2001 and 2004. [159488]

Yvette Cooper: The readily available information on the funding (£ million) provided by central Government to Swale District Council for these activities is tabled as follows. Spend, particularly on homelessness, strategic housing work and planning, is also funded from general Revenue Support Grant and the authority's own resources.

	1992–93 to 1996–97 (five years)	*1997–98 to 2000–01 (four years)*	*2001–02 to 2003–04 (three years)*
(a) Regeneration and regional development			
Single Regeneration Budget[1]	Not available	4.1	3.4
Mid-Kent Leader Plus[2]	—	—	0.3
(b) Housing			
Local authority housing programme[3]	14.9	7.2	4.4
Local Authority Social Housing Grant	[4]7.9	9.3	4.7
Approved Development Programme	[4]11.4	4.5	6.0
Homelessness	—	—	0.1
(c) Planning[5]	—	—	0.2

[1] The funding for two current SRB schemes.
[2] Estimated figure for Swale's of a cross-authority scheme.
[3] Includes an element assumed to be funded from the authority's capital receipts.
[4] 1994–95 to 1996–97 only.
[5] Planning delivery grant introduced in 2003–04.

Tenancy Deposit Scheme

Ms Oona King: To ask the Deputy Prime Minister if he will place in the Library a copy of the policy statement being used to inform the Law Commission's indicative clauses for a statutory tenancy deposit scheme. [166129]

Phil Hope: The reference to the Law Commission is for them to consider indicative clauses on tenancy deposit protection to accompany the publication of their draft legislation Bill on tenure reform. These will illustrate how a compulsory requirement for tenancy deposit protection and adjudication over tenancy deposit disputes would be implemented using the mechanisms set out in their report in November on Renting Homes.

This reference does not require the Law Commission to consider the desirability or otherwise of regulating tenancy deposits. Neither does it represent a

commitment by the Government to legislating on the basis of Law Commission's draft legislation or the draft clauses on tenancy deposit protection and adjudication.

When it is published we will need to consider the Law Commission's draft legislation very carefully. The Government will publish its approach to tenancy deposit protection shortly afterwards.

Thames Gateway

Mr. Hayes: To ask the Deputy Prime Minister whether the Government estimates that there is sufficient urban capacity in the London part alone of the Thames Gateway Development area to accommodate up to 120,000 new homes. [166288]

Phil Hope: The Government announced in July 2003 its commitment to support development of at least 120,000 new homes in Thames Gateway overall, by 2016. This assumed development of at least 60,000 within the London part of the Gateway by 2016. It did not preclude further growth, and since then work by the Greater London authority (GLA) suggests that there could be substantially more capacity in the London gateway over the longer term.

Mr. Hayes: To ask the Deputy Prime Minister what percentage of the 120,000 new homes envisaged for Thames Gateway development the Government foresees will be built on previously developed land. [166289]

Phil Hope: The presence of a substantial reservoir of previously developed land is one of the key features of the Thames gateway. It is estimated to contain some 2 per cent. of the land area of the south-east but over 17 per cent. of its currently available supply of previously developed land. In the period 1997–2000 an estimated 80 per cent. of new dwellings in the gateway were built on previously developed land, which is above the national target of 60 per cent. and the gateway strategy aims to at least maintain this trend. Detailed allocation of land for new development will be undertaken through the statutory plan-making process by local planning authorities.

TREASURY

Teenage Pregnancy Rates

Mr. Sanders: To ask the Chancellor of the Exchequer what the teenage pregnancy rates were for each of the last three years, broken down by constituency. [165824]

Mr. Boateng: The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Len Cook to Mr. Adrian Sanders, dated 19 April 2004:

As National Statistician I have been asked to reply to your recent question asking what the teenage pregnancy rates were for each of the last three years, broken down by constituency. (165824)

The most recent year for which figures on teenage conceptions are available is 2001. For information on teenage conceptions by parliamentary constituency, I would refer you to the answer given in the Official Report, volume no 21, column no 586W (16 December 2002). As population estimates for 2000 for parliamentary constituencies (as constituted in that year) are not available, rates cannot be supplied based on these figures. Teenage conception figures by parliamentary constituencies are not readily available for any other years. Figures for 1998 and 1999 are available by ward, local authority and health authority areas. Figures for 2001 are provisional and are only available for local and health authorities. For the purposes of this answer, 'teenage' refers to those aged under 18, in line with the target set by the Government strategy on Teenage Pregnancy.

National Statistics

Mr. Hoban: To ask the Chancellor of the Exchequer what financial and operational criteria will have to be met before the proposed relocation of the Office of National Statistics office in Titchfield receives approval. [165051]

Mr. Boateng: The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Len Cook to Mark Hoban, dated 19 April 2004:

As National Statistician, I have been asked to reply to your recent Parliamentary Question asking what financial and operational criteria will have to be met before the proposed relocation of the Office of National Statistics office in Titchfield receives approval. (165051)

An initial assessment of these issues was discussed with the Lyons Review team. A fuller assessment will be considered as part of the Spending Review, to inform Government decisions on the allocation of resources. We will be able to present this when those criteria are fully settled.

Mr. Hoban: To ask the Chancellor of the Exchequer if he will publish the Office for National Statistics quantification of the impact of aligning its employees' pay with market conditions outside London as it applies to those employees currently based in *(a)* London and *(b)* Titchfield (i) at present and (ii) once the relocation proposals are implemented. [164724]

Mr. Boateng: The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Len Cook to Mark Hoban, dated 19 April 2004:

As National Statistician, I have been asked to reply to your recent question concerning publication of the Office for National Statistics quantification of the impact of aligning its employees' pay with market conditions outside London as it applies to those employees currently based in *(a)* London and *(b)* Titchfield (i) at present and (ii) once the relocation proposals are implemented. (164724).

This information was provided to the Lyons review team on a confidential basis and will not be published.

Mr. Hoban: To ask the Chancellor of the Exchequer (1) who owns the Office for National Statistics offices in Titchfield; [164732]

(2) how much has been spent on the *(a)* maintenance and *(b)* refurbishment of the Office for National Statistics office at Titchfield in each of the last five years. [164738]

Ruth Kelly: The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Len Cook to Mark Hoban, dated 19 April 2004:

As National Statistician, I have been asked to reply to your recent questions concerning the Office for National Statistics (ONS) site at Titchfield. (164738, 164732)

The Titchfield site is a Crown freehold held by ONS under the name of the First Secretary of State.

The amount of money spent on the office at Titchfield for maintenance and refurbishment in each of the last five financial years is given below.

£000

	Maintenance	*Refurbishment*	*Total*
1998–99	219	238	457
1999–2000	247	354	601
2000–01	186	233	419
2001–02	299	412	710
2002–03	307	783	1,089
Total	1,258	2,018	3,276

Significant work was undertaken to refurbish the Titchfield accommodation occupied by the Neighbourhood Statistics and reprographics teams during 2003/04. The total forecast expenditure on these two projects during the year is £1.6 million, although final accounts for 2003/04 are not yet available.

Administration Costs

Mr. Letwin: To ask the Chancellor of the Exchequer what progress has been made in lowering administration costs as a proportion of total spending since his Budget statement. [165021]

Mr. Boateng: The Budget announced that the administration costs of all departments will be capped at or below the 2005–06 nominal level for the remainder of the 2004 Spending Review period. This will reduce administration costs to a planned 3.7 per cent. of total spending by 2008.

Child Benefit

Bob Spink: To ask the Chancellor of the Exchequer if he will make it his policy to pay benefits for each child rather than per pregnancy in the case of multiple births; and if he will make a statement. [166231]

Dawn Primarolo: By 2004–05, financial support for children through tax credits, child benefit and other benefits will have increased by £10.4 billion in real terms from its 1997 level, a rise of 72 per cent. The 2003 pre-Budget report announced a significant increase in the child element of child tax credit—up £180 to £1,625 a year from April 2004. Both the child element of child tax credit and child benefit are already paid in respect of each child in a household, according to income. The baby addition to the family element of child tax credit is intended to recognise the costs on the family of responsibility for a baby and as such is payable per family rather than per child. This and other structural design features of child tax credit will be kept under review, particularly in the light of the Government's commitment of halving child poverty by 2010.

Child Tax Credit

Mr. Alan Campbell: To ask the Chancellor of the Exchequer how many families in Tynemouth constituency receive child tax credit. [165359]

Dawn Primarolo: I refer my hon. Friend to my answer to my hon. Friend the Member for Burton (Mrs. Dean) on 15 March 2004, *Official Report*, column 98W.

Mr. Ben Chapman: To ask the Chancellor of the Exchequer how many families in Wirral south have received child tax credit. [166627]

Mr. Frank Field: To ask the Chancellor of the Exchequer how many families in Birkenhead have received child tax credit. [166310]

Dawn Primarolo: Estimates of the number of families receiving the child or working tax credit in each constituency appear in Child and Working Tax Credit Statistics Geographical analyses January 2004. This can be found on the Inland Revenue website at www.inlandrevenue.gov.uk/stats/personal-tax-credits/menu.htm. The estimates are based on a sample of cases, and are subject to sampling uncertainty.

Children (Overseas Holidays)

Tim Loughton: To ask the Chancellor of the Exchequer what proportion of children in England took holidays overseas in each of the last seven years. [165580]

Mr. Boateng: The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Len Cook to Tim Loughton, dated 19 April 2004:

As National Statistician, I have been asked to reply to your recent Parliamentary Question on the proportion of children in England that took holidays overseas in each of the last seven years.

The information requested is not available. However, the Office for National Statistics conducts the International Passenger Survey (IPS) which interviews people as they enter or leave the country. The IPS counts visits, and people who make more than one visit in a year can be counted more than once. From that source ONS can estimate the number of visits abroad made by UK residents aged under 16. The number of these visits, and the number of visits per 1,000 UK residents aged under 16, are shown in the table below for each of the last 7 years (1997–2003).

	Number of visits made by under 16s (thousands)	*Number of visits made per thousand under 16s*[1]
1997	4010	334
1998	4124	343
1999	4710	392
2000	4821	403
2001	5083	429
2002	5144	437
2003	5141	[2]

Notes:
[1] A single child may make several visits abroad in one year.
[2] 2003 population estimates are not yet available.

Capital Allowances

Mr. Frank Field: To ask the Chancellor of the Exchequer how many businesses in Birkenhead have benefited from the 100 per cent. tax exemption for computer and internet equipment. [166311]

Dawn Primarolo: We regret that the information is not available to estimate the number of businesses in Birkenhead which have benefited from the 100 per cent. first year capital allowances for the purchase of information and communication equipment.

Council House Tenancies

Mr. Prisk: To ask the Chancellor of the Exchequer after how many years council house tenancies will be notifiable under stamp duty land tax regulations. [166284]

Ruth Kelly: Under the usual terms of council house tenancies it is unlikely that any will be notifiable under Stamp Duty Land Tax.

Mr. Prisk: To ask the Chancellor of the Exchequer what estimate he has made of the number of council tenancies which will be notifiable under stamp duty land tax regulations by 2014. [166285]

Ruth Kelly: None.

Departmental Computers

Bob Spink: To ask the Chancellor of the Exchequer what plans he has to update computer *(a)* hardware and *(b)* software standard packages used in his Department. [166361]

Dawn Primarolo: Inland Revenue, Customs and Excise and HM Treasury all aim to ensure that their standard computer software and hardware is maintained at versions which reflect business needs, and which are consistent with industry norms. All three

departments have a policy of replacing older mainstream hardware as part of ongoing refreshment programmes.

Departmental Policies (Sustainable Development)

Norman Lamb: To ask the Chancellor of the Exchequer (1) what work his Department's Green Minister has undertaken in that capacity; [165527]

(2) what meetings his Department's Green Minister has attended in that capacity in the last 12 months; [165528]

(3) if he will list the meetings attended by a representative of his Department on the delivery of sustainable development across Government as co-ordinated by the Ministerial Sub-committee of Green Ministers; [165529]

(4) what steps he is taking to assist in the delivery of sustainable development within Government; [165530]

(5) what progress has been made on his Department's Sustainable Development Strategy. [165531]

John Healey: I refer the hon. Gentleman to the answer I gave him on 26 January 2004, *Official Report*, column 110W. Since then, the development of the next steps of environmental measures contributing to the Government's sustainable development strategy announced in Budget 2004 has been my responsibility. These included:

new eligibility criteria for climate change agreements;a package of measures to promote household energy efficiency including a reduced rate of VAT for ground source heat pumps, and possibly for micro-combined heat and power units from 2005, and incentives for the private rented sector to invest in energy efficiency;duty rates for sulphur-free fuels raised in line with inflation from September 2004 and, to encourage the use of this clearer fuel, the duty for ultra-low-sulphur fuels set at 0.5 pence per litre above this level from the same date;an increase in rebated fuel rates, and three-year certainty for duty differentials on biofuels and road fuel gases;reforms to the tax treatment of company vans and emergency vehicles;publication of the third progress report on the lorry road-user scheme;reform of the aggregrates levy relief scheme in Northern Ireland to ensure that the levy achieves its environmental aims there.

In addition to this work on economic instruments to tackle environmental threats, consideration of sustainable development is incorporated directly into policy areas across the Treasury. For example, work on international poverty reduction and public spending, including this year's spending review, contribute directly to the Government's sustainable development goals.

Departmental Policy

Mr. Nicholas Brown: To ask the Chancellor of the Exchequer if he will set out, with statistical information relating as directly as possible to the Newcastle upon Tyne, East and Wallsend constituency, the effects on Newcastle upon Tyne, East and Wallsend of his Department's policies and actions since 1997. [166876]

Ruth Kelly: The Government has put in place a radical programme of both macroeconomic and microeconomic reform since 1997 to improve the economic performance of all parts of the UK. There is significant evidence that these policies have already yielded considerable benefits for the Newcastle upon Tyne, East and Wallsend constituency.

For example, since May 1997, claimant unemployment has almost halved, long-term unemployment has fallen by almost three quarters and long-term youth unemployment has fallen by almost 90 per cent.

The Neighbourhood Statistics Service provides a wide range of statistical information at parliamentary constituency level, taken from the 2001 Census and other sources. This service is available on the National Statistics website at http://neighbourhood.statistics.gov.uk/.

Labour Statistics

Mr. Frank Field: To ask the Chancellor of the Exchequer (1) what the *(a)* change and *(b)* percentage change was in full-time permanent jobs in Birkenhead from 1997 to 31 December 2003; [166305]

(2) how many new jobs have been created in Birkenhead since 1997. [166306]

Ruth Kelly: The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Len Cook to Mr. Frank Field, dated 19 April 2004:

As National Statistician, I have been asked to reply to your recent Parliamentary Questions about full time jobs, and jobs created in Birkenhead. (166305, 166306)

While statistics on the number of new jobs created are not available explicitly, statistics from surveys enable comparisons to be made of net changes in the total number of jobs, from year to year.

The following table shows the information requested, relating to all jobs and full-time jobs, for 1997 and 2002, the latest year for which figures are available. No information is available about whether the jobs were permanent.

Number of full-time employees and total number of employees[1] in Birkenhead Parliamentary Constituency: 1997 and 2002

Number, per cent

	Full-Time	*Total*
Number of employees		
1997	22,000	33,900
2002	22,400	35,100
Change from 1997 to 2002		
Absolute	400	1,200
Percentage	2.0	3.7

[1] Employee jobs only, not self-employed jobs

Source:

1997; Annual Employment Survey, rescaled 2002; Annual Business Inquiry (ABI)

Mr. Frank Field: To ask the Chancellor of the Exchequer how many people were employed in tourism-related jobs in Birkenhead on the latest date for which figures are available. [166307]

Ruth Kelly: The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Len Cook to Mr. Frank Field, dated 19 April 2004:

As National Statistician, I have been asked to reply to your Parliamentary Question about tourism-related jobs in Birkenhead. (166307)

The latest available data, from the 2002 Annual Business Inquiry, shows that the total number of jobs in tourism related industries in Birkenhead was 2,100. This total is obtained by combining figures for those working in the following industries, as identified by the Standard Industrial Classification 2003:

hotels

restaurants

bars

activities of travel agencies

library, archives museums etc

sporting activities

other recreational activities.

Mr. Frank Field: To ask the Chancellor of the Exchequer how many job vacancies there were in Birkenhead in *(a)* 1997 and *(b)* 2003. [166308]

Mr. Boateng: The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Len Cook to Mr. Frank Field, dated 19 April 2004:

As National Statistician, I have been asked to reply to your Parliamentary Question concerning job vacancies in Birkenhead. (166308)

According to Jobcentre Plus administrative records, the number of unfilled vacancies in Birkenhead was 898 on average during 1997. This represents only a proportion of all the vacancies available, as not all vacancies are notified to Jobcentres.

Jobcentre vacancy statistics were withdrawn from National Statistics in September 2001 as a result of distortions to the data which occurred following the introduction of new administrative procedures by Jobcentre Plus. Comparable figures for vacancies in 2003 are therefore unavailable.

The ONS Vacancy Survey was introduced from April 2001, but does not provide information below national level.

Mr. Ben Chapman: To ask the Chancellor of the Exchequer how many job vacancies there were in *(a)* 1997 and *(b)* 2003. [166638]

Mr. Boateng: The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Len Cook to Mr. Ben Chapman, dated 19 April 2004:

As National Statistician, I have been asked to reply to your Parliamentary Question concerning job vacancies. (166638)

There were 600,800 job vacancies in the UK on average during 2003 according to results of the ONS Vacancy Survey. As the survey started in April 2001, there are no comparable statistics for 1997. Since the series shows seasonal fluctuations, the longest available like-for-like comparison with the past, using the latest provisional estimate of 632,400 vacancies for February 2004, is with the estimate of 622,000 for February 2002, an increase of 10,400 vacancies over the two- year period.

Previous vacancy statistics from Jobcentre Plus administrative records were withdrawn from National Statistics in September 2001 as a result of distortions to the data following the introduction of new administrative procedures by Jobcentre Plus.

Mr. Frank Field: To ask the Chancellor of the Exchequer what the level of unemployment in Birkenhead was in each year since 1997. [166312]

Ruth Kelly: The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Len Cook to Frank Field dated 19 April 2004:

As National Statistician, I have been asked to reply to your Parliamentary Question about unemployment.

The Office for National Statistics (ONS) compiles statistics of unemployment from the Labour Force Survey (LFS) following International Labour Organisation definitions. However, the LFS sample size is too small to give reliable estimates of unemployment in the Birkenhead Parliamentary Constituency.

ONS also compiles statistics of those claiming Jobseeker's Allowance (JSA) for local areas including parliamentary constituencies.

The table below gives the annual average number of JSA claimants for the Birkenhead constituency for each year since 1997.

Year	*Average number of claimants*
1997	4,730
1998	4,025
1999	3,829
2000	3,418
2001	3,026
2002	2,744
2003	2,540

Family Statistics

Mr. Leigh: To ask the Chancellor of the Exchequer what percentage of *(a)* families with dependent children are headed by (i) married couples, (ii) cohabiting couples and (iii) a lone (A) female and *(B)* male parent and *(b)* dependent children live in families which are headed by (1) a married couple, (2) a cohabiting couple, (3) a parent who has never married, (4) a widowed parent, (5) a divorced parent and (6) a separated parent. [165864]

Mr. Boateng: The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Len Cook to Mr. Edward Leigh, dated 19 April 2004:

As National Statistician and Registrar General for England and Wales I have been asked to reply to your recent question asking what percentage of *(a)* families with dependent children are headed by (i) married couples, (ii) cohabiting couples and (iii) a lone (A) female and (B) male parent and *(b)* dependent children live in families which are headed by (1) a married couple, (2) a cohabiting couple, (3) a parent who has never married, (4) a widowed parent, (5) a divorced parent and (6) a separated parent. (165864) Figures from the 2001 Census indicate that there were 6,376,140 couple or lone parent families in England and Wales. The percentage of those families which were headed by (i) a married couple, (ii) a cohabiting couple, (iii) a male lone parent or (iv) a female lone parent are shown in the table below. All information has been taken from table S006 in the Census 2001 National report for England and Wales., which is available in the House of Commons Library.

Families with dependent children, by family type England and Wales, 2001 Census

Family type	*Percentage of families*
Married or re-married couple	63.03
Cohabiting couple	11.64
Lone male parent	2.55
Lone female parent	22.78

Source :

Table S006 Census 2001 National report for England and Wales.

Figures from the 2001 Census indicate that there were 11,539,432 dependent children living in families in England and Wales. The percentage of those families which were headed by (i) a married couple, (ii) a cohabiting couple, (iii) a lone parent are shown in the table below. All information has been taken from table T01 in the Census 2001 National report for England and Wales, which is available in the House of Commons Library.

Dependent children in families, by family type England and Wales, 2001 Census

Family type	*Percentage of Children*
Married or re-married couple	65.77
Cohabiting couple	11.08
Lone parent	23.15

Source :

Table T01 Census 2001 National report for England and Wales.

Analysis of the Census figures has been undertaken in the latest edition of Population Trends 115 (pages 65–69). The published volume is available in the House of Commons Library and also on the National Statistics website at:http://www.statistics.gov.uk/downloads/themejpopulation/PT115.pdfInformation on how many dependent children live with (1) a parent who has never married, (2) a widowed parent, (3) a divorced parent or (4) a separated parent is not currently available from the 2001 Census for England and Wales. However, an analysis, based on results from the General Household Survey for Great Britain in 2000, estimated that, of all dependent children living in families: 9.1 per cent. were living with a never-married lone mother; 0.7 per cent. with a widowed lone mother; 7.1 per cent. with a divorced lone mother; and 5.1 per cent. with a separated lone mother. Corresponding estimates were not made for the proportions of all dependent children living in families who were living in lone father families, because of small sample numbers. Overall, 2.6 per cent. of all dependent children living in families were living in lone father families. These estimates are not comparable with those from the 2001 Census, since they relate to a different time, and cover the whole of Great Britain rather than England and Wales.The full results, published in an article in Population Trends 109, are available in the House of Commons Library and may also be seen on the National Statistics website at:http://www.statistics.gov.uk/downloads/theme_population/PT109.pdf

Global Recovery

Sue Doughty: To ask the Chancellor of the Exchequer how may copies of the Treasury summary leaflet, "Pre-Budget Report: the Strength to take long-term decisions for: Seizing the opportunities for global recovery", were distributed; to whom they were distributed; and what the cost was of *(a)* printing and *(b)* distribution. [166429]

Ruth Kelly: I refer the hon. Lady to the answer I gave on 8 January 2004, *Official Report*, column 425W. Approximately 1.25 million copies of the 2003 Pre-Budget Report summary leaflet were distributed to individuals and to public organisations such as libraries, post offices, GP's surgeries, schools and universities.

Government Accounting Systems

Mr. Evans: To ask the Chancellor of the Exchequer how many accounting systems are in use in central Government; and what plans he has to reduce the number of accounting systems across central Government. [165514]

Mr. Boateng: It is the responsibility of each body in central Government to maintain appropriate accounting systems. No central record is kept, but it is likely that most of these bodies will operate different systems.

The Office of Government Commerce are currently leading a project to produce a standard specification for accounting systems for central civil Government that will include the requirement for future systems to be usable by more than one organisation. More widely, the Efficiency Review is working with departments to develop proposals for consideration in the Spending Review to simplify and standardise back office functions and the systems that support them.

Household Income

John Thurso: To ask the Chancellor of the Exchequer if he will list the average *(a)* household debt per annum and *(b)* household monthly income in each year since 1997, broken down by region. [166071]

Ruth Kelly: The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Len Cook to John Thurso, dated 19 April 2004:

As National Statistician I have been asked to reply to your recent question on average household debt per annum and monthly household income by region since 1997. (166071)

ONS does not compile regional estimates of household debt, or regional average monthly household income.

However, ONS does publish estimates annual regional gross disposable household income (GDHI) at current prices, per head of resident population as part of regional household accounts. GDHI is described under the European System of Accounts 1995 (ESA95). These estimates were last published on 26 March 2002 and are presented in the attached table. This data set runs from 1995 to 1999. The estimates are available at: http://www.statistics.gov.uk/CCI/article.asp?ID=128&Pos=2&ColRank=1&Rank=224

ONS hope to publish regional household accounts up to 2002 by the end of 2004, subject to resolving issues of data availability at regional level.

Total annual gross disposable household income[1] (GDHI) per head of resident population: UK regions, 1995–1999

Area	*1995*	*1996*	*1997*	*1998*	*1999*
United Kingdom[2]	12,842	13,522	14,264	15,059	15,619
North East	11,059	11,601	12,301	12,723	13,215
North West	11,676	12,328	13,009	13,579	14,200
Yorkshire and Humber	11,525	12,301	12,842	13,633	13,872
East Midlands	11,988	12,723	13,247	13,853	14,430
West Midlands	12,010	12,546	13,056	13,828	14,538
East	13,841	14,579	15,336	16,181	16,740
London	15,636	16,519	17,713	19,057	19,641

Total annual gross disposable household income[1] (GDHI) per head of resident population: UK regions, 1995–1999

Area	*1995*	*1996*	*1997*	*1998*	*1999*
South East	14,562	15,425	16,431	17,395	17,844
South West	12,759	13,335	14,093	14,879	15,323
Wales	11,160	11,633	12,029	12,474	12,913
Scotland	12,395	12,876	13,434	14,064	14,910
Northern Ireland	10,743	11,009	11,671	12,174	12,792

[1] Consistent with the 2001 National Accounts "Blue Book"
[2] Excludes GDHI from the "extra regio" category which covers the contribution to GDHI from UK embassy staff and forces personnel stationed overseas.

Office for National Statistics

Landfill Tax

Miss McIntosh: To ask the Chancellor of the Exchequer what assessment he has made of the implications for business of the changes in the Budget to landfill tax. [R] [166530]

John Healey: This April's £1 per tonne rise increase in the standard rate of landfill tax is part of the landfill tax escalator announced in Budget 1999. The tax is designed to be revenue neutral for businesses. Its introduction was accompanied by a 0.2 per cent. cut in employers' national insurance contributions. In addition, in Budget 2003 the Government said that incremental increases in landfill tax from 2005 would be revenue neutral to business. A number of options are now being examined, and consultation with stakeholders is continuing.

Nannies (Disabled Children)

Mr. Stephen O'Brien: To ask the Chancellor of the Exchequer what plans he has to extend the tax relief on the employment of nannies to parents with disabled offspring. [166115]

Dawn Primarolo: The Government announced in Budget 2004, a new voluntary scheme that will enable a range of providers of good quality childcare to get approval allowing more working parents access to financial support. This will help working parents to meet their child care costs, including those who employ nannies to look after disabled children, by extending the range of childcare that is eligible for the child care element of working tax credit. Child care approved under the new scheme will also be eligible for the new tax and national insurance exemption on £50 a week of employer-contracted child care or employer-provided child care vouchers announced in the 2003 pre-Budget report.

The Department for Education and Skills will consult on proposals for the scheme in summer 2004 for implementation in April 2005.

National Tax Agency

Mrs. Gillan: To ask the Chancellor of the Exchequer what role is envisaged for *(a)* drug enforcement and *(b)* drugs policy in the new National Tax Agency. [166108]

John Healey: Customs border detection staff will become part of the new combined Customs and Inland Revenue department and will continue to enforce as now the full range of import/export prohibitions and restrictions at the frontier including in respect of drugs. The policy work in respect of the full range of controls, it exercises at the frontier will also remain with the new department.

Mr. Hoban: To ask the Chancellor of the Exchequer what the objectives are of the modernisation plan being implemented by the Office for National Statistics; what the expected date of completion of implementation is; if he will make a statement on progress; and what the estimated cost is. [164747]

Mr. Boateng: The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Len Cook to Mark Hoban, dated 19 April 2004:

As National Statistician, I have been asked to reply to your recent question concerning what the objectives are of the modernisation plan being implemented by the Office for National Statistics; what the expected date of completion of implementation is; and what the estimated cost is. (164747)

The ONS was created in 1995 from the merger of three smaller organisations. The new organisation inherited:

Different computer systems that are not fully compatible with each other and which are gradually becoming out-of-date and difficult to support.

Different statistical tools requiring a large quantity of software licenses and support.

Different methodologies and practices.

The objective of the Modernisation Programme is to relocate these disparate systems into a robust, shared and enduring technical environment, supported by an agreed set of common statistical tools and methods. Where necessary, this process will involve the redesign of statistical systems to ensure that the quality, accessibility and efficiency benefits are optimised. This will increase the value of ONS's statistics and also improve the service it can offer to customers.

In the Spending Review 2002, Her Majesty's Treasury allocated £75 million over the period 2003–04 to 2005–06. Completion of the work package associated with this funding is therefore expected in 2006, although it is likely that further modernisation activity will take place in later years. The £75million allocation included £5million for 2003–04 to begin work, and undertake detailed planning and preparation, which has been done.

Older People

Steve Webb: To ask the Chancellor of the Exchequer for what *(a)* initiatives, *(b)* campaigns and *(c)* advisory bodies relating to older people his Department (i) is responsible and (ii) has provided funding since 2001; and what the cost in each year was for each one. [166244]

Mr. Boateng: With the Department for Work and Pensions, HM Treasury has promoted a range of measures and initiatives aimed at improving the

incomes of older people, particularly those over state pension age, including increasing the basic state pension by more than inflation in 2001 -2003, guaranteeing future annual rises by the higher of 2.5 per cent. or RPI and launching the Pension Credit to reward those with modest savings for the first time.

This year the Government will pay an extra £100 to over-70 households
to help with council tax bills. This is on top of winter fuel payments, free TV licences and other measures.

Public Lavatories

Mr. Gummer: To ask the Chancellor of the Exchequer (1) whether the rateable value for the purpose of the uniform business rate of a public lavatory is the same in highly rateable and more lowly rated areas; [165937]

(2) what the criteria are by which a valuation officer evaluates a public lavatory for the purpose of the uniform business rate; [165939]

(3) what the *(a)* highest and *(b)* lowest rated public lavatory in England is for the purpose of the uniform business rate. [165940]

Dawn Primarolo: Details of the method and basis of valuation of Public Lavatories for non-domestic rating is set out in the Valuation Office Agency's Rating Manual. This can be found on its website at:
www.voa.gov.uk/ instructions/chapters/rating-manual/ vol5/sect625.

There are variations in the level of assessments that reflect the different levels of build costs across the country. In practice, a part of the calculation is a 'location factor' applied to the build costs. In the 2000 rating lists in England and Wales the highest location factor is 31.8 per cent. greater than the lowest. An addition of 5 per cent. is made to public conveniences in urban areas; this does not apply to rural public conveniences.

The highest assessment for a public lavatory in England and Wales is £30,000 rateable value. This is a public lavatory at Tower Place, Tower Hill, London, EC4 6DS. There are a number of public lavatories assessed at £1 rateable value following the Lands Tribunal decision (Hodkinson (VO) v Strathclyde Regional Council Superannuation Fund 1996 RA 131).

Senior Citizens (Birkenhead)

Mr. Frank Field: To ask the Chancellor of the Exchequer how many senior citizens in Birkenhead qualified for the 10 pence rate of income tax in each year since its introduction. [166309]

Dawn Primarolo: All income taxpayers benefit from the 10p pence starting rate. The Survey of Personal Incomes estimates there are about 4,000 state retirement pension age taxpayers in the Birkenhead constituency in 2000–01 and 2001–02. Figures for 1999–2000 are currently not available.

Serious Organised Crime Agency

Mrs. Gillan: To ask the Chancellor of the Exchequer what *(a)* drug enforcement and *(b)* drugs policy functions are being transferred from HM Customs and Excise to the Serious Organised Crime Agency. [166107]

Mr. Boateng: The investigation and intelligence responsibilities of HM Customs and Excise in tackling serious drug trafficking and recovering related criminal assets will be transferred to the Serious Organised Crime Agency. The policy functions related to these activities will also transfer.

Student Loans

Dr. Cable: To ask the Chancellor of the Exchequer how much was received by the Inland Revenue in student loan repayment in each month in financial years *(a)* 2002–03 and *(b)* 2003–04; and when the payments were transferred to the Student Loan Company. [166117]

Dawn Primarolo: Latest information on the recovery of student loans through the tax system and payments to the Department for Education and Skills (DfES) of loans recovered is shown in Note 5 to the Trust Statement in Appendix 1 of the Inland Revenue Annual Report for the year ending 31 March 2003. An estimate of loans recovered, and payment to DfES, for 2003–04 will be published in the 2004 report.

Monthly figures for receipts are not available as student loan deductions made by employers are reported to the Inland Revenue after the end of the tax year.

Tax Credits

Geraldine Smith: To ask the Chancellor of the Exchequer how many tax credit overpayments have arisen as a result of official errors in the last 12 months. [165412]

Dawn Primarolo: I refer my hon. Friend to the reply I gave the hon. Member for Northavon (Steve Webb) on 9 March 2004, *Official Report*, column 1482W.

Geraldine Smith: To ask the Chancellor of the Exchequer whether claimants of tax credits receive a copy of the Code of Practice on overpayments when it becomes evident that they may have been overpaid. [165413]

Dawn Primarolo: I refer my hon. Friend to the replies I gave my hon. Friend the Member for Glasgow, Anniesland (John Robertson) on 21 January 2004, *Official Report*, column 1259W, and the hon. Member for North Norfolk (Norman Lamb) on 27 February 2004, *Official Report*, column 570–571W.

Tax Stamps

Mr. Alan Reid: To ask the Chancellor of the Exchequer pursuant to the answer of 30 March 2004, reference 164497, on tax stamps, what the responses were of the two EU or accession countries not named in the answer; and if he will place copies of these responses in the Library. [165880]

John Healey: The Government has now received and reviewed responses from both Hungary and Lithuania. Neither country plans to discontinue its tax stamp scheme. The Government will consider publishing these responses if the countries concerned give their permission to do so.

Taxation

Dr. Cable: To ask the Chancellor of the Exchequer if he will update the information provided in his answer to

the hon. Member for Truro and St. Austell (Matthew Taylor) on taxation of 23 January 2003, *Official Report*, column 430W; and if he will make a statement. [166127]

Dawn Primarolo: Comprehensive information on income tax has been placed in the Library of the House in October 2003. This information will be updated shortly after the Easter recess.

The full-year capital gains tax yields in 2004–05 from introducing a rate of tax of 49 per cent. on *(a)* taxable and *(b)* gross incomes exceeding £100,000 per annum are both estimated to be £120 million.

The income tax information is based upon the Survey of Personal Incomes and excludes any estimate of behavioural response to the tax change.

Capital gains tax estimates take into account the likely effect on yield of changes in the volume of disposals in a full year caused by taxpayer's behaviour.

Wayleaves

Mr. Weir: To ask the Chancellor of the Exchequer if he will propose legislation to prohibit the Crown Estate from charging local authorities for wayleaves for public projects. [164774]

Ruth Kelly *[holding answer 30 March 2004]:* The Crown Estate has a statutory duty to obtain an appropriate return from its assets under section 1 (3) of The Crown Estate Act 1961. The Crown Estate is no different from any other landowner in the way it seeks payment for wayleaves or the way in which they are valued.

Mr. Weir: To ask the Chancellor of the Exchequer under what powers the Crown Estate is entitled to charge a wayleave for a new bridge over the River South Esk at Montrose when a wayleave exists for the current bridge. [164776]

Ruth Kelly *[holding answer 30 March 2004]:* No new charge is being made for a wayleave over the River South Esk at Montrose. The wayleave for the existing bridge covers both the temporary and the new bridges.

The charges that are being made are for the lease for land for the temporary bridge, and the sale of land for the new bridge.

Mr. Weir: To ask the Chancellor of the Exchequer under what powers the Crown Estate is able to charge substantial sums of money from Angus council for the construction of a temporary bridge over the River South Esk at Montrose while a new bridge is being built. [164777]

Ruth Kelly *[holding answer 30 March 2004]:* The Crown Estate Act 1961, s.1(3) places a statutory duty on The Crown Estate Commissioners to maintain and enhance the value of The Crown Estate and the return obtained from it, but with due regard to the requirements of good management.

A rental charge is being made for the lease of land for the temporary bridge because it is on Crown Estate foreshore and seabed (tidal riverbed is defined as seabed). The rental value was agreed between agents acting on behalf of The Crown Estate and on behalf of Angus council.

Mr. Weir: To ask the Chancellor of the Exchequer how much the Crown Estate has received from local authorities in Scotland in each of the last 10 years as wayleaves for bridges and other public works projects. [164778]

Ruth Kelly *[holding answer 30 March 2004]:* The information is as follows:

	Amount (£)	*Authority*	*Works*	*Date*
2003–04	0	—	—	—
2002–03	0	—	—	—
2001–02	0	—	—	—
2000–01	0	—	—	—
1999–2000	500	Western Isles Council	Wayleave for bridge span, Sound of Scalpay	11 August 1999
	550	Shetland Islands Council	Wayleave for bridge span, Muckle Roe	9 April 1999
1998–99	0	—	—	—
1997–98	0	—	—	—
1996–97	0	—	—	—
1995–96	0	—	—	—
1994–95	0	—	—	—
1993–94	100	Western Isles Council	Wayleave for bridge span, River Miavaig	21 June 1993

Mr. Weir: To ask the Chancellor of the Exchequer what process is used to determine the value of a wayleave charged by the Crown Estate to local authorities in respect of public works projects. [164779]

Ruth Kelly *[holding answer 30 March 2004]:* The value of a wayleave is determined on a case-by-case basis through negotiation in accordance with professional valuation practice, with the respective local authority or its representative.

As is laid down in the The Crown Estate Act 1961, no account is taken of monopoly value when valuing any Crown Estate asset.

INTERNATIONAL DEVELOPMENT

Agricultural Land

Norman Baker: To ask the Secretary of State for International Development what changes there have been in total land area used for agricultural purposes over the last 10 years, broken down by *(a)* country and *(b)* agricultural land use categories, as defined by the Food and Agriculture Organisation of the United Nations. [165749]

Hilary Benn: The latest available figures from the Food and Agriculture Organisation indicate an overall 14.7 per cent. increase worldwide in land used for

agricultural purposes during the period 1991–2001. However, the increase is not spread across all continents. While Africa, Asia, Europe, and Latin America and the Caribbean have all increased, North and Central America and Oceania have decreased by varying amounts. This information is provided in the following two tables.

a) Total land area used for agricultural purposes by: country

Land use-agricultural area (1000ha)	*1991*	*2001*
Africa	1,098,071	1,108,071
Asia	1,306,609	1,679,915
Europe	218,665	487,771
Latin America and Caribbean	754,025	784,205
North and Central America	639,787	628,196
Oceania	482,826	475,132
Total	4,499,983	5,163,290

b) Total land area used for agricultural land use category

World land use	*1991*	*2001*
Africa (1000ha)	1,098,071	1,108,333
Arable land	168,209	182,294
Permanent crops	23,106	26,326
Permanent pasture	906,756	899,713
Asia	1,306,609	1,679,915
Arable land	457,324	508,595
Permanent crops	49,878	61,361
Permanent pasture	799,407	1,109,959
Europe	218,665	487,771
Arable land	123,695	288,132
Permanent crops	13,822	16,947
Permanent pasture	81,148	182,882
Latin America and Caribbean	754,025	784,205
Arable land	135,839	149,309
Permanent crops	18,625	20,321
Permanent pasture	599,561	614,575
North and Central America	639,787	628,196
Arable land	266,299	257,512
Permanent crops	7,661	8,500
Permanent pasture	365,827	362,184
Oceania	482,826	475,132
Arable land	48,759	52,384
Permanent crops	2,590	3,278
Permanent pasture	431,477	419,470
Total	4,499,983	5,163,552

Deforestation

Norman Baker: To ask the Secretary of State for International Development what net percentage of forest cover worldwide has been lost since 1990; and what acreage this represents *(a)* in total and *(b)* broken down by country. [165810]

Mr. Gareth Thomas: The net percentage of forest cover change worldwide between 1990 and 2000 was 2.4 per cent. This represents the change in forest cover over the 10-year period to 2000 and is the most up-to-date global assessment of forest resources.

(a) In terms of acreage this represents a total worldwide loss during the 1990s in forest cover of 232,214,811 acres (93,974,000 hectares).

(b) Forest cover data for individual countries may be found in the Global Forest Resources Assessment 2000 Main Report. This is published by the Food and Agriculture Organisation of the United Nations and is available online via the following web link: http://www.fao.org/forestry/foris/webview/forestry2/index.jsp?siteId=101&sitetreId=8334&langId=1&geoId=0

Norman Baker: To ask the Secretary of State for International Development what percentage of land area in *(a)* Africa, *(b)* Asia, *(c)* South America, *(d)* Europe and *(e)* North America he estimates was covered in forest in (i) 1975, (ii) 1985, (iii) 1995 and (iv) 2002. [165811]

Mr. Gareth Thomas: Reliable and comparative global forest cover data are not available for the years requested. They are available for the years 2000 and 1990 and I have provided these as follows.

This information is drawn from the Global Forest Resources Assessment 2000, published by the Food and Agriculture Organisation (FAO) of the United Nations, which is the most comprehensive and technologically advanced assessment in FAO's 50-year history. The Global Forest Resources Assessment of 1990, although not as advanced, brings together comparable information on the world's forest resources for the period 1980–90.

The percentage of land area covered in forest in 1990 and 2000 in each of the regions of the world is as follows:

(a) Africa: (i) 23.6 per cent. in 1990; (ii) 21.8 per cent. in 2000

(b) Asia: (i) 17.9 per cent. in 1990; (ii) 17.8 per cent. in 2000

(c) South America: (i) 52.6 per cent. in 1990; (ii) 50.5 per cent. in 2000

(d) Europe: (i) 45.6 per cent. in 1990; (ii) 46 per cent. in 2000

(e) North and Central America: (i) 26 per cent. in 1990; (ii) 25.7 per cent. in 2000.

Land Degradation

Norman Baker: To ask the Secretary of State for International Development what percentage of land area in *(a)* Africa, *(b)* Asia, *(c)* South America, *(d)* Europe and *(e)* North America he estimates was suffering land degradation in (i) 1975, (ii) 1985, (iii) 1995 and (iv) 2002. [165812]

Mr. Gareth Thomas: Comparative global land degradation data are not available for the years requested. They are available for 1992 when the most recent global assessment of land degradation was made, and I have provided these as follows.

Land degradation takes a number of forms, including depletion of soil nutrients, salinisation, soil erosion, vegetative degradation, and deforestation. All of these types of degradation cause a decline in the productivity of the land, reducing potential yields and posing a potential threat to the rural livelihoods of poor people in developing countries.

Existing estimates of the current global extent and severity of the problem of land degradation should be considered indicative at best: land degradation is something that cannot be easily monitored and measured. Responding to the need for a global overview of land degradation, the Global Assessment of Human-induced Soil Degradation (GLASOD), published in 1992, became the first comprehensive soil degradation

overview on a world scale. Soil degradation is considered to be a good indicator for measuring land degradation.

GLASOD is limited, however, and the need for more objective, qualitative approaches, using nationally-based data rather than global or regional figures, is widely recognised. New international initiatives are underway to develop national data acquisition on land degradation, using GIS (Geographic Information Systems), remote sensing and local assessments.

Based on the results of the 1992 Global Assessment, the percentage of land area per region affected by human-induced soil degradation is as follows:

(a) Africa: 16.6 per cent. of total land surface

(b) Asia: 17.6 per cent. of total land surface

(c) South America: 13.7 per cent. of total land surface

(d) Europe: 23 per cent. of total land surface

(e) North America: 5 per cent. of total land surface.

Afghanistan

Mrs. Ellman: To ask the Secretary of State for International Development how many refugees have returned to Afghanistan since the fall of the Taliban regime. [164852]

Mr. Gareth Thomas: According to the United Nations High Commission for Refugees, over 2.9 million Afghan refugees have returned to Afghanistan since the fall of the Taliban regime. This is in addition to some 500,000 people who were displaced within Afghanistan who have returned home.

Bosnia and Herzegovina

Sue Doughty: To ask the Secretary of State for International Development what discussions he has had with the Bosnia and Herzegovina Ministry for Human Rights and Refugees on support and return of displaced persons following transfer of responsibility for implementation of Annex VII of the General Framework Agreement for Peace from the Office of the High Representative to the Bosnia and Herzegovina authorities on 1 January; and if he will make a statement. [166413]

Mr. Gareth Thomas: The British Government are in regular contact with the Bosnia and Herzegovina Ministry for Human Rights and Refugees. The most recent discussions took place on 29 March 2004. The British Ambassador to Bosnia and Herzegovina, along with the Swedish Ambassador and Head of the Swedish Development Agency, met the Minister for Human Rights and Refugees to discuss how Bosnia and Herzegovina could make full use of its newly-acquired membership of the Council of Europe Development Bank. The bank provides low cost loans to its members, mainly to support reconstruction and facilitate the return of displaced persons.

Civil Servants

Bob Spink: To ask the Secretary of State for International Development if he will list for each civil service grade within his *(a)* Department and *(b)* Department's executive agencies, the total number of staff employed, broken down by (i) gender, (ii) ethnic group and (iii) age group; and how many are registered disabled. [166399]

Hilary Benn: Details of DFID Home Civil Service staff numbers (there are no executive agencies), by Civil Service grade, and broken down by (i) gender; (ii) ethnic group (iii) disability status and (iv) age group, are contained in the following tables:

DFID staff by gender

Grade	Male	Female	Total
Senior Civil Service	54	17	71
A1 (Level 6)	131	47	178
A2 (Level 7)	211	157	368
A3 (Senior Executive Officer)	67	72	139
B1 (Higher Executive Officer)	166	131	297
B2 (Executive Officer)	132	163	295
C1 (Administrative Officer)	99	207	306
C2 (Administrative Assistant)	39	51	90
Totals	899	845	1,744

DFID staff by ethnic origin

C2 (Administrative Assistant)	11	14	15	26	24	0	90
Totals	45	428	629	470	169	3	1,744

These details form part of our bi-annual staffing level returns to the Cabinet Office. Data on staffing levels in the Civil Service is collected by the Cabinet Office and published in "Civil Service Statistics". A copy of "Civil Service Statistics 2002" is available in the Library of the House, and at www.civil-service.gov.uk/statistics. The 2003 edition setting out these latest figures will be published in summer 2004.

Common Foreign and Security Policy

Mr. Bercow: To ask the Secretary of State for International Development what the published objectives were of the Common, Foreign and Security Policy activity reported in the financial tables of the 2003 Commission report on EU Development Policy and the Implementation of External Assistance in 2002; what his Department's involvement in the activity was; what results it achieved; and what assessment he has made of its value for money. [165182]

Mr. Gareth Thomas: Detailed descriptions of the objectives of the Common Foreign and Security Policy, as described under chapter 8 in the financial tables of the EC Annual Report, are given as part of the "Final adoption of the general budget of the European Union for the financial year 2002". This was published in the Official Journal of the European Communities on 31 of January 2002 (volume 45 L29, pp.1345). A copy of this is available in the parliamentary Library or via the Commission website at http://europa.eu.int/eur-lex/en/archive/2002/l_02920020131en.html.

In 2002 DFID contributed approximately £50,000 towards land mine clearance in Croatia managed under chapter 8. However overall responsibility for chapter 8 lies with the Foreign and Commonwealth Office.

The activities under the CFSP budget are subject to a regular prioritisation debate against political objectives by the Political and Security Committee in which the UK takes a full part. Issues relating to value for money may be discussed as part of this review process.

Democratic Republic of the Congo

Ms Oona King: To ask the Secretary of State for International Development what steps the Government are taking to ensure that the expansion of industrial logging in the forests of the Democratic Republic of the Congo will not compromise the rights and livelihoods of the people dependent on the forest for their survival. [165480]

Hilary Benn: The Government of the DRC recognises that there should be better management of natural resources, including forests, so as better to contribute to national development and poverty reduction. DFID plans to support the strengthening of natural resource governance in the DRC, including forestry. As a first step we are currently supporting an analysis of the governance framework for natural resource extraction and options for improvements. In the meantime the Government is receiving assistance in the forestry sector from the World Bank, and DFID officials have been in dialogue with the Bank about this work. There is a possibility that DFID will provide assistance in this area to support the Bank's programme.

Commercial logging needs to bring real benefits to the population of the DRC, and the interests of the large number of forest-dependent poor people in DRC should not be prejudiced by logging activities. With World Bank encouragement the Government of the DRC has put a moratorium on new forestry concessions until appropriate regulations are in place to govern the process. The World Bank is also supporting a review of previously allocated concessions, to ensure they meet the new forest code which includes provisions to ensure the rights of local communities.

DFID is also supporting the involvement of civil society in Central African countries to follow up on the Africa Forest Law Enforcement and Governance Conference that took place last year. In addition, the EU aims to develop partnership agreements with individual countries under its Action Plan to strengthen forest governance in the Central African region.

Departmental Computers

Bob Spink: To ask the Secretary of State for International Development what plans he has to update computer *(a)* hardware and *(b)* software standard packages used in his Department. [166376]

Mr. Gareth Thomas: Computer hardware and software updates are determined and agreed as part of DFID's e-business, ICT and Knowledge Sharing strategic studies.

Hardware refresh cycles are subject to a rolling programme based upon the expected life span of the equipment involved—usually every 4–5 years. Details of the current hardware upgrade plans are at Table 1.

The timing of software updates tends to be driven by the need to deliver additional functionality, to comply with legislative changes (e.g. payroll) and to remain within support matrices for the products. Details of the current software update plans are at Table 2.

Table 1: Hardware upgrades

Hardware type	*Date purchased*	*Life (years)*	*Upgrade due*
HP4 L2000 Mini computer	2000	4–5	2004–05

[1] Will be reviewed as part of the Aries project and may be replaced.

Departmental Projects

Mr. Bercow: To ask the Secretary of State for International Development (1) if he will make a statement on *(a)* the nature of the health and education projects in (i) Russia, (ii) Mongolia, (iii) Ukraine, (iv) Georgia, (v) Armenia and (vi) Azerbaijan that were financed by EU development assistance in 2002, *(b)* the effectiveness of the projects and *(c)* his Department's involvement in the projects; [165172]

(2) if he will make a statement on *(a)* the nature of the 24 million euro environment project in Russia that was financed by EU development assistance in 2002, *(b)* the effectiveness of the project and *(c)* his Department's involvement in the project. [165203]

Mr. Gareth Thomas: EU development assistance in these countries is provided through the Tacis programme. The Department is involved in projects implemented under Tacis by contributing the UK's share of the European Commission budget allocated to Tacis and by participating in the Management Committee established to define strategy and oversee the programme. Implementation of specific projects (including procurement, which is governed by EC procurement rules) is the responsibility of the Commission.

When considering Commission funding proposals, DFID took a wide range of factors into consideration, including likely impact, cost-effectiveness and value for money. Many of the 2002 projects are in the early stages of implementation. An assessment of the projects will only be possible once they have been completed. The EC, through its results-orientated management system and strengthened evaluation systems, is best placed to carry out such an assessment.

Mr. Bercow: To ask the Secretary of State for International Development if he will make a statement on the *(a)* Good Governance and Improvement of the Law project, *(b)* 2002 Middle East Peace project and *(c)* 2002 project on technical assistance, ref B7–410 MEDA; and if he will describe his Department's contribution to each project. [165208]

Hilary Benn: All these projects are being implemented by the European Commission under their MEDA ("Mésures d'Accompagnement") programme, which is the principal financial instrument of the European Union for providing technical and financial support to accompany the reform of economic and social structures in Mediterranean partner countries. DFID is involved through having attributed to our budget the UK's contribution to MEDA, (which in 2002 amounted to around 19 per cent. of the total), and through our being consulted by the EC as it develops its individual country strategies and spending proposals. Implementation of individual projects (including procurement) is the responsibility of the Commission.

When considering Commission funding proposals, the Department takes a wide range of factors into consideration, including likely impact, cost-effectiveness and value for money. Many of the 2002 projects are still in the early stages of implementation. An assessment of the projects, and production of final spending figures, will only be possible once they have been completed.

Drought

Norman Baker: To ask the Secretary of State for International Development what land area in total was affected by drought as defined by the Food and Agriculture Organisation of the United Nations in each of the last 10 years, broken down by *(a)* country and *(b)* length of drought period. [165748]

Mr. Gareth Thomas: DFID does not hold data on land area affected by drought and information in this format is not available from the FAO. To provide the data as requested would incur disproportionate cost.

EC/EU Development Policy

Mr. Bercow: To ask the Secretary of State for International Development what the published objectives were of the expenditure on other external charters of community policy referred to in the financial tables of the Commission Report 2003 on the EC Development Policy and the Implementation of External Assistance in 2002; what his Department's involvement in future charters was; what results they achieved; and what assessment he has made of their value for money. [165101]

Mr. Gareth Thomas: The entry for "other external policy chapters" in the financial tables of the EC annual report includes budget lines for the promotion of community inward investment in the developing countries of Latin America (B7–872) and the Commission's contribution to international environmental activities (B7–811) for which DFID is financially responsible.

Detailed descriptions of the objectives of these individual chapters are given as part of the "Final adoption of the general budget of the European Union for the financial year 2002". This was published in the Official Journal of the European Communities on the 31 January 2002 (volume 45 L29, pps 1343 and 1325 respectively). A copy of this is available in the parliamentary Library or via the Commission website at http://europa.eu.int/eur-lex/en/archive/2002/l02920020131en.html.

DFID's comment on future budget proposals from the Commission, through the annual budget negotiation process led by HM Treasury takes a number of factors into consideration including cost effectiveness. The new financial regulation requires that all future community funded activities be based on Specific, Measurable, Achievable, Realistic and Time bound (SMART) objectives, and accompanied by appropriate criteria for performance measurement and evaluation.

The UK Government have been a leading advocate for activity-based budgeting which was adopted by the Commission in 2003, this will increase the transparency and efficiency of budgetary decision-making in the future and help deliver a more effective EC budget.

The EC is best placed to carry out value for money assessments for individual budget lines through its own performance monitoring mechanisms.

Mr. Bercow: To ask the Secretary of State for International Development what the published objectives were of the other specific actions listed as items B7–66 in the financial tables of the 2003 European Commission Report on EC Development Policy and the Implementation of External Assistance in 2002; what his Department's involvement in these actions was; what results they achieved; and what assessment he has made of their value for money. [165127]

Mr. Gareth Thomas: Items listed under B7–66 "Other specific actions" in the financial tables of the Commission report include financing for the "European Training Foundation" (B7–664), "Co-operation with Industrialised non member countries" (B7–665), and "Cooperation with third countries on Migration" (B7–667).

Responsibility for these budget lines lies with the Department for Education and Skills, the Foreign and Commonwealth Office and the Home Office respectively.

Mr. Bercow: To ask the Secretary of State for International Development if he will make a statement on the commitment of EU development assistance to provide support to national co-ordination units in 2002. [163861]

Mr. Gareth Thomas: In 2002, €5 million was committed under the Tacis (Technical Assistance to the CIS) programme to provide support to National Co-ordinating Units. Each partner state in the Tacis region has a national co-ordinator, who is usually a senior member of that country's administration, supported by a National Co-ordinating Unit (NCU). The NCU is an institution of the partner country Government, and is headed by a local executive director and staffed by a team of national officials and experts, with necessary logistical and secretarial support.

The primary objective of EU support for NCUs is to improve and strengthen the planning and co-ordinating capacity of partner Governments in activities such as: providing information on their priorities; organising consultations with stakeholders; advising on drafts of programmes and project proposals; and providing functions related to Tacis where a national body is required.

The allocation is used to fund EU and local expertise, training, and office and equipment costs.

EU Information and Communication Projects

Mr. Bercow: To ask the Secretary of State for International Development if he will make a statement on the *(a)* objectives and *(b)* results of the (i) Mediterranean and (ii) Middle East projects on information and communication that were financed by EU development assistance in 2002; and what his Department's involvement in the projects was. [165204]

Hilary Benn: These projects are being implemented by the European Commission under their MEDA ("Mésures d'Accompagnement") programme, which is the principal financial instrument of the European Union for providing technical and financial support to accompany the reform of economic and social structures in Mediterranean partner countries. DFID is involved through having attributed to our budget the UK's contribution to MEDA, (which in 2002 amounted to around 19 per cent. of the total), and through our being consulted by the EC as it develops its individual country strategies and spending proposals. Implementation of individual projects (including procurement) is the responsibility of the Commission.

When considering Commission funding proposals, DFID takes a wide range of factors into consideration, including likely impact, cost-effectiveness and value for money. Many of the 2002 projects are still in the early stages of implementation. An assessment of the projects, and production of final spending figures, will only be possible once they have been completed.

Fair Trade Movement

Mr. Dalyell: To ask the Secretary of State for International Development if he will make a statement on his most recent discussions with the Fair Trade Movement on their work with developing countries. [164939]

Hilary Benn: I met with Harriet Lamb, the Director of Fairtrade Foundation, on 1 March 2004 and spoke at the launch of Fairtrade Fortnight. DFID has a continuing dialogue with the Fairtrade Foundation on their work with producers in developing countries.

Ghana

Jeremy Corbyn: To ask the Secretary of State for International Development how much funding his Department has made available for improvements to the water supply in *(a)* Accra and *(b)* Kumasi; and what conditions regarding the involvement of the private sector apply to such funding. [166359]

Hilary Benn: DFID made a grant of £13.95 million to the Ghana Water Sector Improvement Project in 1998 with £7.735 million earmarked for capital expenditure. To date over £4.5 million has been used for technical assistance projects. DFID have now agreed with the Government of Ghana that the capital funds may be used in any urban area. The conditions which reflect an established Government of Ghana policy under successive administrations for the use of the capital funds are:

Tariff increases should have reached a level whereby average tariffs are at economically viable levels, or a plan is announced to reach viable tariff levels within a satisfactory time frame.

Bids should have been received showing private sector interest in operating urban schemes.

There is evidence of the Government of Ghana's commitment to a tariff structure which balances commercial needs with poor people's ability to pay.

Global Fund to Fight AIDS, TB and Malaria

Mrs. Iris Robinson: To ask the Secretary of State for International Development how much the UK Government will contribute to the Global Fund to Fight AIDS, TB and Malaria in *(a)* 2004 and *(b)* 2005. [164928]

Gareth Thomas: For the financial year 2004–5, DFID's contribution to the Global Fund to Fight AIDS, TB and Malaria (GFATM) will be £30 million. This will be paid in May. In 2004–6 DFID has pledged £33 million.

The GFATM is one of a number of instruments used to tackle these terrible diseases of poverty. Most of DFID's HIV/AIDS spending, of which the UKU is the second biggest bilateral donor, goes direct to developing countries through Government, NGOs or the private sector. Last year DFID invested over £270 million on HIV/AIDS related bilateral work and have contributed £48 million to Roll Back Malaria and invested £2 million to the Stop TB Partnership, DFID has committed over £1.5 billion since 1997 to support the strength of health systems to help deal with these diseases in developing countries.

Good Governance (West Africa)

Mr. Chidgey: To ask the Secretary of State for International Development what assessment his Department has made of the link between good governance and its relation to economic productivity in developing countries with particular reference to *(a)* Guinea and *(b)* Senegal. [166590]

Hilary Benn: Good governance and economic growth are crucial requirements for poverty reduction in Africa. Our experience and research shows that broad based economic growth and poverty reduction can only be sustained where there is effective government. Investment is vital for growth and businesses will only invest if they feel confident that they will benefit from successful investment and perceive the risks of expropriation to be low. The priorities for improving the business environment will depend on country context.

DFID has not made any country specific assessment of the relationship between good governance and economic productivity in either Guinea or Senegal. Our assistance to both these countries is mainly through multilateral channels such as the EC and World Bank. In Senegal our assistance through these channels amounted to £13 million in 2001. In Guinea we are closely in touch with the EC who are starting negotiations with Guinea on necessary governance reforms, as a condition of resumption of EC assistance. There is a clear connection between such reforms and economic development.

HIV/AIDS

Hugh Bayley: To ask the Secretary of State for Defence what support his Department has given to military forces in sub-Saharan Africa to establish programmes to reduce the spread of HIV/AIDS by their soldiers. [164762]

Hilary Benn: I have been asked to reply.

DFID recognises the high incidence of HIV prevalence among African military personnel and the problems of tackling HIV-infection in conflict areas and among African peacekeeping troops. This issue is also addressed within the interdepartmental (DFID, FCO and MOD) Africa Conflict Prevention Pool.

DFID has been working with UNAIDS to incorporate HIV/AIDS policies into the design of UN led peacekeeping operations, many of which are operational in Africa and involve African troop contributing countries. A separate piece of work has just begun to develop similar guidelines and approaches with the African Union.

Regional training centres, such as the Kofi Annan International Peacekeeping Training Centre (supported by the UK Government through the interdepartmental Africa Conflict Prevention Pool) also provide a range of training courses for African peacekeepers, some of which touch on HIV/AIDS.

Ultimately addressing the causes of conflict is key to stopping the spread of HIV/AIDS among military personnel and between military personnel and civilians. African conflict prevention therefore remains a key focus for DFID and for wider HMG programmes of support.

Humanitarian Crises

Mr. Chidgey: To ask the Secretary of State for International Development what steps his Department takes to verify the accuracy of claims by charitable organisations concerning humanitarian crises. [166479]

Hilary Benn: DFID has the capacity to undertake continuous global surveillance to identify and monitor disasters and emergencies. In the event of a humanitarian crisis, DFID officials gather information from a number of sources in order to establish the real nature and scale of humanitarian needs. This process involves detailed investigation through the internet, media, the United Nations, DFID overseas offices, UK Diplomatic Missions, Governors offices in the UK Overseas Territories and the Red Cross/Red Crescent family. If required, DFID officials are deployed to the specific affected country to assess the situation for themselves.

Charitable organisations are required to submit an audit report within nine months of the end of the recipient's financial year which clarifies use of DFID's funds separately.

Iraq

Mr. Chidgey: To ask the Secretary of State for International Development what independent financial auditing is undertaken on the contracts issued by the Coalition Provisional Authority for the reconstruction of Iraq. [166606]

Hilary Benn: The use of all Iraqi assets by the Coalition Provisional Authority (CPA) is subject to independent auditing oversight by the International Advisory and Monitoring Board (IAMB), which was set up under UNSCR1483.

In order to ensure its independence, IAMB'S membership comprises representatives of the United Nations, the Arab Fund for Economic and Social Development, the International Monetary Fund and the World Bank. IAMB has recently appointed a private sector audit firm to undertake its audit functions. IAMB'S website is www.iamb.info

The use by the CPA of United States Government resources is subject to the audit procedures of the US authorities.

John Barrett: To ask the Secretary of State for International Development what assessment he has made of *(a)* the extent to which non-governmental organisations will exit Iraq following the scheduled handover of sovereignty to Iraqis on 30 June and *(b)* the impact this will have on the humanitarian situation in the country. [165428]

Hilary Benn: The number of international NGOs present in much of Iraq has been low for some months because of security concerns. However, some continue to operate using Iraqi or Arabic staff, and there are a large number of emerging Iraqi NGOs and more international NGOs are present in Kurdish areas. After the handover of sovereignty, and with the return of the UN, it is possible that international NGOs might increase their presence, but this will mainly depend on the security situation.

John Barrett: To ask the Secretary of State for International Development what representations have been made to him by UK-based non-governmental organisations on the security of their aid workers in Iraq following the scheduled handover of sovereignty to Iraqis on 30 June. [165429]

Hilary Benn: DFID maintains close and regular contact with UK-based non-governmental organisations. The security environment remains one of our central concerns. However, no specific representations have been made on the security of aid workers following the scheduled handover of sovereignty on 30 June.

John Barrett: To ask the Secretary of State for International Development what steps will be taken to ensure the security of aid workers in Iraq following the scheduled handover of sovereignty to Iraqis on 30 June. [165430]

Hilary Benn: Following the transfer to Iraqi sovereignty on 30 June the UK will continue its contribution to the multinational force, which is mandated with contributing to security and stability in Iraq. DFID already provides some security-related assistance to the UN and will offer support to help the UN re-establish itself in Iraq. Non-governmental organisations (NGOs) will be responsible for their own security, but DFID will continue to maintain regular dialogue with them on security issues.

Extensive measures are taken to protect DFID staff and contractors, for example through the provision of safety and communications equipment, security training, briefing and armed protection. These security arrangements will be kept under constant review before and after the transition to Iraqi sovereignty.

Tony Baldry: To ask the Secretary of State for International Development whether training projects or preparations for Iraq proposed by *(a)* the Emergency Response Team and *(b)* the Conflict and Humanitarian Affairs Department of his Department were (i) cancelled and (ii) postponed in the year to 1 May 2003. [165985]

Hilary Benn: There were no training projects or preparations for Iraq DFID's Conflict and Humanitarian Affairs Department, including its Operational Team, cancelled or postponed in the year to 1 May 2003.

Tony Baldry: To ask the Secretary of State for International Development on what occasions the head of the Emergency Response Team visited *(a)* Iraq and *(b)* the Gulf region in the year to 1 May 2003. [165986]

Hilary Benn: The Director of the Conflict and Humanitarian Affairs Department's Operations Team made visits to Kuwait on 4–7 February 2003 and Bahrain, Dubai, Kuwait and Iraq 13–17 April 2003. These visits were for operational planning and management purposes. He also visited Cyprus on 26–27 March 2003 for discussions with United Nations agencies.

Tony Baldry: To ask the Secretary of State for International Development whether any training in personal health and safety for *(a)* the Emergency Response Team and *(b)* the Conflict and Humanitarian Affairs Department of his Department was (i) cancelled and (ii) postponed in the year to 1 May 2003. [165987]

Hilary Benn: There was no cancellation or postponement of training in personal health and safety for DFID's Conflict and Humanitarian Affairs Department, including its Operational Team, in the year to 1 May 2003. 29 staff from the Conflict and Humanitarian Affairs Department, including part-time consultants of the Operational Team, attended health and safety courses in this period.

Training in personal health and safety for staff is identified following training needs assessments and arranged to suit course and individual Availability and the priority of the requirement. Apart from internal briefings, the Conflict and Humanitarian Affairs Department does not run its own health and safety training. It sends staff to appropriate external courses. These courses are reviewed annually reflecting changing priorities. In addition DFID provides its staff with regular advice on health and safety issues.

Mr. Barnes: To ask the Secretary of State for International Development what assistance has been given to trade union bodies in Iraq; what programmes such assistance was given under; and whether those programmes are still open for further assistance. [166137]

Hilary Benn: DFID has not yet provided any funding for trade unions in Iraq. Trade unions under Saddam Hussein were part of the Ba'ath Party machinery and had very little independence. Effectively they no longer exist. It will take time to establish more appropriate structures for industrial relations in Iraq.

DFID is committed to supporting the emergence of a vibrant civil society in Iraq, including through trade union organisations as they begin to emerge. DFID is putting in place, programmes for providing support to civil society groups. Proposals from nascent trade union groups will be eligible to be considered for funding.

Jeremy Corbyn: To ask the Secretary of State for International Development what his Department's total expenditure in Iraq has been since May 2003; if he will list the major projects funded; and under which budget heads each project was funded. [166414]

Hilary Benn: In the 2003–04 financial year, DFID disbursed £209 million from its Iraq programme budget, and £1.1 million from its running costs budget on expenditure related to managing the Iraq programme.

Updated lists of projects are regularly deposited in the Library of the House. Since March 2003, DFID has approved funding for projects worth £278.6 million under the Iraq programme. The main areas for support are as follows:

£13 million to United Nations agencies for pre-conflict preparedness:

- World Food Programme (£8 million);
- UNICEF (£2 million);
- United Nations High Commissioner for Refugees (£1.75 million);
- World Health Organisation (£1 million);
- Office for the Co-ordination of Humanitarian Affairs (£150,000);
- Office of the United Nations Security Co-ordinator (£100,000).

£71.8 million to United Nations agencies in response the UN Consolidated Appeals for Iraq:

- World Food Programme (WFP), for food aid and logistical support (£25 million);
- United Nations Development Programme (UNDP), for emergency assistance to the electricity sector (£12.2 million), rehabilitation work on Umm Qasr Port (£3.1 million), rapid employment generation (£0.9 million);
- UNICEF, for water and sanitation projects, child immunisation, and mine risk awareness (£13.8 million);
- World Health Organisation, for health system support (£5 million);
- UN Mine Action Service, for mine clearance activities (£4.4 million);
- Office of the UN Security Co-ordinator (UNSECOORD), to support enhanced UN security in Iraq (3.5 million);
- Food and Agriculture Organisation (FAO), for recovery of agriculture in southern Iraq (£1.5 million);
- Office for the Co-ordination of Humanitarian Affairs (OCHA), for information coordination and technology (£0.75 million);
- UN Environment Programme (UNEP), for post conflict environmental assessment (£0.7 million);
- UN Development Fund for Women (UNIFEM), for promoting women's rights (£0.5 million);
- Office of the High Commissioner for Human Rights, for promoting human rights in Iraq (£4 million).

£70 million to the International Reconstruction Fund Facility for Iraq (IRFFI), of which £40 million was allocated to the World Bank Trust Fund, and £30 million to the United Nations Trust Fund.

£32 million to the Red Cross and Red Crescent Movement, for emergency humanitarian provision.

£7.3 million to non-governmental organisations for humanitarian and reconstruction assistance.

£84.5 million for specific projects, of which:

- £25.9 million to meet the costs of secondments and consultants in the Coalition Provisional Authority (CPA);
- £26.7 million for infrastructure rehabilitation projects in southern Iraq;
- £8.5 million to the International Finance Corporation's facility for support to small and medium businesses;
- £6.5 million to the BBC World Service Trust for the re-establishment of broadcasting capacity;
- £5 million to set up a Political Participation Fund to increase opportunities for political representation by all Iraqi citizens;
- £3.15 million to support CPA Governorate teams in southern Iraq;
- £3.15 million to the IMF for economic governance and financial management support;
- £3 million for strengthening the capacity of public administration;
- £2.1 million for support to the justice system, including training for judges and lawyers in human rights law;
- £0.5 million for training Iraqi journalists.

Kenya

Mr. Gregory Campbell: To ask the Secretary of State for International Development what resources his Department will make available to the Kenyan Government in 2004–05; and if he will make representations to the Kenyan authorities on problems in North-West Kenya regarding *(a)* the roads infrastucture and *(b)* a clean water distribution system. [165063]

Hilary Benn: In 2002 DFID provided £36.25 million in direct assistance to Kenya in support of the Government's Economic Recovery Strategy (ERS). I expect to at least to maintain this level of resources in 2004–05.

DFID supports development work in North-West Kenya through partners such as Oxfam. This work includes humanitarian assistance, drought mitigation, pastoral development, access to water, peace building and conflict management and strategic studies and operational inputs. It is carried out in close collaboration with the Kenyan authorities, and involves strengthening local organisations in their discussions with the Government about the provision of basic services, including roads and water. DFID's staff in Nairobi also maintain a close dialogue with the Kenyan Government on these issues. DFID has welcomed the emphasis that the Kenyan Government has placed on reducing poverty in the arid parts of Kenya, and will continue to monitor its implementation closely.

Mr. Gregory Campbell: To ask the Secretary of State for International Development what amount of overseas aid has been allocated to assisting Kenya in each of the last 10 years. [165801]

Hilary Benn: Levels of official development assistance allocated to Kenya in each of the last 10 years are shown in the following table. All figures are in million.

£ million

	Amount of UK bilateral assistance	*UK imputed share of EC assistance*
1993	26.30	5.2
1994	28.94	3.5
1995	22.04	6.3
1996	28.04	3.8
1997	28.45	3.7
1998	32.64	4.6
1999	34.01	1.2
2000	48.30	2.3
2001	38.27	8.4
2002	36.25	[1]4.13

[1] UK share of EC aid in 2002 estimated as official calculation exercise still to be carried out.

Land Classification

Norman Baker: To ask the Secretary of State for International Development what information he has collated on *(a)* the average area of land classified as wetlands, *(b)* the (i) maximum and (ii) minimum area of mountain snow cover and *(c)* the total area of sea level intrusion in each of the last ten years, broken down by country. [165809]

Hilary Benn: The Department for International Development (DFID) does not collect this information.

Mine Clearance

Mr. Frank Cook: To ask the Secretary of State for International Development how much his Department will spend on *(a)* humanitarian mine clearance, *(b)* commercial mine clearance, *(c)* military initiatives in mine clearance, *(d)* mine awareness, *(e)* mine victim assistance and *(f)* research and development for mine clearance in 2004. [165849]

Hilary Benn: Until the work of the current DFID review of mine action is complete I am unable to precisely indicate the detail of our mine action budget for 2004–05. However I anticipate that DFID's total allocation in this sector will remain at current levels.

Mr. Frank Cook: To ask the Secretary of State for International Development how much his Department spent on *(a)* humanitarian mine clearance, *(b)* commercial mine clearance, *(c)* military initiatives in mine clearance, *(d)* mine awareness, *(e)* mine victim assistance and *(f)* research and development for mine clearance in 2003. [165850]

Hilary Benn: Disbursements in the Financial Year 2003–04 were as follows:

	(£)
Humanitarian Mine Clearance	[1]9,717,650
Mine Risk Education (Awareness) Grant to UNICEF	650,000
Research & Development inc knowledge provision	1,498,443

[1] DFID has not directly funded commercial mine clearance or military mine clearance initiatives in 2003. However commercial companies will benefit from contracts that use DFID funds provided to the United Nations for mine action programmes. The above programmes also include integrated demining activities that include mine risk education programmes. DFID is not able to disaggregate either of these figures.

Mr. Frank Cook: To ask the Secretary of State for International Development if he will make a statement on the recent review his Department made of its mine action funding policy. [165851]

Hilary Benn: The review of DFID's Mine Action Funding Strategy is still continuing. As soon as a final decision has been reached I will inform interested organisations.

Bushmeat

Mr. Grogan: To ask the Secretary of State for International Development if he will make a statement on the action being undertaken by his Department to combat the international trade in bushmeat. [163512]

Mr. Gareth Thomas: DFID's primary concern is poverty reduction and helping to bring about sustainable development for more than one billion people who are trying to live on less than one dollar a day. While bushmeat is an important source of food and livelihoods for many poor people, particularly those living in or close to forests, the bulk of bushmeat harvesting is not traded across national boundaries and less than 1 per cent. of the harvest is thought to comprise endangered species. DFID is concerned that the steady decline in the supply of bushmeat is having a negative impact on the livelihoods of poor people.

The Government has set up an Inter-Departmental Ministerial Group on International Biodiversity to ensure that our response to biodiversity issues, including bushmeat, is as effective as possible.

Palestine

Mr. Drew: To ask the Secretary of State for International Development if he will make a statement on the situation in Gaza, with particular reference to the movement of food into the area. [165823]

Hilary Benn: The Government and our EU partners are seriously concerned about the new restrictions placed on the entry of humanitarian goods and services to Gaza, and have made strong representations to the Israeli Government to ease the situation. While DFID respects Israel's legitimate security needs, it is essential that these are addressed in a manner which minimises interference with the work of international organisations, humanitarian bodies and diplomats. 600,000 Palestinian refugees in the Gaza Strip are dependent on the United Nations Relief and Works Agency's food aid programme. This programme has been suspended as a consequence of current Israeli restrictions. Until the situation is resolved it will cause further suffering for communities struggling to cope with prolonged economic hardship.

Policy Objectives

Mr. Bercow: To ask the Secretary of State for International Development what the published objectives were of the *(a)* democracy and human rights, *(b)* international fishing agreements and *(c)* bananas ACP projects that were financed on the general Commission budget in 2002; what his Department's involvement in them was; what results they achieved; and what assessment he has made of their value for money. [165171]

Mr. Gareth Thomas: Detailed descriptions of the objectives of individual projects are given as part of the "Final adoption of the general budget of the European Union for the financial year 2002", published in the *Official Journal* of the European Communities on 31 January 2002 (volume 45 L29). A copy of this is available in the parliamentary library or via the Commission website at http://europa.eu.int/eur-lex/en/archive/2002/l_02920020131en.html. Chapters relevant to the question can be found on the following pages: Human Rights pp. 1309; fishing agreements pp. 1314; Assistance to ACP banana producers pp. 1340. Funding for projects financed in 2002 may have been allocated in earlier years.

DFID comments on the Commission's future budget proposals for the Democracy and Human Rights and Assistance to ACP banana producers budget lines, through the annual budget negotiation process led by HM Treasury. Matters relating to international fishing agreements are the concern of the Department for Rural Affairs. In considering proposals from the Commission a number of factors are taken into account including cost effectiveness.

The EC Human Rights and Democracy initiative resulted in funding contributions for 33 specific projects in 2002. Details of these can be found on the Commission's website at: http://europa.eu.int/comm/europeaid/projects/eidhr/projects_2002_targeted en.htm#701.

In addition further funding was provided from this budget line for specific projects carried out by non-governmental organisations working in the field of democracy and human rights.

Expenditure on Assistance to ACP Banana producers resulted in continued financial support to 12 traditional ACP suppliers under the special framework of assistance established in 1999. Projects included support for improving competitiveness and encouragement for diversification in countries where banana production is no longer considered profitable.

An assessment of the value for money will only be possible once the projects have been completed. The EC is best placed to carry out value for money assessments for individual budget lines through its own performance monitoring mechanisms.

Rapid Reaction Mechanism

Mr. Bercow: To ask the Secretary of State for International Development what the published objectives were of the rapid reaction mechanism financed on the General Commission Budget in 2002; what his Department's involvement in the mechanism was; what results it achieved; and what assessment he has made of its value for money. [165180]

Mr. Gareth Thomas: Detailed descriptions of the objectives for the EC Rapid Reaction Mechanism (RRM) are outlined in the Commission's Annual Report 2003 on the European Community's Development policy and the implementation of external assistance in 2002 (p 70–73) and in the *Official Journal* of the European Communities published on 31 January 2002 (volume 45 L29, pps 1306). A copy of this is available in the parliamentary Library or via the Commission website at http://europa.eu.int/eurlex/en/archive/2002/l_02920020131en.html.

These include, preventative action during emerging crises, acute crisis management, post conflict reconciliation and post-crisis reconstruction.

As with other parts of the Commission budget DFID engaged in discussion around funding for the RRM through the annual budget negotiation process led by HM Treasury.

In 2002 the rapid reaction mechanism resulted in funding contributions towards, among other things, the stabilisation of Afghanistan, Peace-building in the horn of Africa, reconstruction in the Palestinian territories, conflict mitigation in Nepal and Peace-building in Sri Lanka.

The EC is best placed to carry out value for money assessments for individual budget lines through it's own performance monitoring mechanisms.

St. Helena

Mr. MacDougall: To ask the Secretary of State for International Development if he will make a statement on progress in developing an airport on St. Helena. [165507]

Mr. Gareth Thomas: I refer my hon. Friend to the written ministerial statement that I have laid before the House today.

Sustainable Development

John Barrett: To ask the Secretary of State for International Development (1) if he will list the meetings at which his Department has been represented on the delivery of sustainable development across Government as co-ordinated by the Ministerial Sub-committee of Green Ministers; [165433]

(2) what meetings his Department's Green Minister has attended in the last 12 months in that role. [165434]

Mr. Gareth Thomas: I am a Member of the Ministerial Sub-committee of Green Ministers (ENV(G)), but it has been established practice under successive Governments not to disclose information relating to the proceedings of Cabinet Committees. This practice is now formalised by Exemption 2 of Part II of the Code of Practice on Access to Government Information.

Uganda

Mr. Boris Johnson: To ask the Secretary of State for International Development for what reason food aid to Teso in north-east Uganda was distributed through the World Food Programme. [165519]

Hilary Benn: Over the last 12 months DFID has provided £6.4 million specifically for food relief in the north and east of Uganda. This support is channelled through the World Food Programme, which works with NGO partners to distribute food at a local level.

Over 1.5 million people are now displaced in northern and eastern Uganda, requiring a huge and ongoing humanitarian response. DFID channels support for food relief through WFP because it is the UN agency mandated to provide food aid in such a large-scale emergency. It is the only agency in Uganda equipped with the necessary staff, resources and experience required to respond adequately to the situation.

Vitamins and Minerals

Mr. Watson: To ask the Secretary of State for International Development how many people's health his Department estimates has been damaged as a result of lacking essential vitamins and minerals. [165255]

Mr. Gareth Thomas: The Department for International Development (DFID) does not conduct its own global health estimates, but uses those produced by the international bodies mandated to do this such as the World Health Organisation (WHO), UNICEF and the Food and Agriculture Organisation (FAO). FAO estimate that more than 2 billion peoples health in the world is affected by a lack of essential vitamins and minerals.

DFID is working to tackle malnutrition through a wide range of health, education and food security policies. DFID's position paper on food insecurity, "Eliminating Hunger" sets out a strategy for helping poor people access an adequate variety and quantity of safe, good-quality food. Since 2001 DFID has also provided core funding of over £440 million to WHO and UNICEF whose activities include directly providing essential vitamins and minerals to the most needy, particularly children who are at risk.

DFID is also funding research into improving the nutritional content of crops, including vitamins and minerals.

Zimbabwe

Mr. Rosindell: To ask the Secretary of State for International Development what value for money guarantees he is seeking regarding EU aid spending in Zimbabwe. [165544]

Hilary Benn: All spending by the European Community is subject to rigorous review, evaluation and audit procedures. The European Court of Auditors is responsible for appropriate audit of EC programmes, including programmes in Zimbabwe.

Concerns about the exchange rate used by the European Commission were raised in a report of the European Court of Auditors. DFID's understanding is that those concerns were limited to part of the spending of the European Development Fund (EOF) that was converted into Zimbabwe dollars during 2002. Humanitarian aid, which is largely funded from the EU budget rather than the EOF, was therefore not affected. Humanitarian aid is in any case very largely used to procure food and other goods outside Zimbabwe and would not be converted into Zimbabwe dollars. The European Commission's view is that use of any other exchange rate would have contravened either Zimbabwean law or the EC's international obligations.

HEALTH

Substance Abuse

Mr. Hancock: To ask the Secretary of State for Health how many people have died as a result of abuse of *(a)* butane gas refills and *(b)* other volatile substances in each year since 1997. [165759]

Miss Melanie Johnson: Statistics, collected by St. George's Hospital Medical School on behalf of the Department, on volatile substance abuse deaths from cigarette (butane) lighter refills, and total volatile substance abuse deaths are shown in the tables.

Deaths associated with cigarette lighter refills

Year	Number
1997	47
1998	43
1999	43
2000	34
2001	42

Deaths by volatile substance abuse

Year	Number
1997	78
1998	80
1999	75
2000	65
2001	63

Mobile Phone Masts

Mr. Bailey: To ask the Secretary of State for Health when he expects the mobile telecommunications and health research programme to report on the public health implications of mobile phone masts. [165908]

Miss Melanie Johnson: The mobile telecommunications and health research programme reports progress at open seminars each year. The majority of projects are due to be completed in time for the annual seminar in November 2005. The remaining projects may take up to three years longer depending on their complexity. Most of the studies are concerned with mobile phones rather than base stations (masts) although there is one volunteer study looking specifically at base station exposures. Further details of these projects can be found on the website www.mthr.org.uk.

The public health implications of mobile phone base stations were reviewed recently by the National Radiological Protection Board's advisory group on non-ionising radiation, (Documents of the NRPB, Vol. 14, No 2, 2003). The report, entitled *Health Effects from Radiofrequency Electromagnetic Fields*, concluded that

> "Exposure levels from living near to mobile phone base stations are extremely low, and the overall evidence indicates that they are unlikely to pose a risk to health."

The report is available at www.nrpb.org.uk.

Breast Cancer

Mr Frank Field: To ask the Secretary of State for Health how many and what percentage of women in Birkenhead with suspected breast cancer saw a specialist within two weeks in each of the last five years. [166570]

Miss Melanie Johnson: The information requested is shown in the table:

Waiting times for patients referred urgently by their GP with suspected breast cancer to 1st outpatient appointment: Wirral Hospitals NHS Trust

Year	Quarter	Percentage of patients seen in two weeks %	Total patients seen	Patients seen in two weeks
1999/00	1	42.0	81	34
1999/00	2	64.0	100	64
1999/00	3	67.3	110	74
1999/00	4	93.7	111	104
2000/01	1	88.3	111	98
2000/01	2	91.0	100	91
2000/01	3	91.4	128	117
2000/01	4	100.0	153	153
2001/02	1	100.0	126	126
2001/02	2	100.0	148	148
2001/02	3	100.0	167	167
2001/02	4	100.0	173	173
2002/03	1	100.0	165	165
2002/03	2	100.0	160	160
2002/03	3	100.0	137	137
2002/03	4	99.2	118	117
2003/04	1	100.0	146	146
2003/04	2	100.0	197	197
2003/04	3	100.0	190	190

Smoking

Sandra Gidley: To ask the Secretary of State for Health what programmes he has in place to encourage smoking cessation among the over-60s. [166010]

Miss Melanie Johnson: Our comprehensive tobacco control programme is aimed at all age groups, to reduce the numbers starting to smoke and to encourage those who smoke to stop. National Health Service stop smoking services are in place across the country to support smokers who want to quit. The services welcome people of all ages, and are widely available and accessible.

Standard 8 of the national service framework for older people provides a continuing commitment to the health and well being of older people. An increase in access to local NHS stop smoking services is one important component in extending healthy life expectancy in older people.

Between April and September 2003 over 23,300 smokers aged 60 or over set a date to quit smoking with the help of NHS stop smoking services and nearly 14,800 reported that they had successfully quit four weeks later. This means that an encouraging 63 per cent. in this age group were successful in quitting.

Edward Jenner Institute

Mr. Rendel: To ask the Secretary of State for Health what plans he has for the future of the Edward Jenner Institute at Compton; and what funding he as allocated to the institute for future years. [162227]

Miss Melanie Johnson *[holding answer 18 March 2004]:* The Edward Jenner Institute for Vaccine Research (EJIVR) was established in 1995 to develop programmes in basic research relevant to human and animal vaccines. GlaxoSmithKline, the Medical Research Council, the Biotechnology and Biological Sciences Research Council and the Department of Health contributed a total of £6 million per annum to establish and fund the EJIVR for an initial 10 year research programme.

The four sponsors remain committed to supporting basic and applied vaccine research through to the end of the current term in October 2005. However, they have agreed that the existing joint funding model for the EJIVR is not the best way forward beyond 2005.

The sponsors are working actively with the board of the EJIVR to progress vaccine research beyond October 2005. The sponsors have recently completed a scientific review of the EJIVR's research programmes. The outcomes from this are assisting the board in its development of future plans to build on the best programmes, scientifically and strategically. Until the board's plans have progressed further, it is not possible to be more specific about the future.

Tuberculosis

Mr. Dalyell: To ask the Secretary of State for Health what his policy is on the containment of tuberculosis, with particular reference to containment of strains which may not respond to treatment by established procedures. [162914]

Miss Melanie Johnson *[holding answer 23 March 2004]:* The interdepartmental working group on tuberculosis document was published in September 1998. It is entitled:

The prevention and control of Tuberculosis in the United Kingdom: UK Guidance on the Prevention and Control of Transmission of:

1. HIV-related Tuberculosis.

2. Drug-resistant, including Multiple Drug-resistant Tuberculosis.

It gives advice on the containment of tuberculosis and multi-drug resistant tuberculosis. It is available in the Library.

Working Time Directive

Dr. Murrison: To ask the Secretary of State for Health what assessment he has made of the costs of implementing the European Working Time Directive in *(a)* money terms, *(b)* extra doctors required and *(c)* other extra NHS staff required for (i) August 2004 and (ii) 2009; and what methodology he used to calculate those figures. [164568]

Mr. Hutton *[holding answer 30 March 2004]:* The Working Time Directive (WTD) is an integral part of modernising and improving services. The National Health Service has been aware of the implications of implementing the WTD for doctors in training since 2000, and planning for it forms part of overall NHS planning.

In the United Kingdom's response to the European Commission's questionnaire on working time, which was completed in February, we stated that in the UK the NHS would need to recruit several thousand extra middle grade doctors by August 2004 to achieve compliance with the re-interpreted Working Time Directive, while simultaneously maintaining current levels of service provision and retaining similar working practices as now. The cost of recruiting the extra middle grade doctors would run to hundreds of millions of pounds per annum.

However, this is not a realistic scenario. Even if this number of additional doctors were available, implementing the directive in this way would be very inefficient. As stated in our recent response to the EC's communication on working time, solutions need to include alternative ways of working that are already being piloted in the NHS, such as substituting non-medical practitioners where possible, instituting new forms of multidisciplinary team working, or redesigning services in some areas. There is no 'one size fits all' solution and ways of becoming WTD compliant will vary between trusts. Actual costs or numbers of additional staff required are not held centrally and could not in any case be disaggregated from the overall cost of NHS growth and modernisation.

NHS Foundation Trusts

Mr. Lansley: To ask the Secretary of State for Health when he expects to lay before Parliament the code for determining the limit on the total amount of borrowing of any NHS Foundation Trust required by section 12 of the Health and Social Care (Community Health and Standards) Act 2003. [166073]

Mr. Hutton: The Independent Regulator of National Health Service foundation trusts is responsible for making the Prudential Borrowing Code.

The draft prudential borrowing code has not yet been issued for consultation. I am informed by the Independent Regulator that a draft code is expected to be issued for consultation shortly and will be subject to a 12-week consultation period. Following the consultation, the Regulator will consider the responses, amend the code as required, make the final code and lay a copy before Parliament.

Primary Care Trusts

Mr. Lansley: To ask the Secretary of State for Health if he will list each primary care trust indicating its variation from *(a)* average per-capita resources in England and *(b)* their Resource Allocation Working Party as fair share funding formula. [166660]

Mr. Hutton: The information requested has been placed in the Library.

Hospital Discharges

Mr. Willis: To ask the Secretary of State for Health how many elderly people have been subject to eviction as a result of rent arrears after a stay in hospital in each year since 1997. [166517]

Dr. Ladyman: The Department does not collect this information.

Mr. Willis: To ask the Secretary of State for Health what steps he has taken to improve communication between health and social services to support vulnerable people who risk losing their homes as a result of rent arrears built up during a stay in hospital; and if he will make a statement. [166518]

Dr. Ladyman: The Community Care (Delayed Discharges etc.) Act 2003 introduced a system of notifications between National Health Service bodies and social services departments which has improved communication and co-ordination between health and social care partners at the point of discharge.

In addition, since March 2003 working age patients have continued to receive their full entitlement to any incapacity benefits, Income Support, bereavement benefits, Housing Benefit and Council Tax Benefit for 52 weeks. Also pensioners continue to receive their full State Retirement Pension, Pension Credit, Housing Benefit and Council Tax Benefit entitlement for 52 weeks.

Mr. Willis: To ask the Secretary of State for Health what procedures are in place to prevent elderly people returning home from hospital being subject to eviction orders as a result of rent arrears. [166520]

Dr. Ladyman: From May 2003 pensioners have continued to receive their full State Retirement Pension, Pension Credit, Housing Benefit and Council Tax Benefit entitlement for 52 weeks in order to ensure that they can continue to maintain their living expenditure. The Department has taken action to ensure that hospital discharges are planned effectively and completed in a timely manner.

Hospital-acquired Infections

Mr. Burstow: To ask the Secretary of State for Health if he will make a statement on the Nosocomial Infection National Surveillance Scheme, including its current remit and responsibilities. [165246]

Miss Melanie Johnson: The nosocomial infection national surveillance scheme was a voluntary reporting system for two types of data: hospital-acquired blood stream infection and surgical site infection. The first stopped in 2002, while the second continues as the surgical site infection surveillance service. Its remit is to help trusts use surveillance data to monitor and improve the quality of patient care.

Mr. Burstow: To ask the Secretary of State for Health when he will publish the systematic review of how infection control guidelines are implemented in the NHS carried out by Thames Valley University. [165249]

Miss Melanie Johnson: Thames Valley University will update existing guidelines[1] on preventing hospital-acquired infections later this year, but has not undertaken a systematic review of their implementation.

[1] The epic project: developing national evidence-based guidelines for preventing healthcare association infections phase 1: guidelines for preventing hospital-acquired infections 2001 http://www.dh.gov.uk/assetRoot/04/07/73/68/04077368.PDF

Mr. Burstow: To ask the Secretary of State for Health what guidance his Department has issued to neonatal intensive care units on the use of (a) broad spectrum antibiotics to prevent infections and (b) more targeted antibiotic approaches. [165242]

Miss Melanie Johnson: We have not issued specific guidance but the medicines management framework provides standards for the best use of all medicines in hospitals. This includes a recommendation that a lead pharmacist for anti-microbial prescribing is responsible for ensuring that appropriate policies are in place.

Mr. Burstow: To ask the Secretary of State for Health whether the National Care Standards Commission records incidences of MRSA in care homes. [165243]

Miss Melanie Johnson: The National Care Standards Commission did not have records of methicillin resistant *Staphylococcus aureus* (MRSA) infections.

Health Services (Hull and East Yorkshire)

David Davis: To ask the Secretary of State for Health (1) how many cases of MRSA have been identified in hospitals within Hull and East Yorkshire Hospitals NHS Trust in each of the past five years; [165038]

(2) what percentage of patients in hospitals within Hull and East Yorkshire Hospitals NHS Trust are infected with MRSA; [165039]

(3) what percentage of NHS staff within Hull and East Yorkshire Hospitals NHS Trust are infected with MRSA. [165043]

Miss Melanie Johnson: The data are not collected centrally. Available data from the national mandatory surveillance system for methicillin resistant *Staphylococcus aureus* (MRSA) bloodstream infections are shown in the table.

Number of methicillin resistant Staphylococcus aureus bacteraemia laboratory reports, Hull and East Yorkshire Hospitals NHS Trust

Year	*Number of reports*	*MRSA rate (per 1,000 bed-days)*
April 2001–March 2002	106	0.26
April 2002–March 2003	75	0.18

David Davis: To ask the Secretary of State for Health how many beds there are in the Hull and East Yorkshire Hospitals NHS Trust. [165042]

Miss Melanie Johnson: The average daily number of available beds in wards open overnight at Hull and East Yorkshire National Health Service Trust in 2002–03 was 1,391. In addition, the average daily number of day case beds in 2002–03 was 107. Information for each NHS trust is published annually on the Department's website at http://www.performance.doh.gov.uk/hospitalactivity/. Information for 2003–04 will be available in the summer.

David Davis: To ask the Secretary of State for Health how many nurses work in hospitals in the East Riding of Yorkshire. [165044]

Miss Melanie Johnson: The information requested is shown in the table.

National Health Service hospital and community health services: Qualified nursing, midwifery and health visiting staff in Hull and East Yorkshire Hospitals NHS Trust as at 30 September 2003

headcount

	All qualified nurses	*Community*	*Hospital*
Hull and East Yorkshire Hospitals NHS Trust	2,399	0	2,399

Source:
Department of Health Non-Medical Workforce Census.

David Davis: To ask the Secretary of State for Health how many cases of tuberculosis there were in the East Riding of Yorkshire in each of the past five years. [165047]

Miss Melanie Johnson: The information requested is shown in the table.

Year	*Health Authority*	*TB cases*
1998	East Riding	17
1999	East Riding	30
2000	East Riding	37
2001	East Riding	37
2002	East Riding	18

Department of Health.

Bacterial Resistance

Mr. Watson: To ask the Secretary of State for Health what research his Department has undertaken into anti-adhesive therapy to combat bacterial resistance in hospitals. [165025]

Miss Melanie Johnson: The Department has not commissioned research specifically on anti-adhesive therapy to combat bacterial resistance in hospitals. However, a broad strategic programme of research worth over £2.5 million has recently been commissioned, aimed at improving our scientific understanding of anti-microbial resistance.

Mr Burstow: To ask the Secretary of State for Health what action his Department is taking to encourage pharmaceutical companies to research new antibiotics to combat the threat of antibiotic resistant bacteria. [165239]

Miss Melanie Johnson: Our policy concentrates on supporting appropriate prescribing rather than influencing industry's research programmes.

Fertilisation and Embryology

Mr. Watson: To ask the Secretary of State for Health what assessment his Department has made of new processes to produce stem cell-like cells from the blood. [165027]

Miss Melanie Johnson: The Government consider that it is too soon to say what kind of stem cells will yield breakthroughs in scientific knowledge enabling new treatments to be developed. The Government are therefore promoting research across a full range of stem cell sources.

Mr. Watson: To ask the Secretary of State for Health if he will make a statement on the use of online human egg matching services. [165032]

Miss Melanie Johnson: The use of donor eggs in treatment in the United Kingdom is subject to the provisions of the Human Fertilisation and Embryology Act 1990 and is regulated by the Human Fertilisation and Embryology Authority (HFEA). Standards of practice for the donation of eggs and their subsequent use in treatment, including remuneration for donors, are set out in the HFEA's code of practice. Payments that may be made to donors are limited to £15.00 per donation plus reasonable expenses. These provisions apply irrespective of the potential donor's country of origin or the route by which they are linked to a potential recipient.

Thalassaemia

Mr. Watson: To ask the Secretary of State for Health what measures his Department is taking to fund research into combating beta thalassaemia major. [165250]

Miss Melanie Johnson: Details of research projects relating to beta thalassaemia major funded by, or of interest to, the National Health Service are available on the National Research Register (NRR) at www.update-software.com/national. The NRR currently contains details of around 20 on-going or completed projects with a specific focus on beta thalassaemia, in addition to a larger number of projects covering a wider range of haemoglobinopathies. Many of these projects are funded through allocations made annually to NHS providers for research to meet the priorities and needs of the NHS and to meet the costs to the NHS of hosting research supported by external funders. The total amount allocated to NHS providers in 2003–04 for research and development was £442 million.

The NHS health technology assessment programme has published reviews of *Screening for sickle cell disease and thalassaemia* (2000) and *Antenatal and neonatal haemoglobinopathy screening in the UK* (1999). These are available on the programme's website at www.hta.nhsweb.nhs.uk.

The Medical Research Council (MRC) has a long history of research into the causes and treatment of thalassaemia. Since 1980, the MRC molecular haematology unit in Oxford has undertaken both basic research into the process by which multipotential haemopoietic stem cells differentiate into the highly specialised cells found in blood, and also more applied research into how these processes are perturbed in inherited and acquired human genetic disesases (e.g. thalassaemia). The unit has an annual budget of over £2 million. The MRC also supports two grants in this area.

Animal Experiments

Norman Baker: To ask the Secretary of State for Health, pursuant to his answer of 25 February 2004, *Official Report*, column 467W, what reasons underlay the decision to authorise the payment towards the cost of research into the public's attitude to research involving animals. [165816]

Miss Melanie Johnson: The Government supported the 2002 MORI poll because it provided data on public attitudes to inform development of Government policy relating to the use of animals in medical research. The survey also provided data to assess any changes in public attitudes since the 1999 MORI poll carried out for the Medical Research Council.

Sustainable Development

Mrs. Calton: To ask the Secretary of State for Health what progress has been made on his Department's Sustainable Development Strategy. [165441]

Miss Melanie Johnson: The Department of Health's strategy on sustainable development and the environment is in line with the Government's overall sustainable development strategy, in which health ("expected healthy years of life") is one of the 15 key headline indicators. The Department is currently implementing a change programme which will result in shifting responsibility to the front line and focusing on providing strategic leadership to the National Health Service and social care. A review of the sustainable development strategy is currently under way as part of this process.

The Department's strategy should be viewed in the context of overall health strategies. On-going actions to raise awareness, integrate sustainable development into policy making and enhance operational activities for both the central Department and through advice to the NHS ensures that the Department continues to contribute to the Government's overall strategy on sustainable development. Progress is reported on the Department's website at: http://www.dh.gov.uk/AboutUs/AimsAndObjectives/SustainableDevelopment/fs/en

The NHS Estates Agency (NHSE) and the NHS Purchasing and Supply Agency (NHS PASA)—both Executive Agencies of the Department—have their own sustainable development/environmental strategies in place. The NHSE has issued a *New Environmental Strategy for the NHS* and *Sustainable Development in the NHS* as guidance for the NHS. NHS PASA has a sustainable development policy which it published in February 2003. This policy describes the framework within which NHS PASA will conduct its activities in order to contribute towards global pursuits of sustainable development. There are links to these Agencies' websites at the above address.

Mrs. Calton: To ask the Secretary of State for Health if he will list the meetings at which his Department has been present on the delivery of sustainable development across Government as co-ordinated by the Ministerial Sub-committee of Green Ministers. [165442]

Miss Melanie Johnson: The Department's Green Minister is a member of the ENV(G) Cabinet sub-Committee. Additionally, officials regularly attend working groups and other fora which report directly to ENV(G), related to the development of the *Framework for Sustainable Development on the Government Estate*. In particular, my officials have been closely involved in the development of procurement targets for the *Framework* and the Department is represented on the sustainable procurement group.

As part of the public sector food procurement initiative, the Department for Environment, Food and Rural Affairs (DEFRA) is working with government departments to develop food action plans. The Department's NHS Purchasing and Supply Agency and its NHS Estates Agency have been working with DEFRA to develop a food procurement action plan which sets a framework and objectives for those Agencies and the wider National Health Service.

Mrs. Calton: To ask the Secretary of State for Health what steps he is taking to promote the delivery of sustainable development within Government. [165448]

Miss Melanie Johnson: The Department is contributing to the Government's forthcoming consultation on the review of the United Kingdom strategy for sustainable development. One of the aims of the review is to step up action in the delivery of sustainable development.

The Department also has an important consultation—*Choosing Health?*—in train to identify action to improve people's health in preparation for a White Paper to be published this summer. Both consultations will have many aims and goals in common and will be an important means of promoting the sustainable development agenda.

The Department is also leading on cross-Government work on Tackling Health Inequalities: A programme for action, which was published in July 2003 and sets out plans to tackle health inequalities over the next three

years; and on developing a Food and Health Action Plan. Taking this work forward will make a significant contribution to the delivery of sustainable development.

Recycled Paper

Mrs. Calton: To ask the Secretary of State for Health if he will list his Department's main suppliers of *(a)* copier paper, *(b)* stationery, *(c)* envelopes and *(d)* paper for reports; and if he will state (i) the name of each paper used and (ii) the recycled, and post-consumer recycled, content of each paper. [165445]

Miss Melanie Johnson: The Department's contracted supplier of copier paper, bulk stationery and envelopes is Guilbert UK. The vast majority of white paper purchased is Niceday 3500, which is 80gsm, 100 per cent. recycled, using 80 per cent. post consumer waste.

Bulk paper copying is carried out on Xeros "x3" brand paper. This is 100 per cent. post consumer waste recycled.

NHS Dentistry

Mr. Evans: To ask the Secretary of State for Health, how many dentists have been recruited to the NHS in each year since 1997 in the Cumbria and Lancashire Health Authority. [165542]

Miss Melanie Johnson: Information on the number of dentists joining the general dental service (GDS) or personal dental service (PDS) in the Cumbria and Lancashire Strategic Health Authority area in each year since 1997 is shown in the table.

Number of entrants to the GDS and PDS

Year	*Cumbria and Lancashire SHA*
1998 from 1997	58
1999 from 1998	72
2000 from 1999	67
2001 from 2000	79
2002 from 2001	60
2003 from 2002	75

Notes:

1. Dentists include principals, their assistants and trainees. Entrants will include some dentists who left dentistry temporarily in previous years.
2. These figures do not cover other National Health Service dental services, for example, community dental service and hospital dental service.

Source:

Dental Practice Board statistics.

Contraception

Tim Loughton: To ask the Secretary of State for Health what evidence he has collated on the percentage of girls who take the contraceptive pill who suffer from (a) weight gain, (b) acne or other skin conditions and (c) mood swings. [165491]

Miss Melanie Johnson: Clinical trials for combined oral contraceptives have suggested that mood disturbances occur in around one per cent. of users, while acne, other skin conditions (such as eczema and itching) and weight changes occur in between 0.1 per cent. and 1 per cent. of users.

Statins

Mr. Watson: To ask the Secretary of State for Health what estimate he has made of the number of people being prescribed statins in each year to 2010. [165794]

Miss Melanie Johnson: *Winning the War on Heart Disease*, the 2004 progress report on the national service framework (NSF) for coronary heart disease, reports that statin prescribing continues to rise by around 30 per cent. a year. Nationally, about 1.8 million people are currently receiving statins.

The Government has made no estimate of numbers of people likely to be prescribed statins in 2010. However, in his 2002 Report *Securing Our Future Health: Taking a Long-Term View*, Derek Wanless suggested that statins should be prescribed for patients with lower levels of coronary heart disease risk than in the NSF, a 15 per cent. risk over 10 years, as opposed to 30 per cent. in the NSF, and that this would lead to an estimated prescribing cost of £2.1 billion by 2010. The National Institute of Clinical Excellence has been commissioned to produce a technological appraisal of statins and effective prescribing.

Hypertension

Mr. Watson: To ask the Secretary of State for Health what steps his Department are taking to encourage self monitoring of hypertension. [165802]

Miss Melanie Johnson: It is essential that individuals across the population be made aware of the risks associated with high blood pressure and the importance of knowing their blood pressure. For the last two years, the Department has contributed to the funding of The Blood Pressure Association's national blood pressure testing week, which is the annual event highlighting their ongoing *Know Your Numbers* campaign.

Genetically Modified Food

Mr. Drew: To ask the Secretary of State for Health what restrictions are in place to prevent the impact of genetically modified meat and fish and what discussions he has had with retailers on their policy towards these products. [165451]

Miss Melanie Johnson: Before any genetically modified food (including GM animals and fish) can be marketed in or imported into the European Union, approval is required under the relevant European Commission legislation. This would include a rigorous safety assessment of the GM food, which is carried out on a case by case basis.

The Food Standards Agency has had no discussions with retailers on their policy towards such products.

Public Health

Mr. Burstow: To ask the Secretary of State for Health, pursuant to the answer of 7 January 2004, *Official Report*, column 396W, which posts are filled by *(a)* acting staff, *(b)* temporary staff and *(c)* staff who fill other posts as directors of public health. [159105]

Miss Melanie Johnson: The information requested has been placed in the Library and the previous information has been updated.

Food Advertising

Mr. Paul Burstow: To ask the Secretary of State for Health if he will publish the evidence received by his Department on the impact of the advertising of food to children. [159774]

Miss Melanie Johnson: In September 2003, the Food Standards Agency (FSA) published the results of a review that it had commissioned on the effects of food promotion on children's food related behaviour. The review is available on the FSA's website.

In August 2003, the food advertising unit of the Advertising Association provided the FSA with the report, *Advertising and Food Choice in Children: a Review of the Literature*, by Dr Brian Young of Exeter University. This report is available on the food advertising unit's website.

In December 2003, the FSA received from Dr Jason Halford of Liverpool University a pre-publication copy of his paper, *The effect of Television Food Advertisments/ Commercials on Food Consumption in Children*. Dr Halford's paper has since been published in the Journal *Appetite*.

Health Services (Crosby)

Mrs. Curtis-Thomas: To ask the Secretary of State for Health what changes there have been to NHS waiting list time in the last seven years for residents of Crosby. [160392]

Miss Melanie Johnson: Information most closely associated with place of residency is not collected on a constituency level, but at a health services commissioner level. Data is shown in the tables for Sefton Health Authority for the period 1997 to 2002 and South Sefton Primary Care Trust for 2003.

Source:
Department of Health QF01.

Mrs. Curtis-Thomas: To ask the Secretary of State for Health how many residents in Crosby awaiting heart surgery have had the option of choosing an alternative hospital for quicker treatment in the last 12 months. [160432]

Miss Melanie Johnson: The information requested is not held centrally.

Day Cases

Mrs. Curtis-Thomas: To ask the Secretary of State for Health what the inpatient pre-booking performance against target was in Crosby for *(a)* elective inpatients, *(b)* day cases and *(c)* outpatients in each year since 1997. [164311]

Miss Melanie Johnson: The Department began publishing national day case figures from March 2003. Data is not collected on inpatient pre-booking performance for elective inpatients or outpatients and is not published on a constituency or National Health Service trust basis.

Egg Consumption

Andrew George: To ask the Secretary of State for Health what the *(a)* median, *(b)* highest and *(c)* lowest consumption of eggs per person in the UK was amongst (i) infants, (ii) children, (iii) young adults and (iv) adults, according to the findings of the National Diet and Nutrition Survey. [162173]

Miss Melanie Johnson: Information on the consumption of eggs is published in:

the National Diet and Nutrition Survey: adults aged 19 to 64 years (volume 1–types and quantities of food consumed) 2002).

the National Diet and Nutrition Survey: young people aged 4 to 18 years (volume 1–report of the diet and nutrition survey) (2000).

the National Diet and Nutrition Survey: children aged 1½ to 4½ years (volume 1–report of the diet and nutrition survey) (1995).

Copies of the reports are available in the Library.

Creutzfeldt-Jakob Disease

Mr. Burstow: To ask the Secretary of State for Health what measures his Department has taken to inform and reassure people who have received blood transfusions since 1980, and will now not be allowed to donate blood, on the risk of vCJD infection. [163473]

Miss Melanie Johnson: The National Blood Service (NBS) has produced two leaflets for donors giving them more information about the new donor exclusion criteria. The first leaflet is entitled *Variant CJD and blood donation* and is a general information leaflet for donors. The second leaflet, entitled *Keeping things safe*, is for those donors who have received blood since 1 January 1980 in the United Kingdom and can therefore no longer give blood. Copies of these leaflets can be obtained from the NBS website at www.blood.co.uk or from the NBS helpline. Donors will also receive an information leaflet entitled *A change to the rules for blood donors* with their invitation letter to give blood.

The NBS has run some press advertising in national newspapers in early April. These adverts addressed why this change is happening, what the risks are and how people can help.

In addition, any patient who has concerns can contact NHS Direct.

Mr. Burstow: To ask the Secretary of State for Health what research is being (a) undertaken and (b) funded by his Department on (i) diagnosis and (ii) treatment of vCJD, and the risks of infection through blood transfusion. [163475]

Miss Melanie Johnson: The diagnosis of pre-clinical infection is a major part of the Department's programme of Creutzfeldt-Jakob disease (CJD) related research. There are 13 contracts that are currently being funded through the policy research programme. In addition, the Department is currently funding seven projects to asses the risk of transmission through blood, and five projects to develop new therapeutic compounds and the CJD clinical trial. Over £30 million has been committed to date on CJD research.

Mr. Burstow: To ask the Secretary of State for Health, whether recipients of blood transfusions after 5 April will be prevented from donating blood. [163476]

Miss Melanie Johnson: The new donor exclusion criteria will apply to anyone who has received a blood transfusion since January 1980. This is because there is still a risk that the person from whom the recipient received the blood may have been exposed to variant Creutzfeldt-Jakob Disease by dietary exposure.

Mr. Burstow: To ask the Secretary of State for Health how many people have received *(a)* transfusions of whole blood components and *(b)* transfusions of other blood products since 1980. [163480]

Miss Melanie Johnson: Information on the number of patients who have received blood transfusions or other blood products is not collected centrally. However, the National Blood Service estimates that in recent years, 800,000 patients in England and North Wales received a blood transfusion per annum.

Nick Harvey: To ask the Secretary of State for Health what plans he has to extend the ban on blood donations from those who have received a blood transfusion since 1980 *(a)* to organ donation recipients and *(b)* to prevent recipients of blood transfusions from donating organs; and if he will make a statement. [164280]

Miss Melanie Johnson: Individuals who have had an organ transplant are excluded from giving blood because of their treatment. All potential organ donors are assessed at the time of their death to identify any risk of disease transmission to the donor.

Accident and Emergency Services

Mr. Burstow: To ask the Secretary of State for Health (1) how many consultants there were on average in an accident and emergency department in *(a)* England and *(b)* each strategic health authority in each year since 1997; [163503]

(2) how many consultants there were in each accident and emergency department in England in each year since 1997. [163508]

Ms Rosie Winterton: The information requested has been placed in the Library.

Community Hospitals

Mr. Boris Johnson: To ask the Secretary of State for Health how many NHS staff are working in the community hospitals of *(a)* Townlands, *(b)* Wallingford, *(c)* Abingdon, *(d)* Wantage, *(e)* Watlington and *(f)* Didcot; and what proportion of these staff receive financial assistance with regard to (i) housing and (ii) transportation. [164101]

Ms Rosie Winterton: Information on number of National Health Service Staff is not held at hospital level but at primary care trust level. Information is shown in

the table for South East Oxfordshire and South West Oxfordshire Primary Care Trusts, which commission services from the community hospitals listed.

NHS hospital and community health services: All NHS staff by main staff group in each specified organisation as at 30 September each specified year

headcount

	2002	*2003*
South East Oxfordshire PCT total	515	567

Expert Patients' Programme

Mr. Burstow: To ask the Secretary of State for Health if he will make a statement on the expert patient programme; and what plans his Department has to extend the programme. [164869]

Miss Melanie Johnson: The expert patients programme provides training in self-management for patients with chronic conditions and helps build informed partnerships between patients and health and social care professionals. The programme is currently being piloted within primary care trusts in England. The report, entitled: *The Expert Patient: A New Approach to Chronic Disease Management for the 21st Century*, which was published in September 2001, commits us to making the programme integral to mainstream National Health Service healthcare provision between 2004 and 2007.

Skin Diseases

Dr. Evan Harris: To ask the Secretary of State for Health what research his Department has conducted into quality indicators for the treatment and management of inflammatory skin diseases. [164904]

Miss Melanie Johnson: In 2001, the National Health Service health technology assessment programme published systematic reviews of treatments for atopic eczema and severe psoriasis. These are available on the programme's website at www.hta.nhsweb.nhs.uk. Further assessments in eczema, psoriasis and acne are in progress.

Last year, the Nuffield Trust published *Measuring general practice: a demonstration project to develop and test a set of primary care clinical quality indicators.* The project looked at 19 disease areas, including acne, and was conducted in partnership with the National Primary Care Research and Development Centre (NPCRDC), based at the University of Manchester. NPCRDC is funded largely by the Department.

Care Homes

Mr. Burstow: To ask the Secretary of State for Health how many outbreaks of infectious disease there were in care homes in each year since 1997. [165241]

Miss Melanie Johnson: Information about all outbreaks of infectious diseases in care homes is not collected centrally.

The Health Protection Agency has provided the information shown in the tables on infectious intestinal diseases and on influenza from their voluntary reporting system.

General outbreaks of Infectious Intestinal Disease linked to care homes. England & Wales, 1997–2003

Year	*Number of outbreaks*
1997	152

ENVIRONMENT, FOOD AND RURAL AFFAIRS

Farm Incomes

Mr. Evans: To ask the Secretary of State for Environment, Food and Rural Affairs if she will make a statement on farm income levels for farmers in the Ribble Valley and Fulwood in the past five years. [165510]

Mr. Frank Field: To ask the Secretary of State for Environment, Food and Rural Affairs if she will make a statement on farm income levels for farmers in Birkenhead in the past five years. [166612]

Alun Michael: Owing to the small number of farms in the constituencies of Ribble Valley and Fulwood and Birkenhead, there is no robust data available on farm incomes for farmers in that area over the last five years. Net farm income for farms in the North EU "Super Region" and for England over the last five years are shown in the table below.

Net Farm Income

	1998–99	*1999–2000*	*2000–01*	*2001–02*	*2002–03*
North EU Super Region	8,272	8,659	12,456	16,457	18,512
England	10,359	7,981	9,886	13,558	16,435

Source:
Farm Business Survey

Net farm income is the return to the principal farmer and spouse for their manual and managerial labour and to the tenant-type capital of the business.

Advisory Committee on Pesticides

Mr. Drew: To ask the Secretary of State for Environment, Food and Rural Affairs if she will publish the membership for the Advisory Committee on Pesticides; and which organisations are allowed to attend. [166457]

Alun Michael: The membership of the Advisory Committee on Pesticides is already published and can be viewed on the Pesticide Safety Directorate's website at http://www.pesticides:gov.uk/acp.asp?id = 203.

Those who attend the meetings of the committee in addition to its members are departmental assessors and advisors and are listed in the ACP's annual report published at http://www.pesticides.gov.uk/uploadedfiles/Web_Assets/ACP/ACP_annrep_2002.pdf.

The Committee's annual report for 2003 is in preparation and is expected to be published within the next month.

On occasion the Committee invites individuals, such as applicants for approvals, to make a presentation related to a specific item of the committee's business. These individuals are not present when decisions are taken.

Home Energy Efficiency

Mr. Field: To ask the Secretary of State for Environment, Food and Rural Affairs how many homes in Birkenhead have benefited from Warm Front. [166613]

Alun Michael: Between the launch of Warm Front in June 2000 and the end of March 2003, approximately 3,780 households in Birkenhead received assistance from the scheme.

Horses and Ponies

Andrew George: To ask the Secretary of State for Environment, Food and Rural Affairs what recent assessment she has made of regulations which affect horses and ponies as *(a)* food producing, *(b)* agricultural and *(c)* pet or companion animals. [166443]

Alun Michael: We have been working on revisions to the Horse Passports (England) Regulations 2003, and to European legislation on animal welfare during transport and on veterinary medicines; reviewing national legislation on animal welfare (including regulation of tethering, livery yards and riding establishments); and working with the horse industry to develop a 10-year health and welfare strategy. The Ragwort Control Act, which is part of our work on animal welfare, came into force in February and was accompanied by a regulatory impact assessment. The Act provides for a Code of Practice on the Control of Ragwort, which should be in place towards the end of June. We recently issued the draft Code, and a draft environmental appraisal, for public consultation. Last month we published the first-ever research on the horse industry as a whole, jointly funded by the Department and the British Horse Industry Confederation.

Greyhounds

Phil Sawford: To ask the Secretary of State for Environment, Food and Rural Affairs, how many greyhounds have been collected by local authority dog wardens in each year since 2000. [165485]

Alun Michael: Under section 149(8) of the Environmental Protection Act 1990, local authority dog wardens are required to keep a register containing the prescribed particulars of, or relating, to dogs seized and the register shall be available, at all reasonable times, for inspection by the public free of charge. However, we do not collect that data centrally as there is no requirement for it to be supplied to Government.

Rights of Way

Mr. Streeter: To ask the Secretary of State for Environment, Food and Rural Affairs what obligations Plymouth City Council has to consult the public over variations to public rights of way; and whether her Department monitors the exercise of such powers. [165911]

Alun Michael: When making changes to a right of way, a local highway authority must, in most cases, (a) serve a notice of the relevant order on every owner, occupier and lessee of any land affected by the order, (b) publish the notice in at least one local newspaper and (c) notify all statutory consultees. The notice must also be displayed at the ends of the right of way affected by the order. Defra does not monitor the exercise of these duties, but councils are well aware that an order can be challenged if a local highway authority has failed to give correct notice and that it is in their interests to follow the correct procedures.

DEPUTY PRIME MINISTER

Possession Orders

Mr. Willis: To ask the Deputy Prime Minister how many possession orders have been issued in each year since 1997 to (a) elderly and (b) vulnerable people. [166519]

Mr. Hill: The Office of the Deputy Prime Minister does not currently collect data on numbers of possession orders issued. Data collected by the Department for Constitutional Affairs and held by the Office of the Deputy Prime Minister on the number of possession orders issued each year since 1997 does not give a breakdown of specified groups of tenants.

Communications Masts

Annabelle Ewing: To ask the Deputy Prime Minister what discussions he and his officials had with (a) Airwave and (b) O2 prior to the setting of the UK's safety limit on Tetra radiation. [161611]

Yvette Cooper: None. The Government set up the Independent Expert Group on Mobile Phones (chaired by Sir William Stewart) to consider the health effects of mobile phones, base stations and transmitters. They conducted a rigorous and comprehensive assessment of existing research and gathered a wide range of views and published their report in May 2000. In respect of base stations, the report concludes that *"the balance of evidence indicates that there is no general risk to the health of people living near to base stations on the basis that exposures are expected to be small fractions of the guidelines"*. However, gaps in scientific knowledge led Stewart to recommend a precautionary approach comprising a series of specific measures. The Government accepted the recommended precautionary approach and is taking forward a range of precautionary actions. These include ensuring all base stations meet the international guidelines on public exposure set by the International Commission on Non-Ionising Radiation Protection (ICNIRP).

Following a request to the NRPB by the Home Office, the issue of possible health effects caused by signals from TETRA base stations was comprehensively addressed in a report by NRPB's independent Advisory Group on Non-ionising Radiation (AGNIR), chaired by Sir Richard Doll. The report on *Possible Health Effects from Terrestrial Trunked Radio (TETRA)* was published in 2002 in the Documents of NRPB (Volume 12 No 2, 2001) and is also available on the NRPB web site: www.nrpb.org. The report noted that the signals from TETRA base stations, like their mobile phone counterparts, are not pulsed. NRPB advise that there is no reason to believe that signals from TETRA base stations should be treated differently from other base stations.

HOME DEPARTMENT

Serious Organised Crime Agency

Mr. Brady: To ask the Secretary of State for the Home Department how many police officers currently seconded to the National Criminal Intelligence Service will be transferred to the Serious Organised Crime Agency. [166602]

Caroline Flint: Staffing levels in the Serious Organised Crime Agency will be determined by the operational outcomes it is funded to deliver; no decisions have yet been taken on the requirements for particular groups of staff, but the overall objective is to enhance the effectiveness of our response to serious organised crime.

Mrs. Gillan: To ask the Secretary of State for the Home Department (1) what role the Serious Organised Crime Agency will have in *(a)* drugs enforcement and *(b)* drugs policy; [166103]

(2) what former HM Customs and Excise function he expects the Serious Organised Crime Agency to undertake; [166104]

(3) how many personnel involved in *(a)* drug enforcement and *(b)* drugs policy he expects to be transferred from HM Customs and Excise to the Serious Organised Crime Agency; [166105]

(4) how many personnel he expects to work on *(a)* drugs enforcement and *(b)* drugs policy in the Serious Organised Crime Agency. [166106]

Caroline Flint [*holding answer 19 April 2004*]: Proposals for the Serious Organised Crime Agency were set out in the white paper "One Step Ahead: A 21st century strategy to defeat organised crime" (CM6167), published on 29 March. A project team is now working on the detailed arrangements, but it is not intended that the new agency will have responsibility for drugs policy.

Race Hate Websites

Mr. Hancock: To ask the Secretary of State for the Home Department, what action he will take to *(a)* close down race hate websites and *(b)* protect named journalists who are being targeted by these sites. [160802]

Fiona MacTaggart: Websites of this kind are objectionable and I can understand why journalists and other persons identified on them might feel concern.

Whilst we are keeping the legislative position under review, existing laws already provide a level of protection.

It is an offence to assault people or damage their property, and a person who behaves in that way or takes active steps to commit those offences is liable to prosecution, regardless of how or where, or on what website he came to identify his victim.

It is also an offence to incite another person to commit a criminal offence. While it might not be possible to take action against a foreign-based internet service provider for disseminating the incitement, that would not in itself prevent prosecution of a person in this country who had been responsible for the content of the website. There is, of course, a question about what constitutes incitement. Publishing information such as names and addresses of those belonging to an identified organisation or espousing a particular view may not necessarily be enough in itself to constitute incitement but it is for the police and prosecutors to decide in all the circumstances of a particular case and on the available evidence whether an offence has been committed.

The Protection from Harassment Act 1997 makes provision that a person may be guilty of an offence if he engages in a course of conduct which he knows or ought to know causes harassment. The Act is concerned with the effect of the behaviour rather than the type of conduct—any actions that foreseeably cause distress may amount to harassment. The Act also provides, as a civil remedy, the opportunity to apply to the High Court for an injunction. Victims of harassment by animal rights extremists have successfully used the Act to secure orders which, among other things, have required the removal of their personal details from websites. In these cases however acts of harassment beyond identifying persons on a website were proved.

The internet service provider industry itself is sometimes able and willing to refuse to carry objectionable material on websites. In the UK, most service providers have acceptable use policies, under which they reserve the right to remove a customer's material, or refuse to carry it, not only if it is illegal but also in certain other circumstances, which can include where material causes concern or needless anxiety to others or publishes details of individuals without their consent. The UK's Internet Watch Foundation encourages service providers to refuse to handle sites which violate their acceptable use policies. The great majority of UK service providers operate responsibly. The government has also discussed with other governments how we can co-operate to tackle this problem, given that it raises issues of cross-national jurisdication.

It is important that those with concerns should make them known to the police and to the Internet Watch Foundation.

Probation Hostels

Mr. Hancock: To ask the Secretary of State for the Home Department what the average percentage change in costs was for each probation hostel following the decision to award the contract for hostel facilities to the private sector between the last and current financial years. [160808]

Paul Goggins: Prior to the award of the approved premises (previously known as hostels) facilities management contract no consistent data on the cost of running each premises was held. Therefore, it is not possible to accurately compare current costs to historic costs.

Reflecting the enhanced specification, and the intention to improve the quality of the approved premises estate, including staff security and health and safety, funding for premises was increased by 10 per cent. for financial year 2003–04.

CULTURE, MEDIA AND SPORT

"Choosing Health?"

Mr. Don Foster: To ask the Secretary of State for Culture, Media and Sport whether her Department will make a formal response to the recommendations of the Treasury's recent report on Securing Good Health for the Whole Nation; and if she will make a statement. [165008]

Miss Melanie Johnson: I have been asked to reply.

The Department of Health launched "*Choosing Health? A consultation on action to improve people's health*" on 3 March. The formal consultation period runs until 28 May 2004. The consultation will feed into a White Paper, to be published this summer. The White Paper will set out what the Government will do to achieve change in the public sector and in partnership with other organisations to improve health, and will include the Government's response to Derek Wanless' report on Securing Good Health for the Whole Population.

Digital Television

Mr. David Hamilton: To ask the Secretary of State for Culture, Media and Sport what assessment she has made of accessibility to digital television in *(a)* Scotland, *(b)* England, *(c)* Wales and *(d)* Northern Ireland. [165677]

Estelle Morris *[holding answer 19 April 2004]:* Nearly three-quarters of the UK population are currently believed to have a full range of digital terrestrial television (DTT) services potentially available. Current estimates, provided by the BBC, of the coverage of DTT services in the nations are:

England: 73 per cent.

Scotland: 82 per cent.

Wales: 57 per cent.

Northern Ireland: 58 per cent.

Digital satellite signals are potentially available to almost all UK viewers, and may offer an alternative in areas where DTT signals are not available. Cable TV services are also available to more than half the UK population (primarily in urban areas).

Full details, including maps of the extension of DTT coverage which may be possible after digital switchover by re-using analogue TV frequencies and increasing transmission powers, are available in Ofcom's report 'Driving Digital Switchover'.

Green Minister

Mr. Don Foster: To ask the Secretary of State for Culture, Media and Sport what work her Department's Green Minister has undertaken in the last three months

in that capacity; and what meetings her Department's Green Minister has attended in the last 12 months in that capacity. [165955]

Estelle Morris: In February, as the Green Minister for DCMS I endorsed the publication of my Department's strategy for sustainable development, copies of which have been placed in the Library of the House. In the spirit of strengthening links for sustainable development between departments, as recommended by my colleague the Minister for Environment, I recently issued an invitation to ministers across Government to attend an informal discussion on how our various departments relate to the subject. This will take place in the Royal Parks' newly opened restaurant in St James's Park, during London Sustainability Weeks in June. The restaurant has a modern ecological design constructed from sustainably produced materials (larch, oak) and has a green turf roof. The food it serves is procured as far as possible from named small specialist English producers, and will be organic, British and seasonal. It will present information on the ingredients used in an educational, fun and original way.

Helen Jackson: To ask the Secretary of State for Culture, Media and Sport what criteria she used for making the selection of 20 sports eligible for main Lottery funding; if she will list the 20 sports selected for Lottery funding; and whether crown green bowling was considered as a sport which might be eligible for main Lottery funding. [166798]

Richard Caborn: The 20 sports eligible for priority lottery funding were selected by Sport England. The selection criteria were participation rates, retention, and levels of success. Sport England also considered the governance of each sport. Any sports can apply for lottery funding.

The Priority sports are:

England only: badminton, cricket, football, golf, hockey, netball, rugby union, rugby league, squash and tennis.

UK-wide (same treatment by Sport England, but also qualify for UK Sport One Stop Planning support: athletics, canoeing, cycling, equestrianism, gymnastics, judo, rowing, triathlon, sailing and swimming).

Crown green bowling was considered for priority funding. However, in comparison to the 20 sports chosen, there is less overall participation in numbers and diversity.

There is no reason why crown green bowling should not successfully apply for individual project lottery funding. Applications should be made to the new Regional Sports Boards that have been established to ensure that funding meets local and regional needs.

Civil Servants

Bob Spink: To ask the Secretary of State for Culture, Media and Sport if she will list for each civil service grade within her *(a)* Department and *(b)* Department's executive agencies, the total number of staff employed, broken down by (i) gender, (ii) ethnic group, (iii) registered disabled and (iv) age group. [166397]

Richard Caborn: The Department and Royal Parks Agency collect data on ethnicity and disability on the basis of voluntary self-declaration. The tables provide data by grade broken down by (i) gender, (ii) ethnic group, (iii) disability and (iv) age group. The Department and Agency Codes of Practice on equal opportunities monitoring do not allow disclosure of data where numbers in any group are fewer than five; where this is the case data have been aggregated to maintain confidentiality.

DEFENCE

Electronic Payments

Mr. White: To ask the Secretary of State for Defence what progress his Department has made to manage the changeover from the Bank Automated Clearing System to the new BACSTEL-IP system for electronic payments. [164317]

Ivor Caplin: Action to manage the changeover to the new BACSTEL-IP system is being co-ordinated in the Ministry of Defence by the Defence Communications Services Agency, supported by the Departmental Corporate Banking and Fund Manager and by Lloyds TSB, the sponsoring bank for BACS within the Department. Initial work to gather information has been conducted, and a plan prepared to enable migration well ahead of the discontinuation of the existing BACS system.

Dr. Lynne Jones: To ask the Secretary of State for Defence (1) what alternative methods of payment he is proposing for people who currently receive a war pension by order book, girocheque or payable order but will be unable to transfer to direct payment. [165214]

(2) who will be eligible to receive their war pension by methods other than direct payment. [165215]

Ivor Caplin: The Veterans Agency (VA) has always accepted that for a very limited number of customers, those most vulnerable and genuinely unable to manage Direct Payment, this method of payment may not be practical or suitable for their needs.

For those customers the VA will provide an alternative method of payment that will take the form of a weekly cheque. This will be sent to the pensioner's home by first class post and they will be able to cash it at any post office.

Departmental Personnel (Vale of York)

Miss Anne McIntosh: To ask the Secretary of State for Defence how many (a) service and (b) departmental civilian personnel are based in the Vale of York. [165095]

Ivor Caplin: Location data for Service personnel are not available by Parliamentary Constituency. However they are available by Local Authority Area. The Parliamentary Constituency of the Vale of York contains part of the Unitary Authority of York, and parts of the local authorities of Hambleton and Harrogate. The total number of Service personnel in these areas as at 1 July 2002 (the most recently available data) is given in the following table:

UA/LA	All Services	Naval Service	Army	RAF
York	680	–	680	–
Hambleton	2,130	10	700	1,420
Harrogate	2,610	60	2,530	10

Note:
1. – denotes zero,
2. All figures have been rounded to the nearest 10. Due to rounding methods used totals may not always equal the sum of the parts.
3. Figures are for UK Regular Forces, both Trained and Untrained, and exclude Gurkhas, Full-Time Reserve Service personnel, the Home Service battalions of the Royal Irish Regiment and mobilised Reservists.

The number of civilian personnel working for the Ministry of Defence as at 1 January 2004 in Yorkshire and The Humber was 3,140 (rounded to the nearest 10).

This includes permanent, full-time equivalent staff, non-industrial and industrial, including Trading Funds and excludes those on career breaks, long-term sick leave, secondment etc. Reliable data is not available below Government Office Region level.

Civilian Personnel

Mr. Rosindell: To ask the Secretary of State for Defence what the salary bill was for civilians employed within the (a) Ministry of Defence and (b) armed forces in the latest year for which figures are available. [165554]

Ivor Caplin: Civilian salary costs, including National Insurance contributions, superannuation liability and redundancy and severance payments, for the last Financial Year 2002–03 were £2,584,057,000. This information was published in the Department's Annual Reports and Accounts at Note 2.2 to the acccounts. A copy is available in the Library of the House.

Army Resettlement Payments

Mr. Dodds: To ask the Secretary of State for Defence, how many (a) soldiers and (b) ex-soldiers were (i) investigated and (ii) prosecuted in regard to fraudulent claims for payment associated with resettlement in each year since 2000. [166436]

Ivor Caplin: Information for all soldiers is not held centrally and could only be provided at disproportionate cost. The investigation of ex-soldiers is a matter for the appropriate civil police authority.

Mr. Dodds: To ask the Secretary of State for Defence, how many soldiers received payments as part of their resettlement on leaving the Army in 2003; and what the average amount was. [166437]

Ivor Caplin: The Information requested is not held centrally and could only be provided at disproportionate cost.

Cap Badges

Bob Russell: To ask the Secretary of State for Defence if he will list the regiments which have the name of a county included in the cap badge. [166028]

Ivor Caplin: The following 11 regular Army regiments include the name of a county in their official titles: The Argyle and Sutherland Highlanders; The Cheshire Regiment; The Devon and Dorset Regiment; The Prince of Wales's Royal Regiment (Queen's and Royal Hampshires); The Green Howards (Alexandra, Princess of Wales's Own Yorkshire Regiment); The Prince of Wales's Own Regiment of Yorkshire; The Queen's Lancashire Regiment; The Royal Gloucestershire, Berkshire and Wiltshire Regiment; The Staffordshire Regiment; The Worcestershire and Sherwood Foresters Regiment; and The Duke of Wellington's Regiment (West Riding).

Of these 11 regiments, five feature the name of a county in their actual gap badges. They are: The Argyle and Sutherland Highlanders; The Cheshire Regiment; The Prince of Wales's Own Regiment of Yorkshire; The Queen's Lancashire Regiment; and The Duke of Wellington's Regiment (West Riding).

Wind Turbines, Guestwick

Mr. Keith Simpson: To ask the Secretary of State for Defence whether he intends to object, for operational flying reasons, to the erection of six wind turbines at Guestwick in Norfolk. [166043]

Ivor Caplin (holding answer 19 April 2004): An objection to the current proposals will be lodged on the basis of potential interference with the operation of both air traffic and air defence radar. The developer has been notified.

The main reasons are that the proposed development is situated within 22km and in line of sight of the Air Traffic Radar at RAF Coltishall and within 16km and line of sight of the radar at RAF Honington. The blades of wind turbines can produce false returns or mask the detection of flying aircraft. It is the view of our specialist technical advisers, who have considered the proposal, that such a development could place the safety of flight in danger and therefore pose an unacceptable risk to personnel, aircraft and people on the ground.

In addition the site lies within 27km and line of sight of the Air Defence Radar at RAF Trimingham.

However, officials from Defence Estates are discussing with the developer whether any mitigating measures might be possible which would allow a development to proceed.

Computer Services

Bob Spink: To ask the Secretary of State for Defence what plans he has to update computer (a) hardware and (b) software standard packages used in his Department. [166369]

Ivor Caplin: The Defence Information Infrastructure Integrated Project Team (DII IPT) will deliver 139,000 desktop devices across Defence. This will include the provision of standard personal productivity software, e.g. office automation. The DII (Future) Programme will be delivered incrementally commencing during 2005 and is expected to achieve a Full Operating Capability by 2009.

CABINET OFFICE

Disclosure of Information

Mr. Heath: To ask the Minister for the Cabinet Office in what circumstances is disclosure of Government policy to a third party considered a disciplinary offence. [166194]

Mr. Alexander: The rules on the disclosure of information by civil servants are set out in the Civil Service Code and Civil Service Management Code.

Regulatory Reform

Mr. Lazarowicz: To ask the Minister for the Cabinet Office what steps he is taking to improve the regulatory reform process. [166195]

Mr. Alexander: As I confirmed to the Regulatory Reform Committee on 1 July 2003, we will honour the commitment given during the passage of the Regulatory Reform Bill in another place to review the workings of the order-making process in April 2004.

Regulatory Impact Assessments

Mr. Norman: To ask the Minister for the Cabinet Office what plans he has to improve the monitoring of regulatory impact assessments. [166196]

Mr. Alexander: My right hon. Friend the Chancellor announced in the Budget on 17 March new processes for approving regulatory proposals likely to impose large additional costs on businesses.

These new arrangements mean that departments will need to agree regulatory impact assessments on major proposals with the Cabinet Office Regulatory Impact

TREASURY

Tax Credits

Geraldine Smith: To ask the Chancellor of the Exchequer how many people have received overpayments of tax credits in the last 12 months. [165419]

Dawn Primarolo: I refer my hon. Friend to the reply I gave my hon. Friend the Member for Jarrow (Mr Hepburn) on 22 March, *Official Report*, columns 663-64W.

Geraldine Smith: To ask the Chancellor of the Exchequer what problems there have been with the tax credit computer system. [165420]

Dawn Primarolo: I refer my hon. Friend to the reply I gave the hon. Member for Birmingham, Northfield (Mr Burden) on 8 December 2003, *Official Report*, columns 334-35W.

Mr. Ruane: To ask the Chancellor of the Exchequer how many claimants of child tax credit there are; and what the total funding was for 2003–04 for each *(a)* constituency and *(b)* region in the United Kingdom. [166672]

Dawn Primarolo: There were 4.6 million families with an award of Child Tax Credit on 5 January this year. Because Child Tax Credit is a national system of financial support there is no separately identifiable funding for each constituency and region of the UK. However, data on the number of families receiving Child Tax Credit in each constituency and region is available on the Inland Revenue's website, at: http://www.inlandrevenue.gov.uk/stats/personal-tax-credits.

Illegal Imports

Mr. Breed: To ask the Chancellor of the Exchequer how many successful prosecutions have been brought against illegal *(a)* meat and *(b)* produce importers in the past five years, broken down by port of entry. [165718]

Mr. Healey: HM Customs and Excise have been responsible for anti-smuggling controls on illegal imports of meat since April 2003.

Customs have brought two successful prosecutions against people smuggling illegal meat in the past fortnight: one involving an American national arriving at Gatwick airport and another a Gambian national arriving at Heathrow.

In the past five years, two other successful prosecutions have been brought by Customs in regard of imports of meat, skins and dead animals (both in 2001). Records detailing the ports of entry and details of relevant prosecutions brought by local authorities are not recorded centrally.

There have been no prosecutions with regard to illegal imports of produce in the past five years.

National Minimum Wage

Mr. Hepburn: To ask the Chancellor of the Exchequer what provisions are being made to ensure that *(a)* post-GCSE students taking summer jobs and *(b)* sixth formers with Saturday jobs are covered by the new minimum wage for 16 and 17 year olds. [166814]

Dawn Primarolo: The new minimum wage rate will cover all 16 and 17 year olds who have ceased to be of compulsory school age, with an exemption for apprentices and those engaged in specified pre-apprenticeship training programmes. The Government will bring in regulations to implement the new minimum wage rate before Parliament ahead of the Summer recess and the new rate will come into effect on 1 October. The DTI is considering how best to raise awareness of the new minimum wage among 16 and 17 year olds and their employers.

WALES

Inward Investment

Bill Wiggin: To ask the Secretary of State for Wales which business sectors in Wales attracted the highest *(a)* number of investors and *(b)* amount of investment in each year since 1999. [161203]

Mr. Touhig: Since 1999, the following business sectors have attracted the highest number of investors in Wales:

Year	*Business Sector*	*Number of investors*
1999–2000	Call centres	11
2000–01	Other manufacturing	11
2000–01	Ebusiness	10
2001–02	Automotive	9
2002–03	Other manufacturing	11

Since 1999, the following business sectors have attracted the highest amounts of investment in Wales:

Year	*Business Sector*	*Amount invested*
1999–2000	Other manufacturing	£334.8m
2000–01	Automotive	£299.9m
2001–02	Semi-conductors	£69.4m
2002–03	Other manufacturing	£209.5m

Source:
Welsh Development Agency
NB—"Other manufacturing" are those projects which fall outside the above categories. For exmaple, it excludes aerospace, automotive, construction products, electrical engineering, general engineering, etc.

Employment

Bill Wiggin: To ask the Secretary of State for Wales how many jobs have been lost in (*a*) manufacturing and (*b*) agriculture in Wales in each year since 1997. [163166]

Mr. Touhig: Between 1997 and 2003, on average 19,000 jobs were lost each year in manufacturing and 14,000 manufacturing jobs created. The decline in the manufacturing sector is more than balanced by a rise in overall employment in Wales which has risen by over 100,000 since 1997. Details for individual years for the manufacturing sector are as follows:

Year	*Gains (thousands)*	*Losses (thousands)*
1997	11.2	10.5
1998	17.2	19.0
1999	10.0	15.0
2000	13.1	17.6
2001	24.9	30.1

Year	Gains (thousands)	Losses (thousands)
2002	12.8	22.9
2003	9.0	20.0
1997–2003 averages	14	19

Source:
Welsh Register of Manufacturing Employment

Information for the agriculture sector is not available in the form requested. However, employment trends in agriculture are set out in the table below.

Persons Employed in Agriculture in Wales (thousands)

Year	
1997	63.3
1998	61.9
1999	59.5
2000	55.7
2001	56.3
2002	56.2
2003	55.6

Source:
Digest of Wales Historical Statistics

NORTHERN IRELAND

Murder Defendants (Bail)

Mr. Nigel Dodds: To ask the Secretary of State, Northern Ireland Office how many times defendants charged with murder in Northern Ireland have been released on bail in each year since 2000. [166440]

Mr. Christopher Leslie: I have been asked to reply.

In 2001, 13 defendants on murder charges were released on bail.

In 2002, 17 defendants on murder charges were released on bail.

In 2003, 14 defendants on murder charges were released on bail.

SCOTLAND

Focus Groups and Opinion Polls

Mr. Laws: To ask the Secretary of State for Scotland what his estimate is of total expenditure by his Department on *(a)* focus groups and *(b)* opinion polls in each year from 1995–96 and 2003–04; and if he will make a statement. [162758]

Mrs. McGuire: The Scotland Office was established on 1 July 1999. Since then there has been no expenditure on focus groups or opinion polls.

Press Officers

Mr. Laws: To ask the Secretary of State for Scotland how many press officers were employed in his Department in each year from 1990–91 to 2003–04; what the total cost was in each year; and if he will make a statement. [162846]

Mrs. McGuire: The Scotland Office was established on 1 July 1999. Details of the number of press officers and their total pay cost to the office (including superannuation and employers national insurance contributions) are given in the table below:

Year	Number of Press Officers	Cost £
1999–2000	4	[1]44,078
2000–01	4	139,705
2001–02	4	134,702
2002–03	4	[2]99,166
2003–04	2.6	[3]111,202

[1] Part year cost from 1 July 1999
[2] Part year cost because of vacancies
[3] Estimated

Computers

Steve Webb: To ask the Secretary of State for Scotland how many cases of computer misuse there were in his Department in each of the last seven years, broken down by category of misuse; and how many of those cases resulted in disciplinary action. [163228]

Mrs. McGuire: The Scotland Office was established on 1 July 1999. Since then there have been no cases of computer misuse in the office.

Civil Servants

Bob Spink: To ask the Secretary of State for Scotland what the requirements are on officials in his Office to declare current interests; and what register of interests is kept for his officials. [164713]

Mrs. McGuire: The Civil Service Management Code sets out the requirement for civil servants declaring any conflict of interest. Further information and guidance to staff on the declaration of interests is available from the Staff Handbook.

Accountancy Services

Mr. Cousins: To ask the Secretary of State for Scotland what the *(a)* nature and *(b)* value was of all contracts, consultancies or other services placed with the accountancy firms (i) Deloitte & Touche, (ii) Ernst & Young, (iii) KPMG and (iv) PricewaterhouseCoopers since 2000–01 by the Department. [166083]

Mrs. McGuire: The Scotland Office has had no contracts, consultancy or other service work carried out by these accountancy firms.

Staff Transferrals

Mr. Peter Duncan: To ask the Secretary of State for Scotland how many staff from his Office have transferred to other Government departments since 1 June 2003; and to which departments they have transferred. [165965]

Mrs. McGuire: Since 1 June 2003, three staff have transferred from the Scotland Office to the Office of the Deputy Prime Minister, the Wales Office and the Department for Constitutional Affairs respectively. In

addition, 28 staff have returned to their parent departments (primarily the Scottish Executive) after their period of loan.

Mr. Peter Duncan: To ask the Secretary of State for Scotland how many staff from other Government departments have transferred to his Office since 1 June 2003; and from which departments they have transferred. [165966]

Mrs. McGuire: Since 1 June 2003, nine members of staff have joined the Scotland Office on loan from the Scottish Executive.

Higher Education

Mr. Lazarowicz: To ask the Secretary of State for Scotland what steps he will take in response to the findings and recommendations of the Scottish Executive's Phase 3 Higher Education Review. [165959]

Mrs. McGuire: Higher Education in Scotland is a devolved matter. It is therefore for Scottish Ministers to consider the findings of the 3rd Phase Scottish Higher Education Review to inform the 2004 Spending Review.

WORK AND PENSIONS

Pensions and Benefits (Direct Payments)

Mr. Hancock: To ask the Secretary of State for Work and Pensions how many pensioners in the Portsmouth South constituency drew their *(a)* benefits including war pensions and *(b)* retirement pensions at (i) post offices and (ii) banks and building societies, in each of the last three years for which figures are available. [165353]

Chris Pond: The information is not available in the format requested. However, information available on pensioners (women over 60 and men over 65) as at 31 December 2002 and 31 December 2003 in the Portsmouth South constituency receiving benefit payments collectable at a post office and by direct payment into bank and building society accounts, is in the tables.

Other Benefit accounts as at December each year in Portsmouth South Constituency

	Payments into Bank/ Building Society Accounts	*Payments through Post Office*
December 2002	3,995	9,330
December 2003	5,725	8,045

Retirement Pension accounts as at December each year in Portsmouth South Constituency

	Payments into Bank/ Building Society Accounts	*Payments through Post Office*
December 2002	5,790	6,640
December 2003	6,135	5,410

Included in payment through the post office are customers paid into Post Office card accounts and customers paid by girocheque. Girocheques are encashable either at a post office or they can be paid into a bank or building society account. These figures do not include war pensions and child benefit customers as these accounts are the responsibility of the Ministry of Defence and Inland Revenue respectively.

Some customers who are paid direct into an account can also collect their payments in cash at post offices through the wider range of banking services now available at the post office. There is no data available on the number of benefit claims collected in this way.

Bob Spink: To ask the Secretary of State for Work and Pensions what the take up of direct payment has been. [166230]

Chris Pond: Key figures on the progress of conversion to Direct Payment are available in the Library, updated every four weeks.

Sandra Gidley: To ask the Secretary of State for Work and Pensions (1) to how many benefit claimants the Department has sent personal invitation letters to open a Post Office Card Account; and how many of these are in receipt of state pensions; [166011]

(2) how many benefit claimants have completed the Post Office Card Account application forms at post offices; and how many of these are in receipt of state pensions; [166012]

(3) how many benefits claimants are being paid by the Department directly into Post Office card accounts; and how many of these are pensioners. [166082]

Chris Pond: Key figures on the progress of conversion to Direct Payment are available in the Library, updated every four weeks.

Post Office Limited have advised that as at 31 March 2004 over 2.1 million Post Office card accounts had been opened. The Post Office does not break these figures down into individual benefit groups therefore specific data for pensioners is not available.

The number of Department for Work and Pensions benefit accounts being paid into a Post Office card account as at 20 March 2004 is 679,355 of which 172,345 are Retirement Pension accounts.

As many customers have already provided their account details it is expected that the figures for Direct Payment into Post Office card accounts will quickly rise, as customers existing methods of payment expire, and they move over to payment being made direct into their nominated account.

Mr. Edward Davey: To ask the Secretary of State for Work and Pensions how many staff are employed by his Department to call members of the public who have yet to sign up for electronic payment of their benefits into bank or Post Office accounts. [165709]

Chris Pond: The conversion process normally consists of one or more mailings sent directly to the customer, followed by a phone call if there is no response to the letter(s). If the customers' telephone number is not available then a further letter asking them to contact the Department may be issued.

Approximately 150 of the staff employed by the Customer Conversion Centre are involved in making outbound calls. This is just part of the range of tasks undertaken by the Customer Conversion Centre aimed

at assisting over 14 million customers to convert to Direct Payment before order books are phased out in 2005.

New Deal for Lone Parents

Mr. Field: To ask the Secretary of State for Work and Pensions (1) how many women in Birkenhead have benefited from the (a) New Deal for Lone Parents and (b) New Deal for Partners since 1997; and if he will make a statement; [166508]

(2) how many lone parents in Birkenhead have gained work through the New Deal programme. [166511]

Jane Kennedy: The New Deal is working. Over one million people have been helped into work since its inception. On New Deal for Lone Parents alone there have been almost 460,000 entrants to the programme and over 240,000 of the lone parents participating have found work.

Statistics for New Deal for Partners are not available at constituency level. The information requested on the number of women benefiting from New Deal for Lone Parents is in the table.

Number of Women Participating in New Deal for Lone Parents in Birkenhead

Number of New Deal Participants [1]	*Number of New Deal Starts* [2]
1,310	1,630

Source:
New Deal evaluation Database, Information and Analysis Directorate, DWP.
Notes:
[1] All figures relate to individuals who have started each programme.
[2] An individual may have had more than one start over the period.

Seven Hundred and Forty lone parents have gained work through the New Deal for Lone Parents in Birkenhead. Information on the family circumstances of the participants of other New Deals is not available.

Mr. Chapman: To ask the Secretary of State for Work and Pensions how many lone parents in Wirral South have gained work through the New Deal programme. [166632]

Jane Kennedy: 210 lone parents have gained work in Wirral South through New Deal for Lone Parents.

Information on how many lone parents have gained work through other New Deal progammes is not available.

Mr. Willetts: To ask the Secretary of State for Work and Pensions (1) if he will break down by geographical area the information given in the latest Office of National Statistics' Statistics on the New Deal immediate destinations of people leaving the New Deal for Young People (Table 4) and the enhanced New Deal 25 plus (Table 5); [166351]

(2) in the latest Office of National Statistics' statistics on the New Deal, if he will break down by benefit to which individuals moved, the information given in the column on transfers to other benefits in Table 5 of the Immediate Destination on leaving the enhanced New Deal 25 plus; [166379]

(3) if he will break down by benefit to which individuals moved, the information given in the column on other benefits in Table 4 of the Immediate Destination on leaving the New Deal for Young People in the latest Office of National Statistics's Statistics on the New deal. [166380]

Jane Kennedy *[holding answer 19 April 2004]:* Latest information on the immediate destinations of people leaving New Deal for Young People and New Deal 25 plus, broken down by Jobcentre Plus region, has been placed in the Library.

A further breakdown of immediate destinations on leaving New Deal for Young People and New Deal 25plus is not available. Work is currently underway examining our data sources and systems, exploring the possibility of linking these to provide information such as that requested.

Pensioner Incomes

Mr. Webb: To ask the Secretary of State for Work and Pensions if he will estimate for (a) 1979, (b) 1996–97 and (c) 2002–03 the number of individual pensioners living in households with income below 60 per cent. of median income after housing costs; and of these how many were (i) men and (ii) women. [166250]

Malcolm Wicks: The requested information is provided in the table.

Number of pensioners (millions) living below 60 per cent of contemporary median income (After Housing Costs)

Year	*Male*	*Female*	*All Pensioners*
1979	0.9	1.6	2.5
1996–97	0.8	1.9	2.7
2002–03	0.8	1.3	2.2

Notes:

(1) All figures are estimates and are taken from the Households Below Average Income (HBAI) series. Family Expenditure Survey (FES) data is used for 1979, while Family Resource Survey data is used for 1996–97 and 2002–03. FES figures relate to single calendar years whereas FRS figures are for single financial years.

(2) Comparisons between results for 1979 and those for the later years should be regarded as approximate, due to the change in data source and grossing regime.

(3) Estimates are for Great Britain and are quoted to the nearest 0.1 million. Totals for male and female pensioners may not add up to 'All pensioners' due to rounding.

(4) The estimates are sample counts, which have been adjusted for non-response using milti-purpose grossing factors that, in the case of the Family Resources Survey, control for tenure, Council Tax band and a number of other variables. Estimates are subject to both sampling error and to variability in non-response.

(5) The income measure used is weekly net (disposable) equivalised household income (that is to say income that is adjusted to reflect the composition of the household). Figures are quoted on an After Housing Costs basis, and include the self-employed.

(6) Caution should be taken when making comparisons between gender using HBAI data. HBAI attempts to measure living standards as determined by household income; consequently both partners in a couple will appear at the same

position in the income distribution. Any differences in figures can only be driven by gender differences for single adults, which will themselves be diluted by the figures for couples.

Chemical Leak (Rhodia)

Mr. Holmes: To ask the Secretary of State for Work and Pensions when he expects the Health and Safety Executive to report on the chemical leak of 3 November 2003 at the Rhodia Group Chesterfield site; and if he will make a statement. [165641]

Jane Kennedy: HSE will be completing its investigation into the chemical release at Rhodia in the next few weeks, and then determining what further action it will take. I have asked the Health and Safety Executive to keep you informed of developments on this matter, and as to what means of public reporting will be used.

Pensioner Benefits

Mr. Willetts: To ask the Secretary of State for Work and Pensions what the assumptions on uprating of benefit, referred to in Note 5 to the Answer of 3 November 2003, *Official Report*, columns 470-2W, on pensioners' benefits, were. [166647]

Maria Eagle: The current policy on uprating of Disability Living Allowance (DLA), Attendance Allowance (AA) and Carers' Allowance (CA), to which I referred in note 5 to the written answer I gave to the hon Member on 3 November 2003, *Official Report*, columns 470-2W, is that these benefits are uprated in April each year in line with the movement of the Retail Prices Index (RPI) over the 12 months to the previous September. This policy is applied when estimating expenditure on these benefits for future years, using the latest HM Treasury medium term assumptions for the annual movement of the RPI up to 2006–07, and an assumption of an annual movement of the RPI equal to 2.58 per cent for the long term (beyond 2006–07).

FOREIGN AND COMMONWEALTH AFFAIRS

Iraq

Sir John Stanley: To ask the Secretary of State for Foreign and Commonwealth Affairs on what date he was first informed that the former deputy legal adviser in his Department, Ms Elizabeth Wilmhurst, did not agree that the use of force against Iraq was lawful. [165684]

Mr. Straw *[holiding answer 19 April 2004]:* We do not comment on individual cases or any legal advice individual officials may have given. Information concerning Government legal advice is exempt from disclosure under exemptions 2 and 4(d) of Part 2 of the Code of Practice on Access to Government Information.

Immigration

Mr. Lidington: To ask the Secretary of State for Foreign and Commonwealth Affairs whether his Department has now submitted all relevant papers to the Immigration Appellate Authority in the case of Mr. M. A., husband of Mrs. S. A., if Aylesbury (refs. A1146799; ISB/566943; TH/25294/2002); what the expected timescale of the appeal is; and if he will make a statement. [166640]

Mr. Mullin *[holding answer 19 April 2004]:* I have written to the hon. Member.

St. Helena

Bob Spink: To ask the Secretary of State for Foreign and Commonwealth Affairs what recent representations he has received about the development of an airport on St. Helena; and if he will make a statement. [162912]

Mr. Rammell: The Foreign and Commonwealth Office has received representations from one of the parties who expressed an interest in the development of air access for St. Helena.

Evaluation of the four expressions of interest and outline proposals, received in response to the international invitation issued in April 2003, concerning the possible development of air access to St. Helena, is now complete. I also refer the hon. Member to the written statement made by my hon. Friend the Parliamentary Under-Secretary of State at the Department for International Development (Gareth Thomas) on 19 April, *Official Report*, column 1WS.

Guinea

Mr. Chidgey: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make a statement on the formation of the new government in Guinea in March. [166588]

Mr. Mullin: On 23 February, President Conte announced the appointment of the former Foreign Minister Francois Fall as Prime Minister. On 2 March he announced a further round of ministerial changes, with five new additions to the Cabinet.

The British Government, and the EU more broadly, are concerned at issues of governance and human rights in Guinea. EU article 96 negotiations have started. Under Article 96 of the Cotonou Agreement the EC is able to take appropriate measures, such as the suspension of aid, against Africa, Caribbean and Pacific states who fail to meet their obligations regarding human rights, democracy and the rule of law.

Human Rights (Africa)

Mr. Chidgey: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make a statement on the importance of human rights in relation to economic growth and development in African countries. [166589]

Mr. Mullin: There is an increasingly clear link between respect for human rights, the rule of law and democratic norms on the one hand, and stability, prosperity and progress on the other. We believe that a stable environment where human rights and the rule of law are respected creates the best conditions for economic growth and the reduction of poverty in Africa. We also consider that protection and promotion of human rights such as access to education, healthcare, and justice can have a direct impact on future economic development and can help African countries meet the

Millennium Development Goals. In this respect, since 1998 the Foreign and Commonwealth Office has funded over 60 human rights projects worth more than £6 million in sub-Saharan Africa alone. We also support initiatives such as the Africa Peer Review Mechanism of the New Partnership for Africa's Development, which aims to ensure that the policies and practices of participating states conform to agreed standards of political, economic and corporate governance.

Illegal Drugs Tade

Paul Flynn: To ask the Secretary of State for Foreign and Commonwealth Affairs how much the UK spent on reducing the illegal drugs trade in *(a)* South Africa, *(b)* Eastern Europe and *(c)* Central Asia in each of the last five years; and what assessment he has made of the effect of this expenditure on the trade in drugs. [166874]

Mr. Rammell: There are no figures available for total UK spending on UK efforts which contribute towards reducing illegal drug trade in the areas mentioned. Spending by a range of Government Departments on matters such as the alleviation of poverty, law enforcement co-operation and other areas may all directly or indirectly contribute to the reduction in the illegal drugs trade and cannot be calculated precisely. Information is however available in respect of specific funds within the responsibility of the Foreign and Commonwealth Office (FCO).

The UK Drugs and Crime Fund (DCF) is administered by the FCO. Its remit is to support project work aimed at reducing the threat to the UK caused by drugs and serious crime overseas. Colombia, Jamaica, Iran, Pakistan, Afghanistan and Turkey are currently the highest priority countries for drugs funding from the DCF.

Since financial year 1999–2000, £36,779,926 has been spent world-wide on drug related projects, of which £17,416,886 was spent in Latin America and the Caribbean, £5,593,246 in Eastern Europe and Turkey and £10,072,530 in Central Asia. DCF projects have contributed directly to significant seizures of drugs and helped improve the skills and equipment of law enforcement partners overseas.

The elimination of the threat to the UK from the cultivation of opium in Afghanistan is a top priority for the Government. Some 95 per cent. of the heroin reaching the UK originates in Afghanistan. The Afghan Government has set the objective of eliminating opium cultivation there by 2013 and the UK has committed £70 million over three years to support implementation of this strategy, part of which comes from the DCF but the remainder from other sources of FCO and other Government Department funding.

Indonesia

Mr. Damian Green: To ask the Secretary of State for Foreign and Commonwealth Affairs what representations he has made to the Indonesian Government about religious freedom; and if he will make a statement. [166462]

Mr. Mike O'Brien: I met with the Indonesian Ambassador on 6 October and 10 November 2003 and 4 March 2004 and on each occasion we discussed a wide range of issues, including religion. We support the Indonesian Government's efforts to bring peace to the provinces of Central Sulawesi and Maluku.

The British Government is committed to working with Indonesia to encourage religious tolerance. Together with the Department for International Development, we have committed over £4 million to help establish the United Nations Development Programme Conflict Prevention and Recovery Unit in Jakarta. The Unit will build up capacity in conflict reduction and recovery in the provinces affected by religious conflict. This includes funding projects like the Maluku Reconciliation Conference, which was held in London and Brussels in January 2004 and which brought together Muslim and Christian Leaders from Maluku to discuss how to establish peace in the province.

Burma

Mr. Leigh: To ask the Secretary of State for Foreign and Commonwealth Affairs what plans the Government has in the near future to call for a European Union demarche to the Burmese regime regarding the Burmese military's atrocities against the Karen, Karenni and Shan peoples. [166644]

Mr. Mike O'Brien: We regularly discuss human rights issues on Burma with our EU partners. The UK has been instrumental in pressing for and supporting numerous demarches to the Burmese regime, including on human rights abuses against the ethnic groups.

Mr. Leigh: To ask the Secretary of State for Foreign and Commonwealth Affairs whether the British Government classifies systematic atrocities against the Karen, Karenni and Shan peoples by the Burmese military as (a) war crimes and (b) crimes against humanity under international law. [166645]

Mr. Mike O'Brien: The British Government is one of the strongest critics of the Burmese regime's abuses of human rights. We are aware of a consistent pattern of serious violations over many years, particularly against the ethnic groups. These have been highlighted in successive UK co-sponsored resolutions on Burma in both the United Nations General Assembly and the United National Commission on Human Rights. But we do not consider that the atrocities constitute "war crimes" and "crimes against humanity", which have specific definitions under international law. Nor does the United Nations Special Rapporteur for Human Rights in Burma, Sergio Pinheiro, who has regular access to Burma use these terms to describe the situation there.

Mr. Leigh: To ask the Secretary of State for Foreign and Commonwealth Affairs if the Government will take steps to strengthen the European Union common position on Burma, in response to the continuing systematic atrocities against the Karen, Karenni and Shan peoples by the Burmese military. [166646]

Mr. Mike O'Brien: Given the State Peace and Development Council's (SPDC) announcement that the National Convention, the first step of the SPDC's 7-point roadmap to national reconciliation, will reconvene on 17 May to draft a new constitution for Burma we believe that it would send a wrong signal to

strengthen sanctions under the EU's Common Position on Burma at a time when the regime may be moving forward with the political process. We are therefore prepared to support a rollover of existing measures in the EU Common Position on Burma which already contains tough measures against the regime. However, we remain ready to respond proportionately to developments on the ground in Burma.

We have been pressing strongly for the release of Aung San Sui Kui and Oo Tin Oo. I raised this on 18 April with the Chinese, Thai, Malaysian and Vietnamese neighbours of Burma at the ASEM Foreign Ministers meeting.

Mr. Leigh: To ask the Secretary of State for Foreign and Commonwealth Affairs what representations the Government has made to the Burmese regime regarding recent Burmese military offensives in Northern Karen State and Karenni State. [166657]

Mr. Mike O'Brien: I regularly raise our concerns on Burma with the Burmese authorities, most recently when I met the Burmese Ambassador at the end of February.

Mr. Leigh: To ask the Secretary of State for Foreign and Commonwealth Affairs if the Government will raise the issue of the Burmese military's systematic atrocities against the Karen, Karenni and Shan peoples at the UN Security Council. [166658]

Mr. Mike O'Brien: We have raised our concerns over human rights violations in Burma with our Security Council Partners. However, currently there is no consensus to bring Burma before the Security Council.

Atrocities against ethnic groups in Burma have been highlighted in successive EU co-sponsored UN Resolutions on Burma.

East Timor

Mr. Marsden: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make a statement on the progress made in identifying those responsible for the deaths of Malcolm Rennie and Brian Peters in East Timor. [166081]

Mr. Mike O'Brien: The Foreign and Commonwealth Office is continuing its enquiries into what information is needed to enable indictments to be issued. I raised this issue with the Indonesian Ambassador when I met him in March. I also raised the issue with the Indonesian Foreign Minister at the ASEM summit on 18 April.

Computer Services

Bob Spink: To ask the Secretary of State for Foreign and Commonwealth Affairs what plans he has to update computer *(a)* hardware and *(b)* software standard packages used in his Department. [166362]

Mr. Rammell: The Foreign and Commonwealth Office has an extensive and well-developed strategy for updating its information and communications technology. This is set out in our "e-diplomacy" strategy as announced to the House on 24 March (*Official Report*, Columns 52–53 WS).

Sudan

Mr. Spring: To ask the Secretary of State for Foreign and Commonwealth Affairs what discussions he has had with the *(a)* Arab League, *(b)* Government of Chad an *(c)* Sudanese Government on the situation in Darfur; and if he will make a statement. [166535]

Mr. Mullin: We welcome the humanitarian ceasefire agreement between the Government of Sudan and the Sudan Liberation Movement/Army and the Sudan Justice and Equality Movement which was signed in N'djamena, Chad, on 8 April 2004. This is an important step forward in resolving the crisis in Darfur and we are very grateful to the Government of Chad for its role in mediating the ceasefire talks.

My right hon. Friend the Secretary of State for International Development spoke to the Sudanese Foreign Minister about Darfur on 24 March, and since then our Ambassador in Khartoum has had a number of discussions with him. We have not been in contact with the Arab League on this issue, though we have discussed the matter with the Government of Chad.

Nepal

Mr. Spring: To ask the Secretary of State for Foreign and Commonwealth Affairs what restrictions there are on the leaders of the Maoist terrorist movement of Nepal visiting the United Kingdom. [166198]

Mr. O'Brien: Any entry clearance application made by a Nepalese national would be considered in accordance with the UK Immigration Rules. Any security or other concerns regarding particular individuals would be considered at the time of the application. I will write to the hon. Gentleman.

TRANSPORT

Prestwick Air Traffic Control Centre

Mr. Leigh: To ask the Secretary of State for Transport what assessment he has made of progress by National Air Traffic Services in securing investment to expand air traffic control capacity, with particular reference to restarting work on the new control centre in Prestwick. [166178]

Mr. Darling: The New Prestwick Air Traffic Control Centre is an integral part of NATS operations. It will handle operations over the eastern half of the North Atlantic, the northern half of the UK and much of the North Sea. Work on the new Centre at Prestwick is due to start later this year.

London Rail Services

Simon Hughes: To ask the Secretary of State for Transport what assessment he has made of the changes in rail services in Greater London recently proposed by the Strategic Rail Authority. [166179]

Mr McNulty: The Strategic Rail Authority is developing a number of schemes which will improve rail services in the Greater London area including the East London Line extensions, Integrated Kent Franchise,

Thameslink 2000, southern power supply upgrade and replacement of slam door trains with modern rolling stock.

Biofuels

Paddy Tipping: To ask the Secretary of State for Transport when he will publish the consultation document on introducing the EU Biofuels Directive. [166181]

Mr. Jamieson: The consultation document will be published very shortly.

Colin Burgon: To ask the Secretary of State for Transport what steps are being taken to improve rail commuter services in the Elmet constituency. [166182]

Mr. McNulty: The Strategic Rail Authority is actively working with the train operating companies to secure improvements to the operational performance of services.

A303

Mr. Heath: To ask the Secretary of State for Transport when he expects the safety improvements to the A303 between Sparkford and Ilchester to be completed. [166183]

Mr. Jamieson: I am expecting a submission shortly which will allow me to add the Sparkford to Ilchester Scheme into the Targeted Programme of Improvements. Its completion will be subject to the usual statutory procedures and availability of funds—hence I cannot be definite on its timing.

Regional Airports

Tim Loughton: To ask the Secretary of State for Transport what his policy is on improving road and rail transport links to smaller regional airports in the South East of England. [166184]

Mr. McNulty: Our policy on improving road and rail links to airports in the South East of England (small and large) is set out in the Future of Air Transport White Paper. This recognises that airports are part of our national infrastructure and requires the SRA, Highways Agency to take full account of a prospective airport developer. It also looks to airport operators to work with regional and local partners to ensure that regional and local transport strategies do the same.

Crossrail

Linda Perham: To ask the Secretary of State for Transport if he will make a statement on the options for financing Crossrail. [166185]

Dr. Howells: Adrian Montague's detailed advice on the current Crossrail proposals raises complex issues and requires careful consideration against pressures on transport spending, especially on rail. My right hon. Friend will make a statement in due course.

Transport Infrastructure (London)

Mr. Love: To ask the Secretary of State for Transport what estimate he has made of the additional funding required for transport infrastructure in London to meet the projected increase in population over the next 10 years. [166186]

Mr. McNulty: The Government is providing TfL with over £2.2 billion this year to improve transport across London—this is more than double the amount of funding given to London transport four years ago. Any additional funding required for transport improvements in London and other regions, in order to accommodate projected population growth, is being considered by the Department in the context of this year's Spending Review.

Mr. Dismore: To ask the Secretary of State for Transport what assessment he has made of extra funding needed for transport infrastructure in London. [166187]

Mr. McNulty: The Government is providing TfL with over £2.2 billion this year to improve transport across London—this is more than double the amount of funding given to London transport four years ago. Any additional funding required for transport improvements in London and other regions is being considered by the Department in the context of this year's Spending Review.

Road Noise

Tony Baldry: To ask the Secretary of State for Transport when he next expects to meet the Chief Executive of the Highways Agency to discuss the issue of noisy roads. [166188]

Mr. Jamieson: I am in regular contact with the Chief Executive of the Highways Agency on issues concerning noisy roads. I have recently agreed the Highways Agency's Business Plan for 2004–05, which includes a commitment to resurface 50 lane kms of concrete road surface with lower noise surfacing. In addition, all maintenance work carried out on flexible road surfaces now uses quieter road surfaces.

Mr. Watson: To ask the Secretary of State for Transport what assessment he has made of the use of ripple print pads on road services to reduce (a) accidents and (b) noise. [166835]

Mr. Jamieson: The Department has been monitoring the effects of installing rumblewave surfacing (marketed as Rippleprint by Prismo Limited) at seven pilot sites. An initial report has been published by TRL Limited (TRL Report 545 *Development of a novel traffic calming surface "Rippleprint"*), and I have placed copies of this report in the Libraries of the House. A final report will be published later this year.

Mr. Watson: To ask the Secretary of State for Transport what assessment he has made of the effectiveness of sound-absorbing concrete in reducing traffic noise. [166849]

Mr. Jamieson: The Highways Agency is keeping in touch with developments in Europe on work on noise absorbing concrete. In general, porous concrete has been shown to have similar noise absorbing properties to porous asphalt, with the same disadvantages of high cost and loss of benefit over time as the pores become clogged. Initial trials in European countries of a new

surfacing using a resonant cavity formed in concrete below porous asphalt, have given lower noise reduction benefits than expected.

Mr. Watson: To ask the Secretary of State for Transport how much has been spent on roadside noise barriers in each of the last 10 years. [166850]

Mr. Jamieson: Figures for the last 10 years are not available. Spend on noise barriers that are provided in conjunction with highway improvement scheme is not separately identified in the scheme cost. Spend on the installation of noise barriers provided retrospectively on older trunk roads that commenced in 2000, has been met by the £5 million per year ring-fenced allocation.

Stockport Station

Andrew Bennett: To ask the Secretary of State for Transport when he expects the new platform 1 at Stockport Station to be in use; who paid for it; and whether its introduction to use is dependent on a new signalling. [162420]

Mr. McNulty: These are operational matters for Network Rail. Network Rail will respond directly to my hon Friend.

Rail Tracks (Speed Limits)

Mr. Greg Knight: To ask the Secretary of State for Transport how many miles of railway track are subject to speed limits imposed primarily or solely to prolong the life of the track; if he will list the locations thereof; and if he will make a statement. [163176]

Dr. Howells *[holding answer 25 March 2004]*: This is an operational matter for Network Rail. Network Rail will respond directly to the right hon. Member.

Coastguard Services

Mr. Carmichael: To ask the Secretary of State for Transport what assessment his Department has made of savings that could be made by reducing the number of coastguard stations around the Scottish coast. [166773]

Mr. Jamieson: There are no plans to reduce the number of Coastguard Co-ordination Centres in Scotland and no assessment of savings has been made.

Mr. Carmichael: To ask the Secretary of State for Transport how much has been spent on coastguard services in (a) Scotland and (b) the UK in each of the last five years. [166774]

Mr. Jamieson: Coastguard expenditure in Scotland and the UK in the last five years is shown below:

	Unaudited 2003–04 £000s (subject to change)	*2002–03 £000s*	*2001–02 £000s*	*2000–01 £000s*	*1999–2000 £000s*
Scotland (including Shetland & Stornoway Helicopters)	£12,266	£11,718	£10,246	£10,715	£9,063
All of UK (including Scotland and Helicopters)	£34,849	£32,891	£31,121	£32,173	£28,105

Mr. Carmichael: To ask the Secretary of State for Transport if he will make a statement on the future of coastguard stations around the Scottish coast. [166775]

Mr. Jamieson: There are no plans to make changes to Coastguard operations around the Scottish coast, but my Department will continue to keep effectiveness and efficiency under review to make the best use of technology and resources.

Mr. Carmichael: To ask the Secretary of State for Transport if he will make a statement on the level of planned future expediture on coastguard services in *(a)* Scotland and *(b)* the UK. [166776]

Mr. Jamieson: The level of planned future expenditure for Scotland and the UK on Coastguard services will be broadly in line with previous years.

East Coast Main Line

Mrs. May: To ask the Secretary of State for Transport (1) when he expects the East Coast Mailine Franchise to be awarded; [166432]

(2) for what reason the announcement on the new East Coast Mainline Franchise has been delayed; [166433]

(3) what assessment he has made of the effect the delay in the announcement of the East Coast Mainline Franchise upon *(a)* the purchase of new rolling stock and *(b)* planned upgrades to the track; [166434]

(4) what assessment he has made of the implications of the delay in the announcement of the East Coast Mailine Franchise on rail services to Harrogate and Knaresborough. [166435]

Mr. Darling: The existing East Coast Main Line Franchise expires in April 2005. The SRA invited expressions of interest from operators in January 2004. The process is continuing.

Road Schemes

John Thurso: To ask the Secretary of State for Transport if he will list the projects in the Highways Agency's Targeted Programme of Improvements with their (*a*) estimated cost, (*b*) start date of construction and (*c*) planned completion date. [166100]

Mr Jamieson: The following projects, with their estimated cost, are included in the Targeted Programme of Improvements (TPI):

Scheme	Scheme Cost (£m)
A1 Stannington Junction (under construction)	8.3
A10 Wadesmill, High Cross and Colliers End (under construction)	39.0
A120 Stansted–Braintree Improvement (under construction)	86.9
A2 Bean–Cobham Phase 1 Bean–Tollgate (under construction)	19.7
A21 Lamberhurst Bypass (under construction)	18.9
A34 Chieveley/M4 J13 Improvement (under construction)	76.0
A63 Selby Bypass (under construction)	68.4
A14 Rookery Crossroads Grade Separated Junction	7.7
A249 Iwade–Queenborough Improvement	80.8
A421 Great Barford Bypass	39.0
A47 Thorney Bypass	25.4
A5 Weeford–Fazeley Improvement	38.0
A63 Melton Grade Separated Junction	22.5
M4 Junction 18 Eastbound Diverge	9.8
M5 Junctions 17–18 Northbound Climbing Lane	6.2
A30 Bodmin Indian Queens	68.9
A66 Long Newton Junction	8.0
A2/A282 Dartford Improvement	79.7
A30/A382 Merrymeet Junction	8.7
A428 Caxton Common to Hardwick Improvement	43.9
A11 Attleborough Bypass	29.3
A3 Hindhead Improvement	167.5
A595 Parton–Lillyhall Improvement	24.9
M40/A404 Handy Cross Junction Improvement	11.8
A1 (M) Bramham–Wetherby (including Wetherby Bypass)	61.6
A1 Peterborough–Blyth Grade Separated Junctions	63.2
A11 Fiveways–Thetford Improvement	60.2
A2 Bean–Cobham Phase 2 Tollgate–Cobham	101.0
A38 Dobwalls Bypass	35.7
A419 Blunsdon	40.2
A419 Commonhead Junction	16.3
A5117/A550 Deeside Park Junctions Improvement	43.1
M6 Carlisle to Guardsmill extension	69.1
M5 Junctions 19–20 Southbound Climbing Lane	8.1
M5 Junctions 19–20 Northbound Climbing Lane	7.9
A14 Haughley New St–Stowmarket Improvement	29.0
A21 Tonbridge to Pembury	64.9
A30 Temple to Higher Carblake Improvement	40.7
A45/A46 Tollbar End Improvement	57.0
A505 Dunstable Northern Bypass (A5 to M1 Link)	48.1
A57/A628 Mottram in Longdendale, Hollingworth and Tintwistle Bypass	90.0
A66 Temple Sowerby and Improvement at Winderwath	23.3
A69 Haydon Bridge Bypass	24.2
M1 J19 Improvement	123.4
M1 Junction 10 to 13 Widening	381.8
M1 Junction 6a to 10 Widening	241.2
M40 Junction 15 (Longbridge)	57.2
M62 Junction 6 Improvement	38.0
A30 Carland Cross to Chiverton Cross	124.6
A421 Bedford to M1 Junction 13	171.0
A46 Newark–Widmerpool Improvement	186.0
A1 Adderstone to Belford Dualling	14.2
A1 Morpeth to Felton Dualling	84.0
A1/A19/A1068 Seaton Burn Junction Improvement	29.5
A19/A184 Testos Junction Improvement	20.5
A483 Pant–Llanymynech Bypass	40.5
A590 High and Low Newton Bypass	22.1
A64 Rillington Bypass	11.8
A66 Carkin Moor to Scotch Corner Improvement	11.0
A66 Greta Bridge to Stephen Bank Improvement	9.2
A14 Ellington–Fen Ditton Improvement	490.0
A1(M) Dishforth to Leeming	355.0
A1(M) Leeming to Barton	(cost included above)

Scheme	Scheme Cost (£m)
A1(M) Ferrybridge–Hook Moor (under construction)	160.5
A1(M) Wetherby–Walshford (under construction)	33.5
A303 Stonehenge	223.1
A47 Blofield to North Burlingham Dualling	15.4
A500 City Road and Stoke Junction Improvement (under construction)	59.6
A64 Colton Lane Grade Separated Junction (under construction)	11.0
M20 Junction 10A	46.0
M25 J12-15 Widening (under cosntruction)	104.5
M60 J5-8 Widening (under construction)	116.5
A27 Southerham to Beddingham	18.9
M25 Widening Junction 1b-3	65.9
M25 Widening Junction 5-7	214.4
M25 Widening Junction 16-23	496.0
M25 Widening Junction 23-27	419.1
M25 Widening Junction 27-30	402.3
M1 Widening Junction 21-30	1,914.6

These costs include the latest Treasury guidance on risk and optimism bias and allow for inflation at 2.5% per annum.

Of these, the following schemes are expected to start works in 2004 – 05, with anticipated completion dates as shown:

Scheme	Date of Completion
A14 Rookery Crossroads Grade Separated Junction	2005–06
A249 Iwade–Queensborough Improvement	2006–07
A421 Great Barford Bypass	2006–07
A47 Thorney Bypass	2005–06
A5 Weeford–Fazeley Improvement	2005–06
A63 Melton Grade Separated Junction	2006–07
M4 Junction 18 Eastbound Diverge	2005–06
M5 Junctions 17–18 Northbound Climbing Lane	2005–06

Firm decisions have yet to be made on start of works for the remainder of the programme.

John Thurso: To ask the Secretary of State for Transport which major local road schemes in England have been given *(a)* provisional and *(b)* full Government approval in each of the last four years; what their current status is; and what the (i) expected start date and (ii) completion date is in each case. [166101]

Mr. Jamieson: Local major road schemes in England, excluding London that have been given *(a)* provisional and *(b)* full Government acceptance in each of the last four years are set out in the following table, together with the current status.

Three schemes in the table, which have been provisionally accepted, have been re-designated as Work in Progress following changes from the original scheme proposals. A number of schemes that were provisionally accepted in earlier settlements have been

fully accepted since 2000. Expected start and completion dates shown in the table reflect the Department's current information of the proposed delivery timetables of the relevant local authorities. Delivery of schemes is subject to completion of all necessary statutory procedures. Departmental funding of schemes is subject to conditions set out in the relevant decision letters issued to local authorities.

Scheme	*Current Status (A)-Fully Accepted (PA)-Provisionally Accepted*	*Expected Start of Works*	*Expected Scheme Completion Date*
2000 LTP Settlement			
Wyre Piddle Bypass	Open (December 2002)		
A689 Sedgefield to Wynard Improvement	Open (April 2003)		
Biddulph Inner Bypass	Open (October 2003)		
Semington to Melksham	Open (March 2004)		
Burntwood Bypass Phase 3	A	May 2004	April 2005
Nar Ouse Regeneration Project	A	January 2004	July 2005
South Lowestoft Relief Road	PA	May 2004	December 2005
W. Thurrock Regeneration Ring Road	A	April 2002	April 2004
A1073 Spalding to Eye Improvement	PA	Scheme reverted to 'Work in Progress' in 2003	
A13/A127-A1159 Corridors	A	July 2002 (Public Transport), Autumn 2004 (Road)	2006
Earl Shilton Bypass	PA 2000	Scheme reverted to 'Work in Progress' in 2002	
A607 Rearsby Bypass	A	March 2004	December 2004

Tunstall Northern Bypass	PA	January 2005	January 2006
Darlaston Strategic Area Access Scheme	PA	June 2006	May 2008

Notes:
[1] Dates can change as the Local Authority takes the scheme through the required statutory procedures.
[2] A = Fully Accepted schemes.
[3] PA = Provisionally Accepted. Schemes subject to completion of statutory procedures and any other processes outlined in the settlement decision letter, from the Government Office to the Local Authority, of the relevant LTP Settlement year.

Finningley Airport

Mr. Bill O'Brien: To ask the Secretary of State for Transport what plans are being considered for freight to be handled at and transported from Finningley Airport; and if he will make a statement. [165712]

Mr. McNulty: The planning permission granted in April 2003 limits the number of air cargo movements per annum to 2,738 from the opening of the airport, rising to a maximum of 4,140 movements per annum after 1 January 2012. I understand that, within these limits, the airport operator hopes to handle around 50,000 tonnes of freight a year by 2014. A small component of this could be in the bellyhold of passenger aircaft.

CONSTITUTIONAL AFFAIRS

Prisoners (Voting Rights)

Mr. Maude: To ask the Parliamentary Under-Secretary of State, Department for Constitutional Affairs what plans he has to allow serving prisoners to vote in *(a)* local and *(b)* general elections; and if he will make a statement. [166795]

Mr. Leslie: At present, convicted and detained prisoners are not able to vote in UK elections. On 30 March 2004, the European Court of Human Rights gave its judgment in the case of *Hirst v. The United Kingdom*, concerning the disfranchisement of convicted prisoners. The Court found that there had been a breach of the applicant's human rights. We are currently carefully considering the implications of the judgment and what action we might take.

Freedom of Information (Terrorism)

Llew Smith: To ask the Parliamentary Under-Secretary of State, Department for Constitutional Affairs, what assessment has been made of the current exemptions to the release of information contained in freedom of information legislation in light of recent terrorist incidents and threats. [166035]

Mr. Lammy: The Freedom of Information Act 2000 balances the right to know with the proper conduct of effective government. Part II of the Act outlines classes of information that are exempt from disclosure for the purpose of safeguarding national security, defence and international relations. Information supplied by, or relating to, bodies dealing with security matters is also exempt.

The Government is satisfied that the provisions in Part II of the Freedom of Information Act 2000 provides a robust framework that gives people greater access to information, while ensuring that information necessary to protect national security is properly safeguarded.

Legal Services Commission

Mr. Roger Williams: To ask the Parliamentary Under-Secretary of State, Department for Constitutional Affairs, (1) how many new solicitors firms have undertaken contracts with the Legal Services Commission since 2000. [165842]

(2) how many solicitors firms in England and Wales have withdrawn from a Legal Services Commission contract in each year since 2000. [165843]

Mr. Lammy: Between January 2000 and 31 March 2004, the Legal Services Commission (LSC) has awarded 755 new civil contracts to solicitors' firms. Since contracting for criminal legal aid began in April 2001, the LSC has awarded 412 new criminal contracts to solicitors' firms.

The LSC does not collect data centrally on the number of solicitors' firms that have withdrawn from legal aid work. The number of contracts that have been terminated by the LSC in each year (which includes cases where solicitors have withdrawn voluntarily) is set out below.

Civil Contracts

April 2000 to March 2001: 700
April 2001 to March 2002: 539
April 2002 to March 2003: 408
April 2003 to March 2004: 633

Criminal contracts

April 2001 to March 2002: 146
April 2002 to March 2003: 151
April 2003 to March 2004: 317

TRADE AND INDUSTRY

Sellafield

Norman Baker: To ask the Secretary of State for Trade and Industry if she will itemise the contents of the B30 ponds at Sellafield; what the origin was of the contents; what the radioactivity level of the contents is; and what plans she has to respond to criticisms by the EU Commission in respect of the ponds that comprise B30. [165818]

Mr. Timms *[holding answer 19 April 2004]*: The B30 facility at Sellafield was commissioned in 1959–60 for interim storage of spent Magnox fuel in water-filled concrete ponds and the subsequent removal of cladding from the fuel prior to it being reprocessed. The facility stopped receiving spent fuel during 1992. The B30 pond contains many tonnes of Magnox fuel and sludge from corrosion of the Magnox fuel cladding and the fuel. For security reasons it would not be appropriate to reveal itemised information on the quantities of nuclear material held in specific locations (Exemption 1, code of practice on access to Government information).

The condition of the material in B30 and the need to minimise radiation exposure means that the activities that can be performed at present to verify current quantities of material (including in the course Euratom safeguards inspections) are limited. Appropriate measurement and verification of the material will however take place as material is removed during the decommissioning of B30.

Officials will examine details of the Commission Directive and the basis for it, and work is in hand to enable us to respond to the Commission accordingly.

Iraq

Mr. Chidgey: To ask the Secretary of State for Trade and Industry what the financial value of the 10 largest contracts by US dollars for the reconstruction of Iraq already awarded by the Coalition Provisional Authority was; what the nationality of the contractor was; and to what industrial sector each related. [166604]

Ms Hewitt: The largest Coalition Provisional Authority contracts so far have been awarded on its behalf by the Program Management Office. They are given in the table:

Value	*Sector*	*Nationality*
$900 million (ceiling)	Security, Justice and Safety	US
$600 million (ceiling)	Water Resources	US
$600 million (ceiling)	Public Works and	US/UK Joint Venture

Value	Sector	Nationality
	Water (North)	
$900 million (ceiling)	Buildings, Health and Education	US
$500 million (ceiling)	Public Works and Water (South)	US/UK Joint Venture
$500 million (ceiling)	Electrical Generation	US/UK Joint Venture
$500 million (ceiling)	Electrical Power Distribution (North)	US
$500 million (ceiling)	Electrical Power Distribution (South)	US
$325 million (ceiling)	Transportation	US/Egypt/ Netherlands/UAE Joint venture
$75 million (ceiling)	Communications	US

UK companies are already playing a significant role in many of these, through parent companies or as sub-contractors or sub-consultants.

Mr. Chidgey: To ask the Secretary of State for Trade and Industry how many contracts have been awarded to British companies for the reconstruction of Iraq; what their total value is; and which companies have been awarded contracts. [166605]

Ms Hewitt: Because of the large number of different organisations involved in awarding reconstruction contracts in Iraq, it has not been possible to maintain an overall picture of the total volume of contracts awarded or the cumulative total. In addition, there is no central organisation that collects, collates and publishes such information. However, a number of British companies have been awarded contracts and sub-contracts for the reconstruction process in Iraq, including the recent awards announced by the Program Management Office (PMO). UK companies (mainly in Joint Venture with US partners) have won PMO contracts in the Electricity, Water and Oil sectors.

Mr. Chidgey: To ask the Secretary of State for Trade and Industry, if she will require British companies working in Iraq to recruit individuals of Iraqi nationality to work in the management of their operations. [166607]

Ms Hewitt: It is vital the UK companies play their part in developing Iraq, through the creation of joint business ventures, transfer of skills and technology and working with Iraqi partners in providing jobs and prosperity for the Iraqi people. In this way, we will maximise the use of local manufacturers and construction skills in order to help build local skills and provide sustainable employment for future generations. I have no plans to require British companies to recruit Iraqi nationals to work in the management of their operations.

Business Activity (Crosby)

Mrs. Curtis-Thomas: To ask the Secretary of State for Trade and Industry how many small businesses are registered in Crosby; and what the percentage change has been since 1997. [164412]

Nigel Griffiths: Barclays Bank's latest survey of business creation, published on 31 March 2004, includes non-VAT registered firms, and shows that there were 115,000 business start-ups in England and Wales, including 500 in Sefton local authority (in which Crosby is a constituency) in the fourth quarter of 2003. The latest yearly Barclays figures show 465,000 business start-ups in England and Wales in 2003, the highest figure since the survey began in 1988. Data for local authorities are not available for before 2003.

There were 5,380 businesses registered for VAT in Sefton local authority at the end of 2002. This represents a 7 per cent increase since the start of 1997 when there were 5,040 VAT-registered businesses. VAT registration data for the end of 2003 will be available in Autumn 2004.

It is important to note that VAT registration data do not capture all business activity. Businesses are unlikely to be registered if they fall below the compulsory VAT threshold, which has risen in each year since 1997. Similarly, businesses that de-register will not necessarily have closed. Only 1.8 million out of 3.8 million enterprises were registered for VAT at the start of 2002.

Mrs. Curtis-Thomas: To ask the Secretary of State for Trade and Industry what the total Entrepreneurial Activity index for (*a*) Crosby and (*b*) England is; and if she will make a statement. [164413]

Nigel Griffiths: The Total Entrepreneurial Activity (TEA) index is not produced by government, but is a measure used by the London Business School to compare international rates of entrepreneurial activity as part of its annual Global Entrepreneurship Monitor (GEM).

The latest TEA index, for 2003, is 6.5 per cent for England and 4.7 per cent for the North West. The UK was the only other G8 country apart from the United States to have seen a major recovery in levels of entrepreneurial activity in 2003 following the overall drop in 2002.

The UK GEM report does not provide a breakdown for areas smaller than the area covered by Government Office region. There is, therefore no TEA figure for Crosby.

Employment Rights (Birkenhead)

Mr. Frank Field: To ask the Secretary of State for Trade and Industry how many residents of Birkenhead qualify for paid leave entitlement. [166503]

Mr. Sutcliffe: All workers resident in Birkenhead qualify for paid leave entitlements of at least 4 weeks as set out in the Working Time Regulations.

Mr. Frank Field: To ask the Secretary of State for Trade and Industry how many residents of Birkenhead have benefited from a reduction of the working week to 48 hours. [166504]

Mr. Sutcliffe: The Working Time Regulations provide workers with the right not to work more than 48 hours if they want to. Numbers for Birkenhead are not available, but it has been estimated that around 50,000 workers resident in Merseyside stood to benefit from the introduction of the weekly working time limits in 1998.

Mr. Frank Field: To ask the Secretary of State for Trade and Industry how many and what percentage of women in Birkenhead have taken 26 weeks' maternity leave since 1997. [166495]

Mr. Sutcliffe: Take-up of maternity leave is not recorded centrally. It is possible to make an estimate of the numbers of women taking maternity leave based on employer returns to Inland Revenue for payment of Statutory Maternity Pay (since 2003 this has covered the first 26 weeks of leave). However, figures for the take-up of SMP are not available on a regional basis.

In addition, there will be some women who will qualify for maternity leave but not SMP (because they do not meet the earnings criteria) and similarly some who qualify for SMP but not leave (because they are employed earners for the purposes of SMP but not employees in order to qualify for leave).

Mr. Frank Field: To ask the Secretary of State for Trade and Industry if she will make a statement on the benefits of the EU Social Chapter for the residents of Birkenhead. [166501]

Mr. Sutcliffe: The residents of Birkenhead have benefited from the EU Social Chapter by having their employment rights extended to include:

the right to parental leave which gives parents the right to 13 weeks unpaid leave at the birth or adoption of a child;

the entitlement of part-time workers to the same pro-rata terms and conditions of employment as full-time workers, thereby removing any discrimination and improving the quality of part-time jobs;

the provision that once a prima facie case has been made in an employment tribunal claim, the burden of proof is placed on the defendant (usually the employer), who will need to demonstrate that sex discrimination has not occurred;

rights under the Fixed Term Work Directive that provide equal treatment and prevent abuse of fixed term contracts;

rights under the European Works Council Directive which requires companies with at least 1,000 employees in total and at least 150 workers in each of the two Member States, to establish structures for consulting workers on issues that affect them; and

in addition, the Information and Consultation of Employees Directive, to be implemented in the UK by March 2005, establishes a right to new minimum standards for workforce communication and involvement in large firms.

Estate Agents Act

Dr. Gibson: To ask the Secretary of State for Trade and Industry if she will seek to amend the Estate Agents Act 1979 to include reference to buying and selling houses on the internet. [166113]

Mr. Sutcliffe: The Office of Fair Trading report on estate agents recommended that the definition of estate agency work in the Estate Agents Act 1979 be reconsidered to ensure that consumers buying and selling by non-traditional means, including the internet, are afforded the same protection in law as those who employ the services of traditional estate agents.

The Department will consider carefully this and the report's other recommendations, and aims to publish a response by 18 June 2004.

Broadband

David Hamilton: To ask the Secretary of State for Trade and Industry, what estimate she has made of broadband accessibility rates for *(a)* Scotland, *(b)* England, *(c)* Wales and *(d)* Northern Ireland, broken down by percentage of (i) households and (ii) population. [165586]

Mr. Timms *[holding answer 19 April 2004]:* The Department of Trade and Industry has commissioned on-going research from Analysys Consulting Ltd to provide a comprehensive picture of developments in the UK broadband market.

According to the latest quarterly survey to the end of December 2003, the following estimates are given of population (households) that are covered by a mass-market broadband solution:

(a) Scotland	72 per cent.
(b) England	87 per cent.
(c) Wales	72 per cent.
(d) Northern Ireland	67 per cent.

This research is published quarterly on the Department's website:

http://www.dti.gov.uk/industry_files/pdf/uk_broadband_coverage_jan2004.pdf

Fire Safety

Mr. Hayes: To ask the Secretary of State for Trade and Industry, what measures are in place to assess the impact of furniture fire-safety regulations that came into effect in 1997; and what the findings have been. [166293]

Mr. Sutcliffe: The DTI commissioned the University of Surrey to research the effectiveness of the Regulations. The resulting report—"Effectiveness of the Furniture & Furnishings (Fire) (Safety) Regulations 1988"—was published in June 2000 and copies were placed in the Libraries of both Houses. The report's findings were "extremely good news". At a conservative estimate, the Regulations had saved at least 710 lives in the first ten years since their introduction, and at least 5,770 fewer people were injured in the same period. The benefits of the Regulations were most likely to be realised by the financially challenged, young children between 1 and 4 years of age, and the elderly. Recent figures from the Office of the Deputy Prime Minister indicate that this downward trend has continued.

National Minimum Wage

Huw Irranca Davies: To ask the Secretary of State for Trade and Industry, if she will make a statement on the impact of the introduction of the national minimum wage for 16- to 17-year-olds on combating the exploitation of young people by employers. [164551]

Mr. Sutcliffe: The Government announced on 15 March 2004 that we will be introducing a new minimum wage rate for 16- to 17-year-old workers at £3.00 per hour with effect from 1 October 2004. Apprentices aged 16 and 17 will be excluded from the new rate. The great majority of young workers are already being paid in excess of the new rate, but this should help prevent the exploitation of young workers by a minority of employers. The Government run a national publicity campaign each autumn to publicise increases in the minimum wage and will be considering how best to publicise the new rate as part of that campaign.

Focus Groups and Opinion Polls

Mr. Laws: To ask the Secretary of State for Trade and Industry, what her estimate is of total expenditure by her Department on *(a)* focus groups and *(b)* opinion polls in each year from 1995–96 to 2003–04; and if she will make a statement. [162752]

Ms Hewitt: The Department does not centrally collect the information sought at the required level of detail and to provide it would entail disproportionate cost because of the need to ask all Directors in the DTI, plus agencies and associated non-departmental public bodies, to attempt to provide details of each survey and piece of research commissioned since 1995.

Working Time Directive

Miss McIntosh: To ask the Secretary of State for Trade and Industry, what assessment she has made of *(a)* implementation of the Working Time Directive in other EU member states and *(b)* costs to business in other EU member states of complying with the Working Time Directive. [164582]

Mr. Sutcliffe: Other EU member states have all implemented the Working Time Directive. From discussions with them, I know they have used the flexibilities available in the Directive in different ways, depending on their national circumstances and traditions, but I have made no formal assessment of this. I do not have figures for the cost to businesses for other EU member states.

Miss McIntosh: To ask the Secretary of State for Trade and Industry, what assessment she has made of the implications for the competitiveness of UK industry of complying with the Working Time Directive. [164583]

Mr. Sutcliffe: The Government have put in place a comprehensive set of measures aimed at raising competitiveness and closing the UK's productivity gap with major competitors. The UK economy has grown faster than the G7 average in five of the last six years. Since the Working Time Directive applies to all European Union members it is unlikely to put the UK at a competitive disadvantage with these competitors.

British American Tobacco

Mr. Stephen O'Brien: To ask the Secretary of State for Trade and Industry, what *(a)* resource budget, *(b)* administration costs and *(c)* staff numbers are dedicated to the Companies Act investigation into British American Tobacco. [165422]

Mr. Sutcliffe *[holding answer 19 April 2004]:* As the inquiries have been concluded, no resources are currently dedicated to the Companies Act investigation into British American Tobacco Plc. The investigation was carried out internally by members of Companies Investigation Branch and there are no separate cost breakdowns.

Companies Investigation Branch does not disclose operational matters such as the numbers of staff dedicated to any particular inquiry.

Civil Servants

Mr. Stephen O'Brien: To ask the Secretary of State for Trade and Industry, whether the number of jobs in her Department that are to be *(a)* cut and *(b)* relocated are the same as the numbers given her Department's recent Business Plan 2004–07. [165119]

Ms Hewitt: The DTI business plan states that we will reduce the number of people in the Department's headquarters by 7 per cent by April 2005 and by 10 per cent by April 2006.

We have also established an Efficiency Project which has developed proposals to improve further the way we work. These proposals would deliver a further 4 per cent reduction in posts by April 2008 (to 14 per cent) and 18 per cent of posts relocated outside London and the South East by April 2010. They are dependent on sufficient funding being available to meet the costs of change.

Trade (Far East)

Mr. Rosindell: To ask the Secretary of State for Trade and Industry, what steps her Department is taking to promote trade with Far Eastern countries. [165543]

Mr. Mike O'Brien: Working with business, UK Trade and Investment has developed a global strategy for each industry sector, targeting markets, including many in the Far East, where there are felt to be significant opportunities for UK industry. A comprehensive package of trade development measures, including subsidised trade missions, trade fairs, help to find agents/distributors etc, are available to eligible UK companies.

Invoices (Late Payment)

Bob Spink: To ask the Secretary of State for Trade and Industry, what plans she has to re-examine legislation relating to the late payment of invoices; and if she will make a statement. [163591]

Nigel Griffiths: There are no current plans to re-examine the late payment legislation.

EDUCATION AND SKILLS

Secondments

Mr. Cousins: To ask the Secretary of State for Education and Skills what secondments *(a)* PricewaterhouseCoopers, *(b)* Deloitte & Touche, *(c)* Ernst & Young and *(d)* KPMG have made to his Department since 2001; for what (i) periods and (ii) tasks the secondments were made; whether secondments of staff from his Department have been to those firms; and what *(a)* periods and *(b)* tasks. [156918]

Mr. Charles Clarke: Since 2001, PricewaterhouseCoopers have made two inward secondments to the Department, one from October 2000–September 2001 in the Connexions Service and the other from July 2002–March 2003 in the Sure Start Unit. Deloitte & Touche have made one secondment to the Department from November 2001–March 2004 in the Sure Start Unit. Ernst and Young have made one

secondment to the Department from October 2000–March 2001 in School Leadership Division. There were no secondments from KPMG to the Department.

There were no secondments from my Department to any of the companies listed during the period.

School Transport

Mr. McNamara: To ask the Secretary of State for Education and Skills what measures in the draft School Transport Bill will ensure that pupils attending denominational schools of their particular faith are not put at a disadvantage for home-school transport arrangements. [165482]

Alan Johnson: The draft School Transport Bill contains powers that will allow Local Education Authorities (LEAs) to operate school travel schemes. The only group of pupils specifically protected in the draft Bill is those entitled to free school meals, who are protected from charges provided they attend their nearest suitable school. However, in the draft prospectus that was published alongside the draft Bill we remind LEAs that local schemes must comply with the European Convention on Human Rights, which requires LEAs to take account of the religious and philosophical beliefs of parents, particularly in respect of pupils from low income families who will probably depend on public transport to get to school.

It is important that parents can choose a school in accordance with their religious convictions and in approving schemes, we will not expect LEAs to disturb well established arrangements for denominational transport, particularly where they are associated with local agreements or understandings about the sitting of denominational schools.

Postgraduate Study

Chris Grayling: To ask the Secretary of State for Education and Skills how many graduates have chosen to continue in higher education for a masters' year in each of the past ten years. [152630]

Alan Johnson: The latest available information, showing newly qualified graduates who went on to postgraduate study, is shown in the table. Comparable figures for earlier years are not held centrally. Figures for 2002–03 will be available in August 2004.

Full-time UK Domiciled First Degree Graduates who went on to Study a Higher Degree[1]

	Number
1994–95	15,550
1995–96	15,585
1996–97	15,095
1997–98	15,525
1998–99	16,285
1999–2000	15,670
2000–01	16,005
2001–02	16,400

Source:
Higher Education Statistics Agenct's First Destinations Record.
[1] Covers taught and research higher degrees.

Chris Grayling: To ask the Secretary of State for Education and Skills how many research graduates have been recruited by universities in *(a)* science, *(b)* engineering, *(c)* technology and *(d)* mathematics in each of the past 10 years. [152631]

Alan Johnson: The latest available information is shown in the table. Figures for earlier years are not available centrally.

Entrants to Postgraduate Research Courses[1] *in UK HE institutions*

	Subject of course:					
	Science[2]	*Engineering*	*Technology*	*Mathematical Sciences*	*Other subjects*	*All subjects*
1994–985	9,575	2,555	535	500	8,243	21,408
1995–96	8,852	2,397	476	550	8,954	21,229
1996–97	8,662	2,380	469	508	8,934	20,953
1997–98	9,181	2,153	507	501	8,726	21,068
1998–99	11,070	2,676	745	513	10,256	25,260
1999–2000	10,843	2,604	734	554	10,428	25,163
2000-01	11,007	2,936	591	529	10,916	25,979

[2] Provisional.

School Closures

David Hamilton: To ask the Secretary of State for Education and Skills, what criteria are applied when making decisions on closing *(a)* rural schools and *(b)* urban schools. [165587]

Stephen Twigg *[holding answer 19 April 2004]*: Under arrangements for local decision making School Organisation Committees and schools adjudicators must consider guidance issued by the Secretary of State when taking decisions on statutory proposals to close any school—rural or urban.

The guidance emphasises that all proposals must be considered on their individual merit and in the light of local circumstances. It also provides a list of factors that must be considered. For school closures this includes: the impact on standards of provision in the area, the supply and demand for places, the cost effectiveness of proposals, the views of interested parties, the journey to alternative provision, the effect on the local community etc. The guidance also includes a presumption to approve proposals to close a failing school if there is to be a fresh start school established in its place.

For proposals to close rural schools there is a presumption against the closure except where the case is strong and in the best interests of provision in the area. The guidance recommends that the transport implications of rural school closures should be considered and the overall effect on the community of closure of village schools. It also advises that the new provisions for federated and extended schools should be considered to increase the viability of rural schools before closure proposals are brought forward. There are no specific factors that apply to the consideration of urban school closures. More information can be found on the Department's School Organisation Website www.dfes.gov.uk/schoolorg.

Education Grants

Jim Knight: To ask the Secretary of State for Education and Skills what grants were awarded to local authorities in Dorset by his Department in financial year 2003–04 that fall outside the revenue support grant. [156209]

Mr. Miliband: I refer my hon. Friend to the answer given by my right hon. Friend the Minister for Local and Regional Government the Member for Greenwich and Woolwich (Mr. Raynsford) on 1 March 2004, *Official Report*, column 750W.

Computers Within Reach

Mr. Field: To ask the Secretary of State for Education and Skills how many *(a)* teachers and *(b)* families in Birkenhead have benefited from the Computers within Reach programme. [166323]

Mr. Charles Clarke: The Computers Within Reach scheme closed on 31 October 2001 having delivered over 24,000 recycled computers to people in 22 pilot areas, at a cost of £7.1 million over two years. Those eligible were in receipt of certain working age benefits or a State Pension with minimum income guarantee.

At the same time as funding was made available for the Computers within Reach scheme, funding was also provided for the Computers for Teachers programme. For teachers who met certain criteria, this programme subsidised the cost of a computer. It was subsequently replaced by the current Laptops for Teachers scheme which dispensed with subsidies, and through which sufficient funding will be provided to enable two-thirds of teachers to receive a laptop by March 2006.

Of the 24,000 computers delivered through the Computers within Reach scheme, approximately 3,000 were for people in the Liverpool area, including those in and around Birkenhead.

Computer Services

Bob Spink: To ask the Secretary of State for Education and Skills what plans he has to update computer *(a)* hardware and *(b)* software standard packages used in his Department. [166373]

Stephen Twigg: We have no plans this year to make major replacements or upgrades to the Department's hardware base which is perfectly adequate for the current level of IT in use. Over the near to medium term, we expect the percentage of laptops in use by Departmental staff to increase as remote working facilities improve and the Department encourages increased flexibility of working patterns and closer working relationships across the education sector.

The Department used predominantly Microsoft technology for its PC and back-office systems supplemented by "best of breed" technology for specific business critical activities. We have no plans to proactively update either our PC or server software this year although we do plan to introduce an improved email system (based on Microsoft's Exchange 2003), an integrated Human Resource and Payroll system, a Department-level accounting system and an Electronic Document and Records Management System (EDRMS) which will help us make better informed policy and allow us to respond positively to the Freedom of Information Act.

Education (Birkenhead)

Mr. Frank Field: To ask the Secretary of State for Education and Skills, if he will make a statement on the effects on schools of changes since 1997 in the level of investment in school sports in Birkenhead. [166296]

Stephen Twigg: The Government is investing more than £1 billion in England to transform PE, school sport and club links. The funding will help to deliver an ambitious Public Service Agreement target, shared with

the Department for Culture, Media and Sport, to increase the percentage of 5-16 year olds who spend a minimum of two hours each week on high quality PE and school sport within and beyond the curriculum to 75 per cent. by 2006.

The Department is providing £1,376,176 to support the delivery of three School Sport Partnerships in the Wirrall LEA area. The partnerships include 14 secondary and 70 primary schools and provide enhanced sport opportunities for all young people. Furthermore, the New Opportunities Fund has allocated £4,448,000 to specifically enhance PE and school sport facilities in the Wirral LEA area.

Mr. Frank Field: To ask the Secretary of State for Education and Skills how much public funding has been spent on higher education in Birkenhead in each of the last seven years. [166320]

Alan Johnson: The only publicly funded institution providing higher education in Birkenhead is Wirral Metropolitan College. The College has three main campuses (two of which are in Birkenhead) and also operates through neighbourhood learning centres and in-company learning centres. In 2004–05 HEFCE will be providing nearly £1.5 million to Wirral Metropolitan College but we have no information on the proportion of this or previous funding spent through the two campuses in Birkenhead.

Eligible students attending designated courses at Wirral Metropolitan College are eligible for student support. The available figures for funding for these students are shown below. They relate only to spending on tuition fees, student loans (cash cost) and the Dependants Grant for full-time undergraduate students.

Academic year	*Tuition fees* £	*Student loans (cash cost)* £	*Dependants Grants* £
1999–2000	177,100	652,300	63,000
2000–01	172,100	599,200	70,200
2001–02	179,200	664,500	115,100
2002–03	175,600	581,300	145,000

Mr. Frank Field: To ask the Secretary of State for Education and Skills how many schools in Birkenhead deemed to be failing since 1997 have since reached satisfactory standards. [166328]

Mr. Miliband: One school in Birkenhead has been found to be failing since 1997 and has since recovered. A further Ofsted inspection in 2002 showed the school to be improving and providing a sound education for its pupils.

Mr. Frank Field: To ask the Secretary of State for Education and Skills how many and what percentage of 11 year old pupils in Birkenhead have reached level four in *(a)* mathematics and *(b)* English in each of the last seven years. [166330]

Mr Miliband: The information requested is as follows:

	Mathematics			*English*		
	Birkenhead Number of pupils achieving Level 4+	*Birkenhead Percentage of pupils achieving Level 4+*	*England Percentage of pupils achieving Level 4+*	*Birkenhead Number of pupils achieving Level 4+*	*Birkenhead Percentage of pupils achieving Level 4+*	*England Percentage of pupils achieving Level 4+*
2003	689	65	73	722	68	75
2002	770	67	73	812	70	75
2001	747	65	71	811	70	75
2000	720	64	72	764	68	75
1999	735	61	69	787	66	71
1998	538	49	59	635	58	65
1997	552	51	62	592	55	63

Mr. Frank Field: To ask the Secretary of State for Education and Skills what percentage of 15 and 16 year-olds in Birkenhead achieved at least five GCSEs at grades A*–C or GNVQ equivalent in each of the last seven years. [166319]

Mr Miliband: The statistical information requested is detailed in the following table:

Percentage of 15 year old pupils[1] achieving five or more GCSE/GNVQ grades A–C*

Academic Year	*Birkenhead Parliamentary Constituency*	*England*
1997	28.9	45.1
1998	31.0	46.3
1999	30.2	47.9
2000	35.4	49.2
2001	40.7	50.0
2002	44.0	51.6
2003	45.9	52.9

[1]Pupils are aged 15 at the start of the academic year, ie 31 August.

Mr. Frank Field: To ask the Secretary of State for Education and Skills how many and what percentage of pupils in Birkenhead reached the *(a)* mathematics and *(b)* English standard in each of the last seven years. [166329]

Mr Miliband: The results from the 2003 National Curriculum tests showed that 75 per cent. of 11 year olds in England reached Level 4 in English and 73 per cent. in mathematics. These results represent a significant improvement in standards—of 12 percentage points in English and 11 percentage points in mathematics—since 1997, reflecting the impact of the National Literacy and

Numeracy Strategies on primary schools. We remain absolutely committed, through our new Primary Strategy, to supporting schools to achieve the ambitious targets we have set for standards of literacy and numeracy.

The table shows the number and percentage of pupils in Birkenhead who have achieved level 4 or above in the Key Stage 2 English and mathematics tests since 1997. The results for Birkenhead are below the national average but show improvements since 1997 in English and mathematics in excess of the improvements in the national figures:

	1997	*1998*	*1999*	*2000*	*2001*	*2002*	*2003*
English—No of pupils[1]	592	635	787	764	811	812	722
Mathematics—No of pupils[1]	552	538	735	720	747	770	689
English—% of pupils	55	58	66	68	70	70	68
Mathematics—% of pupils	51	49	61	64	65	67	65

[1]The number of eligible pupils for the Key Stage 2 tests varies slightly from year to year.

Mr. Frank Field: To ask the Secretary of State for Education and Skills how much funding each school in Birkenhead has received from New Deal for Schools. [166326]

Mr. Miliband: The table shows the schools in the Birkenhead constituency that benefited from investment through the New Deal for Schools (NDS) programme, which commenced in 1997–98. From 2000–01, capital allocations to local authorities and schools have largely been made by formulae linked to asset management plans. In addition, all schools have, since 2000–01, received Devolved Formula capital to use on their most urgent capital needs.

NDS Allocations to Schools in the Birkenhead Constituency

Year	*School*	*Project Details*	*Type*	*Grant Awarded*
1997–98	Bedford Drive Primary School	Continuation of roofing and structural repairs	LEA widegrant	£375,000.00
1998–99	Devonshire Park Primary School	Rebuild boundary wall to playground, stack and gutter repairs (North building)		£49,500.00
	Holy Cross Catholic Primary School	Structural repairs to infant building–design/ construction fault		£19,800.00
	Bidston Avenue Primary School	Gutter repairs/ renewal		£8,800.00
	Park High School	Fire precaution works, replacement of aluminium windows		£82,500.00
1999–2000	The Priory Parish C of E Primary School	Part of roofing package		£2,475.00
	Mersey Park Primary School	Repair element roofing	Project including 17 schools	£950,300.00
	Woodchurch Road Primary School	Heating boiler plant repairs	Project including 13 schools	£340,900.00
	Hillside Infant School	Repair element structure	Project including 15 schools	£1,289,200.00
	Townfield Primary School	Repair element structure	Project including 15 schools	£1,289,200.00
	St Oswald's Bidston C of E Primary School	Repair element roofing	Project including 17 schools	£950,300.00
	Oxton St Saviour's C of E Primary School	Heating boiler plantrepairs	Project including 13schools	£340,900.00
	Our Ladyand St Edward's Catholic Primary School	Heating boiler plant repairs	Project including 13 schools	£340,900.00
	Holy Cross Catholic Primary School	Heating boiler plant repairs	Project including 13 schools	£340,900.00
	St Joseph's Catholic Primary School	Repair element structure	Project including 15 schools	£1,289,200.00
	Prenton High School for Girls	Repair element roofing	Project including 17 schools	£950,300.00
	Rock Ferry High School	Repair element roofing	Project including 17 schools	£950,300.00
	Ridgeway High School	Repair element roofing	Project including 17 schools	£950,300.00
	Plessington Catholic High School Technology College	Heating boiler plant repairs	Project including 13 schools	£340,900.00
2000–01	Rock Ferry High School	Temporary mobile accommodation to be replaced by permanent new build	Project including 9 schools	£1,955,856.00
	Ridgeway High School	Temporary mobile accommodation to be replaced by permanent new build	Project including 9 schools	£1,955,856.00

Mr. Frank Field: To ask the Secretary of State for Education and Skills how much public funding has been spent on repairing schools in Birkenhead in each year since 1997. [166304]

Mr. Miliband: The majority of capital support is allocated to schools and local education authorities by formula, and they decide how to invest it in line with their asset management plans. The Department does not, therefore, have complete information about capital investment at constituency level. The table sets out the capital support made by the Government to Wirral Local Education Authority since 1997–98, in total and by programme, including devolved formula capital grants to each school.

All figures in £000s

Additionally, we have allocated to date approximately £13.4 million in 2004–05 and £5.3 million in 2005–06 for further capital investment in schools in Wirral LEA.

Mr. Frank Field: To ask the Secretary of State for Education and Skills how many teaching assistants there were in schools in Birkenhead (a) in each of the last seven years and (b) on the latest date for which figures are available. [166299]

Mr. Miliband: In the Birkenhead constituency there were 210 full-time equivalent teaching assistants in service in maintained schools in January 2003. This is the latest information available. The table gives the corresponding numbers since 1997.

Year	
1997	90
1998	90
1999	110
2000	110
2001	170
2002	150

Source:
Annual School's Census.

Mr. Frank Field: To ask the Secretary of State for Education and Skills how many teacher vacancies there were in Birkenhead on the latest date for which figures are available; and what steps he is taking to reduce them. [166298]

Mr. Miliband: Teacher vacancy information is collected at local authority level. In January 2003, there were 18 vacancies for full-time teachers in maintained schools in the Wirral local education authority (LEA) area, which includes Birkenhead.

Like other areas, since 1997 Wirral has benefited from the initiatives that the Government has put in place to recruit and retain teachers and to increase the number of staff supporting them in schools. Since 1997, the number of full-time equivalent regular teachers in maintained schools in Wirral LEA has risen by 150, from 2,930 to 3,080 in 2003. Over the same period, the number of full-time equivalent school support staff in the LEA has grown by 690, from 680 to 1,370.

Sex Education

Dr. Stoate: To ask the Secretary of State for Education and Skills what progress has been made since 16 July 2003 on establishing a set of guidelines on sex education for boys. [166546]

Stephen Twigg: We have commissioned the development of practical guidance to support schools in Sex and Relationship Education (SRE) for boys and young men. The guidance will be available in early June.

Additionally since July 2003, we have supported the production of a resource for teaching and learning about HIV and AIDS which addresses both boys and girls. Our programme of professional development which includes a specialist module of SRE will be available to up to 3,000 teachers in 2004–05. These participants are required to demonstrate that their SRE programme meet the needs of both boys and girls.

Student Loans

Dr. Cable: To ask the Secretary of State for Education and Skills how much interest accrued to the Student Loan Company on student loans in financial years *(a)* 2002–03 and *(b)* 2003–04; and how much of this interest was derived from capital sums which had been paid by debtors to the Inland Revenue but not transferred to the Student Loan Company. [166116]

Alan Johnson: In financial year 2002–03, the sum of £146.8 million in interest was added onto the student loans balance. Of this, £106.9 million related to income contingent loans and £39.9 million related to mortgage style loans. Any adjustments arising from the repayments received in respect of 2002–03 will be included in the 2003–04 data.

Data are not available to answer the second part of the question.

Data for financial year 2003–04 are not yet available.

Teachers (North Somerset)

Brian Cotter: To ask the Secretary of State for Education and Skills how many *(a)* teaching assistants, *(b)* teachers and *(c)* teaching vacancies there were in schools in the North Somerset Education Authority in each year since 1997. [165679]

Mr. Miliband *[holding answer 19 April 2004]:* The table shows the number of full-time equivalent teaching assistants, regular teachers and full-time permanent teacher vacancies in maintained schools in North Somerset Local Education Authority area, in January of each year since 1997.

	Teaching assistants	*Teachers*	*Vacancies*
1997	190	1,450	9
1998	220	1,380	12
1999	220	1,360	10
2000	260	1,360	14
2001	290	1,420	7
2002	310	1,480	5
2003	380	1,490	7

Sources:
Annual School Census (teaching assistants) and the Annual Survey of Teachers in Service and Teacher Vacancies.

Teaching Assistants (Wirral)

Mr. Chapman: To ask the Secretary of State for Education and Skills how many teaching assistants there were in schools in Wirral South in (a) each of the last seven years and (b) on the latest date for which figures are available. [166625]

Mr. Miliband: In the Wirral South constituency there were 130 full-time equivalent teaching assistants in service in maintained schools in January 2003. This is the latest information available. The table gives the corresponding numbers since 1997.

Year	
1997	50
1998	50
1999	50
2000	60
2001	80
2002	100

Source:
Annual School's Census.

Excellence in Cities

Mr. Frank Field: To ask the Secretary of State for Education and Skills how many children in Birkenhead have benefited from the Excellence in Cities programme; and what the per pupil spending was in each year since the programme's inception. [166327]

Mr Miliband: Park High School, Prenton High School Ridgeway High School, Rock Ferry High School and Woodchurch High School in Birkenhead have been included in Excellence in Cities since September 2000. The table below shows the number of children in Birkenhead benefiting, and the annual spend per pupil for the years in question.

	No of Children	*Total EiC expenditure*[1] *£*	*Spend per Pupil £*
2000–01	4,870	675,311	138.67
2001–02	5,056	675,311	133.57
2002–03	5,141	726,028	141.22
2003–04	5,284	1,437,340	272.00

[1] Funding figures were supplied by the Excellence in Cities coordinator for Wirral.

The large increase in the rate of EiC funding in 2003–04 is due to the extra funding provided through the Leadership Incentive Grant and Behaviour Improvement Programme which came on stream in 2003.

Supply Teachers

Mr. Andrew Hunter: To ask the Secretary of State for Education and Skills, if he will take measures to ensure that only local education authority-approved teachers can be employed by schools as supply teachers. [166412]

Mr. Miliband: My right hon. Friend has no present plans to take such measures. However, the Government has already taken action to improve the quality and reliability of supply teachers. A package of self-study materials was launched in June 2002 specifically for supply teachers. In addition, my Department's Quality mark scheme requires that teachers being offered to schools by agencies and Local Education Authorities have been interviewed and their references checked. I plan to write to schools soon recommending that they use Quality Mark holders for fulfilling their supply needs wherever possible.

Schools (Wirral, South)

Mr. Ben Chapman: To ask the Secretary of State for Education and Skills how many and what percentage of pupils in Wirral South reached the *(a)* mathematics and *(b)* English standard in each of the last seven years. [166623]

Mr. Miliband: The results from the 2003 National Curriculum tests showed that 75 per cent. of 11-year-olds in England reached Level 4 in English and 73 per cent. in mathematics. These results represent a significant improvement in standards—of 12 percentage points in English and 11 percentage points in mathematics—since 1997, reflecting the impact of the National Literacy and Numeracy Strategies on primary schools. We remain absolutely committed, through our new Primary Strategy, to supporting schools to achieve the ambitious targets we have set for standards in literacy and numeracy.

The table shows the number and percentage of pupils in Wirral South who have achieved level 4 or above in the Key Stage 2 English and mathematics tests since 1997. The results for Wirral South are well above the national average and have improved significantly since 1997:

	1997	*1998*	*1999*	*2000*	*2001*	*2002*	*2003*
English—no. of pupils[1]	665	708	757	772	797	819	767
Mathematics—no. of pupils[1]	633	633	727	723	742	774	733
English—% of pupils	76	76	81	83	86	84	84
Mathematics—% of pupils	72	68	78	78	80	79	80

[1] The number of eligible pupils for the Key Stage 2 tests varies slightly from year to year.

Mr. Ben Chapman: To ask the Secretary of State for Education and Skills how many teacher vacancies there were in Wirral South on the latest date for which figures are available; and what steps he is taking to reduce them. [166626]

Mr. Miliband: Teacher vacancy information is collected at local authority level. There were 18 vacancies for full-time teachers in maintained schools in the Wirral local education authority (LEA) area, which includes Wirral South.

Like other areas, since 1997 Wirral has benefited from the initiatives that the Government has put in place to recruit and retain teachers and to increase the number of staff supporting them in schools. Since 1997, the number of full-time equivalent regular teachers in maintained schools in Wirral LEA has risen by 150, from 2,930 to 3,080 in 2003. Over the same period, the number of full-time equivalent school support staff in the LEA has grown by 690, from 680 to 1,370.

Temporary Classrooms

Bob Russell: To ask the Secretary of State for Education and Skills how many temporary or demountable classrooms in the Colchester Parliamentary constituency have been replaced with permanent accommodation since May 1997; and if he will make a statement. [165328]

Alan Johnson: The Department does not hold data on the replacement of temporary classrooms since 1997. This Government has increased its support for capital investment in schools from under £700 million in 1996–97 to £3.8 billion this year and this will increase further to over £5 billion by 2005–06. The bulk of schools capital is now allocated by formula to Authorities and schools so that they can address their local priorities, including the replacement of decayed temporary accommodation, on which we have set a high priority. Prioritisation of need is through asset management planning, which should be an open, rigorous and consultative process, based on a survey of the needs of all schools. Modern, high-quality mobile or demountable classrooms provide a good environment for teaching and learning where there is short-term need. They might, for instance, be needed to cope with a short-term increase in pupil numbers, or where extensive remodelling or rebuilding of permanent accommodation means providing temporary accommodation on the school site, rather than transporting children elsewhere.

Pupil Referral Units

Mr. Hoban: To ask the Secretary of State for Education and Skills what the average length of attendance at pupil referral units was in each of the last three years. [165475]

Alan Johnson: The data requested is not collected centrally.

School Refurbishment

Mr Simmonds: To ask the Secretary of State for Education and Skills how much funding his Department *(a)* has spent in 2003–04 and *(b)* is planning to spend in (i) 2004–05 and (ii) 2005–06 on rebuilding and refurbishing property in (A) secondary schools and (B) further education colleges. [165351]

Alan Johnson: The majority of the Department's school capital investment is allocated to schools and Local Education Authorities (LEAs) by formula, and they decide how best to invest it in line with their asset management plans. We do not stipulate how LEAs should split this investment between primary and secondary schools and we do not, therefore, have detailed information about all capital investment spent on secondary schools. This information should be held locally. The total capital investment available for all schools amounted to £3.8 billion in 2003–04, and we have indicated that this will rise to £4.5 billion and £5.1 billion in 2004–05 and 2005–06 respectively.

All of the Department's post-16 learning and skills sector capital investment is allocated to the Learning and Skills Council (LSC). In 2003–04 the LSC's total capital funding allocation was £327.5 million, and we have indicated that this will rise to £379.5 million and £408.5 million in 2004–05 and 2005–06 respectively. This comprises capital funding for the further education and Adult and Community Learning sectors. It includes funding to develop the Information and Learning Technology infrastructure; to develop Centres of Vocational Excellence; and to support the Neighbourhood Learning in Deprived Communities programme. The Department does not provide a specific budget to the LSC for rebuilding and refurbishing property in further education colleges. It is for the LSC to determine for itself the right level of capital investment in further education colleges. Mr. Haysom, the Council's Chief Executive, will write to the hon. Member on this matter. A copy of his reply will be placed in the House library.

Devon Schools

Mr. Swire: To ask the Secretary of State for Education and Skills how many places there were in Devon Local Education Authority *(a)* primary, *(b)* secondary and *(c)* grammar schools in each of the last seven years. [165016]

Alan Johnson: The available information shown in the table relates to the number of pupils in maintained primary and secondary schools and grammar schools rather than total number of school places.

Maintained Primary and Secondary Schools[1]*: Number (headcount) of Pupils*
Position as at January each year: Devon, Plymouth and Torbay Local Education Authorities

Public Bodies

Mr. Stephen O'Brien: To ask the Secretary of State for Education and Skills what the *(a)* resource budget, *(b)* administration costs and *(c)* staff numbers were for 2003 of the (i) School Teachers' Review Body and (ii) Music and Dance Scheme Advisory Group. [165122]

Alan Johnson: The School Teachers' Review Body (STRB) does not have a specific budget. Its costs are borne within the overall total budget for the Office of Manpower Economics. The estimated resource budget for the work of the STRB in 2003–04, including members' costs and consultancy and survey work was about £840,00 and this includes Secretariat

administration costs, including pay, of £384,000. The STRB is supported by a Secretariat of 7.8 people within the Office of Manpower Economics.

The Music and Dance Scheme Advisory Group (MDSAG) does not have a resource budget. The Group's members are unpaid and only receive expenses for attendance at meetings. These amounted to some £6,000 in 2003–04. The MDSAG is serviced by two officials from the Department of Education and Skills as part of their duties in administering the Music and Dance Scheme.

Written Answers to Questions

Wednesday 21 April 2004

LEADER OF THE HOUSE

Civil Servants

Bob Spink: To ask the Leader of the House if he will list for each civil service grade within his Office, the total number of staff employed, broken down by *(a)* gender, *(b)* ethnic group and *(c)* age group; and how many are registered disabled. [166400]

Mr. Woolas: Data on staffing levels in the Civil Service are collected by the Cabinet Office and published in Civil Service Statistics. A copy of Civil Service Statistics 2002 is available in the Library, and at www.civil-service.gov.uk/statistics. The 2003 edition will be published in summer 2004.

My Office currently employs 12 civil servants and two temporary civil servants as special advisers, including staff supporting the Deputy Leader of the House of Commons. The grading breakdown is set out in the following table:

Grade	*Staff number*
Senior Civil Servant	1
Band A	1
B2	3
B1	3
C2	3
C1	1
Special Adviser	2

To provide further analysis of *(a)* gender, *(b)* ethnic group, *(c)* registered disabled and *(d)* age group would identify individual members of staff.

Departmental Computers

Bob Spink: To ask the Leader of the House what plans he has to update computer *(a)* hardware and *(b)* software standard packages used in his Office. [166375]

Mr. Woolas: The computer hardware and software used in my office is provided by the Privy Council Office under an IS/IT services agreement managed by the Cabinet Office. This provides for desktop hardware to be regularly replaced, and for standard operating and applications software to be kept updated. A major upgrade is planned for the standard office automation software we use towards the end of 2004.

WORK AND PENSIONS

Asbestos

Huw Irranca-Davies: To ask the Secretary of State for Work and Pensions what assessment he has made of the level of compliance with the duty to manage legislation as it relates to exposure to asbestos *(a)* now and *(b)* by the time the legislation becomes legally binding in May. [166749]

Jane Kennedy: As a result of a commitment given by the Government to the House of Lords in 2002, the Health and Safety Executive carried out a review of the progress being made towards compliance with the duty to manage asbestos in non-domestic premises. The review shows that between 50 per cent. and 75 per cent. of dutyholders are aware of the new regulation and that approximately 40 per cent. were already complying with the duty six months before the regulation was due to come into force.

Since the review was carried out the HSE has continued its campaign to raise awareness of the duty in order to continue to raise the level of compliance before the 21 May when the duty comes into force.

Huw Irranca-Davies: To ask the Secretary of State for Work and Pensions what efforts the Department has made to raise awareness amongst small businesses and the self-employed of the duty to manage legislation as it relates to exposure to asbestos. [166750]

Jane Kennedy: In 2001 the Health and Safety Commission embarked on a five-year campaign to raise awareness of the duty to manage and to encourage proportionate and effective compliance with the new regulation.

In addition to the development of comprehensive guidance, the Health and Safety Executive (HSE) has gained the support of over 3,000 organisations to act as Partners in cascading HSE's campaign messages to a wide and varied audience, including small businesses and the self-employed. The partnership network includes the Federation of Small Businesses which has played a key role in the production of a free 'Duty to Manage' leaflet geared towards the needs of their members. Over 400,000 of these leaflets have been distributed nation wide.

HSE has also developed a 'duty to manage' asbestos website, which includes good practice examples for new dutyholders, and has produced a range of written guidance.

Correspondence

Mr. Kaufman: To ask the Secretary of State for Work and Pensions when he intends to reply to the letter to him from the right hon. Member for Manchester, Gorton, dated 8 March, with regard to Mr. David Worthington. [167259]

Mr. Andrew Smith: I replied to my right hon. Friend on 16 April 2004.

Council Tax Benefit

Mrs. Brooke: To ask the Secretary of State for Work and Pensions how many people are claiming council tax benefit; and if he will make a statement. [166252]

Mr. Pond: The number of Council Tax Benefit recipients in Great Britain at August 2003 is 4,657,400.

Notes:

1. The data refers to benefit units, which may be a single person, couple or family.

2. The figure is rounded to the nearest hundred.

3. Council Tax Benefit totals exclude any Second Adult Rebate cases.

Source:

Housing Benefit and Council Tax Benefit Management Information System Quarterly 100 per cent. caseload stock-count taken in August 2003.

Pension Forecasts

Mr. Webb: To ask the Secretary of State for Work and Pensions what steps his Department has taken to provide everyone with a personal forecast of their complete pension position as proposed in "A New Contract for Welfare: Partnership in Pensions", page 86. [166247]

Malcolm Wicks: Last year the Government began the process of issuing state pension forecasts to self-employed people and we anticipate that we will have sent 1.6 million forecasts by the end of May this year.

We also continue to work in partnership with employers and pension providers to deliver 6.3 million combined pension forecasts by the end of 2005–06. To date over 700 employers and pension providers have expressed an interest in delivering these forecasts to their employees/scheme members.

The Government are keen to ensure that individuals who are not covered by the combined pension forecast arrangements do not lose out. We intend to issue to these people a regular forecast of their projected state pension entitlement.

Retirement Planner

Mr. Webb: To ask the Secretary of State for Work and Pensions if he will estimate *(a)* the initial start-up cost and *(b)* the annual running cost of his Department's web-based retirement planner, as proposed in Simplicity, Security and Choice: Informed Choices for Working and Saving, page 28; if he will provide a breakdown of this cost to (i) pension providers and (ii) his Department; and if he will make a statement. [166232]

Malcolm Wicks: We anticipate that the costs of establishing and running the web-based retirement planner are likely to be less than £10 million set-up costs and less than £5 million in annual running costs. However, these figures are high-level and indicative.

Expenditure on a new service cannot be incurred ahead of Her Majesty's consent to the Pensions Bill. Following Royal Assent we will be able to engage with suppliers and estimate the potential cost. The exact costs of the system will, therefore not be known until commercial arrangements have been completed.

Mr. Webb: To ask the Secretary of State for Work and Pensions if he will estimate the average cost per member to private pension schemes for providing personalised scheme-member information in order to facilitate his Department's proposed web-based retirement planner. [166233]

Malcolm Wicks: This information is not available at the present time. Expenditure on a new service cannot be incurred ahead of Her Majesty's consent to the Pensions Bill and consent to that expenditure. Following Royal Assent we will be able to engage with suppliers and estimate the potential cost.

Mr. Webb: To ask the Secretary of State for Work and Pensions when his Department's proposed web-based retirement planner will be launched. [166245]

Malcolm Wicks: As announced in February 2004 in Cm 6111, 'Simplicity, security and choice: Informed choices for working and saving', the web-based retirement planner will be launched in Spring 2006.

DEPUTY PRIME MINISTER

Regional Assemblies

8. **Mr. Grogan:** To ask the Deputy Prime Minister what assessment he has made of the effect on business of elected regional assemblies in the north of England. [166261]

Phil Hope: Improving the economic performance of the northern regions will be at the heart of the objectives of elected regional assemblies. Business will be actively involved in, and benefit from, the work of the assemblies—including economic development, planning, housing, transport, employment, and training and skills.

Deprived Communities

9. **Ms Munn:** To ask the Deputy Prime Minister what action his Department is taking to make deprived communities better places to live. [166262]

Yvette Cooper: The Government have introduced a range of new programmes backed by substantial investment to improve disadvantaged areas, including the Neighbourhood Renewal Fund, Sure Start and neighbourhood wardens.

Independent research published this week shows crime in warden areas has dropped by 28 per cent.

Housing

10. **Mr. Jack:** To ask the Deputy Prime Minister what studies his Department will be making of the impact of his latest housing policies on the north-west of England. [R] [166263]

Keith Hill: The Government's housing policies are encapsulated in the Sustainable Communities Plan. With four of the nine Housing Market Renewal Pathfinders located in the north-west, the region is set to benefit from £332 million over the next two years. A full programme evaluation for the pathfinder programme is to be commissioned. In addition, a full review of North West Regional Planning Guidance will start later this year, and will give further consideration to housing provision.

11. **Mr. Blizzard:** To ask the Deputy Prime Minister what plans he has to increase the amount of affordable housing for rent in rural areas. [166264]

Keith Hill: The target for approvals of rural housing in small settlements within the Housing Corporation's Approved Development Programme has been increased from 800 in 2000–01 to 3,500 over the two years 2004–05 and 2005–06. The target for these two years has been exceeded by about 500 in the programme announced last month. The programme includes homes for both rent and low cost home ownership.

Mr. Ben Chapman: To ask the Deputy Prime Minister if he will make a statement on the effect of changes in the level of council funding for housing upon residents of Wirral, South since 1997. [166635]

Mr. Frank Field: To ask the Deputy Prime Minister how the change in the level of council funding for housing has affected the residents of Birkenhead since 1997. [166214]

Phil Hope: Since 1997 allocations of capital funding to local authorities for housing purposes have risen consistently by about 15 per cent. per annum on average. This includes the Major Repairs Allowance the Office of the Deputy Prime Minister introduced in 2001–02 specifically for the improvement of local authority stock alongside the Decent Homes standard which sets out minimum standards to be met by 2010. Wirral's allocations in the period 1997 to 2003–04 have risen by over 140 per cent. In addition to this welcome increase there is support through the Community Housing Task Force and Government Office for the North West to help the local authority and its tenants to choose the best strategy for long term improvement.

Matthew Green: To ask the Deputy Prime Minister if he will list those respondents to the consultation paper on licensing houses in multiple occupation (HMOs) who *(a)* supported and *(b)* opposed the proposal to introduce a duty of care on the owners and managers of all HMOs to ensure the health and safety of their tenants. [166201]

Keith Hill: A total of 579 responses were received on the 1999 consultation paper on Licensing of Houses in Multiple Occupation in England. 363 of them expressed no views on the proposal to introduce a duty of care on the owners and managers of HMOs.

The five who were opposed to the proposal were:

Mr. D Ugustod
South London Family Housing Association
Mr. G Clements
Leeds Property Association
An anonymous respondent

The 211 respondents in favour of the proposal were:

National Inspection Council for Electrical Installation Contracting (NICEIC)

Mr. Ben Prescott

Mr. Hopkins: To ask the Deputy Prime Minister what steps he is taking to help local authorities to rehouse families on the housing waiting list. [166259]

Yvette Cooper: Local authorities are no longer required to hold 'housing waiting lists', and are now required to allocate housing following their published allocation scheme. In November 2002, my right hon. Friend the Deputy Prime Minister issued a revised Code of Guidance on the Allocation of Accommodation; this encourages local authorities to provide housing applicants with a choice of accommodation in their allocation scheme.

The Office of the Deputy Prime Minister announced a major new affordable house building programme worth nearly £3.5 billion over this and next year, and we are allocating £260 million over 2003–04 to 2005–06 to tackle homelessness.

Mr. Betts: To ask the Deputy Prime Minister what the *(a)* level of housing basic credit approvals (as included in HIP allocations), *(b)* volume of reserved capital receipts from Right to Buy, *(c)* volume of usable capital receipts from Right to Buy and *(d)* capital receipts used by local authorities for housing investment were for (i) each local authority with a housing revenue account and (ii) England for (A) 1990–91, (B) 2000–01, (C) 2001–02, (D) 2002–03 and (E) 2003–04. [166637]

Keith Hill: Information on *(a)* local authority capital allocations since 1990–91 is available in the Library of the House.

The information requested at *(b)*, *(c)* and *(d)*, with the exception that no information is available yet for the year 2003–04, has been made available in the Library of the House.

Local Government Finance

12. **Mr. Barnes:** To ask the Deputy Prime Minister what the average council tax increase from 2003–04 to 2004–05 was in shire counties. [166265]

Mr. Raynsford: The average increase in the Band D council tax in shire county areas between 2003–04 and 2004–05 is 6.2 per cent. This contrasts with an increase of 13.8 per cent. in 2003–04.

Planning/Regeneration

Mike Gapes: To ask the Deputy Prime Minister if he will make a statement on planning and regeneration policy in areas of high population density. [166260]

Keith Hill: The needs of high density areas differ greatly depending on local circumstances. Regeneration strategies are best decided locally. Planning can play an important role in high-density areas helping to create well designed and planned sustainable communities.

PRIME MINISTER

EU Constitution

Bob Spink: To ask the Prime Minister if he will make a statement in the House on a referendum on the EU constitution. [167220]

The Prime Minister: I refer the hon. Member to my statement on Europe in the House on 20 April 2004, *Official Report*, columns 155–57.

Libya

Mrs. Iris Robinson: To ask the Prime Minister (1) whether *(a)* he raised the issue of the sale and transportation of illegal arms to the Provisional IRA when he recently met with Colonel Gaddafi in Libya and *(b)* he was given a full inventory of the weapons and explosives which the Provisional IRA received; [166764]

(2) whether discussions took place with Colonel Gaddafi regarding financial compensation to those injured by, and to the families of those murdered by, illegal weapons transported to the IRA by Libya; and if he will make a statement; [166765]

(3) whether the issue of *(a)* arms supplies to the IRA by Libya and *(b)* compensation for victims of terrorism in Northern Ireland arising from arms shipments from Libya to the IRA was raised during his meeting with Colonel Gaddafi. [167396]

The Prime Minister: I refer the hon. Member to the answer I gave to the hon. Member for South Antrim (David Burnside) on 1 April 2004, *Official Report*, column 1569W.

Mrs. Iris Robinson: To ask the Prime Minister what details were given by Colonel Gaddafi and the Libyan Government regarding their involvement in the murder of WPC Yvonne Fletcher; and if he will make a statement. [166766]

The Prime Minister: I refer the hon. Member to the answer I gave to the hon. Member for South Antrim (David Burnside) on 1 April 2004, *Official Report*, column 1569W.

Following my visit, a Metropolitan Police team visited Tripoli between 3 and 6 April to take forward the investigation into the murder of WPC Yvonne Fletcher.

TREASURY

Accountancy Services

Norman Lamb: To ask the Chancellor of the Exchequer (1) which *(a)* chartered accountants and *(b)* chartered accountancy firms are banned from carrying out work for the Government; [166384]

(2) which *(a)* chartered accountancy and *(b)* chartered accountant firms have had bans lifted since 1997; and what criteria are used to determine whether bans should be (i) imposed and (ii) lifted. [166385]

Ruth Kelly: No chartered accountants or firms of chartered accountants are currently formally banned from carrying out work for the Government. However, following the collapse of Barlow Clowes, the two

partners of Deloitte and Touche (the auditors) who were censured by the Joint Disciplinary Scheme Committee of Enquiry (an integral part of the accountancy profession's regulatory regime) voluntarily agreed not to put themselves forward for Government work.

The ban on the employment of Arthur Andersen for Government work was lifted in November 1997 for reasons explained on 14 November 1997, *Official Report*, column 695.

There are no formal criteria for the imposition or lifting of a ban, and each case is viewed on its merits.

Mr. Cousins: To ask the Chancellor of the Exchequer what the *(a)* nature and *(b)* value was of all contracts, consultancies or other services placed with the accountancy firms (i) Deloitte & Touche, (ii) Ernst & Young. (iii) KPMG and (iv) PricewaterhouseCoopers since 2000–01 by the Department and its agencies. [166097]

Ruth Kelly: The following information and tables provide the information required in the form in which the Chancellor's Departments and agencies have been able to compile it, without having to incur disproportionate costs.

HM Treasury[1]

Spend (£)

	2000–01	*2001–02*	*2002–03*	*2003–04*

Labour Statistics

Peter Bradley: To ask the Chancellor of the Exchequer (1) how many *(a)* men and *(b)* women are employed in The Wrekin; [166720]

(2) how many *(a)* men and *(b)* women in The Wrekin are in (i) full and (ii) part-time employment. [166722]

Ruth Kelly: The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Colin Mowl to Mr. Peter Bradley, dated 21 April 2004:

The National Statistician has been asked to reply to your Parliamentary Questions about employment in the Wrekin Parliamentary Constituency. I am replying in his absence. (166720, 166722)

The table below gives estimates of the number of men and women who are in full and part-time employment in the Wrekin Parliamentary Constituency in the twelve month period ending February 2002, the latest data for which information is available.

Men and women who are in full and part-time employment in the Wrekin parliamentary constituency

	Men	*Women*
In employment	22,000	19,000
Part-time	[1]—	10,000
Full-time	21,000	9,000

[1] Sample size too small for reliable estimate.

As with any sample survey, estimates from the LFS are subject to sampling variability.

Mr. Kilfoyle: To ask the Chancellor of the Exchequer (1) how many new *(a)* full-time and *(b)* part-time jobs were created between 1997 and 2003 in Liverpool, Walton; [166968]

(2) how many jobs were lost in each year between 1997 and 2003 in Liverpool, Walton. [166969]

Ruth Kelly: The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Len Cook to Mr. Peter Kilfoyle dated 21 April 2004:

As National Statistician, I have been asked to reply to your Parliamentary Questions about full-time and part-time jobs, and number of jobs lost in Liverpool, Walton. (166968,166969)

While no statistics of new jobs created or of jobs lost are available explicitly, statistics from surveys enable comparisons to be made of net changes, from year to year.

The attached table shows the number of full-time and part-time employee jobs in Liverpool, Walton Parliamentary Constituency in each year from 1997 to 2002, the latest year for which information is available.

Number of full-time and part-time jobs[1] in Liverpool, Walton[2]: 1997–2002

	Number of jobs		
	Full-time	Part-time	Total
1997	13,900	9,900	23,900
1998	15,400	9,700	25,100
1999	14,600	8,400	23,000
2000	17,400	9,700	27,000
2001	19,000	11,800	30,800
2002	21,600	12,900	34,500
Net change 1997 to 2002	+7,700	+3,000	+10,700

Notes:
[1] Employee jobs only, not self-employed jobs.
[2] Parliamentary constituency area.
Source.
1997; Annual Employment Survey, rescaled 1998–2002; Annual Business Inquiry (ABI).

National Minimum Wage

Mr. Hepburn: To ask the Chancellor of the Exchequer how many young people aged 16 or 17 he expects will be entitled to the national minimum wage in *(a)* the Jarrow constituency, *(b)* South Tyneside, *(c)* the North East and *(d)* the United Kingdom. [166815]

Ruth Kelly: The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Colin Mowl to Mr. Stephen Hepburn, dated 21 April 2004:

The National Statistician has been asked to reply to your Parliamentary Question about national minimum wage. I am replying in his absence. (166815)Information about entitlement to the national minimum wage is not available.

However, estimates for the number of employees aged 16 and 17 from the Labour Force Survey (LFS) provide an upper limit for the number of people entitled to the national minimum wage.

The table below gives estimates of the number of employees aged 16 and 17 in the United Kingdom and in the North East for the three month period ending November 2003. They include a small, but not measured, number of people with a contract of apprenticeship and pre-apprenticeship schemes who are not entitled to the minimum wage.

Number of employees aged 16 and 17 in the United Kingdom and the North East

	People aged 16 and 17	People aged 16	People aged 17
United Kingdom	631,000	247,000	384,000
North East	25,000	[1]	16,000

[1] Sample size too small for reliable estimate.

As with any sample survey, estimates from the LFS are subject to sampling variability and the sample size is too small to provide comparable estimates for the Jarrow parliamentary constituency and the south Tyneside local authority with any reliability.

Census Statistics

Mr. Andrew Turner: To ask the Chancellor of the Exchequer according to the 2001 Census return, which 10 constituencies had the highest proportion of non-white population; what those proportions were; what proportion of the population indicated English or similar in the ethnicity question in *(a)* England and *(b)* each constituency; what proportion of the population lives in a mobile home in (i) England and (ii) each constituency; and what proportion of the population travels to work by other means in (A) England and (B) each constituency. [162763]

Mr. Boateng *[holding answer 22 March 2004]:* The information requested falls within the responsibility of the National Statistician, who has been asked to reply.

Letter from Len Cook to Mr. Andrew Turner, dated 21 April 2004:

As National Statistician and Registrar General for England and Wales I have been asked to reply to your recent question asking which 10 constituencies had the highest proportion of non-white population according to the 2001 Census return; what those proportions were; what proportion of the population indicated English or similar in the ethnicity question in *(a)* England and *(b)* each constituency; what proportion of the population lives in a mobile home in *(a)* England and *(b)* each constituency; and what proportion of the population travel to work by other means in *(a)* England and *(b)* each constituency. (162763)

The following ten Parliamentary Constituencies have the highest percentage of non-white ethnic groups in England and Wales. The percentages have been extracted from Table KS06 on the CD supplement to the Census 2001 Report for Parliamentary Constituencies, which is available in the House of Commons Library.

Parliamentary constituencies with the highest percentage of population in non-white ethnic groups, England and Wales, 2001

	Percentage of population in non-white ethnic groups
East Ham	66.26
Birmingham, Ladywood	64.89
Birmingham, Sparkbrook and Small Heath	64.84
Brent, South	64.58
West Ham	60.20
Brent, North	58.18
Ilford, South	54.85
Ealing, Southall	52.69
Camberwell and Peckham	50.24
Bethnal Green and Bow	49.83

Source:
2001 Census Report for Parliamentary Constituencies.

People could identify themselves as English in the 2001 Census by writing in such a response under one of the "other" categories on the ethnic group question. The number of people who identified themselves as English in this way in England was 1,064,922.

People were asked to identify their accommodation type in the 2001 Census. The Census did not identify 'mobile homes' separately but the number of people who identified themselves as living in a 'caravan or other mobile or temporary structure' in England was 142,857. This count has been taken from Table T07 on the CD supplement to the Census 2001 National Report for England and Wales, which is available in the House of Commons Library.

People were asked to identify the means of travel that they used for the longest part, by distance, of their usual journey to work. The particular means identified were:

1. work mainly from home
2. use the underground, metro, light rail or tram
3. use trains
4. use a bus, minibus or coach
5. ride a motorcycle, scooter or moped
6. drive a car or van
7. are a passenger in a car or van
8. use a taxi or minicab
9. cycle
10. walk.

The number of people using a means of transport other than these 10 categories in England was 104,205. This count has been taken from Table S121 on the CD supplement to the Census 2001 National Report for England and Wales part 2, which is available in the House of Commons Library.

I have placed in the House of Commons Library three specially commissioned tables (CO168, CO169 and CO170), respectively showing:

the number of people recording themselves as living in a 'caravan' or other mobile or temporary structure for each Parliamentary Constituency in England and Wales;

the number of people who use a means of transport other than those listed above for the longest part of their journey to work, for each Parliamentary Constituency in England and Wales;

the number of people who identified themselves as 'English' by writing in this response for each Parliamentary Constituency in England and Wales.

Further customised output may be commissioned from ONS, where requirements are not met by the standard results, via the National Statistics website at: http://www.statistics.gov.uk/census2001/op15.asp

Child Care

Mrs. Brooke: To ask the Chancellor of the Exchequer what targets have been set for each local authority in England for the number of child care places which will be supported by the child care element in working tax credit for this current financial year. [166521]

Dawn Primarolo: The Government's aim is to ensure that every parent has access to good quality, affordable child care and to ensure that they are also aware of the availability of financial support for child care costs. The child care element of the working tax credit is available to low and moderate income working parents using eligible child care.

Data on the number of families benefiting from the child care element are not currently available at the local authority level due to sample size constraints. Across the UK, over 300,000 working families with children are now benefiting from help with child care costs, 67 per cent. more than benefited under the working families' and disabled person's tax credits in November 2002.

Mrs. Brooke: To ask the Chancellor of the Exchequer what targets have been set centrally for the number of child care places that will be supported by the child care element of working tax credit in England and Wales for this current financial year. [166522]

Dawn Primarolo: The Government have no targets for the number of beneficiaries of the child care element of the working tax credit. This help is available to low and moderate income working parents using eligible child care. Under the new tax credits, this help is benefiting over 300,000 families, 67 per cent. higher than the number who benefited under the working families' and disabled person's tax credits in November 2002.

The Government have set targets to increase the supply of child care. The 2004 Spending Review settlement announced for the Department for Education and Skills as part of Budget 2004 will allow further expansion of child care in England. The Government's aim is to ensure that every parent has access to good quality, affordable child care; and to ensure that they are also aware of the availability of financial support for child care costs.

Civil Servants

Bob Spink: To ask the Chancellor of the Exchequer if he will list for each civil service grade within his *(a)* Department and *(b)* Department's executive agencies, the total number of staff employed, broken down by (i) gender, (ii) ethnic group and (iii) age group; and how many are registered disabled. [166388]

Ruth Kelly: Data on staffing levels in the Chancellor's Departments and their agencies are collected by the Cabinet Office and published in "Civil Service Statistics". A copy of "Civil Service Statistics, 2002" is available in the Library, and at www.civil-service.gov.uk/statistics. The 2003 edition will be published in summer 2004.

Efficiency Gains

Mr. Letwin: To ask the Chancellor of the Exchequer what progress has been made in implementing efficiency gains since his Budget statement. [165019]

Mr. Boateng: I refer the right hon. Gentleman to my answer to him of 1 April 2004, *Official Report*, column 1677W.

Gershon Review

Mr. Rosindell: To ask the Chancellor of the Exchequer what discussions he has had with Sir Peter Gershon regarding the progress of his efficiency review. [165989]

Mr. Boateng: The Chancellor and Treasury officials have had regular discussions with Sir Peter Gershon regarding the progress of the efficiency review.

Gift Aid

John Barrett: To ask the Chancellor of the Exchequer (1) if he will estimate the amount of gift aid that has gone unclaimed in each year since 1997; [166668]

(2) how much money was claimed in gift aid in each year since 1997. [166669]

John Healey: No estimate is available of the amount of extra Gift Aid that charities could have claimed since 1997.

Amounts of tax repaid to charities on donations under Gift Aid are shown in the following table. Statistics on Gift Aid are published on the Inland Revenue website at www.inlandrevenue.gov.uk/stats/charities/c_t03_1.htm.

£ million

Year	*Total*	*By individuals*	*By companies*
1996–97	134	68	66
1997–98	177	96	81
1998–99[1]	306	110	196
1999–2000	208	128	80
2000–01[2]	222	222	[4]—
2001–02	415	415	[4]—
2002–03[3]	506	506	[4]—

[1] Figures for company donations reflect a single exceptionally large donation in 1998–99
[2] Following the Budget of 2000 company donations are paid gross and do not involve tax repayments and hence are excluded.
[3] Provisional.
[4] Not available

Identity Cards

Mr. Oaten: To ask the Chancellor of the Exchequer whether the Treasury has undertaken a study to estimate the cost of any future ID card scheme; and if he will make a statement. [166781]

Ruth Kelly: The Treasury has been involved in discussions on the benefits and costs of a national ID cards scheme, co-ordinated by the Home Secretary. The introduction of such a scheme is a long-term undertaking, and the Treasury will continue to be involved with ongoing analysis.

Mutual Organisations

Mr. Sheerman: To ask the Chancellor of the Exchequer what assessment he has conducted of the value derived by members of mutual organisations from the process of demutualisation. [166732]

Ruth Kelly: Mutuality is fundamentally about members' rights to say how their organisation is governed. These rights include the right to vote to demutualise the society. It is for members to consider whether demutualisation is in their interests, taking into account the seriousness and irrevocability of the decision.

CULTURE, MEDIA AND SPORT

Buckmore Park Scout Centre

Jonathan Shaw: To ask the Secretary of State for Culture, Media and Sport what assistance is being provided by Sport England to secure the re-opening of Buckmore Park Scout Centre in the constituency of Chatham and Aylesford. [166423]

Mr. Caborn: Since the closure of Buckmore Park Scout Centre, Sport England have been actively pursuing options for reopening the centre with interested parties in the area.

Communications Act

Chris Bryant: To ask the Secretary of State for Culture, Media and Sport (1) what sums have been agreed between the BBC and Ofcom in respect of the carrying out by Ofcom of its functions in relation to the BBC, under section 198 (4) of the Communications Act 2003 for the financial year 2004–05; [166825]

(2) what sums have been agreed between Ofcom and *(a)* the BBC and *(b)* the S4C Authority in respect of the carrying out by Ofcom of its functions in relation to the Authority under section 207(6) of the Communications Act 2003 for the financial year 2004–05. [166826]

Estelle Morris: The matter raised is the responsibility of the Office of Communications (Ofcom) as independent regulator. Accordingly, my officials have asked the Chief Executive of Ofcom to respond directly to my hon. Friend. Copies of the Chief Executive's letter will be placed in the Libraries of both Houses.

Local Authority Sports/Cultural Facilities

Mr. McWalter: To ask the Secretary of State for Culture, Media and Sport what powers she has to prevent local authorities from closing down *(a)* cultural and *(b)* sports facilities. [166406]

Mr. Caborn: The Secretary of State for Culture, Media and Sport does not have any powers to prevent local authorities from closing down cultural and sports facilities.

However, the Public Libraries and Museums Act 1964 imposes a duty on local authorities that are library authorities to provide a "comprehensive and efficient" public library service, and the national library standards, published by the Secretary of State, help to inform this duty. The Secretary of State has various powers under this Act if a local authority defaults in its duties.

The Government have also taken action to prevent the loss of playing fields by introducing the Town and Country Planning (Playing Fields) (England) Direction 1998. This provides the Deputy Prime Minister with powers to ensure that communities retain an adequate supply of playing fields to meet both their current and longer term needs. In addition, where development (as defined by the Planning Acts) is proposed on school playing fields covered by section 77 of the School Standards and Framework Act 1998, both planning permission from the local planning authority and consent from the Secretary of State for Education and Skills will be required.

New Opportunities Fund

Mr. Kilfoyle: To ask the Secretary of State for Culture, Media and Sport how much money from the New Opportunities Fund has been allocated to Liverpool, Walton in each year since 1997. [166975]

Estelle Morris: The New Opportunities Fund began making grants in 1999. The awards to Liverpool, Walton are shown in the table.

Financial Year	*Amount (£)*
1998–99	—
1999–2000	13,751
2000–01	38,432
2001–02	774,705
2002–03	1,137,366
2003–04	274,644
Total	2,238,898

The information is derived from the Department's Lottery award database, which uses information provided by the Lottery distributors.

Mr. Kaufman: To ask the Secretary of State for Culture, Media and Sport how much money from the New Opportunities Fund was allocated to Manchester, Gorton in each year since 1997. [167344]

Tessa Jowell: The New Opportunities Fund began making grants in 1999. The awards to Manchester, Gorton are shown in the table.

Financial Year	*Amount (£)*
1998–99	—
1999–2000	—
2000–01	238,285
2001–02	5,000
2002–03	78,810
2003–04	192,057
Total	514,152

The information is derived from the Department's Lottery award database, which uses information provided by the Lottery distributors.

EDUCATION AND SKILLS

Accountancy Services

Mr. Cousins: To ask the Secretary of State for Education and Skills what the *(a)* nature and *(b)* value was of all contracts, consultancies or other services placed with the accountancy firms (i) Deloitte & Touche, (ii) Ernst & Young, (iii) KPMG and (iv) PricewaterhouseCoopers since 2000–01 by the Department and its agencies. [166098]

Mr. Stephen Twigg: My Department does not hold a central record of the nature of individual agreements (be they contracts, consultancies or other services) nor of their value. However, our financial records show the following total payments made by the Department to *(a)* Deloitte and Touche, *(b)* Ernst and Young, *(c)* KPMG and *(d)* PricewaterhouseCoopers in financial years 2001–02, 2002–03 and 2003–04 to date (i.e. excluding any subsequent prior year adjustments).

£

Organisation	*2001–02*	*2002–03*	*2003–04 To date*
Deloitte and Touche	275,594	201,670	249,007
Ernst and Young	0	38,449	0
KPMG	396,353	1,014,559	1,870,513
PricewaterhouseCoopers	5,349,686	3,847,542	3,803,767

Information about spend by the Department's Non Departmental Public Bodies could only be obtained at disproportionate cost.

Adult Education (Birkenhead)

Mr. Frank Field: To ask the Secretary of State for Education and Skills what public funding has been spent on adult *(a)* literacy and *(b)* numeracy in Birkenhead in each of the last five years. [166297]

Mr. Ivan Lewis: The estimated total spend on Skills For Life (the Government's strategy for literacy, language and numeracy needs of all post-16 learners from pre-entry level up to and including level 2) and on Key Skills (essential skills of communication, application of number and information technology), from April 2001 to July 2003, in the Greater Merseyside Learning and Skills Council (LSC) area is set out in the table below:

(£000)

April 2001 to July 2001[1]		*August 2001 to July 2002*		*August 2002 to July 2003*	
Basic skills	*Key skills*	*Basic skills*	*Key skills*	*Basic skills*	*Key skills*
3,803	1,094	6,575	1,564	10,677	1,755

[1] The figures for April to July 2001 include costs incurred from August 2000 on learning aims continuing into April 2001.

From the information available to the LSC it has not been feasible to obtain estimates at constituency level or separate figures by subject without incurring disproportionate cost. Likewise it has not been feasible to obtain comparable figures for periods before April 2001 when the Skills for Life strategy was launched and the LSC was formed, but information shows it was considerably less than at present.

Advanced Vocational Certificate

Mr. Simmonds: To ask the Secretary of State for Education and Skills if he will make a statement on the future of the advanced vocational certificate of education. [165862]

Mr. Miliband: The specifications for the Advanced Vocational Certificate of Education are currently being revised in order that, from September 2005, they will follow the same AS/A2 format as the GCE. Their longer-term future is being considered by the Working Group on 14–19 Reform, whose final report is due in the autumn.

Apprenticeships (Birkenhead)

Mr. Frank Field: To ask the Secretary of State for Education and Skills how many residents of Birkenhead have undertaken apprenticeships in each of the last five years. [166335]

Mr. Ivan Lewis: The information requested is not available at parliamentary constituency level. Nor is the information available for a consistent geographical area over the last five years. However, the following table shows the number of starts on apprenticeships (formerly known as Advanced Modern Apprenticeships) and apprenticeships at level two (formerly known as Foundation Modern Apprenticeships) in Greater Merseyside Learning and Skills Council (LSC) area between April 2001 and the end of July 2003, as well as the number of starts from April 98 to March 2001 in the four TECs that amalgamated to become Greater Merseyside LSC.

Time period	*TEC/LSC*	*Apprenticeships*	*Apprenticeships at level 2*
April 1998 to March 1999	CEWTEC [1]	1,400	300
	Merseyside	2,400	1,200
	St. Helens CCTE	300	100
	North and Mid Cheshire [1]	1,200	200
April 1999 to March 2000	CEWTEC [1]	1,000	900
	Merseyside	2,600	3,500
	St. Helens CCTE	300	400
	North and Mid Cheshire[1]	900	500
April 2000 to March 2001	CEWTEC[1]	1,100	1,300
	Merseyside	2,500	4,100
	St. Helens CCTE	300	500
	North and Mid Cheshire[1]	1000	900
April 2001 to July 2002	Greater Merseyside LSC	2,600	7,100
March 2001 to July 2002	Greater Merseyside LSC	2,000	6,000

Notes:
[1] TEC also became part of Cheshire and Warrington LSC
Source:
TEC management information.
LSC Individualised Learner Record.

Computer Provision (Birkenhead)

Mr. Frank Field: To ask the Secretary of State for Education and Skills how many people in Birkenhead have received a computer to assist in seeking employment or retraining. [166332]

Mr. Ivan Lewis: At present no centrally funded DfES schemes exist which enable people to acquire free or low price recycled computers.

School Budgets (Devon)

Mr. Swire: To ask the Secretary of State for Education and Skills how many school budgets in Devon Local Education Authority were in deficit in each of the last seven years. [164787]

Mr. Miliband: The information requested is not available for the last seven years. However, the number of schools in budget deficit for the last four years is shown in the following table:

Numbers of Devon schools with a deficit budget in each of the last four years

	Number of schools
1999–2000	71
2000–2001	48
2001–2002	33
2002–2003	27

Notes:
1. The data are as reported by Devon LEA as at 30 March 2004 and taken from their section 52 outturn statements submitted to the DfES.
2. 2002–03 data are subject to changes by the LEA which may alter the results for that period.
3. For 1999–00 to 2001–02 the data are taken from the Balance Carried Forward column. In 2002–03 data come from Other Revenue Balance.
4. Section 52 data are available from 1999–00. Prior to then the ODPM's R01 statement provides information but not at school level.

School Budgets (North Tyneside)

Mr. Alan Campbell: To ask the Secretary of State for Education and Skills how many school budgets in North Tyneside local education authority were in deficit in each of the last 10 years. [164363]

Mr. Miliband: The information requested is not available for the last 10 years. However, the number of schools in budget deficit in North Tyneside LEA for the last four years is shown in the following table:

Numbers of North Tyneside schools with a deficit budget in each of the last four years

	Number of schools
1999–2000	21
2000–01	20
2001–02	18
2002–03	32

Notes:
1. The data are as reported by North Tyneside LEA as at 29 March 2004 and taken from their 2002–03 section 52 outturn statement submitted to the DfES.
2. The 2002–03 data is subject to changes by the LEA which may alter the results for that period.
3. For 1999–00 to 2001–02 the data are taken from the Balance Carried Forward column. In 2002–03 data comes from Other Revenue Balance column.
4. Section 52 data is available from 1999–00. Prior to then the ODPM's R01 statement provides information but not at school level.

School Transport (North Tyneside)

Mr. Alan Campbell: To ask the Secretary of State for Education and Skills what the cost of home to school transport in North Tyneside local education authority was in each of the last five years. [164364]

Mr. Miliband: The information requested is contained within the following table:

Cost of home to school transport in each of the last five years

	(£000)
1997–1998	950
1998–1999	985
1999–2000	1045
2000–2001	1125
2001–2002	1246

Notes:

1. The financial data are taken from North Tyneside LEA's Section 52 Outturn Statement submitted to the DfES from 1999–2000 onwards and the ODPM's R01 statement prior to then.
2. Figures are in £000s.
3. Total transport expenditure and parental contributions includes that incurred in relation to pre-primary, primary, secondary and special school education as well as in education out of school, continuing education and the management and support elements.

Europass Scheme

Ms Stuart: To ask the Secretary of State for Education and Skills pursuant to the answer of 30 March 2004, *Official Report*, column 1395W, on the Europass Scheme, what steps will be taken to participate in the Europass initiative; and what the timescale is for each stage of the process. [165845]

Alan Johnson: The UK is already participating fully in the current implementation of Europass Training, set up under Council Decision 1999/51/EC of 21 December 1998 on the promotion of European pathways in work-linked training, including apprenticeship.

If the current proposals for the new Europass Programme are adopted by co-decision of the European Parliament and Council of Ministers this year, it is expected that the initiative will begin on 1 January 2005. We will appoint a National Europass Centre to coordinate Europass activities within the UK. We expect the National Centre to be in place for the start of the Programme.

Free Pre-school Places

Mr. Hoyle: To ask the Secretary of State for Education and Skills how many *(a)* free nursery and *(b)* pre-school places were available for (i) three and (ii) four year olds in Chorley in each of the last seven years. [161596]

Margaret Hodge: The information is not available in the form requested.

Figures on the number of free nursery education places taken up by three and four year olds in Lancashire local education authority area are shown in the table.

Number of free nursery education places[1, 2] taken up by three and four year old children in maintained nursery and primary schools and private, voluntary and independent providers Lancashire Local Education Authority area 1997–2003

	Position in January each year	
Year	*3 year olds*	*4 year olds*
1997	4,400	12,400
1998	4,400	13,500
1999	4,400	16,000
2000	4,300	15,900
2001	9,400	15,700
2002	9,400	13,000
2003	10,100	12,600

[1] Part-time equivalent number of free nursery education places taken up by three and four year old children.

[2] A free nursery education place comprises five two and a half hour sessions of early years education per week, for thirty-three weeks of the year, usually three terms of eleven weeks.

The latest figures on provision for three and four year olds in England were published in a Statistical Bulletin 'Provision for children under five years of age in England—January 2003' which is available on the Department's website www.dfes.gov.uk/rsgateway/.

Since 1 April 2004, six months ahead of our original target, all three year olds in England whose parents want one, will have access to a free, part-time early education place.

ICT Training (Birkenhead)

Mr. Frank Field: To ask the Secretary of State for Education and Skills how many women in Birkenhead have visited an information and communications technology training centre in order to learn skills to return to work. [166331]

Mr. Ivan Lewis: Birkenhead is served by both UK online centres and learndirect provisions.

An estimated 226 women use UK online centres in Birkenhead each quarter. This information is calculated from UK online quarterly management information (quarter ending Dec 03) which shows that, on average, each UK online centre has 101 users and that 56 per cent. of UK online users are female.

To date, 493 women living in Birkenhead (postal districts CH41 and 42) have visited a learndirect centre.

Modern Apprenticeships Task Force

Phil Sawford: To ask the Secretary of State for Education and Skills when he expects to receive a report from the Modern Apprenticeships Task Force. [166202]

Mr. Ivan Lewis: The Secretary of State and I are kept regularly informed of progress in the work of the Task Force. However, Sir Roy Gardner the chair of the Task Force intends to submit the group's Interim Report in Autumn 2004. The report will be sent, in the first instance, to the Task Force joint sponsors: the Chancellor of the Exchequer, the Secretary of State for Education and Skills and the Chair of the Learning and Skills Council,

and published shortly afterwards. In the meantime information on the work of the group is available on the Task Force's website www.employersforapprentices.gov.uk.

Teachers (North Somerset)

Brian Cotter: To ask the Secretary of State for Education and Skills what the pupil to teacher ratio was for the North Somerset Local Education Authority for *(a)* primary and *(b)* secondary schools in each year since 1997. [165604]

Mr. Miliband: The data requested are shown in the following table.

Maintained Primary and Secondary Schools[1]: Pupil: Teacher Ratios[2]—North Somerset Local Education Authority

Position at January each year: 1997 to 2003	*Pupil: Teacher ratios[2]*	
	Primary schools	*Secondary schools*
1997	23.8	16.0
1908	24.2	17.1
1999	24.4	17.0
2000	24.2	17.3
2001	24.0	17.6
2002	23.7	17.2
2003	23.9	17.2

Notes:

[1] Includes middle schools as deemed.

[2] The pupil:teacher ratio within schools is the ratio of all pupils on the schools registers (counting each part-time pupil as 0.5) to all qualified teachers (including the full-time equivalent of part-time teachers).

Source:

Annual Schools' Census.

Recruitment

Matthew Taylor: To ask the Secretary of State for Education and Skills what the cost of recruitment of civil servants for the Department was in each financial year since 1996–97, broken down by *(a)* delegated or contracted out recruitment procedures and *(b)* recruitment procedures carried out by the Department. [158189]

Mr. Charles Clarke: The Department was established in June 2001. Information is available for the first full financial year of 2002/03. The figures below include Senior Civil Service recruitment.

(£000)

Year	*Cost of delegated or contracted out recruitment*	*Cost of recruitment procedures carried out by the Department*
2002/03	916,602.71	76,046.52

Targeted Capital Funds

Mr. Brady: To ask the Secretary of State for Education and Skills how much in targeted capital funds for schools was allocated to each English region in the last year for which figures are available. [165870]

Mr. Miliband: The following table shows the value of new projects to be supported from the Targeted Capital Fund in 2004–05 for each Government Office Region.

Government Office Region	*Targeted Capital Funding for 2004–05*
East Office Region	24,772,307
East of England	28,046,121
London	50,260,995
North East	5,888,356
North West	30,824,502
South East	26,452,007
South West	43,143,376
West Midlands	21,994,219
Yorkshire and The Humber	28,223,284

Mr. Brady: To ask the Secretary of State for Education and Skills how much in targeted capital funds was given to *(a)* faith schools, *(b)* non-faith schools, *(c)* faith schools with a comprehensive intake, *(d)* non-faith schools with a comprehensive intake, *(e)* Church of England schools, *(f)* Roman Catholic schools, *(g)* grammar schools and *(h)* Roman Catholic grammar schools in the last year for which figures are available. [165871]

Alan Johnson: We do not hold information in the form requested. Targeted Capital Fund(TCF) projects sometimes cover more than one school and we do not ask bids to break down costs for each school. Both local education authority (LEA) and Voluntary Aided (VA) bids can contain a mixture of schools with or without a religious character and with different admission policies. It is therefore not possible to break down allocations between the various categories requested.

For the 2004–05 round of TCF we have supported 68 LEA projects totalling £186 million at 61 LEAs, and £74 million of support for 23 VA projects at 21 LEAs.

Teachers (Greater London)

Simon Hughes: To ask the Secretary of State for Education and Skills how many *(a)* teachers and *(b)* teaching assistants there were in each local education authority in Greater London in each of the last seven years. [165839]

Mr. Miliband *[holding answer 19 April 2004]:* The following table gives the numbers of full time equivalent regular teachers and teaching assistants employed in maintained schools in the Greater London area broken down by local education authority for each year between 1997 and 2003.

	1997	*1998*	*1999*	*2000*	*2001*	*2002*	*2003*
City of London							
Teachers	20	20	20	20	20	20	20
Teaching assistants	—	—	—	—	—	—	10
Camden							
Teachers	1,500	1,480	1,440	1,340	1,430	1,570	1,450
Teaching assistants	200	240	250	300	360	440	470

	1997	1998	1999	2000	2001	2002	2003
Greenwich							
Teachers	2,070	2,010	2,030	2,040	2,030	2,080	2,140
Teaching assistants	360	400	430	510	650	650	730

Vocational A-levels

Mr. Simmonds: To ask the Secretary of State for Education and Skills if he will make a statement on Ofsted's Report on Vocational A Levels: the first two years. [165861]

Mr. Miliband: My Department and the Qualifications and Curriculum Authority are considering the OFSTED report on vocational A levels. Vocational A levels are already being redeveloped so that from 2005 they will have the same AS/A2 structure as the GCE. We shall continue to make improvements to ensure that vocational A levels provide the best possible learning experience for students.

DEFENCE

Army Medal Office

Mr. Luff: To ask the Secretary of State for Defence if he will make a statement on the future of the Army Medal Office in Droitwich Spa. [165592]

Mr. Caplin: I refer the hon. Member to the written statement I made to the House on 20 April 2004, *Official Report*, column 11WS.

Army Recruitment

Bob Russell: To ask the Secretary of State for Defence if he will place in the Library a list of the traditional

geographic areas of recruitment to the different Army regiments; and what the estimated population of each such recruitment area is. [166027]

Mr. Caplin: Yes. I will place in the Library the list requested and expect to do so by the end of this month.

Climate Change

Sue Doughty: To ask the Secretary of State for Defence whether the potential links between climate change and national security are considered when defence procurement decisions are taken; and if he will make a statement. [165287]

Mr. Ingram: The Ministry of Defence is in the process of reviewing the implications of climate change for defence procurement policies and several case studies of major procurement projects are being considered.

Falkland Islands

Mr. Soames: To ask the Secretary of State for Defence which Royal Navy vessels were present in the waters surrounding the Falkland Islands when the Almirante Irizar sailed through *(a)* the Falklands outer conservation zone and *(b)* Falklands interim conservation zone. [165597]

Mr. Ingram: HMS Glasgow, RFA Gold Rover and FIMS Leeds Castle were present in the water surrounding the Falkland Islands when the Almirante Irizar sailed through the Falkland Islands Outer Conservation Zone and the Falkland Islands Interim Conservation Zone.

Home Front Recall Scheme

Mr. Gerald Howarth: To ask the Secretary of State for Defence how much of the money earmarked for the Home Front Recall Scheme he intends to retain for major national projects and services; and if he will list the national projects and services which will benefit from the retained funds. [166697]

Estelle Morris: I have been asked to reply.

Home Front Recall is part of a special lottery programme called Veterans Reunited. It is funded by three National Lottery Distributors—the New Opportunities Fund, the Community Fund, and the Heritage Lottery Fund—and it will be a matter for them to decide how best to use the funding and make decisions on which projects to approve.

There will be funding for both local and national projects within the Home Front Recall scheme, but there is no fixed allocation for each type of project. The scheme was launched in April 2004 and so, at this point, no decisions have been made on either local or national grant applications. The total budget available across the UK is £7.3 million.

Iraq

Adam Price: To ask the Secretary of State for Defence what steps have been taken to *(a)* post warnings on and *(b)* seal tanks and armoured personnel carriers destroyed by depleted uranium weapons in southern Iraq. [153874]

Mr. Ingram: I refer the hon. Member to the answer I gave on 12 January 2004, *Official Report*, column 537W to my hon. Friend the Member for Blaenau Gwent (Llew Smith).

Jeremy Corbyn: To ask the Secretary of State for Defence what his latest estimate is of the total cost to his Department of military operations in Iraq since September 2002. [166416]

Mr. Ingram: Information on the cost of operations in Iraq in 2002–03 was published as part of the Ministry of Defence's Annual Report and Accounts (page 135). Total operating and capital expenditure during this period amounted to £847 million. It is too early to give a definitive figure for costs in 2003–04, but total funding voted at Spring Supplementary Estimates for operations in Iraq amounted to £1.5 billion.

Riot Control Equipment

Mr. Soames: To ask the Secretary of State for Defence whether British forces in *(a)* Iraq and *(b)* Kosovo are fully equipped with essential riot control equipment. [164958]

Mr. Ingram: British forces in both Iraq and Kosovo are fully equipped to undertake those Crowd and Riot Control (CRC) duties assigned to them.

US/UK Mutual Defence Agreement

Alan Simpson: To ask the Secretary of State for Defence whether a record is kept of how many days have been expended by AWE staff under the 1958 Mutual Defence Agreement. [166586]

Mr. Ingram: No.

CONSTITUTIONAL AFFAIRS

Debt Recovery

Malcolm Bruce: To ask the Parliamentary Secretary, Department for Constitutional Affairs how many *(a)* attachment of earnings, *(b)* charging orders, *(c)* third party debt orders, *(d)* judgment summons and *(e)* warrants of execution were issued in each year since 1997; what the total debt was that each enforcement method was to recover; and what the success rates in terms of debt recovery were for each enforcement method. [166803]

Mr. Leslie: Figures relating to the first part of the question are provided in the following table. Information relating to the amount and success rates of the enforcement methods is not available centrally and can be provided only at disproportionate cost.

	Attachment of earnings orders	*Charging orders*	*Third party debt orders*	*Judgement summons issued*	*Warrants of execution issued*
1997	65,669	11,602	4,048	5,234	622,408
1998	43,440	10,852	3,646	5,688	543,848
1999	34,399	9,820	3,357	5,709	538,337
2000	35,545	10,636	3,174	5,687	470,270
2001	42,011	15,900	4,139	3,640	394,611
2002	39,855	21,447	5,499	139	372,505
2003	40,384	25,054	6,019	116	355,476

Malcolm Bruce: To ask the Parliamentary Secretary, Department for Constitutional Affairs (1) in how many county court judgments liability orders have been made for the payment of council tax by an enforcement agent where no levy is made in each year since 1997; [166808]

(2) in how many county court judgments liability orders for levying distress have been made for the payment of council tax where the sum is £100 or less in each year since 1997; [166809]

(3) in how many county court judgments walking possession orders have been made for the payment of council tax in each year since 1997. [166810]

Mr. Leslie: Non-payment of council tax is dealt with in each local authority area by the magistrates courts and not the county courts. The information requested and level of detail is not held centrally, and could be obtained only at disproportionate cost.

HOME DEPARTMENT

Abandoned Vehicles

Chris Ruane: To ask the Secretary of State for the Home Department what assessment he has made of Operation Scrap It in *(a)* London and *(b)* Liverpool. [166686]

Ms Blears: Operation Scrap It aims to ensure that all vehicles confirmed as untaxed or abandoned will be removed within 72 hours of reporting by October this year. The authorities concerned are putting systems in place to deliver this and I am confident that the target will be met.

To remove any excuse for dumping cars, I launched a free take back service across London on 8 March.

"Reducing Crime—Changing Lives"

Mr. Gerrard: To ask the Secretary of State for the Home Department whether a 12 week consultation period took place before the publication of the document Reducing Crime—Changing Lives, in line with the Cabinet Office code of practice on written consultations. [160897]

Paul Goggins: The Government published its proposals for the reform of correctional services in its paper Reducing Crime—Changes Lives. In that paper the Home Secretary set out the initial views of the Government to Patrick Carter's Report and sought the views of stakeholders on a number of issues.

The reform of correctional services and the creation of the National Offender Management Service is a significant undertaking. There is no suggestion that the entire reform will be carried out after a single consultation exercise of 12 weeks or otherwise. The questions for stakeholders posed in Reducing Crimes—Changing Lives represents a beginning of the consultation process. I have already undertaken to ensure that consultation is ongoing with staff and stakeholders over the period of up to five years we expect full roll out of the new service will take.

Antisocial Behaviour

Chris Ruane: To ask the Secretary of State for the Home Department what assessment he has made of the effectiveness of the new guidelines on anti-social behaviour issued to magistrates. [166675]

Ms Blears: The Magistrates Association Sentencing Guidelines, effective from 1 January 2004, dealt specifically with the offence of 'Breach of Anti-Social Behaviour Order' for the first time. The Guidance stated that the starting point should be a custodial sentence and offered a number of aggravating features, such as the recent date of the order breached, the continuation of the pattern of behaviour which the order sought to prohibit, and the use of violence and threats of intimidation.

As the guidelines were only introduced on 1 January, it is too early to assess the effectiveness of this work, and at this stage too early for anecdotal comment.

Chris Ruane: To ask the Secretary of State for the Home Department what assessment he has made of the Trailblazer nuisance neighbour projects in *(a)* Birmingham, *(b)* Manchester, *(c)* Sheffield and *(d)* Sunderland. [166680]

Ms Blears: The Government's National Action Plan, 'TOGETHER, Tackling Anti-Social Behaviour' launched last October announced that we will establish 'trailblazers' in Birmingham, Manchester, Sheffield and Sunderland to develop excellence in tackling nuisance families. This will ensure that in these areas nuisance neighbours are not left without an effective intervention and, where necessary, a sanction.

Each of the trailblazer areas have estimated a minimum, number of such households that will be targeted for action by March 2005, and each of them are well placed to meet and probably exceed those estimates. It is, however, early days, in terms of evaluating the success of this work. Surveys measuring the perception of antisocial behaviour by members of the public in those trailblazer areas are currently underway and will provide on-going comparisons with the national picture. Specific learning from the approaches being pursed by the nuisance neighbour trailblazers, and indeed from the national neighbour nuisance neighbour panel, will be disseminated via our TOGETHER Academy, TOGETHER ActionLine and TOGETHER website (training, telephone advice, and practical information for front line agencies on tackling antisocial behaviour.

Chris Ruane: To ask the Secretary of State for the Home Department what action he intends to take against those areas that have not taken up anti-social behaviour orders. [166685]

Ms Blears: Anti-social behaviour orders are not the only tool available to tackle anti-social behaviour. The Anti-Social Behaviour Act provides a wide range of tools to tackle antisocial behaviour. All areas should take swift action to deal with antisocial behaviour and other available interventions should also be considered such as injunctions, Acceptable Behaviour Contracts and other tenancy related interventions.

The TOGETHER campaign will ensure that agencies on the ground are using the measures that are already in place, and those new measures introduced by the Act as effectively as possible. The campaign will help improve the response to tackling antisocial behaviour by placing the focus within the heart of our communities and providing them with the heart of our communities and providing them with the opportunity to work together and the tools to take action to tackle antisocial behaviour. The TOGETHER Academy, ActionLine and website all provide advice and information to encourage and enable local practitioners to take action against antisocial behaviour.

Bank Automated Clearing System

Brian White: To ask the Secretary of State for the Home Department what progress his Department has made to manage the changeover from the Bank Automated Clearing System to the new BACSTEL-IP system for electronic payments. [164313]

Fiona Mactaggart: The Bank Automated Clearing System (BACS) is an automated payments service provided by BACS Ltd. This provides the standard route for electronic funds transmission used across the UK. BACSTEL-IP is the platform for the future of automated payments. It is based on internet protocols and uses the latest Public Key Infrastructure (PKI) technologies for heightened levels of security.

Home Office met with Bottomline Technologies, our supplier, and Sirius, our IT partner, in November 2003 to discuss the implementation of the new BACSTEL-IP system. The meeting concluded that as the last date for switching to BACSTEL-IP is December 2005, the partnership should firstly concentrate on the migration from BASS, the current Home Office accounting system, to the new system, Adelphi, using the existing BACSTEL system. A further meeting will take place between all parties in the autumn of 2004 to discuss the switch to the new BACSTEL-IP system planned for the early part of 2005.

Class A Drugs

Mrs. Curtis-Thomas: To ask the Secretary of State for the Home Department on how many occasions a Merseyside senior police officer has issued a closure notice on premises they had reason to believe were being used for the production, supply or use of Class A drugs and causing serious nuisance or disturbance in the last four months. [165914]

Ms Blears: As of 14 April 2003 the new power to close premises as contained in section 1(11) of the Anti-Social Behaviour Act 2003 had been used once in the Merseyside Police Force area. As this power was enacted on the 20 January this year, more closures can be expected in the near future in line with operational needs.

The closure notice was issued by a senior police officer in the St. Helens and Wigan Basic Command Unit against a premises with a history of being subject to police action on suspicion of the supply of class A drugs and of great concern to the local community. The case is ongoing.

Departmental Officials

Mr. Cousins: To ask the Secretary of State for the Home Department which former officials of the Department have asked for permission to join *(a)* PricewaterhouseCoopers, *(b)* Deloitte & Touche, *(c)* Ernst and Young and *(d)* KPMG. [156910]

Fiona Mactaggart: The figures showing applications submitted to join the following companies, so far as information is available in the form requested, are as follows:

Company	*2001*	*2002*	*2003*	*2004*
PricewaterhouseCoopers	—	—	1	—
Deloitte & Touche	1	—	—	—
Ernst and Young	2	—	—	—
KPMG	—	—	—	—

— = no comprehensive figures available.

Mr. Cousins: To ask the Secretary of State for the Home Department what secondments *(a)* PricewaterhouseCoopers, *(b)* Deloitte & Touche, *(c)* Ernst & Young and *(d)* KPMG have made to his Department since 2001; for what (i) periods and (ii) tasks the secondments were made; whether secondments of staff from his Department have been made to those firms; and for what (A) periods and (B) tasks. [156924]

Fiona Mactaggart: Secondments are part of the Interchange initiative, which promotes the exchange of people and good practice between the Civil Service and other organisations—public, private and voluntary. Interchange provides opportunities for civil servants to learn new skills, widen their experience and develop ideas. It also brings in skills and experiences from other sectors.

Secondments of less than three months duration are not recorded. Since 2001, there have been secondments for periods of over three months to the organisations in question as follows:

PricewaterhouseCoopers: none.

Deloitte & Touche: one inward secondment for the period September 2003-March 2004. The secondee is managing delivery risks on the Identity Cards Programme.

Ernst & Young: There have been two inward secondments:

1. June 2003-June 2004: the secondee is working as senior analyst on criminal injuries compensation policy.

2. September 2003-September 2004: the secondee is working on public perceptions of policing policy.

KPMG: one outward secondment for the period November 2002-April 2004. The member of Home Office staff is working on occupational psychology in the field of recruitment.

Merseyside Police

Mrs. Curtis-Thomas: To ask the Secretary of State for the Home Department on how many occasions Merseyside Police has arrested an individual for carrying an air weapon or imitation firearm in a public place without lawful authority or reasonable excuse since the inception of this power. [165922]

Ms Blears: Information on arrests collected centrally is based on persons arrested for "notifiable" offences by main offence group and police force area only. The information does not identify individual offences.

National Offender Management Service

Mr. Oaten: To ask the Secretary of State for the Home Department when he expects to publish a Gateway Zero Report in respect of the National Offender Management Service in accordance with Office of Government Commerce procedures. [161166]

Paul Goggins: The implementation of the National Offender Management Service is subject to the Gateway reporting process. In keeping with normal practice, it is not intended to publish the gateway Zero Report.

Police

Mr. Greg Knight: To ask the Secretary of State for the Home Department if he will list those police forces in England and Wales who have spent money on radio advertising in each of the past five years for which figures are available; and if he will give the reasons for such expenditure in each case. [165421]

Ms Blears *[holding answer 19 April 2004]:* The Home Office has run central radio recruitment campaigns, but any money spent on advertising by individual forces is allocated by individual forces themselves, so the Home Office would not hold this information.

Mr. Cameron: To ask the Secretary of State for the Home Department for what reason police forces including Thames Valley Police are investing in separate mobile data systems running on public access bearer networks to deliver data services alongside the airwave system. [166524]

Ms Blears: Airwave has the capacity to deliver voice and data services simultaneously. The voice network is now nearly complete and implementation of national mobile data applications such as access on the move to the Police National Computer is underway. A number forces are exploring alternative mobile data options to meet specific local requirements.

Prisons

Mrs. Curtis-Thomas: To ask the Secretary of State for the Home Department what the reasons are for the operating loss arising from Contract Services workshops in prisons. [164409]

Paul Goggins: It is not realistic for Contract Services workshop activities to break even. To cover all costs, including staffing would involve making charges that the market would be unlikely to bear.

Contract Services workshops employ some 4,000 prisoners. The difference between income received and the full cost of running contract services workshops represents the investment made in providing purposeful activity for large numbers of prisoners. Contract Services activities account for some 5,000,000 hours of purposeful activity a year.

Prisons (Alcohol Testing) Act

Mr. Oaten: To ask the Secretary of State for the Home Department how many authorisations have been made under the Prisons (Alcohol Testing) Act 1997; and how many tests have been carried out. [163335]

Paul Goggins: Section 16B of the Prisons Act 1952, (which was inserted by the Prisons (Alcohol Testing) Act 1997) empowers a prison officer, in accordance with prison rules, to request a prisoner to provide a breath sample for the purpose of alcohol testing, in those prisons in which the Governor has authorised such action.

Amendments are to be made to prison rules shortly to provide appropriate disciplinary offences. No authorisations have yet been made under section 16B, and therefore no tests under this power have been carried out.

Public Bodies

Mr. Stephen O'Brien: To ask the Secretary of State for the Home Department what the *(a)* resource budget, *(b)* administration costs and *(c)* staff numbers were for 2003 of the (i) Community Development Foundation, (ii) Advisory Board on Restricted Patients, (iii) Poisons Board, (iv) Technical Advisory Board, (v) Insurance Cover Working Group, (vi) Ministerial Advisory Group on Retail Crime, (vii) Vehicle Crime Reduction Action Team and (viii) Review of the Law Relating to Bribery and Corruption. [164020]

Fiona Mactaggart: The Community Development Foundation (CDF) is an Executive Non-Departmental Public Body (NDPB) and, for the financial year 2003–04, had:

an estimated resource budget of £902,000;

estimated administrative costs of £755,000; and

average staff numbers of 46.7 full-time equivalents.

Advisory NDPBs do not have a resource budget. Their secretariat and administration costs are borne by the Department. Members of the Board are public appointees and are remunerated accordingly.

The Advisory Board for Restricted Patients has not met since 2001;

The Poisons Board has not met for the last 12 years; and

The Technical Advisory Board has no resource budget. The Home Office provides secretariat and administrative support. The Board consists of 13 members including a Chairman. All Board members are public appointees and work on a part-time basis. The Chairman's remuneration is £400 per day plus expenses and other members receive expenses only.

Ad hoc advisory groups and reviews are essentially Home Office working groups. They do not have a resource budget or permanent staff.

The Insurance Cover Working Group (ICWG) is a Home Office working-group, which meets three times a year. During the Financial Year 2003–04, the ICWG incurred an estimated administration cost of £1,206.

The Ministerial Advisory Group on Retail Crime is no longer operating and did not meet during the Financial Year 2003–04.

The Vehicle Crime Reduction Action Team (VCRAT) meets three times a year and, for the Financial Year 2003–04, incurred an estimated administration cost of £5,113.

The Review of the Law Relating to Bribery and Corruption has not met since June 2000.

Register of Interests

Bob Spink: To ask the Secretary of State for the Home Department what the requirements are on officials in his

Department to declare current interests; and what register of interests is kept for his departmental officials. [164708]

Fiona Mactaggart: The Civil Service Management Code sets out the requirement for civil servants declaring any conflict of interest. The Home Office monitor declarations of interest annually, by written request. Replies are then kept in a register. All new senior staff are made aware on appointment of their duty to declare any conflicts of interest.

Sentencing (Magistrates Courts)

Bob Spink: To ask the Secretary of State for the Home Department what guidance he has given to magistrates courts about sentencing in respect of *(a)* antisocial behaviour and *(b)* youth street crime; and if he will make a statement. [165388]

Ms Blears: The Government recognise that breach of an Anti-Social Behaviour Order (ASBO) is a serious offence and should be treated as such by the court. We are aware that there have been some problems relating to inconsistent sentences for breach of ASBOs and this is something we are continuing to work on. In January 2004 the Magistrates Association for the first time produced sentencing guidelines for the offence of a breach of an ASBO which recognise the seriousness of the offence and direct the court to consider the impact of the offence on victims. The guideline is: "Is it so serious that only custody is appropriate?"

The Anti-Social Behaviour Unit will continue to work with the relevant Government Departments and with local practitioners, the Crown Prosecution Service and the courts to improve consistency in the courts' response to antisocial behaviour. Part of this is to ensure that in every case the courts have the right information available on which to base their decisions, including understanding the effect of anti-social behaviour on victims, witnesses and the wider community.

The Magistrates Association has issued sentencing guidelines to the magistrates courts, which cover the range of criminal offences dealt with by those courts. The Sentencing Guidelines Council, which was established by the Criminal Justice Act 2003, will in future set sentencing guidelines for the range of criminal offences, covering all criminal courts.

The Judicial Studies Board has issued training and guidance to magistrates, and at the start of the Street Crime Initiative, the then Lord Chancellor wrote to the Chairmen of all Panels, including the Youth Panels of magistrates' courts, detailing the changes in powers to remand youth defendants. The Lord Chief Justice has handed down a relevant judgment relating to street robbery in R *v.* Lobban & Sawyers and R *v.* Q [2002] 2 Cr App R (S) 274.

Sexual Assault Referral Centres

Vera Baird: To ask the Secretary of State for the Home Department when the results of his Department's review of sexual assault referral centres will be published. [162983]

Paul Goggins *[holding answer 23 March 2004]*: We are now expecting this research to be published in the summer.

TRADE AND INDUSTRY

Iraq

Mr. Chidgey: To ask the Secretary of State for Trade and Industry what plans she has to offer guarantees to British companies working in the reconstruction of Iraq with regard to the safety of their *(a)* employees and *(b)* assets. [166608]

Mr. Timms: We do not offer guarantees to British companies regarding the safety of employees and company assets while working in Iraq. British companies considering sending staff to Iraq are advised to consult the current travel advice, published on the Foreign and Commonwealth Office website, www.fco.gov.uk, which advises against all but the most essential travel to Iraq and that even the most essential travel to Iraq should be delayed, if possible. Companies with planned involvement in reconstruction projects are also advised to contact the Iraq Unit in UK Trade and Investment for further information.

We do not provide general advice and information on a range of issues to British companies wanting to assist in the reconstruction process in Iraq but it is for the companies themselves to assess the risks and take the necessary measures to ensure the safety of their employees and assets.

ACAS

Mr. Kenneth Clarke: To ask the Secretary of State for Trade and Industry what the cost to public funds is of the current national advertising campaign by the Advisory, Conciliation and Arbitration Service (ACAS) to encourage greater use of its services; and what the total expenditure of ACAS on all publicity and advertising will be in financial year 2003–04. [166004]

Mr. Sutcliffe: The cost to public funds of the current advertising campaign by ACAS is £1,258,900. The total expenditure of ACAS on all publicity and advertising for the financial year 2003–04 was £1,981,000.

Bankruptcy

Dr. Cable: To ask the Secretary of State for Trade and Industry what estimate she has made of the proportion of personal bankruptcies that involve owners of businesses. [165216]

Mr. Sutcliffe: The table as follows shows the number of bankruptcies broken down by self-employed and other individuals along with related percentages. This shows that over the period the number of bankruptcies involving owners of businesses has fallen, the increase in total bankruptcies being driven by bankruptcies of other individuals. The proportion of self-employed bankruptcies has fallen from 61 per cent. in 1995 to 36 per cent. in 2002.

Bankruptcies: Self-employed and other individuals from 1995 to 2002

	Self-employed	Other individuals	Total bankruptcies	Per cent. self employed	Per cent. other individuals
1995	13,282	8,651	21,933	61	39
1996	12,667	9,136	21,803	58	42
1997	11,269	8,623	19,892	57	43
1998	10,420	9,227	19,647	53	47
1999	10,723	10,888	21,611	50	50
2000	9,952	11,598	21,550	46	54
2001	9,839	13,638	23,477	42	58
2002	8,854	15,438	24,292	36	64

Mr. Kilfoyle: To ask the Secretary of State for Trade and Industry how many bankruptcies there were in Liverpool, Walton in each year between 1997 and 2003. [166970]

Mr. Sutcliffe: Bankruptcy figures are only available on the basis of the Official Receivers Office dealing with the cases, therefore it is not possible to separate bankruptcies pertaining to Liverpool, Walton. The following table gives annual figures for the number of individual bankruptcies dealt with by the Official Receivers Office in Liverpool, which covers the county courts of Birkenhead, Liverpool, St. Helens, Southport and the Wirral.

Bankruptcies registered at the Official Receivers Office in Liverpool 1997–2003

Official Receivers Office	Liverpool
1997	414
1998	416
1999	525
2000	563
2001	696
2002	747
2003	820

Business Start-ups

Chris Ruane: To ask the Secretary of State for Trade and Industry (1) how many business start-ups there were in each ward in each county of North Wales in 2003, listed in descending order; [164855]

(2) if she will list the 100 wards with the *(a)* greatest and *(b)* lowest number of business start-ups in 2003. [164853]

Nigel Griffiths: Ward level data on business start-ups are not available.

Correspondence

Malcolm Bruce: To ask the Secretary of State for Trade and Industry when she expects to reply to the letter of 19 December 2003 from the hon. Member for Gordon on the operations of BAE Systems in South Africa. [166812]

Ms Hewitt: A reply was sent to the hon. Member on 20 April 2004.

Energy Production

Malcolm Bruce: To ask the Secretary of State for Trade and Industry what assessment she has made of the effects of clause 76(5) of the Energy Bill on the exercise by Scottish Ministers of their functions in relation to exploitation of areas outside the territorial sea for energy production. [165853]

Mr. Timms: The principal objective of Part 3 of the Energy Bill is both to facilitate development of the UK's considerable renewable energy resources—wind, wave and tidal—beyond territorial waters and to enable Government to regulate projects so development takes place in an appropriate manner. Clause 76(5) (now Clause 84(5)) recognises that new installations with associated safety zones and the strategy on decommissioning under the Bill could impact on devolved matters handled by Scottish Ministers such as fishing and environmental protection.

Malcolm Bruce: To ask the Secretary of State for Trade and Industry what functions Scottish Ministers have in relation to the consenting of offshore renewable energy generation plants *(a)* within and *(b)* outside the 12 nautical mile territorial seas around Scotland; and what effect the Energy Bill will have on these functions. [165854]

Mr. Timms: A Transfer of Functions Order made under the Scotland Act (SI 1999/1750) gave Scottish Ministers responsibility for considering applications under section 36 of the Electricity Act 1989 for offshore renewable energy generation plants in Scottish territorial waters. They also have powers to grant consents under the Coast Protection Act 1949 and licences under the Food and Environment Protection Act 1985, which are both required for offshore renewable energy installations.

The Government has agreed that Scottish Ministers should also have responsibility for granting section 36 consents for any installations planned for the Renewable Energy Zone off Scotland. Once the Energy Bill has been enacted, and section 36 powers are extended to the Renewable Energy Zone, the Government and the Scottish Executive intend to bring forward an Order under the Scotland Act 1998 to provide that this function be executively devolved to Scottish Ministers.

Clause 101 of the Energy Bill will give a power to Scottish Ministers to extinguish public rights of navigation where an applicant applies at the same time for a section 36 consent for a generating station which is planned for waters between the low water mark and the limit of the territorial sea around Scotland.

National Minimum Wage

Mr. Kaufman: To ask the Secretary of State for Trade and Industry how many workers in Manchester, Gorton have benefited from the national minimum wage. [167353]

Mr. Sutcliffe: It is not possible to provide estimate specifically for the constituency of Manchester, Gorton. However, based on the Office for National Statistics' Low Pay data released 2003, the DTI estimates that around 140,000 people in the North West stood to benefit from the introduction of the national minimum wage in April 1999. Between 130,000 and 160,000 people were expected to have benefited from the October 2003 uprating of the national minimum wage.

The DTI estimates that between 210,000 and 240,000 people in the North West stand to benefit from the October 2004 uprating of the national minimum wage.

New Businesses

Mr. Frank Field: To ask the Secretary of State for Trade and Industry (1) how many new businesses have started up in Birkenhead since 1997; [166491]

(2) how many new businesses have been established in Birkenhead since 1997. [166493]

Nigel Griffiths: Barclays Bank's latest survey of business creation (published 31 March 2004) includes non-VAT registered firms and shows that there were 115,000 business start-ups in England and Wales, including 500 in Wirral Local Authority (which contains the constituency of Birkenhead), in the fourth quarter of 2003. The latest yearly figures show 465,000 business start-ups in England and Wales in 2003. This represents a 19 per cent. increase on the year before. There were 2,100 business start-ups in Wirral Local Authority in 2003. Data for local authorities are not available for before 2003.

DTI figures based solely on VAT registrations for Wirral Local Authority (which contains the constituency of Birkenhead) are shown in the table for the period 1997 to 2002. Data for 2003 will be available in autumn 2004.

VAT Registration 1997–2002

	Wirral
1997	660
1998	595
1999	600
2000	600
2001	555
2002	510

Source:
Business Start-ups and Closures
VAT Registrations and De-registrations 1994–2002, Small Business Service

VAT registrations do not capture all start-up activity. Businesses are unlikely to be registered if they fall below the compulsory VAT threshold, which has risen in each year since 1997. Similarly, businesses that de-register will not necessarily have closed. Only 1.8 million out of 3.8 million enterprises were registered for VAT at the start of 2002.

Mr. Frank Field: To ask the Secretary of State for Trade and Industry what steps the Government has taken to help small businesses in Birkenhead since 1997. [166492]

Nigel Griffiths: The Business Link Operator for Greater Merseyside (GME) has provided assistance to 194 businesses in the Birkenhead constituency since 2001. The Small Business Service was set up as an agency of the Department of Trade and Industry in April 2000. Contracts were exchanged with a national network of 45 business Link operators (seven in the north west) to provide Business Support to small and medium sized enterprises from April 2001. Before this date Government support to businesses was provided through Training and Enterprise Councils and the SBS does not have access to these data.

The Business Link Operator has provided Business Start Advice to the 194 businesses, and in addition have provided assistance regarding Investors in People, Specialist Business Advice, Workforce development and the Consultancy projects to those companies needing help in these areas.

Eleven companies have received offers of grant from the Research and Development Grant scheme with a total value of £696,160 since 1997.

Under the Enterprise Grant Scheme which has now just come to a close (31 March 2004) 13 companies have received offers of grant with a total value of £334,170.

Mr. Ben Chapman: To ask the Secretary of State for Trade and Industry how many new businesses have started up in Wirral, South since 1997. [166628]

Nigel Griffiths: Barclays Bank's latest survey of business creation (published 31 March 2004) includes non-VAT registered firms and shows that there were 115,000 business start-ups in England and Wales, including 500 in Wirral Local Authority (which contains the constituency of Wirral, South), in the fourth quarter of 2003. The latest yearly figures show 465,000 business start-ups in England and Wales in 2003. This represents a 19 per cent. increase on the year before. There were 2,100 business start-ups in Wirral Local Authority in 2003. Data for local authorities are not available for before 2003.

DTI figures based solely on VAT registrations for Wirral Local Authority (which contains the constituency of Wirral, South) are shown in the table for the period 1997 to 2002. Data for 2003 will be available in autumn 2004.

VAT Registrations 1997–2002	*Wirral*
1997	660
1998	595
1999	600
2000	600
2001	555
2002	510

Similarly, businesses that de-register will not necessarily have closed. Only 1.8 million out of 3.8 million enterprises were registered for VAT at the start of 2002.

Mr. Ben Chapman: To ask the Secretary of State for Trade and Industry what steps the Government has taken to help small businesses in Wirral, South since 1997. [166629]

Nigel Griffiths: The Business Link Operator for Greater Merseyside (GME) has provided assistance to 109 businesses in the Wirral, South constituency since 2001. The Small Business Service was set up as an agency of the Department of Trade and Industry in April 2000. Contracts were exchanged with a national network of 45 Business Link Operators (seven in the north west) to provide Business Support to small and

medium sized enterprises form April 2001. Before this date Government Support to businesses was provided through Training and Enterprise Councils and the SBS does not have access to these data.

The Business Link Operator has provided Business Start Advice to the 109 businesses, and in addition have provided Specialist business advice, workforce development and consultancy projects to those companies needing help in these areas.

Fourteen companies have received offers of grant from the Research and Development Grant Scheme with a total value of £465,700 since 1997.

Under the Enterprise Grant Scheme which has just come to a close (31 March 2004) 11 companies have received offers of grant with a total value of £696,160.

Paid Leave

Mr. Kilfoyle: To ask the Secretary of State for Trade and Industry how many residents of Liverpool, Walton are qualified for paid leave entitlement. [166972]

Mr. Sutcliffe: All workers resident in Liverpool, Walton qualify for paid leave entitlements at least four weeks as set out in the Working Time Regulations.

Post Office

Mr. Patrick Hall: To ask the Secretary of State for Trade and Industry how soon the outcome of and lessons learned from the process of the Post Office Urban Reinvention programme will be evaluated and published following the conclusion of that programme. [166820]

Mr. Timms: The urban reinvention programme is managed by Post Office Ltd. and decisions on any evaluation will be a matter for the company. The Government do, of course, monitor its expenditure on this programme and will require the company to confirm on completion that it has met its obligation to ensure that 95 per cent. of the urban population nationally continue to live within one mile of their nearest post office.

Since the programme began, Post Office Ltd. has worked with Postwatch, the consumer watchdog, to improve and refine the processes. This evolutionary nature of the programme has seen a number of significant developments, including my written statement to the House of Commons of 5 February 2004, which details changes to the programme in the light of concerns expressed in Parliament and elsewhere.

In addition, Postcomm, the independent regulator, reports annually to the Secretary of State for Trade and Industry on developments in the post office network. These annual reports are published on Postcomm's's website and copies are placed in the Libraries of the House.

Mr. Patrick Hall: To ask the Secretary of State for Trade and Industry if she will make the independent review of the facilities at the Crown post office in Bedford part of a wider review into the facilities of the post office network as a whole in Bedford and Kempston. [166821]

Mr. Timms: This is an operational matter for Post Office Ltd. and I have asked the Chief Executive to reply direct to my hon. Friend.

Mr. Patrick Hall: To ask the Secretary of State for Trade and Industry whether the process leading to the decisions Post Office Ltd. has made concerning the closure of sub-post offices are covered by the Government Code of Practice on the release of official information. [167272]

Mr. Timms: No. The final decisions on post office closures following public consultation are operational matters for Post Office Ltd.

Mr. Patrick Hall: To ask the Secretary of State for Trade and Industry (1) whether the rationale of the statement made by the Minister for Energy, E Commerce and Postal Services on 5 February concerning the Post Office Urban Reinvention Network was intended to apply as far as possible to the Area Plan proposals for the Bedford and Kempston parliamentary constituency which were subject to public consultation until 17 February; [167270]

(2) whether the statement made by the Minister for Energy, E Commerce and Postal Services on 5 February concerning the Post Office Urban Reinvention Network came into force with immediate effect. [167271]

Mr. Timms: The changes to the public consultation arrangements for closure proposals under Post Office Ltd.'s urban network reinvention programme announced in my statement of 5 February came into force with immediate effect but were not retrospective in their application. The changes therefore applied to the consultation on closure proposals for Bedford and Kempston to the extent compatible with the stage those consultations had reached as at 5 February.

Mrs. Calton: To ask the Secretary of State for Trade and Industry (1) what assessment has been made of the case for Post Office Ltd. developing a role for post offices as government general practitioners and of Government support for this as mentioned in the Performance and Innovation Unit Report of 2000, Chapter 8, page 16, conclusion 18; [166779]

(2) what assessment has been made of the case for Post Office Ltd. developing a role for the Post Office Network as internet and learning and access points as mentioned in the Performance and Innovation Unit Report of 2000, Chapter 8, page 16, conclusion 17. [166827]

Mr. Timms: In line with the Performance and Innovation Unit's recommendations, the Government contributed £25 million to the 'Your Guide' pilot to test the concept of the role for post offices as 'Government General Practitioner' and as internet learning and access points. It was made clear from the outset that the decision on whether or not to roll out a national service would depend on the results of the pilot. The 'Your Guide' pilot showed that a publicly funded national scheme would not represent value for money and we concluded that it should not be rolled out. However, Your Guide highlighted a number of areas in which Government Departments might deliver services through post offices in the future particularly if they could be linked with or channelled through a

commercially-based kiosk network. The evaluation report of the Your Guide pilot was published on 23 July 2002 and a copy placed in the Libraries of the House.

Call Centres

Mr. Prisk: To ask the Secretary of State for Trade and Industry what representations her Department has received as part of her review of the off-shoring of UK call centres. [166857]

Ms Hewitt: My Department has received a number of responses to our paper "Services and Offshoring: the impact of increasing international competition on services" which will be reflected in our Trade and Investment White Paper to be published in the summer. We have also commissioned a study to inform our understanding of the UK call centre sector and the key factors impacting on its competitiveness including offshoring. We expect to publish a report on the study in early May.

UK Trade and Investment

Mr. McNamara: To ask the Secretary of State for Trade and Industry what the *(a)* running costs of, *(b)* cost of staff salaries for and *(c)* number of people employed, broken down by grade, by UK Trade and Investment were in the last financial year for which figures are available. [165483]

Mr. Mike O'Brien *[holding answer 20 April 2004]*: The information is as follows:

(a) Total administration costs for 2002–03, including an apportionment of central overheads attributable to UK Trade & Investment (UKTI) activities by DTI and FCO, were as follows:

DTI: £45,464,000

FCO: £141,235,000

(b) The aggregate payroll costs of the DTI and FCO employees working for UKTI were as follows:

DTI: £21,402,000

FCO: £48,691,000

(c) UKTI is not an employing organisation. Staff working for UKTI remain the employees of either the DTI or the FCO. The average number of whole-time equivalent (WTE) persons working for UKTI during 2002–03, broken down by grade, was as follows:

	Number of whole-time equivalent persons
DTI	[1]620
Of which:	
Range	
2	18.6
3	8.0
4	148.2
5	8.5
6	174.5
7	13.4
8	119.8
9	35.8
10	55.6
11	20.9
SCS	17.0
FCO	1,638
Of which:	
UK-based total	353
Of which:	
SMS	64.7
D7/D6	61.8
C5	65.68

Locally engaged staff	1,285
Of which:	
LE1	348
LE2	154
LE3	712
LE4	61
LE5	10

[1] This figure varies from the figure published in the UK Trade & Investment Resource Accounts for 2002–03 as it does not include temporary/agency staff.

FOREIGN AND COMMONWEALTH AFFAIRS

Afghanistan

Joan Ruddock: To ask the Secretary of State for Foreign and Commonwealth Affairs what new money his Department pledged to Afghanistan at the recent Donor Conference in Berlin. [166723]

Mr. Mike O'Brien: The UK made a total pledge of £500 million over five years (2002–03 to 2006–07) at the international conference on Afghanistan in Berlin on 31 March–1 April 2004. That total includes funding for conflict prevention and counter-narcotics work to which the Foreign and Commonwealth Office (FCO) contributes, together with other Government departments, through the Global Conflict Prevention Pool and UK Counter-Narcotics strategy.

The Global Conflict Prevention Pool (funded jointly by FCO, DFID and MOD) has a three-year strategy totalling £52 million from 2003–04 to 2005–06. £11 million was disbursed in 2003–04, leaving £41 million to be spent in 2004–6.

The FCO component of the three-year UK Counter-Narcotics strategy (2003–04 to 2005–06) totals £47.2 million. £12.7 million of this was disbursed in 2003–04, leaving £34.5 million to be committed in 2004–06.

The British Embassy in Kabul also has an FCO budget of £250,000 for local project work in 2004–05.

British Citizens (Deaths Abroad)

Peter Bottomley: To ask the Secretary of State for Foreign and Commonwealth Affairs how many deaths abroad of Britons *(a)* travelling and *(b)* living overseas, broken down by the numbers dying of (i) natural causes and (ii) the main categories of non-natural causes. [166526]

Mr. Mullin: In financial year 2002–03 3,998 Britons died overseas. The Foreign and Commonwealth Office (FCO) only records the deaths of British nationals where our consular staff have been directly involved. We do not record statistics where our staff have been informed of a death and need take no further action.

The FCO does not maintain statistics recording either the nature of each death or the breakdown between the numbers of deaths of Britons travelling and living overseas.

Convention on Conventional Weapons

Mr. Frank Cook: To ask the Secretary of State for Foreign and Commonwealth Affairs what recent steps his Department has taken to promote the Convention on prohibitions or restrictions on the use of certain conventional weapons which may be deemed to be excessively injurious or to have indiscriminate effects, with particular reference to the ratification of Protocol V. [165848]

Mr. MacShane: A legally binding Protocol V on Explosive Remnants of War was agreed at the meeting of States Panics to the Convention on Certain Conventional Weapons on 27/28 November 2003. The UK, along with EU partners, had long pushed for the adoption of a legally binding protocol and we are delighted that a consensus was reached. We received our certified true copy of the instrument from the United Nations in March 2004 and are currently looking at the necessary measures needed to implement the new Protocol. We hope to ratify in the near future. We would also encourage all states to ratify as soon as they are able and to keep to the spirit of the new Protocol in the interim period.

Nuclear Non-proliferation Treaty

Jeremy Corbyn: To ask the Secretary of State for Foreign and Commonwealth Affairs what meetings he plans to have with representatives of British peace organisations in advance of the next Preparatory Committee Meeting for the 2005 UN Review Conference on the Nuclear Non-Proliferation Treaty. [166349]

Mr. MacShane: Officials have already met with members of a number of peace organisations prior to the forthcoming Non-Proliferation Treaty (NPT) Preparatory Committee which is due to take place in New York on 26 April to 7 May. The Campaign for Nuclear Disarmament (CND), Christian CND, Abolition 20005 Network for Peace, and the World Court Project have all been represented on these occasions. The Government are committed to regular exchanges with representatives of non-governmental organisations as part of our on-going consultations during the NPT review cycle.

Jeremy Corbyn: To ask the Secretary of State for Foreign and Commonwealth Affairs who will represent the UK at the Non-Proliferation Treaty Preparatory Committee in April/May in New York. [166418]

Mr. MacShane: The UK delegation will be headed by David Brouchen the United Kingdom's Permanent Representative to the Conference on Disarmament in Geneva. He will be accompanied by officials from the Foreign and Commonwealth Office, the Ministry of Defence and the Department of Trade and Industry.

Jeremy Corbyn: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will publish in advance statements to be presented by the British delegation at the Non-Proliferation Treaty Preparatory Committee. [166419]

Mr. MacShane: The Government do not intend to publish in advance any statements to be presented by the UK delegation to the Non-proliferation Treaty Preparatory Committee. These are intended to reflect the latest developments including those at the conference itself. However, all statements will be placed in the Library of the House and on the Foreign and Commonwealth Office website following the Preparatory Committee meeting.

Palestine

Jeremy Corbyn: To ask the Secretary of State for Foreign and Commonwealth Affairs what discussions he had with the US Administration before the UK cast its vote in the UN Special Security Council meeting called to discuss the assassination of Sheikh Yassin; and if he will make a statement. [166611]

Mr. Rammell: The UK engaged in negotiations with other United Nations Security Council members—including the US—to try to establish a resolution which would be acceptable to all. The UK made it clear that it would have voted for this resolution if its proposers had accepted an amendment condemning terrorist atrocities by Hamas against Israel. This would have reflected the position of the European Union. We regret that our proposed amendment was not accommodated.

US/UK Mutual Defence Agreement

Alan Simpson: To ask the Secretary of State for Foreign and Commonwealth Affairs if he plans to lay before the House any amendments to the renewal of the 1958 Agreement for Co-operation on the Uses of Atomic Energy for Mutual Defence Purposes between Her Majesty's Government and the United States of America; and if he will make a statement. [166575]

Mr. MacShane: Subject to the outcome of our continuing discussions with the Government of the United States, we expect to lay before the House some amendments to the Mutual Defence Agreement, including provision for its renewal for a further 10 years. We would expect these amendments to be laid before the House later this year in accordance with normal procedures.

Alan Simpson: To ask the Secretary of State for Foreign and Commonwealth Affairs what the scope of the discussions is between the United Kingdom and the United States Governments on the renewal of the 1958 Agreement for Co-operation on the Uses of Atomic Energy for Mutual Defence Purposes; and if he will make a statement. [166576]

Mr. MacShane: Discussions are continuing between the Governments of the United Kingdom and the

United States concerning the 1958 Agreement for Co-operation on the Uses of Atomic Energy for Mutual Defence Purposes. The Agreement requires renewal every 10 years and was last renewed in 1994. The present discussions concern the minor amendments and updating necessary to enable the Agreement to be renewed before it expires in December 2004.

Alan Simpson: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will post a copy of the US-UK Agreement for Cooperation on the Uses of Atomic Energy for Mutual Defence Purposes (as amended in 1994) on his Department's website. [166577]

Mr. MacShane: When any amendments to the Mutual Defence Agreement are laid before Parliament, copies of the Command Paper and accompanying Explanatory Memorandum will be posted on the Foreign and Commonwealth Office (FCO) website in accordance with the practice established in 2002.

The FCO will also place a copy of the original Agreement and subsequent amendments on its website at that time.

HEALTH

Acrylamide

Mr. Gibb: To ask the Secretary of State for Health if he will make a statement on the *(a)* prevalence of acrylamide in cooked and prepared food and *(b)* results of recent research commissioned by the Food Standards Agency. [165901]

Miss Melanie Johnson: Acrylamide has been found in a wide range of cooked and processed foods.

The Food Standards Agency has commissioned several research projects, including a survey of acrylamide levels in the United Kingdom diet. The dietary survey is due to be published this summer.

Health Services (Birkenhead)

Mr. Frank Field: To ask the Secretary of State for Health (1) how many senior citizens in Birkenhead have access to free eye tests; [166215]

(2) how many residents in Birkenhead aged over 60 years have benefited from the abolition of charges for eye tests. [166216]

Miss Melanie Johnson: Data for the number of sight tests by constituency or by the number of senior citizens are not collected centrally.

In 2002–03, the total number of national health service sight tests paid for patients aged 60 and over in Cheshire and Merseyside Strategic Health Authority was 201,180. The total number eligible for a free sight test for those aged 60 and over was 507,080. Sight tests cannot be equated to the numbers of patients.

Mr. Frank Field: To ask the Secretary of State for Health how many people in Birkenhead are receiving drug treatment. [166489]

Miss Melanie Johnson: Birkenhead is part of Wirral drug action team. There were 2,269 people receiving drug treatment in Wirral in 2000–01. This is the latest available data. Data broken down by drug action team for 2001–02 and 2002–03 have not been finalised and published.

Mr. Frank Field: To ask the Secretary of State for Health how many NHS *(a)* doctors and *(b)* nurses were employed in Birkenhead in each of the last seven years. [166217]

Miss Melanie Johnson: The information requested has been placed in the Library.

Mr. Frank Field: To ask the Secretary of State for Health how many NHS *(a)* therapists and *(b)* scientists were located in Birkenhead in each of the last seven years. [166218]

Miss Melanie Johnson: The information requested is shown in the tables.

NHS hospital and community health services: Qualified scientific, therapeutic and technical staff in the Cheshire and Merseyside Strategic Health Authority area by grade and by each specified organisation as at 30 September each specified year headcount

Department of Health form QMCW.

Mr. Frank Field: To ask the Secretary of State for Health if he will make a statement on NHS waiting times for heart surgery in Birkenhead. [166221]

Miss Melanie Johnson: In March 1997 there were 138 people waiting nine months and 40 people waiting over 12 months for heart surgery at the cardiothoracic centre—Liverpool National Health Service Trust. The latest available figures show that in February 2004, there were no people waiting nine months and over for surgery.

Mr. Frank Field: To ask the Secretary of State for Health how many residents in Birkenhead awaiting heart surgery have had the option of choosing an alternative hospital for quicker treatment in the last 12 months. [166222]

Miss Melanie Johnson: The information requested is not held centrally.

Mr. Frank Field: To ask the Secretary of State for Health how many rapid access chest pain clinics there are in Birkenhead. [166224]

Miss Melanie Johnson: There are no rapid access chest pain clinics in Birkenhead. Rapid access chest pain clinics are held at Arrowe Park Hospital, Wirral.

Mr. Frank Field: To ask the Secretary of State for Health whether there is a diagnostic and treatment centre located in Birkenhead. [166225]

Miss Melanie Johnson: There is no treatment centre in Birkenhead. There is a treatment centre on the Clatterbridge Hospital site, which is managed by the Wirral Hospital National Health Service Trust.

Mr. Frank Field: To ask the Secretary of State for Health how much public funding has been spent on *(a)* heart disease and *(b)* cancer care in Birkenhead in each of the last five years. [166569]

Miss Melanie Johnson: The information requested is not collected centrally. Allocations of funding for particular treatments are matters for the local primary care trust.

Mr. Frank Field: To ask the Secretary of State for Health how much public funding has been spent on health in Birkenhead in each of the last seven years. [166571]

Miss Melanie Johnson: The information is not available in the format requested. Expenditure per weighted head in the Cheshire and Merseyside Strategic Health Authority (SHA) area, which includes the constituency of Birkenhead, has increased from £596.24 in 1997–98 to £1,103.34 in 2002–03 (the latest year available). This does not represent the total expenditure per head as an element of health expenditure cannot be identified by SHA area.

Mobile Phones

Mr. Watson: To ask the Secretary of State for Health what research his Department has evaluated on the impact of electro-magnetic fields on the dielectric properties of cells, in relation to mobile phones. [166837]

Miss Melanie Johnson: The Government established the independent expert group on mobile phones (IEGMP) under the chairmanship of Sir William Stewart and the IEGMP report on mobile phones and health was published in May 2000. That report considered both thermal and non-thermal mechanisms of interaction of electromagnetic fields from mobile phones and evaluated a wide range of biological effects including cellular effects.

A further review of health effects was carried out by an independent advisory group on non-ionising radiation (AGNIR), entitled "Health Effects from Radiofrequency (RF) Electromagnetic Fields", this is available at www.nrpb.org. This report was issued in January 2004 and provided an updated review of the biological effects including cellular effects and interaction mechanisms, noting that

> "Although there has been a wide range of diverse exposures and models investigated, no consistent pattern has emerged from the cellular studies of RF exposure. The balance of the findings on carcinogenesis is that there is little evidence and no known mechanism to support a direct or indirect effect of RF radiation on this process. Positive findings are not confirmed by other independent studies; apparently similar experiments fail to confirm each other and may even show contradictory results."

The AGNIR will continue to review the scientific literature both national and international that is relevant to the issue of mobile telephony and health.

Further research is being undertaken by the mobile telecommunications and health research (MTHR) programme with funding of £7.4 million. This was set up to investigate areas of scientific uncertainty highlighted by the IEGMP report and areas identified as important by the MTHR programme management committee. A range of research projects have been funded by MTHR including studies on cells, brain physiology and the fundamental dielectric properties of biological tissues. A number of these projects are scheduled for completion over the next year.

Accidents (Children)

Tim Loughton: To ask the Secretary of State for Health how many non-fatal accidents were recorded to have happened to children in England in each of the last five years. [165581]

Dr. Ladyman: The information is not available in the form requested. Estimates of the number of accidents are available from the health survey for England and are shown in the table. For children, aged two to 15, the annual accident rate per 100 persons for major and minor accidents from data for the three survey years 1995–97, aggregated together, and the two survey years 2001–02, aggregated together are shown. In the health survey, 'major accidents' include all those where a doctor was consulted or a hospital was visited, and 'minor accidents' include all accidents that caused pain or discomfort for over 24 hours.

Annual accident rate per 100 persons, 1995–97 and 2001–02, by age and sex

	Annual accident rate per 100 children	
	Males 2 to 15-years-old	*Females 2 to 15-years-old*
1995–97		
Major accidents	31	22
Standard error	1.1	0.9
Minor accidents	216	144
Standard error	11.6	8.9
2001–02		
Major accidents	26	19
Standard error	1.0	0.8
Minor accidents	226	174
Standard error	13.0	10.7
Bases		
1995–97	7,365	7,365
2001–02	5,372	5,283

Alcohol Treatment Services

Mr. Keith Bradley: To ask the Secretary of State for Health if he will list the alcohol treatment services in the North West offered by each NHS trust; and what the budget was for each of these services in each of the last three financial years. [165504]

Miss Melanie Johnson *[holding answer 19 April 2004]:* The information requested is not collected centrally.

Alzheimer's Disease

Dr. Gibson: To ask the Secretary of State for Health (1) if he will estimate the number of patients with moderately-severe and severe Alzheimer's disease living *(a)* at home and *(b)* in institutional care; and if he will make a statement; [166203]

(2) how many patients are suffering from moderately-severe and severe Alzheimer's disease; and if he will make a statement. [166204]

Dr. Ladyman: Although the Department does not routinely collect this information, we estimate that of the 700,000 or so people with dementia in England and Wales, around 400,000 have Alzheimer's disease. Of these, we estimate around 200,000 have moderately severe or severe Alzheimer's disease.

Dr. Stoate: To ask the Secretary of State for Health (1) if he will list for each *(a)* primary care trust and *(b)* strategic health authority area the total amount spent on drugs for severe Alzheimer's disease in the last year for which figures are available; [166562]

(2) what assessment he has made of the availability of drugs for advanced Alzheimer's disease throughout the UK; and if he will make a statement; [166563]

(3) what guidelines he has sent to primary care trusts regarding the availability of drug treatments for severe Alzheimer's disease patients; and if he will make a statement; [166564]

(4) what discussions he has held with *(a)* patient groups, *(b)* charities, *(c)* old age psychiatrists and *(d)* the drug industry concerning the availability of drug treatment for severe Alzheimer's disease patients; [166565]

(5) if he will make a statement on the funding for drug treatments for severe Alzheimer's disease in advance of a National Institute for Clinical Excellence appraisal; [166566]

(6) if he will list the licensed treatments currently available for moderately-severe to severe Alzheimer's disease patients. [166567]

Dr. Ladyman: The Medicines and Healthcare products Regulatory Agency (MHRA), on behalf of the Licensing Authority, grants marketing authorisations for medicinal products provided that satisfactory quality, safety and efficacy data have been submitted for the medicinal product for use in the proposed indication and that the risk benefit is deemed favourable. According to the MHRA records, there is one licensed product, Ebixa (memantine hydrochloride), which is indicated for the treatment of moderately-severe to severe Alzheimer's disease.

Information on Ebixa dispensed at primary care trust and strategic health authority (SHA) level is not publicly available due to the small numbers involved. However, it is known that Ebixa was dispensed in the community in all 28 SHAs in England in 2002–03.

No formal discussions have taken place between Ministers and stakeholders concerning the availability of drug treatment for severe Alzheimer's disease patients.

The National Institute for Clinical Excellence (NICE) is, however, appraising Ebixa as part of the eighth wave of its work programme. The anticipated publication date of its guidance is May 2005.

The Department has asked National Health Service bodies (in HSC 1999/176) to continue with local arrangements for the managed introduction of new technologies, including drugs such as Ebixa, where guidance from NICE is not published at the time the technology first became available. These arrangements should involve an assessment of all the available evidence.

When considering the funding of any treatment currently being appraised by NICE, or where no appraisal has been commissioned, funding authorities are expected to use their existing prescribing arrangements and consider the evidence available to them on the clinical effectiveness of the treatment.

Bank Nurses

Sandra Gidley: To ask the Secretary of State for Health what guidance he has issued to NHS trusts with regard to checking the credentials of bank nurses; and how the system is monitored. [164821]

Mr. Hutton: The Department issued a code of practice for the supply of temporary staff in July 2002. A copy is available on the Department's website. All temporary staff employed in the national health service, whether employed through NHS Professionals, private recruitment agencies or from local banks, are subject to the same checks as anyone applying for a substantive post. This includes criminal records checks, qualification checks, taking up references and checks on Nursing and Midwifery Council registrations.

Blood Donation

Mr. Burstow: To ask the Secretary of State for Health what work is being undertaken by the National Institute for Clinical Excellence into the most efficient use of blood donations in the NHS. [163565]

Miss Melanie Johnson: Erythropoietin for the treatment of chemotherapy induced anaemia, as an alternative to blood transfusion, was referred to the National Institute for Clinical Excellence (NICE) as part of the ninth wave work programme in October 2003. Full details of the technology appraisal can be

found on NICE's website at www.nice.org.uk. No other topics on alternatives to blood transfusion are planned for referral to NICE at this time.

Mr. Burstow: To ask the Secretary of State for Health upon what evidence his Department based its position that there is less risk of variant CJD infection via blood transfusions of pooled plasma than via blood transfusions from one blood donor. [163472]

Miss Melanie Johnson: A paper by Llewelyn CA. et al (2004); *Lancet*; Vol. 363, pp 417–421 reported that the risks from products prepared from large pools of plasma to a recipient are probably less than from blood transfusion. The paper has been placed in the Library. The lower individual risk is also indicated by the risk assessment carried out by Det Norske Veritas.

Cervical Cancer

Mr. Streeter: To ask the Secretary of State for Health when he expects the introduction of the new liquid-based cytology method of cervical cancer screening to have been completed in each of the strategic health authority regions, broken down by expected introduction date. [165912]

Miss Melanie Johnson *[holding answer 19 April 2004]:* We expect full implementation of liquid based cytology (LBC) to take up to five years, due to the retraining of all laboratory staff who read cervical screening tests and all sample takers in primary care. We provided £1.2 million in 2003–04 and are providing a further £6 million in 2004–05 to kick-start this process. The intention is that cytology training schools should be converted first in order to be in a position to train the rest of the programme. Strategic health authorities have been issued with advice on how best they can roll out LBC for their local populations, laboratories and primary care, and are developing plans accordingly. A national timetable of conversion over the next five years will become apparent as these plans progress.

Chronic Obstructive Pulmonary Disease

Geraldine Smith: To ask the Secretary of State for Health (1) how many people suffer from chronic obstructive pulmonary disease in *(a)* Morecambe and Lunesdale constituency and *(b)* Morecambe Bay Primary Care Trust area; [165407]

(2) when the National Institute for Clinical Excellence Guidelines on the diagnosis and treatment of chronic obstructive pulmonary disease will be implemented by the Morecambe Bay Primary Care Trust; [165416]

(3) whether pulmonary rehabilitation is offered by the Morecambe Bay Primary Care Trust to patients who consider themselves functionally disabled by chronic obstructive pulmonary disease. [165417]

Miss Melanie Johnson: These data are not collected on a constituency basis. However, the Department commissioned the Wessex Institute for Health Research and Development to produce a report on chronic obstructive pulmonary disease (COPD). The report estimated that, in a typical health authority of 500,000 people, around 3,000 in the 45 plus age group would have COPD.

As part of our commitment to improve services for patients with COPD, we commissioned the National Institute for Clinical Excellence to prepare clinical guidelines for the national health service in England and Wales for the prevention, diagnosis, management and treatment of COPD.

Now that the guidelines have been published, primary care trusts, in partnership with local stakeholders, will decide what local service improvements need to be made. They have the responsibility for deciding what services to provide for their populations, including those with COPD and other respiratory diseases. They are best placed to understand local health needs and commission services to meet them.

Civil Servants

Bob Spink: To ask the Secretary of State for Health if he will list for each civil service grade within his *(a)* Department and *(b)* Department's executive agencies, the total number of staff employed, broken down by (i) gender, (ii) ethnic group and (iii) age group; and how many are registered disabled. [166393]

Ms Rosie Winterton: The information requested is available in the annual publication, Civil Service Statistics, which is published by the Cabinet Office. Copies of Civil Service Statistics 2002, which was published on 24 July 2003, is available in the Library and at www.civil-service.gov.uk/statistics. Civil Service Statistics 2003 will be published by the Cabinet Office in due course.

Committee on Safety of Medicines

Mr. Burstow: To ask the Secretary of State for Health (1) pursuant to his answer of 24 March 2004, *Official Report*, column 913W, on the Committee on Safety of Medicines, what information was assessed by the Medicines and Healthcare Products Regulatory Agency in 2002; [165299]

(2) pursuant to his answer of 24 March 2004, *Official Report*, column 913W, on the Committee on Safety of Medicines, what changes were made to the product information on risperidone in 2002. [165300]

Dr. Ladyman: The information assessed by the Medicines and Healthcare products Regulatory Agency in 2002 relating to cerebrovascular events associated with risperidone comprised: a review of serious cerebrovascular events in four randomised placebo controlled trials in dementia; two open-label extension trials in dementia and non-dementia studies; an analysis of non-serious cerebrovascular events (for example, very transient or mild transient ischaemic attack symptoms) in dementia studies; a review of relevant spontaneously reported suspected adverse drug reaction from the marketing authorisation holder's pharmacovigilance database. A review of the scientific literature was performed but did not locate any relevant articles or case reports.

The following warnings were added to the summary of product characteristics for risperidone:

"Cerebrovascular accidents have been observed during treatment with risperidone".

"Risperidal should be used with caution in patients with known cardiovascular disease including those associated with prolongation of the QT interval and the dose should be gradually titrated".

Consequential changes to the side-effects section of the patient information leaflet were made to clearly describe various symptoms of stroke, with an instruction to seek medical attention should these occur.

Consultant Contracts

Mr. Lansley: To ask the Secretary of State for Health what proportion of NHS consultants had signed the new consultants' contract at 1 April. [166074]

Mr. Hutton *[holding answer 20 April 2004]:* Data is not available centrally on the take up of the consultant contract as at 1 April. Information on take up during April as a whole should be available by early May.

Mr. Lansley: To ask the Secretary of State for Health (1) how many of those NHS consultants who have not signed the new contract have reduced their commitment to NHS sessions below that indicated in their workload review; [166075]

(2) how many of those NHS consultants who have signed the new contract are contracted to provide fewer sessions than their workload review indicated they were formerly undertaking in the NHS. [166076]

Mr. Hutton *[holding answers 20 April 2004]:* Information on the content of individual consultant job plans is not held centrally.

Contraception

Tim Loughton: To ask the Secretary of State for Health how many girls in England of school age were prescribed *(a)* contraceptive pills, *(b)* a contraceptive injection and *(c)* a contraceptive implant in each of the last seven years. [165492]

Miss Melanie Johnson: Contraceptives may be prescribed by general practitioners or by family planning clinics. Information regarding GP prescriptions broken down according to age is not available. The number of girls aged under 16 whose primary method of contraception was the pill, injection or implant obtained from family planning clinics in the period 1996–97 to 2002–03 is shown in the table.

First contacts with women aged under 16 at NHS family planning clinics by primary method of contraception, England, 1996–97 to 2002–03

	Pill	*Injection*	*Implant*
1996–97	23,000	1,000	100
1997–98	22,700	1,200	0
1998–99	21,800	1,300	0
1999–2000	22,700	1,500	0
2000–01	23,900	2,000	100
2001–02	24,100	2,300	100
2002–03	24,500	2,500	200

Source:
Department of Health Statistics Division; return KT31. Numbers rounded to the nearest hundred.

Dentistry

Mr. Evans: To ask the Secretary of State for Health what proportion of adults in the Cumbria and Lancashire Health Authority were registered with an NHS dentist in each of the last seven years. [165511]

Miss Melanie Johnson: The table shows registration numbers and registration rates for Cumbria and Lancashire Strategic Health Authority (SHA) for September in each year from 1997. These are for the general dental service (GDS).

Adult dental registrations in the general dental service (GDS) and registration rate in Cumbria and Lancashire SHA area[1]

September each year	*Adult registrations (thousands)*	*Adult registration rate (percentage of population)*
1997[2]	760.4	52.0
1998	675.0	46.1
1999	684.4	46.8
2000	688.5	47.0
2001	674.6	45.9
2002	669.9	45.3
2003	662.3	45.2

[1] Cumbria and Lancashire SHA area comprised five HAs before October 1992: South Lancashire, Morecambe Bay, East Lancashire, North West Lancashire and North Cumbria
[2] 1997 figures are not comparable with figures for later years. The registration period was reduced for new registrations to 15 months from September 1996 which affected registration numbers between September 1997 and September 1998.
Note:
Registration numbers cover people who have attended a general dental service dentist within the past 15 months. The figures exclude patients receiving GDS treatment on an occasional basis as well as occasional attenders, who have not attended within the past 15 months. The registrations figures exclude some national health service services as well as private dental services which many people may choose to have.

Dental Practice Board

Diabetes Centre

Ms. Walley: To ask the Secretary of State for Health what funding is made available to the Diabetes Centre at the University Hospital of North Staffordshire; and what changes are planned to this allocation in coming years. [166719]

Dr. Ladyman: This information is not held centrally.

Doctors

Mr. Yeo: To ask the Secretary of State for Health how many doctors there were per head of population in *(a)* England and *(b)* each strategic health authority in each year since 1997. [166652]

Mr. Hutton: The standard ratio used by the Department is per 100,000 population.

The data requested has been placed in the Library.

Drinking Water Standards

Norman Baker: To ask the Secretary of State for Health if he will make it his policy to require bottled water to meet drinking water standards applicable to tap water. [165686]

Miss Melanie Johnson *[holding answer 19 April 2004]:* Spring water and bottled drinking water already have to comply with the standards for tap water. Natural mineral water, which must come from a natural source and cannot be treated, may contain higher levels of minerals than those permitted in tap water. However, limits are in place for potentially toxic substances and microbiological parameters. The limits for natural mineral water, as with drinking water, spring water and bottled drinking water, are set on health grounds.

Health Services (Wirral, South)

Mr. Ben Chapman: To ask the Secretary of State for Health how much public funding has been spent on *(a)* heart disease and *(b)* cancer care in Wirral, South in each of the last five years. [166617]

Miss Melanie Johnson: The information requested is not collected centrally. Allocations of funding for particular treatments are matters for the local primary care trust.

Mr. Ben Chapman: To ask the Secretary of State for Health if he will make a statement on NHS waiting times for heart surgery in Wirral, South. [166619]

Miss Melanie Johnson: In March 1997 there were 138 people waiting nine months and 40 people waiting over 12 months for heart surgery at the cardiothoracic centre, Liverpool National Health Service Trust. The latest available figures show that in February 2004 there were no people waiting nine months and over for surgery.

Mr. Ben Chapman: To ask the Secretary of State for Health (1) how many residents in Wirral, South aged over 60 years have benefited from the abolition of charges for eye tests; [166620]

(2) how many citizens in Wirral, South had access to free eye tests in 2003–04. [166621]

Miss Melanie Johnson: Data for the number of sight tests by constituency or by the number of senior citizens are not collected centrally.

In 2002–03, the total number of national health service sight tests paid for patients aged 60 and over in Cheshire and Merseyside Strategic Health Authority (SHA) was 201,180. The total number eligible for a free sight test for those aged 60 and over was 507,080. The total number of NHS sight tests paid for by Cheshire and Merseyside SHA in the year 2002–03 was 453,250.

Sight tests cannot be equated to the numbers of patients.

Heart Choice Pilots

Mr. Yeo: To ask the Secretary of State for Health which *(a)* NHS and *(b)* independent sector providers have treated patients under the Heart Choice pilots. [166649]

Miss Melanie Johnson: The information requested is shown in the lists.

NHS Providers
Papworth Hospital NHS Trust
St Mary's NHS Trust
Hammersmith Hospitals NHS Trust
Royal Brompton and Harefield NHS Trust
University College London Hospitals NHS Trust
Barts and the London NHS Trust
Guy's & St Thomas1 Hospital NHS Trust
King's College Hospital NHS Trust
St George's Healthcare NHS Trust
The Newcastle Upon Tyne Hospitals NHS Trust
South Tees Hospitals NHS Trust
Hull and East Yorkshire Hospitals NHS Trust
Leeds Teaching Hospitals NHS Trust
Blackpool, Fylde and Wyre Hospitals NHS Trust
South Manchester University Hospitals NHS Trust
Central Manchester & Manchester Children's University Hospitals
NHS Trust
Cardiothoracic Centre Liverpool NHS Trust
The Oxford Radcliffe Hospital NHS Trust
Southampton University Hospitals NHS Trust
Brighton and Sussex University Hospitals NHS Trust
United Bristol Healthcare NHS Trust
Plymouth Hospitals NHS Trust
Sheffield Teaching Hospitals NHS Trust
Nottingham City Hospital NHS Trust
University Hospitals of Leicester NHS Trust
North Staffordshire Hospital NHS Trust
Royal Wolverhampton Hospitals NHS Trust
University Hospital Birmingham NHS Trust
University Hospital of Coventry and Warwickshire NHS Trust

Independent Sector Providers
BMI Park, Nottingham
BMI Priory, Birmingham
BMI, London Independent
BMI Thornbury, Sheffield
BUPA Bristol
BUPA Cambridge
BUPA Chalybeate, Southampton
BUPA Leeds
BUPA Leicester
BUPA Washington
Cromwell Hospital, London
HCA, (Harley St Clinic, London Bridge Hospital/ Wellington Hospital)
HCI, Glasgow
King Edward VII Hospital, Midhurst, Sussex
Nuffield Leicester
Yorkshire Clinic

Mr. Yeo: To ask the Secretary of State for Health what proportion of patients who have participated in the Heart Choice pilot have chosen an alternative provider; and what proportion of patients have been treated in the independent sector. [166650]

Miss Melanie Johnson: Of those clinically eligible, the proportion of patients who have participated in the heart choice pilot that have chosen an alternative provider is 50 per cent. We do not hold figures on the breakdown of heart choice between the national health service and independent sector.

This data is based on voluntary returns from NHS trusts during the pilot phase.

Mr. Yeo: To ask the Secretary of State for Health how many NHS patients have participated in the Heart Choice pilots. [166651]

Miss Melanie Johnson: The total number of patients that were eligible to participate in the heart choice pilots was 9,090. Of these 6,328 were deemed to be clinically eligible. The number of patients who made a choice was 6,010 and of these, 3,034 opted for treatment elsewhere.

This data is based on voluntary returns from national health service trusts during the pilot phase.

Magnetic Resonance Imaging Scanners

Mr. Sheerman: To ask the Secretary of State for Health what steps his Department has taken towards ensuring that there is a magnetic resonance imaging scanner on site at every major hospital trust in England. [165346]

Miss Melanie Johnson: After decades of underinvestment, there has been an unprecedented level of central capital funding provided to purchase magnetic resonance imaging (MRI) scanners since 2000, first through the New Opportunities Fund (NOF) and now through central Department of Health capital. These programmes are providing over 160 new MRI scanners from 2000 to 2006, resulting in a 150 per cent. increase in the number of MRI scanners available to the national health service since 1997.

Once the central programmes have been completed in 2006, all large acute and/or teaching NHS hospital trusts will have MRI on at least one hospital site.

The allocation of new MRI scanners has been agreed in conjunction with strategic health authorities. Allocations have been made to ensure equitable access to MRI services across the country.

Mr. Sheerman: To ask the Secretary of State for Health how much the Government have spent in each of the last five years on *(a)* procurement of new magnetic resonance imaging scanners and *(b)* training staff to operate them; and what the projected expenditure is in each of the next five years. [165348]

Miss Melanie Johnson: From 1999 to 2004, approximately £38.5 million was spent in providing 57 magnetic resonance imaging (MRI) scanners via the New Opportunities Fund.

In 2003–04, approximately £33.5 million of Department of Health cancer capital was spent in providing new and replacement MRI scanners.

It is estimated that departmental cancer capital spending on MRI in 2004–05 will be approximately £46 million and in 2004–05 will be approximately £30 million.

The projected expenditure on MRI beyond 2005–06 is not known at this stage, although, on 8 April 2004, the Department launched a procurement from the private sector to provide an extra 80,000 mobile MRI scans per year for the national health service for five years.

Initial applications training for the use of new MRI equipment is included in the capital cost of that equipment and has therefore been provided to all NHS trusts in the central procurement programmes. Further training requirements will vary from centre to centre and are the responsibility of local NHS institutions.

Mersey Regional Ambulance Service

Helen Jones: To ask the Secretary of State for Health if he will make a statement on the level and quality of service provided by the Mersey Regional Ambulance Service on the weekend of 26 and 27 March. [165342]

Miss Melanie Johnson *[holding answer 19 April 2004]:* The Department does not collect information from ambulance trusts on a daily basis. Information is collected annually on volume of service and performance against required standards-details of the returns are in the statistical bulletin Ambulance Service, England: 2002–03.

A copy is available in the Library and also on the Department's website at www.publications.doh.gov.uk/public/sb0313.htm.

NHS Dentistry

Mr. Challen: To ask the Secretary of State for Health what has been the total spending on NHS dentistry in Morley and Rothwell in each year since 1997. [165169]

Miss Melanie Johnson: The information requested is shown in the table.

Gross fees paid to general dental service dentists in Leeds Health Authority area

£ million

	Gross fees
1997–98	20.7
1998–99	22.2
1999–2000	22.7
2000–01	23.0
2001–02	24.3
2002–03[1]	12.2

[1] First half of year only

Source:
Department of Health.

NHS Staff (Oxfordshire)

Mr. Boris Johnson: To ask the Secretary of State for Health what the *(a)* age, *(b)* gender, *(c)* ethnic background and *(d)* length of employment within the NHS breakdowns are of NHS staff working in the (i) Oxfordshire community hospitals of Townlands, Wallingford, Abingdon, Wantage, Wattington and Didcot and (ii) Oxford Radcliffe and Royal Berkshire hospitals. [166761]

Ms Rosie Winterton: The information requested is not held centrally at individual hospital level. The information requested for age, gender and ethnic background is available at trust level. Information for the trusts responsible for the above hospitals has been placed in the Library.

The length of employment within the National Health Service for the above hospitals is not collected centrally.

Nursing

Dr. Murrison: To ask the Secretary of State for Health what his Department's projected spending plans on the

Commission for Patient and Public Involvement in Health *(a)* were for 2003 and *(b)* are for (i) 2004, (i) 2005 and (iii) 2006. [166352]

Ms Rosie Winterton: In 2003–04, the budget for the Commission for Patient and Public Involvement in Health (CPPIH) was £34.9 million. This included £5.2 million for the national independent complaints advocacy service (ICAS) and around £8 million to support Community Health Councils until 1 December 2003. The budget for the CPPIH in 2004–05 and 2005–06 is £33.3 million and an additional £6.8 million is being made available for ICAS.

Mr. Burstow: To ask the Secretary of State for Health what targets have been set on introducing modern matrons; what the *(a)* baselines and *(b)* deadlines for these targets are; and what progress has been made against the targets. [166407]

Mr. Hutton: The introduction of modern matrons was signalled in the NHS Plan in 2000. In April 2001, my right hon. Friend the Member for Darlington (Mr. Milburn) said there would be 500 modern matrons by April 2002 and up to 2,000 by 2004.

A detailed progress report was published in April 2002, including results of a survey that showed that there were nearly 1,900 posts across England.

The most recent data show that there are now nearly 3,000 modern matrons across England.

Mrs. Iris Robinson: To ask the Secretary of State for Health if he will make a statement on arrangements for the assessment of an individual for funded nursing home placement; under what circumstances a process is caused to be commenced; and how a relative can ensure that an assessment is performed. [164922]

Dr. Ladyman: Individuals should receive an assessment to determine their needs and then a care plan as to how those needs will be met. Where their needs will be best met in a care home providing nursing care, the national health service will determine whether their needs are such that the NHS will fund all their care, or whether the NHS will fund only the care provided by a registered nurse.

The Community Care (Delayed Discharges, etc.) Act 2003, requires the NHS and social services in England to assess patients who need further care from the NHS or social services before they are discharged from hospital. For others, the NHS and social services should provide an assessment when it appears necessary or when requested. Relatives and carers may request assessment or re-assessment of an older person's needs, and in doing so may specify the type of assessment they feel is most appropriate.

Personal Care Plans

Mr. Burstow: To ask the Secretary of State for Health if he will estimate the cost of providing every patient with a long-term condition with a personal care plan. [164860]

Dr. Ladyman: We do not have information on how much it would cost to provide everyone with a long-term condition with a personal care plan.

Care plans are an important part of responding to the individual needs of patients with chronic conditions and managing their care to keep them healthier for longer. For example the first standard of the national service framework on renal disease states that:

> "all children, young people and adults with chronic kidney disease are to have access to information that enables them to make informed decisions and encourages partnership in decision-making, with an agreed care plan that supports them in managing their condition to achieve the best possible quality of life."

Prostate Cancer

Mr. Watson: To ask the Secretary of State for Health what research he has evaluated on the effects of frequent ejaculation in protecting men from prostate cancer; and what advice his Department provides on this. [166852]

Miss Melanie Johnson: The Department's prostate cancer risk management programme was announced by my right hon. Friend, the Member for Darlington (Mr. Milburn) as part of the National Health Service prostate cancer programme in September 2000. However, no specific research has been carried out or evaluated on whether frequent ejaculation protects men from prostate cancer. A prostate cancer information sheet is available through the National Institute for Clinical Excellence website at www.nice.org.uk/.

Respiratory Conditions

Tim Loughton: To ask the Secretary of State for Health what percentage of school aged children in England suffer from respiratory conditions. [165540]

Dr. Ladyman: This information is not collected centrally. The latest hospital episode statistics which relate to diseases of the respiratory system in the age group five to 16 years of age are shown in the table. Admissions may relate to more than one episode for the same child.

Count of finished admissions episodes: age group 5 to 16 years. Primary diagnosis—Diseases of the respiratory system in NHS hospitals in England 2002–03

	Finished admissions
2002–03	65,939

Notes:

Ungrossed Data—figures have not been adjusted for shortfalls in data (i.e. the data are ungrossed).

Diagnosis (Primary Diagnosis)—the primary diagnosis is the first of up to 14 (7 prior to 2002–03) diagnosis fields in the Hospital Episode Statistics (HES) data set and provides the main reason why the patient was in hospital.

Source:

Hospital Episode Statistics (HES), Department of Health.

Security Incidents (NHS)

Mr. Burstow: To ask the Secretary of State for Health how many security incidents he estimates there were in the NHS in England in each year since 1997. [163504]

Dr. Ladyman: Information on security incidents is available for the period 1999 to 2002. This is shown in the table.

	Number
2001–02	166,667
2000–01	112,095
1999–2000	106,935

No statistics are available for the period 1997 to 1999 and 2002 to present.

Policy on the management of security in the national health service passed to the NHS Counter Fraud and Security Management Service on 1 April 2003.

Trust Finances

Mr. Lansley: To ask the Secretary of State for Health how many *(a)* primary care trusts and *(b)* NHS trusts recorded a deficit at the end of the financial year 2003–04. [166659]

Mr. Hutton *[holding answer 20 April 2004]:* The audited information in respect of the 2003–04 financial position of all primary care trusts and national health service trusts will be published in their individual annual accounts and will be available centrally in autumn 2004.

NORTHERN IRELAND

Location Monitoring

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland pursuant to his answer of 15 March, *Official Report*, column 129W, on electronic tagging, if he will have a pilot scheme on location monitoring satellite tracking technology in Northern Ireland. [164947]

Mr. Paul Murphy: Pursuant to the answer given by my hon. Friend the Parliamentary Under Secretary of State for the Home Department (Mr Goggins), there is no legislation to permit electronic monitoring in Northern Ireland.

Alcohol Consumption

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland what restrictions apply to the consumption of alcohol on local *(a)* trains and *(b)* buses. [166703]

Mr. Spellar: The Public Service Vehicles Regulations (NI) 1985 prohibit the consumption of alcohol on buses but not on trains. Railway Byelaws allow the consumption of alcohol to be banned on certain pre-advertised train journeys.

Animal Welfare

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland what steps he is taking to deliver a high standard of animal welfare within agriculture in Northern Ireland. [166829]

Mr. Pearson: A wide range of legislation has already been introduced in Northern Ireland to protect all species of animals, including farm animals, from cruelty and neglect, to provide them with adequate housing and transport conditions. In addition, DARD officials are currently actively engaged in replacing the existing range of advisory Welfare Codes for all the major species of farm animals with revised versions incorporating fresh developments in technology and our understanding of animal behaviours.

The main general welfare provisions are laid down in the Welfare of Farmed Animals Regulations (NI) 2000 which consolidates and replaces previous legislation, implements four EU Council Directives and reflects the European Convention on the Protection of Animals kept for Farming Purposes. The regulations lay down a general principle that the owners and keepers of animals kept for farming purposes must take reasonable steps to ensure the welfare on animals in their care and prevent them experiencing any unnecessary pain, suffering or injury. The requirements of the legislation are comprehensive, and DARD veterinary staff and meat hygiene officials actively enforce all of their provisions.

Asbestos

Lady Hermon: To ask the Secretary of State for Northern Ireland what his Department's policy is regarding the disposal of asbestos at district council amenity sites in *(a)* North Down and *(b)* Northern Ireland. [164538]

Angela Smith: Waste asbestos arising from households or commercial/industrial premises is classified as special waste under the Special Waste Regulations (Northern Ireland) 1998. Any facility, located in Northern Ireland, receiving such waste must be licensed to accept it under the Waste Management Licensing Regulations (Northern Ireland) 2003.

Ballybeen Estate

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland what funding contingency is held with respect to the current exclusion of the Ballybeen Estate in Dundonald from the Belfast Regeneration Offices Business Plan, should it become part of the East Belfast constituency as a result of the Boundary Commission Report. [166746]

Mr. Spellar: The level of funding available to an area is not determined by the parliamentary constituency within which it is situated and the outcome of the Boundary Commission Review will have no impact on the level of funds available to Ballybeen Estate in Dundonald. However, if following the Boundary Commission's report Ballybeen is included in a new East Belfast constituency the Department for Social Development will review internal administrative boundaries and the regeneration of the area may fall to the Belfast Regeneration Office. This would be a purely administrative change that will have no impact on how Government funding is allocated.

Benefit Entitlements

Lady Hermon: To ask the Secretary of State for Northern Ireland if he will list the benefit entitlement available to those living in Northern Ireland on an ancestral visa. [165365]

Mr. Spellar: Immigration rules require that people who wish to travel to the United Kingdom through UK ancestry must intend to take or seek employment. They

should therefore be able to support and accommodate themselves without claiming certain state benefits. These include:

Income Support
Jobseeker's Allowance
Housing Benefit
Tax Credits
Social Fund Payments
Child Benefit
Any disability allowance

Boundary Reviews

Mr. Beggs: To ask the Secretary of State for Northern Ireland what the timetable is for the forthcoming review of parliamentary boundaries and local government boundaries in Northern Ireland. [164432]

Mr. Spellar: The Parliamentary Boundary Commission for Northern Ireland intend to publish Provisional Recommendations in the spring of this year. Because the Review of Public Administration is continuing, the Secretary of State is not yet in a position to appoint a Local Government Boundaries Commissioner to undertake a review of local boundaries in Northern Ireland.

Brucellosis

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland what action is being taken to limit potential brucellosis outbreaks in cattle in Northern Ireland. [164921]

Mr. Pearson: My Department has in place a Brucellosis control programme which aims to bring about a substantial reduction in disease levels and the eventual eradication of brucellosis from Northern Ireland. The control measures are based on a programme of testing, the slaughter of infected animals, the restriction of movements of animals to and from infected herds and surrounding herds, and the tracing of contact animals.

The implementation of the Brucellosis Policy Review recommendations, which I announced last June, will ensure further progress towards eradication of the disease. The process of extending annual Brucellosis testing throughout Northern Ireland got under way in November. The public consultation exercise on the subordinate legislation needed to implement further revised measures was launched on 30 January 2004 and I hope to have the necessary subordinate legislation in place by mid 2004. Work is also under way on the feasibility of further measures that we hope to implement.

We are already seeing some effect from the control measures that have been implemented. During the year we have seen a reduction in the number of new herds restricted because of brucellosis. The number of new herds restricted during 2003 was 261. The comparable figure for 2002 was 361.

College of Agriculture, Food and Rural Enterprise

Mr. Peter Robinson: To ask the Secretary of State for Northern Ireland pursuant to the answer of 3 February 2004, *Official Report*, column 868W on Peace II Programme, under what measure number the money was awarded to the College of Agriculture, Food and Rural Enterprise (CAFRE); who authorised the approval to distribute the money to CAFRE; under whose name money was awarded to CAFRE; and what items of expenditure in addition to normal running costs of CAFRE the money funded. [166831]

Mr. Pearson: The money in respect of this project was awarded under Priority 1, Measure 6 (Training for Farmers) of the PEACE II Programme.

Training through technology development and transfer is an on-going programme delivered through the College of Agriculture Food and Rural Enterprise (CAFRE) which has been operational since January 2000. During 2003 when the Department of Agriculture and Rural Development (DARD) was assessing how the PEACE II N+2 targets could be met, this programme was considered under the "Innovative Actions" strand of activities seeking to ensure expenditure targets could be achieved. Such innovative actions were approved by the PEACE II Monitoring Committee.

The technology development and transfer programme was considered consistent with the terms of the PEACE II Programme and an application was submitted by CAFRE to Measure 1.6 for the project titled, Developing Agriculture through Technology Adoption (DATA). The application was considered in the normal manner by a three person Selection Panel against the Peace and Reconciliation and Measure Specific criteria and judged successful. The Selection Panel included a person independent of DARD. The success of this application enabled DARD to meet its N+2 targets and ensured no loss of PEACE II funding.

The Letter of Offer in respect of the DATA project was issued by Pauline McCloy, Director of Rural Development, on behalf of DARD, and accepted on behalf of the College by Paul McGurnaghan, CAFRE Deputy Director and John Fay, CAFRE Director.

As the DATA project is a training programme the money allocated covers staff costs and other expenditure solely related to the delivery of the project such as set-up costs associated with demonstrations and publicity booklets for the programme. None of the money allocated is used to fund any of the running costs associated with other CAFRE activities.

Contaminated Land

Lady Hermon: To ask the Secretary of State for Northern Ireland what assessment he has made of the effectiveness of part 3 of the Waste and Contaminated Land (Northern Ireland) Order 1997 in tackling contaminated land in Northern Ireland; and if he will make a statement. [164540]

Angela Smith: The provisions of part 3 of the Waste and Contaminated Land (Northern Ireland) Order 1997 have not yet been brought into operation. In order to do so, it will be necessary to supplement the provisions of part 3 by further policy development and subordinate legislation. Until now priority in the allocation of resources within the Department of the Environment has had to be given to dealing with a backlog of overdue EU directives.

However, in preparation for the implementation of the forthcoming EU Directive on Environmental Liability, the Department is currently examining the work and resources that will be necessary to bring the statutory contaminated land regime into operation in advance of the directive.

Cory Reports Inquiry

Mr. Lidington: To ask the Secretary of State for Northern Ireland what his policy is on meeting from public funds the costs of legal advice and representation to *(a)* present and *(b)* former servants of the Crown who are summoned to give evidence to a public inquiry established as a result of the Cory Reports. [166641]

Mr. Paul Murphy: Once the inquiries begin, reasonable costs of legal assistance will be met from the public purse for those invited to assist them, in accordance with the procedures that will apply to each inquiry. This will include any present or former public servants who are called to give evidence.

Crime Detection Rates

David Burnside: To ask the Secretary of State for Northern Ireland what the Police Service of Northern Ireland crime detection rates were in each month during the last two years, broken down by named geographic areas designated by individual district command units. [165846]

Mr. Pearson: The following table provides the information requested with the exception of figures forMarch 2004 which are not currently available.

Detection rates by DCU for 2002–2003 and 2003–2004 *Percentage*

	Antrim	Ards	East Belfast	North Belfast	South Belfast	West Belfast	Carrickfergus	Castlereagh	Larne

[1] Please note that clearance rates for March 2004 are not yet available. Clearance rates for 2003–2004 are provisional and as such are liable to revision.

Drugs

Mr. Beggs: To ask the Secretary of State for Northern Ireland how many *(a)* arrests were made, *(b)* people were charged, *(c)* cautions were issued and *(d)* convictions were made, for drug offences in Northern Ireland in each of the last three years, broken down by (i) drug classification category and (ii) Northern Ireland parliamentary constituency. [165771]

Mr. Pearson: I have placed in the Library, tables that provide the information requested for arrests, charges, and cautions for the financial years 2001–02 and 2002–03. Figures for 2003–04 are not yet available. As it is not possible to provide an analysis by Parliamentary constituency a breakdown by PSNI District Command Unit is provided instead. Data relating to convictions can be provided only by calendar year.

Education Ancillary Workers

Mrs. Iris Robinson To ask the Secretary of State for Northern Ireland if he will undertake a review of the effect of Jarvis PPP contract proposals on education ancillary workers. [166048]

Mr. Gardiner: A review of the effect of particular PPP contract proposals would not be appropriate. PPP projects are publicly advertised and contractors selected through an open competitive process. Successful contractors must satisfy all the criteria set for each project.

TUPE (Transfer of Undertaking Protection of Employment Regulations) will apply to the transferring staff, which means that their current contractual terms and conditions will be protected. On pensions, Jarvis has also given a commitment that it will apply for membership of the Northern Ireland Local Government Officers Superannuation Scheme.

I also understand the Chief Executive of the South Eastern Board has written to you recently offering a meeting to discuss your concerns.

Environmental Prosecutions

Lady Hermon: To ask the Secretary of State for Northern Ireland how many prosecutions have been brought under part 3 of the Waste and Contaminated Land (Northern Ireland) Order 1997 since its introduction; and what the average penalty has been. [164573]

Angela Smith: Part 3 of the Waste and Contaminated Land (Northern Ireland) Order 1997 has not yet been brought into operation. Consequently no prosecutions have been brought under its provisions.

Farm Fraud

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland what types of farming fraud offences were detected; and how many cases of each occurred in the last 12 months. [166702]

Mr. Pearson: The types of farming fraud and the number of cases detected during the last year (April 2003 to March 2004) were as follows:

	Number of cases
Livestock Subsidy (Sheep Annual Premium Scheme)	65
Cattle Identification/Livestock Subsidy (Cattle)	28
Ear Tag Interference	2
Integrated Administration and Control (IACS)	8
Animal Disease Compensation	6

Fishing Industry

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland how many applications have been received under the current fishing vessel *(a)* decommissioning scheme and *(b)* tie-up scheme; how many applications have been granted for boats in (i) Portavogie, (ii) Ardglass and (iii) Kilkeel in each case; and how much money has been allocated to each scheme in each case. [166830]

Mr. Pearson: Requested information in respect of the 2003 Decommissioning Scheme and The Temporary Cessation Tie up scheme 2004 as at 16 April 2004 is shown in the tables.

Decommissioning

	Applications Received	*Applications Approved*	*Grant paid to date 16 April 2004 (£)*
Portavogie	20	5	1,077,767
Ardglass	7	3	489,900
Kilkeel	25	11	2,932,369
Total	52	19	4,500,037

Tie Up Scheme

	Applications Received	*Applications Approved*	*Grant paid to date 16 April 2004 (£)*
Portavogie	14	13	256,152
Ardglass	1	1	1,632
Kilkeel	15	13	190,569
Total	30	27	448,355

General de Chastelain

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland pursuant to the Answer of 17 March 2004, *Official Report*, column 300W, on General de Chastelain, if he will list the full days since 1 January that General de Chastelain has spent in the Province. [165758]

Mr. Pearson: The Independent International Commission on Decommissioning has now advised that, on average, General de Chastelain spends one week per month in Northern Ireland on decommissioning work. In the year 2003, the General was in Northern Ireland for 82 days. So far this year he was in NI for 6 days in February. Further visits have been planned for April and May.

Hospital Shuttle Bus Services

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland if he will estimate the cost in 2003–04 of the shuttle buses currently serving the Royal Victoria Hospital. [166701]

Mr. Spellar: Translink has advised that for the year 2003–04 the cost of providing the shuttle bus service to the Royal Victoria Hospital from Belfast City Centre was £80,300. Income from fares amounting to £69,400 went towards supporting this service.

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland if he will estimate the cost of introducing a shuttle bus service between the Ulster Hospital and Belfast City Centre. [166710]

Mr. Spellar: Translink has advised that the estimated cost of providing a shuttle bus service between Belfast City Centre and the Ulster Hospital at Dundonald would be approximately £156,600 per year, depending on the required hours of operation and frequency of service. Although Translink do not supply a dedicated bus to the Ulster Hospital, approximately 190 buses per day stop at a terminus, located adjacent to the hospital.

Local Area Partnerships

David Burnside: To ask the Secretary of State for Northern Ireland if he will make a statement on the

membership and timetable for local area partnerships recommended by the Costello report, broken down by education board area. [166712]

Mr. Gardiner: Local Planning and Development Partnerships will comprise representatives of schools and school managing authorities in local areas. The arrangements to establish these partnerships are currently under consideration by the Department of Education with the aim of having them in place by the beginning of the next school year.

Nursing Homes

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland what restrictions there are on the rates charged to residents by nursing homes. [166699]

Angela Smith: The rates charged to private residents by nursing homes are a matter for negotiation and agreement between both parties. In the case of residents who are supported with public funds it is the Health and Social Services (HSS) Trust that arranges the nursing home placement and agrees to pay an appropriate tariff to the nursing home. Nursing homes may not charge residents for accommodation or care, including the nursing care of private residents, paid for by HSS Trusts.

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland whether nursing homes are permitted to charge different residents at differing rates. [166700]

Angela Smith: Nursing homes may charge individual residents different amounts based on the type and extent of care needed and the standard of facilities and accommodation provided. Nursing homes providing care for different classes of resident, i.e. elderly, mental health or other disablement, charge rates that are based on the level of care usually given to the specific class of resident the nursing home is authorised to accommodate. The four Health and Social Services Boards have set regional tariffs that Health and Social Services Trusts will normally pay for the appropriate standard placement for each class of resident. Trusts retain the authority to vary the amount payable where the resident is assessed to require additional services.

Paramilitary Offences

Mr. Laurence Robertson: To ask the Secretary of State for Northern Ireland pursuant to his answer of 17 March, *Official Report*, columns 305–6W, on paramilitary offences, how many of the 106 deaths have been solved through the arrest and conviction of the people responsible; and if he will make a statement. [165690]

Mr. Pearson: The following table provides details of the number of security related murders and charges in respect of these murders.

Persons murdered as a result of the security situation 11 April 1998 to 29 February 2004

	Perceived attribution[1]		
	By Loyalist	*By Republican*	*Total*
Number of persons murdered	53	49	[2]102
Number of murders for which someone has been charged	18	1	19

[1] Attribution is as perceived by PSNI based on the information available.

[2] Excludes 4 deaths where the deceased was not murdered by terrorists but died in security related circumstances.

With regard to criminal proceedings there have been convictions for murder in respect of four deaths; convictions for lesser offences in respect of three deaths (including two for manslaughter); and directions of no prosecutions by the DPP or acquittals at trial in respect of five deaths. Of the remaining seven deaths where murder charges have been brought by police, the relevant cases are awaiting direction by the DPP or have yet to reach trial.

Peace II Programme

Mr. Peter Robinson: To ask the Secretary of State for Northern Ireland pursuant to the answer of 3 February 2004, *Official Report*, column 868W on PEACE II Programme, if he will break down each of the monthly figures by organisation to which money was allocated; under what measure number the PEACE II money was allocated; and how much money not allocated from the PEACE II funds is accessible by the Department of Agriculture and Rural Development. [166832]

Mr. Pearson: The Department of Agriculture and Rural Development's budget for 2003–04, excluding PEACE II, totalled £478.5 million.

It is not possible to provide a breakdown of the monthly expenditure figures provided in my answer of 3 February 2004, *Official Report*, column 868W. The figures given then were extracted from data that was collected by the Special EU Programmes Body for weekly reports and was not broken down at that time to project level.

The following data is drawn from the Structural Funds database at 16 April 2004 and represents a more up-to-date position of the expenditure entered onto the database during the six months in question:

Month	*PEACE II Measure*	*Project*	*Amount paid (£)*

Police Service of Northern Ireland

Mr. Dodds: To ask the Secretary of State for Northern Ireland how many *(a)* regular, *(b)* full-time reserve and *(c)* part-time reserve police officers were (i) in the establishment plan and (ii) in place in North Belfast in each year since 1996. [156629]

Mr. Pearson: The following table shows the numbers of regular, full-time reserve and part-time reserve officers based in North Belfast since 1996. It should be noted that the establishment figure for each District Command Unit is determined by the Chief Constable.

Numbers of regular, full-time reserve and part-time reserve officers based in North Belfast since 1996

	Regular officers		Full-time reserve officers		Part-time reserve officers	
	Established	Actual	Established	Actual	Established	Actual
April 1996[1]	[2]—	343	[2]—	154	[2]—	139
April 1997[1]	[2]—	346	[2]—	139	[2]—	128
April 1998[1]	[2]—	355	[2]—	147	[2]—	121
April 1999[1]	[2]—	353	[2]—	145	[2]—	119
April 2000	362	336	148	128	153	108
April 2001	446	394	159	130	153	104

Numbers of regular, full-time reserve and part-time reserve officers based in North Belfast since 1996

	Regular officers		Full-time reserve officers		Part-time reserve officers	
	Established	Actual	Established	Actual	Established	Actual
April 2002	436	349	159	109	153	100
April 2003	377	355	151	86	153	91
February 2004	389	357	101	73	200	80

[1] CID not included.
[2] No establishment data available.

Lady Hermon: To ask the Secretary of State for Northern Ireland what estimate he has made of the number of police reservists who would lose their jobs within each Police Service of Northern Ireland District Command Unit if the police reserve were to be phased out. [164659]

Mr. Pearson: The Patten Report recommended that "the future police service should not include a Full Time Reserve", and this recommendation was accepted by the Government, subject to the security situation. In October 2002, the Chief Constable submitted a human resource strategy to the Policing Board. It proposed that, subject to no further deterioration in the security situation, and the continued success of recruitment to the Police Service, the Full Time Reserve would be phased out over an 18 month period starting in April 2005.

The Chief Constable will review these matters later this year, and will subsequently put forward advice to the Board. An assessment of the potential operational impact on individual District Command Units of any phasing out process will form part of the Chief Constable's review.

Mr. Beggs: To ask the Secretary of State for Northern Ireland how many *(a)* protestant and *(b)* Roman Catholic applicants who have qualified for appointment to the Police Service of Northern Ireland since the introduction of 50:50 recruiting have not been offered employment with the PSNI; and how many such applicants have passed the entrance examinations on more than one occasion. [152461]

Jane Kennedy: From competitions 1 to 4, 1,706 non-Catholic and 604 Catholic applicants have qualified for appointment to the Police Service of Northern Ireland. Of these, 530 of each community background have been appointed. Of the qualified Catholic candidates, all were offered appointment, but some withdrew in the time intervening between qualification for appointment and the time of appointment.

Appointments from competition 5 have started, although the pool is not yet finalised, and the pool for competition 6 is not expected to be ready until April this year.

The information on the number of candidates who have passed the entrance examinations (i.e. have been successful in becoming qualified candidates and reaching the merit pool) more than once is taking some time to collate. As soon as the figures are available, they will be forwarded.

Mrs. Iris Robinson: To ask the Secretary of State for Northern Ireland what the transgressions that bar an individual from becoming a member of the Police Service of Northern Ireland are. [164924]

Mr. Pearson: Transgressions that bar an individual from becoming a member of the Police Service of Northern Ireland are set out in Schedule 1 of the Police (Recruitment) (Northern Ireland) Regulations 2001, entitled "Criminal Convictions etc", in respect of eligibility for appointment as a police trainee in the Police Service of Northern Ireland.

The Police Service of Northern Ireland (Recruitment of Police Support Staff) Regulations 2002 similarly set out the procedures in relation to support staff appointments.

Potato Ring Rot

Mr. Peter Robinson: To ask the Secretary of State for Northern Ireland pursuant to the answer of 3 February, *Official Report*, column 871W on potato ring rot, what vehicles purchased from modulation money for these purposes are now used. [166833]

Mr. Pearson: Following the recent finding of potato ring rot in Wales, the Department of Agriculture and Rural Development increased its existing stringent preventive measures to ensure that there was no plant health risk to the Northern Ireland potato industry. The majority of the costs associated with these additional measures related to DARD staff time, though small capital expenditure was incurred in 2003 on diagnostic work related to potato ring rot. No vehicles were purchased for the purposes of potato ring rot control.

Power-sharing

Mr. McNamara: To ask the Secretary of State for Northern Ireland what power sharing arrangements have been adopted for the appointment of mayor, deputy mayor and committee chairs in each district council area. [166780]

Angela Smith: There are a number of formal and informal power sharing arrangements operated by district councils for the appointment of mayor, deputy mayor and committee chairs. These include proportionality systems such as the D'Hondt system, the rotation of posts or a combination of these. The following table is based on information provided to the Department of the Environment by district councils and shows for each district council whether power sharing arrangements are in place.

District council[1]	*Mayor*	*Deputy mayor*	*Committee chair*
Antrim BC	Formal (Rotation)	Informal (Rotation)	Informal (Rotation)

Punishment Beatings

Mr. McGrady: To ask the Secretary of State for Northern Ireland how many individuals now serving a sentence in Hydebank Wood Young Offenders Centre *(a)* were victims of punishment beatings and *(b)* were classed as exiles prior to being detained in the centre. [163604]

Mr. Pearson: The Northern Ireland Prison Service does not collect data in the manner requested above. This is due to the fact that many inmates refuse to disclose the level of threat to which they have been subject; nor do we have any information on 'exiles'.

The only information available to us is from a survey of the inmate population of Hydebank Wood, conducted in March 2004 by representatives from Queens University Belfast. In the course of this survey they did receive responses from the inmates regarding their experiences of violence and threats.

Out of a sample size of 187 inmates the following was obtained:

Inmates were asked:

"Have you ever been threatened or assaulted by paramilitaries"

59.4 per cent. said that they had been threatened.

51 per cent. said that they had been assaulted.

The inmates were asked a supplementary question:

"and in the last year, were you threatened or assaulted by paramilitaries".

12.8 per cent. said that they had been threatened in the last year.

7 per cent. said that they had been assaulted in the last year.

23.5 per cent. said that they had been threatened and assaulted in the last year.

The inmates were finally asked:

"By which grouping, Loyalist or Republican"

21 per cent. (39 people) said they had been threatened or assaulted by Loyalists in the last year

21 per cent. (39 people) said that they had been threatened or assaulted by Republicans in the last year.

1 per cent. (two people) said that they had been threatened or assaulted by both groups in the last year.

Pupil Behavioural Surveys

David Burnside: To ask the Secretary of State for Northern Ireland if he will make a statement on the *(a)* cost, *(b)* number and *(c)* results of pupil behavioural surveys carried out in each education board area in the last year. [166715]

Mr. Gardiner: The information requested is not available in that form. However, each Education and Library Board does submit an annual statistical return

to the Department of Education giving details of the total number of pupils who have been suspended or expelled. The statistics for the 2002/03 school year are as follows:

Number of Pupils Suspended	5,320
Number of Pupils Expelled	70

In addition the Belfast Education and Library Board has recently published the findings of its "Behaviour in a Learning City—Best Value Review of the Provision of Behaviour Support".

Racism

Mr. Beggs: To ask the Secretary of State for Northern Ireland what steps he is taking to combat racism in Northern Ireland; and if he will make a statement. [165772]

Mr. Spellar: The Government have frequently put on record its abhorrence of all forms of intolerance and racism. It is committed to eradicating such manifestations of hatred, whether based on racism or based on sectarianism and is developing a co-ordinated response to the problem in Northern Ireland.

Enforcement action by Police Service of Northern Ireland will continue to be the key to tackling such attacks, and PSNI enforcement action will be accompanied by a range of actions by the Northern Ireland Office and the Northern Ireland Departments. As well as new legislative proposals, these will include measures on education, housing, health and social policy issues. The final version of the Race Equality Strategy (which takes account of extensive consultation with all sections of NI society) will be published by the Office of the First Minister and Deputy First Minister this summer and specific actions will be included in a detailed implementation plan developed in line with the strategy.

The Government's Community Safety Strategy, being implemented through the Community Safety Unit of the Northern Ireland Office, identified offences motivated by prejudice and hatred as a central theme in making Northern Ireland a safer place for all its citizens. Specifically, the Strategy seeks to reduce the levels of crime motivated by sectarianism, and to promote and enhance the safety of minority ethnic residents. Currently, the Unit is facilitating a working group of voluntary and statutory organisations which aims to establish a clear framework and operational system for the recording and monitoring of a number of hate crimes. These will include sectarian, racist and homophobic incidents. It is hoped to bring forward the consultation on such an agreed framework by the end of June, with implementation intended by October 2004. Within its Community Safety grant programme, the Challenge Competition, the Unit has also provided funding towards four projects which have a central theme of countering prejudice and hatred to a total value of £273255.

I have also published for consultation, draft legislation for Northern Ireland aimed at tackling racially motivated offences. The draft Order proposes provisions that will require sentencers, where offences are aggravated by such hostility, to treat racial and religious aggravation as an aggravating factor when sentencing. The legislation will also cover offences motivated by hatred of sexual orientation. The proposals will also increase maximum sentences available for certain specified, mainly violent, offences including where racial, religious or sexual aggravation is proven.

The issues raised by racism are issues for all sections of society in Northern Ireland and in expressing abhorrence of racism, all of us must avoid the temptation to demonise entire areas and communities. It would be an act of prejudice itself to stereotype people because of where they live or because of their community background. I reiterate the acknowledgement in the Belfast Agreement of the unique opportunity that exists here to bring about a society which will recognise the full and equal legitimacy and worth of identities, senses of allegiance and ethos of all sections of the community in Northern Ireland.

Special Advisers

Mr. Gregory Campbell: To ask the Secretary of State for Northern Ireland what changes have been made to the number of special advisers employed at the Office of the First and Deputy First Minister since suspension of devolution in October 2002. [165737]

Mr. Paul Murphy: During devolution six Special Advisers were employed by the Office of the First Minister and Deputy First Minister. The employment of all six terminated on suspension but four were subsequently re-appointed and continue to be employed by that Department.

Special Needs Education

Mr. McGrady: To ask the Secretary of State for Northern Ireland (1) what differences there are between the methods of delivering special needs education in integrated and mainstream schools; [163605]

(2) what provision for special needs education is made in the *(a)* integrated and *(b)* mainstream sector. [156104]

Mr. Gardiner: The assessment process and the provision put in place to meet a child's special educational needs (SEN) are determined by the needs of the individual and not the school sector in which the child is placed and there is therefore no difference across sectors in terms of the nature of support provided.

Each Education and Library Board is responsible for Statements of Special Educational Needs for pupils resident in its area. The Board will meet the educational costs associated with the Statement in respect of pupils in maintained schools and in controlled schools (including controlled integrated schools). The cost of the educational provision in Statements for children in grant—maintained integrated (GMI) schools is met by the Department because it has direct funding responsibility for these schools.

In addition, resources are allocated to schools (including GMI schools) through the various LMS formulae to assist pupils with special educational needs who do not require a Statement.

Stormont Castle

Mr. Gregory Campbell: To ask the Secretary of State for Northern Ireland what the cost to the public purse has been of the recent refurbishment of Stormont Castle. [165993]

Mr. Pearson: Stormont Castle was refurbished on behalf of the Northern Ireland Executive. The refurbishment was completed in 2001. The total cost of the work was £8 million.

Terrorism

David Burnside: To ask the Secretary of State for Northern Ireland what representations he made to the Prime Minister prior to his visit to Libya last week about the victims of terrorists supplied by Libyan arms and explosives. [165220]

Mr. Paul Murphy: The Government are aware of the recent calls by representatives of IRA victims and others that Libya should provide compensation for IRA victims.

The Prime Minister discussed a wide range of issues with Colonel Gadaffi including international and regional security issues, including terrorism.

Tree Preservation Orders

Mr. Hume: To ask the Secretary of State for Northern Ireland what applications for tree preservation orders in the vicinity of Danesfort Crescent, Steelstown Road and Greenhaw Road, Derry have been received. [166777]

Angela Smith: Planning Service has received five applications for tree preservation orders in the vicinity of Danesfort Crescent, Steelstown Road and Greenhaw Road, Derry.

Ulster-Scots

Mr. Dodds: To ask the Secretary of State for Northern Ireland what representations he has made to the Government of the Irish Republic on ratifying the European Charter for Regional and Minority Languages in respect of Ulster-Scots in the Republic of Ireland. [166439]

Mr. Paul Murphy: No representation has been made to the Irish Government.

UVF Ceasefire

Mr. McNamara: To ask the Secretary of State for Northern Ireland what his current assessment is of the UVF ceasefire. [164941]

Mr. Pearson: The Secretary of State keeps the ceasefires of all paramilitary organisations under review. The current judgment is that the UVF do not intend to end their ceasefire.

Written Answers to Questions

Thursday 22 April 2004

CULTURE, MEDIA AND SPORT

New Opportunities Fund

Mr. Pike: To ask the Secretary of State for Culture, Media and Sport how much money from the New Opportunities Fund was allocated to Burnley in each year since 1997. [167901]

Estelle Morris: The New Opportunities Fund began making grants in 1999. The awards to Burnley are shown in the table.

Financial year	£
1997–98	—
1998–99	—
1999–2000	38,000
2000–01	286,877
2001–02	872,209
2002–03	1,466,891
2004–03	220,000
Total	2,883,977

The information is derived from the Department's Lottery award database, which uses information provided by the Lottery distributors.

Mr. Hendrick: To ask the Secretary of State for Culture, Media and Sport how much money from the New Opportunities Fund was allocated to Preston in each year since 1997. [168142]

Estelle Morris: The New Opportunities Fund began making grants in 1999. The awards to Preston are shown in the table.

Financial year	£
1998–99	—
1999–2000	4,378,682
2000–01	558,009
2001–02	3,068,323
2002–03	2,500,450
2004–03	1,730,044
Total	12,235,508

The information is derived from the Department's Lottery award database, which uses information provided by the Lottery distributors.

Smithfield General Market

Alan Howarth: To ask the Secretary of State for Culture, Media and Sport if she will spotlist the Smithfield General Market, the adjacent fish market and Red House. [165520]

Mr. Caborn: These buildings have previously been turned down for listing in 1990,1999 and 2003. However, my right hon. Friend the Secretary of State has asked English Heritage for further advice. She will take a decision on whether to list these buildings once this advice has been received.

ENVIRONMENT, FOOD AND RURAL AFFAIRS

Biofuels

18. **Mr. Robathan:** To ask the Secretary of State for Environment, Food and Rural Affairs what representations she has received from farming groups regarding biofuels. [167024]

Mr. Morley: Representations have been received, both at meetings and in correspondence, from the National Farmers Union, the Country Land and Business Association, the British Association for Biofuels and Oils, British BioGen, plant breeders, agricultural suppliers, farming consultants and other agricultural businesses.

Farm Subsidies

19. **Nick Harvey:** To ask the Secretary of State for Environment, Food and Rural Affairs what assessments her Department has made of the effects of her proposals for single farm payments with respect to *(a)* tenant farmers, *(b)* new entrants and *(c)* farmers in severely disadvantaged areas; and if she will make a statement. [167026]

Alun Michael: Defra will publish shortly an analysis of the economic impact on the English farming industry of the decoupling of CAP direct payment and the decision to allocate entitlement on the basis set out in my right hon. Friend the Secretary of State's Statements to the House on 12 February and earlier today.

Aggregates Tax

Mr. Heath: To ask the Secretary of State for Environment, Food and Rural Affairs if she will make a statement on the environmental effects of the aggregates tax on Somerset. [167025]

Mr. Morley: The Aggregates Levy Sustainability Fund was set up using revenue from the aggregates levy to address the impacts associated with aggregates extraction. Somerset is one of the three counties which receive funding direct from Defra to support projects to reduce local impacts.

Bovine Tuberculosis

Mr. Rosindell: To ask the Secretary of State for Environment, Food and Rural Affairs what measures she plans to take to deal with the threat of bovine tuberculosis to cattle. [167018]

Mr. Bradshaw: We are currently consulting on a long-term strategy for dealing with bovine TB in Great Britain. In the short term our priority must be to prevent further spread of the disease and our consultation seeks views on various cattle-based measures designed to help us achieve this.

Coastal Protection

Mr. Gummer: To ask the Secretary of State for Environment, Food and Rural Affairs what discussions she has had with her ministerial colleagues in the Netherlands on similarities between the approaches taken in the UK and in the Netherlands to *(a)* the protection of the coastline, *(b)* the use of soft defences in coastal protection, *(c)* managed retreat and *(d)* managed realignment; and if she will make a statement. [164249]

Mr. Morley: I have had informal discussions with ministerial colleagues in the Netherlands on matters relating to coastal defences. However, officials from the two countries meet on a regular basis. Recognising the benefits to be gained by shared experiences both in respect of policy and engineering solutions, officials from the Netherlands, Germany, Belgium, Denmark and England agreed to meet on an annual basis more than five years ago and so formed the North Sea Coastal Managers Group. The English delegation is led by my Chief Engineer.

Meetings of the group have proved an invaluable forum for the exchange of information on the subjects raised by the right hon. Member. However it is important to recognise that there are differences between the Netherlands and England both in terms of the geography of the coastline and the proportion of the economic wealth at risk of flooding.

Employment Agencies

Matthew Taylor: To ask the Secretary of State for Environment, Food and Rural Affairs if she will list the employment agencies which her Department and its predecessors have used to supply temporary staff in each financial year since 1996–97 to the most recent date for which figures are available. [163821]

Alun Michael: Defra was formed in June 2001. The information prior to this date cannot be provided, as it is not held centrally. For the financial years for which information is available centrally the main employment agencies which the core Department has used to supply temporary staff are as follows:

2001–2002:

Adecco UK Ltd.
Kelly Services UK Ltd.
Badenoch & Clark
FSS International Ltd.
Spherion UK Plc
Stopgap Ltd.
Brook Street (UK) Ltd.

Other agencies may have been used by local managers when business needs have required resources which could not be provided from within the Department or a quick response. Data on these agencies is not held centrally.

GM Crops

Mr. Simon Thomas: To ask the Secretary of State for Environment, Food and Rural Affairs if she will make a statement on the *(a)* sampling procedures used in the Chardon LL VCU trials and *(b)* statistical validity of the results obtained. [166345]

Mr. Morley: The sampling procedures used in the Chardon LL Value for Cultivation and Use (VCU) trials were those specified in the trials protocol and used for all maize variety VCU trials. The procedures are designed to ensure that samples used in trials are as representative as possible of the variety in general. The results of the trials for Chardon LL were reviewed by maize trials experts on the Herbage VCU Group and members of the Interdepartmental Statisticians Group, who confirmed their statistical validity.

Local Food Production

Sir Paul Beresford: To ask the Secretary of State for Environment, Food and Rural Affairs if she will make a statement on her Department's support for local food production. [167013]

Alun Michael: The Government recognise the benefits of local food and is keen to encourage a flourishing local food sector. In recognition of this, provision is available under the England rural development programme for supporting activities such as the establishment of farmers' markets, the development of regional and local branding of foodstuffs and the formation of collaborative groups to market quality products. For example, within the last year we awarded £100,256 to the National Association of Farmers' Markets to raise the profile of farmers' markets across England and to increase public awareness of them.

Defra has also helped finance a number of local sourcing workshops organised by the Institute of Grocery Distribution (IGD) designed to bring together supermarkets and small local producers to explore how barriers to local sourcing can be overcome. Following on from this, we helped fund the Business in The Community (BiTC) and IGD guide for small businesses looking to work with large food retailers and food service companies—"Local Sourcing—Opening the Door for Small Business". In addition to this, our Public Sector Food Procurement Initiative is designed to encourage public sector bodies to procure their food in a manner that promotes sustainable development and to encourage more small and local businesses to compete to supply them with food.

This work will be complemented at a regional level through the regional plans that each regional development agency (RDA) is drawing up to help deliver the Government Strategy for Sustainable Farming and Food. Although the nature of this support will be determined according to regional priorities, issues to be addressed will include the production and supply of locally sourced food by encouraging food hubs and shared facilities and the linking of local producers with local retailers and tourist businesses.

Methyl Bromide

Alan Simpson: To ask the Secretary of State for Environment, Food and Rural Affairs what position Her Majesty's Government is taking over current applications to the United Nations for exemptions from the international ban on methyl bromide. [166573]

Mr. Morley: Methyl bromide is an ozone depleting substance and its production and supply are controlled under the Montreal Protocol. Its production is due to be phased out in developed countries after 31 December 2004.

However, in recognition that alternatives for all existing methyl bromide uses may not be available by 2005 a provision was made under Decision IX/6 of the Montreal Protocol, where critical use exemptions can be requested when there are no technically and economically feasible alternatives. The UK's view is that methyl bromide is being phased out by the Protocol and should not be phased back in by excessive critical uses.

Several Parties to the Protocol, including the UK, submitted applications for critical use exemptions and a package of exemptions was agreed at an Extraordinary Meeting of the Parties to the Protocol in Montreal (24–26 March 2004) Some further applications, including from the UK, will be due for decision by the Parties at a meeting of the Parties in November.

Parliamentary Questions

Mr. Miller: To ask the Secretary of State for Environment, Food and Rural Affairs what her best available estimate is of the cost of answering the questions on badgers and bovine TB asked by the hon. Member for North Shropshire (Mr. Paterson) in session 2003–04. [157135]

Mr. Drew: To ask the Secretary of State for Environment, Food and Rural Affairs what the cost has been of providing answers to parliamentary questions asked by the hon. Member for North Shropshire (Mr. Paterson) on the subject of bovine TB and related matters since 2003. [164210]

Mr. Bradshaw: The last estimate made of the average cost of answering a parliamentary question (April 2002) was £135.

The hon. Member for North Shropshire (Mr. Paterson) has tabled 450 questions on badgers and bovine tuberculosis during this parliamentary session. Thus the estimated total cost involved in answering these questions is £60,750.

This cost has been met by the diversion of resources from the development of policy and from scientific research in relation to both wildlife and to bovine TB. It has resulted in delays in responding to public correspondence and has held up work on areas such as the review of badger licensing, consultation on deer management, the review of the TB website and updating the advice to farmers in the booklet "Dealing with TB in Your Herd".

Temporary Staff/Consultants

Matthew Taylor: To ask the Secretary of State for Environment, Food and Rural Affairs pursuant to the answer of 9 March, *Official Report*, column 1391, on temporary staff, if she will list the amounts spent by her Department on *(a)* temporary staff and *(b)* consultants for each year; if she will publish the job descriptions of the consultants hired by her Department in (i) 2001–02, (ii) 2002–03 and (iii) 2003–04; and if she will make a statement. [164714]

Alun Michael: I am sorry the answer I gave the hon. Member on 9 March, *Official Report*, column 1391W, incorrectly included reference to consultants and did not accurately record the expenditure on temporary staff.

The correct figures from the Departmental accounts show payments to employment agencies for the supply of temporary staff for the three financial years as:

2001–02: £18.01 million

2002–03: £13.11 million, and

2003–04: £9.62 million respectively.

The figure for 2003–04 covers the period April to December 2004 only. Once financial year end reconciliations are complete, I can write to the hon. Member with the expenditure for the last three months of the financial year.

The job descriptions of the consultants hired by the Department in 2001–02, 2002–03 and 2003–04 are not held centrally and the information could be provided only at disproportionate cost.

UK National Seed List

Mr. Grogan: To ask the Secretary of State for Environment, Food and Rural Affairs if she will make a statement on her responsibilities relating to the inclusion of GM crops on the UK National Seed List as it applies in *(a)* Scotland, *(b)* Wales and *(c)* Northern Ireland. [166523]

Mr. Morley: The Seeds (National Lists of Varieties) Regulations 2001 (SI 2001/3510) deal with the acceptance of agricultural plant varieties onto the National Lists of varieties. These Regulations apply to both conventional and GM varieties. The National Lists are United Kingdom lists.

The National Authorities have the joint responsibility to decide whether a plant variety has met the criteria in the Regulations in order that it can be added to the relevant National List. The 'National Authorities' are defined for the purpose of the Regulations as:

in respect of England, the Secretary of State for Environment, Food and Rural Affairs;

in respect of Scotland, the Scottish Ministers;

in respect of Wales, the National Assembly for Wales; and

in respect of Northern Ireland, the Department of Agriculture and Rural Development.

Water Supply (Nitrate Pollution)

Sir Teddy Taylor: To ask the Secretary of State for Environment, Food and Rural Affairs what assessment she has made of the reasons for changes in the level of nitrate pollution in public water supplies; and what steps are being taken to reduce levels. [167020]

Mr. Morley: Unusual meteorological conditions caused an increase in nitrate levels in 2001. Results for 2002 show a significant improvement. We are supporting water company schemes for nitrate removal in the current periodic review of water price limits, provided there is sound evidence of the likelihood of future failures.

HOME DEPARTMENT

Al Tawhid

Mr. Dismore: To ask the Secretary of State for the Home Department if he will make a statement about the activities of Al Tawhid in the United Kingdom. [165904]

Mr. Blunkett *[holding answer 19 April 2004]:* Al Tawhid is a Sunni Palestinian organisation which appears to have close associations with the Palestinian Islamic Jihad and al-Qaeda. Its stated aim is to overthrow the Jordanian monarchy and replace it with a fundamentalist Islamic regime. However, though it has some support here, it does not appear to be formally active in the UK.

Al-Muhajiroun

Mr. Dismore: To ask the Secretary of State for the Home Department (1) if he will proscribe al-Muhajiroun under the anti-terrorism legislation; [165905]

(2) if he will make a statement on the activities of al-Muhajiroun. [165906]

Mr. Blunkett *[holding answer 19 April 2004]:* Al-Muhajiroun was established in 1996 and has members throughout Britain. It originated in Pakistan and has groups in a number of countries including the US. Its stated aim is the establishment of a worldwide Islamic way of life by openly attracting popular support amongst Islamic communities.

The list of proscribed organisations is kept under constant and active review. As a matter of policy, we do not comment on whether a particular organisation is being considered for proscription or de-proscription. Such decisions are and will continue to be taken only after the most careful consideration and on the basis of the best possible security advice. That will remain the basis for all decisions in the future.

Antisocial Behaviour

Mrs. Curtis-Thomas: To ask the Secretary of State for the Home Department what measures are in place to ensure courts give particular consideration to the impact of antisocial behaviour on victims, witnesses and the wider community. [165917]

Ms Blears: Section 16 of the Anti-social Behaviour Act 2003 requires courts to give particular consideration to the impact of antisocial behaviour on victims, witnesses and the wider community in all nuisance-related housing possession cases.

The Magistrates' Association implemented new sentencing guidelines on 1 January 2004, including for the first time guidelines for the offence of breach of an antisocial behaviour order (ASBO). The guidelines reflect the seriousness of the offence and direct the magistrate to consider the impact on the victim.

Mrs. Curtis-Thomas: To ask the Secretary of State for the Home Department how many areas have been designated as an area of persistent antisocial behaviour by a senior Merseyside police officer since the inception of this power. [165919]

Ms Blears: Merseyside police tell me that three areas have been designated as areas where antisocial behaviour is a significant and persistent problem since these powers came into force.

Chris Ruane: To ask the Secretary of State for the Home Department what assessment he has made of the new antisocial behaviour prosecutor teams in the Crown Prosecution Service. [166682]

The Solicitor-General: I have been asked to reply.

My right hon. Friend the Attorney General, together with the Secretary of State for the Home Department and the Director of Public Prosecutions, will be announcing today that 12 specialist Anti-Social Behaviour Expert Prosecutors have now taken up their post in hot spot areas around the country.

They will be dedicated to working closely with their local communities and colleagues in the Criminal Justice System, to combat antisocial behaviour, which, although at the lower end of the criminal scale of offences, are the cases which most affect law-abiding people, who remain trapped in their homes through fear of crime.

The Home Office, Crown Prosecution Service and Department of Constitutional Affairs will be working closely together to ensure that the Anti-Social Behaviour Expert Prosecutors will achieve their objective of ensuring that the maximum benefit is derived from the new powers given to them by the Anti-Social Behaviour Act 2003 as well as spreading best practice and providing expert advice.

Background Checks (EU)

Charles Hendry: To ask the Secretary of State for the Home Department what discussions he has had with his EU counterparts regarding requirements for checks on people coming to the UK from other EU countries before they can take up positions working with children or vulnerable people. [165832]

Paul Goggins *[holding answer 19 April 2004]:* On 18 March 2004 the Home Office held a seminar on collecting and sharing of information on child sex offenders across Europe. The seminar provided an opportunity for policy officials from across Europe to discuss how we can improve the collection and sharing of information on those who pose a risk of sexual harm. In particular the seminar examined how member states can ensure that people who pose a risk to children do not evade any requirements or disqualifications put on them in one country by moving to another.

We are now considering the options that arose from discussions at the seminar on how we can take this area of child protection forward.

Car Crime

Mr. Watson: To ask the Secretary of State for the Home Department how many car crimes there have been in each year since 1997; and how many resulted from the theft of car keys. [166836]

Ms Blears: The number of thefts of and thefts from vehicles (including cars, light vans, motorbikes and mopeds) since 1997 as measured by the British Crime Survey (BCS) are provided in the table.

Numbers of thefts of and thefts from vehicles 1997 to 2002–03 BCS interviews

Period	*Thefts of vehicles*	*Thefts from vehicles*
1997	370,000	2,157,000
1999	328,000	1,807,000
2001–02 interviews	315,000	1,491 ,000
2002–03 interviews	278,000	1,425,000

The BCS also provides the proportion of thefts of or from cars or light vans where entry into the vehicle involved the use of car keys (unlike for the numbers of offences above, these proportions do not include motorbikes or mopeds). The percentages from 1997 to 2001–02 are provided in the table.

Proportion of thefts of and thefts from cars/vans where the method of entry was with a key

Percentage

Period	*Thefts of vehicles*	*Thefts from vehicles*
1997	7	4
1999	8	1
2001–02 interviews	12	2

Chromatography Tests

Mr. Watson: To ask the Secretary of State for the Home Department what research he has evaluated on chromatography tests for traces of explosives in human hair. [166844]

Mr. Blunkett: A preliminary study into the recovery of explosive traces from the surface of human hair was carried out by the Forensic Explosives Laboratory, Defence Science and Technology Laboratory on behalf of the Home Office.

Subsequent research into the analysis of explosive traces extracted from human hair was carried out and included evaluation by gas chromatographic techniques. This work was published by Sanders et al in *Science and Justice* vol. 42, No. 3 (2002) pp137–142. I will send a copy to my hon. Friend.

Correctional Policy HQ Command

Mrs. Curtis-Thomas: To ask the Secretary of State for the Home Department what the intended size of the Correctional Policy Headquarters Command is. [165881]

Paul Goggins: The size of the Home Office Correctional Policy, Prison Service and Probation Service Headquarters is being considered as part of the ongoing departmental reform exercise.

Mrs. Curtis-Thomas: To ask the Secretary of State for the Home Department what assessment has been made of the Correctional Policy Headquarters' administrative requirements; and what estimate has been made of the costs. [165882]

Paul Goggins: The Home Office Correctional Policy, Prison Service and Probation Service Headquarters administration requirements are being considered as part of the ongoing departmental reform exercise. Headquarters costs in 2004–05 will be met from within existing provision. Funding for 2005–06 onwards will be agreed as part of the current spending review.

Criminal Records Bureau

Charles Hendry: To ask the Secretary of State for the Home Department what additional powers the Criminal Records Bureau would require to carry out checks on all people coming from abroad before they were able to take up positions working with children or vulnerable people. [165831]

Ms Blears *[holding answer 19 April 2004]:* Part 5 of the Police Act 1997, under which the Criminal Records Bureau operates, does not empower the Bureau to search databases outside the United Kingdom for conviction and other information shown on its Disclosures. Inquiries made about arrangements in force in other countries have shown both how varied they are and how complex it would be to introduce widespread arrangements to link up with records in a range of other countries. The Bureau has taken the initiative by establishing its overseas information service for the benefit of employers who are considering recruiting staff from outside the UK. The service provides detailed information about the arrangements for checks in other countries, including where such information can be obtained, how to go about obtaining a check, the cost and the time taken. At present, this arrangement covers 16 countries, including nine in Europe, and work is in hand to extend the service to a further 15 countries, including 14 in Europe.

Guantanamo Bay

Norman Baker: To ask the Secretary of State for the Home Department what assessment he made of the consistency with international law of the interrogation methods deployed by the US at Guantanamo Bay before sanctioning the involvement of MI5 in that process. [162883]

Mr. Blunkett *[holding answer 22 March 2004]:* The Government have a duty to protect national security. This is the context in which Security Service conducted interviews at Guantanamo Bay. All Security Service interviews were carried out in accordance with United Kingdom law.

Merseyside Police

Mrs. Curtis-Thomas: To ask the Secretary of State for the Home Department on how many occasions a Merseyside police officer has taken a child home after 9 pm from a designated area since the inception of this power. [165921]

Ms Blears: Merseyside police tell me that they have taken home eight unsupervised children in three specific areas since these powers came into force.

National Offender Management Service

Mrs. Gillan: To ask the Secretary of State for the Home Department which not-for-profit organisations have been invited to comment on the proposed National Offender Management Service. [165186]

Paul Goggins: Reducing Crime—Changing Lives, which invites comments on the proposed National Offender Management Service, was sent to an extensive list of stakeholders and is available on the Home Office website. The National Offender Management Service Implementation Team is also engaged in an ongoing consultation with key stakeholders.

Miss McIntosh: To ask the Secretary of State for the Home Department when he expects to publish legislation to introduce a National Offender Management Service; and whether he plans for it to be subject to pre-legislative scrutiny. [163105]

Paul Goggins: The National Offender Management Service will be introduced from 1 June 2004. Many of the changes needed to establish the service will not require legislation but where legislation is required this will be introduced as the legislative timetable allows.

Miss McIntosh: To ask the Secretary of State for the Home Department which bodies his Department has consulted on the proposals for a National Offenders Management Service. [163107]

Paul Goggins: Copies of "Reducing Crime—Changing Lives", the Government's proposals for reform of the correctional services, were distributed to an extensive list of organisations, individuals and stakeholders and made available on the Home Office website. The National Offender Management Service implementation team is involved in ongoing consultation with key stakeholders.

Police

Mr. Greg Knight: To ask the Secretary of State for the Home Department what disciplinary measures have been taken against police officers as a result of the breach of security on the parliamentary estate on 20 March. [165872]

Ms Blears *[holding answer 19 April 2004]:* In the immediate aftermath of the incident on 20 March, the Metropolitan Police Service instigated an investigation into the incident, to ensure that they had delivered the appropriate and professional response. That investigation continues, and I would not want to prejudge the outcome of that investigation.

Keith Vaz: To ask the Secretary of State for the Home Department what the reasons were for the decision not to charge the officers who made racist comments while filmed by an undercover journalist for the BBC documentary "The Secret Policeman". [166072]

Ms Blears: The Crown Prosecution Service makes the determination in all cases where criminal charges are being considered. The Crown Prosecution Service informs us that matters in respect of two of the 10 officers are the subject of further investigation. Once this investigation has been completed a file will be submitted for the Crown Prosecution Service's further consideration.

The remaining eight officers were not prosecuted because the Crown Prosecution Service considered there was insufficient evidence to provide a realistic prospect of conviction.

All 10 officers concerned were allowed to resign. Their police forces considered it in the public interest to end their relationship with the police service as quickly as possible rather than force them to remain to face police misconduct proceedings.

Brian Cotter: To ask the Secretary of State for the Home Department what change there has been in police numbers in *(a)* the Avon and Somerset police authority and *(b)* Weston-super-Mare in each year since 1997. [167504]

Ms Blears: The increase in police numbers for the Avon and Somerset constabulary for each year since 1997 is set out in the table.

	Police officer strength	*Increase decrease*	*Percentage change*
31 March 1997	2,989	—	—
31 March 1998	2,976	-13	-0.43
31 March 1999	2,999	+23	+0.77
31 March 2000	2,934	-65	-2.17
31 March 2001	2,960	+26	+0.89
31 March 2002	3,096	+136	+4.59
31 March 2003	3,149	+53	+1.71
31 December 2003	3,371	+222	+7.05
Overall increase	—	382	+12.78

Weston-super-Mare is part of the North Somerset Basic Command Unit (BCU). Information on strength at BCU level is collected annually and reflects the position at the end of March. Information on BCU strength is only available from 2002.

Between March 2002 and March 2003 police strength for the North Somerset BCU increased by 4.9 per cent. (from 203 to 213). The deployment of officers to BCUs is a matter for the Chief Constable (Stephen Pilkington QPM) and within the North Somerset BCU deployment of officers is a matter for the Divisional Commander.

Mr. Kaufman: To ask the Secretary of State for the Home Department what the percentage change in full-time police officers in Manchester Gorton has been since 1997. [167466]

Ms Blears: Manchester Gorton is part of the South Manchester Basic Command Unit (BCU). Information on strength at BCU level is collected annually and reflects the position at the end of March. Information on BCU strength is only available from 2002.

Between March 2002 and March 2003 police strength for the South Manchester BCU increased by 0.8 per cent. (from 954 to 962). The deployment of officers to BCUs is a matter for the Chief Constable (Michael Todd QPM) and within the South Manchester BCU deployment of officers is a matter for the Divisional Commander.

The number of police officers in Greater Manchester Police has increased by 848 since March 1997 to 7,770 in December 2003.

Probation

Mr. Hancock: To ask the Secretary of State for the Home Department what the effect has been on probation areas in England and Wales of the 2 per cent. underspend imposed in December 2003; and how many areas have appealed against the decision. [160807]

Paul Goggins: The 2 per cent. underspend and compulsory carry forward requirement was introduced for the following reasons:

The Probation Service was heading for a forecast overspend in 2003–04 and it was necessary to reduce spending to bring expenditure back into line with budget.

The probation areas had an average 11 per cent. increase in resources for 2003–04 and the increase for 2004–05 is much lower at 3.5 per cent. It was therefore considered desirable to smooth the annual settlements by moving 2 per cent. from 2003–04 to 2004–05, therefore making the relative financial settlements 9 per cent. and 5.5 per cent.

28 areas have managed to carry forward the full 2 per cent. or more into their budget for 2004–05. A further eight areas have managed partial carry forwards.

The remaining six areas have appealed against the decision to have their budgets reduced by 2 per cent.

Mrs. Curtis-Thomas: To ask the Secretary of State for the Home Department what the reasons were for the increase of £47.2 million for Probation Headquarters in the Spring Supplementary Estimates; and how this money will be spent. [165876]

Paul Goggins: A transfer of £30.5 million was made from the Chief Executive of the National Offender Management Service to the National Probation Directorate primarily to fund Electronic Monitoring, the Standard Technical Environment for the Probation Service (STEPS) Information Technology roll-out and Probation Loan Charges.

A further transfer of £16.7 million was made from the Criminal Justice Information Technology Group to fund the STEPS Information Technology rollout.

INTERNATIONAL DEVELOPMENT

Afghanistan

Joan Ruddock: To ask the Secretary of State for International Development what new money he pledged to Afghanistan at the recent Donor Conference in Berlin. [166724]

Hilary Benn: At the Afghanistan donor conference in Berlin I announced an increase of the UK pledge to Afghanistan from £200 million over 5 years, to £500 million over the same period.

When DFID made the pledge of £200 million over five years in Tokyo in January 2002, this only related to DFID funds for humanitarian and reconstruction work. Since then funding for Afghanistan has become available from other parts of Whitehall, with the Global Conflict Prevention Pool establishing a programme for Afghanistan (£55 million over three years), and the formulation of a counter narcotics strategy with specific funding (£70 million over three years). Inclusion of these figures in the pledge announced allows them to now be properly recognised by the Afghan Government.

Since the pledge took effect in March of 2002, DFID has disbursed over £150 million. The new pledge takes our reconstruction funding for Afghanistan to £375 million, this represents £175 million in new money.

EU Development Assistance

Mr. Bercow: To ask the Secretary of State for International Development (1) what his Department's involvement was in the 2002 project, financed by EU Development Assistance, to promote the human rights of the indigenous people of Chaco in Bolivia; and what assessment he has made of the project; [167079]

(2) what his Department's involvement was in the 2002 project, financed by EU Development Assistance, to defend human rights in Colombia; and what assessment he has made of the project; [167080]

(3) what his Department's involvement was in the 2002 project, financed by EU Development Assistance, to strengthen institutional support for human rights in Mexico; and what assessment he has made of the project; [167081]

(4) what his Department's involvement was in the 2002 project, financed by EU Development Assistance, to provide a landmine expert to Sudan; and what assessment he has made of the project; [167082]

(5) what his Department's involvement was in the 2002 project, financed by EU Development Assistance, entitled Participation Management of National Resources in Berau in Indonesia; and what assessment he has made of the project; [167083]

(6) what his Department's involvement was in the 2002 project, financed by EU Development Assistance, on rehabilitation and reconstruction in Afghanistan; and what assessment he has made of the project; [167084]

(7) what his Department's involvement was in the 2002 project, financed by EU Development Assistance, entitled Second Recovery Programme in Afghanistan; and what assessment he has made of the project; [167085]

(8) what his Department's involvement was in the 2002 project, financed by EU Development Assistance, entitled Truth and Reconciliation Commission in Peru; and what assessment he has made of the project; [167086]

(9) what his Department's involvement was in the 2002 project, financed by EU Development Assistance, to reinforce civil society in Guatemala; and what assessment he has made of the project; [167087]

(10) what his Department's involvement was in the 2002 project, financed by EU Development Assistance, to reinforce democracy in Venezuela; and what assessment he has made of the project; [167088]

(11) what his Department's involvement was in the 2002 project, financed by EU Development Assistance, to reinforce the judicial system in Colombia; and what assessment he has made of the project; [167089]

(12) what his Department's involvement was in the 2002 project, financed by EU Development Assistance, to undertake a landmine technical survey in the Inhambane and Maputo provinces of Mozambique; and what assessment he has made of the project; [167093]

(13) what his Department's involvement was in the 2002 project, financed by EU Development Assistance, to undertake a landmine impact survey; and what assessment he has made of the project; [167094]

(14) what his Department's involvement was in the 2002 effort, financed by EU Development Assistance, to deliver micro-projects in Malawi; and what assessment he has made of the project; [167095]

(15) what his Department's involvement was in the 2002 project, financed by EU Development Assistance, to provide *(a)* reconstruction at Sona and *(b)* medical assistance in the Congo; and what assessment he has made of the project; [167096]

(16) what his Department's involvement was in the 2002 project financed by EU development assistance to help displaced communities to return home to Djbouti; and what assessment he has made of the project; [167097]

(17) what his Department's involvement was in the 2002 project financed by EU development assistance to reintegrate Ethiopians displaced from Eritrea; and what assessment he has made of the project; [167098]

(18) what his Department's involvement was in the 2002 project financed by EU development assistance to clear mines in Eritrea; and what assessment he has made of the project; [167099]

(19) what his Department's involvement was in the 2002 project financed by EU development assistance to support refugees and internally displaced people in Eritrea; and what assessment he has made of the project; [167100]

(20) what his Department's involvement was in the 2002 project financed by EU development assistance to provide emergency demobilisation and reintegration support in Eritrea; and what assessment he has made of the project; [167101]

(21) what his Department's involvement was in the 2002 project financed by EU development assistance to deliver micro projects in *(a)* the Central African Republic and *(b)* Angola; and what assessment he has made of each project; [167102]

(22) what his Department's involvement was in the 2002 project financed by EU development assistance to deliver micro projects in Togo; and what assessment he has made of the project; [167103]

(23) what his Department's involvement was in the 2002 project financed by EU development assistance on the reintegration of ex-combatants in rural areas of Guinea Bissau; and what assessment he has made of the project; [167104]

(24) what his Department's involvement was in the 2002 project financed by EU development assistance to improve healthcare provision in the Congo; and what assessment he has made of the project; [167105]

(25) what his Department's involvement was in the 2002 project financed by EU development assistance to deliver micro projects in the Congo; and what assessment he has made of the project; [167106]

(26) what his Department's involvement was in the 2002 project, financed by EU development assistance, to provide complementary support to the rehabilitation programme in Burundi; and what assessment he has made of the project; [167107]

(27) what his Department's involvement was in the 2002 project, financed by EU development assistance, to provide emergency support to the peace process in Angola; and what assessment he has made of the project; [167108]

(28) what his Department's involvement was in the 2002 project, financed by EU development assistance, to support displaced people in *(a)* Eastern and Southern Africa and *(b)* the Indian Ocean; and what assessment he has made of each project; [167109]

(29) what his Department's involvement was in the 2002 projects, financed by EU development assistance, entitled Education-Environmental Capacity Development Programme in *(a)* Ghana, *(b)* Namibia, *(c)* South Africa, *(d)* Mozambique and *(e)* Angola; and what assessment he has made of the projects; [167110]

(30) what his Department's involvement was in the 2002 project, financed by EU development assistance, to reduce rural poverty and manage forest sustainability through development of non-timber products and community institutions in Ethiopia; and what assessment he has made of the project; [167111]

(31) what his Department's involvement was in the 2002 project, financed by EU development assistance, to deliver community-based fisheries management and coral reef restoration in *(a)* the Caribbean and *(b)* the Pacific; and what assessment he has made of the projects; [167112]

(32) what his Department's involvement was in the 2002 project, financed by EU development assistance, to deliver sustainable forest management in Kenya; and what assessment he has made of the project; [167113]

(33) what his Department's involvement was in the 2002 project, financed by EU development assistance, to provide infrastructure technical assistance in Sempoa; and what assessment he has made of the project; [167114]

(34) what his Department's involvement was in the 2002 project, financed by EU development assistance, to provide sanitation in St.Pierre; and what assessment he has made of the project; [167115]

(35) what his Department's involvement was in the 2002 project, financed by EU development assistance, to deliver micro-projects at a cost of €7.0 million, linking relief, rehabilitation and development in the Dominican Republic; and what assessment he has made of the project; [167116]

(36) what his Department's involvement was in the 2002 project, financed by EU Development Assistance, entitled Bugesera/Karenge drinking water supply in Rwanda; and what assessment he has made of the project; [167117]

(37) what his Department's involvement was in the 2002 project, financed by EU Development Assistance, entitled Karasburg Sanitation in Namibia; and what assessment he has made of the project; [167118]

(38) what his Department's involvement was in the 2002 project, financed by EU Development Assistance, to provide *(a)* community based natural resource management and *(b)* carbon management in Mozambique; and what assessment he has made of the projects; [167119]

(39) what his Department's involvement was in the 2002 project, financed by EU Development Assistance, entitled Beira Sanitation in Mozambique; and what assessment he has made of the project; [167120]

(40) what his Department's involvement was in the 2002 project, financed by EU Development Assistance, to undertake social forestry in Malawi; and what assessment he has made of the project; [167121]

(41) what his Department's involvement was in the 2002 project, financed by EU Development Assistance, to provide water supply for six towns in Lesotho; and what assessment he has made of the project; [167122]

(42) what his Department's involvement was in the 2002 projects, financed by EU Development Assistance, to manage natural resources in semi-arid regions in *(a)* Kenya and *(b)* Somalia; and what assessment he has made of the projects; [167123]

(43) what his Department's involvement was in the 2002 project, financed by EU Development Assistance, to use a new wildlife management method in Gabon; and what assessment he has made of the project; [167124]

(44) what his Department's involvement was in the 2002 project, financed by EU Development Assistance, to manage protected forest areas through Government NGO and civil society partnerships in Cameroon; and what assessment he has made of the project; [167125]

(45) what his Department's involvement was in the 2002 project, financed by EU Development Assistance, to improve rural water distribution in Burkina Faso; and what assessment he has made of the project; [167126]

(46) what his Department's involvement was in the 2002 project, financed by EU Development Assistance, to deliver a solid waste programme in the Dominican Republic; and what assessment he has made of the project; [167127]

(47) what his Department's involvement was in the 2002 project, financed by EU Development Assistance, to provide sustainable forest management in Tanzania; and what assessment he has made of the project; [167128]

(48) what his Department's involvement was in the 2002 project, financed by EU Development Assistance, to deliver a water sector support programme in South Africa; and what assessment he has made of the project; [167129]

(49) what his Department's involvement was in the 2002 project, financed by EU Development Assistance, on education reform in El Salvador; and what assessment he has made of the project; [167136]

(50) what his Department's involvement was in the 2002 projects, financed by EU Development Assistance, on ecology in Brazil; and what assessment he has made of the projects; [167137]

(51) what his Department's involvement was in the 2002 project, financed by EU Development Assistance, to strengthen the capacity of citizens in Colombia to exercise their rights; and what assessment he has made of the project; [167138]

(52) what his Department's involvement was in the 2002 project, financed by EU Development Assistance, on human rights in Guatemala; and what assessment he has made of the project; [167139]

(53) what his Department's involvement was in the 2002 project, financed by EU Development Assistance, on re-unification in Peru; and what assessment he has made of the project; [167140]

(54) what his Department's involvement was in the 2002 project, financed by EU Development Assistance, on the defence and promotion of the rights of the indigenous people and those of African origin in Nicaragua; and what assessment he has made of the project; [167141]

(55) what his Department's involvement was in the 2002 project, financed by EU Development Assistance, to counter discrimination on grounds of ethnicity in Guatemala; and what assessment he has made of the project; [167142]

(56) what his Department's involvement was in the 2002 project, financed by EU Development Assistance, to strengthen organisational processes in 120 communities in Colombia; and what assessment he has made of the project; [167143]

(57) what his Department's involvement was in the 2002 project, financed by EU Development Assistance, to counter racial discrimination in Paraguay; and what assessment he has made of the project; [167144]

(58) what his Department's involvement was in the 2002 projects, financed by EU Development Assistance, to rehabilitate victims of torture in *(a)* Argentina, *(b)* Chile and *(c)* Peru; and what assessment he has made of the projects; [167145]

(59) what his Department's involvement was in the 2002 project, financed by EU Development Assistance, to prevent torture in Peru; and what assessment he has made of the project; [167146]

(60) what his Department's involvement was in the 2002 project, financed by EU development assistance, to provide an electoral observation mission in Ecuador; and what assessment he has made of the project; [167147]

(61) what his Department's involvement was in the 2002 project, financed by EU development assistance, to create a code of ethics and of education in Ecuador; and what assessment he has made of the project; [167148]

(62) what his Department's involvement was in the 2002 project, financed by EU development assistance, on public engagement in the electoral process in Columbia; and what assessment he has made of the project; [167149]

(63) what his Department's involvement was in the 2002 micro projects, financed by EU development assistance, at a cost of €1,300,000 in *(a)* Colombia, *(b)* Guatemala and *(c)* Mexico; and what assessment he has made of the projects; [167150]

(64) what his Department's involvement was in the 2002 project, financed by EU development assistance, on the reform and modernisation of public administration in Honduras; and what assessment he has made of the project; [167151]

(65) what his Department's involvement was in the 2002 project, financed by EU development assistance, on the modernisation of the administration of justice in Mexico; and what assessment he has made of the project; [167152]

(66) what his Department's involvement was in the 2002 project, financed by EU development assistance, on the development of commerce and promotion of investment in Bolivia; and what assessment he has made of the project; [167153]

(67) what his Department's involvement was in the 2002 project, financed by EU development assistance, on academic co-operation in Latin America; and what assessment he has made of the project; [167154]

(68) what his Department's involvement was in the 2002 project, financed by EU development assistance, on rural development in Nicaragua; and what assessment he has made of the project; [167155]

(69) what his Department's involvement was in the 2002 project, financed by EU development assistance, on help for small rural producers in Panama; and what assessment he has made of the project; [167156]

(70) what his Department's involvement was in the 2002 project, financed by EU Development Assistance, to *(a)* provide education in South Sudan on the banning of landmines, *(b)* train refugees in Tanzania in self-reliance and *(c)* secure demobilisation and reintegration in (i) the Great Lakes and (ii) Eritrea; and what assessment he has made of each project; [167157]

(71) what his Department's involvement was in the 2002 project, financed by EU Development Assistance, to *(a)* support the Office of the Attorney General and *(b)* provide the rapid reaction mechanism to (i) Afghanistan, (ii) Indonesia, (iii) Nepal, (iv) Sri Lanka and (v) Cambodia; and what assessment he has made of each project; [167158]

(72) what his Department's involvement was in the 2002 project, financed by EU Development Assistance, entitled *(a)* Asia-Urbs (increase), *(b)* ASEAN-IPR (increase), *(c)* Asia-Europe Foundation Phase II, *(d)* Asia Invest II and *(e)* IT and C for Asia (increase); and what assessment he has made of each project; [167159]

(73) what his Department's involvement was in the 2002 project, financed by EU Development Assistance, entitled *(a)* framework contract/studies for Asia, *(b)* medicinal plants in Bhutan and *(c)* APRIS institutional strengthening at a cost of €4 million; and what assessment he has made of each project; [167160]

(74) what his Department's involvement was in the 2002 project, financed by EU Development Assistance, to *(a)* support the SME Development fund in Vietnam, *(b)* provide multilateral trade assistance to Cambodia and *(c)* provide support to the process of government reform in Pakistan; and what assessment he has made of each project; [167161]

(75) what his Department's involvement was in the 2002 project, financed by EU Development Assistance, entitled *(a)* WTO II (support to China's integration) in China and *(b)* small project facility in (i) Indonesia and (ii) the Philippines; and what assessment he has made of each project; [167162]

(76) what his Department's involvement was in the 2002 project, financed by EU Development Assistance, entitled *(a)* Vietnamese Government Interpreters Training Programme in Vietnam, *(b)* European TA programme for Vietnam (ETU2) and *(c)* labour market facility in Vietnam; and what assessment he has made of each project; [167163]

(77) what his Department's involvement was in the 2002 project, financed by EU Development Assistance, *(a)* to provide multilateral trade assistance to Laos, *(b)* on renewable energy in Nepal, *(c)* to develop rural towns in Bangladesh and *(d)* to provide support for community health services in Indonesia; and what assessment he has made of each project; [167164]

(78) what his Department's involvement was in the 2002 project, financed by EU Development Assistance, entitled *(a)* SEDF-Enterprise development in Bangladesh, *(b)* Reproductive Health/UNFPA II in Asia and *(c)* Drugs-Reach Out II in Pakistan; and what assessment he has made of each project; [167165]

(79) what his Department's involvement was in the 2002 project, financed by EU Development Assistance, entitled *(a)* Northern Pakistan Education Programme, *(b)* Support for Basic Education in Laos and *(c)* SMILING (Support to NGOs in Bangladesh); and what assessment he has made of each project; [167166]

(80) what his Department's involvement was in the 2002 project, financed by EU Development Assistance, *(a)* to provide assistance for street children in Vietnam, *(b)* to support healthcare reform in Thailand and *(c)* to deliver an HIV/AIDS project within the UN joint plan of action in Burma; and what assessment he has made of each project; [167167]

(81) what his Department's involvement was in the 2002 project, financed by EU Development Assistance, *(a)* to provide support to the education sector in Cambodia and *(b)* to provide European studies in China; and what assessment he has made of each project; [167168]

(82) what his Department's involvement was in the 2002 micro-projects, financed by EU Development Assistance, in *(a)* Zimbabwe and *(b)* Tanzania; and what assessment he has made of each project. [167169]

Hilary Benn: DFID has been involved in the projects, or programmes described in a number of ways. Firstly by contributing the UK's share of the European Commission budget allocated to the projects cited and secondly, wherever possible through in-country consultation with the EC office over project and

programme design. DFID also attend the relevant Management Committees that approved the EC strategies and programmes under which the projects were or are being implemented. Finally, in some cases, DFID has formed part of a multi-donor in-country programme management committee that oversaw or is overseeing project implementation.

Some of the projects cited are ongoing and an assessment will only be possible once they have been completed. The EC, through its results-orientated management system and strengthened evaluation systems, is best placed to carry out such an assessment. DFID is however often involved in, or consulted on, such assessments. Assessments carried out to date have identified both significant success and areas for improvement. DFID continues to work with the European Commission to improve the quality and impact of its development assistance.

I refer the Hon. Member for Buckingham to the information available in the '2003 Annual Report from the European Commission to the Council and the European Parliament on the EC Development Policy and the Implementation of External Assistance 2002' and the European Commission's website http://europa.eu.int for further details about individual programmes and projects. I will place copies of the report in the Libraries of the House.

Uganda

Mr. Boris Johnson: To ask the Secretary of State for International Development if he will make a statement on the efficacy of his Department's contract with the World Food Programme to distribute food to Teso in North East Uganda. [166760]

Hilary Benn: The Department for International Development has a Memorandum of Understanding (MoU) with the United Nation's World Food Programme in Uganda. The current MoU has been in place since December 2002. It clearly sets out the UK's expectations in relation to our bilateral financing, and gives the World Food Programme (WFP) obligations to fulfil.

The WFP has the full capacity required to provide food relief in the North and East of Uganda effectively. WFP is the UN agency mandated to provide food aid in such a large-scale emergency, and the only agency on the ground equipped with the necessary staff, resources and experience necessary to respond adequately to the situation. DFID closely monitors the WFP's performance through the reports it submits directly to DFID, the monthly Humanitarian Updates it provides to the donor community as a whole, and regular discussions with WFP representatives in Kampala.

PRIME MINISTER

Committee on Standards in Public Life

Claire Ward: To ask the Prime Minister when he will announce new appointments to the Committee on Standards in Public Life; and if he will make a statement. [168455]

The Prime Minister: I am pleased to announce that I have appointed Sir Alistair Graham as Chairman of the Committee on Standards in Public Life in succession to Sir Nigel Wicks with effect from Monday 26 April. Sir Alistair has been a Member of the Committee since 1 October 2003.

I have also appointed Lady Elizabeth Vallance as a Member of the Committee in succession to Sir Alistair following his appointment as Chairman.

Both appointments have been made fully in accordance with the Commissioner for Public Appointments' Code of Practice.

I am very grateful to Sir Nigel for his excellent leadership of the Committee, and for the significant contribution he has made to upholding and improving standards in public life.

Food Imports

Andrew George: To ask the Prime Minister which Government Departments are responsible for ensuring that *(a)* EU member states' and *(b)* EU accession states' food imports to the UK meet the appropriate EU (i) slaughter, (ii) production, (iii) processing, (iv) labelling, (v) hygiene, (vi) food safety and (vii) traceability standards. [167322]

The Prime Minister: It is the responsibility of the relevant authorities in each EU member state and accession state to ensure that all food is produced and exported in accordance with EU legislation. The European Commission's Food and Veterinary Office is responsible for ensuring that authorities comply with these responsibilities.

Food coming to the UK from accession states before 1 May 2004 (and after this date for accession states not due to join the EU on 1 May) will be subject to the same import controls as food from other non-EU countries. Such food is subject to routine food safety and standards checks at UK ports by local authorities.

The Food Standards Agency and the Department for Environment, Food and Rural Affairs and its agencies are responsible for food safety and food standards in the UK. Enforcement responsibilities are delegated to environmental health and trading standards departments in local authorities, who carry out checks on food to ensure compliance with food safety and food hygiene standards.

Foreign Ministerial Visits

Norman Baker: To ask the Prime Minister what his policy is on the length of time it is appropriate for Cabinet Ministers to be out of the country. [167798]

The Prime Minister: Section 7 of the Ministerial Code provides guidance to Ministers making overseas visits.

Jonathan Powell

Norman Baker: To ask the Prime Minister for what reasons Mr. Jonathan Powell has the power to direct civil servants. [167797]

The Prime Minister: Jonathan Powell has executive powers under article 3(3) of the Civil Service Order in Council. He has direct responsibility for leading and co-ordinating operations across Number 10 and reports to me.

Mayor of London

Mr. Randall: To ask the Prime Minister when he last met the Mayor of London. [168001]

The Prime Minister: I have meetings with a wide range of organisations and individuals, including the Mayor of London. As with previous administrations, it is not my practice to provide details of all such meetings, under exemption 2 of the Code of Practice on Access to Government Information.

Michael Meacher

Norman Baker: To ask the Prime Minister for what reasons the hon. Member for Oldham West and Royton left his post as Environment Minister. [167773]

The Prime Minister: As has been the practice under successive administrations, all ministerial offices are at the disposal of the Prime Minister. Details of resigning Ministers have been announced on each occasion.

Ministerial Cars

Norman Baker: To ask the Prime Minister what steps he is taking to reduce the dependency of *(a)* himself and *(b)* his Ministers on ministerial cars. [167800]

The Prime Minister: Under the terms of the Ministerial Code, Ministers are required to make efficient and cost-effective arrangements, taking account of security considerations.

All ministerial travel on official business is undertaken in accordance with the rules set out in "Travel by Ministers".

Surveillance Commissioner

Tom Levitt: To ask the Prime Minister if he will make a statement on the reappointment of the Surveillance Commissioner under Part III of the Police Act 1997. [168424]

The Prime Minister: In accordance with Section 91 of the Police Act 1997, I have agreed to re-appoint Sir Philip Otton as Surveillance Commissioner from 1 February 2004 to 31 January 2007. The remit of each Surveillance Commissioner covers the whole of the United Kingdom so that any Surveillance Commissioner can act in jurisdictions other than his own.

The right hon. Sir Philip Otton has served as a Surveillance Commissioner since 2001. I am delighted that Sir Philip has accepted his re-appointment and am grateful for his continuing work.

Use of Government Property

Norman Baker: To ask the Prime Minister what his policy is in respect of the use of Government property by individuals other than special advisers to carry out work for New Labour. [167795]

The Prime Minister: Guidance to Ministers on the use of Government property is set out in section 6 of the Ministerial Code.

SOLICITOR-GENERAL

Katharine Gun

Mr. Hancock: To ask the Solicitor General pursuant to her answer of 8 March 2004, *Official Report*, column 314W, on Katharine Gun, if the Attorney-General will place copies of the correspondence between Ministers and himself on the Katharine Gun case in the Library. [164241]

The Solicitor-General: The correspondence between the Attorney-General and Ministers relates to the "Shawcross" exercise undertaken by the Attorney-General. The Attorney wrote to ministerial colleagues asking for views and any issues which may impact upon his decision whether or not it was in the public interest to consent to the prosecution of Katharine Gun for an offence under section 1 of the Official Secrets Act. The correspondence falls within exemptions 1, 2 and 4 of Part II of the Code of Practice on Access to Government Information. The correspondence includes information whose disclosure would harm national security and was a consultation between Ministers where their advice and views were sought. The Attorney-General considers that to disclose this would harm the frankness and candour of internal discussion. He has concluded the harm likely to arise from disclosure of this material outweighs the public interest in making the information available. In addition the correspondence related to legal proceedings and therefore comes under exemption 4.

Copies of correspondence between Ministers and the Attorney-General on the Katharine Gun case will not therefore be placed in the Library.

TRANSPORT

Buses (Merseyside)

Mr. Kilfoyle: To ask the Secretary of State for Transport what incentives have been provided to upgrade buses used within the Merseyside transport system. [166979]

Mr. McNulty: Under the LTP process, Merseyside's five year Plan and 10 year Strategy include significant investment in the development and promotion of bus services. Merseytravel are working with local bus operators to improve standards through the Quality Corridors initiative in the LTP. Corridor Q, for example, was launched in St Helens in March 2003, involving a package of bus priorities, new bus stops, information systems and low floor buses. Merseytravel have also encouraged operators to fit particulate filters to 140 city buses through an Energy Saving Trust supported programme to encourage lower vehicle emissions.

Congestion Charge

Huw Irranca-Davies: To ask the Secretary of State for Transport when he last met representatives of *(a)* Transport for London and *(b)* the Greater London Authority to discuss the congestion charge. [166907]

Mr. McNulty: The London congestion charging scheme is the responsibility of the Mayor, not the Government. However, Ministers have regular meetings with the Mayor at which a wide range of transport matters are discussed.

Driving Test Waiting Times

Mr. Dismore: To ask the Secretary of State for Transport what the average wait for a driving test is *(a)* at Mill Hill test centre, *(b)* in London and *(c)* in each of the other regions of the United Kingdom; what plans he has to improve delays in giving test dates; and if he will make a statement. [167091]

Mr. Jamieson: The Driving Standards Agency has a national target for the average annual waiting time for a practical car driving test in England, Scotland and Wales of six weeks. The current national average waiting time for a test is 9.8 weeks. The current waiting time for a practical car driving test at the Mill Hill test centre is 17 weeks. The average waiting time for a test in the London and South East area is 13.3 weeks. Waiting times for a practical car driving test vary in the other areas of Great Britain as follows:

Area	*Average waiting time (weeks)*
Midlands and Eastern	10.3
Wales and Western	7.2
Northern	9.7
Scotland	4.9

In Northern Ireland, the Driver and Vehicle Testing Agency has a target average waiting time for a practical car driving test of 23 days. The average waiting time across test centres in Northern Ireland is currently 27 days.

In order to reduce the current high waiting times for tests in Great Britain to the six week waiting time target, the Driving Standards Agency recruited 283 new driving examiners in the last financial year and plans to recruit a further 330 in the coming year. An extra 7.30 am test slot is being added to weekday programmes in some test centres and tests are now offered on Sundays. The agency is deploying as many driving examiners as possible from Scotland to the London and South East area to tackle the problem of high waiting times there. In the context of its Business Plan for 2004–05, I have set the agency a target to bring national waiting times down to six weeks by January 2005.

Electronic Vehicle Licensing System

Mr. Hancock: To ask the Secretary of State for Transport pursuant to the answer of 1 April 2004, *Official Report*, column 1571W, on Electronic Vehicle Licensing System, when the Electronic Vehicle Licensing System will be implemented for cars over 3-years-old; and what the completion date for the full scheme is. [166997]

Mr. Jamieson: The electronic system for vehicles over 3-years-old will require a link between DVLA and the new MOT computer system. This should be fully available by early 2006.

Green Minister

John Thurso: To ask the Secretary of State for Transport (1) what work his Department's Green Minister has undertaken in the last three months in that capacity; [166063]

(2) what meetings his Department's Green Minister has attended in the last 12 months in that capacity; [166064]

(3) if he will list the meetings at which his Department has been represented on the delivery of sustainable development across Government as coordinated by the Ministerial Sub-committee of Green Ministers; [166065]

(4) what steps he is taking to promote the delivery of sustainable development within Government; [166066]

(5) what progress has been made on his Department's sustainable development strategy. [166067]

Mr. McNulty: Since becoming the Department's Green Minister, I have attended a number of meetings with Defra Ministers, including the Environment Minister, Elliot Morley, during which a range of sustainable development issues of concern to both our Departments were discussed.

I am also a member of ENV(G). It has been established practice under successive Governments not to disclose information relating to the proceedings of Cabinet Committees. This practice is now formalised by Exemption 2 of Part II of the Code of Practice on Access to Government Information.

In my role as Green Minister, I have overseen the publication of the Department's Sustainable Development Policy Statement which was published on the DfT website in March of this year. This outlines how DfT is integrating the principles of sustainable development into decision-making. It complements the Department's existing 'Green Operations Policy Statement' (also on the website), which sets out our objectives for improving the environmental performance of the estates of the Department and its Executive Agencies.

Liverpool Airport

Mr. Kilfoyle: To ask the Secretary of State for Transport what plans he has to review the role of Liverpool Airport within the national airport strategy. [166980]

Mr. McNulty: The White Paper The Future of Air Transport, published in December, recognised the benefits to the local economy resulting from the expansion of Liverpool Airport and supported its further growth to accommodate increased demand. It is now for the airport operator to bring forward specific development proposals. We will report progress on the policies and proposals set out in the White Paper in 2006.

Traffic Calming

Mr. Redwood: To ask the Secretary of State for Transport what representations he has had from the emergency services since June 2001 on the removal of *(a)* speed humps and *(b)* pinch points on the road network. [165960]

Dr. Howells: The emergency services have made no requests for the removal of traffic calming measures. The London Ambulance Service has however requested that before any measures are introduced full consideration be given in order that the right balance is struck between effective traffic calming and allowing ambulances to continue with minimum hindrance.

Bob Spink: To ask the Secretary of State for Transport what *(a)* factors and *(b)* statistics relating to road humps his Department is planning to monitor; and when monitoring will commence. [167226]

Mr. Jamieson: The Department has conducted a number of monitoring exercises into the effects of road humps in recent years. The results of this work have been published in Traffic Advisory Leaflets and technical reports. Details of these projects are contained in Traffic Advisory Leaflet 5/01 entitled Traffic Calming Bibliography. Copies are available from the House of Commons Library. There are no plans to conduct further monitoring exercises at the present time.

Transport Services (Birkenhead)

Mr. Frank Field: To ask the Secretary of State for Transport how many miles of new cycle lanes have been provided using public funds in Birkenhead since 1997. [166497]

Dr. Howells: 4.05 miles of new cycle lanes have been constructed in Birkenhead since 1997. This includes both on-road and off-road cycle provision, and the breakdown is as follows:

	Miles
Millennium Route (part)	2.80
Beaufort Road cycle route	0.69
Beechwood cycle route	0.56
Total	4.05

Mr. Frank Field: To ask the Secretary of State for Transport how many miles of priority bus lanes have been created in Birkenhead since 1997. [166499]

Dr. Howells: 0.60 miles of priority bus lanes have been created in Birkenhead since 1997. They are as follows:

	Miles
Hamilton Square	0.08
Borough Road (West)	0.25
Borough Road (East)	0.06
Singleton Avenue	0.03
A41 near Bolton Road	0.10
Woodchurch Road (Prenton)	0.08
Total	0.60

LEADER OF THE HOUSE

Departmental Communications

Matthew Taylor: To ask the Leader of the House (1) how many staff are employed in the Office to work in the communications field, broken down by *(a)* Government Information and Communication Service staff and *(b)* other staff, broken down by (i) press officers, (ii) special advisers and (iii) others; [158159]

(2) what the total expenditure on communications for his Office has been in 2003–04, broken down by expenditure on *(a)* Government Information and Communication Service staff and *(b)* other staff, broken down by (i) press officers, (ii) special advisers and (iii) others. [158206]

Mr. Hain: The information requested is as follows:

Expenditure in 2003–04	£
GICs	0
Press Officers	[1]0
Special Advisers	[2]—
Others	[3]41,348

[1] My Office does not employ any GICs staff or Press Officers directly. Press Office services are provided by the Cabinet Office at no charge.

[2] The Special Advisers' Code of Conduct sets out the sort of work a special adviser may undertake on behalf of their Minister. This includes communications activity. Details of the costs of Special Advisers are given on an annual basis. Information for the financial year 2003–04 will be published in due course.

[3] Cost of development and hosting of a new website. This work is contracted out by this Office.

TRADE AND INDUSTRY

EU (Recognition of Qualifications)

Harry Cohen: To ask the Secretary of State for Trade and Industry if she will make a statement on the proposed European Directive on the mutual recognition of professional qualifications, with particular reference to the impact on the free movement of healthcare professionals; and what assessment she has made of the report adopted by the European Parliament on the Directive. [166873]

Jacqui Smith: I welcome the simplification and rationalisation of existing rules relating to professional recognition, in particular new flexibilities proposed for temporary, cross-frontier provision of services. Simpler conditions for services provision will help improve labour mobility across the European Union and contribute to the creation of a real single market in services.

The European Commission and Council have recognised the need for controls for health professionals and I agree that prior checks of qualifications are necessary in some sectors, where human health and safety are at risk. In the case of health professionals, the UK is seeking to maintain current provisions for temporary and automatic recognition applying to doctors, dentists, general care nurses, midwives and

pharmacists, and is pressing for prior checks before temporary services provision in the cases of other health professionals.

The European Parliament has proposed a large number of amendments to the text of the draft Directive, which have yet to be incorporated by the Commission into a revised text. A re-assessment of the draft Directive will be made by my right hon. Friend the Secretary of State for Education when the revised text has been presented to the Council.

Internet Fraud

Mr. Sheerman: To ask the Secretary of State for Trade and Industry what recent discussions she has had with the Home Office about combating fraud committed over the internet. [166737]

Mr. Timms: The Home Office leads on e-crime and sets a comprehensive framework of action. DTI and HO officials are in regular contact to consider the whole range of cybercrime issues and how they impact on the interests of businesses and consumers. DTI officials are represented on the Internet Crime Forum which brings together Government, law enforcement agencies and internet industry to tackle crime and foster business and public confidence in the use of the internet. The Forum is actively considering future work on internet fraud. My officials are also in regular contact with the relevant law enforcement authorities to explore how best to convey crime prevention messages and how best users may manage their systems to enable the efficient detection and investigation of on-line crime.

Miners' Compensation

Mr. Allen: To ask the Secretary of State for Trade and Industry if she will list law companies who have not responded to the request to repay amounts overcharged to miners and their widows in respect of processing miners' compensation claims; and if she will make a statement. [166422]

Nigel Griffiths *[holding answer 21 April 2004]*: Following is a list of solicitors who have either stated they do not intend to repay claimants, or did not respond to my letter about refunding overpayments or who have requested that they be removed from the DTI list of approved solicitors.

As you will be aware, my letters of December 2003 and February 2004 to all firms of solicitors handling these claims asked that those who had unfairly taken a proportion of miners' compensation to repay the money. I wrote to the Law Society asking them to take action to ensure that their members voluntarily refund any fees taken, rather than wait for miners to contact them. I also passed the names of all firms who did not reply, to the Law Society asking them to take urgent action to ensure that the firms comply with my request.

After looking into the issue, the Law Society has concluded that such double charging is unlikely to be justified, and is 'likely to give rise to a finding of inadequate professional service'.

List of all solicitors written to in December and/or February who have been removed from the website because they either failed to respond or asked to be removed

Regulatory Impact Assessments

Mr. Drew: To ask the Secretary of State for Trade and Industry what recent discussions she has had with the British Chamber of Commerce on the subject of regulatory impact assessments. [166454]

Nigel Griffiths: I meet Mr. David Frost, the Director General of BCC regularly, most recently at the BCC Conference on 21 April where I took part in a panel discussion on RIAs. I understand the BCC welcomes the Government's work on RIAs.

Renewable Energy

Angela Watkinson: To ask the Secretary of State for Trade and Industry what progress her Department is making on promoting the environmental benefits of renewable energy. [167003]

Mr. Timms: I launched the "It's only natural" campaign in February. This will initially target key decision makers in the financial and planning sectors to ensure that they are equipped with the best information for making decisions regarding renewable energy. The campaign will continue to the end of March 2005 and there is a £2 million budget for the project.

Royal Mail

Bob Spink: To ask the Secretary of State for Trade and Industry what recent assessment she has made of the operational efficiency of Royal Mail; what action she is taking to improve the standards of delivery of domestic mail; and if she will make a statement. [167199]

Mr. Timms: The assessment of the operational efficiency of Royal Mail and any action to be taken to improve the standards of delivery of domestic mail is a matter for the postal regulator, Postcomm.

Small Businesses (Tynemouth)

Mr. Alan Campbell: To ask the Secretary of State for Trade and Industry what recent action her Department has taken to support small businesses in Tynemouth constituency. [165362]

Nigel Griffiths: In his budget statement my right hon. Friend the Chancellor announced a number of steps to help small businesses including an increase of capital allowances to 50 per cent. and raising VAT registration threshold to 58 per cent. all of which helps Small Businesses in Tynemouth.

The Chancellor also announced that the Employer Training Pilot, which has been running in Tyne and Wear for the last year, would be rolled out and made available to businesses throughout the North East. This helps businesses to improve the skills of their workforce by providing training tailored to their needs. The programme not only offers free tailored advice on training but also the unique prospect of subsidised training and wage compensation to employers for the time workers are away from work—traditionally one of the biggest barriers to training in smaller companies.

The core funding provided to Business Link Tyne and Wear, has provided a foundation on which the Business Link has sourced additional funding projected at £14.5 million for the benefit of businesses in Tyne and Wear, for the year 2004–05.

Around £3.5 million of this is available, including a subsidy of up to 50 per cent. for management development training and upskilling the workforce to SME's across Tyne and Wear.

Businesses can also benefit from a range of Workforce Development services to help SMEs achieve the Investors in People Standard and develop their workforce. One business based in Tynemouth, received 50 per cent. subsidy to help them towards paying their Investors in People assessment fees. SMEs with between

5 and 49 employees are also eligible for additional funding towards helping them to reach the standard. In the past, financial subsidies towards consultancy costs were only available to businesses over 36 months old and these were restricted to specific projects. Now, a subsidy of up to 45 per cent. can be accessed by businesses of any age or size towards the cost of any business related consultancy. Around £4 million is available for this purpose.

Local SMEs can also benefit from up to 45 per cent. funding towards the cost of exhibition space and the design build and dressing of a stand. In conjunction with this, Business Link Tyne and Wear have held three 'Meet the Buyer' events over the last two years as a means for local SMEs to meet buyers from both within and beyond the region, offering SME's the opportunity to become integral cogs in supply chains.

Business Link Tyne and Wear has helped a number of businesses in the Tynemouth area to access financial assistance, one such SME received a 45 per cent. subsidy to help them to develop their website. They also went on to receive an additional 50 per cent. subsidy towards the cost of training, to enable staff to update the website once developed.

In addition, a restaurant in Tynemouth, received 50 per cent. funding towards Management Development training, they also had consultancy assistance, to help them to develop a marketing strategy.

Unsecured loans of up to £15,000 are also available to businesses in the North East that have had difficulty accessing finance elsewhere. Businesses must work with a mentor and repay the loan within five years.

Over the past 15 months Business Link has received 660 inquiries from existing businesses and people looking to start their own business in North Tyneside. Of these, 43 existing, and 22 start up inquiries were from Tynemouth. 670 businesses have started in North Tyneside. They are offered an independent service of one-to-one 'counselling' and given intensive advice on business planning, marketing and finance.

An adviser from Business Link and North Tyneside Council's advisers work side by side at North Tyneside Council's premises in North Shields to provide advice and support to businesses based in North Tyneside, including Tynemouth. In addition, an adviser is based in Tynemouth and North Tyneside Colleges two days a week to offer advice to anyone that is looking to start or already running a business.

Tyne and Wear Small Business Fund, through the Regional Development Agency's Single Programme Funding, (Managed by Tyne and Wear Development Company and delivered by each local authority) is a 50 per cent. Capital Equipment Grant of between £500 and £2,500 available to pre-start and new businesses—up to 12 months old.

The Regional Service for Clustering (RSC), also funded by the Dti, through the RDA, helps groups of SME's collaborate support across Tyne and Wear—this project is based in North Tyneside.

North Tyneside Council also provides free business advice and guidance to all businesses setting up in North Tyneside.

Steel

Mr. Foulkes: To ask the Secretary of State for Trade and Industry if she will make a statement on the supply of steel in the UK for manufacturing industries. [167188]

Jacqui Smith: Global steel prices have risen sharply in recent months as a result of rising input costs and market demand. This is causing difficulties for certain steel using industries where they have limited scope for passing on the increased cost to customers. There have been reports of tightness in the steel supply market, with imports to the EU reduced, but I understand that all types of steel remain available, although prices are high. There is no shortage of supply from UK steel producers.

Textiles

Bob Spink: To ask the Secretary of State for Trade and Industry how many people were employed in the textile industry in 1997; and how many are employed in it now. [165383]

Jacqui Smith: The information requested is as follows:

thousands

	Employee jobs in textile and clothing industries (SIC 17–18)
June 1997	347
June 2003	180
December 2003	171

Source:
Office for National Statistics Annual Business Inquiry and the Department of Enterprise, Trade and Investment Northern Ireland Quarterly Employment Survey.
Employee jobs in local units of Standard Industrial Classification division 17 (textiles) and division 18 (clothing).

Wind Energy

Bob Spink: To ask the Secretary of State for Trade and Industry what the cost is per kilowatt hour of electricity generated by *(a)* offshore wind and *(b)* onshore wind; and if she will make a statement. [167200]

Mr. Timms: Modelling carried out to support the recent Innovation Review puts the current estimated cost of onshore wind generation at 3.1–4 p/kWh expected to fall to ~2.5–3.2 p/kWh by 2020 and offshore wind generation at 6.0–7.6 p/kWh expected to fall to ~3.0–4.6 p/kWh by 2020.

Mr. Boswell: To ask the Secretary of State for Trade and Industry if she will make a statement on the environmental impact of wind farms. [167012]

Mr. Timms: The Energy White Paper published in February 2003 set out the Government's energy policy to tackle the crucial environmental challenge of climate change. The challenge we face is to reduce the levels of carbon dioxide in the atmosphere, one of the main causes of climate change, which have risen by more than a third since the industrial revolution and are now rising faster than at any time in the past.

The Government has set the target of obtaining 10 per cent. of our electricity from renewable sources by 2010, with the aspiration of doubling this by 2020.

Renewable energy will make an important contribution to the Government's wider climate change programme. It is estimated that increased renewable energy generation, to meet the 2010 target, will deliver additional carbon savings of some 2.5 million tonnes of carbon per year by 2010, and that doubling this by 2020 would achieve further cuts of some 3 to 5 million tonnes of carbon per year above that by 2020. Wind power is expected to make the largest contribution of between 7 and 8 per cent. towards the 2010 renewable electricity generation target and the positive environmental impact that will make.

Under the normal planning regime and for consent under section 36 of the Electricity Act 1989 or the Transport and Works Act 1992 wind farm developers are required to consider all environmental aspects of wind energy projects and produce an Environmental Impact Assessment. These assessments are available to the public.

Worldwide Interoperability for Microwave Access

Mr. Watson: To ask the Secretary of State for Trade and Industry what discussions she has had with the IT industry about the recommendations of the industry forum for Worldwide Interoperability for Microwave Access; and if she will make a statement. [166883]

Mr. Timms: Worldwide Interoperability for Microwave Access, commonly referred to as Wi-Max, is a North American based industry initiative to promote open interoperability between products designed for broadband wireless access. We welcome efforts to improve standards of interoperability between vendor products through industry initiatives. The Department participates in several fora where these standards are generated and used. My officials have discussed the initiative in regular meetings with companies concerned in this sector. Use of wireless relies on availability of essential spectrum, which in the UK is now the responsibility of the new independent regulator for communications—Ofcom. Accordingly, my officials have asked the Chief Executive of Ofcom to respond to my hon. Friend. Copies of the Chief Executive's letter will be placed in the Libraries of the House.

HEALTH

Allergies

Andrew Mackinlay: To ask the Secretary of State for Health if he will make a statement on the extent of Government research and development programmes on allergies. [165062]

Dr. Ladyman: Details of research projects relating to allergies funded by, or of interest to, the national health service are recorded on the National Research Register (NRR) at www.update-software.com/national. The NRR currently contains details of over 100 on-going projects in this area, as well as a larger number of completed projects. Much of this work is funded through allocations made annually to NHS providers for research and development to meet the priorities and needs of the NHS and to meet the costs to the NHS of hosting research supported by external funders. The total amount allocated to NHS providers in 2003–04 for research and development was £442 million. In addition, the Department is funding research on air pollution and asthma under its policy research programme.

In 2001–02, expenditure by the Medical Research Council on its respiratory disorders portfolio was an estimated £11.9 million, which included work on allergies and asthma.

The Food Standards Agency funds research on food allergy and intolerance, with particular emphasis on severe allergies, how they occur and what causes them. A large programme of research on food intolerance and allergy, costing around £1 million a year is ongoing.

Consultants

Mr. Lansley: To ask the Secretary of State for Health how many hospital consultants retired in the last quarter of *(a)* 2002–03 and *(b)* 2003–04. [165886]

Mr. Hutton: Retirement data in the format requested and figures for 2003–04 are not available. The number of consultants in England and Wales, who received a pension from the National Health Service Pension Scheme in the year to 31 March 2003, is shown as follows:

1 April 2002 to 31 March 2003

Consultant Pension Awards: 451

Pension scheme records are continually, and retrospectively, being updated to reflect further membership activity and revised data. This data extract therefore represents a snapshot in time as at August 2003.

Dementia

Dr. Stoate: To ask the Secretary of State for Health (1) what data collection systems are in place to record the *(a)* number and *(b)* costs of drugs for dementia supplied to acute and mental health trusts; [166549]

(2) what steps he is taking to ensure that accurate outturn figures are available for the *(a)* number and *(b)* costs of drugs for dementia supplied to acute and mental health trusts; [166550]

(3) if he will discuss with acute and mental health trusts the provision of systems to ensure accurate outturn figures for the *(a)* number and *(b)* costs of drugs for dementia supplied to acute and mental health trusts. [166551]

Dr. Ladyman: In 2002–03 national health service trusts in England spent £1,942.8 million on the purchase of medicines, including medical gases. Detail of the break down of this figure into different therapeutic classes of medicines is not available.

The national programme for information technology is charged with delivering the IT strategy for the NHS. Details were set out in "Delivering 21st Century IT Support for the NHS". The implementation of this national IT strategy will enable the collection and analysis of more detailed information on the use of medicines by the NHS.

Foundation Trusts

Mr. Burstow: To ask the Secretary of State for Health what statistics will be available centrally from his Department on NHS foundation trusts. [166438]

Mr. Hutton: The Department will continue to publish statistics on the performance of the national health service as a whole. This will include information on services commissioned by primary care trusts and provided by NHS trusts, NHS foundation trusts, diagnosis and treatment centres and independent sector providers.

General Practitioners

Mr. Yeo: To ask the Secretary of State for Health how many general practitioners there were per head of population in *(a)* England and *(b)* each strategic health authority in each year since 1997. [166653]

Mr. Hutton: Information on the number of general practitioners (excluding retainers) per 100,000 population in England and in each strategic health authority (SHA) since 1997 is shown in the table.

The Office for National Statistics has not yet published 2003 population data by SHA. Therefore, information for 2003 has only been provided on a national level.

Department of Health General and Personal Medical Services Statistics

NHS Staff

Mr. Yeo: To ask the Secretary of State for Health what the cost of *(a)* medical and dental staff and *(b)* administration and estates staff was in each year from 1997–98 to 2002–03 (i) in cash terms and (ii) as a proportion of total NHS expenditure. [166656]

Mr. Hutton: Table 1 shows expenditure on medical and dental staff in cash terms in England, for financial years 1997–98 to 2002–03.

Table 2 shows expenditure on administrative and estates staff in cash terms in England, for financial years 1997–98 to 2002–03.

Table 3 shows expenditure on medical and dental staff as a proportion of total national health service expenditure, for financial years 1997–98 to 2002–03.

Table 4 shows expenditure on administrative and estates staff as a proportion of total NHS expenditure, for financial years 1997–98 to 2002–3.

Table 1: Hospital and community health services expenditure on medical and dental staff in England 1997–98 to 2002–03

£

	Total expenditure
1997–98	3,021,917,492
1998–99	3,300,976,457
1999–2000	3,664,710,847
2000–01	4,,138,320,465
2001–02	4,790,866,706
2002–03	5,445,120,598

Table 2: Hospital and community health services expenditure on administration and estates staff in England 1997–98 to 2002–03

£

	Total expenditure
1997–98	2,962,032,067
1998–99	3,122,153,228
1999–2000	3,368,608,095
2000–01	3,705,851,155
2001–02	4,175,084,314
2002–03	4,710,704,403

Table 3: Hospital and community health services expenditure on medical and dental staff in England 1997–98 to 2002–03 as a proportion of total net NHS expenditure (England)

	Percentage of total expenditure
1997–98	8.72
1998–99	9.02
1999–2000	9.19
2000–01	9.42
2001–02	9.72
2002–03	10.02

Table 4: Hospital and community health services expenditure on administration and estates staff in England 1997–98 to 2002–03 as a proportion of total net NHS expenditure (England)

	Percentage of total expenditure
1997–98	8.54
1998–99	8.53
1999–2000	8.45
2000–01	8.43
2001–02	8.47
2002–03	8.67

Sources:

Expenditure on administration and estates staff:

Annual financial returns of NHS trusts 1997–98 to 2002–03

Annual financial returns of health authorities 1997–98 to 2001–02

Annual financial returns of strategic health authorities 2002–03

Annual financial returns of primary care trusts 2000–01 to 2002–03

Total expenditure:

From 1997–98 to 1999–2000—Departmental Report 2001 (Cm 5103)

From 2000–01 to 2002–03—Departmental Report 2003 (Cm 5904).

Nursing

Dr. Murrison: To ask the Secretary of State for Health (1) for what reason his Department ceased in October 2001 to collect data on the proportion of student nurses who successfully complete courses in *(a)* general nursing, *(b)* paediatric nursing, *(c)* midwifery and *(d)* psychiatric nursing; [166353]

(2) what targets his Department has for reducing the attrition rate among student nurses; [166354]

(3) what targets his Department set in March 2001 for reducing the attrition rate among student nurses. [166355]

Mr. Hutton: The English National Board for Nursing (ENB) collected information on the attrition rate from nursing and midwifery courses until its abolition in March 2002 with the creation of the Nursing and Midwifery Council (NMC). A new attrition data collection system administered by the Higher Education Statistics Agency (HESA) has been put in place, from which the information will be available in due course. A single and consistent definition of attriton has also been agreed with higher education institutions.

The latest complete information on attrition from nurse training courses relates to the 1997–98 cohort and averaged 20 per cent. across all branches. The human resources performance framework, published in October 2000, set a target of 13 per cent. attrition for students entering nurse training in 2000–01. Workforce development confederations and strategic health authorities are working with higher education institutions to meet this target locally.

Postcode Prescribing

Mr. Evans: To ask the Secretary of State for Health what plans he has to tackle the large local variations in the availability of chemotherapy and other systemic therapies across England identified by the National Audit Office in its report on cancer services. [R] [164684]

Miss Melanie Johnson: I refer the hon. Member to the response I gave to my hon. Friend the Member for Norwich, North (Dr. Gibson) on 19 April 2004, *Official Report*, column 173W.

Primary Care Trusts

Mrs. Gillan: To ask the Secretary of State for Health if he will undertake a review of the funding allocation for the Buckinghamshire primary care trusts before 2006. [166817]

Mr. Hutton: Work on the next round of funding allocations, covering the period up to 2007–08, has already commenced. The Advisory Committee on Resource Allocation will oversee issues relating to the next round of funding allocations. The development of the allocations policy will involve consideration of funding for all primary care trusts.

Social Services Departments

Miss Widdecombe: To ask the Secretary of State for Health how many social services departments do not have an intervenor service for deafblind children. [166854]

Dr. Ladyman *[holding answer 21 April 2004]:* Guidance published by the Department in 2001 required local authorities to ensure the provision of specifically trained one-to-one support workers for deafblind people assessed as needing one. The 2001 guidance refers to intervenor services as one form of support. Sense, the charity for deafblind people, recently estimated that 19 per cent. of social services departments are providing intervenors for at least one person.

Supporting People Scheme

Mr. Drew: To ask the Secretary of State for Health what recent discussions he has had with the Office of the Deputy Prime Minister and the Treasury on the overspend on the Supporting People budget. [167855]

Dr. Ladyman: I met my hon. Friend the Under-Secretary of State, Office of the Deputy Prime Minister (Yvette Cooper) on 13 January. I attended an inter-ministerial meeting on this subject on 14 January.

Mr. Drew: To ask the Secretary of State for Health what advice he has given to local Supporting People teams on the implications of the budget overspend. [167856]

Dr. Ladyman: Advice to local Supporting People teams is the responsibility of my right hon. Friend the Deputy Prime Minister.

EDUCATION AND SKILLS

Apprenticeships (Manchester)

Mr. Kaufman: To ask the Secretary of State for Education and Skills how many residents of Manchester, Gorton have undertaken apprenticeships in each of the last five years. [167437]

Mr. Ivan Lewis: The information requested is not available at parliamentary constituency level. Nor is the information available on a consistent geographical basis over the last five years. However, the following table shows the number of starts on modern apprenticeships in the Greater Manchester Learning and Skills Council (LSC) area between April 2001 and the end of July 2003, as well as the number of starts from April 1996 to March 2001 in the six Training and Enterprise Councils (TECs) that amalgamated into Greater Manchester LSC—Bolton and Bury, Manchester, Oldham, Rochdale, Stockport and High Peak and Wigan.

Number of starts on modern apprenticeships in the Greater Manchester Learning and Skills Council (LSC) plus number of starts in the six Training and Enterprise Councils (TECs)

TEC/LSC	Advanced MAs	Foundation MAs
April 1998 to March 1999[1]		
Bolton and Bury CCTE	800	600
Manchester	2,400	700
Oldham CCTE	400	300
Rochdale CCTE	500	100
Stockport and High Peak[2]	800	100
Wigan CCTE	700	300
April 1999 to March 2000[1]		
Bolton and Bury CCTE	900	1000
Manchester	2,800	1,800
Oldham CCTE	500	500
Rochdale CCTE	500	600
Stockport and High Peak[2]	700	700
Wigan CCTE	700	600
April 2000 to March 2001[1]		
Bolton and Bury CCTE	700	1,200
Manchester	3,200	2,600
Oldham CCTE	500	700
Rochdale CCTE	400	700

Degree Courses

Mr. Stephen O'Brien: To ask the Secretary of State for Education and Skills how many and what proportion of students graduated from *(a)* skills-based and *(b)* academic degree courses in each year between 1997 and 2003; and if he will make a statement. [153536]

Alan Johnson: The available information on first degree graduates is taken from the Higher Education Statistics Agency (HESA) Student Record and is given in the table. Figures are given on a subject of study basis.

First Degree Graduates[1] from UK HE institutions by subject

Subject group	1997/98		1998/99		1999/2000

[1] Figures include both home and overseas students.
[2] Figures for 2002/03 are provisional.
[3] The Joint Academic Coding of Subjects (JACS) coding frame was introduced in 2002/03 and replaces HESA's HESACODE classification which was used for years up to and including 2001/02. The main effect of this is to reduce the number of students in the Combined course category and increase those who are allocated to specific subject groups.

Early Years Development

Mr. Simmonds: To ask the Secretary of State for Education and Skills how many playgroup places were available in each year since 1997. [163141]

Margaret Hodge: The information is not available in the form requested. The available information is shown in the table.

Number of registered childcare places[1] by type of provider England 1997–2003—Position at 31 March each year

	1997	1998	1999	2000	2001	[2]2002	[3]2003
Day nurseries [4]	193,800	223,000	247,700	264,200	285,100	n/a	n/a
Full day care[5]	n/a	n/a	n/a	n/a	n/a	n/a	383,200
Playgroups and pre-schools[4]	383,700	383,600	347,200	353,100	330,200	n/a	n/a
Sessional day care[5]	n/a	n/a	n/a	n/a	n/a	n/a	279,700
Childminders	365,200	370,700	336,600	320,400	304,600	n/a	317,200
Out of school clubs[4]	78,700	92,300	113,800	141,100	152,800	n/a	n/a
Holiday schemes[4,5]	209,000	256,500	435,300	[6]490,400	550,400	n/a	n/a
Out of school day care[7]	n/a	n/a	n/a	n/a	n/a	n/a	322,200
Creche day care[7]	n/a	n/a	n/a	n/a	n/a	n/a	37,200

n/a = Not available
[1] Figures have been rounded
[2] 2002 was a transitional year when Ofsted established its databases and validated the actual number of individuals and organisations that were providing childcare
[3] The number of childcare places and providers are not directly comparable because they were collected differently
[4] Data Source: Children's Day Care Facilities
[5] From 1999, places at holiday schemes were counted once for each school holiday during the year. Prior to 1999, places were counted once only
[6] Includes those schemes exempt from registration
[7] Data Source: Ofsted

With the introduction of the National Day Care Standards and the transfer of responsibilities for registration and inspection to Ofsted, childcare places are classified according to whether they are full day care, sessional day care, childminder, out of school day care or crèche day care places. Previously, childcare places were classified according to whether they were provided by day nurseries, playgroups and pre-schools, childminders, out of school clubs or holiday schemes. Figures for 2003 are not directly comparable with figures for earlier years because they are collected on a different basis. Some playgroups and pre-schools provide full day care and some former playgroups and pre-schools have converted to day nurseries.

Statistics on the number of childcare places registered in England were published on 19 February 2004 in a report by Ofsted "Registered Childcare Providers and Places in England, 31 December 2003'. The report is available on the Ofsted website www.ofsted.gov.uk/publications.

University Attendance (Greater London)

Simon Hughes: To ask the Secretary of State for Education and Skills how many people attended university from Greater London in each year since 1996, broken down by local education authority. [163069]

Alan Johnson: The available information is taken from the Universities and Colleges Admissions service (UCAS) and covers all applicants accepted through UCAS to full time first degree and HND courses. Figures are given in the table.

Home domiciled applicants accepted for entry to HE through UCAS

UCAS

Further Education

Chris Grayling: To ask the Secretary of State for Education and Skills how many students have applied to take *(a)* foundation degrees and *(b)* Higher National Diplomas in each of the past three years. [152648]

Alan Johnson: The available information covers those applying through the Universities and Colleges Admissions Service (UCAS) to full-time foundation degrees and HMDs. Figures are given in the table. There is no central record of applicants to part-time courses.

Number of applicants[1] through UCAS to foundation degree and HND courses

Year of entry	*Foundation degrees*	*HMDs*
2001	1,330	52,584
2002	5,383	45,417
2003	10,956	38,046

[1] Applicants applying to both foundation degree and HND courses will be counted in both columns.

Universities and Colleges Admissions Service

Higher Education

Huw Irranca-Davies: To ask the Secretary of State for Education and Skills what assessment he has made of whether the proposed reforms to the funding of higher education will affect the choice of place of study of *(a)* students residing in England and *(b)* students residing in Wales (i) during the period of this term of the Welsh Assembly Government when an opt-out applies in Wales and (ii) in a future term of the Welsh Assembly Government should it adopt comparable higher education reforms in Wales. [165424]

Alan Johnson: My right hon. Friend the Secretary of State for Education and Skills and I are in regular contact with the National Assembly on these issues. Data from the Higher Education Statistics Agency shows that the percentage of Welsh-domiciled full-time undergraduate students studying in Wales rose from 57 per cent. in 1997–8 to 62 per cent. in 2002–03: the proportion of English-domiciled full-time undergraduates studying in Wales has remained at 3 per cent. over the same period. All the evidence we have on sensitivity of demand to

raising and deferring a fee of up to £3,000 suggests the impact of higher fees on these trends is unlikely to be significant. If the Higher Education Bill currently before Parliament proceeds to Royal Assent, future decisions on tuition fees will be for the National Assembly. The Assembly has already committed to providing Welsh students who study in England with a package of financial support that is similar to that available to English students, including fee deferral and a grant worth up to £2,700 for low income students.

Mr. Lazarowicz: To ask the Secretary of State for Education and Skills how many students from England attended higher education institutions in Scotland in each academic year since 2000–01. [164892]

Alan Johnson: Figures for the number of English domiciled, full time, undergraduates enrolled at Scottish HE institutions are given in the table.

English domiciled full time undergraduates at Scottish HE institutions

Academic Year	*Enrolments*
2000–01	14,723
2001–02	14,841
2002–03	14,291

Source:
Higher Education Statistics Agency

Mr. Lazarowicz: To ask the Secretary of State for Education and Skills how many students from Scotland attended higher education institutions in England in each academic year since 2000–01. [164893]

Alan Johnson: Figures for the number of Scottish domiciled, full time, undergraduates enrolled at English HE institutions are given in the table.

Scottish domiciled full time undergraduates at English HE institutions

Academic year	*Enrolments*
2000–01	5,802
2001–02	5,891
2002–03	5,950

Source:
Higher Education Statistics Agency

Chris Grayling: To ask the Secretary of State for Education and Skills what the level of public spending per student in higher education will be in the current financial year and each of the two subsequent financial years. [166687]

Alan Johnson: The table as follows, published in our 2003 Departmental Report, shows publicly planned funding per student to 2005–06. Spending on higher education in 2005–06 will be reconfirmed, and the budgets for 2006–07 and 2007–07 will be set, once the spending review settlement announced on 17 March has been allocated within the Department.

Table 3.8 Funding[1] per Student[2] in Higher Education, 1996–97 to 2005–06

	1997–98 actual	*1998–99 actual*	*1999–2000 actual*	*2000–01 actual*	*2001–02 actual*	*2002–03 provisional*	*2003–04 plans*	*2004–05 plans*	*2005–06 plans*
Funding per student[3] Real terms (£)	5,050	5,050	5,040	4,980	5,020	5,020	5,150	5,190	5,340
Real terms index[4]	100	100	100	99	99	99	102	103	106

[1] Publicly planned funding on higher education institutions in England includes block grants from the Higher Education Funding Council for England (HEFCE) and the Teacher Training Agency, and public and private contributions towards the costs of tuition.
[2] Full-time equivalent students
[3] The maximum student contribution to fees in 2002–3 is £1,100. This forms part of the funding above and represents between 20 and 25 per cent. of the average costs of a course.
[4] Real terms index has been based with 1997–98 set as 100 and using the April 2003 gross domestic product deflators.

Chris Grayling: To ask the Secretary of State for Education and Skills if he will list the individual public sector budgets from which grants have been made to higher education institutions in the past two financial years. [166688]

Alan Johnson: In the last two years, higher education institutions in England have received public funding from the Higher Education Funding Council for England, the Teacher Training Agency; the Learning Skills Council; the Student Loans Company; local authorities; the Office of Science and Technology; the Research Councils; the Arts and Humanities Research Board; other Government departments, which commission research or buy services from HEIs, (including the Department of Health, Department for Education and Skills and the Ministry of Defence), and from the European Union, for example from European Social Funds.

Medical Students

Mr. Lansley: To ask the Secretary of State for Education and Skills what the attrition rates for medical school undergraduates were in each year of training since 1997. [162096]

Alan Johnson: Information on non-completion rates for higher education students broken down by subject is not held centrally. For full-time first degree students who began their studies in 2000/01, the overall non-completion rate for the UK was estimated by the Higher Education Funding Council for England to be 16 per cent., one of the lowest in the OECD.

Part-time Undergraduates

Chris Grayling: To ask the Secretary of State for Education and Skills what the age profile is of part-time undergraduate students in the UK. [152684]

Alan Johnson: The available information is given in the table.

Part time undergraduate enrolments[1] at UK institutions 2002/03

Age band	*Number*
Under 18 years	2,285
18 to 24 years	73,926
25 to 34 years	138,599
35 to 44 years	141,947
45 to 54 years	77,916
55 to 64 years	33,839
65 years and over	21,446
Unknown	9,935
Total	499,893

Higher Education Statistics Agency (HESA).

School Location

Simon Hughes: To ask the Secretary of State for Education and Skills how many *(a)* primary and *(b)* secondary school pupils in Greater London live more than three miles from the school they attend, broken down by local education authority. [165838]

Mr. Miliband *[holding answer 19 April 2004]:* The information requested is shown in the table.

Numbers of pupils living more than three miles[1] from the maintained primary and secondary schools[2] that they attend—January 2003

	Primary		*Secondary*	
	Number of pupils	*Percentage of pupils*	*Number of pupils*	*Percentage of pupils*
Barking and Dagenham	269	1.4	662	5.7

Speech Therapists

Angela Watkinson: To ask the Secretary of State for Education and Skills how many colleges in London offer speech therapy courses; and how many places are available on each course. [164162]

Miss Melanie Johnson: The latest available information from the Universities and Colleges Admissions Service (UCAS) website (www.ucas.ac.uk). shows that two institutions in London, University College London and City University offer courses in Speech Therapy or Speech Science. The number of students on these courses is not held centrally.

Angela Watkinson: To ask the Secretary of State for Education and Skills (1) how many students started speech therapy courses at colleges in London in each year from 1997 to 2004; [164163]

(2) how many students dropped out of speech therapy courses at London colleges in each year since 1997; [164172]

(3) how many students *(a)* qualified as speech therapists from London colleges and *(b)* entered the profession in each year since 1997. [164173]

Alan Johnson: Information on the number of students entering and qualifying from speech therapy courses is not held centrally. The Higher Education Funding Council for England (HECFE) publish non-completion rates of students on all full-time undergraduate courses but these are not calculated for individual subjects or courses.

Student Drop-out Rate

Chris Ruane: To ask the Secretary of State for Education and Skills what the drop out rate was for each *(a)* higher education and *(b)* further education institution in the latest year for which figures are available. [157565]

Alan Johnson: For higher education institutions, the available information on non continuation rates is contained in "Performance Indicators in Higher Education", published by the Higher Education Funding Council for England (HEFCE). The figures cover full-time first degree courses only, and show, for each individual HE institution in the UK, the numbers and proportion of entrants who failed to complete their course. Copies of the HEFCE publication are available for students starting courses in 1996–97, 1997–98, 1998–99 and 1999–2000, and are available from the House Library; data for 2000–01 is available from the HEFCE website at http://www.hefce,ac,uk/learning/perfind/2003/

In Further Education, figures are routinely presented in terms of the percentage of learners who are retained. In-year retention rates for Further Education Institutions in England can be found in the Learning and Skills Council (LSC) publication "Summary Statistics for Further Education Institutions: England 2000/2001", available at http://www.lscdata.gov.uk/summary statistics/. A printed version of the relevant table showing in-year retention rates for each institution, along with summary information will be placed in the Commons Library.

CABINET OFFICE

Civil Servants

Chris Ruane: To ask the Minister for the Cabinet Office how many civil servants are employed in each constituency listed in descending order. [166676]

Mr. Alexander: Data on numbers of Civil Servants employed in each constituency is not collected centrally. A breakdown of the number employed in each Government Office Region is published annually in the Civil Service Statistics. Copies of Civil Service Statistics are available in the Library and at www.civil-service.gov.uk/statistics.

New Deal

Mr. O'Hara: To ask the Minister for the Cabinet Office How many New Deal 50 plus clients were employed in each of the last three years by *(a)* his Department and *(b)* all other central Government Departments. [167193]

Mr. Alexander: Data on the number of people starting employment under the New Deal 50 plus scheme has been collected on a quarterly basis by the Cabinet Office since July 2002. The available information is shown in the following table.

Annual	*Number of New Deal 50 plus—Cabinet Office*	*Number of New Deal 50 plus—central Government Departments*[1]
2 January 2003–1 January 2004	0	40
2 July 2002–1 January 2003[2]	1	8

[1] Number of people starting employment under the New Deal 50 plus scheme in all central Government Departments and agencies excluding Cabinet Office.
[2] Information is not available prior July 2002 when collection began.
Source:
Cabinet Office—New Deal Data Collection.

DEPUTY PRIME MINISTER

Local Government Finance

Bob Spink: To ask the Deputy Prime Minister what the 10 *(a)* least and *(b)* most indebted local authorities are. [167063]

Mr. Raynsford: The information requested is as follows:

(a) The 10 English local authorities that had the least net debt as at 31 March 2003 are:

City of London
Barking and Dagenham
Basingstoke and Deane
Bromley
South Oxfordshire
St. Edmundsbury
Dorset
Crawley
East Hertfordshire
Huntingdonshire

(b) The 10 English local authorities that had the most net debt as at 31 March 2003 are:

Newham
Islington
Southwark
Kent
Lambeth
Liverpool
Sheffield
Leeds
Birmingham
Manchester.

Source:
ODPM monthly and quarterly borrowing returns.

It should be noted that authorities with high levels of debt are generally those which have undertaken capital investment. Long-term borrowing to finance capital expenditure was regulated through the issue of credit approvals up until 31 March 2004 and, as from 1 April 2004, is subject to the Prudential System.

Mr. Clifton-Brown: To ask the Deputy Prime Minister how the Government intends to change the formula for distribution between authorities of housing revenue account and management and maintenance allowances; and what the sums involved are. [166891]

Keith Hill: Following wide consultation with local authorities and others last year, the Office of the Deputy Prime Minister announced changes to the distribution of management and maintenance allowances within HRA subsidy to take effect from April 2004. Full details of each authority's allocation and the new methodology were published on the Office of the Deputy Prime Minister's website on 18 December 2003, as part of the General Determination of Housing Revenue Account Subsidy for 2004–05. We are considering some minor, technical improvements to the new formulae for 2005–06 and will of course consult before introducing any further change.

The changes are purely about distribution and have not made any difference to the total resources available for management and maintenance allowances. Transitional arrangements mean that all authorities will receive at least inflationary increases in their allowances in both 2004–05 and 2005–06, with most receiving more.

Mr. Clifton-Brown: To ask the Deputy Prime Minister if he will list the latest allocation of Planning Delivery Grant to each local authority and region. [166899]

Keith Hill: The latest allocations of Planning Delivery Grant for 2004–05 has been made available in the Libraries of the House.

Mr. Keetch: To ask the Deputy Prime Minister whether he intends to cap the council tax rise imposed by Herefordshire council; and if he will make a statement. [167293]

Mr. Raynsford: When the Office of the Deputy Prime Minister announced the council tax increases for 2004–05 on 25 March, we confirmed that we were ready

to use our targeted capping powers if necessary and that we aimed to notify any authorities which might be in line for capping by the end of April. I cannot say in advance which authorities these may be.

Correspondence

Mr. Paice: To ask the Deputy Prime Minister when he expects to reply to the *(a)* letters from the Chairman of South Cambridgeshire District Council of 30 January and 2 April and the *(b)* letter from the hon. Member for South East Cambridgeshire of 30 March, on the Smithy Fen travellers' site at Cottenham and requests for a meeting. [167174]

Yvette Cooper: I replied to these letters on 21 April 2004.

Development Planning

Mr. Clifton-Brown: To ask the Deputy Prime Minister what his latest timetable is for implementing *(a)* regional spatial strategies and *(b)* local development documents. [166943]

Keith Hill: On commencement of the Planning and Compulsory Purchase Bill, the majority of existing Regional Planning Guidance documents will become Regional Spatial Strategies and should be implemented in accordance with the implementation proposals set out in those documents over the 15 to 20 year periods they relate to.

Commencement of the Bill will also enable LPAs to prepare and adopt Local Development Documents in accordance with the programmes outlined in their Local Development Schemes. The Local Development Schemes will have to be in place by the end of this year and will set out a three-year programme for the preparation of Local Development Documents.

Drugs Litter

Mr. Todd: To ask the Deputy Prime Minister whether powers exist to permit officers of a local authority to enter private property to retrieve drugs litter. [166793]

Phil Hope: Any tenant or owner-occupier has the right to enjoy their premises without disturbance. Local authority officers cannot enter private property without permission unless they have been given a specific power to do so. There are no specific powers that we are aware of, which relate to retrieval of drugs litter.

Fire Safety/Construction Products

Mr. Lidington: To ask the Deputy Prime Minister whether he plans to consult *(a)* the Association of Fire Consultants, *(b)* the Passive Fire Protection Confederation and *(c)* the Active Fire Industry Confederation about European Commission proposals to amend the law on fire safety and construction products. [167223]

Mr. Raynsford: The European Commission has not yet published its proposals for amending the construction products directive. When it does, the Office of the Deputy Prime Minister will consult relevant UK industry bodies in the usual way. We will ensure that the organisations referred to by the hon. Member are included in any such consultation.

Mr. Lidington: To ask the Deputy Prime Minister if he will make a statement on the Government's policy on European Commission proposals to make the use of a CE mark mandatory for construction products. [167224]

Keith Hill: The European Commission has not yet published any proposals concerning the mandatory or voluntary nature of CE marking. When they do, the Office of the Deputy Prime Minister will consult UK industry in the usual way before deciding on the Government's policy on this matter.

Fires

Mr. Watson: To ask the Deputy Prime Minister what estimate he has made of the number of fires caused by cigarettes in each of the last five years; and how many deaths there were in such fires. [166841]

Mr. Raynsford: The information requested is in the following table:

Fires and fatal casualties in fires attended by United Kingdom Fire and Rescue Services that were started by cigarettes and other tobacco products, UK, 1998–2002

	Fires[1]	*Fatal casualties*
1998	8,134	160
1999	7,919	130
2000	6,660	143
2001	6,839	146
2002[2]	6,192	123

[1] Estimate based on sampled data.

[2] Excluding a period of 10 days of industrial action in November 2002

Green Belt

Mr. Clifton-Brown: To ask the Deputy Prime Minister what the Government's strategy on building on the Green Belt is. [166945]

Keith Hill: I refer the hon. Member to the answer given to the hon. Member on 15 December 2003 *Official Report*, Hansard (column 748W).

Houses in Multiple Occupation

Mr. Hayes: To ask the Deputy Prime Minister what consultations he has had with landlords and landlords' representatives regarding the method by which licensing of houses of multiple occupation will be introduced. [166290]

Keith Hill: Landlords and their representatives were consulted on the draft Housing Bill and were subsequently invited to present evidence to the Select Committee that scrutinised the Bill. Ministers and officials have had a number of meetings with landlords' representatives on the licensing provisions in the Bill and how they might be implemented. The Government are committed to continue consultation with stakeholders, including landlords, on the implementation of the licensing provisions.

Mr. Hayes: To ask the Deputy Prime Minister what plans he has to introduce a pilot scheme for licensing of houses of multiple occupation in England and Wales. [166291]

Keith Hill: The Government have no plans to introduce a pilot scheme for licensing of houses in multiple occupation in England and Wales.

Mr. Hayes: To ask the Deputy Prime Minister what consultations he has had with landlords and landlords' representatives regarding the manner in which central Government will monitor licensing of houses of multiple occupation; and what the results were. [166292]

Keith Hill: The Government has not yet consulted landlords or their representatives, on the manner in which it will monitor licensing of houses in multiple occupation. It has undertaken to review licensing within three years of its implementation and it will consult stakeholders (including landlords' representatives) on the terms of reference for that review once plans have been worked up.

Housing

Mr. Pike: To ask the Deputy Prime Minister what assessment he has made of how the Starter Homes Initiative has affected the residents of Burnley. [168313]

Keith Hill: Between September 2001 and 31 March 2004, the Starter Home Initiative helped key workers into home ownership in areas where the high cost of housing was undermining recruitment and retention of skilled staff in our key public services. The programme was not available to key workers in Burnley.

The new Key Worker Living programme which started on 1 April 2004 superseding the Starter Home Initiative is helping key workers in London, the South East and the Eastern regions.

Mr. Kilfoyle: To ask the Deputy Prime Minister how many homes have been made available within Liverpool, Walton under *(a)* the Starter Homes Initiative and *(b)* the Abandoned Homes Initiative. [166947]

Keith Hill: Between September 2001 and 31 March 2004, the Starter Home Initiative (SHI) helped key workers into home ownership in areas where the high cost of housing serves to undermine recruitment and retention of skilled staff in our key public services. The SHI was available in London and the South East region and in some housing hotspots in the East, South West and West Midlands regions. It was not available to key workers in the North West region.

The Office of the Deputy Prime Minister is not aware of an Abandoned Homes Initiative. However, our Market Renewal Pathfinders is a comprehensive programme to tackle low demand and abandonment in nine English areas, including Merseyside. The boundaries of the Merseyside scheme were drawn up following an analysis of local housing markets to identify those areas most acutely affected by low demand and abandonment. The integrated approach to spatial and economic issues being adopted by the pathfinders should bring substantial benefits to the wider sub-region.

Mr. Kaufman: To ask the Deputy Prime Minister what assessment he has made of the effect of the Starter Homes Initiative on the residents of Manchester, Gorton. [167464]

Keith Hill: Between September 2001 and 31 March 2004, the Starter Home Initiative helped key workers into home ownership in areas where the high cost of housing was undermining recruitment and retention of skilled staff in our key public services. The programme was not available to key workers in Manchester.

The new Key Worker Living programme which started on 1 April 2004 superseding the Starter Home Initiative is helping key workers in London, the South East and the Eastern regions.

Mr. Clifton-Brown: To ask the Deputy Prime Minister what evaluation he has undertaken of the link between the current level of housing construction and the time it takes to obtain full planning permission. [166900]

Keith Hill: The Office of the Deputy Prime Minister recognises that good performance on planning including having up to date plans in place and an efficient and effective development control service are important to achieving agreed housing numbers although, as the Barker review concluded, they are not the only factors. That is why we are seeking to reform the planning system and increase its resourcing to drive improved performance in these areas.

Housing Act 1986

Mr. Hayes: To ask the Deputy Prime Minister (1) what measures are in place to assess the effectiveness of the implementation of the Housing Act 1986; and what their findings are; [166314]

(2) what measures are in place to assess the impact of the Housing Act 1986 on the housing market; and what their findings are. [166315]

Keith Hill: The effectiveness and impact of the provisions within the Housing and Planning Act 1986 have been assessed as part of the development of different aspects of housing policy which led to the bringing forward of subsequent housing legislation. This has led to many of the provisions in the 1986 Act being amended or repealed by:

the Housing Act 1988;

the Local Government and Housing Act 1989;

the Housing Act 1996;

and other legislation on housing.

Housing and Planning

Mr. Hayes: To ask the Deputy Prime Minister (1) what the names and functions are of the organisations and agencies within his Office that relate to housing and planning; what budget is allocated to each; how the efficiency of the different organisations and agencies within his Office that relate to housing and planning is evaluated; and what the efficiency rating is of each such organisation and agency; [166339]

(2) what mergers of organisations and agencies there have been since 1997 within his Office that relate to housing and planning; what evaluation has been made of the effectiveness of such mergers; and what the results were; [166340]

(3) how many staff were employed in 1997 in organisations and agencies relate to housing and planning; and how many staff are employed now in organisations and agencies within his Office that relate to housing and planning. [166341]

Keith Hill: An organisational chart showing the current structure and complements of the directorates dealing with housing, planning and related issues in the Sustainable Communities Delivery Unit within the Office of the Deputy Prime Minister has been made available in the Library of the House.

The allocation for the Housing Directorate's administration expenditure for 2004–05 is £7.216 million. The allocation for Planning is £6.774 million.

There have been separate housing and planning directorates throughout the period since 1997, although the directorates work very closely together within the Sustainable Communities Delivery Unit.

The efficiency of these directorates is measured by the progress made against the public service agreement targets for which they are chiefly responsible. This is reported in the Office of the Deputy Prime Minister's annual report.

The Office of the Deputy Prime Minister was established on 29 May 2002. Information prior to this date is not available. On 1 April 2004, there were 281.14 full time equivalent staff working in the housing and planning directorates.

Mr. Hayes: To ask the Deputy Prime Minister how many PFI projects have been undertaken within the remit of the housing and planning section of his Office since private finance initiative projects were introduced. [166342]

Keith Hill: Since the introduction of Private Finance Initiative (PFI) projects, the Office of the Deputy prime Minister has undertaken 28 Housing PFI projects of which nine are signed, and a further 19 are in procurement.

Under the Planning section, the Office has not undertaken any PFI projects to date.

Mr. Hayes: To ask the Deputy Prime Minister what functions the EU requires his Office to undertake with regard to housing and planning. [166343]

Keith Hill: Housing and planning are not areas for which the EU has competence. However, the Office of the Deputy Prime Minister's Planning Directorate has policy responsibility for the Environmental Impact Assessment Directive and the Strategic Environmental Assessment Directive.

Housing Bill

Mr. Hayes: To ask the Deputy Prime Minister what the Government estimates the implementation of the provisions of the Housing Bill will cost; and what funds the Government have committed to the implementation of the provisions of the Housing Bill. [166287]

Keith Hill: The Housing Bill was introduced in the House in December 2003. At that time, the Government made available the Regulatory Impact Assessments for each of the Parts of the Bill. These set out our initial estimates of the costs of implementing the Housing Bill provisions. These included start-up costs for the introduction of the Housing Health and Safety Rating System and licensing provisions. They also included start up costs and some additional enforcement costs for the introduction of home information packs.

The Office of the Deputy Prime Minister is currently in discussion with the Local Government Association about these estimated costs. Final decisions on the commitment of funds are subject to the outcome of the Government's spending review.

Local Development Frameworks

Mr. Clifton-Brown: To ask the Deputy Prime Minister what progress has been made by local authorities in meeting their Public Service Agreement 6 Target to complete all their Local Development Frameworks by 2006; how many authorities he expects to meet the target and how many he expects will not; and what plans he has to use his powers to intervene directly to enable local authorities to meet this target. [166887]

Mr. Raynsford: The Office of the Deputy Prime Minister expects that all local planning authorities will meet the target by having up to date planning policies consisting of policies in saved development plans and new policies in Local Development Documents. At present, there are no plans to intervene directly with local authorities, but we will keep this under review in the light of the authorities' first Local Development Schemes.

Local Government Finance (Liverpool)

Mr. Kilfoyle: To ask the Deputy Prime Minister how much grant has been paid to Liverpool City Council each year since 1997. [166946]

Mr. Raynsford: Total grant paid to Liverpool City Council since 1997 is tabled as follows:

Total Grant

	£ million
1997–98	384.4
1998–99	411.7
1999–2000	431.4
2000–01	469.4
2001–02	514.4
2002–03	558.7
2003–04[2]	583.7

[1] Includes Revenue Support Grant, Redistributed Non-Domestic Rates and Specificand Special Grants inside AEF.

[2] Budgeted figures

Source:

1997–98 to 2002–03 Revenue Summary Returns and 2003–04 Budget Estimate Return.

Management and Maintenance Allowance

Mr. Betts: To ask the Deputy Prime Minister what the average management and maintenance allowance per dwelling in England was for each year from 1990–91; and what the planned figure is for 2005–06. [166587]

Keith Hill: The following table shows the average management and maintenance allowances per dwelling in England from 1990–91 to 2004–05. Allowances for 2005–06 will not be announced until December 2004. However they are expected to increase by around 10.5 per cent.

Average management and maintenance allowances per dwelling in England

	£
1990–91	742.57
1991–92	772.85
1992–93	837.60
1993–94	874.86
1994–95	906.83
1995–96	945.09
1996–97	959.99
1997–98	960.52
1998–99	960.03
1999–00	977.84
2000–01	1,006.45
2001–02	1,035.65
2002–03	1,112.70
2003–04[1]	1,188.33

[1] Based on advanced claims for HRA subsidy. Other years from final audited claims.

Oxfordshire (Barker Report)

Mr. Boris Johnson: To ask the Deputy Prime Minister what assessment he has made of the implications of the Barker Report for Oxfordshire. [166762]

Keith Hill: It is too early to take any view about the implications of the Barker report for any particular area. Kate Barker's report sets out a challenging agenda for change which will help to carry forward the objectives of our Communities Plan. The Government agrees that, in order to deliver long term stability in housing markets where demand is highest, a substantial increase in housing supply is needed.

This needs to be delivered as part of a package which includes planning reform, a more responsive house building industry and more investment in affordable housing and infrastructure. At the same time, the economic case for increased development needs to be balanced against its social and environmental implications.

The Barker report looked at the national picture. Any plans to implement its recommendations will also have to take account of the widely differing housing market conditions across the country and our consideration will include the regional and sub-regional dimension. The Office of the Deputy Prime Minister expects to establish a long term market affordability goal, linked to housing supply, and consult on its implications at national and regional level within the next 18 months.

Planning Officers

Mr. Clifton-Brown: To ask the Deputy Prime Minister how many qualified planning officers are employed by local government in England; and how many will be required to implement the Planning and Compulsory Purchase Bill. [166897]

Keith Hill: The information requested is not held centrally and could be provided only at disproportionate cost—However, it is believed that just over 6,100 chartered Town Planners are in post. It is for individual local authorities to determine how many qualified planners they require to fulfil their functions, but the Government have provided Planning Delivery Grant worth £350 million during 2003–06 to help implement planning reforms and improve performance.

Regional Assemblies

Ann Winterton: To ask the Deputy Prime Minister whether he proposes that the proposed temporary borrowing powers for cash management purposes for possible regional assemblies will be guaranteed by central Government. [167341]

Mr. Raynsford: The Office of the Deputy Prime Minister proposes to give elected regional assemblies temporary borrowing powers for cash management purposes. It would be unnecessary for central Government to guarantee such borrowing.

Social Housing

Mr. Clifton-Brown: To ask the Deputy Prime Minister for the years 1997 and 2003 *(a)* how many houses were sold under (i) the right-to-buy scheme and (ii) the right-to-acquire scheme, *(b)* how many council houses were built and *(c)* how many registered social landlord houses were built. [166898]

Keith Hill: The figures are available for financial years 1996–97 and 2002–03 and are tabled as follows:

	1996–97	*2002–03*
Right-to-buy sales—LA tenants	33,206	63,394
Right-to-buy sales—RSL tenants	2,300	10,473
Right-to-acquire sales	0	228
RSL new build completions	24,630	13,330
Council new build completions	451	271

Mr. Hancock: To ask the Deputy Prime Minister what his policy is regarding the percentage of social housing that should be built on land released for residential use by the Ministry of Defence and the additional infrastructure that will be required; and what recent discussions he has had with the Secretary of State for Defence on this subject. [166915]

Keith Hill: Government policy on the proportion of affordable housing to be provided in new developments is set out in Planning Policy Guidance Note 3: "Housing" (2000). This states that local planning authorities should identify suitable areas and sites on which affordable housing is to be provided and the amount of provision which will be sought. Additional infrastructure required by new developments varies from site to site and is a matter for agreement between the parties. Former Ministry of Defence sites are treated in the same way by the planning system as any other development site.

There is regular contact between Ministry of Defence and the Office of the Deputy Prime Minister, including at ministerial level. English Partnerships has been given the role under the Sustainable Communities Plan (February 2003) to find and assemble land, especially brownfield and publicly owned land, for sustainable development.

Telecommunications Masts

Mr. Clifton-Brown: To ask the Deputy Prime Minister what plans he has to amend planning guidance in relation to telecommunications masts. [166941]

Keith Hill: The Office of the Deputy Prime Minister has no plans to amend planning guidance in relation to telecommunications developments at present.

Travellers

Mr. Paice: To ask the Deputy Prime Minister what advice he has received on the impact on appeals by travellers against planning enforcement where it can be proven that the appellants own property elsewhere in the EU. [167175]

Yvette Cooper: Decisions on planning applications and appeals, including enforcement appeals, are based on the land-use merits of each proposal. Under our 'plan-led' system of development control, applications and appeals—including enforcement appeals—have to be decided on their individual merits in accordance with the local planning authority's development plan for the area with reference to other material considerations.

Mr. Paice: To ask the Deputy Prime Minister what assessment he has made of the effects of the Human Rights Act 1998 on planning decisions relating to travellers' sites. [167176]

Yvette Cooper: The Office of the Deputy Prime Minister has made no overall assessment of the effects of the Human Rights Act 1998 on planning decisions, whether they relate to traveller sites or other types of development.

TREASURY

Special Purpose Vehicles

Mrs. May: To ask the Chancellor of the Exchequer how many special purpose vehicles have been set up since October 2002. [166213]

Dawn Primarolo: Information on signed private finance initiative projects is submitted to the Treasury by Departments. This information, which includes the capital value and nature of each project, is available from the HM Treasury website: http://www.hm-treasury.gov.uk/documents/public_private_partnerships/ppp_pfi_stats.cfm

Child Tax Credit (Manchester)

Mr. Kaufman: To ask the Chancellor of the Exchequer how many families in Manchester, Gorton have received child tax credit. [167473]

Dawn Primarolo: I refer my hon. Friend to my answer to my hon. Friend the Member for Burton (Mrs. Dean) on 15 March 2004, *Official Report*, column 98W.

Corporation Tax

Mr. Prisk: To ask the Chancellor of the Exchequer what assessment his Department has made of the impact on revenue of the European Court of Justice ruling concerning corporation tax for *(a)* 2004–05, *(b)* 2005–06, *(c)* 2006–07 and *(d)* 2007–08. [166661]

Dawn Primarolo: I refer the right hon. Gentleman to the answer I gave him on 5 January 2004, *Official Report*, column 163W.

To date, a total of £212 million has now been paid as a consequence of the judgment of the European Court of Justice in the Hoechst case. Around £110 million of this may be recoverable depending on the outcome of a related court case. Current claims in which repayments have not yet been made are estimated to be in the region of £220 million, of which around £150 million depends on the court case. Any further repayments are subject to the other court decisions and a reliable estimate of the tax potentially repayable is not possible at the present time. But because ACT was abolished in 1999 these cases will not reduce corporation tax receipts for future years.

The Government will also continue the wider-ranging dialogue on international issues that was begun during the August 2003 consultation, with a view to maintaining the competitiveness and fairness of the UK corporation tax regime and ensuring that it remains robust.

Tax Credits (Overpayments)

Geraldine Smith: To ask the Chancellor of the Exchequer what account is taken of claimants' weekly entitlement before tax credit overpayments are recovered. [165411]

Dawn Primarolo: Tax credits awards are based on annual entitlement. The Inland Revenue's Code of Practice 26, "What happens if we have paid you too much tax credit?", sets out the rules that the Inland Revenue follows when adjusting an award to recover an overpayment.

Geraldine Smith: To ask the Chancellor of the Exchequer what limits there are on the recovery of overpayments for tax credits. [165415]

Dawn Primarolo: I refer my hon. Friend to the reply I gave the hon. Member for South Down (Mr. McGrady) on 3 February 2004, *Official Report*, column 828W.

CONSTITUTIONAL AFFAIRS

Child Maintenance

Mr. Sheerman: To ask the Parliamentary Secretary, Department for Constitutional Affairs what powers exist to retrieve child maintenance from British citizens who leave the country and go to live in another EU member state. [166727]

Mr. Lammy: A number of international conventions and agreements exist that either provide for an existing maintenance order to be registered and enforced in the country which a parent has moved, or for an order for child support to be made and enforced in that country. These are the United Nations Convention on the Recovery Abroad of Maintenance 20 June 1956, the Hague Convention on the Recognition and Enforcement of Decisions Relating to Maintenance Obligations 2 October 1973, the Brussels & Lugano Conventions 1968 and 1988 (now Council Regulation (EC) 1348/2000 of 29 May 2000—Service of Judicial and Extra-Judicial Documents in Civil and Commercial Matters) and the Republic of Ireland Agreement. These reciprocal arrangements apply where the EU country and the United Kingdom are signatories to the treaties. The primary legislation governing these international arrangements are the Maintenance Orders (Reciprocal Enforcement) Act 1972 Parts I & II, the Reciprocal Enforcement of Maintenance Orders (Hague Convention Countries) Order 1993, the Civil jurisdiction and Judgements Act 1982 and the Reciprocal Enforcement of Maintenance Orders (Republic of Ireland) Order 1993.

Debt Recovery

Malcolm Bruce: To ask the Parliamentary Secretary, Department for Constitutional Affairs in how many county court judgments enforcement agents have been used to recover debts where the sum of money to be recovered is *(a)* £125 or less and *(b)* more than £125 in each year since 1997. [166806]

Mr. Leslie: My Department is responsible for county court bailiffs only.

Statistical data by value of the debt enforcement process that county court bailiffs have dealt with, is not collected. The number of county court warrants of execution issued since 1997 is as follows:

	Number
1998	543,848
1999	538,337
2000	470,270
2001	394,611
2002	372,505
2003	355,476

Malcolm Bruce: To ask the Parliamentary Secretary, Department for Constitutional Affairs what the proceeds of sales of goods by enforcement agents employed by the county courts was for the payment of *(a)* council tax and *(b)* all other debts in each year since 1997. [166807]

Mr. Leslie: My Department is responsible for county court bailiffs only. Unpaid council tax is not recoverable through the county courts. It is pursued through the magistrates courts. Certificated Bailiffs are authorised under the Distress for Rent Rules 1988 to enforce non-payment of council tax on instruction from the relevant magistrates court.

In the county court the most common method of enforcement, where payment of the court order is in arrears, is a warrant of execution. County court bailiffs may remove a debtor's goods for sale to satisfy the amount of the warrant, if payment otherwise is not forthcoming.

Statistical data is not collected to show the amount recovered from the proceeds of sale of goods for debt.

Malcolm Bruce: To ask the Parliamentary Secretary, Department for Constitutional Affairs in how many county court judgments letters were prepared and sent advising clients that a warrant for the recovery of a debt was with a court-employed enforcement agent in each year since 1997. [166811]

Mr. Leslie: If the defendant in a debt case defaults under the terms of the court order, it will be for the creditor to instruct the court to enforce the judgment. The most common form of enforcement for debt is a warrant of execution.

As soon as the bailiff receives the warrant the defendant will be notified, in writing, that enforcement action has been instigated. The notice tells the defendant, among other things, when the amount of money should be paid to prevent any further action by the bailiff.

The number of warrants of execution issued since 1997 is as follows:

	Number
1998	543,848
1999	538,337
2000	470,270
2001	394,611
2002	372,505
2003	355,476

Land Registry

Mr. Clifton-Brown: To ask the Parliamentary Secretary, Department for Constitutional Affairs what proportion of all house sales in England the Land Registry completes electronically; and what the target date is for 100 per cent. electronic conveyancing. [166889]

Mr. Lammy: Land Registry completes the registration of all house sales in England and Wales electronically. In addition, just over 50 per cent. of pre-contract I inquiries (mainly official copies of the register and official searches) received by the Registry are processed electronically.

Land Registry continues to extend its range of electronic services and is introducing progressively its electronic conveyancing programme. It aims to launch a pilot of a re-engineered conveyancing system in 2006. In consultation with stakeholders and other interested parties, the programme will be refined and developed and it is expected that by 2010 a large majority of house sales in England and Wales will be conducted electronically.

Legal Aid (NHS Cases)

Mr. Gordon Marsden: To ask the Parliamentary Secretary, Department for Constitutional Affairs (1) what assessment his Department has made of the

adequacy of current legal aid arrangements for *(a)* patients and *(b)* patients' families in dispute with NHS trusts; [166690]

(2) what assessment he has made of the case for extending the provision of free legal advice for *(a)* patients and *(b)* patients' families involved in formal complaints against NHS trusts. [166691]

Mr. Lammy: Legal aid is available for clinical negligence claims, provided that the means and merits tests are passed. We are currently reviewing the present arrangements, and we will be making an announcement on the way forward shortly.

NHS Negligence Claims

Mr. Gordon Marsden: To ask the Parliamentary Secretary, Department for Constitutional Affairs what assessment he has made of the effect of the likely levels of compensation for deaths where the deceased has no dependants or access to conditional fee agreements by families pursuing negligence claims against NHS trusts. [166694]

Mr. Lammy: Where a person dies as a result of another's negligence the Fatal Accidents Act 1976 primarily provides for compensation for the pecuniary losses of persons who were dependent on the deceased. The Act also enables the recovery of two other heads of damages, namely bereavement damages and reasonable funeral expenses. Bereavement damages are currently set at £10,000, and are available to the deceased's spouse, or if the deceased was under 18 and had never been married, to his or her parents. Access to a conditional fee agreement would have no bearing on the level of compensation awarded.

FOREIGN AND COMMONWEALTH AFFAIRS

Hamas

Mrs. Ellman: To ask the Secretary of State for Foreign and Commonwealth Affairs what his assessment is of the activities of Hamas in the United Kingdom. [164889]

Mr. Blunkett *[holding answer 29 March 2004]:* I have been asked to reply.

The military wing of Hamas, Hamas-Izz al-Din al-Qassem Brigades (HIDQ) was proscribed in 2001 under the terms of the Terrorism Act 2000. However, Hamas also engages in social activities, providing welfare, medical and educational services in the Palestinian Occupied Territories. The group is not formally represented in the United Kingdom, but supporters are involved in fundraising and political activity on its behalf. Any allegations of illegal activity are and will be investigated by the appropriate authorities.

Immigration Appeals

Mr. Lidington: To ask the Secretary of State for Foreign and Commonwealth Affairs on what date the High Commission in Islamabad and UK Visas sent to the Home Office all papers relating to the appeal of Mr. S. M., husband of Mrs. S. K. of Aylesbury (decision maker's reference 643686; Gerrys/Fedex case number 90083389; appeal reference 90063159; GV100/86120); and if he will make a statement. [167246]

Mr. Mullin: On 5 April UKvisas replied to the hon. Member's letter of 19 February advising when the appeal papers for this case were sent to the Home Office. However, I will shortly write to the hon. Member to advise further.

Nigeria

Mr. Hancock: To ask the Secretary of State for Foreign and Commonwealth Affairs what representations he has made to the Nigerian Government regarding the violence against Christians in the state of Plateau. [166918]

Mr. Mullin: We are concerned about the violence which has affected all communities in Plateau State. We remain in close touch with the Nigerian authorities. Officials from the British High Commission in Abuja recently visited Plateau State and met Christian and Muslim leaders and victims. We have emphasised to the parties and the State Government our conviction that dialogue between Christians and Muslims is the best way to create understanding and mutual tolerance. Coventry Cathedral's Centre for Peace and Reconciliation is active in Plateau State. We support and have helped fund their work.

Sudan

Mr. Soames: To ask the Secretary of State for Foreign and Commonwealth Affairs what recent discussions he has had with his EU counterparts regarding the EU-led peacekeeping force for Sudan; and if he will make a statement. [167183]

Mr. Mullin: The UN Department for Peacekeeping Operations is planning for a UN peace support operation once a comprehensive peace agreement is in place in Sudan. We are in close contact with the UN on this matter. There are no plans for this peace support operation to be EU-led.

NORTHERN IRELAND

Energy Costs

Mr. Lidington: To ask the Secretary of State for Northern Ireland if he will make a statement on how he plans to implement his policy of using public expenditure to reduce the costs of electricity to business. [166016]

Mr. Gardiner: The proposed intervention is part of the continuing drive by Government to reduce the higher electricity costs paid by Northern Ireland businesses in order to improve their competitiveness. The objective is to bring about an average reduction in electricity prices across the business sector of 10 per cent. below the levels they would otherwise have been.

The proposal is designed to address an element of the legacy costs which followed the 1992 privatisation of the Northern Ireland electricity supply industry. In particular, the intention is to remove the ongoing financial obligation on Northern Ireland Electricity plc (NIE) arising from the restructuring of the original

Ballylumford power station generation contract. The cost of meeting this obligation is currently passed on to the electricity consumers as a Public Service Obligation (PSO) charge.

Subject to the necessary State aid clearance, the proposed Government intervention would be provided to NIE to offset the equivalent cost to the company of meeting this obligation. The full benefit of the intervention would, in turn, be passed on by suppliers to business customers through a reduction in their electricity bills.

Gas Prices

David Burnside: To ask the Secretary of State for Northern Ireland if he will meet with the Centrica Company to discuss the effects that the proposed rise in retail gas prices will have on Northern Ireland's consumers; and if he will make a statement. [165165]

Mr. Gardiner: Following my meeting with Phoenix Natural Gas on 8 April 2004, the company agreed to suspend its proposed gas price increase. I also met with Centrica on 19 April 2004 when I emphasised the importance of the natural gas industry to Northern Ireland and asked that all parties work together to resolve the various issues and thus secure the long-term future of the industry.

Gas Supply Industry

Mr. Trimble: To ask the Secretary of State for Northern Ireland what steps are being taken by the Department of Enterprise, Trade and Investment to ensure that a long-term agreement is reached between the Northern Ireland Authority for Energy Regulation and the Phoenix gas company to ensure long-term stability in the gas market; and if he will make a statement. [165946]

Mr. Gardiner: Phoenix Natural Gas and the Northern Ireland Authority for Energy Regulation have been engaged in lengthy and detailed discussions about possible licence amendments aimed at achieving long-term stability in charges and rates of return on assets. While my Department has no formal role in this process, I have made clear to both parties the importance which I attach to an early resolution of these negotiations in the interests of consumers and the future of the NI gas industry.

Mr. Trimble: To ask the Secretary of State for Northern Ireland what plans he has to introduce competition into the natural gas industry in Northern Ireland; and if he will make a statement. [165947]

Mr. Gardiner: Under the terms of the regulated Phoenix Natural Gas licence, industrial and commercial gas consumers taking more than 75,000 therms a year already have the opportunity to seek alternative sources of supply. Such open competition arrangements will apply to all other consumers from 1 January 2005.

Listed Buildings

Rev. Martin Smyth: To ask the Secretary of State for Northern Ireland whether ecclesiastical exemption applies to listed buildings in Northern Ireland. [168011]

Angela Smith: Yes, an ecclesiastical building is exempt from the controls over the demolition, alteration or extension of listed buildings, unless it is used or available for use by a minister of religion wholly or mainly as a residence from which to perform the duties of his office.

DEFENCE

Aerospace Employment

Mr. Jack: To ask the Secretary of State for Defence what steps he is taking to sustain employment in BAE Air Systems divisions. [167316]

Mr. Ingram: The Ministry of Defence currently has two major programmes with BAE Systems Air Systems, for Typhoon and the Nimrod MRA4, which are supporting many thousands of jobs. Other jobs in the company are likely to be sustained by work for the Department on the Hawk Advanced Jet Trainer and the Joint Strike Fighter.

Boscombe Down

Mr. Hoyle: To ask the Secretary of State for Defence if he will make a statement on the future of Boscombe Down; and what the cost of the establishment has been in each year since 1997. [162147]

Mr. Ingram: Boscombe Down is included in the Long Term Partnering Agreement that has been negotiated with QinetiQ for the delivery of a long-term test and evaluation capability to the Ministry of Defence. The financial information requested is commercially sensitive and I am therefore withholding this under Exemption 13 of the Code of Practice on Access to Government Information.

Bradford University School of Peace Studies

Dr. Julian Lewis: To ask the Secretary of State for Defence (1) whether other universities were invited to tender for the contract awarded to the Bradford University School of Peace Studies by the Ministry of Defence; [167314]

(2) if he will place in the Library the draft syllabus presented by the Bradford University School of Peace Studies to the Ministry of Defence before the training contract was signed; [167313]

(3) what inquiries were made into the practical military and peacekeeping experience of Bradford University School of Peace Studies staff before the awarding of a Ministry of Defence contract; and what the results were; [167312]

(4) what reason Bradford University's School of Peace Studies has been selected to teach UK soldiers about conflict resolution; whether this decision was taken at ministerial level; and what the overall cost will be. [167311]

Mr. Ingram: Bradford University is one of nine Universities recently awarded contracts todeliver the Armed Forces' University Short Course Programme to Service personnel. Contract advertisements were placed in major bulletins, such as the Ministry of Defence's

Contracts Bulletin and other appropriate media, and fourteen Universities tendered for elements of the programme, which delivers a range of 44 different courses.

Bradford University's Department of Peace Studies successfully tendered for four courses from the programme. All bids for courses were subjected to detailed technical evaluation against key criteria, including the academic experience of the relevant institution. Contracts were awarded on the basis of fair and open competition to the best overall bidder.

The contract award did not require a ministerial decision since these are replacement contracts for existing arrangements. The decision was taken by the three Service sponsors, Training Group Defence Agency for the RAF, Army Training and Recruitment Agency and Naval Recruitment and Training Agency.

The overall cost of the Conflict Resolution course will depend on the actual uptake of the course across the five year period, but will not exceed £125K.

The MOD's prospectus for the University Short Course Programme 2004–05 is currently being prepared and a copy will be placed in the Library of the House once it has been published. This is likely to be in the Summer.

Civilian Deaths

Dr. Gibson: To ask the Secretary of State for Defence whether the Government will pay compensation to the dependants of civilians killed by UK military action in *(a)* Afghanistan and *(b)* Iraq. [143596]

Mr. Ingram: In Iraq, payments are made in accordance with Section 6 of Coalition Provisional Authority Order Number 17. This requires claims to be dealt with by the Parent State of the person whose activities are alleged to have caused the loss, in accordance with the national laws of that Parent State. Hence, each claim is treated on its merit according to English Law.

In Afghanistan, no formal compensation payments have been made.

Correspondence

Mr. Malins: To ask the Secretary of State for Defence when he proposes to reply in full to the letters of 10 March and 6 April of the hon. Member for Woking concerning Warrant Officer 2 Grieves reference D/US of S/IC 0928/04/L. [167170]

Mr. Caplin: I replied to the hon. Gentleman on 20 April.

Defence Medical Centre (Birmingham)

Mr. Keith Simpson: To ask the Secretary of State for Defence what the total planned cost of the Defence Medical Centre at Birmingham is; and what savings have been identified from its establishment. [166110]

Mr. Caplin: We are currently exploring, in consultation with industry, a number of options for the development of domestic accommodation and the move of all remaining medical training and other functions to Birmingham. Planned costs and potential savings remain subject to evaluation of, and final decisions on, the various options.

Equipment Purchases

Mr. Gerald Howarth: To ask the Secretary of State for Defence if he will place in the Library a copy of table 2 from the National Audit Office report Operation Telic—United Kingdom Operations in Iraq, annotated to show the management group by which the equipment was acquired. [161119]

Mr. Hoon: A copy of table 2 from the National Audit Office report Operation Telic—United Kingdom Operations in Iraq, annotated with the relevant Integrated Project Teams, has been placed in the Library today.

Mr. Gerald Howarth: To ask the Secretary of State for Defence which of his Department's management groups purchased equipment under the urgent operational requirements procedure in financial year 2002–03; and what the value was of *(a)* that equipment and *(b)* equipment subsequently disposed of. [161120]

Mr. Hoon: The Integrated Project Teams that procured equipment under urgent operational requirement (UOR) arrangements in financial year 2002–03 are shown in the following list. The costs of UORs in 2002–03 totalled some £290 million (of which the capital investment element amounted to around £220 million). Decisions on which UORs will be retained in service are being taken as part of this year's, and subsequent, planning rounds. Data on the value of disposals does not distinguish between equipment purchased routinely and equipment purchased under UOR arrangements.

Integrated Project Teams that procured UOR equipment in Financial Year 2002–03:

Air Launched Munitions
Airfield Operations Systems
Air Support
Avionics
Above Water Warfare Systems
Battlefield Infrastructure
C-17 Aircraft
Close Armour
Communication and Support Measures
Chinook
Communications Messaging
Combat Supply Equipment
Command Support Information Systems
Command Support Vehicles (Heavy)
Command Support Vehicles (Light)
Defence Clothing
Dismounted Close Combat
Defence Fixed Networks
Defence General Munitions
Defence Information Structures
Engineer System Support
Engineer Vehicles and Plants
Field Artillery System Support
Future Artillery Weapon Systems
Gazelle Helicopter

Harrier
Helicopter Engines
Hercules
Information and Communication Systems Support

Sentry
Successor Identification Friend or Foe
Strategic Terrestrial Radio Systems
Tactical Data Links
Theatre and Formation Communication Systems
Tank Systems Support
Tornado
Technical Services
Tactical Unmanned Air Vehicles
Workshop Support Services

Eurofighter Typhoon

Mr. Jack: To ask the Secretary of State for Defence when he expects to conclude his discussions with BAE Systems about the price and quantity of Eurofighter Typhoons that will form Tranche II of the Project. [167315]

Mr. Ingram: Discussions with BAE Systems regarding the order for Tranche II Typhoons are ongoing. The quantity that will form Tranche II of the project remains 236, of which 89 will be for the Royal Air Force; this is not under discussion.

Mr. Jack: To ask the Secretary of State for Defence what issues prevent him from ordering Tranche II of the Eurofighter Typhoon Contract. [167317]

Mr. Ingram: I refer the hon. Member to the answer I gave on 12 February 2004, (*Official Report*, column 1634W), to my hon. Friend the Member for Pendle (Mr. Prentice). The negotiations are still ongoing and must be concluded before Tranche II can be ordered.

Ferries

Mrs. Lawrence: To ask the Secretary of State for Defence how many roll-on roll-off ferries his Department has commissioned since 1997; and how many are in service. [166855]

Mr. Ingram *[holding answer 21 April 2004]:* The Ministry of Defence has commissioned six Roll-On/ Roll-Off vessels since 1997 and all these vessels are currently in service.

Harrier GR7

Mr. Soames: To ask the Secretary of State for Defence for how much longer he expects to retain the Harrier GR7 in service. [167181]

Mr. Ingram: The GR7 Harrier is being upgraded to GR9 standard over the next five years. Current assumptions are that the Harrier GR9 will remain in operational service with the Royal Air Force until the middle of the next decade.

Jaguar

Mr. Soames: To ask the Secretary of State for Defence if he will make a statement on the future of the RAF Jaguar Aircraft. [167184]

Mr. Ingram: Based on current plans the Jaguar fleet will be withdrawn from Royal Air Force service by 2009.

Land Releases (Hampshire)

Mr. Hancock: To ask the Secretary of State for Defence if he will make a statement on his Department's current programme for land releases in Hampshire. [166916]

Mr. Caplin: Sites currently scheduled for release in Hampshire include:

DM Dean Hill Main Site and adjacent land
Site A Monxton Road, Andover
Daedalus Conservation Area in Broom Way
Property at frontage of DM Gosport in Fareham Road
Aldershot—Burger King Site
Aldershot—Ski slope site
Farnborough—Queensgate site
Farnborough—Former Officers Mess
Farnborough—Civil enclave
Farnborough—Garages at Lancaster Way
Farnborough—Woodland at Norris Bridge
Farham—Woodland at Old Park Lane

In addition, as I announced on 23 March 2004, the Ministry of Defence is undertaking further work to examine where estate rationalisation might be possible, with the aim of consolidating defence activity at a smaller number of more densely utilised locations in order to achieve the optimum use of land and facilities. This on-going work covers the whole of our estate in Great Britain, and takes into account existing relocation studies that have already been announced.

The Department is currently at an early stage of this wider review and each proposal that emerges from this work will be subject to full consultation in the normal way. No decisions have yet been reached on any further sites in Hampshire.

Qinetiq

Mr. Hammond: To ask the Secretary of State for Defence what provisions were included in the transfer of Defence Evaluation and Research Agency assets to QinetiQ for clawback in respect of development land sales; and what sums are expected to be clawed back in respect of the sale by QinetiQ of the former MoD Longcross site at Chertsey. [165869]

Mr. Caplin: All of the freehold sites transferred to QinetiQ at Vesting of the Company were subject to a clawback agreement.

The total receipts from the disposal of the Chertsey site, of which the Longcross test track site forms a part, are unlikely to be fully realised for several years and it is therefore difficult to anticipate what sums, if any, will accrue to MOD from the clawback provisions.

Approximately the first £50 million of receipts from this site secures a loan made by MOD to QinetiQ, and this sum will therefore be paid back to MOD as QinetiQ receives the sums from the purchaser.

RAF Bases

Mr. Soames: To ask the Secretary of State for Defence if he will make a statement on the future of *(a)* RAF Coltishall and *(b)* RAF Wittering. [167182]

Mr. Ingram: On current plans the Royal Air Force will have no continuing requirement for RAF Coltishall once the Jaguar aircraft goes out of service.

RAF Wittering is one of the stations under consideration as part of the review into the future basing of Air Combat Service Support Units and minor units. I will be making a written statement on this review shortly.

Suez Medal

Peter Bradley: To ask the Secretary of State for Defence how long on average it has taken from a claim to an award of the Canal Zone Medal. [165484]

Mr. Caplin: It is not possible to calculate the average time taken from a claim to an award of a Canal Zone Medal. However, as at 16 April the four single Service medal offices had received 37,512 applications. Many arrived following the Prime Minister's announcement on 11 June 2003 that a medal would be instituted and a large backlog had built up by 23 October 2003 when I announced that medals would now be available. 6,700 medals and/or clasps have been despatched to veterans or their families. The medal offices are currently assessing applications received on the following dates.

Service Medal Office	*Applications received*
Royal Navy	8 July 2003
Royal Marines	6 February 2004
Army	31 August 2003
RAF	4 November 2003

Wind Farms

Mr. Carmichael: To ask the Secretary of State for Defence how many objections were made by his Department against pre-applications to build onshore wind farms in each of the last five years; and how many pre-applications for onshore wind farms were made in each of these years. [159735]

Mr. Caplin: In the period 1999 to 2003 the Ministry of Defence objected to a total of 796 pre-planning applications for onshore wind power projects.

	Proposals	*Objections*
1999[1]	65	39
2000[1]	158	51
2001	333	141
2000	985	398
2001	685	[2]167

[1] There was no formal wind farm safeguarding team within the Department prior to August 2000, and statistics for 1999 and part of 2000 are, therefore, based on the best data currently available.
[2] 260 awaiting resolution.

Many pre-applications are made by developers purely speculatively, and there is no data currently available to show how many pre-applications to which the Department does not state an objection are actually followed through. Where the Department does raise an objection MOD officials are always willing to work with the developer in order to determine whether a mutually acceptable solution can be found to enable a development to go ahead.

WORK AND PENSIONS

Disabled Workers

Mrs. Curtis-Thomas: To ask the Secretary of State for Work and Pensions if he will make a statement on the measures introduced to improve the working conditions of disabled workers in Crosby over the last seven years. [160526]

Maria Eagle: We have a number of measures in place nationally to help improve conditions for disabled people at work, as well as measures to improve their access to services generally. None of these are specific to Crosby, but all are available to disabled people who live and work there.

From 1996, the employment provisions of the Disability Discrimination Act required most employers of 20 or more staff not to discriminate against, and to make reasonable adjustments for, disabled job applicants or employees; in December 1998, we reduced this threshold to 15 employees. From October this year, the small employer exemption will be removed and most currently excluded occupations, such as police officers, fire-fighters, and partners in business partnerships will be brought within the scope of the Disability Discrimination Act employment provisions.

Jobcentre Plus runs a number of specialist programmes providing help for disabled people, including New Deal for Disabled People, Workstep, Access to Work, the Job Introduction Scheme, and Work Preparation. All these programmes provide

practical advice and support to disabled people and their employers to help overcome work related obstacles resulting from disability. Since 1997–98 there have been year on year increases in both numbers helped and programme spend.

To help people access appropriate help, Jobcentre Plus has established a network of Disability Service Teams. The teams are made up of Disability Employment Advisors, Access to Work Advisers and Occupational Psychologists; their services are accessed through local Jobcentres.

Since April 2003, disabled people in work have been receiving financial support through the Working Tax Credit. This is available if a person is working an average of at least 16 hours per week (self-employed or for an employer); and have a disability which puts them at a disadvantage in getting a job. 70,000 families (including over 32,000 adults without children) are benefiting from the disability element within the Working Tax Credit, compared to 38,000 who benefited from the old Disabled Person's Tax Credit.

External Consultants

Mr. Webb: To ask the Secretary of State for Work and Pensions if he will place in the Library a list of the projects on which his Department employed external consultants in each of the last six years. [152844]

Maria Eagle: The information requested for each of the last six years for all projects is not held centrally and could be provided only at disproportionate cost. The following table provides a list of current modernisation projects that have employed external consultants. It should be noted that project details may alter as they pass through the project lifecycle.

Current DWP Modernisation Projects employing External Consultants

Project name	*Brief description of the project*
Child Support Reform	This project will implement the Child Support Reforms, involving the transformation of the existing CSA business processes and structures, through the introduction of a new IT system that supports new rules, legislation and operating model.
Customer Management System	This system is an information gathering business process for working age IS/JSA/IB benefit claims. It will allow information supplied by the customer to be gathered electronically by staff, improving efficiency and customer service. Staff will be able to check information supplied against that already held. The system will also support the arrangement of work-focused interviews.
Debt Management	The Debt Programme introduces a new organisational structure based on 10 Debt Centres and a Commercial Off The Shelf (COTS) package to provide new Management Information systems, combined with increased focus on the management and ultimately reduction of debt stock.
Digital Office Infrastructure (formally Early Office Infrastructure)	DOI aims to implement a modern IT infrastructure platform across the Department allowing access to the internet and intranet and modern business software.
New Tax Credits	This project supports the implementation of new tax credits by Inland Revenue by putting a tax credits service in place for DWP customers (principally through Jobcentre Plus) and ensuring that necessary amendments are made to DWP benefits.
Payment Modernisation Programme	The Payment Modernisation Programme aims to establish direct payment into a bank, building society or post office card account as the normal, convenient method of payment for all customers. This includes those who wish to collect their money from the Post Office. (The national banking infrastructure was successfully implemented in April 2003 through the Universal Bank project).
Pension Credit	This project successfully introduced pension credit in October 2003 and aims to increase the take-up of pension credit. It will deliver new IT functionality to existing DWP systems, and associated business products (e.g. training, staff guidance, customer notifications).
Pensions Transformation Programme	This Programme will transform the Pension Service bringing together business and IT change in ways that improve customer and staff satisfaction and deliver efficiencies.
Resource Management System	This programme will provide modernised HR, financial and procurement functions for DWP staff. These systems will introduce significant business process change, enabling Departmental resources to be managed more effectively.
Pensions Forecasting	We have introduced a modernised IT system to support the growing numbers of combined forecasts we are producing.
ISCS/JSAPS Modernisation	The key objectives are to improve interfaces with other DWP systems to reduce fraud and error; reduce costly clerical interventions by improving work management systems; improve customer service by enabling staff to view on-line system generated letters; provide a modern user interface for ISCS and JSAPS.
'Focus' Human Resources Modernisation Programme	The Human Resources Modernisation Programme includes: HR Service Centre Modernisation to restructure the existing HR Service Centres and consolidating Jobcentre Plus HR administration; design and delivery of a range of technologies required for the modernisation of learning and development over three-year period; a strategy to ensure delivery of effective leadership development and education to senior managers and those identified as potential leaders; review of the current payroll system to ensure it is capable of delivering changes to the DWP reward strategy.

Current DWP Modernisation Projects employing External Consultants

Project name	*Brief description of the project*
Customer Information System	The Project will deliver a database of key customer information to be shared across DWP. The database will complement information currently available in the Department's key customer information systems, i.e. Personal Details Computer System and Departmental Central Index, and become their replacement. The Project will use cost-effective modern technology with minimum impact on the existing systems.
Managing Core Systems Estate	The objective of this project is to undertake, and where appropriate plan the activities necessary to maximise the effectiveness of the legacy systems in future.
Working Age IS/IT Strategy Programme (formally IT Development Programme)	This programme made up of a series of individual projects, three of which are: Better Off Calculator—This project will support the Government's focus on getting people back into work by illustrating how they would be better off working. It will be available to Jobcentre Plus staff, other DWP users and to citizens as a self-service package. Assessment Engine—The Assessment Engine will automate (as fully as possible) the assessment of income support and other benefits. Entitlement Management—This will increase the level of automation of the entitlement management processes reducing or eliminating the need for clerical intervention.
Disability and Carers Service Change Programme	This is an over-arching change programme that brings together a range of infrastructure projects, covering process, IT and telephony changes, into a single coherent programme. The programme will design and deliver changes to business processes and Information Technology (IT) and support ongoing changes to the business organisation and telephony to reflect the emerging DCS Business Model.

Note:
This list is based on the best possible match between information from our systems to monitor DWP Modernisation projects and separate systems to monitor all use of consultancy across DWP. The list is not complete because a list of all projects is not available and differences in recording the names of projects in the different systems makes matching between them difficult.

Incapacity Benefit

Mr. Goodman: To ask the Secretary of State for Work and Pensions (1) how many *(a)* men and *(b)* women receiving incapacity benefit payments made on mental health grounds in relation to (i) depression, (ii) stress, (iii) anxiety and (iv) behavioural problems received these payments for longer than five years in each year since 1997; and if he will break these payments down by region; [164718]

(2) how many *(a)* men and *(b)* women receiving incapacity benefit payments made on mental health grounds in relation to (i) anxiety and (ii) behavioural problems received these payments for longer than (A) one month, (B) six months, (C) a year, (D) two years and (E) five years in each year since 1997; and if he will break these payments down by region. [164719]

Maria Eagle: The information has been placed in the Library.

Mr. Goodman: To ask the Secretary of State for Work and Pensions how many *(a)* men and *(b)* women receiving incapacity benefit made on mental health grounds in each year since 1997 in relation to (i) stress, (ii) behavioural issues, (iii) anxiety and (iv) depression previously received (A) income-based and (B) contribution-based jobseeker's allowance. [164720]

Maria Eagle: The information is in the table.

Incapacity benefit and severe disablement allowance commencements each year since 1997 by diagnosis, and whether they previously received JSA

	Year to November						
	1997	*1998*	*1999*	*2000*	*2001*	*2002*	*2003*
Men							
All IB/SDA commencements with a diagnosis of depression	56.2	51.7	55.3	58.6	59.7	59.7	61.9
of which the following were:							
Previously receiving JSA (income based)	23.1	18.7	20.5	20.9	21.8	22.3	22.6
Previously receiving JSA (contributory)	3.5	3.5	4.1	3.8	3.8	4.2	4.6
Previously receiving JSA (IB and C)[1]	1.0	0.8	1.2	1.0	0.9	1.4	1.3
All IB/SDA commencements with a diagnosis of stress/anxiety	39.1	35.0	35.4	36.3	36.5	35.5	33.9
of which the following were:							
Previously receiving JSA (income based)	15.2	12.1	12.8	13.7	13.2	11.6	11.8
Previously receiving JSA (contributory)	2.3	2.1	2.2	1.7	1.9	2.1	2.3

of which the following were:							
Previously receiving JSA (income based)	[2]0.3	[2]0.3	[2]0.3	[2]0.2	[2]0.2	[2]0.1	[2]0.3
Previously receiving JSA(contributory)	[2]0.2	[2]0.1	[2]0.2	[2]0.2	[2]0.2	[2]0.1	[2]0.1
Previously receiving JSA (IB and C)[1]	—	—	—	—	—	—	—

[1] Analysis considers whether or not an individual has received JSA in the year prior to commencement of their receipt of IB/SDA. Some individuals have received both JSA(IB) and JSA(C) in the year previous to their receipt of IB/SDA.
[2] Figures are subject to a high degree of sampling error and should only be used as a guide.
Notes:
1. Figures are shown in thousands and rounded to the nearest hundred.
2. These figures have been updated to include late notified commencements. All figures back to 1995 have been revised, and may be subject to further change; figures prior to 2002 are subject to minor changes; figures for 2002 include fewer late notifications than previous quarters and will be subject to greater change in future; figures for the latest quarter do not include any late notifications and are subject to major changes in future quarters. For illustration purposes, total commencements for November 2002 increased by 15 per cent. in the year following their initial release.
3. Figures may not sum due to rounding.
4. It is not possible to separate out the stress and anxiety categories.
5. All diagnoses are coded using the International Classification of Diseases, 10th Edition, published by the World Health Organisation.
Source:
DWP—IAD Information Centre, 5 per cent. samples.

Mr. Goodman: To ask the Secretary of State for Work and Pensions whether the expansion of the specialist personal adviser service to support longer-term incapacity benefit recipients announced in the Budget will be available *(a)* for the Jobcentre Plus pathways to work pilots and *(b)* to all New Deal for Disabled People programmes. [167241]

Maria Eagle: In his recent Budget statement, my right hon. Friend, the Chancellor of the Exchequer, announced new measures to be piloted in the seven Jobcentre Plus Pathways to Work areas.

We will provide three additional mandatory work-focused interviews (WFIs) for those incapacity benefits claimants who started a claim in the two years before the pilots started, excluding the most severely incapacitated cases. These interviews will be designed to identify those who retain an interest in getting back to work and to provide effective support to enable them to do that. In addition, we will offer a new job preparation premium of £20 per week, payable for a maximum of 26 weeks to encourage participation in relevant activity that supports a return to work. These measures will be brought in from early next year and will be fully evaluated.

Existing IB recipients attending WFIs will be offered access to New Deal for Disabled People as part of the range of provision currently available in Pathways to Work areas.

Pension Credit

Mr. Webb: To ask the Secretary of State for Work and Pensions if he will list the categories of pension credit recipient who are entitled to a level of guarantee credit in excess of the standard level. [167319]

Malcolm Wicks: The guarantee credit provides, or contributes towards, a guaranteed minimum level of income of £105.45 a week for single people aged 60 and over (£160.95 for couples). These standard amounts may be more for people who have caring responsibilities, are severely disabled or have certain housing costs.

For some people who were getting transitional protection in their income support or jobseeker's allowance before they started to get pension credit a transitional extra amount may be included.

State Second Pension

Mr. Webb: To ask the Secretary of State for Work and Pensions from what date entitlement to the State Second Pension will accrue on a flat-rate basis; and if he will make a statement. [167318]

Malcolm Wicks: No decision has been taken as yet regarding the date from which State Second Pension may begin to accrue on a flat-rate basis.

Written Answers to Questions

Friday 23 April 2004

ENVIRONMENT, FOOD AND RURAL AFFAIRS

Agriculture (Environmental Damage)

Mr. Hancock: To ask the Secretary of State for Environment, Food and Rural Affairs what research she has *(a)* commissioned and *(b)* evaluated on damage caused to the environment by animal agriculture. [164224]

Mr. Morley: The information is as follows.

(a) Defra has commissioned a wide range of studies on this topic. These programmes and their associated studies have been addressed by "pollutant" (eg greenhouse gas, ammonia, nitrate, phosphorus) rather than by farming sector (eg animal, arable). Full details of the numerous studies, both on-going and those completed in and after 1999, can be found on http://www2.defra.gov.uk/research/project_data/subject.asp?SCOPE=0. Most of this extensive research is listed under the policy areas "Environmental Protection (Agriculture)" and "Farmland Conservation". Some of the output of this research is summarised in National Inventories for Greenhouse Gases and Ammonia.

(b) Defra R&D programmes are subjected to periodic review (usually triennial). In addition, individual studies are subject to an expanding programme of peer review. An economic evaluation of the nitrate R&D programme was published in 2002 and can be found at http://statistics.defra.gov.uk/esg/evaluation/nitrate/default.asp.

Amazon Basin

Mr. Watson: To ask the Secretary of State for Environment, Food and Rural Affairs what assessment she has made of the impact of the globalised beef market on deforestation in the Amazon basin. [166834]

Mr. Morley: The international beef export market is expanding and Brazilian production is rising to meet demand. The vast majority of Brazil's export trade is currently with countries outside the European Community.

We have not undertaken our own assessment of the impact of the globalised beef market on deforestation in the Amazon Basin, but we are aware of work undertaken and published on 2 April 2004 by CIFOR (Centre for International Forestry Research), which suggests that Brazil's beef production contributes to the destruction of the Amazon rainforest.

The Government takes sustainable forest management seriously and is playing a leading role in international negotiations on forests in a number of fora, including the Convention on Biological Diversity, the United Nations Forum on Forests (UNFF), Forest Law Enforcement and Governance processes and the G8.

The Government is committed to tackling illegal logging. Under EU law, a ban on the import of illegally logged timber can be imposed only at EU level. We are therefore showing leadership within the European Forest Law Enforcement, Governance and Trade (FLEGT) process. The FLEGT action plan includes the proposal to negotiate voluntary partnership agreements with timber producing countries. These agreements would be underpinned by a new EU import Regulation that would deny access to EU markets for illegally harvested timber from those countries.

BACS

Brian White: To ask the Secretary of State for Environment, Food and Rural Affairs what progress her Department has made to manage the changeover from the Bank Automated Clearing System to the new BACSTEL-IP system for electronic payments. [164328]

Alun Michael: Defra has been in discussion with our Bank Automated Clearing System (BACS) software provider and we have also been in communication with our sponsoring bank for BACS payments (The Bank of England). Defra will be migrating to BACSTEL-IP in accordance with the timetable issued by BACS Ltd. and guidance from The Office of the Paymaster General.

BSE/nvCJD

Mr. Drew: To ask the Secretary of State for Environment, Food and Rural Affairs if she will publish the latest evidence on the links between BSE and new variant CJD. [164072]

Miss Melanie Johnson: I have been asked to reply.

The research referred to is published in international scientific literature, not by the Government.

The two latest published findings are Asante E. A. *et al* (2002)—the European Molecular Biology Organisation Journal, vol. 21, pp. 6358–6366 and proceedings of the National Academy of Science (USA) vol. 98, pp 4142–4147. Copies of both have been placed in the Library.

Carbon Dioxide Emissions

Linda Perham: To ask the Secretary of State for Environment, Food and Rural Affairs what assessment she has made of the factors accounting for the trend in UK carbon dioxide emissions since 1996. [165455]

Alun Michael: UK emissions of CO^2 in 2003 were some seven million tonnes of carbon (MtC) lower than in 1996. Broadly speaking this can be accounted for by warmer temperatures in 2003 (-4MtC), greater economic output (+29MtC), lower energy consumption per unit of economic output (-26 MtC), and lower average carbon content of fuels per unit of energy consumption (-6 MtC). The figures in brackets indicate approximately the contribution of each effect, positive and negative signs indicating respectively a contribution to higher or lower emissions.

Chardon LL Fodder Maize

Mr. Simon Thomas: To ask the Secretary of State for Environment, Food and Rural Affairs if she will

withdraw her request to the French competent authority for a variation in the conditions attached to the Part C consent for Chardon LL fodder maize. [166421]

Mr. Morley [*holding answer 21 April 2004*]: No. The consent issued by the French Authorities applies to all types of maize genetically modified with the event known as T25, not just to specific varieties, such as Chardon LL.

Climate Change

Norman Baker: To ask the Secretary of State for Environment, Food and Rural Affairs what recent estimate the Government has made of the annual costs to the insurance industry resulting from climate change. [165815]

Mr. Morley: According to the Association of British Insurers storm and flood insurance losses in the UK over the past five years have totalled £5 billion, twice that of previous years. At present, it is not possible scientifically, to attribute such changes and the associated weather events to climate change absolutely. However, what is clear is that the extreme weather events experienced in the UK over recent years (for example, the floods in 2000 and the hot summer in 2003) are typical of what is likely to be experienced with even greater frequency as a result of man-made climate change.

Environment Agency

David Taylor: To ask the Secretary of State for Environment, Food and Rural Affairs what plans she has to review the Environment Agency's pollution incident recording system. [166051]

Mr. Morley: I have no plans to review the Environment Agency's National Incident Recording System (NIRS).

The Agency carries out an ongoing review of the effectiveness of the system and liaises with the user community, making changes where appropriate.

Over the next five years, the Agency will be looking to move towards one fully integrated web-based tracking system to encompass incident reporting and enforcement.

Environmental Problems (Costs)

John Barrett: To ask the Secretary of State for Environment, Food and Rural Affairs what discussions she has had with the Treasury on the cost to the economy of environmental problems. [166670]

Mr. Morley: Officials and Ministers from Defra and the Treasury frequently discuss the cost to the economy of environmental problems and how best this can be mitigated. To inform these discussions and policy development more generally Defra undertakes analysis of the economic costs and benefits of policies to protect the environment, including a continuous programme of impact assessments and an annual national survey of environmental expenditure by businesses.

Recent examples of such discussions include the development of proposals for returning the revenue from the new landfill tax escalator to business and consideration of the scope for cost savings through more sustainable patterns of consumption and production.

GM Crops

Mr. Simon Thomas: To ask the Secretary of State for Environment, Food and Rural Affairs pursuant to the answer of 18 March, *Official Report*, column 435W, on GM crops, whether the investigations were conducted by the Robert Koch Institute on behalf of the Syngenta Corporation. [166109]

Mr. Morley: The German Government has appointed the Robert Koch Institute as its competent authority under Directive 2001/18. The Institute's investigation was undertaken as the competent authority with the full co-operation of Syngenta, who hold the consent for marketing of Bt176 maize.

Sustainable Development

Sue Doughty: To ask the Secretary of State for Environment, Food and Rural Affairs what steps she is taking to deliver sustainable development within Government. [165657]

Mr. Morley: Sustainable development is the responsibility of all Government Departments, but one for which Defra takes the lead. Defra actively promotes sustainable development across Whitehall in many ways in line with the Department's primary Public Service Agreement. Current initiatives include:

Annual reporting on the Government's progress towards sustainable development in the UK since the launch of the 1999 strategy for sustainable development. The 2003 "Achieving a better quality of life" report updates progress on the UK Government's 15 headline indicators of sustainable development and gives an overview of the main strategic developments and actions.

Drawing up new UK sustainable development strategy, including a strategic framework covering both domestic and international dimensions, co-owned and agreed by the devolved Administrations and the UK Government. The consultation was launched on 21 April.

Development of the Framework for Sustainable Development on the Government Estate. This is the main vehicle for improving the way in which Government Departments manage their business operations.

Ensuring that domestic and international sustainable development is an important consideration in HM Treasury's Spending Review 2004.

Pursuing, along with other Government Departments, implementation of the commitments stemming from the World Summit on Sustainable Development.

Sue Doughty: To ask the Secretary of State for Environment, Food and Rural Affairs what progress has been made on her Department's Sustainable Development Strategy. [165658]

Mr. Morley: Progress towards meeting the targets listed in the Framework for Sustainable Development on the Government Estate is detailed in the Sustainable Development in Government report published in November 2003.

Sustainable development, as the Department's overarching aim, also underpins Defra's work, which is reported in the departmental annual reports.

A review of progress on Defra's SD strategy, "Foundations for our Future", will be published later in the year. We also published a five-year review of progress on the UK Government strategy, "Achieving a better quality of life", on 16 March 2004, together with updates on the headline indicators. Defra, together with the devolved Administrations and other Government Departments, will be launching a consultation on a future UK strategy, including both domestic and international dimensions, later this month.

Hazardous Waste

Sue Doughty: To ask the Secretary of State for Environment, Food and Rural Affairs pursuant to her answer of 11 March 2004, *Official Report*, column 1621W, on hazardous waste, if she will make a statement on the *(a)* detection and *(b)* prosecution rates she expects the Environment Agency to achieve. [165295]

Mr. Morley: It is not possible to predict detection and prosecution rates for hazardous waste. However, Environment Agency data for prosecutions brought relating to illegal waste activity as a whole is available for the years 1999–2003 as follows:

Year (financial)	*Number of prosecutions*
1999–2000	366
2000–01	446
2001–02	484
2002–03	511

The Environment Agency takes enforcement action against incidents and breaches of permit conditions in accordance with its enforcement and prosecution policies.

Press Officers

Mr. Laws: To ask the Secretary of State for Environment, Food and Rural Affairs how many press officers were employed in her Department in each year from 1990–91 to 2003–04; what the total cost was in each year; and if she will make a statement. [162852]

Alun Michael: Defra was not set up until June 2001. Figures relating to numbers of press officers employed by the organisations whose functions were subsumed into the new department would not correspond accurately to the distribution and scope of the present work areas.

The number of press officers employed at Defra has been as follows:

	Number
June 2001	22
June 2002	22
June 2003	22
As at 18 March 2004	19

Public Bodies

Dr. Cable: To ask the Secretary of State for Environment, Food and Rural Affairs what the budget for administration was for each non-departmental public body for which she is responsible that are in the following categories *(a)* public corporation, *(b)* executive, *(c)* advisory and *(d)* tribunal non-departmental public bodies in financial year 2002–03. [164460]

Alun Michael: Details of the administration costs of executive, tribunal and advisory NDPBs and public corporations are as follows:

Executive NDPBs and Public Corporations

Both management accounting practices and the definition of administration costs differ from organisation to organisation. Therefore comparisons between NDPBs may not be appropriate.

Advisory and Tribunal NDPBs

Administration costs for advisory and tribunal NDPBs include the costs of board members (fees and expenses) and any associated direct costs of running the NDPB. It does not include the costs of the secretariats within Defra.

Administration costs of executive, advisory and tribunal NDPBs and public corporations

£

	Administration costs
Executive NDPBs	
Agricultural Wages Board	129,902
Agricultural Wages Committee	12,547
British Potato Council	1,758,718
Countryside Agency	17,500,000

[1] Estimated figure to reflect the costs of internal administration.
[2] No information.
[3] There was no call on the services of the tribunal in 2002–03.

Radioactive Waste

Mr. Simon: To ask the Secretary of State for Environment, Food and Rural Affairs if the Committee on Radioactive Waste Management will take evidence from the relevant bodies in *(a)* Sweden, *(b)* Finland and *(c)* the USA. [159024]

Mr. Morley: CoRWM is an independent Committee and will gather information from any organisations it considers relevant.

Rural Payments Agency

Miss McIntosh: To ask the Secretary of State for Environment, Food and Rural Affairs how many formal complaints were made against the Rural Payments Agency's Northallerton office in the last 12 months for which figures are available. [164597]

Alun Michael: Complaints against the Rural Payments Agency (RPA) are interpreted as complaints in respect of decisions made under the Common Agricultural Policy schemes which it administers. Such complaints are therefore recorded against scheme type and not on a site by site basis.

The RPA could not extrapolate the data required to break this figure down to site level without incurring disproportionate costs.

Timber

Ms Walley: To ask the Secretary of State for Environment, Food and Rural Affairs what measures are being implemented by the Environment Agency to ensure that all timber used on the construction sites of new offices will come from legal and sustainable sources, and if she will list those sites. [166717]

Mr. Morley: The procurement by the Environment Agency of sustainably managed timber is reported publicly at quarterly Board meetings and in the Agency's Annual Environmental Report. Preliminary indications are that in 2003–04, all of the timber used was from a sustainably managed source.

The Agency is currently having a new leasehold office built to its requirements at Wallingford, near Oxford.

Trees

Norman Baker: To ask the Secretary of State for Environment, Food and Rural Affairs what proportion of trees *(a)* had full crowns, *(b)* had slight defoliation, *(c)* had moderate defoliation, *(d)* had severe defoliation and *(e)* were dead in the most recent survey of tree health in Europe under the United Nations Economic Commission for Europe Convention on Long Range Transboundary Air Pollution, broken down by country. [165742]

Mr. Morley: The results of the 2002 Large-scale Survey of Forest Condition in Europe is published by the UNECE and European Commission are shown in the table. The report did not separate the 'severe defoliation' and 'dead' categories.

Defoliation of all species by classes and class aggregates (2002)

Participating Countries	*Area surveyed (1,000 ha)*	*No. of sample trees*	*0 none*	*1 slight*	*2 moderate*	*3 + 4 severe and dead*	*2 + 3 + 4*

[3] Only regional surveys in north-western and central European parts of Russia.
[4] Montenegro only.

Waste

Mr. Peter Duncan: To ask the Secretary of State for Environment, Food and Rural Affairs if she will make a statement on projects her Department supports which aim to produce road fuel from waste material. [162255]

Mr. Morley: The Department does not support financially any projects which aim to produce road fuel from waste material.

Mr. Peter Duncan: To ask the Secretary of State for Environment, Food and Rural Affairs if she will make a statement on the effect of new legislation on current methods of disposing of farm waste plastics. [162256]

Mr. Morley: Plastic packaging waste from farms is already subject to the Producer Responsibility Obligations (Packaging Waste) Regulations 1997 (as amended) which encourage the reuse of packaging where possible and require businesses to recover and recycle packaging waste to target levels.

Waste from premises used for agriculture is currently excluded from national waste management controls by section 75(7)(c) of the Environmental Protection Act 1990. Draft regulations and an associated consultation document are being drafted for publication later in the spring and the consultation will include proposals for a producer responsibility scheme for increasing the collection and recycling of non-packaging agricultural waste plastic.

Currently the majority of agricultural waste plastic is disposed of by burial in un-licensed "farm tips" or by unregulated open burning with consequential risks to the environment and human health. The proposed regulations will prohibit the on-farm disposal of agricultural waste without a waste management licence or a registered licence exemption. Waste agricultural plastic will have to be disposed of or recovered in appropriately licensed or registered sites in line with other sectors of industry.

TRANSPORT

Airport Capacity (South-East)

Mrs. Dunwoody: To ask the Secretary of State for Transport whether comprehensive simulation of the airspace management implications of possible runway development options for the south east of England was undertaken prior to the publication of the Aviation White Paper on 16 December 2003; and what plans *(a)* National Air Traffic Services and *(b)* the Civil Aviation Authority have to undertake such a simulation. [166544]

Mr. Darling: Pursuant to my answer of 19 April 2004, *Official Report*, column 307W, I referred to the level of airspace modelling work that the Department commissioned CAA-DAP and NATS to carry out as part of the SERAS Study in advance of the White Paper. The primary objective of this work was to simulate several airport development scenarios to assess whether the London airspace system could accommodate runway capacities of the order envisaged by the development options.

However, now that the White Paper has been published, it is necessary to move from simulations to develop a comprehensive redesign of London's airspace. Paragraph 12.26 of the White Paper confirms that the Government looks to CAA to make early progress in bringing forward a structured programme for this work. The White Paper also makes it clear that CAA will need to involve NATS in working up its detailed proposals.

Refuelling Depots

Bob Spink: To ask the Secretary of State for Transport (1) how many liquefied petroleum gas refuelling depots there were in each of the last five years; and if he will make a statement; [167233]

(2) how many compressed natural gas refuelling depots there were in the UK in each of the last three years; and if he will make a statement. [167234]

Mr. Jamieson: The following table shows, for the UK, the number of liquefied petroleum gas (LPG) refuelling sites in the last five years and the number of publicly accessible compressed natural gas refuelling sites in the last three years.

Year	*Liquefied petroleum gas refuelling sites*[1]	*Compressed antural gas refuelling sites*[2]
1999	285	N/a
2000	610	N/a
2001	1000	13
2002	1200	14
2003	1272	19

[1] Liquid Petroleum Gas Association
[2] Natural Gas Vehicle Association

The Government is committed to the uptake of alternatively fuelled vehicles. Government grants are provided for the purchase of both LPG and natural gas vehicles and the installation of refuelling infrastructure under the Powershift programme. Further Government support is provided for alternatively fuelled vehicles through reduced fuel duty for road fuel gases and reduced Vehicle Excise Duty. Alternatively fuelled vehicles may also be exempt from the London congestion charge.

Vehicle Use

Brian Cotter: To ask the Secretary of State for Transport what changes there have been to the amount of vehicle kilometres travelled over the last five years within *(a)* the North Somerset local authority and *(b)* Weston-super-Mare. [167526]

Mr. Jamieson: Traffic estimates for counties and unitary authorities have been published on my Department's web site. These show that there was an estimated 14 per cent. increase in vehicle kilometres in North Somerset between 1997 and 2002, the latest year for which figures are available. The corresponding information for district authorities, including Weston-super-Mare, is not available.

TRADE AND INDUSTRY

Renewable Energy

Mr. Kilfoyle: To ask the Secretary of State for Trade and Industry how much money her Department has invested in renewable energy in Liverpool from 1997 to 2003. [166954]

Mr. Timms: In 2003 the Department awarded a capital grant of £10 million to Seascape Energy towards the costs of developing the Burbo Bank offshore wind farm in Liverpool Bay.

In 1999, Mersey Docks and Harbour Company were awarded a contract under the Non Fossil Fuel Obligation (NFFO) arrangements for electricity to be generated from six 600 kW wind turbines in Seaforth Dock.

A grant of £94,647 was awarded under the DTI's PV Domestic Field Trial to CDS Housing for a project at Pinehurst Estate, Liverpool.

A grant of £11,759 was awarded to Cosmopolitan Housing Association under stream 1 of the DTI's Photovoltaic (PV) Major Demonstration Programme for a project in Liverpool.

A grant of £1,250 was awarded to Liverpool county council under the DTI's Clear Skies scheme for a community project in Liverpool.

Some initiatives relating to the North West region as a whole may result in benefits for Liverpool. In 2000–01, the DTI contributed £50,000 towards a study of the potential for renewable energy throughout the North West region. Between 2002–04, the DTI contributed £208,060 towards a regional renewable energy planning facilitation fund administered through the Government Office for the North West.

Mr. Evans: To ask the Secretary of State for Trade and Industry what plans she has to differentiate between offshore and onshore wind farms in the subsidy system for selling renewable obligation certificates. [165518]

Mr. Timms: None.

Mr. Pike: To ask the Secretary of State for Trade and Industry what assessment she has made of the effects of recent trends in investment in renewable energy upon residents of Burnley. [168305]

Mr. Timms: Recent trends in renewable energy investment have been highly encouraging. More new capacity has been constructed in the last few years than in the previous decade, and a significant amount is currently in the pipeline. This covers a wide range of technologies including onshore and offshore wind, solar and biomass.

Whilst this investment has not translated into capacity within Burnley itself, there are wind farm developments, both constructed and proposed, in the surrounding area. There is the 9.6 MW 24 turbine development at Coal Clough, built in 1992. The application for the Hameldon Hill wind farm, a 3 turbine 5 MW development has recently been approved on appeal.

Overseas Trade

John Robertson: To ask the Secretary of State for Trade and Industry if she will break down the UK's trade figures with *(a)* China and *(b)* Taiwan in the past 12 months into (i) imports and (ii) exports. [165860]

Mr. Mike O'Brien: Information on UK imports and exports of goods, from and to China and Taiwan, is given in the following table.

£ million[1]

	China		*Taiwan*	
	UK imports	*UK exports*	*UK imports*	*UK exports*
2003				
February	601	150	185	68
March	626	153	185	65
April	657	191	175	87
May	675	181	186	68

January	791	128	182	72

[1] Seasonally adjusted

Source:

Business Monitor MM24, Monthly Review of External Trade Statistics, ONS

Post Office (Closures)

Tom Brake: To ask the Secretary of State for Trade and Industry if she will list the post offices which have been closed since 1997 in the Carshalton and Wallington constituency; and when each closed. [167649]

Mr. Timms: Decisions on post office closures are an operational matter for Post Office Ltd. and I have asked the Chief Executive to reply direct to the hon. Member.

Post Office Network

Mr. Andrew Turner: To ask the Secretary of State for Trade and Industry when she expects to make an announcement on the future of the rural post office network subsidy. [168226]

Mr. Timms: The Cabinet Office Performance and Innovation Unit (PIU) report on the future of the post office network recommended that the Postal Services Commission should advise the Government on the main options for the policy framework after 2006. The Government is currently considering the advice and will take decisions on the shape of the rural post office network after 2006 in good time to allow for a smooth transition from the current support arrangements.

Mr. Andrew Turner: To ask the Secretary of State for Trade and Industry how many *(a)* rural and *(b)* urban post offices have (i) closed and (ii) been opened since 1997. [168227]

Mr. Timms: I understand from Post Office Ltd. that details of net post office closures in the United Kingdom, recorded by urban/rural classification are only available from March 2000 and are as follows:

Post office closures

	Urban	*Rural*
2000–01	106	441
2001–02	68	194
2002–03	[1]230	115

[1] Includes 102 closures under the urban network reinvention programme.

Post Office Ltd. is yet to report a detailed breakdown of closures for the financial year 2003–04. The latest quarter for which information on post office closures is available (December 2003)—reveals that net closures were as follows:

2003–04—to end of December 2003

Urban	*Rural*
[1]642	132

[1] Includes 592 closures under the urban network reinvention programme.

Mr. Andrew Turner: To ask the Secretary of State for Trade and Industry what estimate she has made of the number of rural post offices protected from closure by the rural network subsidy. [168228]

Mr. Timms: No such estimate has been carried out. All rural sub-post offices benefit from the Government's package of support which is used to maintain the 'Assigned Office Payments' to sub-postmasters and to fund the front-line services necessary for each and every post office to operate—for example IT and cash. Without Government support, large parts of the rural network would have faced closure.

The funding ensures that, at least until 2006, Post Office Ltd. can maintain the rural network and prevent avoidable closures. Nevertheless, some closures are inevitable, for example where a sub-postmaster or sub-postmistress retires and no one can be found to take on the service. However, where a rural office closes permanently, alternative forms of providing the post office service in that area will be explored.

Royal Mail

Malcolm Bruce: To ask the Secretary of State for Trade and Industry how many claims for compensation were made and how much Royal Mail Group paid in compensation in each year since 1997 in respect of *(a)* first class, *(b)* second class, *(c)* special delivery next day, *(d)* special delivery 9.00 am, *(e)* recorded signed for and *(f)* standard parcels mail which was (i) delayed and (ii) severely delayed; and how many claims were made, and how much was paid in compensation, in each year since 1997 for (A) damage to valuable mail, (B) consequential loss and (C) delay to bulk mailings. [168671]

Mr. Timms: Compensation claims are an operational matter for Royal Mail Group and I have therefore asked the Chief Executive to reply direct to the hon. Member.

Utility Companies

Mr. Best: To ask the Secretary of State for Trade and Industry how many complaints were received by Energywatch on switching energy suppliers in the last year for which figures are available; and if she will make a statement. [167772]

Mr. Timms: During 2003, 3.1 million domestic gas customers and 4.2 million domestic electricity customers changed their suppler. In that period, Energywatch received 22,437 complaints from domestic consumers about the transfer process, including complaints about both erroneous transfers and problems in switching supplier. The gas and electricity industry, with the involvement of the Office of Gas and Electricity Markets (Ofgem) and Energywatch, and with the encouragement of DTI, is currently engaged in a three-stage programme to establish the causes of difficulties within the transfer process and identify and implement solutions.

Vessel Procurements

Mr. Nicholas Brown: To ask the Secretary of State for Trade and Industry which sea-going vessel procurements she is considering; when she plans to issue invitations to tender; and whether the procurement will be limited to the UK for strategic reasons. [166539]

Mr. Jamieson: I have been asked to reply.

The General Lighthouse Authorities (GLAs) are developing proposals for the procurement of two multi-function tenders and a rapid response vessel to replace three of the GLAs1 current tenders. It is too early to know when invitations to tender will be issued or how and when the build contract will be placed.

Wind Farms

Mr. Laurence Robertson: To ask the Secretary of State for Trade and Industry how much money has been provided in capital grants to *(a)* off-shore and *(b)* on-shore wind farms since 1997; and if she will make a statement. [168055]

Mr. Timms: Since 1997, the Government have committed £117 million in grant support to early off-shore wind farm development. No direct grant support has been provided for on-shore wind farm development.

DEFENCE

Airfield Support Services Project

Mr. Hancock: To ask the Secretary of State for Defence what discussions he has had with the Office of the Deputy Prime Minister on ensuring that the Airfield Support Services Project solution is compatible with the modernisation agenda for fire services. [167251]

Mr. Ingram: There have been no formal discussions between the Ministry of Defence and the Office of the Deputy Prime Minister on the compatibility of the Airfield Support Services Project (ASSP) with the modernisation agenda for the Fire and Rescue Service.

The ASSP will be sufficiently flexible to adapt to any changes that might be brought about as a result of the modernisation programme.

Funding

Mr. Soames: To ask the Secretary of State for Defence what *(a)* resource and *(b)* capital expenditure was vired from RfR1 to RfR2 in the most recent financial year for which figures are available, in (i) cash and (ii) resource terms. [167047]

Mr. Ingram: Outturn for 2003–04 is not yet available. No funds were vired from RfR1 to RfR2 during 2002–03.

Iraq

Mr. Hancock: To ask the Secretary of State for Defence if he will make a statement on the amounts of reparations that have been paid to Iraqis. [166927]

Mr. Ingram: Reparations are the compensation extracted as an indemnity from a defeated nation by the victors. Neither Iraq nor the United Kingdom has sought or paid reparations to the other.

Land Mines (Cress)

Mr. Watson: To ask the Secretary of State for Defence what research he has evaluated on genetically modified cress that changes colour when it comes into contact with landmine explosives. [166846]

Mr. Ingram: The Ministry of Defence is not currently involved in any research into mine detection using genetically modified cress.

A Danish company, Aresa Biotechnology, has developed a genetically modified cress plant that changes colour in response to nitrogen dioxide, which is sometimes a by-product of degrading explosives, in soil. The colour change has the potential to indicate the presence of mines, although not in all cases.

The MOD continues to monitor the progress of this research as it develops.

TREASURY

Child Tax Credit

Mr. Pike: To ask the Chancellor of the Exchequer how many families in Burnley have received child tax credit. [167906]

Dawn Primarolo: I refer my hon. Friend to my answer to my hon. Friend the Member for Burton (Mrs. Dean) on 15 March 2004, *Official Report*, column 98W.

Gift Aid

John Barrett: To ask the Chancellor of the Exchequer (1) pursuant to the answer of 30 March 2004, *Official Report*, columns 1350–51W, on Gift Aid, how many responses his Department received to the original consultation that followed the pre-Budget report; [166990]

(2) whether an assessment was made of the additional income that would be raised from the proposed changes to Gift Aid rules on day memberships, based on the responses received from charities in the original consultation that followed the pre-Budget report. [166991]

John Healey: Inland Revenue received 57 responses during the original consultation period. These came from charities, representative bodies and associations and other interested parties.

Tax reclaimed on so called "day memberships" using the Gift Aid scheme is not differentiated from tax reclaimed on other Gift Aid donations, so it is not possible to estimate the saving to the Exchequer of ending Gift Aid on admission charges. Information supplied during the original consultation would not enable an assessment to be made. However, the purpose of this measure is not revenue-raising, but is about maintaining the principles of Gift Aid as a scheme designed to encourage donations to charity.

Income Tax (Manchester)

Mr. Kaufman: To ask the Chancellor of the Exchequer how many senior citizens in Manchester Gorton qualified for the 10p rate of income tax in each year since its introduction. [167472]

Dawn Primarolo: Reliable information is not available. The sample size of pensioners living in the Manchester Gorton constituency is relatively small compared to other constituencies in the Survey of Personal Incomes.

IT Equipment (Tax Exemption)

Mr. Pike: To ask the Chancellor of the Exchequer how many businesses in Burnley have benefited from the 100 per cent. tax exemption for the purchase of computer and internet equipment. [167907]

Dawn Primarolo: The information is not available.

Self-Assessment

Mr. Drew: To ask the Chancellor of the Exchequer what guidance his Department issues to individuals who make a mistake when completing an on-line self

assessment tax return because of misunderstanding whether the form P60 refers to gross or net income. [160102]

Dawn Primarolo: The Inland Revenue provides no specific guidance to individuals who make a mistake when completing an on-line self assessment tax return because of misunderstanding whether the form P60 refers to gross or net income but online help is available when completing the boxes relevant to information on P60.

Mr. Drew: To ask the Chancellor of the Exchequer how many complaints he has received over problems with the operation of the on-line self assessment tax return form. [160103]

Dawn Primarolo: The Chancellor of the Exchequer has received four complaints in connection with the operation of the on-line self assessment tax return form since 6 April 2003.

Norman Lamb: To ask the Chancellor of the Exchequer what assessment he has carried out of the amount of tax due in respect of taxpayers who have failed to return self-assessment forms over the last five years. [166420]

Dawn Primarolo: It is not possible to calculate an accurate figure of the amount of tax due in respect of taxpayers who have failed to return self-assessment forms. The Inland Revenue have launched a three-year initiative to recover outstanding tax returns and any associated tax due from taxpayers who have failed to file, concentrating on cases where, on past history, there appears likely to be tax due.

Senior Citizens (Burnley)

Mr. Pike: To ask the Chancellor of the Exchequer how many senior citizens in Burnley qualified for the 10p rate of income tax in each year since its introduction. [167905]

Dawn Primarolo: All income taxpayers benefit from the 10p starting rate. The Survey of Personal Incomes estimates there are about 4,000 and 5,000 state retirement pension age taxpayers in the Burnley constituency in 2000–01 and 2001–02 respectively. Figures for 1999–2000 are currently not available.

Tax Exemptions (Manchester)

Mr. Kaufman: To ask the Chancellor of the Exchequer how many businesses in Manchester Gorton have benefited from the 100 per cent. tax exemption for the purchase of computer and internet equipment. [167474]

Dawn Primarolo: The information requested is not available.

Tax Returns

Mr. Flook: To ask the Chancellor of the Exchequer how many tax returns have been issued to trustees of pension schemes who carry no tax liability or refund in each tax year since 1997. [167584]

Dawn Primarolo: This information is not available.

DEPUTY PRIME MINISTER

Antisocial Behaviour

Mrs. Curtis-Thomas: To ask the Deputy Prime Minister how many injunctions for antisocial behaviour from tenants have been requested by Merseyside's local authorities in the past 12 months. [165916]

Yvette Cooper: The Office of the Deputy Prime Minister does not request that local authorities supply information on the number of injunctions they seek relating to the antisocial behaviour of tenants.

Asbestos

Malcolm Bruce: To ask the Deputy Prime Minister if he will list the buildings occupied by his staff, including agencies, which require *(a)* remedial work on and *(b)* the removal of asbestos; what that work will cost; what budgets are available for this work for (i) 2004 and (ii) 2005; and what budget is available for future asbestos surveys. [159363]

Yvette Cooper: Asbestos surveys undertaken in accordance with the Control of Asbestos at Work Regulations 2002 have revealed that the following buildings occupied staff of the Office of the Deputy Prime Minister, including agencies, contain asbestos-based materials:

Ashdown House, Victoria Street, Westminster.

Fire Service College, Moreton-in-Marsh, Gloucestershire.

Government Office for London, Riverwalk House, Westminster.

Government Office for the North East—Wellbar House, Newcastle.

The Budget allocated for asbestos removal and remedial action is:

2004–05—£800,000

2005–06—£0

The budget figure of £800,000 in 2004–05 is for asbestos removal from Riverwalk House. Although the Office of the Deputy Prime Minister has overall responsibility for this building, the Government Offices carry out functions on behalf of 10 Departments.

The Office of the Deputy Prime Minister has not allocated specific funds for future asbestos surveys; these will be funded from existing maintenance budgets.

Computer Services

Bob Spink: To ask the Deputy Prime Minister what plans he has to update computer *(a)* hardware and *(b)* software standard packages used in his Department. [166360]

Yvette Cooper: Plans to update computer hardware and software packages used by the Office of the Deputy Prime Minister are covered by our Corporate Information and Communications Technology Strategy and underpinned by Service level Agreements with our IT suppliers.

Over the next year we will be upgrading our corporate desktop software from Microsoft NT to Microsoft XP. Our computer hardware is upgraded as part of a rolling equipment upgrade and replacement programme for obsolete equipment.

Development Planning

Mr. Clifton-Brown: To ask the Deputy Prime Minister if he will set out a timetable for the revision of planning guidance notes into planning policy statements; what his policy is on reallocation of land zoned for employment, industrial and commercial development into residential land; and what action he is taking to ensure that each authority provides sufficient affordable housing. [166944]

Keith Hill: The Office of the Deputy Prime Minister intends to make an announcement shortly on the timetable for the revision of Planning Policy Guidance Notes (PPG) into Planning Policy Statements (PPS).

In July 2003, the Office of the Deputy Prime Minister published the consultation document 'Supporting the delivery of new housing'. This proposed to add new policy to PPG3: Housing requiring local planning authorities to consider favourably applications for housing development on allocated unneeded industrial and employment sites unless it can be demonstrated that the site is still needed for that purpose or that it would undermine the planning for housing strategy. This would complement paragraph 42 of PPG3 which expects local authorities, when revising their plans, to review all their non-housing allocations, including those for employment, and consider whether some of this land might better be used for housing or mixed use developments.

The consultation closed on 31 October 2003. Our aim is to publish the final policy in the summer, alongside practice guidance to help local planning authorities in reviewing employment land allocations.

The "Sustainable Communities Plan" (published on 5 February 2003) set out a comprehensive programme of action to increase the provision of affordable housing, including a large increase in expenditure. £3.3 billion is being provided for the Housing Corporation's programme over the next two years (2004–06). This will provide funding for 67,000 new affordable homes for both rent and low cost home ownership.

Also in July 2003, the Office of the Deputy Prime Minister published the consultation document 'Influencing the size, type and affordability of housing'. It proposed that local planning authorities should address the housing requirements of the whole community by ensuring a better match between a community's housing needs and supply, and that all local planning authorities must have policies on affordable housing to help deliver affordable housing where it is needed. We aim to publish the final update in the autumn, alongside practice guidance.

I refer my hon. Friend to the answer given on 16 December, 2003, *Official Report*, column 856W, on the mechanism for monitoring local planning authority performance and the actions that could be taken where their policies are not having the desired effect.

Homelessness

Ms Oona King: To ask the Deputy Prime Minister pursuant to the Answer of 9 March 2004, *Official Report*, columns 1440–1W, on homelessness, if he will introduce best value performance indicators on *(a)* homelessness prevention and *(b)* tenancy sustainment. [166128]

Yvette Cooper: A review of the Best Value Performance Indicators is currently being taken forward in order to ensure that they reflect the key national and local priorities, and accurately inform Comprehensive Performance Assessment ratings. As part of that review, we are considering whether there is a need for extra homelessness related performance indicators in addition to those which are already in place.

Housing Corporation

Mr. Clifton-Brown: To ask the Deputy Prime Minister what the actual expenditure of the Housing Corporation was over the last 10 years; and what its budget is for the next three years. [166894]

Keith Hill: The expenditure by the Housing Corporation over each of the past 10 years is tabled as follows, together with the indicative budget for 2004–05 and 2005–06. The figures do not include spending on the Housing Corporation's administration.

Housing Corporation Expenditure

	Total (£ million)
1993–94	2,297.80
1994–95	2,038.40
1995–96	1,722.60
1996–97	1,608.20
1997–98	1,298.80
1998–99	1,217.00
1999–2000	1,300.00
2000–01	1,374.20
2001–02	1,387.40
2002–03	1,712.90
2003–04 (Provisional outturn)	2,059.95
2004–05 (Budget)	1,660.61
2005–06 (Budget)	1,680.74

Note:

Figures for 2001–02 to 2003–04 include expenditure on the Starter Home Initiative and the Safer Communities Supported Housing. Budgets for 2006–07 are subject to the outcome of the 2004 Spending Review. The Housing Corporation Final Accounts for 2003–04 are expected to be published in June.

Land Searches

Mr. Clifton-Brown: To ask the Deputy Prime Minister what proportion of local authorities are able to undertake land searches electronically; and when this is expected to be extended to all authorities. [166892]

Phil Hope: For land searches to be carried out electronically, local authorities must first have set up electronic Local Land and Property Gazetteers (LLPGs). All authorities in England have been encouraged to set these up as part of their individual programmes to electronically enable 100 per cent. of their priority services by 2005. The Office of the Deputy Prime Minister's Local e-Government programme is helping local authorities to achieve this target, in particular by allocating a flat rate grant of £200,000 per annum in 2002 and 2003 to each authority submitting a satisfactory Implementing e-Government (IEG) statement. The IEGs submitted in 2003 indicated that on average every authority would have electronically enabled 66 per cent. of their priority services by March 2004; most authorities indicated that they would have electronic LLPGs by that date.

Local authorities have also been encouraged to have automated links with the National Land Information Service (NLIS), which is an electronic search engine intended to be a one-stop shop for information about land and property in England and Wales. It was developed in the 1990s by a group of public sector bodies, but was transferred in 2000 to the Local Government Information House (LGIH), a private, wholly-owned subsidiary of the Improvement and Development Agency (IDeA), to take forward. The IDeA has told us that by January 2004, two-thirds of authorities in England and Wales had enabled electronic responses to searches via NLIS. It is important to note, however, that authorities do not have to be linked to NLIS to offer searchers an electronic search option.

Local Government Finance

Mr. Clifton-Brown: To ask the Deputy Prime Minister what the total amount of section 106 payments for the last year in which figures were available was; what his estimate is of the percentage of section 106 payments likely to be transferred to the new tariff system when it is introduced; what his estimate is of the compliance cost of the new tariff system; and when he expects to publish all of the regulations relating to the tariff system. [166888]

Keith Hill: The Office of the Deputy Prime Minister does not currently collect statistics centrally for total amounts secured through section 106 payments, and could therefore provide this information only at disproportionate cost. It is not possible to say what percentage of planning obligations will be covered by the proposed optional planning charge, as it will be for individual applicants to choose whether or not they want to pursue this option. While we accept that setting up a charge system could lead to an increased burden on local planning authorities in the short term, this should be more than, offset by the longer term pay-off in being able to process individual planning obligations much more quickly and efficiently.

The Office of the Deputy Prime Minister aims to consult on its draft revised policy and draft regulations later this year.

Ministerial Travel

Bob Russell: To ask the Deputy Prime Minister when he last used a train in connection with his ministerial duties. [167422]

Yvette Cooper: My right hon. Friend the Deputy Prime Minister travels by train regularly on official business. He last travelled by train on official business from London to York on Thursday 22 April 2004.

All travel by my right hon. Friend the Deputy Prime Minister is undertaken in accordance with the rules set out in the "Ministerial Code and Travel by Ministers", copies of which are available in the Libraries of the House.

New Deal for Communities

Mr. Edward Davey: To ask the Deputy Prime Minister what the value of the contract given to the National Evaluation Team for the New Deal for Communities was; and if he will make a statement on its work. [166908]

Yvette Cooper: The value of the contract between the Office of the Deputy Prime Minister and a consortium led by Sheffield Hallam University for the interim phase of the national evaluation of the New Deal for Communities programme is £16.4 million. The contract covers work on the national evaluation to the end of September 2005.

The national NDC evaluation is supporting the work of the 39 individual NDC Partnerships, the nine respective Government Offices and the Neighbourhood Renewal Unit by providing evidence about how well the NDCs are delivering against their outcome targets.

For each of the 39 NDCs, the evaluation is providing an initial baseline household survey, a follow-up survey two years later and annual detailed reports on a wide range of process issues, such as community engagement and mainstreaming. In addition, the evaluation is providing NDC-area specific analysis of administrative data from DWP, DH, DfES and the Home Office, among others The annual NDC reports inform the Government Office reviews of the Partnerships and are collated into an annual NDC programme-wide report. The 2002–03 NDC evaluation report was published in October last year.

The report of the interim evaluation, due in mid-2005, will provide detailed evidence of how much progress each of the 39 NDCs has made in closing the gap between conditions in the partnership neighbourhood and the wider district and identify the critical success factors and barriers to performance.

Non-domestic Hereditaments

Brian Cotter: To ask the Deputy Prime Minister how many non-domestic hereditaments with a rateable value of *(a)* less than £8,000, *(b)* between £8,001 and £25,000 and *(c)* over £25,001 there were in each billing authority in the last year for which figures are available. [167502]

Mr. Raynsford: The information requested has been made available in the Library of the House.

Planning

Mrs. Spelman: To ask the Deputy Prime Minister what the average amount of time taken by his Department to give permission for planning to go ahead was in *(a)* 2003 and *(b)* 1997. [168276]

Keith Hill: The average time taken to grant planning permission was 24 weeks in 2003 and 25 weeks in 1997.

Public Lavatories

Mr. Gummer: To ask the Deputy Prime Minister whether the valuation of public lavatories is affected by *(a)* usage and *(b)* takings. [165936]

Mr. Raynsford: The valuation for rating of public conveniences is normally reached taking account of the cost of construction and making allowance for obsolescence, expense of upkeep and location.

(a) The number of persons using a public lavatory will depend on its location. A town centre convenience is likely to have greater usage than one in a remote location. In some coastal resorts, public lavatories may be used relatively intensively during the summer but closed altogether in the winter. The valuation of a public convenience is unaffected by usage. It is valued by reference to the cost which the occupier would otherwise incur if it had to construct an alternative facility. The cost of providing a facility which is intensively used is no greater than that of providing a facility which is less used, or used only seasonally. Exceptionally, instances have arisen where conveniences have been permanently closed at or before the relevant valuation date, and are thus not used at all; in such cases the Valuation Office Agency's Rating Manual recommends that no value is assessed.

The VOA recognises that in some instances local authorities may be operating public conveniences where, in present circumstances, the cost of provision would not be justified. In such cases, current capital cost may be a doubtful indication of value. The VOA has addressed this by applying an age-related scale of obsolescence allowance, which is more generous than applied to other classes of property valued by reference to cost.

(b) Since public conveniences are not operated for commercial profit, takings are irrelevant to valuation, and rateable value is unaffected by the absence, or presence/amount of revenue.

Regional Assemblies

Mr. Curry: To ask the Deputy Prime Minister if he will list the *(a)* dates and *(b)* venues of all meetings open to members of the public or by special invitation held in the (i) North East, (ii) North West and (iii) Yorkshire and the Humber organised by the relevant Government regional offices to discuss the Government's proposals to establish regional assemblies at which a Government Minister spoke; what the cost was of holding each meeting; how many (A) members of the public and

(B) invitees attended; what the schedule is for future meetings; and what the budget is for each meeting in each of the relevant regions. [165977]

Mr. Raynsford: The dates, venues, audience size and cost of the Hearings in the regions attended by Ministers so far are tabled:

Date	*Venue*	*Region*	*Public*	*Invitees*	*Cost (£)*
4 March 2004	Ewood Park, Blackburn	North West	210	40	5,400
4 March 2004	Berwick Community High School, Berwick	North East	55	65	6,600
18 March 2004	Pennine Theatre, Sheffield Hallam University	Yorkshire and the Humber	68	67	10,300
25 March 2004	University of Newcastle	North East	132	88	9,700
1 April 2004	Windsor Suite, Quality Royal Hotel, Hull	Yorkshire and the Humber	180	170	6,900
5 April 2004	Liverpool Marriott City Centre Hotel	North West	126	42	12,400
15 April 2004	Stonecross Manor Hotel, Kendal	North West	179	31	5,100

Ministers have attended public meetings in Middlesbrough and Halifax on 22 April at estimated costs of £11,400 and £7,700 respectively.

Future meetings are being scheduled, but details of these meetings have yet to be finalised.

In addition, the dates, venues, audience size and cost of previous meetings with an invited audience attended by Ministers, as indicated in the written statement on 3 November 2003 are tabled as follows:

Date	*Venue*	*Region*	*Public*	*Invitees*	*Cost (£)*
3 November 2003	Durham Castle	North East	—	100	Total of 25,000
3 November 2003	St. William's College, York	Yorkshire and the Humber	—	57	
4 November 2003	The Village Hotel, Warrington	North West	—	80	
1 December 2003	The Door, Hanover St, Liverpool	North West	—	15	—
4 December 2003	Town Hall, Barnsley	Yorkshire and the Humber	—	31	—
22 January 2004	Midland Hotel, Manchester	North West	—	400	3,200
23 January 2004	West Yorkshire Playhouse, Leeds	Yorkshire and the Humber	—	240	6,000
23 January 2004	Vermont Hotel, Newcastle	North East	—	120	6,200
29 January 2004	Speke, Parklands Youth Centre, King George V College, Sefton	North West	—	25–30	44
		North West	—	20	
25 February 2004	North Manchester Chambers of Commerce, Bolton	North West	—	30	—

Mr. Jenkin: To ask the Deputy Prime Minister what the total spending relating to the proposed elected regional assemblies by regional chambers has been in the *(a)* North West, *(b)* North East and *(c)* Yorkshire and the Humber; and, for each of these regions, what the total anticipated spending is for the period up to the regional referendums. [166561]

Mr. Raynsford: The Regional Chambers have not spent, and will not spend, any Government grant money campaigning for, publicising or promoting the case for an elected regional assembly. They are prohibited from doing so under the terms of their funding agreements, by which they receive Government grant.

Social Housing

Mr. Clifton-Brown: To ask the Deputy Prime Minister how many *(a)* council houses and *(b)* registered social landlord houses he anticipates will be built in each of the next three years. [166890]

Keith Hill: The Office of the Deputy Prime Minister set out in the Sustainable Communities action plan proposals to tackle the issues including the supply of affordable housing.

£5 billion is being invested in housing over the next two years (2004–06) and the role of the regions is being strengthened to ensure this investment is targeted more effectively on local and regional investment priorities.

Registered Social Landlords are the main providers of affordable housing and £3.3 billion funding was recently agreed for the Housing Corporation's Approved Development Programme for 2004–05 and 2005–06 to provide homes for both rent and low cost home ownership. This funding will provide around 67,000 new affordable homes in England. The number of homes to be provided in 2006–07 will be the subject of the outcome of the Spending Review 2004.

The number of council houses built has fallen with only a small number of dwellings being provided in recent years. The Office of the Deputy Prime Minister does not have estimates of the number of homes that will be provided by councils over the next three years. It is estimated from local authority housing investment returns that some 260 were planned to be built in 2003–04.

Thames Gateway

Bob Spink: To ask the Deputy Prime Minister what representations he has received from English Heritage on development in the Thames Gateway; and if he will make a statement. [167221]

Keith Hill: Officials at the Office of the Deputy Prime Minister have met with representatives from English Heritage to discuss the Historic Landscape Characterisation assessment of the Thames Gateway that English Heritage has commissioned. The aim of this work is to help planners, developers and regeneration agencies to understand the rich historic environment that exists in the Thames Gateway, to identify the capacity that specific places have to accommodate change, and to ensure that the historic environment can be integrated into the design of new development.

Our heritage is an essential part of creating sustainable communities that are attractive places to live and work, with a positive sense of place. Officials will continue to work closely with English Heritage on historic environment issues in the Thames Gateway.

SCOTLAND

Fisheries

Mr. Peter Duncan: To ask the Secretary of State for Scotland when he last met representatives of the Scottish fishing industry. [165968]

Mrs. McGuire: I regularly meet representatives of a wide range of organisations in Scotland, and I keep in close touch with developments affecting the Scottish fishing industry.

Mr. Peter Duncan: To ask the Secretary of State for Scotland what assessment he has made of the benefits to Scottish fishermen of continued membership of the EU Common Fisheries Policy. [165969]

Mrs. McGuire: The effects of the Common Fisheries Policy are regularly monitored by the Fisheries Departments.

Project Funding

Mr. Colman: To ask the Secretary of State for Scotland (1) how many *(a)* solely state-financed and *(b)* public-private partnership and private finance initiative projects for which his Department is responsible have been launched in each region in each of the last 10 years; [160967]

(2) how much was spent by *(a)* the Government on solely state-financed projects and *(b)* the (i) Government and (ii) private sector on public-private and private finance initiative projects for which his Department is responsible, in each of the last 10 years, broken down by region. [160968]

Mrs. McGuire: Since its inception in 1999 the Scotland Office has been responsible for no such projects. Responsibility for solely state-funded major projects in Scotland was previously dispersed across the various Departments and agencies of the former Scottish Office and a number of Non-Departmental Public Bodies sponsored by the former Scottish Office, and subsequently transferred to the Scottish Executive. No central record of these conventionally procured projects has been kept. Information on signed private finance initiative projects is available from the HM Treasury website at http://www.hm-treasury.gov.uk/documents/public_private_partnerships/ppp_pfi_stats.cfm

CULTURE, MEDIA AND SPORT

Arts Funding

Bob Russell: To ask the Secretary of State for Culture, Media and Sport what plans she has to make bodies which distribute arts *(a)* capital and *(b)* revenue funding more democratically accountable to the regional community in which they operate. [167288]

Estelle Morris: Arts Council England is the national development agency for the arts in England, distributing public money from the Exchequer and the National Lottery. The arts funding system in England has already reorganised along the lines of the Government's regional plans. On April 1 2002 the Arts Council and the 10 independent regional arts boards joined together to create a single organisation for the arts in England. Six to eight members of the 15–20 membership of the Regional Arts Councils are local authority nominees and the Chairs of the nine Regional Arts Councils are members of the National Council and form the majority of its membership of 15. This restructuring has given the regions real empowerment in decision-making and the delivery of the arts.

Departmental Policies (Newcastle)

Mr. Nicholas Brown: To ask the Secretary of State for Culture, Media and Sport if she will set out, with statistical information relating as directly as possible to the Newcastle, East and Wallsend constituency, the effects on Newcastle, East and Wallsend of her Department's policies and actions since 1997. [166878]

Mr. Caborn: The Department for Culture, Media and Sport seeks to improve the quality of life for everyone through improved access to the best in cultural and sporting activities. The Department also champions the tourism, creative and leisure industries. The Department's policies and actions have had a significant impact on the constituency of Newcastle, East and Wallsend since 1997. For example, Arts Council England funds a diverse range of arts organisations and projects in the constituency, such as Tyneside Disability Arts, Monster Productions and the Foolsyard Theatre. The constituency has received the following grants from Arts Council England since 1997[1]:

£

Financial year	*Number of grants*	*Total amount*
1997–98	18	38,849
1998–99	3	4,710
1999–2000	17	63,124
2000–01	21	71,029
2001–02	13	31,282
2002–03	11	50,267
2003–04	2	110,000
Total	85	369,261

Since 1997, English Heritage has offered the following grants to the Newcastle East and Wallsend constituency[1]:

£

Date	*Grant*	*Details*
31 March 2004	160,000	Contribution of 19,000 towards Stage 1 project development costs for St. Michael's church, Byker, with agreement to a further £141,000 towards repairs following successful completion of Stage [1].
Total	160,000	

The Newcastle, East and Wallsend constituency has received the following awards from the National Lottery (granted by the following distributing bodies: Arts

Council England, Community Fund, Heritage Lottery Fund, Millennium Commission, New Opportunities Fund, Sport England and the Film Council) since 1997[2]:

£

Financial year	Total amount
1997–98	279,481
1998–99	4,248,686
1999–2000	6,348,190
2000–01	3,448,016
2001–02	1,553,619
2002–03	1,781,574
2003–04	1,655,538
Total	19,314,904

Since 1997, the constituency of Newcastle, East and Wallsend has received the following amount of European Regional Development Funds[3] for cultural/sport/tourism projects:

Financial year	Total amount
1997–98	—
1998–99	1,987,498
1999–2000	42,100
2000–01	1,070,000
2001–02	—
2002–03	550,000
2003–04	—
Total	3,649,598

The Department has allocated £27 million Private Finance Initiative (PFI) credits to Newcastle City Council in order to procure a new city library and three refurbished community libraries. One of these community libraries, High Heaton Library, is based in the constituency of Newcastle, East and Wallsend. The community libraries will be made fully accessible and, as well as being upgraded in terms of layout, decoration and furniture, fittings and equipment, will also enjoy re-engineered display and information facilities.

Sport England has granted exchequer awards of £103,000 to fund Sports Development Workers promoting Active Schools Infrastructure and Equity in Sport across the City of Newcastle since 1997. The constituency of Newcastle, East and Wallsend has benefited from this funding. However, it is not possible to determine how much of this funding has gone directly to the constituency.

Since 1997, the constituency of Newcastle, East and Wallsend has benefited from various grants made by the North East Museums Libraries and Archives Council (NEMLAC) within its area. However, it is not possible to determine how much of this funding has gone directly to the constituency. Examples of this funding include:

£10,000 to Newcastle, Gateshead, Sunderland, North and South Tyneside libraries and Tyne and Wear Archives for a joint campaign to promote heritage, local and family history services and lifelong learning opportunities in a poster campaign on the Tyne and Wear Metro;

Under the auspices of the British Library's Reaching the Regions initiative, British Library staff worked with teachers from the North East to produce Lindisfarne Gospels school packs and resource boxes for distribution throughout the schools and libraries of the North East. Three of these resource boxes are located in Wallsend Library. Reaching the Regions has invested £100,000 in the North East and NEMLAC is a key partner in this venture.

Between 1996–97 and 2002–03, the British Tourism Authority—and from 2003–04, VisitBritain—have been responsible for marketing Britain, overseas as an attractive tourist destination. Grant-in-aid is not allocated in respect of individual areas of Britain, but Britain is promoted as a whole in a way that benefits Newcastle, East and Wallsend as it does the rest of the country.

The residents of Newcastle, East and Wallsend also have ready access to a wealth of cultural institutions in Newcastle and Gateshead, including the Baltic Centre for Contemporary Art, the Sage Gateshead (due to open in winter 2004) and the Discovery Museum.

[1] Excluding Lottery grants.

[2] The data has been derived from the Department's Awards Database and is based on information supplied by the distributing bodies.

[3] One of the EU Structural Funds administered by the Government Offices.

Museums, Libraries and Public Archives

Mr. Kilfoyle: To ask the Secretary of State for Culture, Media and Sport how much money the Government has allocated for libraries in Liverpool, Walton in each year since 1997. [166976]

Estelle Morris: Core funding for public libraries is paid to the 149 Library Authorities in England as part of the Local Government Finance Settlement administered by the Office of the Deputy Prime Minister. It is not ring-fenced.

The figures show the amounts allocated to Liverpool city council, or to library consortiums of which Liverpool city were partners, from the DCMS-Wolfson Foundation Reader Development Fund. These awards cannot be broken down to district level.

1997–98: £99,887 to Liverpool city council for library refurbishment and additional facilities including adaptation for people with disabilities.

1998–99: £98,008 for better links between Liverpool's libraries and, ultimately, schools.

2000–01: £215,992 to the North West Libraries Book Promotion Partnership, which included all the local authorities in the NW, towards assisting socially excluded 16 to 25-year-olds with reading skills.

2001–02: £247,435 to the North West Libraries Book Promotion Partnership towards encouraging socially excluded and other young people in reading activities.

Mr. Sheerman: To ask the Secretary of State for Culture, Media and Sport how much money the Government has given to *(a)* museums, *(b)* libraries and *(c)* public archives in each of the last 10 years. [166725]

Estelle Morris: The funding given by the Department for Culture, Media and Sport to museums, libraries and archives is set out in the table.

DCMS expenditure

£ million

Year	*Museums*	*Libraries*	*Public archives*
1994–95	225.0	85.3	1
1995–96	227.6	85.5	1
1996–97	220.9	89.7	1
1997–98	214.2	94.0	1.1
1998–99	212.4	89.2	1
1999–2000	236.5	88.7	1.1
2000–01	235.5	91.7	1.5
2001–02	251.8	95.8	1.4
2002–03	274.0	92.1	1.5
2003–04	294.5	97.1	[1]0.2

[1] Reflects transfer of Historic Manuscripts Commission to the National Archives.

In addition, DCMS provides Grant in Aid to the museums, libraries and archives council, which was £13.3 million in 2003–04.

Mr. Sheerman: To ask the Secretary of State for Culture, Media and Sport what action her Department is taking to support *(a)* museums, *(b)* libraries and *(c)* public archives; and if she will make a statement. [166726]

Estelle Morris: DCMS provides both core funding for a number of key institutions, including the national museums and galleries and the British Library, and strategic support for the three sectors via the Museums, Libraries and Archives Council (MLA) and its regional delivery network.

Museums

We are increasing our support for the DCMS-sponsored museums and galleries. Starting from the 2002 baseline, we have delivered a real-terms increase in resource grant-in-aid funding, for the larger institutions, of 1.5 per cent. in 2004–05 and 2.5 per cent. in 2005–06, and 7 per cent. in each of these two years for the smaller ones. We have also provided additional funding to help our sponsored museums carry out programmes of modernisation and reform.

We have allocated £60 million during the 2003–06 period to a major new programme to revitalise our great regional museums, Renaissance in the Regions. This investment is already helping the participating museums provide better services to many more users, in particular enhanced educational services for children and improved links with community groups. Part of the Renaissance programme is the Designation Challenge Fund, which supports the care and interpretation of collections of national or international importance held in non-national museums.

The Department has also doubled its contribution to the DCMS/Wolfson Museums and Galleries Improvement Fund, to provide a total fund of £4 million in this financial year, and extended the fund's coverage to museums in the regions with designated collections and museums participating in Renaissance in the Regions.

We plan to publish a museums vision statement this summer, which will look at ways in which the Government can work more effectively in partnership with museums. We will consult the sector on how best to take this vision forward.

Libraries

In February 2003, DCMS published "Framework for the Future" the first-ever national strategy for public libraries. It identified three areas where libraries have great potential to go beyond their traditional roles: the promotion of reading and informal learning; access to digital skills and services including e-government; and measures to tackle social exclusion, build community identity and develop citizenship. "Framework" is intended to encourage public library services fit for the needs of 21st century users. This strategy is being delivered through MLA and its partners.

Public Archives

In 2002 DCMS commissioned MLA to set up an Archives Task Force which would carry out an in-depth analysis of the sector and propose a strategy for making archives better understood, better looked after and better used. The report of the Archives Task Force, "Listening to the Past, Speaking to the Future", was published by MLA in March 2004. The report makes a number of proposals, including a major new initiative to help more people access archives more easily, a greater role for archives in education, and a programme to modernise public sector archives and develop skills and expertise. DCMS will work with MLA and other partners to take forward the Task Force's proposals.

DCMS is also active in taking steps to preserve and protect archives at risk and works to secure collections of archival importance through the Acceptance in Lieu scheme.

Sport Funding (Liverpool, Walton)

Mr. Kilfoyle: To ask the Secretary of State for Culture, Media and Sport how much public funding has been spent on sport in Liverpool, Walton in each year since 1997. [166977]

Mr. Caborn: The amount of exchequer and lottery funding spent on sport in Liverpool, Walton in each year since 1997 is set out in this table:

£

Year	*Exchequer*[1]	*Lottery*
1997–98	10,625	
1998–99	31,625	1,797,913
1999–2000		2,527
2000–01		276,990
2001–02	10,000	4,125
2002–03		486,499
2003–04		28,826
2004–05[2]		4,600

[1] Figures provided for exchequer funding are not broken down by constituency (e.g. grants given to Liverpool city council).
[2] Figures for 2004–05 correct as of 21 April.

EDUCATION AND SKILLS

Higher Education (Specialist Courses)

Sir Nicholas Winterton: To ask the Secretary of State for Education and Skills if he will make a statement on the provision of specialist courses in universities and colleges. [167589]

Alan Johnson: The provision of courses of higher education, specialist or otherwise, is a matter for individual institutions to decide.

Higher education today is a much larger and more diverse business than in the past. Institutions now compete in a global marketplace where the needs and demands of customers and stakeholders are growing in both range and complexity.

Institutions now have to be ever more flexible in their response to meeting these diverse needs and demands and this is reflected in the content and style of courses offered. A good example of this is the increasing number of specialist foundation degrees being developed with the help of employers and which are often delivered in FE colleges.

Sir Nicholas Winterton: To ask the Secretary of State for Education and Skills if he will make it his policy to ensure the maintenance of textile teaching and research at the University of Manchester; and if he will make a statement. [167592]

Alan Johnson: As independent organisations, higher education institutions themselves determine what programmes and courses they offer. Similarly, they have the academic freedom to choose in which subjects they wish to focus their research.

Learning and Skills Councils

Ann Winterton: To ask the Secretary of State for Education and Skills how many local learning and skills councils there are in *(a)* the North West Region, *(b)* the North East Region and *(c)* Yorkshire and the Humber Region; and how many board members there are on each council. [167339]

Alan Johnson: Each local Learning and Skills Council must have a minimum of 12 and a maximum of 16 members, including the Chair and Executive Director, who understand the needs of their communities. The information requested is provided in the following table:

Region/Local LSC	*Membership (at 20 April 2004)*
North West	
Cheshire and Warrington	14
Cumbria	16
Greater Manchester	13
Greater Merseyside	16
Lancashire	14
North East	
County Durham	14
Northumberland	14
Tees Valley	12
Tyne and Wear	14
Yorkshire and The Humber	
Humberside	13
North Yorkshire	16
South Yorkshire	14
West Yorkshire	14

School Buildings (Liverpool, Walton)

Mr. Kilfoyle: To ask the Secretary of State for Education and Skills how much public funding has been invested in school buildings in Liverpool, Walton in each year from 1993 to 2003. [166959]

Mr. Miliband: The majority of capital funding is now allocated to local authorities and schools by needs-related formulae. Authorities invest according to priorities agreed in their asset management plans. The following table shows total capital allocations to Liverpool local education authority (LEA) since 1996–97, the earliest year for which reliable information is readily available.

Capital allocations to Liverpool LEA

£000

Year	*Allocation*
1996–97	5,791
1997–98	15,306
1998–99	19,230
1999–00	13,714
2000–01	[1]111,566
2001–02	21,997
2002–03	15,365
2003–04	22,706

[1] Includes £86,800 PFI funding

Note:

The above allocations include the voluntary aided sector.

Sixth-form Colleges

Mr. Collins: To ask the Secretary of State for Education and Skills how many free-standing sixth form colleges have opened since 1997. [167583]

Alan Johnson: Two Sixth Form Colleges have been incorporated since 1997, Brooke House Sixth Form College in Hackney and Longley Park Sixth Form College in Sheffield. Brooke House Sixth Form College was incorporated in October 2001 and took its first students in September 2002. Longley Park Sixth Form College was incorporated in November 2002 and expects to take its first students in September 2004.

HEALTH

Smoking

Mr. Watson: To ask the Secretary of State for Health what assessment he has made of the safety benefits of cigarettes that go out faster than normal cigarettes when not puffed. [166838]

Miss Melanie Johnson: The Department has not made an estimation of the safety benefits of cigarettes that go out faster than normal cigarettes when not puffed.

United Kingdom legislation on cigarette production and presentation follows European Directive 2001/37/EC on the approximation of the laws, regulations and administrative provisions of the member states concerning the manufacture, presentation and sale of tobacco products. The European Commission is due to submit a report on this Directive no later than 31 December 2004. The question of fire safe cigarettes is one issue under discussion in relation to this report, and we await its publication.

Officials are aware of the development of regulations on the ignition propensity of cigarettes in New York and Canada.

MRSA

Mr. Burstow: To ask the Secretary of State for Health pursuant to the answer of 12 March 2004, *Official Report*, columns 1822–23W, on MRSA, what the assurance scores on infection control are for NHS trusts in England. [167533]

Miss Melanie Johnson: The infection control self-assessment scores are collected annually and will not be available until June 2004. National average scores for the past three years for national health service trusts and primary care trusts are shown in the table.

	Score (percentage)
2001	63.2
2002	63.6
2003	64.3

Obesity

Mr. Watson: To ask the Secretary of State for Health what assessment he has made of the potential for angiogenesis inhibitors to control obesity. [166847]

Miss Melanie Johnson: Research into angiogenesis inhibitors to reduce the growth of fat in humans is at an early stage. Therefore it would be premature to make any decisions on their potential to control obesity.

Third-party Products

Mr. Swayne: To ask the Secretary of State for Health what recent representations he has received regarding endorsement and distribution of third-party products by NHS trusts; and if he will make a statement. [166344]

Mr. Hutton: My right hon. Friend the Secretary of State for Health, has received recent representations regarding the distribution of packs containing products for expectant and new mothers. It is a decision for individual national health service trusts whether to allow the distribution of such packs.

CABINET OFFICE

Financial Ombudsman Service

Sue Doughty: To ask the Minister for the Cabinet Office (1) whether the Better Regulation Task Force accepts submissions from members of the public who have made use of the services of the Financial Ombudsman Service on whether its powers should be curbed; [166903]

(2) whether the Better Regulation Task Force is conducting investigations into the powers of the Financial Ombudsman Service; and if he will make a statement; [166904]

(3) what concerns regarding the powers of the Financial Ombudsman Service have been brought to the attention of the Better Regulation Task Force; and how these concerns were raised with the Better Regulation Task Force. [166905]

Mr. Alexander: The Better Regulation Task Force is considering the Ombudsman Service's rulings as part of a wider study into "regulatory creep". It has defined "regulatory creep" as "regulation or compliance with regulation that goes beyond the original source of authority or intention". Further details of this study are set out on the task force's website, http://www.brtf.gov.uk/taskforce/pressreleases/creepreg.htm. As with all its studies, the task force invites submissions from members of the public. During the course of each study the task force seeks the views of a wide range of stakeholders. It will publish its findings in the summer.

Ministerial Travel

Bob Russell: To ask the Minister for the Cabinet Office what guidance is issued to Government Ministers regarding the use of public transport for travel in connection with their ministerial duties. [168066]

Mr. Alexander: Guidance for Ministers on official travel is set out in the Ministerial Code and Travel by Ministers, copies of which are available in the Library.

WORK AND PENSIONS

Asbestos

Huw Irranca-Davies: To ask the Secretary of State for Work and Pensions what assessment he has made of the projections for asbestos-related illness and death over the next two decades *(a)* in the UK and *(b)* in Wales. [166748]

Jane Kennedy: There are three diseases commonly associated with asbestos exposure; mesothelioma, lung cancer and asbestosis.

Statistical modelling has been used to produce an estimate of the future peak in the number of deaths due to mesothelioma in Great Britain. The annual total number of mesothelioma deaths in Great Britain is expected to peak at around 1,950 to 2,450 deaths some time between 2011 and 2015.

It is estimated that there are one or two cases of lung cancers caused by exposure to asbestos for every case of mesothelioma, and this ratio is expected to decrease over time. Mortality from asbestosis is between 100 and 200 cases per year. However no estimates have been made of the likely deaths in future years due to asbestosis.

No separate mesothelioma prediction has been carried out for Wales. In the period 1999–2001 there were 188 deaths from mesothelioma in Wales. Great Britain as a whole had 5,090 mesothelioma deaths in the same period. This represents a lower rate of mesothelioma in Wales (annual rate of 19 per million) than for the rest of Great Britain (28 per million).

Disability Living Allowance

Mr. Lidington: To ask the Secretary of State for Work and Pensions how many recipients of disability living allowance have not been paid money due to them in *(a)* January, *(b)* February, *(c)* March and *(d)* April;

what the total sum is of such payments owed to claimants of his Department; and if he will make a statement. [167248]

Maria Eagle: We are not aware of any backlog of cases where entitlement has been determined and payments to customers are outstanding.

However the Department was aware of a technical problem with Direct Payments that affected some DLA customers on 6 and 7 April, which resulted in payments being delayed to the 8 April. This problem was related to the adjustments made to accommodate the need to advance payments over the Easter Bank Holiday. We are currently scanning the database to establish exactly the number of payments that were delayed. It is estimated that approximately 74,000 payments were affected.

Ethnic Minority Employment

Keith Vaz: To ask the Secretary of State for Work and Pensions how many ethnic minorities are employed in Jobcentres in each region in the UK, broken down by grade. [156124]

Maria Eagle: The information is in the following table. The figures are based on the number of staff who have responded to ethnic surveys. Participation in such surveys is on a voluntary basis.

Jobcentre Plus ethnic minority staff by grade (as at 26 March 2004)

Financial and Management Information System (FAMIS) Payroll and Rebus Payroll.

Pension Forecasts

Mr. Webb: To ask the Secretary of State for Work and Pensions if he will set out his plans for combined pension forecasts; in what sequence different groups will be issued with forecasts and over what timescale; how many forecasts he expects to issue for each group; and if he will make a statement. [166248]

Malcolm Wicks: The combined pension forecast service gives people a projection of retirement income that brings state pension together with their current private pension. The service is delivered through employers and pension providers.

By the end of March, a total of 1.12 million Combined Pension Forecasts had been issued. To date over 700 employers and pension providers have expressed an interest in participating in the service. By the end of 2005–06 we aim to have reached 6.3 million people.

We are not targeting particular groups with the combined pension forecast service. Rather we are encouraging all employers and pension providers to participate, currently on a voluntary basis. Additionally we are seeking reserve powers in the Pensions Bill so that, should the need arise, the provision of combined pension forecasts can be made a statutory requirement of pension schemes.

Rent Service

Linda Perham: To ask the Secretary of State for Work and Pensions what date has been set for The Rent Service to begin publishing information about local reference rents. [166816]

Mr. Pond: No date has been set for The Rent Service to begin publishing details of Local Reference Rents. The Local Housing Allowance for Pathfinder Local Authorities is published on a monthly basis by the participating local authorities, and is available on their websites.

FOREIGN AND COMMONWEALTH AFFAIRS

Bali

Dr. Tonge: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will revise his Department's advice against travel to Bali. [166993]

Mr. Mike O'Brien: Travel advice for Indonesia is kept under close scrutiny and is based on objective assessments of the risks to British nationals. It reflects the current level of risk.

Civil Servants

Bob Spink: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will list for each civil service grade within his *(a)* Department and *(b)* Department's executive agencies, the total number of staff employed, broken down by (i) gender, (ii) ethnic group and (iii) age group; and how many are registered disabled in each case. [166389]

Mr. Mike O'Brien: As at 1 October 2003 Foreign and Commonwealth Office (FCO) staff numbers were:

Grade	Percentage female	Percentage declared minority ethnic	Percentage declared disabled	Total

EU-Africa Meeting

Mr. Ancram: To ask the Secretary of State for Foreign and Commonwealth Affairs if he will make a statement on the EU-Africa meeting on 1 April in Dublin; what issues were raised; what was agreed; and whether follow-up meetings are scheduled. [167186]

Mr. Straw: The EU-Africa meeting on 1 April was part of the EU-Africa dialogue process. The discussion was focussed on peace and security, governance, regional integration, trade and key development issues. The two sides agreed a joint declaration on effective multilateralism and endorsed a joint report on the scale, nature and impact of Africa's debt burden. A communiqué was issued after the meeting, copies of which have been placed in the Library of the House. The Irish Presidency of the European Union will report on this meeting at the next General Affairs and External Relations Council on 26 April. The next meeting of the EU-Africa troika at ministerial level is expected to be organised by the Netherlands in the second half of this year.

Official Residences

Mr. Andrew Turner: To ask the Secretary of State for Foreign and Commonwealth Affairs which members of the *(a)* Government and *(b)* civil service are permitted to use accommodation at ambassadors' and high commissioners' official residencies when visiting overseas on (i) official and (ii) private business; and what rules and protocols govern use by (A) *(a)* and *(b)* and (B) their families. [167242]

Mr. Mike O'Brien *[holding answer 22 April 2004]:* For ministerial visits, a Head of Mission is normally expected to offer accommodation to a Minister and his or her Private Secretary. But local and individual circumstances will inevitably vary.

Officials and visitors on private business may be accommodated at the residence at the discretion of the Head of Mission.

Turkey

Mr. Simmonds: To ask the Secretary of State for Foreign and Commonwealth Affairs what recent discussions he has had with EU counterparts regarding the potential accession to the EU by Turkey. [163144]

Mr. MacShane: Both my right hon. Friend the Foreign Secretary and I frequently raise the issue of Turkey's potential accession with EU counterparts, in bilateral and EU fora. We repeatedly affirm the UK's strong support for Turkey's EU aspirations.

The last major EU discussion of Turkish accession was at the Brussels European Council in December when the Council welcomed the considerable efforts of Turkey's political reforms and identified five areas where further sustained efforts are needed.

PRIME MINISTER

EU Constitution

Bob Spink: To ask the Prime Minister what representations he has *(a)* made to and *(b)* received from the European Commission on a referendum on the EU Constitution. [167655]

The Prime Minister: As far as I am aware, none.

Speeches

Norman Baker: To ask the Prime Minister if he will list the occasions since June 2001 when he last made a speech containing a significant section on *(a)* the environment and *(b)* terrorism-related matters. [167788]

The Prime Minister: I regularly give speeches on a wide range of domestic and international issues that cover environmental and terrorism issues. Copies of my speeches are available on the No 10 website.

HOME DEPARTMENT

CCTV (Manchester)

Mr. Kaufman: To ask the Secretary of State for the Home Department how much public funding has been spent on CCTV security cameras in Manchester, Gorton since 1997. [167469]

Ms Blears: Since 1997, the Home Office has provided £3,515,685 to Manchester city council (which includes the Manchester, Gorton constituency) for CCTV schemes.

Allocation of that funding locally, is a matter for Manchester city council and the Greater Manchester police. The information is not held centrally.

Departmental Policies (Newcastle)

Mr. Nicholas Brown: To ask the Secretary of State for the Home Department if he will set out, with statistical information relating as directly as possible to the Newcastle East and Wallsend constituency, the effects on Newcastle East and Wallsend of his Department's policies and actions since 1997. [166877]

Ms Blears: Most of the policies initiated by the Home Office since 1997 have had an impact on the Newcastle East and Wallsend constituency as on other parts of the country. However, it is not possible to gauge the impact of every policy and action the Home Office has initiated since 1997 on a constituency basis and statistical information relating to the constituency is not available for all Home Office policy areas. This answer sets out the information that is available for the constituency itself, or the relevant local authority and police areas for Newcastle East and Wallsend, it is not always possible to provide details back to 1997. The following are examples of initiatives or policies that have had an impact on the constituency, or an area of which the constituency is a part, together with the relevant statistics.

Community Safety

Newcastle upon Tyne East and Wallsend forms part of the Northumbria police force area. On 31 March 1997 the Northumbria police force had 3,677 police officers this figure had risen to 4,048 by 31 December 2003, an increase of 371. In addition the Northumbria police force area has been allocated £330,398 to deliver 45 Community Support Officers in 2003–04.

£78,413 Basic Command Unit (BCU) funding was available to Newcastle East command in 2003–04 and used to fund police operations, publicity material and technical equipment targeting burglary to homes, vehicle crime and violent crime. Events were held on personal safety, asylum seekers and community crime awareness, and youth diversionary work was also undertaken.

In 1993, the total number of recorded crimes in the Northumbria police force area was 192,773. In 2002–03, the total number of recorded crimes was 165,496. This represents a reduction of 27,277 (a percentage decrease of 14 per cent.).

Recent change in levels of crime at BCU level are difficult to interpret because of the introduction of the National Crime Recording Standard (NCRS) in April 2002 which increased the consistency of crime recording across the country but also inflated the number of crimes recorded by police. Northumbria police estimated that the NCRS had an impact of approximately 25 per cent. on total recorded crime from April 2002.

Home Office policy and actions since 1997 that contributed to these figures include setting up the Community Safety Partnerships, which are responsible for improving community safety, including quality of life issues such as anti-social behaviour, graffiti and the fear of crime.

The Home Office provided £352,073 Building Safer Communities funding in 2003–04 rising to £360,875 in 2004–05 to Newcastle Community Safety Partnership and £204,876 to North Tyneside Crime and Disorder Reduction Partnership (CDRP). Although the majority of this funding is used to benefit the area as a whole, some of the funding was targeted at specific areas, including the East End, for example Byker Street Wardens received £50,000 to create eight warden posts, one supervisor and a manager. Over 1,000 patrols have been completed and 3,629 incidents have been reported. Running costs of £5,000 have been provided for a CCTV van operating in Newcastle East. Funding of £10,000 has resulted in increased monitoring of the Nexus CCTV system which serves Byker, Heaton and Wallsend.

In addition, £35,000 Small Retailers in Deprived Areas funding was used to improve the security and safety of 18 retail premises in the 10 per cent. most deprived wards in Newcastle during 2003–04, and similar funding of £20,000 was made available to North Tyneside.

Community Development

The Home Office has funded the Byker Advice and Information project to assist community development. This project covers the wards of Byker, Dene, Heaton, Monkchester, Sandyford, Walker and Walkergate and is entering its third (and final) year of funding. £25,009 was awarded in year 1, £26,486 in year 2 and £30,998 will be awarded this year. The project aims to assimilate a sustainable recruitment, training and development policy for local volunteers, which should increase their skill base, improve their career prospects and benefit the local community.

Drugs Strategy

Drugs information relates to the areas of the Newcastle and North Tyneside Drugs Action Teams (DAT) which between them serve the constituency of Newcastle upon Tyne and Wallsend. The DATs are responsible for local delivery of the National Drug Strategy to a combined population of over 450,000 and until 1999 they operated as a single partnership. They continue to work together closely, with many users North Tyneside being treated at services based in Newcastle, e.g. Plummer Court.

Central Government funding for drug strategy delivery has increased steadily in recent years. In 2004–05 Newcastle's and North Tyneside's combined budgets for adult treatment will increase by over 7 per cent. to over £3.2 million and expenditure on young people will exceed £400,000. This investment and other Home Office funded programmes, e.g. Communities Against Drugs has resulted in:

A 64 per cent. increase in drug users having structured treatment in Newcastle between 2002–03 and 2003–04 (1,180 users). In 1999–2000 562 Newcastle based clients presented to drug services.

Approximately 460 drug users resident in North Tyneside were in treatment as at November 2003. In 1999–2000 175 North Tyneside based clients presented to drug services.

Average waiting times in Newcastle and North Tyneside reduced sharply to two weeks between 2002–03 and 2003–04 (compared to 2.3 weeks across the region). In the same period the waiting time for specialist prescribing in North Tyneside reduced from over three months to two weeks. In 1999–2000, the average waiting time in Newcastle and North Tyneside was about five weeks including 20 weeks for community prescribing in Newcastle.

A planned 15 per cent. increase to over 2,500 in available drug treatment places in Newcastle and North Tyneside in 2004–05.

Almost 1,400 drug possession offences were committed in Newcastle and North Tyneside in 2002–03. Of these, almost 820 related to Class A drugs.

A number of high profiie police operations in 2003–04 including Operation Trinity which resulted in 34 arrests in East Newcastle and Wallsend and Operation Bobbin in which 1.4 million of drugs was seized in Walker.

Both DATs will also receive considerable funding from April 2004 to March 2006 to deliver the Criminal Justice Interventions Programme (CJIP, a range of schemes aimed at moving drug misusing offenders into treatment and away from drug use and crime). Newcastle will receive additional CJIP funding, having been selected a site for "intensive" delivery. Implementation of this programme will place considerable pressure on criminal justice and treatment agencies in the City but the GO Drugs Team is encouraged by the DAT's planning for delivery. The forthcoming intensive CJIP activity in Newcastle is expected to impact upon crime in neighbouring wards in North Tyneside.

Asylum Seekers

Since 3 April 2000 the National Asylum Support Service (NASS) has been responsible for administering the support provided to asylum seekers. Asylum seekers requiring accommodation will normally be housed in dispersal areas across the UK; Newcastle upon Tyne is a dispersal area. The total number of asylum seekers being supported by NASS in Newcastle East and Wallsend as at the end of December 2003 was 595, of these 585 were supported in NASS accommodation and 10 were in receipt of subsistence only support from NASS. These figures include dependants and are rounded to the nearest five. Corresponding data for earlier years is not available. Similar data for Newcastle upon Tyne local authority for earlier periods has been published in successive editions of the quarterly and annual asylum statistics published at http://www.homeoffice.gov.uk/rds/immigration1.html

Written Answers to Questions

Monday 26 April 2004

ENVIRONMENT, FOOD AND RURAL AFFAIRS

Accountancy Services

Mr. Cousins: To ask the Secretary of State for Environment, Food and Rural Affairs what the *(a)* nature and *(b)* value was of all contracts, consultancies or other services placed with the accountancy firms (i) Deloitte & Touche, (ii) Ernst & Young, (iii) KPMG and (iv) PricewaterhouseCoopers since 2000–01 by the Department. [166085]

Alun Michael: The information on the nature of all contracts, consultancies or other services placed with the accountancy firms Deloitte and Touche; Ernst and Young (now part of Cap Gemini Ernst and Young); KPMG and PricewaterhouseCoopers cannot be provided as it is not held centrally.

The Department is in the process of compiling a central list for the future but this would take some time to complete. The expenditure for core Defra excluding its agencies and NDPBs with each of the firms since 2000–01 is as follows:

£

Supplier Name	*2000–01*	*2001–02*	*2002–03*	*2003–04*	*Total*
Deloitte and Touche	0.00	303,941.96	814,339.69	495,575.67	1,613,857.32
Cap Gemini UK	0.00	0.00	0.00	0.00	0.00
Ernst and Young	0.00	0.00	0.00	47,000.00	47,000.00
KPMG	140,341.47	26,711.66	0.00	48,675.67	215,728.80
PricewaterhouseCoopers	255,907.97	308,935.56	30,207.79	55,113.63	650,164.95
Total	396,249.44	639,589.18	844,547.48	646,364.97	2,526,751.07

Central Lobby Consultants

Norman Baker: To ask the Secretary of State for Environment, Food and Rural Affairs if she will list the work she has commissioned from Central Lobby Consultants since 1 June 2001. [163975]

Alun Michael: No work has been commissioned from the company named by or on behalf of my right hon. Friend the Secretary of State.

Common Agricultural Policy

Andrew George: To ask the Secretary of State for Environment, Food and Rural Affairs what recent discussions she has had with representatives of the fruit growing industry in respect of Common Agricultural Policy reform. [166446]

Alun Michael: Defra officials met a delegation from the National Farmers' Union on 31 March.

Over-30 Month Scheme

Mr. Drew: To ask the Secretary of State for Environment, Food and Rural Affairs if she will make a statement on progress in bringing the Over Thirty Month Scheme to an end. [164071]

Alun Michael: The Food Standards Agency (FSA) review of the Over Thirty Month rule was completed in July 2003 and recommended that it would be acceptable on public health grounds to replace the Over Thirty Month rule with BSE testing of cattle in two stages. Cattle born after August 1996 could be allowed into the food chain, after being tested for BSE, with the possibility of complete replacement of the rule from July 2005. Health Ministers are still considering the FSA advice, but it has already been decided that, for practical reasons, cattle born before August 1996 will be permanently excluded from the food chain. We are now unlikely to see any changes to the OTMS before January 2005, due to the legislative process that must take place once a decision has been reached by Ministers.

Pesticides

Mr. Tyrie: To ask the Secretary of State for Environment, Food and Rural Affairs what peer-reviewed and published UK studies she has received that have measured actual exposures to pesticides for people living in agricultural areas, including high and lower levels of exposure over both the short and long-term, and including all oral, dermal and inhalation routes of contamination. [166695]

Alun Michael: The data that industry is obliged to submit to support applications for approvals of pesticides are not usually published. Such studies follow internationally agreed protocols and are subject to the requirements of Good Laboratory Practice. These data are subject to scientific review by the Pesticide Safety Directorate and the independent Advisory Committee on Pesticides and/or other European Union regulatory authorities. Evaluation documents are publicly available.

Data submitted generally refer to operators, who represent the highest risk category for exposure to plant protection products. Several studies on worker exposure have been published in peer review journals.

Mr. Tyrie: To ask the Secretary of State for Environment, Food and Rural Affairs what peer-reviewed and published UK studies she has received that have provided direct measurements of pesticide levels in *(a)* people, *(b)* wild animals, *(c)* domestic animals and *(d)* livestock situated in or near sprayed fields. [166696]

Alun Michael: The data that industry is obliged to submit to support applications for approvals of pesticides are not usually published. Such studies follow internationally agreed protocols and are subject to the

requirements of Good Laboratory Practice. These data are subject to scientific review by the Pesticide Safety Directorate (PSD) and the independent Advisory Committee on Pesticides (ACP) and/or other European Union regulatory authorities. Evaluation documents are publicly available.

(a) Regarding measurements in people, studies have focused on spray operators and farm workers as the highest risk category.

The Health and Safety Executive (HSE) has a large study where the exposures of operators applying chlorpyrifos to orchards was monitored. ("Technical Development Survey, Exposure to Chlopyrifos in Orchard Spraying, Health and Safety Executive, Directorate of Science and Technology, Health and Safety Laboratory, and Field Operations Division, 1998".)

The Pesticides Incidents Appraisal Panel studies, and publishes an annual report on, reported incidents and complaints, including alleged ill-health incidents, involving pesticides investigated by the HSE. The report and details of individual incidents are presented to the ACP to inform the pesticide approvals process.

The Secretary of State is aware of further work undertaken in the US, which has been published recently.

(b) Wild animals and *(c)* domestic animals

In the UK the Wildlife Incident Investigation Scheme (WHS) investigates deaths of terrestrial wildlife and domestic animals, where there is strong evidence that pesticide poisoning may be involved. Annual reports of these investigations are published by the Department and are also available on the Pesticides Safety Directorate website.

The Wildlife Conservation Research Unit of the Department of Zoology, University of Oxford, has recently published a report (funded by the RSPCA) entitled "A Review of the Effects of Pesticides on Wild Terrestrial Mammals in Britain" (Harrington & MacDonald 2002, ISBN 0 9529371 8 2).

The Centre for Ecology and Hydrology (CEH) operates the Predatory Bird Monitoring Scheme in which levels of contaminants in livers and eggs of selected species have been monitored. Further information available from the CEH website: www.ceh.ac.uk.

(d) Livestock in or near sprayed fields

Monitoring of pesticide residues in meat and meat products is carried out by the independent Pesticide Residues Committee (PRC). The results are published quarterly, via the PRC's website, at: www.prc-uk.org.

The results are also summarised in an annual report. The most recent report, for 2002, is available free of charge from PSD and is also available on the above website.

Single Farm Payment

Mr. Whittingdale: To ask the Secretary of State for Environment, Food and Rural Affairs (1) what assessment she has made of the impact of the introduction of the Single Farm Payment on fruit growers; and if she will make a statement; [166024]

(2) what recent assessment she has made of the impact of her proposed Single Farm Payment proposals on the future viability of orchards and fruit growers. [166448]

Alun Michael: Fruit growers were generally not eligible for the subsidies which are to be replaced by the single payment. Our proposals extend eligibility for the single payment to land which is used to grow soft fruit. Single payments cannot be made anywhere in the European Union in respect of land under permanent crops, which includes orchards.

Voluntary Initiative on Pesticides

Mr. Drew: To ask the Secretary of State for Environment, Food and Rural Affairs when she expects to make an evaluation of the success or outcome of the Voluntary Initiative on Pesticides. [166458]
